FATHER CATAPANG LEAVES TODAY FOR THE PHILIPPINES

POPULAR PRIEST TO BEGIN EDUCATIONAL WORK IN NATIVE COUNTRY

Father Vincent E. Catapang, S. M., will leave the university today in response to the call of the Bishop of the diocese of the Philippine Islands, to take charge of the educational work of the Philippines. He leaves to inaugurate a program of educational work which is to be instituted in the diocese of his native land. The journey will require about 10 days, and he will arrive in San Francisco, where he will spend a few days before he returns to his native land.

SUMMER COURSES TO BEGIN JUNE 25
TO TEACH BOTH SUMMER SESSIONS AND POST-GRADUATE WORK

It was announced yesterday that the university summer school will open on June 26 with a faculty of 93 persons. Courses in all regular university departments and in post-graduate work will be offered.

Some of the courses are of a novel character. There will be a 10-day intensive course on the banks of St. Mary's lake for the benefit of alumni who desire to gain a wider understanding of the direction of education with the cooperation of the National Education Association. Father McNamara will be the head of the summer school.

The convocation will be the seventh in the history of the university. Last year's attendance was about 3,000 persons, and it is expected that the many added courses will make this year's even more successful.

Engineers to Hear C. J. Stahl Monday

Notre Dame bunch, A. E. E., will have some exciting new material in its program building at 8 o'clock Monday evening, March 27. C. J. Stahl, manager of the Illinois-Westinghouse Electric and Manufacturing Works, South Bend, Ind., will discuss the subject of "Artificial Lighting," demonstrating by means of apparatus certain principles of this art and practices obtained. All electrical engineering students are cordially invited to ask his lecture. Those interested are invited.

The banquet Thursday in honor of the engineers, which is still in use, was given by Father John Devers, S. M., was incorrectly reported. Paul McGee nett was act for tonateur at the affair.

Oratorio Contest Held Here April 4

Because Mark Nolan, the Notre Dame representative, won the regular contest in the fifty-first annual contest of the association of the colleges of Boston, the Oratorio Association will be held at Notre Dame this spring. Last year, the association ran this contest in the annals of the school that Notre Dame has held to distribute prize money and money to the contest.

The three orators ranking highest this year will be chosen to appear in the final contest, which is to be held at Notre Dame on April 25, but their individual ranking will be secret until the final contest.

The Intercollegiate Oratorio association was formed as a permanent organization at a meeting held at Chicago in 1854, and its prizes have been held every year since then, and the association has continued until it now includes 14 states and more than 90 colleges.

BASKETBALL AND TRACK MEN FOCUS ON A NEW SEASON
GAMES OF SEASON

The coming week in Notre Dame history will be marked by two significant events. The first will be the opening of the outdoor track season and the baseball season. Both sports will begin their seasons with a week-end tilt at De Pauw in the first outdoor dual track meet of the 1924 season. De Pauw and a squad of baseball men will take the field against Northwestern at Evanston, next Monday, April 7.

The strength of the De Pauw aggregation is unknown outside of De Pauw, who own the all-around title in the Illinois relay carnival. The De Pauw hopes are placed upon a little emphasis on the ability of Joan to come through in the pole vault, high jump and broad jump. The limited track team has not as yet jumped 6 feet in the Illinois games but isviding a victory of 22 feet. The remainder of the program should be bolstered by Notre Dame veterans. The Irish squad, under the leadership of Captain Kennedy, has been running steadily toward perfection on the practice track. Practice on the practice track yesterday will force the team to compete without having had much outdoor work. The opposition offered by the dentists will be so great that the program of De Pauw will be driven to desperation.

The baseball squad confined their practice session to the gym because of the wet weather, due to the unfavorable condition of the weather. The men worked through the afternoon in the still that has been laid out for use if the field is drenched with rain. Regular base-ball weather today, there is no possibility that a game will feature.
Brother Terence Has Been Locksmith
at Notre Dame for More Than 20 Years

For more than twenty years Brother
terence has been employed at the
infolitory building a little shop, about
8 by 10 ft., in which Brother
Terence has been engaged in mak-
ing keys for this campus. Brother
Terence began work at Notre
Dame by opening doors, trunks and
locks for the campus and neighbor-
ing students.
