The chorus that should swell the heavens and rise in a wonderful sound is now as weak as the winds that would proceed, from a song from the ethereal world of the aged.

We have among us men who are noted for their ability as singers. But there is something about the atmosphere of this kind of church that makes the Nates-Dame man slow to lift up his voice in song. Can it be timidity? We have never been accused of timidity, as this is extremely doubtful.

We must come to the conclusion that there is no reason for this rather paradoxical condition of affairs. So can't we make full the church with a little more volume during the remaining few days of Lent?

BOOMERANG POWER

Now that Len Small has been nominated, we have been pinching ourselves every few moments to see if we are awake. After the attack on legends of Judge Peabody that seemed so reasonable, logic unavoidable to outline, to have at least some basis of truth, it has now been reversed.

But he was not.

The other morning the "Voice of the People" in the Tribune was heard, after denouncing Small as too small, announcing Small's success in the Tribune's opposition. Not long ago the candidates appointed by almost all the New York papers were... The same thing is happening in all big cities.

Illinois Features Conference Track

Gillen Have Defeated Notre Dame Four-Teen Times

Statistics gathered from past performances of the University of Illinois track team have a significant bearing on track history in the United States in that they point to the dominance of the Fighting Illini as being on the home of some of the greatest track teams in the country. Harry Gill, without exception, has enjoyed the most brilliant track coaching career of which the history of the closer sport can boast.

During the 25 years that Harry Gill has guided the track destinies of the Fighting Illini, he has been defeated by only two conference schools and one non-conference invasion. Chicago and Wisconsin have the singular honor of having colored the colors of the Buckeyes 14 times during two decades. California has been the only outside team to take the measure of the Gillen and meet Saturday, Illinois will meet California on the cinders for the third time, and a desperate attempt will be made to defeat the Buckeyes who won the first two meets.

Notre Dame has been one of the four most frequent competitors of the Illini and in the 14 times that the two schools have met in dual meets, the Fighting Irish have always lost the encounter. Notre Dame has shown a tendency to win the indoor encounter in 1922 when the relay was the deciding event on the program. Illinois has a good chance to defeat the Buckeyes and probably will be one of the headline performers at the Drake games April 23-26. The Buckeyes will come to Notre Dame on May 10, for a dual meet on the indoor track. If the Buckeyes should win on that day, the Fighting Irish will have saved for themselves a high place in the history (Continued on Page 4).

Electricals Defeat Miners Team, 16-12

The Electrical Engineering Baseball team defeated the diamond squad from the Miners' department, 16-11, Friday afternoon. The men from the Electrical department featured the game with their smooth batting.

Surgers of the Miners twisted a nice game, but failed to get the support of his team. The Miners showed to the best advantage when at bat, and a little more practice together should make them one of the most aggressive ball clubs in the leagues.

The baseball interest in the Engineering league has been heightened by the announcement that a pennant would be given to the team winning the Engineering league title. The pennant is being donated by the Clinner sporting goods store.

Unique Pitcher

Ohio State boasts of a true baseball phenomenon this season. The Big Ten school has a pitcher whose only defect is that he has too much control. When he has occasion to make a ball, it gets him into difficulties.

From actual experience the fundamentals of business professions are being put into practice. The students are learning that a directorship——-with patience, experience, for student is always losing in the course of events. If Notre Dame should win on that day, they will be in a high place in the history.

You won’t fumble this cap!
Professional jugglers could handle the old-
style shaving cream caps and never once drop
one down the drain or under the bath tub.
But for most of us, this new Williams Shing-
cap puts an end to an ancient nuisance.
Williams Shaving Cream is just as much
pleasant to use as in the Hinge-Cap. It
softens the beard with uncanny speed.
The thicker lather holds the moisture in against
the skin where it is needed. This latter lub-
ricates the skin, too, so that painful razor
friction is eliminated. And when your shave
is done, that famous ingredient in Williams
which helps the skin leave your face cool,
good and refreshed. No coloring matter
is used in Williams—it is a pure, natural-
white shaving cream.
