Homecoming Plans Made Tomorrow

A general meeting of the athletic directors from the various departments at Notre Dame will be held on Tuesday afternoon to discuss the Homecoming plans for tomorrow. This meeting is crucial as it sets the stage for the week's events, ensuring that the Homecoming is a resounding success.

The official ruling on Notre Dame colors was announced by the athletic directors at a meeting on Monday. Steirich to Play for Class on Saturday

Class of '26 Gets Elkheart Orches- tra for Dance; Furry and Luther Will Sing.

William F. Furry, Commodore '26, will take special vocal numbers at the Junior Football dance to be given next Saturday night in the auditorium. It was announced by the class committee yesterday.

The Slocum orchestra, of Elkheatl, will play for the dance, it was also said. They have seven pieces and were well received by Notre Dame men living in South Bend who heard them at Christiana School. They are under the direction of James Atwood, of Elkhart's Milwaukee Dining Hall.

Furry was president of the Glee Club four years ago, and will give a solo at Notre Dame for the past three. The dance is to be held at the hotel and at Diamond lake last summer, and was regularly attended. He is also president of the band, and will be one of the vocalists in the orchestra.

The songs will be arranged so that they will be suitable for a college band program.

The committee of Father Donahue and Sophomores have selected the first five songs. They were granted a petition to sing them, and the policy is being prepared by the dance committee.

The band instructor and the Monogram club men will be the guests of the dance.

SCHOLASTIC WILL BE ILLUSTRATED LATER

The Scholastic, monthly publication of the students of the University of Notre Dame, is now in press. The Scholastic will carry illustrations for the stories, and will be published every week. The delegation will consist of students from the Chicago-Notre Dame club, Princeton-Notre Dame club, and other clubs in the city.
HELLO, NOT HAZING
Having been never popular at Notre Dame; occasionally, a student whose ideas and ways of acting were in direct opposition to the traditions of the University has been waited upon by a committee of his fellows and has had certain regulations and usages explained to him. But in general, all the classes, from froshmen to senior, have 'dug together, and been happy. It is the purpose of "Hello Wuk" to make the freshmen feel at home. A friendly greeting goes a long way sometimes towards making life easier. We think you will find this greeting should be more widely used. In a true democracy, everyone is equal, and Notre Dame is a true democracy, if there ever was one.

The DAY STUDENT PROGRAM
Registration figures show that there are now approximately 500 day students, or 200 more than there were at this time last year. This decrease has been brought about through the increased accommodations on the campus offered by the new freshmen and sophomore halls. It is the desire of the University officials to bring all the students to the campus eventually; and with this end in view the erection of additional halls next year is planned.

Yet a number of years must pass before it will be possible to house on the campus all the students who will seek an "education at Notre Dame," and while we have the day student program, this problem has resulted from the fact that the downtown men have been too far removed from the rest of the student body. They have never lived the life that develops the fraternal Notre Dame spirit. And failing to share in the development of that spirit, some of them questioned its existence. In a certain sense, however, they have reason for their doubts, for they have never been in a position to observe the nature of the spirit or to be influenced by it.

One of the chief advantages offered by any university is that of contact with the university spirit, and this has always been a great importance of Notre Dame. But the day student program has been a large measure depraved of that advantage. The University has evolved a spirit of its own, somewhat distinct from the rest of the student body. They have never lived the life that develops the fraternal Notre Dame spirit. And failing to share in the development of that spirit, some of them questioned its existence. In a certain sense, however, they have reason for their doubts, for they have never been in a position to observe the nature of the spirit or to be influenced by it.

SEEKERS OF TRUTH
Many newspapers are so given to lying and exaggeration that it seems as if they made misrepresentation their policy. Lying and exaggeration is probable. The newspapers that deride truth are successful—flourish—grow. But there are newspapers that make every effort to be truthful. These are the papers with reputations among people who think; these papers have influence.

Even the paper that tries to print the truth, however, sometimes err. Sometimes a copy writer, sometimes a reporter is at fault. But often men connected with the press are not connected with the press. Such men are everywhere—they are at Notre Dame. Such men criticize all newspapers, making no distinctions. Sometimes such men are the only source for a story, but even so, they rebut the report. "I won't give you any story, I won't tell you anything; newspapers never get things right,' they say. Thought might show such men how much they hinder the securing of the truth.
From Off Stage

Those who care for the type of acting of which Miss Murray is the chief exponent will, no doubt, enjoy the "French Doll" at the Or­thodox in which she is given her usual opportunity to play on the part of a French girl whose part­ners regard her as their best find­ings. Her specialty is palming counterfeit papers off for real ones, manufactured in Grand Street, New York, by some illegitimate Emmaus, to whom she is indebted for her skill. When she is not selling furniture, she is a puzzle at a master of fact, the outstanding feat of the week, is that her deception is so perfect, she is a duffer, but enough is too much.

The picture is enlivened by the snare presence of Rod La Rocque, an accomplished actor, conscious at times of having occasion to up­date a sudden change of opinion. Rod La Rocque is a dashing smash in a fashion which leads one to believe that his kith and kin, to the second degree at least, would make excellent teachers of the art.

The supporting cast is consist­ently good. The honors go, per­haps, to Lucien Littlefield, whom you often saw in the past with Wash­burn Reid. His bit as the indescribable is a small one, but it is a contribution of one of the best funny types of the entire play. - J. B.

THE new Wahl Pen in engine-turned black rubber is unlike any fountain pen you have ever seen. Anyone who writes will be proud to own a pen of such grace and splendid writing performance. It is as per­fect as a music box.

The man’s-size flat with the cushion grip will find a Wahl Pen to fit it. And so will the woman’s feminine hand. There are sizes and shapes to suit every man and woman in college or business.

Wahl Pen is made by the makers of Ever­sharp. It is another leader. The Wahl filling device fills the pen barrel or ink every time. The Wahl comb feed regulates the flow so that the pen writes the instant you touch the paper. You never have to shake it. The ink never floods.

The everlasting nib is 6-barrel gold, tipped with the hardest, finest iridium. Unbiased experts say it is the ultimate in nib-making. Clipped in pocket, purse or note book, Wahl Pen cannot leak—its patented cap construction prevents it. Wahl Pen is so perfectly balanced and proportioned that it seems made just for your hand alone. It writes perfectly. Ask your dealer about Wahl Pen. All styles and sizes. $1.95 up.
