A two-month delay, occasioned by assorted press snags and editorial ill health, at least permitted a joyous announcement: presentation of the 1965 Lastore Medal to Dr. Frederick D. Rossini (left), dean of the ND College of Science, the second scientist and first faculty member so honored in the 83-year history of America's highest award to a Catholic layman. Campus of the 1965 Science Centennial is shown surrounded by (clockwise from upper left): Rev. Julius Nieuwenhuis CSC, chemist and naturalist; Rev. John Zahm CSC, synthesizer of science and religion; Rev. Francis Wenninger CSC, founder of the ND Academy of Science; and Albert Zahm, whose pioneer tunnel at Notre Dame helped to usher in the Aerospace Age. Notre Dame Night 1965

'A CENTURY OF SCIENCE'

(See cover, opposite and page 16)

Since its inception in 1924, the purpose of Universal Notre Dame Night has been to spotlight the academic, scientific and cultural contributions of the University to our country and the world. On this 42nd annual Universal Notre Dame Night we are singling out for special tribute the growth and development of science on the campus since 1965 marks the Centennial of Science at Notre Dame.

It was in 1865 that Notre Dame's first curriculum in science was established, though individual science courses had been offered even earlier. The first science graduate, in June of that year, was John Cassidy of Chelsea, Michigan, who later became a South Bend physician. In 1865 Notre Dame's total college enrollment was less than 200 students.

Today the College of Science alone has an enrollment of 600 sophomores, juniors and seniors, and 328 graduate students are pursuing advanced degrees in the Graduate School. The college today consists of departments of biology, chemistry, geology, mathematics, physics and preprofessional studies. Affiliated with the biology and chemistry departments respectively are the Louband Laboratory and the Radiation Laboratory. The College of Science faculty numbers 108, all but three of whom have their doctorates. They are engaged in research supported by more than $2.5 million in grants annually.

To sketch briefly developments through the years:

The University Bulletin of 1866 featured mathematics and science courses including natural history, natural philosophy, astronomy, chemistry and mineralogy. Science Hall was erected in 1884 as the home of the physical and natural sciences under Father John Zahm. Before the turn of the century Father Zahm had published four books, three of them dealing with the relationship between science and religion. Meanwhile, his brother, Albert Zahm, had built at Notre Dame the first wind tunnel for aeronautical research and flew man-carrying gliders from the roof of Science Hall. In 1895 Prof. Jerome Green, a member of the engineering faculty, was the first American to send a wireless message.

Rev. Julius Nieuwland, C.S.C., a name to be reckoned with in Notre Dame history, joined the faculty in 1904 after receiving his doctorate at Catholic University of America. It was Father Nieuwland who was to found The American Midland Naturalist, the Notre Dame biological journal, and it was he, of course, whose research led to development of the basic formulae for synthetic rubber. Today Notre Dame's principal science hall bears his name.

Prof. James Reyniers began his pioneering work in germfree animal research and technology in 1930, and...
the techniques which he, his associates and successors have developed through the years have become important tools in biological and medical research. The Biology Building, more formally designated Wenninger-Kirsch Biology Hall, in honor of two noted priest-scientists, was erected in 1937, and the Lobund germfree life building ten years later.

Notre Dame's research in nuclear physics began in 1935 with the construction of one of the nation's first atom smashers on the campus. In 1942 the first research in radiation chemistry took place on the campus. Today Notre Dame's research in radiation chemistry is the most extensive under way on any college campus, and it is housed in a $2.2 million Radiation Research Building erected by the U. S. Atomic Energy Commission. Another new facility is the Computing Center and Mathematics Building whose phenomenally fast UNIVAC 1107 Computer expedites research throughout the University.

These are a few of the milestones in science at Notre Dame during the past century.

The Centennial of Science at the University will spotlight them throughout 1965 with a series of special events, lectures and exhibits.

Father Hesburgh, who is a member of the National Science Board, said the centennial observance will not only focus attention on Notre Dame's past contributions to the various sciences but also the current educational programs.

Dr. Milton Burton, professor of chemistry and director of the Radiation Laboratory, was appointed chairman of the Centennial of Science Commit-

tee by Dean Rossini and outlined the scope of the centennial observance.

While the observance will be year-long, the principal events are scheduled for May 14-15, Burton said, in conjunction with the spring meeting of the University's Advisory Council for Science and Engineering. A Centennial of Science convocation will be held the afternoon of May 15 with an internationally prominent speaker and the conferring of honorary doctorates on a number of eminent scientists. A Centennial Dinner is to be held that evening in the North Dining Hall.

TRIBUTE AT REUNION

Outstanding alumni of Notre Dame's College of Science are to be awarded centennial citations during the colorful alumni reunion weekend on the campus June 11-13. Approximately one thousand Notre Dame graduates returning to the campus that weekend will receive brieftings on scientific developments at the University, view exhibits and attend a banquet.

Exhibits throughout the year will dramatize the growth and development of science at Notre Dame and the major contributions of Notre Dame scientists to their respective fields through the years, Burton said. Each of the college's departments and organized laboratories is planning exhibits for the concourse of the new Notre Dame Memorial Library.

Prof. James Reyniers, one of Notre Dame's discoverers in the biological field, started 35 years ago, as a graduate student, with germfree life experimentation which led to the establishment of the celebrated Lobund (Lobund Laboratories of Bacteriology). Germfree techniques have aided medical, dental, even space research.

PRIEST-SCIENTISTS of the past century are memorialized in the Biology Building (above), Nieuwland Hall of Science and Zahn Hall.
EDITORIAL COMMENT

from your Alumni Secretary

FIRST ALUMNI WORKSHOP: 'OUR SECOND 100 YEARS'

One of the reasons — not the only one, but definitely one — for the ability of the University of Notre Dame to enjoy marked progress, especially in these recent critical challenges to higher education, was the historical fact of an Alumni Association which gave it its first great assist in 1868.

Again in 1908, with permanent reorganization, a major era of University growth — under the late Rev. John W. Cavanaugh, C.S.C. — was accompanied by a continuous growth of the activities of the Alumni Association.

And in 1923 — with the establishment of the first Alumni Office and the ALUMNUS magazine, and a professional staff (modest as it was) — the post-World War I era and the University's first public fund-raising campaign were augmented substantially by alumni programs already under way (Old Students Hall fund, local Alumni Clubs, etc.) and by the new channels of communication.

Enrollment — helping to secure it during the depression years, and helping to screen it in the more recent pressures of the population explosion — has found alumni cooperation readily at hand.

Hardly a phase of University development escapes an alumni identity somehow in its progress.

So it is that, as the Alumni Association nears its 100th anniversary in 1968, the historic occasion seems a most appropriate one for a re-evaluation of the total Alumni Association program.

Growth has been continuous and constructive. We could have taken the line of least resistance and simply adjusted from year to year and hoped for new success.

But in studying the problems ahead of us which relate to the Association and to the University, especially those of mutual concern, your Alumni Office and your Board of Directors uncovered some major trends and some new challenges, along with fascinating opportunities.

To neglect or postpone consideration of these would not only jeopardize our progress, but it would be a basic departure from the leadership and alumni thinking of our first 100 years.

Therefore, on January 13 and 14, 1965, in conjunction with the winter meeting of the Alumni Board, the First Alumni Workshop was held on the Notre Dame campus.

Its primary purpose was not to solve new problems, or change programs, but to take the indicated long look at the upcoming second 100 years of alumni organization. It undertook to relate the trends and the problems and the opportunities, not only to the University but to the basic divisions of the Association — the Classes, the Clubs, the Magazine, and the Fund.

The Workshop enlisted a relatively small cross section of people whose areas of interest will affect, or be affected by, the decisions of the Association.

These included the Alumni Board — whose four new members will hold office from 1965 to the Association centenary year. It included top administrators and the deans of the University. And it included a small cross section of Club, Class, and Foundation officers from the alumni groups outside the campus, together with key student leaders.

The projection of the tremendous opportunities facing the University, and already in sight, provided a background for the Workshop which emphasized the urgency of consideration and the jeopardy probable if vision should fail.

This first Workshop was exploratory, identifying, crystallizing, in the broad nature of preliminary sketching of the panorama beyond 1968. We hope that the analysis of its conclusions and recommendations will dictate subsequent Workshops that, in more detailed nature, will consider the special areas of the alumni world we face — Clubs, Class organization, the Foundation program, Placement, Admissions, Student programs, and the new and exciting area of Continuing Education implemented by the imminent Kellogg Center.

The forward look of every alumnus will be essential to complete success. And every alumnus will be increasingly involved in the challenges and accomplishments ahead. Your interest and cooperation and views are sincerely solicited.

BASKETBALLERS FINISH FAST; BOW IN NCAA TOURNAMENT

For the seventh time Notre Dame was a bridesmaid in the NCAA basketball tournament. The Irish, under first-year coach Johnny Dee, suffered first-round elimination at the Texas Tech Coliseum, Lubbock, Tex., March 8, shaded 99-98 in overtime by the University of Houston.

A final regular season victory over Creighton University, 92-74, cinched the bid for the Notre Damers. This contest had all the tenseness of a tourney game in itself, as both teams had been told that the winner would go to the NCAA tourney. Indication of the desire of the “Deemen” in this game is noted in the fact that all five of the senior starters scored in double figures. Ron Reed was the leader with 22 points. Jay Miller had 18, Larry Sheffield 17, Larry Jesewitz 16 and Walt Sahn 15.

Sheffield (1,255), Reed (1,153), and top rebounder Sahn (1,077) all scored more than 1,000 points in their respective careers. And Miller just missed with 988 points. Sheffield is now the third top scorer in ND basketball history (Tom Hawkins ’59 leads with 1,820), Reed ranks sixth, Sahn eighth and Miller 12th.

With all these proficient point-getters, it follows that this team had the highest scoring average, 89.5, of any club ever to represent the Fighting Irish. It was also the tallest quintet in ND annals. Reed is six-six, Sahn six-ten, Jesewitz six-eight, Miller six-five and Sheffield six-two. A sophomore reserve, Kevin Hardy, six-five, is also probably the heaviest man to ever perform on the basketball court for Notre Dame. A regular defensive tackle in football, Hardy hits the scales at 270 pounds.

This was a “feast or famine” season for the Notre Damers. In the 15 games they won, they averaged 98.8 points per game, and seven times went over the 100 mark. But in the 12 games they lost, they averaged only 78.3.

Eight team records and one individual mark were set in the 1964-65 Notre Dame basketball season — the most proficient offensively ever for an Irish squad.

The records set include:

1. Most points scored by team (one season)—2417. (Old Record: 2374, set by 1957-58 team.)

2. Most points scored by team (one game)—116, scored against Ball State, December 4, 1964, in the Notre Dame Fieldhouse. (Old Record: 107, scored against Valparaiso, December 12, 1963, in the Notre Dame Fieldhouse.)

3. Most points scored by team (first half)—66, scored against Ball State, December 4, 1964, in the Notre Dame Fieldhouse.

4. Highest average points per game—89.5. (Old Record: 84.5, set by 1963-64 team.)

5. Most games with 100 or more points—7. (Old Record: 4, set by 1963-64 team.)

6. Most field goals (one season)—992. (Old Record: 917, set by 1957-58 team.)

7. Most rebounds (one season)—1722. (Old Record: 1637, set by 1957-58 team.)

8. Most rebounds (one game)—82, against Houston, at Houston, Texas, January 9, 1965.

9. Most points scored by a Notre Dame senior—566, by Ron Reed. (Old Record: 556, set by John McCarthy, 1957-58.)

James (Bucky) McGann, junior guard from West Palm Beach, Fla., was elected captain of the 1965-66 Notre Dame basketball team by a unanimous vote of his teammates. The announcement of the election was made by Coach Johnny Dee at the annual team testimonial banquet March 15.

Ten members of the 1964-65 team were awarded monograms, according to a joint announcement by Athletic Director Ed Krause and Head Coach Johnny Dee. The list includes five se-

EDDIE ANDERSON RETIRES

With the advent of spring football practice, we are reminded that two great coaches of the Rockne heritage — both exemplary Christian gentlemen, accomplished in a number of fields — have left the scene. Harry Stuhldreher '25 is mourned by all since his death in January, but Dr. Eddie Anderson '22, dean of American football coaches, has departed only from the gridiron after compiling a record with hardly a parallel among living major college coaches since the death of A. A. Stagg. He will continue his medical practice.

Dr. Anderson, one of only a handful of men to have coached more than 350 football games — and even fewer to have won more than 200 — decided to retire in December after 39 seasons, 21 of them at Holy Cross College. One of the 10 "winningest" coaches in the business, he has been the nation's senior mentor since Lou Little retired.

A skinny left end on Rockne's first team in 1918, he played with the great George Gipp and captained the squad in his senior year. Eddie coached at Columbia (now Loras) College for three years, then went to Chicago, simultaneously coaching at DePaul University, playing professional football with the Chicago Cardinals and completing medical studies at Rush College.

Then followed service at Holy Cross (developing stars like Bill Osmanski, who later spelled him as coach), Big Ten championships at Iowa (with players like the late Nile Kinnick), service in Europe with the Army Medical Corps and a return for 18 more triumphant years, perennial success in the East-West and All-Star games.

Married since 1929, Edward and Mary Anderson have four grown children.

JAMES E. ARMSTRONG '25, executive secretary of the Alumni Assn., is shown receiving a special medal from John W. Wheeler (right), president of the Alumni Federation of Columbia University. The award convocation was held in New York City on Dec. 30. In all, 24 representatives of American universities, colleges and secondary schools received medals for "distinguished contributions to education" in alumni work. "The Program of Honors" marked the 50th Anniversary of Columbia's Alumni federation in its present form.

"You have conceived faithfully and well a philosophy of alumni relations which is the foundation of wholehearted and stimulating response of the alumni body in splendid service to your esteemed Alma Mater. Your glowing mind has fashioned in speech and writing a lustrous stream of communication to the family of Notre Dame in support of the premise you have stated in regard to the nurture of the alumni spirit, namely that the cultivation of the college man, commencing in the undergraduate years, calls for the observance of heartwarming amenities, the skillful dissemination of useful knowledge and information to him concerning the goals and achievements of the University, and making available to him a program whereby his education and learning may continue, all to the end that he will feel himself for all time to be an integral part of the institution."

"To the American Alumni Council, in which you served in numerous offices, including that of president, you have given wise leadership, inspiration, and sage counsel, and you are respected and loved as one of the ablest and most discerning of statesmen."

CSC BROTHERS AND THE SCHOOLS

They Teach Nearly 29,000 in Some 55 Institutions

"Teaching Brothers" used to be an epithet reserved for the Fratres Scholasticorum Christianarum or Christian Brothers, but now it can be applied just as fittingly to the Brothers of Holy Cross. "CSC" now rivals "FSC" with more than 28,500 students in some 55 educational institutions around the world: one university (St. Edward's), six novitiates and scholasticates, 37 high schools and special schools in this country and 11 schools abroad on the continents of Asia, Africa and South America. Ten schools administered by the Holy Cross Brothers have enrollments over 1,000.

Two new high schools were opened last fall, one in the Eastern Province and the second in the South-West. Bishop McNamara High School in Forestville, Maryland, in the archdiocese of Washington, admitted 350 freshmen this first year. The faculty is made up of eleven Brothers and two lay teachers. The South-West province school, a diocesan institution in Wichita Falls in the diocese of Dallas, will eventually be part of a constructional high school, but this year while the school plant is being built, the three Brothers comprising the faculty conduct classes in the Academy of Mary Immaculata.

The third school, Bishop David Memorial High School in Louisville, Kentucky, presently conducted by diocesan priests and lay teachers, has been in operation for several years. Two Brothers are on the staff this year and additional Brothers will be added in succeeding years.

The list of schools and 1964-65 enrollments follow:

Notre Dame Alumnus, February-March, 1965
AN AUDIENCE AT THE VATICAN

By Howard Phalin

The day was a typical bright and sunny Roman day. Our party left the Hilton Hotel atop Monte Mario at 11 a.m. in order to keep our 12:45 appointment for the audience. In addition to Mrs. Phalin and myself, Mr. and Mrs. McKellar, the other board members present along with our Chicago group were Mr. and Mrs. Aron Franco and Father Guidetti and selected members of the Italian company.

We drove past St. Peter's Basilica and were admitted to Vatican City. The spectacular gardens were beyond description. Here we were met by members of the Swiss Guard. Upon presentation of our credentials we were escorted to the second floor of the Papal Palace in the Vatican. Here we were met by a Count Mario Stoppa of the Vatican staff and were escorted through ceremony and pomp to a Monsignor Paul Marcinkus, a member of the office of the Papal Secretary of State (and former Chicagoan). He remembered meeting Marshall Field and Don McKellar in 1953. He then took over and took us to a chamber for briefing. We then went to the room where we were soon to be greeted by the Pope himself. He was escorted into the room by several aides and sat upon a raised dais.

He evidently had been well briefed as he spoke first in Italian to a translator and then gave his remarks in English. He thanked us for wanting to see him and expressed his pleasure on our being present. I was then asked by an aide to come forward to make the presentation. The World Book Encyclopedia was on a table to the side of the throne. I carried the A Volume, which had a special presentation page. I told the Pontiff that in behalf of our company it was my great honor and privilege to present this edition of The World Book bound particularly for His Holiness as a token of appreciation and respect for his great dedication to Christian unity. You could see his eyes sparkle in thanks. In return he presented me with a silver medallion in remembrance of the Ecumenical Council. He then spoke slowly in beautiful English saying he had known of our company.

Father Guidetti then gave him the first volume of "I Quindici" (our Italian edition of "Childcraft, the How and Why Library"). Father Guidetti too received a medallion, as did Don McKellar. Then each member of our party was asked to meet the Pope separately and each received a medal.

We then received the Apostolic Blessing. At this point the Pontiff expressed his admiration for our company and our work and asked me to extend from him his Apostolic Blessing to everyone associated with our company — editorially and otherwise as well as those engaged in its distribution.

This unforgettable experience is impossible to record. For my own great honor I can never repay the debt to my company. The company gave me, as it gives everyone who joins it, a chance 31 years ago. It gave me training and the priceless freedom of opportunity for service and honor. I feel that no other company, to such a degree, could a boy from a small village without friends of influence or inheritance look ahead as he sat as a teacher, in his first job in a country school, with such great hope. This company gave me a certain amount of success. It has permitted me to be in high places throughout the world, to meet statesmen, ambassadors, and a former President of the United States, and now the Supreme Pontiff. My debt to my company is beyond my power to repay.

After the audience I left our party and went alone to the Basilica of St. Peter, the largest church in the world. There I thanked God for my privileges and said a prayer for our company and every person connected with it.
JAPAN REPORT  

By William Jacobs

Japan swings. I don't know if we'd better hurry up and convert the Japanese or hurry up and let them convert us. I only know that Japan swings from mighty, bustling Tokyo now the world's largest city . . . to the teeming city of Yokohama . . . through any number of other cities where industry and progress overwhelm you . . . to peaceful little Kamakura, where I fell in love with the whole population of 40,000. . . .

I went to Japan to serve as a professor during the first two Cursillos conducted there in English. I met a fantastic assortment of people, saw and heard a fantastic assortment of things . . .

Father Siegfried Schneider, OFM, met me at the airport. I didn't know until the next day that he was the top ranking Franciscan in Japan. We went by taxi to Kamakura where the Cursillos were to be held in a Redemptorist retreat house. Father Siegfried is an old China hand, now 60, but looking about 45, and very jaunty in his black tam. On the way to Kamakura in the middle of the night we exchanged anecdotes. His topped mine easily. He had been in solitary confinement as a prisoner of the Chinese Reds for 2½ years. "It wasn't too bad. I needed to lose weight," he quipped . . .

Father Siegfried finally guided the taxi driver to the retreat house. It was almost 3 a.m. when we arrived. The taxi ride was really something. Americans in Japan claim that all former Kamikaze pilots are now taxi drivers.

Gwyn Vaughn was in bed, but awake, in the room we were to share during the Cursillo. He comes from Tulia, Texas, and we knew each other well when I worked in the missions of the Texas Panhandle. We have worked a dozen or more Cursillos together in the States, but Gwyn has also journeyed to Ceylon, Burma, and the Philippines to help get the movement started. Now he was ready to serve as rector of Japan's first in English. . . .

In the morning, Father Bede Fitzpatrick, OFM, gave the meditation and I served as commentator during Mass. Participation was quite new to the 20 American servicemen and business and professional men making the Cursillo, and modern liturgical approaches were not completely known to the five priests present.

It took only a few minutes to get the ball rolling, however. We used hymn cards I borrowed from Sacred Heart Church, here at Notre Dame, which pleased Father Bede, a member of the class of '42.

Breakfast was a rollicking affair as it usually is at Cursillos. Then I got my first look at Kamakura . . . and fell in love instantly. It is surrounded on three sides by mountains. The other side faces the Japan sea. In the distance you can see the towering, snow-capped Fuji. The air has a strange softness. The variety of trees, shrubs and plants is amazing.

The retreat house is just below Hara Kiri Hill, a spot where 40 of the Shogun's soldiers took their lives after a defeat in battle during the 13th century. There are two Buddhist shrines near the spot and a little marker commemorating the dead. Kamakura was once the capital of Japan. It is also the birthplace of Zen Buddhism.

The Cursillo was a big success. I have never enjoyed giving the talks more. The men had a fine time. The best joke of the session was told by an Irish Columban, concerning a schoolboy sent home with a note concerning his general lack of cleanliness. The teacher received a note in return which read: "Dear Sister. He's no rose. Lurn him. Don't smelU him."

A priest who spoke at the Cursillo provided another strong friendship. He is Father Bernardin Schneider, OFM, who is engaged in translating the Bible into Japanese. Father Bernardin is a tall, lean, scholarly fellow with an easy manner and a quick laugh. He and Father Siegfried are members of a family which has provided quite a few Franciscan priests, including Father Christopher, the priest of TV's "The Priest and the Politician." He's the fellow who while pastor of a church in Buras, Louisiana, took on Leander Perez and his disciples during an integration battle . . . .

Back to Kamakura and the second Cursillo. This was at least the equal of the first. Again the Liturgy was a high point. The second three-day period went much too fast. Suddenly it was time to leave Kamakura and I panicked a little. I wondered if I could hold all that beauty inside me somehow. I was afraid if I left it I'd never really experience beauty again. It was weird . . .

A Little bit of Ireland

BILL AND FR. BEDE (3rd and 4th in the same row this picture) were joined on the second Cursillo by M. (for Matthew) James Peters '60 (2nd from top right) of the American Embassy in Tokyo. The alumni aspect of this historic occasion was increased by the use of hymn cards brought by Jacobs from Sacred Heart Church on the Notre Dame campus.
I. GIFTS OUT OF INCOME

This is the most common form of contribution.

Federal Income Tax Law allows deductions for gifts to the University up to 30% of your adjusted gross income (gross income less business expenses and capital losses) in any one year.

You may carry the balance of your deduction over the next five years should your contributions exceed the 30% limitation.

The actual cost of your gift is what you would keep had you not made the gift. It is the difference between your top tax bracket and 100%.

Example: If your gift is $100.00 and you are in the 50% bracket, your cost is 50% or $50.00.

In no case would your gift to the University cost you as much as its real value. The higher your tax bracket the less the net cost of the gift to you.

WHAT IT TAKES, Part III
Conclusion: The Role of Alumni

By REV. JOSEPH W. HOFFMAN CSC '51
Acting Director of Admissions and Scholarships

When I first accepted the offer to present a few facts about admissions at Notre Dame I hardly expected that these articles would extend to the length of a Russian novel. Were I not hopeful that my remarks may be of some interest and even of value to alumni everywhere I would have limited my appearance in this magazine to one brief shining hour. Nevertheless, the topic this time is of such importance to some of our dedicated alumni that I am grateful to the editor for allowing me more space.

In our first article we dealt largely with the changes in high school programs and the effect that these curricular revisions were having upon the preparation of college-bound students. Our intention was not to present any critique of the secondary school curricula nor any kind of study in depth. Ours was rather a simple statement of fact about the kind of credentials a candidate ought to submit to the college of his choice.

Our second article dealt with the problem of tests. Our conclusion was that testing is here to stay and that the sooner we are able to use more refined tests with greater prudence and discrimination, the sooner we will be able to guide, counsel and even teach our students better.

At this time I want to pay tribute to our Alumni Committees, both the College Night Representatives and the Interviewers. These are the quiet men. They work tirelessly and their reward is the satisfaction of having served their Alma Mater well.

Under the late Father Richard Murphy, C.S.C., certain Alumni Clubs established two committees, one for the college night representation, the other for interviewing candidates for admission. Although these committees are established with the voluntary cooperation of the Alumni Clubs, under the careful guidance of Father James E. Moran their number has grown. At present such committees are operating in more than sixty-five metropolitan areas. The first group represents the University at college night programs to which the Admissions Office has been invited to send a representative. We provide these volunteers with up-to-date profiles of our freshman class, fact sheets on our policies and brochures on particular programs available at the University. Since it is virtually impossible for us to visit in any given year the nearly 900 secondary schools from which we draw candidates, we must rely upon alumni residing in these cities to act as our spokesmen.

Their duties follow the general purpose of a college night program. They are to present information about the University in order that the prospective candidates and their parents may be led to a prudent decision about a college choice. They are influential in attracting qualified candidates to the University not only by providing information, but also by their presence, by the conviction with which they present the opportunities at Notre Dame and by exemplifying in themselves the values which the University holds most dear. It is, of course, impossible that these men in such far-flung places should be intimately aware of every nuance and detail of our courses. We have found, however, that the counsel they give their listeners has been prudent, discreet and practical.

The second alumni committee is engaged in interviewing candidates who have made formal application to the University. This is, indeed, a delicate task since so much depends upon the interviewer himself. Only the broadest guidelines may be laid down for handling an interview. So much depends upon the kind of rapport which the interviewer can establish between himself and the candidate. The interviewer must bring into balance two polarities of interest: he must acquaint himself of his responsibilities toward the University as well as those which he has toward the candidate. In behalf of the University he must try to ascertain whether or not the candidate is genuinely interested in Notre Dame. Is the candidate perhaps merely shopping about, selecting Notre Dame as a safety valve in the event that he is not selected at a school elsewhere? What opinion does the candidate have of Notre Dame? What does he expect Notre Dame to provide for him? Furthermore, the interviewer must ascertain something of the character qualifications of the candidate. Most of our alumni are already in positions where they must deal with people professionally. By lending their wisdom and experience in personnel problems to this particular situation they are able to learn a good deal about this young man.

Regarding his duties toward the student the interviewer by the fact that he is involved in this type of work demonstrates the interest which the University has in those who seek admission. The University of Notre Dame is, first of all, people; and for the young man sitting opposite him who has perhaps never had the opportunity of visiting the campus the University is this alumnus. To this student an interview is an opportunity to offer some evidence beyond cold statistics and the written testimonies with which the admissions officer must deal. However brief may be the interviewing period the student realizes that the evaluation by an alumnus will become part of his permanent record and he wants the reports to be as honest and comprehensive as possible.

Finally, the fact that the interview is being carried on by an alumnus lends a new dimension to the situation. Most candidates are well aware of the strong ties which bind the alumni to Notre Dame and to each other. Hence, they know that should they be accepted for admission they will enter upon a new relationship with this interviewer which is somewhat unique.

Wherever an interview committee has been established all candidates in that locality must answer the summons of the chairman or his committee member. It is not an optional matter as some young men in the past have thought. An office interview does not suffice to meet this requirement. We consider the alumni interview so important we do not dispense with it even when the candidate has been interviewed by the admissions officer on campus. In the past the alumni interview has been of considerable value in the selection of our candidates.

In conclusion I want to repeat a truth which is so fundamental that it is frequently forgotten. The ultimate responsibility for accepting students in Notre Dame Alumnus, February-March, 1965 13
to Notre Dame rests with the Office of Admissions. Nowhere else is there gathered a complete profile on the student. No one else can lay before him the accumulated information including the high school record, recommendation of the principal, Alumni reports, test scores and all the other factors which go into an admissions decision. No one else has had the opportunity to gain the proper perspective by reading, rereading and evaluating the folders of hundreds of candidates. No other office has been charged with the same responsibility. It is not an easy burden; we do not bear it lightly. But together with the faculty, administration and alumni, we dedicate to our task whatever wisdom and discernment may be ours so that the brighter promise of today will be for Notre Dame the reality of tomorrow.

FATHER COUGHLIN AND THE NEW DEAL.

Rev. Charles E. Coughlin of Royal Oak, Mich., pastor of Little Flower Church and popular "radio priest" of the 30's and 40's, joins Eugene Debbs, Adlai Stevenson, Norman Thomas, Gifford Pinchot, Oswald Villard and Henry Wallace in the Syracuse Press "Men and Movements" series on "political and social nonconformists and their impact on the American scene."

Author Tull, an assistant professor of history at De Paul University in Chicago, concentrates on the years 1926-1942 during which the eloquent pastor from Canada built up a radio audience of some 30 million Americans, first in vigorous defense, then in equally vigorous denunciation, of the administration and policies of Franklin D. Roosevelt, founded the weekly newspaper Social Justice and launched a succession of ill-fated economic, political and social movements before he was silenced by Archbishop Mooney of Detroit.

Every possible precaution is taken to make this a fair and unbiased analysis of the shifting currents in the tide (more ebb than flow) of Father Coughlin's "public" career: attack on the Hoover administration and espousal of the New Deal program in one-sided "partnership" with the aloof Roosevelt; gradual disillusionment with the pace of reform and establishment of the National Union for Social Justice; uneasy coalition with Dr. Francis Townsend and Gerald L. K. Smith in the Union Party.

FATHER HOFFMAN
Third of Three on Admissions

Prof. Hazo, associate dean of the College of Liberal Arts and Sciences at Pittsburgh's Duquesne University, is perhaps better known as a poet than as a professor of English. In addition to two previous volumes of poetry and a study of the poems of Hart Crane, he has worked on several anthologies and written for the leading literary magazines. Recently he completed a State Department lecture tour of major universities in Lebanon, Jordan, Egypt and Greece, reading his own and other American verse.

This is the most comprehensive view of the Hazo landscape to date, containing highlights from his earlier Discovery and The Quiet Wars as well as new work representing the complete spectrum of his lyric palette. "The Rebellion" is a nine-line manifesto of his life and art, dismissing "the oversimplified monetary schemes as a panacea, and the later isolationism, red-baiting Anglophobia and anti-Semitism as demagogic straw-grabbing. But he conceives that wealth-controlling "international bankers" were one threat of the 30's and that the early tirades were inspired by sincere compassion for the poor and Detroit Bishop Gallagher's devotion to the economic encyclicals of Popes Leo XIII and Pius XI. He offers persuasive proofs that the priest furthered Roosevelt's programs much more than vice versa but cites the 1936 election to refute any claim to real political influence.

Finally, he dismisses as unproved the liberal intellectuals' charges of Father Coughlin's insincerity, political ambition or "fascism," similarly dismissing the "intellectually fashionable" theory that this was "fascism," similarly dismissing the "intellectually fashionable" theory that this was a link joining Populism with McCarthyism and today's "radical right."

Although lacking the cooperation of the Detroit Archdiocese and the aging pastor, who would prefer not to resurrect the embarrassment of the past, Dr. Trull draws on all the papers and personalities of the Roosevelt administration with painstaking scholarship in this colorful study, acknowledging the help of the Notre Dame library staff as well as Prof. Thomas McAvoy C.S.C. and Dr. Vincent Desantis, former and present chairmen of the history department.

RELIGION, REVOLUTION AND REFORM: NEW FORCES FOR CHANGE IN LATIN AMERICA. Edited by Dr. William V. D'Antonio and Dr. Fredrick B. Pike, Frederick A. Praeger, New York, 1965. Hard cover, 265 pp., $5.95.

Eduardo Frei Montalva, president of Chile, and Most Rev. Mark G. McGrath C.S.C. '43, Bishop of Santiago de Veraguzas, Panama, are among a dozen contributors to this symposium volume on the place of the Church in political and social crisis in Latin America, edited by Profs. D'Antonio and Pike of the Notre Dame faculty of sociology and history, respectively.

Result of a Rockefeller Foundation-sponsored conference on "Religion and Social Change in Latin America," the book also contains papers by Latin American experts from Indiana, Pennsylvania, Rutgers, Wisconsin and Vanderbilt universities, the Catholic University of Chile, etc., as well as the leading Latin American labor unionist and a Washington economic consultant.

Each contributor has a different viewpoint, but most agree on the principal problems: overpopulation, inequitable distribution of land and wealth, inflation and financial chaos, lack of technical skills or capital resources, ignorance, lethargic leadership, etc., all producing a political unrest fomented by Communists and an antici­

fixed and terrible precision of the art" in favor of "the beautiful confusions of the sky." The tender intimacy of parenthood and family life shines in the sections headed "Child" and "Generation." His own experiences as a serviceman, writer and teacher are reflected in the groupings entitled "Soldier," "Words" and "Students." Outstanding among the operations, both sacred and profane, are his thoughtful observations about such personal matters as his "sacred" shampoos and "profane" voices, while his most subjective experience in life, love and human encounter is contained in the chapters "Myself," "Tangles" and "Now."

Rich in allusion but seldom obscure, lean and sparing of rhyme, with an almost prosy colloquialism and clarity, the nearly 50 brief and pointed poems are a truly justified dust-jacket description as "conversation." Philip Booth has written: "Samuel Hazo is a poet of human occasions, a man for whom poetry is no more occasional than the wonder of being alive. Decency in a difficult world is his subject; his poems enliven that world with an individual love. They are poems that are not about a man, but for a human man." Literary journals have remarked his "polish, sharp eye, wit and emotional range" or his "rare integrity: he can write honestly about himself and still come off with your respect and even affection." Winfield Townley Scott, writing in The New York Times, summarized that "his poems are more impressive as you reread them. A simple test indeed, but I don't know of a better one."

With the publication last fall of The Good Samaritan (LPP 9) and The King and the Servant (LPP 10), delightful adaptations of the familiar parables designed to teach Christian charity, piety and forgiveness to toddlers, the Little People's Paperback series now numbers ten.

Many will remember God Made the World and How the Animals Got Their Names, retelling the story of the Creation and naming the creatures by God; They Disobeyed and God's Big Promise, explaining Original Sin and Redemption, the Fall and the Coming of Christ, in terms of the family; The Story of Christmas, The Little Grain of Wheat, He Obeysed and The Easter Lamb, presenting the Mystery of the Incarnation, the Passion and Crucifixion of Christ and the Resurrection in narrative and pictures suitable for the smallest child.

The simplicity of Pottebaum's stories, designed to make the Bible come to life for children under eight, and the imaginative art of Strobridge (formerly of Ave Maria magazine), brilliant collages of paper, paint and color photography, have been praised by such publications as The New York Times, The Bible Today and Christian Century.

The apostolate of the late George A. Pflaus, producing books, texts, periodicals and teaching aids for Catholics, is being carried on by such alumni as George Jr. '54, John Defant '48 and William Pflaus '61.

THE MEMORIAL LIBRARY AND THE NOTRE DAME COLLECTION

Director of Libraries Victor Schaer wishes to thank the following for their recent donations of books to the Library: Mr. Tom Blazina for a book of his military reminiscences (Cobb, "Ike's Old Sarge"), dedicated to Joseph Blazina '57 and James Blazina '63.

1919-20 "SCHOLASTICS" NEEDED

The staff of the Memorial Library has reported a shortage of the Notre Dame SCHOLASTIC magazine for the academic year 1919-1920. Anyone with single copies of these issues or information on their location is asked to contact Victor Schaer, Director, Memorial Library, Notre Dame, Ind. 46556.

The purpose of this book, as stated in the foreword, is to present an objective study of the theoretical principles of Communism as they are practiced today. It is meant primarily for those readers who with a deeper, more systematic understanding of the tenets of Communism without being required to suffer the annoyance of an attempted conversion — pro or con — in the process. Dr. Hampsch is an assistant professor of philosophy and a member of the Institute for Soviet and Eastern European Studies at John Carroll University in Cleveland.

This is a new introduction to ethics, dealing with both classical ethical theories and such current issues as charity and justice, war, faith and worship, family, sex and work. Emphasis throughout is on man not only as author of a moral decision but as central in criteria of morals and the end achieved by moral life, with reference to recent anthropological studies. Questions and topics for discussion at chapter ends are designed to raise issues rather than settle them. Fr. Ward, professor emeritus of philosophy, took advanced Aristotelian-Thomistic studies at Catholic University, Oxford and Louvain. Author and editor of many books on moral, educational, social and ecclesiastical philosophy, he is doing research on the philosophical bases of panhumanism.

A brilliant decade of one of the world's most colorful cities is described in this detailed study of New Orleans before the Civil War, a panorama of the people, places, events and politics of a city with more millionaires and more yellow fever than any other in the US. Covering every aspect of the city's life and culture, it is carefully indexed and illustrated with 60 line and halftone effects well in advance of publication and effects substantial savings for subscribers. SCUTTLEBUTT ON THE SPRING SEMESTER

AFTER ENCOUNTERING the traumatic experience of a three-day final testing period and its logical sequel, an equally lengthy semester break, most students are already deeply entrenched in this semester's studies. Many expected an upward bounce of our football record. Previously there was a genuine anticipation that their season would be commensurate with the remarkable performance of our football team. This desire may yet be realized in a few years. Others are still attempting to determine how much money they donated to charity as a result of their penchant for gambling over Mardi Gras Weekend.

CENTENNIAL OF SCIENCE

The College of Science under the direction of Dean Frederick D. Rossini has scheduled a series of special events, lectures and exhibits to mark one hundred years of science teaching and research at Notre Dame. The focal point of this observance will be a centennial convocation and dinner May 15.

Dr. Milton Burton, director of the Radiation Research Building, chairs the committee planning the commemoration of the College of Science's Centennial. He is anticipating a great emphasis on science throughout the calendar year. Concomitant with this observance are a series of exhibits depicting the nature, function and projects of the various departments of the College of Science. They are being displayed in the concourse of the Memorial Library for the duration of the spring semester. Meetings of a scientific nature will be increased as evidenced by the completion of three Centennial lectures in January and February alone. Furthermore, the Reilly and Nieuwland Lectures will be Centennial oriented. One of the Reilly Lectures will be Prof. Aaron Kuppermann of Caltech, who has gained recognition as a physical chemist. His lecture in October will be unique in that he is the first alumnus of Notre Dame to give a Reilly Lecture. The Nieuwland Lectures in November, traditionally amalgamating biological and chemical interest, will feature Konrad Bloch who has recently been awarded the Nobel Prize for his Biosynthesis of Cholesterol.

The Centennial convocation in May will feature historical reports by the dean and heads of the departments, descriptions of research activities, as well as open house and exhibits in all departments and labs of the College of Science. High point of the convocation will be a dinner in honor of a number of eminent scientists and presided over by Father Husburgh. The dinner will be culminated by a distinguished scientist and humanist who will address the guests on the nature of his work.

This emphasis on science, and in particular science at Notre Dame, will be manifested in both Spring Commencement and alumni reunions with specific recognition of our alumni scientists. Universal Notre Dame Night, April 26, will feature the merits of our College of Science as its theme. An interesting note to this observance is that the recipient of the first Bachelor of Science degree awarded by Notre Dame in 1865 proceeded to medical school and practiced medicine in the South Bend area.

In conjunction with the Centennial observance ground breaking for the new Life Science Building, to be located adjacent to the Mathematics & Computer Center and juxtaposed to the stadium, will take place in early fall. This magnificent 4½-million-dollar structure will facilitate the teaching needs of the Biology Department as well as accommodate the expanded Mosquito Genetics labs and various Lobund Germfree projects.

FRESHMAN STAY-HALL PROPOSAL

A current and highly controversial topic on campus is the proposal of a new stay-hall residence plan. The basic feature of the proposal is the institution of an experimental system of true four-class integrated halls for a trial period. Questionnaires on the system will soon be distributed to the students and evaluated by the Student Senate before final action on the plan will take place. If the plan is approved, an equivalent quota system will be established next year for Alumni, Dillon and Farley. For Farley, it will be 88 freshmen, 80 sophomores, 77 juniors and 78 seniors; in Dillon the numbers will be 120, 112, 104 and 108, and in Alumni 90, 82, 78 and 80.

In three years the system would, according to the proposal, be extended to the entire campus if its merits can be justified to outweigh its deleterious effects. A factor in this consideration will be the existence of two new undergraduate residence halls which would provide 600 plus accommodations.

Proponents of the system feel that the new plan will attenuate the hiatus between class lines, hall unity and one's social sphere. It is also theorized by some that it will expedite the development of maturity in the part of the freshmen, thus polarizing the upper-class halls rather than mitigate the problems of the current stay-hall plan through the creation of an even more complex class lines, hall unity and one's social sphere. Their theory is substantiated by the argument that the Freshman Year of Studies is set up to regulate their orientation gradually on the academic level, so why create a social-academic incongruity by integrating the four classes in their halls? They also point out the importance of a development of proper study habits and class unity while at the freshman level.

The stay-hall plan will remain a major issue for a number of years until the factor of time can clarify the system.

MARDI GRAS, WASHINGTON DAY

The perennial and widely enjoyed festivities of Mardi Gras at Notre Dame were again a success. It is hoped that $25,000 will have been raised for charities, scholarships and student projects as result of our participation in the numerous events. The colorful carnival and impressive Mardi Gras Ball and or four years which would provide 600 plus accommodations.

Alumni in Art--III:
Anthony John Sorce, Painter

MASSIVE OIL PAINTINGS, four to eight feet high, are typical of Sorce's style and subjects on canvas, wood and Masonite panels, primarily concerned with space and division of surface areas. Brooding quality of backgrounds and distortion of his attenuated abstract human forms, somewhat reminiscent of El Greco, have caused one newspaper writer to describe his theme as "loneliness expressed through death figures." The artist's objection that his recurrent theme is creation and the human condition is borne out by such titles as "Incarnation," "Crucifixion" and "Resurrection." Although subject matter sometimes inspires a work, his principal involvement is form and the working out of plastic problems. Usually "only in the process of painting and coming to a kind of solution of these problems does a subject emerge."

ANTHONY SORCE BFA '61, MFA '62, is building a large and enthusiastic public in the Midwest and just beginning to win a wider recognition. In recent months, beside exhibits (University of Michigan touring show, the first national print exhibit at Western Michigan U., midyear exhibition at Youngstown's Butler Institute) and one-man shows (Nazareth College, Battle Creek and South Bend Art Centers), he had a painting on display at the New York World's Fair (Michigan Room, Pavilion of American Interiors); exhibited drawings at the Instituto de Cultura Hispanica in Madrid, Spain; was the subject of an article in La Revue Moderne des Arts et de la Vie, Paris; and began to exhibit in New York galleries.

A native of Chicago, Tony won a scholarship, Chicago Artist Guild prize and diploma from the American Academy of Art before coming to Notre Dame. On the campus he was awarded annual Ivan Mestrovic student assistantships right into grad school, plus the Jacques Silver Medal in his senior year, meanwhile taking honorable mentions at the Illinois State Fair Professional Art Exhibit, the Chicago Artist Guild watercolor show and the New York Society of Illustrators scholarship contest, as well as the $200 purchase prize at the Chicago Union League art exhibition. Since then he has exhibited in the American Watercolor Society show at the National Academy of Design, the Liturgical Art Exhibition at the U. of Illinois, Watercolor USA at the Springfield (Mo.) Art Museum, at Northern Mississippi Valley, Michigan, Michiana and Kalama-zoo area exhibitions.

Although his reputation is slowly becoming international, Tony is keeping his regional roots as an instructor and artist-in-residence at Nazareth College, Nazareth, Mich.

STRONG DESIGN is evident in all Tony's drawings, subordinating scenery and figures barely sketched to abstract geometrical form in the manner of Cezanne or the later Cubists. He is equally at home with pencil or pen, brush or engraver's needle, mixing such media as ink, gouache, wax, watercolor and polymers.
Law Honors Banquet

Mr. Lewis Powell, member of the Richmond, Va., Bar, and president of the American Bar Association, will address the annual Law Honors Banquet on May 3, 1965. This is the eighth consecutive year in which the incumbent president of the Association has addressed the Law Honors Banquet.

Spring Symposium

The annual spring symposium will be held this year on Saturday, March 27, 1965, and will be devoted to “Violence in the Streets, U.S.A., 1964.” Not all of the speakers for the event have been chosen, but three have agreed to participate as this is

Natural Law Forum

The Board of Editors of the Natural Law Forum met on the campus in October to review volume 9 of the Forum, published last year, and to discuss contributions for the 1966 volume. Members of the Board present included: Professor Vernon J. Bourke, St. Louis University; Professor Lon L. Fuller, Harvard Law School; Professor Iredell Jenkins, University of Alabama; Professor Myres S. McDougal, Yale Law School; Professor H. A. Rommen, Georgetown University; Professor Andrew T. Smithberger, managing editor; and Professor John T. Noonan, editor. Guests included Dean O'Meara and Professor David Daube, Oxford University. Professor Daube addressed for that purpose in November. The group which they will head will be called the Notre Dame Lawyer Alumni and will consist of graduates of the Law School who have been members of the Lawyer staff. The group will encourage all Lawyer alumni to submit critiques of review content, solicit critical comment from specialists in areas covered in Lawyer articles and notes, and to assist incumbent editors in obtaining lead article manuscripts from the profession.

Faculty Notes

Dean O'Meara and Professor Thomas L. Shaffer are co-authors of the lead article discussion of obscenity cases in the Supreme Court of the United States, to be published in the first number of Volume 40 of the Notre Dame Lawyer.

Professor Robert E. Rodes, Jr., is the author of an article on the law of polygamy in the United States which has been accepted for publication in the New Catholic Encyclopedia.

Professor Shaffer's article, “Appellate Courts and Prejudiced Verdicts,” was published in the October University of Pittsburgh Law Review.

Mr. Vincent J. Romeo, lecturer at the law school (on government regulation of business) has been appointed executive vice-president of Miles Laboratories, Inc. He has been president of the Miles Chemical Division of the company for the past year and will continue in that post.

Assistant Dean John J. Broderick addressed the members of Beta Sigma Chapter, Beta Alpha Psi, National Accounting Professional and Honorary Fraternity, on the campus in October. He discussed the program at the Law School. Dean Broderick also visited six New York colleges in October to discuss legal education with students there; these included St. Bonaventure University, St. Bonaventure; Canisius College, Buffalo; Niagara University, Niagara; LaMyne College, Syracuse; St. John Fisher College, Rochester; and Siena College, Loudonville.

News Notes

Mr. John R. Coryn, '52, '53L, was elected a judge of the Illinois Appellate Court, Third District, Rock Island, Ill., in the elections last fall. Judge Coryn is a former legal officer in the Judge Advocate General Corps, United States Army.

Mr. James Kane, '60L, was elected a member of the New York Assembly from Buffalo, N.Y., in the November elections. He was note editor of the Notre Dame Lawyer in 1959 and 1960.

Lt. Michael J. Stepak, '61, '64L, was appointed company commander of his officers’ training unit at Ft. Benning, Ga., before he was transferred for training in military justice to the Army Judge Advocate General's School, Charlottesville, Va. He will graduate from the Army legal school in February and then expects to be assigned duties as a legal officer at Ft. Sheridan in Chicago.
Father Cointet and the Fever: 
A Time of 'Bitter Afflictions'

Some have said that the spirit of Notre Dame can be found beneath a little white cross or on a grave marker of some sort. They have gone elsewhere on that unreturning journey, these men of the past, priests and brothers and laymen. One of the priests from the early days, a Father Francois Cointet, C.S.C., is almost as unknown as the soldier in the tomb at Arlington Cemetery. He is buried beneath the church on the campus next to Father Petit and Father Deseille. Like them he was a missionary in heart and in fact. Like them he worked hard to bring love and hope to a wilderness. Like them he died young so that a new world might grow old.

A Rare Spirit

Father Cointet was ordained for the diocese of Mans in 1839 and assigned by his bishop to a parish in Chatillon. In this place and in this work he was indefatigable. He had an ardent zeal and a rare spirit of order. Most of all he was a man of prayer. During those years as assistant parish priest he began to think more and more of foreign missions. He matured his hopes and longings in prayer before God. Then one day he saw a letter from Father Sorin to Father Moreau. This was the clarion call. As with most things in life the good Abbé found opposition to his hopes and plans. Finally he got permission from Bishop Bouvier to leave for America and Notre Dame. This he did with great haste. The trip was not only long but the sea travel was violent. He and his companions—two other clergy men, several brothers and four sisters arrived at Notre Dame in July of 1843.

Father Cointet would be the first to denounce any praise for himself. He would be the first to point to the others who also endured great hardship and gave their lives to work in this area. He would be much too busy to listen to praise. Read these words from an account of him written in 1855, a year after his death. "After a fervent novitiate of one year, he made his solemn religious profession in Holy Cross. From that time he may be said to have had no other aim in life, no thought or desire . . . except, in a word, the salvation of souls. His zeal never failed; his charity was inexhaustible; . . . Self seemed to be, in him, forgotten, annihilated; no fatigue was too great, no labor too severe for him. God's interests were his only consideration and to secure these by the salvation of a single soul, he would, at any time, have willingly offered up his life." A glowing tribute, indeed. And mission-minded though he was, the dynamic little Frenchman was also assigned the task of teaching. The same source quoted above says: "The activity of his mind was so great that he frequently performed the work of two or three persons." Small wonder that Father Sorin used every means possible to keep him at Notre Dame. Small wonder that the new work in New Orleans kept seeking him. Those difficult years were difficult not only because of so much work to be done but also because of great sickness and many deaths. They were the trying times of malarial fever and cholera. In the late summer of 1854 nineteen new graves were dug. On the 13th of September Father Cointet, sick with fever, came back from his missions. He thought he would get well. But Father Sorin had seen too many deaths not to know the signs. "When I saw he was going to die, I thought I would lose my mind. For eleven years he had been the glory, the light, the joy, and the life of the community and the missions." This was great praise from Father Sorin.

A Desperate Fight

All of us who have so much today owe much to those who suffered so in the past. It is hard for us to imagine their trials and hardships. At various times between 1847 and 1855 an epidemic crept on and off the campus. Each time, the angel of death was a traveling companion. A dormitory would become an infirmary. Anyone who was well enough to walk became a nurse. Funerals at night were not uncommon. At one time five brothers and three postulants died. Up the road in Bertrand, Michigan, the poor sisters were also suffering. Students were attacked with the disease and sometimes they were sent home in coffins. And in South Bend and nearby towns the people were blaming Notre Dame for the epidemic. This was not really their fault. They knew many of the priests, the brothers, the sisters, the professors, the students. They heard of their deaths. They blamed a marsh that surrounded the lakes as the cause. Whatever the cause Father Sorin blasted, and not just verbally, the dam that made the marsh. He had tried to purchase the land that formed the dam but the owner was greedy and wanted an unfair price. The bearded patriarch had seen enough of suffering and death. The men of his heart who had worked so hard and died so young were not to be denied. This was their place; this was their life; this was their school! Dynamite it was, and as the murky waters of the plagued marsh slushed to the river Father Sorin remembered in Mass that Holy Thursday of 1855, the souls of those who fought the good fight, the men of every season, who died that we might live. The words of the psalmist must have been his many times during those critical years.

... O God, forsake me not
Till I proclaim your strength
to every generation that is to come.
... Though you have made me feel
many bitter afflictions,
You will again revive me.
From the depths of the earth
You will once more raise me up...

Akron
Thirty Notre Dame men and their wives attended the Annual Christmas Dance at 5:30 pm on the Feast of the Immaculate Conception.
Holy Mass and Communion were offered in commemoration of the late JOHN CARDINAL O’HARA CSC. It was Father O’Hara, as prefect of religion, who first introduced the idea of a Notre Dame retreat. The evening was dedicated to the late Cardinal who was chosen to be the campus to be known as the City of the Holy Mass.
Mass was held at 7 pm in the Patio Room at 327 West Exchange St. BRUCE RAFF was chairman. In place of the Annual Christmas Dance, a Dinner Dance was held on Jan. 16 at the Akron City Club.
Additional details from EDDIE BUTLER JR., chairman:
“This has been an outstanding year for Notre Dame. The year of the New ARA and the Big DEE. The year of excellence for which many of you have waited. It is the year of change, and that change engendered new spirit and confidence in a great tradition.
“But the year is only half over and the confidence that change can enliven a great tradition has prevailed deeply into the national fraternity of Notre Dame alumni. The Notre Dame Alumni Club of Akron called on the formula of change to enliven their annual Christmas Dance.
“This year we decided not to compete with the children’s Christmas party or the debaters’ entree. We decided that not only feasts and good times to add to the frantic pace of the year’s last hours . . . and shortly after the beginning of the year . . . a relaxing evening of cocktails, dinner and dancing at the Akron City Club.

Baltimore
In keeping with the “Em of Ara” the Baltimore Club has taken on new life. On Oct. 31 there was an excursion to the Woodmar Country Club to sing your own Navy game. A big turnout and lot of noise.
Next on the agenda was the Michigan State-XD Smoker on Nov. 14. A noticeable “Salvay Alumni” turnover helped to make the day. More to cheer about.
The latest successful function was the ND Communion Sunday on Dec. 6. It was family day for the Baltimore Club that heard Auxiliary Bishop MURRAY speak on “Liturgical Changes in the Catholic Church.” a timely lesson in ecumenism. ROBERT W. PEREZ was chairman.
Plans have been rolling for the Annual Scholarship Ball on Feb. 12, 1965. Nearly 10% participation was anticipated to get a big to ND. St. Patrick’s Day festivities and Universal Notre Dame Night are also in the works to complete a full year of activities for the ND Club.

Chicago
First of all, one big vote of thanks to the 1,257 who turned out to make the 1964 Rockne Memorial Dinner a success. We knew that Ara and his legions would turn out to be the Number One team in the country, we booked a big room that seated more than 1,000. For that our respect nearly 300 had to sit in an adjoining room, but from the cheers that resounded through the Hall of the Pick-Congress for ARKA PARESEGHAN, members of the Fighting Irish. FRANK LEAHY, and the Rockne nominees, it was evident that a good time was had by all.
The next two club events—the Communion Breakfast and Universal Notre Dame Night—are just around the corner, so watch for the announcements.
One of the most successful functions, which was chosen for their athletic ability, academic achievement and leadership qualities. The winners, who received scholarships from JOHN LATTNER and TOM CAREY, were outstanding athletes. Richard “Chico” Kurzweitz of Weber High School, won the Catholic League trophy, Chico, who gained more than 1,000 yards during the season and tallied 20 touchdowns, led his team to the city championship. His coach was JOE SASSANO ’55. He also was an outstanding scholar, elected president of his class for the past three years. Jim O’Toole of Riverside-Brookfield High School, one of the best kickers in the country, was judged the Rockne winner in the suburbs. Jim, another fine student, averaged better than 14 on four consecutive SAT’s. Doug Boe of Lane Tech, who quarterbacked his team in the Public League finals, was chosen best in that loop. Doris who participated in several sports, also was active in many extracurricular activities.

Columbus

The Columbus Club of Ohio held its fall business meeting Nov. 10, at the Columbian Athletic Club. We had the best turnout in two years to hear REV. JOSEPH W. HOFFMANN CSC '51, director of admissions and scholarships, talk on admissions at the University. Refreshments and films of the 1950 season followed the talk.

Club membership reached the 67 mark this year. All dues-paying members are listed in bold face type in the new Club Directory. Dues revenue helps maintain the full-time Club office in the First National Bank Building. If you have any questions about ND, changes to report on business affiliation or residence, etc., just give us a call at 743-6063. Incidentally, we are "Go Irish" telegrams with the strains of the Victory March about to be heard. Despite the season's first snow storm, a good gathering of alumni, their wives and friends turned out for the Club's annual Christmas breakfast. Thanks also to FATHER JOYCE. PHIL FACENDA, and MOOSE KRAUSE for helping out the Club's annual Communion supper on Sunday.

The club has been particularly fortunate in the speakers who have addressed its functions this year—FATHER HEBBURGH, ED (MOOSE) KRAUSE and, on this occasion, FR. RICHARD H. SULLIVAN CSC, provincial superior of the Holy Cross Fathers' Eastern Province.

Father Sullivan, a former member of the Notre Dame faculty and, until his recent appointment as provincial, president of Stonehill College, North Easton, Mass., gave an interesting and informative talk on Notre Dame and on the activities of the province which he now heads. He outlined the vast changes in the Notre Dame campus since he first went there as a seminarian, and described to the gathering the many educational and missionary activities under the care of the Eastern Province.

The Holy Cross Fathers, incidentally, are very proud of the football team at Notre Dame High School in Detroit, which this year made the 9-1 record of Ara Parseghian's club and won the Interstate championship. The school is one of two high schools conducted by the Eastern Province.

COLLEGE NIGHTS these days. At the same time ED FOX and the 45 members of his Interviewing Committee are talking to each high-school senior who applies to Notre Dame. It's quite a job, and ED is looking for volunteers. Give the Club a ring.

Chairman ED MORAN of the UND Night Committee says the program will be kept to plan to be on hand. Chairman Jack THORNTON of the Communion Breakfast Committee says that this event has never been more appreciated, so be sure to attend.

On Dec. 26 the Club held its annual Alumni-Student Christmas Dance at the Brookside Country Club. JOHNNY JOHNSON '44 was again chairman of the event. High-spirited, the dance began with dinner about 7:00 pm and ended with the strains of the Victory March about 1 am.

Dallas

On Sunday, Dec. 6, 1964, the Notre Dame Club of Dallas held its annual Christmas breakfast. Members of the Club attended in a body at the Holy Trinity Church in Dallas and then had breakfast at the Lucas B & B Restaurant. Arrangements for the Christmas meal were made by FRED EICHHORN. JIM WALSH was the principal speaker at the breakfast and made an excellent presentation on the Notre Dame Foundation.

On Saturday, Dec. 26, 1964, the annual Christmas dance was held at the Lakewood Country Club. Students and alumni from the area were in good attendance and enjoyed dancing to the music of...
Dearborn

Like all the other ND Clubs and alumni throughout the world, the Dearborn Club was overjoyed at the amazing performance of the Irish team in the 1964 Fighting Irish. To everyone who had a hand in the most phenominal comeback in the history of college football, we would like to add our note of appreciation. It certainly is wonderful to have our prestige restored and to see the famous spirit of Notre Dame at its best once again.

About 30 of the Club members had the foresight to purchase a box at the Dearborn Club's Christmas home game against Purdue. Needless to say, HANN- DECAULWIE, JIM ENGLEHART, BOB MISSELL, JERRY MOONEY, and all the other guests at the home game were treated to a remarkable display of both offensive and defensive football. BILL FURHAN and FRANK SHERIDAN were especially impressed with the fine work of sophomore Alan Page. After the game the caravan headed north to the Diamond Harbor Inn to celebrate the victory, and celebrate we did. The only concern we had on this almost perfect day was whether Vice-President RAY DEFUAW was going to be home for the night. Finally, he returned to his home where he was asked to give grace after meals he lead us in a Hail Mary! And after 16 years of Catholic education, we were overjoyed.

The Denver Notre Dame Club's Christmas Dance was the highlight of the Holiday Season. Many members of the Denver Club actives because so many of us were busy with the plans for the coming months.

### Ft. Lauderdale

This fall quarter of our 1964 year has proved to be just as active and successful as the earlier part of our year was. In my last letter I told you about the Alumni Send-off, and the Club golf tournament, both of which were held during the month of September.

Our October monthly meeting was the occasion for our annual Sweepstakes drawing which we held on Oct. 15 at the Governor’s Club Hotel in Fort Lauderdale. The Sweepstakes prize this year was an all-expense-paid trip to the Navy game in Philadelphia. JOHN SULLIVAN ’31 was the happy winner. We also had an alternate prize. We had a fine turnout of alumni and members for the drawing, including among many others Marge and FRANK McDOUGAN ’41, Dolly and TOM WALKER ’42, Betty and FRANK McGinn ’52, Marilyn and BOB MCDONAGH ’52, Judy and TOM MAUS ’57, Maxine and A.J. FITZGERALD ’44, Willma and PRESTON TROESTER were guests from the campus at the recent trip to the campus. BOB SCHAEFER ’53, Bill KERWIN ’40, and their sons and special guests participated at Mass at the St. Norbert Abbey, De Pere, Wis. Following the service, Frater Conan (PATRICK) MULVEY spoke on them in my next missive, including UND Night and the Annual Communion Breakfast was held at the St. Norbert Abbey, De Pere, Wis. BILL KERWIN ’40, local general chairman of the Challenge II program, spoke and showed slides which he had taken on a recent trip to the campus. BOB SCHAEFER ’53, club president, was away due to the death of his father in Kansas on Nov. 26, 1964.

### Indianopolis

Not much has taken place since my last writing. The Christmas spirit is evinced by the last minute hustle and bustle as the alumni do their last minute Christmas shopping. Our Scholarship Ball, held on Sept. 25, was successful thanks to the efforts of Chairman JOE FITZGERALD ’44 and ED FILLWORTH JR. ’50. The Annual Communion Breakfast was held at Brebeuf Preparatory School on Sunday, Nov. 29. FR. KEN SWEENEY said the Mass and MSGR. GALVIN delivered an inspirational talk on the life of JOHN CARDINAL O’HARA CSC.

Many activities are planned for 1965. I will report on them in my next letter, including UND Night with FATHER HEBRUGH and the ND-Butler game. More anon.

### Kalamaoo

HUGH DEVORE and the Foundation’s DENNIS TROESTER were guests from the campus at the Challenge II Night held by the ND Club of Kalamaoo on Feb. 12. FRANK KERJES has been serving again as president of the Club in recent months, instead of BILL MCDONAGH ‘52, our president.

The Club had a recent addition to its membership in DEAN DAVIS ’56, transferred from Kansas City, Mo., as branch manager of Associate Discount Corp.

### Kansas City

The officers of the Notre Dame Club of Kansas City held a luncheon meeting on February 8 to discuss activities for the coming year. Present at the meeting were HAROLD SOLMOM ’47, president; CARL ERFMeyer ’51, vice-president; CHARLES O’NEILL ’51, secretary; and ROBERT MITCHELL ’50, treasurer. The annual meeting were ED McELWAIN ’48, TOM McGEE ’54, JOE WASSON ’32, and JIM HIGGINS ’53. Some of the items discussed were: Universal Notre Dame Night, a possible luncheon for the Freshman Send-Off Dinner and the Football Trip.

The Notre Dame Auxiliary of Kansas City held a very successful luncheon in February.

Readers are requested to remember in their prayers BENJAMIN F. TYLER JR. ’23, who passed away November 15.

### Kentucky

Another Christmas has come and gone, and with it the usual full calendar. At the top of the Kentucky Club’s calendar was the Family Communion Supper, traditionally held on December 8. Chairman LEO BROWN ’50 provided an excellent speaker, prominent Kentucky mission priest Father Ralph Brat, who gave a very interesting talk accompanied by movies, on the conditions in the eastern Kentucky portion of Appalachia. Included in the crowd were BILL REESE ’58 and his wife BILL JR. ’50, BILL SCHRIL ’52, BILL WUETHER ’53, BUD WILLENBRINK ’47, and many others.

The competition of the ND-U. of Kentucky basketball game finally forced cancellation of the annual Christmas dance. In its place BILL NUNNELL ’50 arranged an Alumni Room at the football stadium for the big game. Several hundred alumni and their friends spent an enjoyable evening quenching their collective thirst and socializing after the game. And speaking of that big game, thanks again to REX RUTHER ’40 for handling the distribution of tickets for the club. Between basketball and raffle tickets, Rog is pretty busy in December!

Don’t forget, make plans to attend the UND Night.

### Lansing

Universal Notre Dame Communion Sunday this year was held for all members, friends of Notre Dame and their families at St. Vincent Home, on Willow Street. Mass was scheduled for 10 am on Dec. 13, with a delicious breakfast served at the home following Mass. Wives and children were invited.
This year the Communion Sunday was dedicated to the memory of the late JOHN CARDINAL O'HARA C.S.C. It was Father O'Hara, as Prefect of Religion at Notre Dame, who more than any other person created the devotion to daily Communion that caused the campus to become known as the City of the Blessed Sacrament.

I always have the pleasure of having the Notre Dame boys for Holy Communion breakfast every year, and this year we had the breakfast on Sunday, December 6. The Mass was offered up for His Eminence John Cardinal O'Hara of Philadelphia.

Miami

The Fourteenth of November was the date in 1964 that the faithful of the Notre Dame Club of Greater Miami gathered at “Major Appliance Stadium” to relish the long-deserved licking of Duffy Daugherty’s Michigan State Machine. It was the Notre Dame team that is what the scoreboard read... but the Alumni (real and synthetic) read much more. They see that it was a fitting finale to a season that has earned itself “No. 1” rating and felt “How Sweet It Is” living in this Era of Ara... Bergonia!!!

Cheering along were: Club Presy BOB PROBST ’58 and Laura, also his poppy I. I. PROBST ’26 and Mary, and Mrs. Popp, V-P JACK CANANE and V-P Mary, and Tom PROBST; Jack CANANE and I. I. PROBST for contacts to the locals; JERRY C. RUWE, representing the University of Miami; Russell RUSSELL, R. PROBST, C. MIER, and E. KUBICKI. Additional roars were heard from the likes of ARMAND ZILOLI ’61 with his father and mother, JERRY HOLLAND ’30, BILL STREETER ’54 and Barbara, JERRY OUELLETTE ’29, JERRY SINGH from India, who did great in the Boys’ Singles matches.

On Thursday, Jan. 14, 1965, at the University Club in the Windsor Room, MOOSE KRAUSE Director of Athletics at Notre Dame was the head speaker, to kick off the Challenge II Drive.

Milwaukee

HUGH DEVORE was the headliner of a most successful football smoker, chaired by JOHN SCHLOEGEL, vice-president of the Milwaukee ND Club. On Sept. 21 the Schlitz Brown Bottle was chuck full (100) of Notre Dainers and their guests to herald in the ’64 season. The amiable Mr. Devore was the profit in this profit-maker as he chuckled his way through past (some trece) experiences, the ups and downs of Notre Dame football (’63 edition) and what to expect under “Ara” (could it be true?). In addition to the football highlights of ’63 were viewed, cards dealt and all this precariously floated on top of free subs provided by the host. Unexpected as a guest was CHARLIE BACHMAN of Notre Dame and Michigan State football fame, and now

FRESHMAN WELCOME

The 1964 Welcome was held September 10 at the Military Park Hotel in Newark. Ninety-nine incoming freshmen were honored by JIM GIBBONS, teacher of mine. Both boys were excellent examples of the Foundation stuff. Both boys were excellent examples of Notre Dame life and received some constructive tips on how best to cope with the challenges of college life.

JAMES A. SEBOLD '50 is v-p: ANGELO B. AMATO '42; secretary: and HANK BORDA '39, treasurer.

We are hopeful, indeed, that when the 1965 golf outing is held we will have at least 500 alumni and guests come out for what traditionally is a wonderful affair...the most relaxing one of the entire Club year. Everyone is urged to make it next year.

NAVY GAME TRIP

The Navy game trip was a success both for the team and for the Club in terms of participation. It was a beautiful day made even more beautiful by what turned out to be one of the squad's best games of the season. BILL TOBIN '42 and DAN CULVIN '42 were there, Danny with his young son, Dan, who is with a chemical firm in Connecticut, looked strong enough to lift the Rockne Memorial off its foundation. After all these years, Dan still lifts weights and is one of the few alumni who have muscles in their ear lobes. BILL TOBIN is with International Paper Co. and still single and still longs for the good old days when he drove everybody on the floor nutty including the prefect... 

For the first time in almost a quarter of a century, I met HANK CARRACCILO '43, who is now living in New York but who originally came from Chicago. He's in the insurance business and Dan and lovely wife, Bette, from the Windy City for about a dozen years... he was a close friend of TONY GIROLAMI and ELMER PEDERSEN both of the '43 Class.

COMMUNION BREAKFAST

On Dec. 6 the Club held its annual Communion Breakfast. JOHN Q. ADAMS came with a group of the most beautiful, distinguished and noble personages, JOHN CARDINAL O'HARA, who was president from 1934-1940. The main speaker was a personal friend, HARRY HUSKIN, who gave an exceptionally stirring talk on Cardinal O'Hara and his relationship to the Military Ordinariate during World War II. The Club had the privilege of hosting two young men from the campus, PHIL SHERIDAN JR. and TOM LONGO. These two young Notre Dames, both students at the University of Notre Dame, are fine young men who had been away. Judging by the number of songs of alumni who were thrilled to obtain autographs of the two players, it is safe to say that the spirit of their fathers is certainly present on to them today.

PHIL SHERIDAN SR., the proud father of young Phil was with his wife Joan, and JOHNNY KELLY '40 (the '39 captain) with his wife Emmy Lise. Edgar's son Bill and Fred and Dan together with his young cousin, JIM KELLY, presently a third-year student at the University of Notre Dame, were young Bob Papa's folks. Bob is a present defensive end on the squad who looks like he'll be playing a lot of football in '65.

Over one thousand alumni and friends journeyed to Philadelphia to see Notre Dame and Navy battle each other. BUD MULVEY, BILL FALLON and FRANK FEEL were among our subway alumni.

Orange County

The Anaheim area delegation of Southern Californi­ tion alumni had a key role in the elaborate festivities of the fateful ND-USC game weekend.

As captain of the '07 football team, Dom volunteered to the defense in the second half. BOB DWYER JR. ’53 to the high 70’s of Southern Cal might have wearied that perhaps the extreme change in temperature and BILL SCHMITT ’62 would show up year after year for this most typical of Notre Dame alumni gatherings.

(Speaking of spirit, what an inspiration it is to see the large turnout of students available, New Officers towered: JAMES McCOMB ’54, pres.; JOHN GILBERT ’42, vice-pres.; THOMAS KELLY ’56, secy.; and JACK McGrath ’50, treas.

The first program on the date was an ND stag held at the VFW in Peoria Heights on Sunday, Nov. 8, which was a roaring success under the chairmanship of MAURY CICCIARELLI ’55. He was assisted by BOB GORDON ’52, BILL CLARK ’47, JAMES McCOMB ’54, JOHN LIEVENS ’60, JOHN GILBERT ’42, ROBERT MANNING ’60, THOMAS KELLY ’56, DENNY POWERS ’56, JOHN MANION ’56, JACK LOFY ’51, WALLY CASHMAN ’54, BOB MAIONEY ’49, DAVE THOMAS ’60 and CHUCK PERKIN ’51. From the proceeds a $100 scholarship is being set up for each of the two Catholic High Schools, Spalding and Bergan.

The annual ND Communion Breakfast was held Dec. 6, at the beautiful new Bergan High School. Mass was celebrated by Fr. EUGENE KANE, who was also a guest speaker along with JOSEPH P. KELLY. About 120 alumni, friends and their families attended and presented to Father Paul Maloney, principal of the late Cardinal by the Boston Notre Dame Club at Philadelphia in 1959 and a gold chalice given two of their members. THOMAS C. McGRATH ’50 was elected to the board of directors, the National Alumni Association.

An added feature of the award is a handsome bust of Rockne, which goes for one year to the high school of the selected boy, who receives a smaller replica of the trophy for permanent possession. Five other outstanding boys were chosen to receive Rockne Award certificates.

Philadelphia Notre Dame men are proud of honors given to two of their members. THOMAS C. McGRATH ’50, ’48, was elected to the United States Congress from New Jersey, and AMBROSE (BUD) DUDLEY ’43 was elected to the board of directors of the National Alumni Association. The Philadelphia Club threw a Victory party for McGrath, former Club secretary, at Cherry Hill Inn, and presented him with an office chair bearing the Notre Dame insignia.

The New Year got under way with the annual election of governors at the January meeting. The Board of Governors chooses the Club officers. Flash! BILL WHITEHEAD leads the newly elected slate. We’ll have a rundown on the entire new executive committee in the next issue, but meanwhile congratulations to Jim LEVDON on a great administration.

The Philadelphia Club procured two mementoes of toasts, one for the Catholic O’Hara High School in Springfield, Pa. They are the Man-of-the-Year Scroll awarded the Cardinal by the Fighting Irish football team. The other is a gold trophy given to the late Cardinal by the Buffalo Notre Dame Club when he left the New York diocese. The gifts were presented to the students of the Catholic O’Hara school, by Club President JIM LEVDON.

The Club welcomed a couple of newcomers:

ND-MSU alumni held a joint TV viewing at the HiWay House. Smiling faces were apparent at halftime as Irish fans recognized the familiar face of their ND friends. And under favorable circumstances with both scoreboards showing good mid-season totals, MIKE BOSCO '60 was the busiest man of the day. He has a degree from both schools.

Added enthusiasm was injected into the local Catholic community through the work of our 1964-65 St. Ambrose College in Davenport, Iowa. The Retreat Committee was making preparations for the first of the year at St. Ambrose's American Church, Fr. The Notre Dame Club of St. Louis has an active autumn and winter, Our Communion Breakfast was held at the University Club on Sunday, Dec. 13, after the family Mass at St. Charles Borromeo Church. Rev. David G. Boyle SJ of the St. Louis U. School of Law delivered the address. HANK LUEPER '57 served as chairman.

As we enter into the backstretch for this Club year, we find the Irish having played St. Louis University on the basketball court here in St. Louis this past Jan. 16. A block of seats was set aside at the St. Louis University ticket office for the exclusive purchase of our alumni that were interested in attending. The luncheon held prior to the game was very well attended by alumni and guests alike. Thanks to JACK CROWLEY '57 for his help in handling this affair.

Looking into the future, February will boast a Sports Night and General business meeting. The recent Notre Dame football films will be shown and a prominent speaker will be on hand to speak about the March. Course, of march, will be highlighted by the second annual Notre Dame Club St. Patrick's Dance on Saturday, March 15. We're highly enthusiastic about the results for the Challenge II drive with our train the Air Force game on Oct. 10. It had a mighty good appeal in this area, and maybe we can invite somebody to come out and accept a check from us.

San Diego

Nov. 28 CHRIS COHAN directed our football trip to Los Angeles. We ran two 47-passenger buses direct to the game and return. Somehow we have to get out our game book at the rear of one bus, but we had 95 people.

Universal Communion Sunday was observed for the Club's Universal Notre Dame Night at the Club's all-Kansan gathering. It was well attended by alumni and guests alike. Thanks to BILL MILLER ('33) for his help in handling this affair.

We had a Christmas dinner dance with MARY and JIM RICKLING in charge at the Kona Club Motor Inn. A disappointing note was that only several members of our own Club made an appearance.

Our Club observed Universal Notre Dame Sunday by attending a late afternoon Mass at St. Raphael's Cathedral in Madison. REV. REV. RAPHAEL GSC of the Holy Cross Mission House at Notre Dame, celebrated the Mass, telling the dinner we had at Candall's. Only 19 of us were on hand but we had a very good time. JOHN BOKRE, chief waiter, gave the longest distance to be with us. NICK FROST '64, now in med school at Wisconsin, entertained us with his version of Wichita, Kansas and non-column assistants, TOM PAGNA, PAUL SHOULTS and DOC URICH, National Alumni President PHIL FASSIO '50 and the local head of the running club, and Pagna frightened the crowd with impersonations of Jimmy Stewart, Jimmy Cagney, Peter Lorre and Walter Brennan. Monogram jackets, watches and silhoutes were presented to the players, a black-thorn walking stick to the head coach and the Most Valuable Player trophy to retiring Captain JIM CARROLL '56, succeeded by PHIL SHERIDAN '54.

President DICK CLEARY spoke on behalf of the University Club on Sunday, Dec. 8 at the Annual Dinner. The St. Louis University ticket office for the exclusive purchase of our alumni that were interested in attending. The luncheon held prior to the game was very well attended by alumni and guests alike. Thanks to BILL MILLER ('33) for his help in handling this affair.

Looking into the future, February will boast a Sports Night and General business meeting. The recent Notre Dame football films will be shown and a prominent speaker will be on hand to speak about the March. Course, of march, will be highlighted by the second annual Notre Dame Club St. Patrick's Dance on Saturday, March 15. The highlight of the year, as always, will be the Universal Notre Dame Night which will be held in April. Details on these future events will be sent to Club members.

It is urged that anyone having notes of general interest, or requests for assistance, please forward them to the undersigned c/o First National Bank in St. Louis: 311 Locust Street, St. Louis, Missouri 63166.

South Central Wisconsin

We were both proud and happy to be the host of the beginning of the "Era of Ara" when Notre Dame played at Wisconsin on a cold and rather cloudy afternoon this past fall. Over 400 "Irishmen," not counting those who crashed the gate, came out of hiding at the University, and the press, and histor> was made by the bestowal of Officers which took place on that date. As we enter into the backstretch for this Club year, we find the Irish having played St. Louis University on the basketball court here in St. Louis this past Jan. 16. A block of seats was set aside at the St. Louis University ticket office for the exclusive purchase of our alumni that were interested in attending. The luncheon held prior to the game was very well attended by alumni and guests alike. Thanks to J ack CROWLEY '57 for his help in handling this affair.

St. Joseph Valley

The 49th Annual Testimonial Banquet for the Notre Dame football team sponsored by the ND Club of the St. Joseph Valley was held on Dec. 9, 1964 at the North Dining Hall on campus, with the bench sold out for weeks in advance.

The star-studded lineup featured Army coach Paul Dietz and the expert quarterback of '56 Irish Callan in JIM MOORE of TV fame. But the real stars were the '64 Irish, their coaches and administrators.

The remarks of FATHER JOYCE and Coach ARA PARSEGHIAN were widely heard in the press, and history was made by the bestowal of simultaneous ND alumni status and Monogram Club membership on Coach and his non-column assistant, TOM PAGNA, PAUL SHOULTS and DOC URICH, National Alumni President PHIL FASSIO '50 and the local head of the running club, and Pagna frightened the crowd with impersonations of Jimmy Stewart, Jimmy Cagney, Peter Lorre and Water Brennan. Monogram jackets, watches and silhoutes were presented to the players, a black-thorn walking stick to the head coach and the Most Valuable Player trophy to retiring Captain JIM CARROLL '56, succeeded by PHIL SHERIDAN '54.

Terre Haute

The following is a report from the Notre Dame Chapter, Terre Haute, Ind., on Universal Notre Dame Communion Sunday on Dec. 6.

BOB KINTZ was chairman for Notre Dame Communion Sunday here in Terre Haute and through Bob’s efforts it was a big success and the attendance was very rewarding.

The Club attended Mass and received Communion in a body at the 10 a.m. Mass at Sacred Heart Church. FR. EDWARD WETZEL CSC, Club chaplain at St. Mary’s College, had been invited to give the homily at the Butterfly Room of the Terre Haute House. The affair was well attended by members and also by their sons. Father Wetzler addressed the club after breakfast.

The Terre Haute Club planned a dinner party for Jan. 16, but all the arrangements had not been completed at this writing.

And what about the Army game victory of 1913? JAMES D. HAYES '13 recently proposed an interesting analogy to sports columnist Franz Staam of the Washington Star: "You hear a lot about John Huarte and Jack Snow, and they are great. But over the years you hear even more about Gus Doraix and Knute Rockne. Would you like to hear a parallel? . . . Rockne and Doraix were working at Cedar Point, Ohio, not far from Upper Sandusky, one summer. . . . Rock and Gus were lifeguards when they weren't restaurant checkers. You know, picking up a little change. When they weren't on one of their jobs they took a football onto the beach and began to practice . . . Gus learned how to whip that melon-shaped ball and Rock began catching it like the good ones today, with their fingers relaxed and in full stride . . ." Jim went on to recount the development of the buttonholp pass and Coach Jess Harper's moving Rock to end with more renowned Fred Gushurst, giving the green light to quarterback Dorais and the six-couch ride to West Point for the 243-yard, five-touchdown passing blitz that is now history.

The parallel: "The same thing that happened 51 years ago happened this time. Snow had been a halfback a year ago. Jack lives in Long Beach, Calif., and Huarte lives in Anaheim. . . . Well, just like Doraix and Rockne, they took a football out on the beach almost every day and practiced in the sand. When they returned to Notre Dame it was the . . . played Jack Snow from halfback to end, just as Jess Harper did to Rockne, and he set up the passing plays with Huarte. Everyone knows the rest of it. . . ."

Commenting on the column, Jim suggested: "Let's start a contest—who can name the members of the '13 Class of Notre Dame and how many went and who were the sons?"

Two chapters in the history of the University and the Community closed when two priests passed away at Holy Cross House on the campus in December. REV. JOSEPH A. MAGUIRE CSC '56 was 93 and had come to Notre Dame as a seminarian 78 years ago. A native of England, he had been a priest for nearly 68 years. The Dome was receiving its first gilding when he arrived in the eighties, and he was one of the very few who remembered the last years of the founder, REV. EDWARD SORIN CSC, who died in 1893. As head of the chemistry dept. from 1897 to 1920 Fr. Maguire will be remembered for his influence on two famous students: KNUTE ROCKNE, whom he persuaded to be remembered for his influence on two famous students: KNUTE ROCKNE, whom he persuaded to stay on as a chemistry instructor; and REV. JULIUS NIEUWLAND CSC, developer of the formula for synthetic rubber and namesake of the chemistry center. Except for about 15 years at St. Edward's U. (president 1934-37) and three as pastor of St. Patrick's Church, he spent his life on the campus as a teacher and spiritual director, holding classes in theology nearly up to his retirement in the past decade at Monau Seminary. REV. JOHN C. KELLEY CSC '23 died a few days later after a similar retirement of 75 years. A native of Indiana, he was a brother of the late REV. LOUIS KELLEY CSC, who died a year ago, he entered the novitiate two years after graduation and was ordained in 1920, serving the next 20 years teaching sociology and religion. From 1940 until his retirement he gave missions and retreats on the campus. A visit with these and other deported spirits is well worth the bus trip to the Community Cemetery at the next reunion June 11-13.

The list of those who will gather here no more is lengthening. Since last issue it would include the following: JOHN POWERS '00, whose death last October was reported by his son MICHAEL POWERS '32; LEO DWAN '04, who died in California last Spring, also in October was a twin brother ALLAN DWAN '07 of Holywood; HARRY ZOLFER '04 of Rapid City, S.D., a regular contributor to this column, who died only a few weeks after we had printed his letter of regret at missing his 60-year reunion; PETER GRIFFIN '08, a format student who had been asked to the Southern Tier ND Club before his retirement, in Corning, N.Y.; and Ieg. MANUEL ARIAS '13, whose death in November in Cuba was reported by classmates CLYDE BROUSSARD.

Don't wait until it's too late. Join the Golden Class of 1915 before 1915 on June 11 and come alive in '65!

Come ALIVE in '65! Class of '15 Golden Jubilee REUNION—June 11-12-13

'15 Albert A. Kuhle 117 South Sunset Ave. La Grange, Ill.

From Gary, Ind., the daughter of THEODORE J. SAUER writes to inform us that her father has owned and operated a drugstore in Fort Recovery, Ohio, since 1929 and that Mr. Sauer would be unable to attend our Golden Jubilee in June. We hope circumstances will permit a change of plans. . . ."

A letter from NORMAN C. BARTHOLOWE, Iron Mountain, Mich., informs me that he has had surgery twice this year but now is fully recovered. He has sold his insurance agency and will spend the winter in Palm Springs, Calif. He has a daughter in Los Angeles. Norman says he will be back in the spring and is planning on being at ND for the 1915 Class Reunion, June 11-12-13.

ROBERT L. ROACH informs me that he and his brother Edward, who lives in Highland Park, Ill., returned to campus for the ND-UCLA game on October 17. Bob says Carver was a thriller, despite the score.

No doubt all members of the 1913 Class for whom current addresses are available have received the letter from BOB ROACH, our Class president, dated Nov. 11, 1964. As a result, I sincerely hope that most, if not all, of each class will have resolved to return to the ND campus for the Golden Jubilee next June. News about individual plans will be appreciated.

EMMETT G. LENIHAN, who is engaged in the practice of law in Seattle, Wash., writes about his plans to return to ND next June and expresses the hope that there will be a 100 per cent attendance of the Class. Emmett says the only member of our Class he has seen in years is RAY KELLY, whom he sees each year at the national conventions of the American Legion. Emmett has two sons and a daughter, all married, and he presently has eight grandchildren. Bill, his second son is a partner in the Lenihan & Ivers Law firm. EDWARD F. RIELY, LLB sent word that he expects to be back on campus for the big reunion in June. His last visit to ND was two years ago. Edward lives in Minick, Ill.

Thanksgiving greetings were received from HENRY J. FRAWLEY '14, who, with his wife and son HENRY J. JR. '50, operates a 5,000-acre ranch in the Black Hills country in South Dakota. Henry said "ND has a truly great football team this year," but he added that "Southern Cal has been a spoiler in the past—let's hope for a victory. Come on, team! It could be that many had the same predisposition."

New addresses for the Class of 1915 are: REV. JOHN MARGRAS CSC, c/o St. Jude's Parish, 1904 Johnst Rd., South Bend, Ind. 46600; OWEN MURPHY, c/o O. M. Productions. 666 Fifth Ave., New York, N.Y. 10019.

From the Alumni Office:

Among the GEORGE SHUSTER speaking engagements in recent months was a talk at the ND Alumni Workshop mentioned in JIM ARMSTRONG's editorial this issue and an inaugural address that won him an honorary doctorate at the installation of FR. JOHN T. CORR CSC '46 as president of Massachusetts' Stonehill College. He is saving some eloquence for the welcoming address at the Golden Jubilee Dinner of the Class of '15 in the Moritz Inn's Golfers' Lounge on Friday, June 11, to get there early!

'16 Grover F. Miller 220 9th St. Racine, Wis.

It's had to get news from the '16 Class, but we will be there next year for the Golden Jubilee. Expect at least 20 out of the 76 "originals" to be present. One early registrant is RAY HUMPHREYS, our own "shoot-em-up" successor to Zane Grey, reached at his bunkhouse, 210 Rangeview Dr., Littleton, Colo. Comparing it to our Wisconsin weather . . .

Resident: "I hope to be at the 1956 Reunion. I know you'll be there, and I hope all the rest. . . . I have been doing a little writing, mostly books, three of them out now—the usual Western hang-ing-stuff, good sheriffs and bad outlaws. I am working on the four that they are published by Acacia House, New York, and I have seen to it that a few copies of each are in the new Notre Dame Memorial Library. Little did I think, when we were struggling with the '16 Dome, that I'd ever be represented in that library!"

I am also in my 16th year as editor of the Denver Post, a monthly publication for the retired cops and firemen. It helps to keep me busy. So you see that, although I retired after 26 years of chasing crooks as chief investigator for the Denver DA's office, I still haven't forgotten some of the things FATHER CARRICO and PROFESSOR COONEY taught under the Golden Dome."
From the Alumni Office:
Secretary Miller, back from Florida and braving it out in that cabin, would be warmed by your written assurance that you'll be here for the "big one" in June of 1966.

JAMES D. HAYES offered some lore to sportscritics on the 1913 Armory days. The area interned between the Haute-Snow and Doran-Rockne pass combinations. For this and a challenging contest, read Jim's entry in the "Fifty-Year Club" above.

George Waage

Hi, Ole Timer: Trust that one and all had a nice Thanksgiving as well as a real memorable Christmas and may this New Year have in store for you and yours contentment and health.

Your story of Cal, Dr. Alice Cal, was accepted as a most sincere greeting—not just coming from one, but an individual greeting from each of your classmates.

E. M. "MORRIE" STARRETT was on campus last year at the Monogram Dinner; we were lucky enough to get a good picture of him and Coach ARA PARSEGHIAN. Morrie hoped to see the USC game—trust that he'll admit we had a good season.

JAMES L. SWEENEY wrote that SHERWOOD DIXON and son PAT DIXON, with JOHN RILEY, were his guests on the Cog Railroad to the top of Pike's Peak. Jim states that it was his first trip in 40 years. They called on JAMES L. HANLON, who was nice to hear from HUMPHREYS—JAMES P. LOGAN missing out due to a fishing trip.

Heard from LEO COOK, who enclosed a clipping of the passing of FATHER HESBURGH last September, operation of the University. He also wrote about the passing of JOHN RAUS last September, operation of the University.

Had the usual red carpet service on campus—having lunch with your managing editor, JOHN F. LAUGHLIN '48 and FRANK KELLY '50. Frank, understanding, gave away the secret of why you should invest in Notre Dame. Walked around the campus and naturally "landed" in the Gym. It was great to run 30 miles per week and "train" and "jog" a mile in time that won races for CALL and LOGAN. Dan O'CONNOR '50, W. A. DRAKE '46, JOHN J. MCCARTHY '49 and Dan's guests. Jim Daley and John M. Dalsey, JUDGE ROGER KILEY's chair is vacant. We all read the card sent from the White House, addressed to Mr. and Mrs. Fertel, to wit: "The President and Mrs. Johnson extend their best wishes on the occasion of your 50th Wedding Anniversary."

REX, GEORGE HOLIDERH CSC '18, ND golf coach for 29 years before he retired in 1960, received a surprise visit in January from four of his golfers, all from Detroit, paying tribute to his record of 210 victories, 75 losses and 12 ties. Looking over gifts (including a watch, a plaque and a testimonial book of clipping, letters and pictures from more than 200 golfers he has coached) are: (L-r) BILL Wilson '43, 1942 captain; TOM SHEEAN '39, 1938-39 captain; Father Holiderh; Walter Hagen Jr. '40, the 1940 captain; and Dick Whiting '45, who played for the Irish in the '40's as a pupil of Fr. Holiderh, who won the NCAA title in 1944.

From Rockford, Ill., ED RYAN '23 immediately received in November that JUDGE ALBERT O'SULLIVAN was re-elected, but we misplaced the note on Al's latest triumph until now.

From the Alumni Office:
A small but loyal band of friends, the Class of '19 convokes its shock and deep sympathy to Mayberry and JERRY SWEENEY '50, widow and son of FRANK SWEENEY, who died just before Christmas. Frank had been active for the 40-year reunion last June, and the last issue had just gone to press with the news of his leading the Kilwani charity drive, as vice-president-elect, one of many service organizations, including the K of C, with which Frank had been active since coming to South Bend five years ago as manager of the Holiday Inn. Manager of Chicago's magnificent Del Prado Hotel in the '30s and a former president of the Illinois Hotel Assn., Frank had also managed hotels in Circleville, Beidock and Madison, Wis., and Rockford, Ill., and was extremely active in alumni club affairs wherever he went. Ate atque vale, Frank!

Now a vice-president of the Alumni Assn., PAUL FENLON has proved a worthy successor to MAURICE CARROLL and used his professional technique to good purpose in putting together a panel of alumni and student leaders in a discussion of changing standards of University Class identity.

REUNION—June 11-12-13

'20 James H. Ryan
170 Maybrook Rd.
Rochester, N.Y.

From the Alumni Office:
JIM RYAN is counting on a "representative" gathering on June 11 to celebrate the 45th anniversary of a great 1920 Class. The group will probably be housed in Alumni Hall and fed in the nearby Parris Inn. Besides celebrating the University's Science Centennial, the Class will memorialize its own departed "greats"—from public legends like ALLIE FORD and GEORGE GIPP to great teachers like VINCE FAGAN and FR. LEO L. WARD CSC.

In Dixon, Ill., last November the son of SHERWOOD DIXON, he followed in his father's footsteps as one of two ND candidates for state's attorney. Democrat HENRY DIXON '36 defeated Republican ROBERT WILLIAMS, who died in Marion, Ind., last fall. Both have prayer seminars on the meaning of staggered terms for the new elective office.

From the Alumni Office:
Congratulations to Chicago's Judge JOHN T. DEMPESEY, elected to the appellate bench of Cook County last November, who drew the longest term, ten years, in a change of assignment of staggered terms for the new elective office.

Sympathy to Roseanna, widow of classmate ROBERT WILLIAMS, who died in Marion, Ind., last fall. The pair had been a mainstay of the Chicago Community class in 1916. Last year Harold Raven, Class of '16, was named Medallist CARLTON HAYES, diplomat, historian and teacher, who had passed away.

William F. Fox Jr. '20, late and loved columnist who had been sports editor of the "Indianapolis News" for 25 years when he died last May, will be memorialized by a four-year journalism scholarship at ND under a grant from the Central Newspapers Foundation. Discussing establishment of the Fox Scholarship are (left to right): Charles Callahan, University sports publicist; Rev. John Walsh CSC, ND vice-president for public relations & development; Eugene F. Pulliam, assistant publisher of the "News" and "Star" representing the newspaper group; and Prof. Thomas Stritch, head of the communication arts dept.

Morris Starrett '19 of Chicago (right) and the photographer (Class of '18 Secretary George Waage) would like to know the identity of the distinguished colleague at left who joined them in a toast to Coach Parseghian (center) at last year's Monogram Club Dinner.

fettle. Also likewise that Brandy was good and likewise Kelley. Probably no finer characters anywhere. I know all persons mentioned are back in the Glory of the magnificent record of the 1964 team.

"Being of the studious type I wouldn't know about these feelings but I guess you athletes are having the best year of your lives. And may you live long and happily."

From the Alumni Office:
With the retirement of Anderson from the college football coaching profession, the end of an era is recognized. "The Cap" was coach at Chicago for 21 years, 19 years as head coach. "The Cap" was coach at Lafayette U. and still later he directed the Boston professional team. This list is not complete, but it is quite certain that CHET WYNNE and others left him a rich heritage in coaching.

The Navy Kearsarge of Port Huron, Ind., the T.OM McCABE of Elmhurst, Ill., and the AL SCOTTs of Los Angeles celebrated their 35th wedding anniversaries last October. Our congratulations to all of them. From the Alumni Office:

The invitation to our October 3 "Life begins at Forty" Second Annual Parking Lot Picnic at the N.D.-Purdue game brought a bit of news of the "45s." Anice letter from VIRG FAGAN (731 Columbia Ave., Oak Park, Ill.) says in part: "That notice of the 45th Class Reunion had a P.S. that 'Life isn't ending still! Sorry I couldn't make the Cedar Point celebration because this was a pretty busy and eventful summer for the Fagans. First of all Dorothy and I joined the N.D. Club group on the Holy Land Tour in April. To say the trip was wonderful is putting it much too mildly. Having Fr. Leo Ward '23 from the campus with us added immeasurably to the trip. He said Mass for our own group at all the holy places in the Holy Land and through to Rome. We also visited Greece, Egypt, Lebanon, Syria, Lisbon and Rome. Our one and only Nancy graduated from St. Mary's in June and married June 5, 1964, of a heart attack on Ed's death. Ed left a widow and three sons."

"In the meantime, yours truly finished his working days at good old Sears and retired July 31. Let me tell you, John, there is nothing like the feeling of leisure and being able to do what you want, when you want."

"Order of business for the fall calls for the first nine games and maybe the 10th at Southern California. It was good to see the boys carry 'Em' Paresghan off the field after that wonderful showing at Wisconsin. Maybe they've got something there for him to work with this year. Time will tell."

Word from Mrs. EDWARD CUDDHY of Ed's death on June 5, 1964, of a heart attack while at work. Ed was manager of insurance accounting at Hefeloster Publishing Co. of Wilmette, Ill. Ed left a widow and three sons.

BILL HURLEY also wrote to me about Ed. Bill was able to make the funeral which was held in Oakley, Mich. Bill says that A V. Malmstrom has been said for Ed, and I am sure you fellows will remember him in your prayers. Our deepest sympathy.

A copy of a letter from JIM ARMSTRONG brought news of the death of EARL MCRORAN: "I was very sorry that Rocke's Notre Dame box shift was from the squad right-side left drilling of the old sergeant." Quoting Sgt. Rocke as telling Rock: "I would just as soon do it leading my men." Finally he quoted a War Dept. document stating that Capt. George A. Campbell, 16th Infantry, 1st Division, was awarded the Distinguished Service Cross posthumously for service near St. Mihiel, France, Sept. 12, 1918, as he displayed exceptional courage when with three men he preceded his battalion... and captured three machine guns and 29 prisoners."

FRANK MILES, veteran chairman of the South Bend Planning Commission, has been named by the mayor to the new Area Planning Commission coordinating city-county development.

"ENGELS, whose brother James '33 passed away in December."

"From the Alumn Office:"

"45 YEARS OF Notre Dame football were spanned when 1965 Captain Phil Sheridan (left) was congratulated by Federal Judge Roger Kiley (right), another end who won All-America mention in 1920."

A couple of deadlines have come and gone, and I have not been on the ball. The pipeline of news has not been functioning is what I tell myself, but that is only half truth.

At the Michigan State game I met MALCOLM KAUF. He came down from Detroit for the game. He was with a group and it was game time, so there wasn’t time to talk. Time has been good to him. Also at the Michigan State game I almost collided with LARRY KRIEGE. Larry had been real ill this past summer. It was good to see him looking so well again. A winning football team is powerful good medicine.

FOUR "MULES" & FIVE "ROCKS" were seen at Philadelphia’s observances in November and December, 1964. One of the real "greats" of the '27 Class, THOMAS F. (RED) HEARDEN, who gained the same kind of preeminence in high school, professional and small college football coaching that his late great teammate JOE BOLAND won in sports broadcasting, died in New Orleans late last November after a long illness. A veteran of WWII service in the Pacific, he had been working for an apartment project in New Orleans with limited duties, along with his real duties as to the widows of classmates WILSON McMADIE, DENIS O'NEILL and Dorothy were in South Bend a few days on their way back to Cleveland from California.

CHARLES W. MULANEY '26
Drug Chain Exec from Vanishing Breed

Charles Mulaney, whose name and career seem to typify the Notre Dame spirit, is one of that gallant dwindling band of professionals who proudly bear the ND degree in pharmacy — a degree not conferred by the University since the thirties. A Walgreen Drug Stores' vice-president since 1963, elected in December to the firm's Board of Directors, he is in charge of his company's purchasing, advertising, merchandising and physical distribution operations.

Charlie joined Walgreen's 38 years ago in one of the chain's many Chicago stores. A registered pharmacist, he soon advanced to store manager and later held several dis- trict manager posts. In 1942 he came to the firm's Chicago headquarters where he became director of merchandising, then buyer in Walgreen's purchasing division before his election to vice-presidency.

Mr. and Mrs. Mulaney — residents of Oak Park, Ill. — are parents of four children, a son and three daughters: Charles Jr. (Chip), a sophomore at Oak Park's Fenwick High School; Elizabeth, a sophomore in business administration at Marquette University; Kathleen, a journalism graduate of Marquette; and Mary Jo Scholand, who holds a degree in medical technology from Marquette and who recently presented the Mulaneys with a granddaughter.

For relaxation, Charlie enjoys deep sea fishing off the coast of Florida; he's also an avid reader, particularly of financial publications.
It is my plan now to be at the USC-Notre Dame game on November 28 and I will be staying wherever they have the Notre Dame Rally on Friday night.

To the Holiday Inn Hotel. You know if Notre Dame beats Stanford this Saturday and USC in November they could become the champs of the West Coast Division.

"Well, Larry, this is rather lengthy, but let me again say I am honored to have been selected and will attempt to carry out this assignment, and do his best to help promote any plans for the Class of '29."

Some excerpts from a letter of BOB VOGEL-WELLE, follow in this issue, giving you an interesting story on the conflict between the French and English-speaking factions and the demands of the French Canadians for "Chichelvin." Some would like every stop sign also to say "Aretez." It is getting to the point, said one French speaker, that "they talk a lot, they pay a lot, and they are asking us for money."

With the pleasure of a visit with your Class chaplain REV. OTIS WINCHESTER, 1717 Second St., Cuyahoga Falls, Ohio, who was here for the Michigan football game. Father Otey had planned to be here for the Stanford game but couldn't have done better for a substitute. It was a truly great fall on the campus. More on this later.

This column is one of several efforts being made prior to June, 1965, to arouse interest in the 35-year reunion of the Class of 1930. Several mailings have been scheduled for the first of May with an interesting story on the conflict between the French and English-speaking factions and the demands of the French Canadians for "Chichelvin." Some would like every stop sign also to say "Aretez." It is getting to the point, said one French speaker, that "they talk a lot, they pay a lot, and they are asking us for money."

We have already submitted some requests to the Alumni Office, and it seems likely that we will be housed in Lyons Hall, and our Friday Night Class dinner will be in the Morris Inn. One of the many priest-graduates of our Class will be asked to say the Mass for the Friday-Saturday-Sunday period of this 35th reunion.

BOB HOLMES, who has shared his engineering talents all these years with Indiana Bell Telephone, is planning to return to the local community for this 35th reunion. His co-worker is WALT LANGFORD, JOE RUPE, DICK SULLIVAN, BUCK SLACK and PAUL FARMER.

One of the many priest-graduates of our Class will be asked to say the Mass for the Friday-Saturday-Sunday period of this 35th reunion.

The five-year period since our 35-year reunion has brought amazing changes in the University. The great increase in student population, the physical changes it created, highlighted by the Memorial Library, are tremendous achievements of this half-decade. The College of Business is now the largest in the university.

JAY WALZ AB'29 has been reporting to the New York Times from the Middle East, Turkey and Iran. His is an interesting story on the conflict between the French and English-speaking factions and the demands of the French Canadians for "Chichelvin." Some would like every stop sign also to say "Aretez." It is getting to the point, said one French speaker, that "they talk a lot, they pay a lot, and they are asking us for money."

Class of '35 Anniversary 30 REUNION — June 11-12-13

35 Franklyn Hochreiter
702 Scarlet Dr. Towson, Md.

Two months have gone by and it is time to hit the publication trail again! Thirty more questionnaires have come in and several letters. Before we get to the communications, here are the new names to add to the list of 95 — THOMAS REED, AL MCCARTHY, JAMES MOLLE, BILL COEN, formerly from Iowa but now living in New York City.

Tom is active in the Catholic Business Men's Association, where he has been associated for years (Pres-Treas. back in '60). He has a new home address — 10 Ridgeway Circle, N.Y. We have been told that the coming 30-year reunionite has a blow-up 30-year-old picture pinned on his lapel with the caption: "This is what I look like in '35 — and she is still pretty far from a representative group. It is only a third of the response in 1960. How about it, Reunion Committee — can you beat this?"

We will go back to the remaining 13 we did not get to in October (who said they were coming) and then go to the above listed 10. That should give us a chance to mention a few who won't be with us or were only probable.

AL MCCARTHY (1721 Hampton Rd., Grover City, Mo.), president of McLoughlin Mutual Liability Co., where he has been selling casualty insurance for 25 years. He and Bernice have two single sons and one daughter. Al was married November 5, 1943.

That should keep the pot boiling a little longer. We hope that you have a chance to visit with your old classmates and shoot them back to us. Otherwise our next trip to press will be a small one. LET'S GET ON THE BALL, MEN!

Have you marked your calendars for the THREE BIG DAYS IN JUNE? They are Friday, Saturday and Sunday — JUNE 11-12-13!

BETTER put aside a few more bucks to cover your stay on campus. The general reunion fee (they need to call the U of I) $51.50 that has been raised by the University to $25.00 this past year. GEORGE R. WENTWORTH '36
In the Big Woods, a Big Winner

The basketball Minutemen of Stearns High School in Millinocket, Me., are having another great season, but they probably never recapture quite the same thrill as their first State Championship last year under the coaching of George Wentworth.

Before receiving his BS in physical education at Notre Dame, George was on the varsity basketball and baseball teams for three years each and made his monogram each year in baseball as a shortstop. Going back to Maine, he started coaching in English and turned out teams in all sports for four years. He then moved to Millinocket and has been there ever since except for three fine years in the Navy Pre-flight program. Two of those years were spent at the University of Iowa, and he managed to get to Notre Dame a couple of times. Meeting many old friends who were in the same program, he had opportunity to go in college coaching but felt he wanted the high-school fun of building his own material.

Millinocket is a paper-mill town with one large mill owned by the Great Northern Paper Company, the largest newsprint company in the United States. The fine schools there are isolated from the rest of the world by many miles. The kids love sports, and George enjoys being there. Basketball is the main interest during the long winters. Stearns is the “Notre Dame of Maine,” the smallest school in the large school division. Their shortest trip is 75 miles, and they travel around 4,000 miles each winter.

Two years ago Stearns came in second in Maine, but fortunately the New England championship took two teams from Maine so they went to Boston and won their first two games for another crack at the team that had beaten them for the Maine title. In an all-Maine final they won the game and the New England title. Last year they won all their games in Maine for the State Title and lost in Boston to St. Mary’s, the eventual New England champs. This year they were undefeated up to January with twelve straight. In this section of Maine they had won 54 in a row. Overall they have won 380 while losing 136.

George’s wife, whom he married in 1938, is a teacher and went back to teaching five years ago. They have four children: Joseph, who is in the University of St. Anselm’s College in Manchester, New Hampshire; Tom, a senior at Stearns and a guard on the basketball team; and Joe, who is in the eighth grade. Tom has hopes of going to Notre Dame, and Joe is beginning to think about it.

When people ask George why he has stayed up in the woods practically all his life, his answer is simple: “We like the town, school, kids, and the virgin forest area in which we live which has some of the finest trout ponds in the world.”

Ernie has been working with penal and correction institutions for the past twenty years and in the Pacific Northwest for the past six years, in Shelton. Washington, he is married and has eight children. Each institution builds an extra wing just for Ernie. Last seen were ED KELLY, T. POTENZIANI, JACK BARRY, ANDY DE SIMON, and Joe MURPHY (right next door to me); Tom Della has recovered from that illness that lay him low last winter. He is looking forward to our next get-together. An exciting note from WALT DESEL, who is the Class of '42 but who is well known to many of us. Walt has started on a new venture, called "Flamboyant Fantasies." This involves the salvaging of driftwood and making abstract pieces of art from the raw wood. Walt’s studio is located on Fire Island. He instituted the first outdoor art auction in the country the night of Feb. 4, 1965, at Carnegie Recital Hall, various art galleries and the American Veteran shows.

Please remind your secretary to remember all of our departed classmates in your prayers. Each year takes its toll, and we never know when it will be our turn. Bill BAUM’s father, who passed on recently, Bill and his late father operated a business of long standing, one of the products being a blood-pressure instrument, an item used on most of us at one time or another.

That is all for this issue of the Alumnus. I hope you will make a New Year’s resolution to communicate with your secretary.

As the year 1964 passes by the wayside and 1965 gets into full swing, I again appeal to the Classmates of '46 for news, comments and any suggestions during this year which would tend to make this column interesting, enjoyable and worthwhile reading. Kindly write either directly to me or to the Alumni Office and you will be well assured that your appreciative remarks will appear in the ensuing '46 column.

While this may appear to be a bit premature, I do wish to call to your attention that in 1966 twenty years will have elapsed since good old graduation day. In view of this, and although our Class may be considered small, let it be known that we not only have great spirit but big hearts by making every effort possible to fulfill our agreement to attend the 20th Class Reunion. I promise it will be a week-end you will never forget.

Why not take a few moments and sit down and write your Class a few lines?

SORIN HALL squad is expected to be in shape to take on all comers at the 20th Anniversary Reunion. (See '45 column.)

CHRISTMAS POSTSCRIPT

A few of the Christmas messages we received reminded us that even at such a joyous time life is tinged with sorrow.

BOB MULCAHY wrote: 'The last couple of years have been quite trying to some extent, but this year my dad passed away after a long illness, and on Jan. 18, 1964 my mother died suddenly. Please remember us in your prayers."

And PHIL DELINCKE's widow, Dot, reveals her health is subpar in the wake of Phil's death August before last. Their daughter Sharon, who was the natural vice of you, is in 11th grade already and is a varsity cheer leader at school.

From our partner in VANOUL DANC CSC reports a state of systematized piling of checks from envelopes to missioners, with indications the dirty work is being done in East Coast post offices. Rejoicing after the football team's wonderful season, he reveals 'even the missionaries show more interest in the big games than they have in the last few years.' To you, dear reader, ARA, you're the toast of Bengal too!

A surprise card from Elvira and TOM McGUIRE reveals they have transferred from Rio to Mexico City, presumably at the behest of Vicks Pharmaceutica S.A. So Tom continues to operate south of the border in the city of the VapoRub.

YOUR MOVE

Speaking of address changes, here are a few which seem to be of special interest:

It's Christmas week and also the time to get another column together about the illustrious Class of 1948. I have been delaying this column hoping for some last-minute information but there is no use waiting any longer as it is late now.

I am sure that everyone in the Class of '48 had that "old-time feeling" this fall as we watched, heard, and read about the great team that represented us on the gridiron after the famine of the past few years. It certainly was something that those of us who played football long ago were not to have to give the Monday morning excuse for what happened on Saturday. It sure was like old times, and it is for sure that it was a great surprise to all. We look forward to things being just as good next year and the year after that.

I was able to take in the Navy game at Philadelphia and was pleased to run into a lot of old friends of the Class of '48 and also of other eras. Everyone had the feeling of confidence and the air of hope that this was going to be a great year, and it turned out that way with the Navy helping our plan of success. Taking in the game with his son Jim Jr. was JIM GORMAN, who is an assistant vice-president at the Chase Manhattan Bank in New York City. Now we can say for sure that we have a "friend at Chase Manhattan," and it is a good friend at that.

A recent feature noted Francis A. (Bill) Fink's 30 years as managing editor of the national weekly Our Sunday Visitor, in Huntington, Ind., in his 35 years since graduation, only incidentally mentioning his founding The Family Digest and other periodicals. The February issue of Catholic Home Messenger devoted its Catholic Press Month feature to the latter publication and its editor since 1957, Jack Fink.

Oldest of Bill's six children, Jack took over the editorship of The Family Digest only four years after graduation and at 25 was probably the youngest editor of a major Catholic magazine. Every phase of family life is treated in articles ranging from entertainment to instruction to inspiration. They may hymn the blessings of a large family or present the facts on the latest advancements in methods of permissible family limitation. But the most recurrent theme of the Digest is the problems of youth, with never an issue lacking a piece directed to the parents of teenagers. Experts like J. Edgar Hoover tackle themes like teen crime, sexual promiscuity, early marriage, unwed mothers, pornography, glue-sniffing and "pep pills." A Family Digest original, reprinted in Catholic Digest, resulted in the "adoption" of more than a thousand overseas orphans through the Foster Parents Mission Club, including a Burmese girl sponsored by the Finks. 

Jack supplements his full-time duties as Digest editor by serving as account executive for all the outside magazines printed by the OSV Press (14 at last count, including Catholic Digest). An avid reader of American and Church history, he recently wrote a book on American churchmen who were also great patriots. Although his spare time is limited, he's active in Huntington's St. Mary's Parish as president of CCD since 1958, an officer of the Home-School Assn. and a charter commentator for the Dialogue Mass. Such varied community activity as the city Republican chairmanhip, presidency of the LaFontaine Country Club and leadership of the Huntington County United Fund won him the Huntington Jaycees' Distinguished Service Award in 1959. Presently he's a vice-president of the Chamber of Commerce and a director of the 1st National Bank of Huntington.

With Marie (a Philadelphia graduate of Rosemont College, whom he met at a National Catholic Youth Convention and courted during Air Force duty) and the five little Finks, Jack lives on a three-acre tract north of Huntington, where the family strives to fulfill the Digest ideal of communal work, prayer, study and play.

Milton J. Beaudine
11 Kimberlin Lane
Belleville, Ill.

An a Happy St. Patrick's Day to you! Speaking of St. Patrick, Patrick Joseph Beaudine arrived alive and well from Ireland with his baby (me too) doing fine. We now have four, including a "Pat" and a "Mike." Of course, Pat's arrival, a hit early in the game, marks the ND-MU game and a 14-year ambition to see the Irish whomp 'em.

Among some old books I found a graduate student at ND named "LEWIS MURPHY." How does this strike you? "Morrissey dominated play throughout the first quarter. WALSH and BEAUMONT accounted for 90 yards, respectively. At the start of the 2nd qtr. a penalty set Morrissey back to the 30, but in two plays RAY and Ross accounted for a 90-yard drive." Does he sound familiar? On the next play scored ... a bad punt ended on the Lyons' 10 and two plays later BELLISIMO ripped off gains of 40 and 38 yards. How does this strike you? "Morrisscy dominated play throughout the first quarter and a 14-year ambition to see the Irish whomp 'em.

THOMAS J. MURPHY '54 of Indianapolis has been serving his first term as a member of the Indiana General Assembly. Member of the law firm of Lewis & Fields and a lecturer in business law at Marian College, Tom is a Democrat representing Marion County in the legislature. Donald J. Matthews '55

Coupom Clipper, Yacht Cup Copper

As his degree in business administration suggests, Don Matthews was destined to administer a phase of the family dock-loading business from Broadview in New York, but his heart was always putting out to sea. While other boys’ dreams might involve clipping coupons, his was to captain a clipper.

Therefore it is not so strange that Don should console himself by excelling in a sport that has always bewildered landlubbers like Red Smith ’27 — the world of schooner and ketch and yawl that is yachting — helping to put 'Vim and Weathery' beside Shamrock and Enterprise in the America's Cup Hall of Fame, and thereby inscribing the name Matthews indelibly in the roster that glitters with names like Lipton and Vanderbilt.

It seems quite a jump to the sleek slopes of Long Island Sound from the catboats of St. Joseph Lake, but Don's ambition was launched in just that way. From journalism and dramatics at Georgetown Prep, reverting to his Oyster Bay upbringing, he turned sailor with a vengeance at Notre Dame, becoming secretary and commodore of the burgeoning ND Sailing Club and vice-commodore of the Midwest Collegiate Sailing Assn. Having cut his teeth on cargo operations. Having cut his teeth on cargo operations, he sailed to sailing' aboard someone else's boat only to find himself a part of the winning team of Weathery in the 1962 defense of the Cup. After his own heart-stopping try in '58, Don admits “it was quite an experience.”

With the teamwork that distinguishes seasoneo yachtsmen, Don continues to follow the boys who 'homeported on Turf Road in Rye' have produced their own crew of three girls and a boy — Tam (7), Kim (5), Sharon (1) and Brian (3) — but aren’t doing much sailing these days. Since the kids are below the age limit for able-bodied seamen, the Matthews team has reconfigured and is 'swinging around Apawamis Golf Course trying to break 100.’ But the former commodore of the ND sailing team still follows the Irish fleet, whose aspirings sails have dominated the Midwest Regatas in recent years, and his fondest wish is to see his latter-day shipmates win the coveted America’s Cup. Sailing Championship even before Ara’s Irish regain the undisputed football crown.

Notre Dame Alumnus, February-March, 1965
FRANK FAGAN, his wife and four children are living in Hartford, Conn., where he is an engineer for Combustion Engineering Corp. JOHN KELLY is an engineer with Republic (aircraft or something).

JIM MCDONAGH and JOE RYAN both are married and with Grumman Aircraft. AL VITROSTEK, pres. of the Washington, D.C., N.D. Club, married and the father of four children, is building custom homes in D.C.

DON CARROLL is a manufacturer's representative in New York. DAVE CLARK and JIM MEHARI, both eligible bachelors, are working on Wall Street. DANNY O'NEIL (56 Bush Place, Hempstead, New York) is in the construction business. Since John wrote this letter I received Christopher Quigley's 90th birthday announcement. Congratulations, Marie and Dan!

As for JOHN KENNEDY, he spent five and a half years as Air Force before beginning law school at Fordham. He will be graduating in June. Thanks for writing us, John, and again my apologies for the printing delay.

DICK LEWIS, whom many of us remember studying his Russian under the corridor lights of Lyons Hall, is finishing his residence in medicine at Presbyterian Hospital in New York. He is also married to Anno, a medical school classmate. Their son Mark will be three soon.

GORDON DIRENZO, according to Dick, is a "definite bachelor," visiting scholar (and he has the credentials to prove it), about-to-be author and professor of social psychology at Fairfield College in Connecticut.

Mike and his wife, Marjorie, have a daughter. Mike is selling textiles in Manhattan. TOM ARTHUR, single and living in Greenwich, is a young equity partner of an established law firm. BOB GODFREDSON is in the insurance business in Hartford. RAY BRENNER and PAUL NOLAN, living in Chicago, are practicing law with the same firm.

DICK D'ANTONE (4525 W. 60th Pl., Chicago) has started his own law practice in Oklahoma City.

When Bill Warren wrote this letter his attractive attractive wife, Carol, was about to give birth to their fourth. Soundly sleeping, the Warren family is growing as fast as Bill's come-ups. Warren, American Oil.

JOE O'CONNOR, another '56 MD, is practicing obstetrics and gynecology in Alaska.

FRANK BETYAGH has written a welcome letter which, with Frank's permission, I'll quote in toto:

"As is probably typical of many of our classmates, I trust the story of your postgraduate work and your studies of the Alumnus for information about members of the 1956 Class, but am generally disappointed in finding only a sparse amount of such information. I have finally decided that, instead of complaining about the difficulty of getting on someone, it might be helpful if I and others would rather simply sit down and drop you a line once in a while. Since I just recently moved to the Cleveland area after spending a year in Washington, most of the information about 1956 Class members relates to those in the Washington area. For what it's worth, here goes.

"JIM KRAMER, chairman of our Senior Ball, is making a career of the Navy and is presently stationed on the Pacific. Jim is a member of the track team. Before theology he was a newly ordained Jesuit entered ND in 1951, with the Jesuit missions in Saigon for his participation in SEATO "Exercice Air Boon Choo" last year as a member of the US Air Force component of the training operation in Thailand.

"JOHN STUHLREHRE is a government lawyer in Washington, having graduated from ND Law School. He was formerly with the tax division of the Justice Department, but he has worked with a private law firm doing tax work. TONY CASTORINA is a patent lawyer in Washington.

"PETE CROUSE recently moved to the area around his home in Flint, Mich., and to his parents. We, and we were able to get together for lunch before I left Washington. Pete is married, and works for a large food businessman on how to deal with the government.

"Also in the D.C. area are TOM FALCINELLI, in private law practice in suburban Maryland after graduating from Georgetown U. law school, and DON BRYOFF, working for a newspaper (I believe in the N.Y. area).

"As for myself, I spent over four years in the Navy, the majority of which time I was in the submarine service, and got out in 1960 to attend law school. I graduated from the U. of Michigan law school in 1963, where I was editor-in-chief of the Michigan Law Review. I then spent a year in Washington as an associate of a New York law firm. While there I married to Carol, a native of Tulsal a D.C. area for a while now. I'm associated with the large general corporate practice firm of Jones, Day, Cock­ lin & Maxwell, that is based in Cleveland and recently passed the Ohio bar exam.

"Also with the same firm here is PAT MCCAR­ THY, who is married with twins. Pat graduated from ND Law School in 1956, where he was editor-in-chief of the Notre Dame Law Review. He then clerked for the US Supreme Court during the 1956-50 term, and there­after commenced practice here in Cleveland. Pat and his wife have two children and, like the Be­ thyags, live in Shaker Heights.

"I also hope that others will see fit to drop you a line, so that all of us can be 'filled in' on as much of our classmates as is possible. See you at the reunion in '66." Thanks, FRANK BETYAGH!

My deadline for the next issue of the Alumnus is April 1. Will you let us hear from you, JACK DINNERLEY (2501 N. North Ave., Chicago, Ill.), N. JERRY HIGGINS, GERRY KENNY, JERRY O'KANE, JEROME VIZCAIKONDO, DR. DICK LYNCH, GEORGE W. CLODEY, JIM BRENNAN, JOE DILALLO, MARK BURNS, DON WALE, JIM SHUMAKER, CLEM O'NEILL, TIM ABRAHAMS and you too, BRENDON BROS­ DERICK?

Even though this may not arrive until Easter, I'm filled with the spirit of the season which I write stationed at Fort Jackson, South Carolina, Merry Christmas and a Happy New Year.

From the Alumni Office:

Received the following from RAY LARKIN: "In 1962 I married a registered, degree nurse. At that time I moved to Jasper (Ind.) to manage the Jasper Office Club, which is now a privately owned and operated by my father, brother (who is also a graduate of ND) and myself.

"My wife Nancy and I have no children but are
JOHN F. MANION '56
For Club Stalwart, New Job and Daughter

Almost simultaneously at year's end John Manion became a father and an associate of the Charles A. Rahmberg CLU general agency of the Massachusetts Mutual Life Insurance, and Charles A. The new Manion in itself is not earthshaking news, but in his few years as an alumnus Manion has typified the new breed who have pumped fresh life into the ND clubs.

A native of Sterling, Ill., John worked his way through Notre Dame while majoring in Commerce. He has been district manager of refinery sales for Clark Oil & Refining Corp., since moving to Peoria from Milwaukee in January, 1959.

Active in Peoria community affairs, John is chairman of the Sherwood Forest Homeowners Assn.; past president of Toastmasters Club of Peoria, a district captain, and member of the Advisory Council of the Peoria County Democratic Central Committee. Officer of the Peoria Deenay-Diocean Council of Catholic Men, he has been active in fund-raising campaigns for St. Francis Hospital, Bergan High School, United Fund, and the Challenge programs of the ND Board of Directors.

John’s alumni activity has included the presidency and nearly every other elected and appointed office of the Peoria, Milwaukee and other Notre Dame clubs.

A member of St. Vincent de Paul Parish, he and his wife, Mary Ann, have lived under their own Kevin at 2517 W. Marian Court. On Dec. 29 Mary Ann (a native of Mishawaka) presented her husband with four-pound, two-ounce Lisa Marie seven weeks ahead of schedule.

AIR FORCE ROTC FORMS ALUMNI GROUP

Lt. Colonel Everett E. Blakely, Professor of Air Science, Notre Dame, announces the formation of an Air Force ROTC Notre Dame Alumni Group. The purpose of such a group is purely a social one and it provides a good reason for all Notre Dame ROTC Alumni to get together. At the present time plans have been made to have a get-together after each HOME-COMING Game and a party during Reunion Weekend in June of each year.

This will enable many Air Force ROTC graduates to swap Air Force experiences after Homecoming Games. The Air Force staff here at Notre Dame is looking forward to meeting many of its old graduates at these affairs. A "test" gathering was held after the Stanford-Notre Dame game on 24 October 1964, and several happy voices were raised in approval of this idea.

One of the difficulties involved is the address problem of the Alumni. It seems that the Air Force moves its officers rather frequently and this plays havoc with mailing lists. It would be most helpful if all our Air Force ROTC graduates dropped a note to Major Francis A. Yeandell, Air Force ROTC, University of Notre Dame (Faculty Advisor for the Air Force ROTC Alumni Group) with your current address. This will facilitate the mailing of the "Air Force Briefs," the monthly bulletin of the Air Force ROTC here at Notre Dame.

Deaths of alumni, or their immediate relatives, come too soon to our notice without any detail. We would appreciate everyone's help in continuing to report on the accomplishments and misfortunes of our Notre Dame family, together with survivors, funeral arrangements, or other pertinent details.
Office of the President,
University of Notre Dame Alumni Association

Dear Fellow Alumnus:

“The lane is long, someone has said, that never turns again;
And fate, though fickle, often gives another chance to men . . .

“Oh, somewhere in this favored land dark clouds may hide the sun;
And somewhere bands no longer play and children have no fun;
And somewhere over blighted lives there hangs a heavy pall;
But ND hearts are happy now, for ARA has the ball.”
(Apology to Wilson’s “Casey’s Revenge”)

These are again the days of WIN and roses at Notre Dame. There is magic in the return to prominence of THE team which played with such flair, power and pride under brilliant coaching. Most significantly, the football success dispels the doubt that you can’t have great teams and high academic standards.

We welcome Ara, “Doc,” Tom and Paul as the newest members of our Alumni Association and Monogram Club and believe they join an outstanding athletic department which will lead us into another golden sports era.

The spotlight on sports draws our attention to the need of the Athletic and Convocation Center. Ground will be broken next spring. Regretfully, our pledges are not abreast of the building schedule. We are coming up to half time trailing and will need a real second effort to capitalize on the generous matching grant of the Ford Foundation.

Many of the private colleges in our communities struggle to raise OPERATING capital while we at Notre Dame have the opportunity for the greatest growth in the school’s history. Surprisingly, the Foundation office records reveal adequate funds available in unworked pledge cards. We must help and help immediately.

POINTING WITH PRIDE

On the bright side, we learn that the 22nd Annual Alumni Fund exceeded $2,000,000 for the first time in Notre-Dame’s Alumni history.

Our initial “workshop” in January was directed at exploring the second hundred years of the Alumni Association beginning in 1968. We are enthusiastic as to the prospects of weaving the Continuing Education program into our traditional Alumni activities. Our Alumni Secretary is a great one for pushing into uncharted areas and taxing the Board’s capacity. This sense of discovery, together with talent and dedication, resulted in his and the Association’s receiving National Alumni honors in 1964.

Now if we can improve on Phil’s 9-1 record.

With best wishes to you and your families for health and happiness, I remain.

Sincerely,

LANCASTER SMITH ’50
President

P.S. My next letter will feature the comments of our three vice-presidents on change as foreseen in Alumni Workshop sessions which they moderated: (below, l.-r.) Fund Vice-Pres. Mort Goodman ’30, hero of a gallant delaying action against the insipid “Goldfarb” movie, on alumni-campus public relations; Class Vice-Pres. Paul Fenlon ’19, who has done as much as any man living to extend the tradition of great teaching, on class patterns; and Club Vice-Pres. Geo. Bariscillo, recently installed as president of the Monmouth County (N.J.) Bar Assn., on club programs.—LANK
