Summer School Will Have Course in Law

Announcement was made yesterday by Dean Thomas F. Knopf of the College of Law that a course in law will be taught at the summer school this year provided that there are sufficient enrollments. Classes will be held from 9 a.m. to noon for which there are ten or more applicants. Present indications indicate that there will be a sufficient number of law students to warrant the necessity for two sections. This is the first of its kind to be given at Notre Dame. Miss Sarah McGuire, a pupil of the law school, will assist in the recitation. The Gle Club will hold several summer concerts and it is planned that the infeld take a fast work in shifts.

Intensive drill still continues to employ the football candidates and it is expected that all candidates will have field men through a strenuous session of practice and football. It is expected that twelve or more will take part and passing. The past few days have seen several promising linemen whose presence will strengthen the 1924 aggregation.

Democrats Will Organize Tuesday

A call was issued yesterday afternoon for a meeting to be held at 12:30 p.m. Tuesday in the north room of the Gle Club. It is interested in forming the Democratic club.

The call was followed issuing a conference with the Democratic county committee to which an agreement was reached to proceed with the organization of the club. The meeting will be held presided over by Tuesday. The call was followed by a conference with the Democratic national committee to which the organization club was invited.

Glee Club Will Appear at Akron

Arrangements have been made for the glee club of Akron to appear as the Akron acrobats at the Akron armory on the night of April 20.

In order to make the entertain- ment of the Akron armory an ac- tual event, the glee club will be oper- ating with the Akron acrobats and a special program will be set up so as to feature the acrobats. The program has been arranged such that the acrobats will be put on at an early date.

The Akron acrobat will be one of the features of the program, while the glee club will be the main attraction. The program will be divided into two parts: the first part will consist of songs and dances, while the second part will feature the acrobats. The program will conclude with a grand finale that will leave the audience thoroughly entertained.

Next Year, What?

COURTMENT is not far off. They will be here sooner than you realize.

Will you spend next year as an apprentice in business, or will you use it to fit yourself for leadership? In a few years some of your class will be influential leaders, possessing qualities of great responsibility; others will be placed in minor roles—lifing hard to make a living. Thus far you have made a splendid investment of your time. What will you do now? Have you chosen business for your life work? If so, and if you seek leadership in the commercial world, here are facts worthy of your deepest consideration.

The principles of leadership in business are not many in number. They are not hard to grasp. Yet none nor a hundred nor a thousand

The two chief reasons for this failure are (1) lack of business experience and (2) the difficulty of getting credit from the relatively few employers that are possible big ones.

A Study of Leaders
Through your studies you have received for yourselves a substantial background—a foundation upon which you can build high. Why not use this foundation in the largest possible way? If you are truly ambitious for steady and permanent progress, it will be for you—in addition to your undergraduate work to consider the advisability of completing some preliminary training in the business world. The training is available at Babson Institute—organized under the Edith Green Business Education Association to train thebusiness men of the future. Babson emphasizes practical training, so that you will graduate with the skill and experience necessary for business work. Babson Institute to train the business men of the future. Football Game Closes Spring Training May 3

All the conventions of the gridiron sport will be shattered this year at the class of the spring football, ball session when the veterans and the hopeful line up for the kick-off on Cartier field May 3.

The spring game is a usual feature of the Princetonian section, and the new candidates after absorbing the fundamentals of the game during the previous weeks of training, are given their first test under fire. The recruits at present are under the tutelage of Coach Rocke and several of the men from the 1923 team are setting up a grand bargain for the new strenuous work which will be inaugurated as the training sessions proceeds. For the past few nights, Rocke has given the candidates for the line positions individual instructions.

**Interesting Number of Catalyzer Is Out**

The latest number of the Cata-
lyzer made its appearance on
the campus early this week. The
Catalyzer is the monthly magazine
edited and published by members
of the Chemistry club at Notre
Dame, with Paul F. De Paulis, Ch.
S., ’24, as editor-in-chief.

The leading article in the pres-
tent number is entitled “A Process
for the Manufacture of Paraffine-
dyes,” by Richard E. Vogt. This
article is a short but interesting ac-
count of the preparation of para-
affin dyes as a proposed commercial
process. Mr. Herman H. Wenzke,
professor in the department of
Biology, is the author of an ar-
ticle on “A Course in the Principles
of Chemical Engineering,” outlin-
ing the course pursued by students
at Notre Dame in acquiring a de-
ge in chemical engineering.
