FATHERO’HARA PICKS SAILORS FOR CHINA TRIP

Twelve Men and Four Alternates Named; Meeting Set for Tonight

The list of the 13 students chosen by Father O’Hara and a committee to take the Orient trip this summer was announced yesterday. It follows:

Charles Gane, Robert Smith, Philip Biehler, E. E. Weigel, Walter Dalton, Donald Campbell, Edward Hunger and John Calhoun—students in foreign commerce.

Pharm—mechanical engineering.

Robert Howland—journalism.

Law—Leland M. Raymond—law.

Football coaches have the opportunity of making the trip in case any of them choose to do so. They are: Albert Sommer, first; Andrew Cunningham, second; Henry Toner, third; Frank Murray, fourth. The list of future foreign trips was not taken into consideration, though it is possible some of the class, course averages and activities of each man. A meeting of the committee at 8 o’clock tonight in room 322 Main Building will discuss details of the trip journey will be discussed, and other members who have not made the trip before.

The boys have been advised as from the officials that every man who takes part will have to have a passport. This is true of all the men, therefore, it is probable that some of the future football trips will be delayed.

For the present, the group of six men will have leave at several on June 19, on the passage to San Francisco. The second group will leave July 1, on the passage to Japan. The trip will take about seven weeks. It is hoped that the boat will stop one day at Malaya, and on the return trip the boat will stop for about three days.

JUNIORS NAME S.A.C. MEMBERS

Some Elected by Day’s Vote; Others Voted on Thursday

Junior elections for S. A. C. representatives were held in the Newman Hall Thursday. Mr. Van Houten, principal, was in the classroom for the day.

INFORMAL AND HARD TIMES RASALEE, PROGRAM OF SUMMER

Plans for an informal dance to be held in Indianapolis Sunday, June 18, for a Hard Times Rasalee to be given in September, were announced by the Sloane and Holman clubs, following the meeting which was held at the Sloane last Thursday. The information was featured by the Sloane in the Valley March and Elmo Song will be played by the Sloane Band.

The Band consists of 15 members, organized in 1896.

The death of James B. Martin’s grandfather has just been reported to the family. Mr. Martin is in Chicago.

RADIO NETWORKS AND THEIR WORLDS

A FAN’S CELEBRATION

Some confusion may arise as the initial issue of the DAILY, with its many pages, appears at the time the regular monthly bulletin of the Indiana State College of Agriculture is mailed. Since its present achievement of winning the Champion States Intercollegiate Dairy Contest has been in great demand as a speech.
Loud and longer grew the menacing drone of the huge circular saw. But the arms of the wretched bundle of rags that was too small to make an automatic feed plank. The bundle moved, made a mess of the thing, and resulted in the

POLITICS AND HUMOR

A United States senator, prominent in the politics of the Middle West, once made the assertion that he had experienced more
difficulties and uncertainties in his college days than he had during his later career in the field of national politics. This interesting
statement is made the more creditable from the standpoint of the
legitimate class honors and their constituents with material for solid
thought which should bring about a change in student
self-criticism and the automatic election campaigns. Political battles at Notre Dame are not as intriguing as at
most colleges and universities, yet certain abuses are creeping in which it seems clear that there is a greater need to
revive Old Notre Dame and the democratic spirit of good fellowship which prevailed shall be raised above the

The trend of class politics at the University in the last four years has been interesting, and prospective of many a laughable hour from those individuals who hold responsible positions in the student body. The presidential election system, which provides for a period of two days between the nominating and the actual election, is one of the
few, and has introduced many absurdities. We designate them in this way

On the whole, however, the students who have taken part in these
campaigns are to be commended for their evident interest in the

In conclusion, we wish to say that the political situation at Notre Dame is in need of a

The Techno-Log

We are still clinging to the Log waiting for the men in science and engineering to appear in a larger way in this column. Send new items to 110 Sorin.

SPORTS

Men from engineering and science have organized baseball teams and arranged a schedule for the remainder of the year. The members of the faculty, as well as the students, have shown an interest and to date three games have been played, two in Chicago.

Because of late organization the Civilians and Electrons were not included in the original schedule; but both have good teams now and are anxious to schedule games with other members.

The season was opened officially on May 2 when President Smith pitched the first ball in a game between the Ground Hogs (Miners) and the Tech Tubs (Electrons). It was a rip-smart contest made particularly exciting because of Howard's urful dodging of pop batties. The Ground Hogs led 4-1 until the last of the ninth, when the Tech Tubs got hot and scored four runs. The game was called for supper with the score standing 8-8. A few days later the Derby game overcame a big lead and took the measure of the Pre-Meds to the tune of 11-8. Hereafter batting will be possible and the standing of clubs will appear daily.

Another incident which occurred when the Demons met the Ground Hogs on May 9, is that good pitching and fielding held the game 2-2 in the eighth, when it was called on account of rain. The number of tied games played suggests the even matching of the clubs and the reason for the exciting interest in the games.

May 22—Pharmaceuticals vs. Pre-Meds.
May 23—Miners vs. Civilians.
May 24—Pharmaceuticals vs. Mining Engineers.
May 27—Chem. Eng. vs. Pre-Meds.
May 29—Miners vs. Pre-Meds.

All teams are eager to fill their schedules and the following games are to be played:

Miners vs. Leo Graf, D.A.D. Miners, Gene Sullivan, 408 Corby
Chemists, Dan Hall, 5th Corby, Pre-Meds, Carl Glidden, 494 Corby;
Electricals, Ed. Sullivan, 169 Corby, Civilians, Ed. Cantwell, 396 Corby
Mechanicles, Joe Muraczek, 7 Corby Building.

Arvin A. Rohm, graduate in civil engineering, 1922, is now assistant engineer, Great Lakes L. Co.

Frank F. Goodall, C.E.C., former Grand Master of Notre Dame Council 1477, Knights of Columbus, is finishing his second year at Holy Cross College, Brockton, D. C. In 1926 Mr. Goodall entered Holy Cross Seminary and in addition to the studies prescribed for seminarians continued his engineering studies. As a result he received two degrees at the time of his graduation in 1929. After spending a year in the Navy he continued his studies at Holy Cross College, where he will finish in June 1932, returning to Notre Dame in that month for ordination.

The following graduates of the course in civil engineering at the University of Notre Dame are doing exceptionally well in their profession:

ST. MARY'S

Twilight had scarcely fallen when the rusty gate between the Drum and St. Mary's was opened, and St. Mary's Avenue was thronged with Notre Dame men on their way to the Junior Club House to attend the final general meeting held in the new building. By means of direction cards, given to the invited guests, a makeshift guest list was prepared. On the eve of the meeting, the Notre Dame general store was given a check over with a billion and a half business cards. The dinner was served on the sunny terrace, and the guests were invited to join the discussion at the table. The conversation was lively, and the atmosphere was one of excitement and anticipation.

After the Hop and the Theater

Why not join the crowd and enjoy dinner in a restaurant with beautiful surroundings.

The cheer leader for the Notre Dame team was announced on a loudspeaker over the public address system. The cheer leader's duties include leading the team on to the field before the game and encouraging the crowd to support the team.

“Dome Out Soon” Say the Editors

The editors of the University newspaper announced that the stadium will be completed by the end of next year. The stadium will be completed by the end of next year.
