THE DAILY'S STAND FOR NOTRE DAME

A union building is to be built as soon as possible.

A well-organized student body, residing upon the campus.

True recognition of good scholarship and a better appreciation for the efforts of men in campus activities.

The New Tammany Leader

Al Smith, son of New York's east side, graduate of Foten's fish market, and one prematurely renowned for his ability to legalized securitv, twice governor of the Empire state, and presidential possibility, is a railroad agent and chief of Tammany hall, the world's most influenci- ous political machine.

His ascendency cannot be gainsaid, for he is by all odds the most powerful man in the state, a man, Charles L. Drake said, that he has as large and faithful a following up state, now an area not to be despised, as he has in his native city. Party politics though he has, he has the utmost respect for his various political citizens of every party, however widely apart they may be on public issues.

Though out of the campaign as a possible candidate, he will nevertheless have a political voice in naming his party's ticket.

If his record may be taken as a criterion, the nation may expect a more powerful Tammany in 1928 than it has ever known be- fore.

TILDEN AND CATASPROPHAE

The forced withdrawal of William J. Tilden II, America's foremost tennis player, from Manhattan College play brings a severe blow to the chances of the American tennis team.

If Tilden can rightfully be termed a professional on the grounds that he has appeared in professional tennis events and numbers of amateur, golfers, football players, and other sportmen can also be so termed, then the sports world now has an ace that is as good as any other professional.

It is truly unfortunate that Tilden or any other sportman who classifies himself within the amateur sphere may be forbidden to be a writer as well as a ranking player.

The offer of the Briarell club to accept Tilden as a professional at a salary in comparison to his skill carries with it also the hope of the 900 members that he will be able to beat the lesser elements in the world of sport which have combined, either through malice or short-sightedness, to preventateur competition.

Tilden, by reason of his accomplishments and journalistic ability, is truly the Walter Camp of the tennis world.

His spirit in amateur competition and with regard to the game is so essentially and entirely drawn from the sport.

DOME ELECTIONS

The Sophomore class met in the Library yesterday, nominated men for the offices of editor-in-chief of the business manager, and elected man for art editor. On Monday they will meet again to choose the other two, who will put over the university's annual.

The Sophomore class most important publication on the campus with the modest exception, of course, of THE DAILY. The sophomores must be in line and C. C. library who have charge of the book, the annual record of a year of college life, one that is now out to homes in every state of the union, and to homes in many other countries. Two copies are now and only a book that as is as good as the representative of the University, the institution, and the country. It is also, it is ex- pected that the sophomores will exercise as much care in the selection of the other two men—the editor-in-chief and the business manager.

By nature, the Sophomore class have insured what will be, without qualification, the best annual the university has ever produced and because of the recent present enthusiasm, it is believed to be more judgment. It is only right that the book should be better with each year, for the university, and, too, is growing in importance and prominence.

For the men of this year, the sophomores will, we feel sure, select men who are not only capable and talented in their work, but also men who can secure the full cooperation of their fellow.
**WALSH TOPS LEAGUE WITH VICTORY OVER CARROLLS**

Fourteen errors by the fielders cost Carroll its contest with the Walsh nine, when the two squads met on the Brownson field Thursday. Walsh was 13 to 5.

The record of the Walshites was good as hits when the Carrollites either let the ball through for dropped or stitching it to pitcher and fielders and given support by their teammates would have given Ahern a close contest. Ahern was nicked for five hits and the Carroll tossers for four. The Walsh fielders supported their pitcher in brilliant style throughout the encounter.

Women of Carroll smashed out a homer in the seventh.

**Indian Nine Bows to Varsity, 4 to 1**

Playing at Indianapolis on Thursday in a benefit game for the Indiana state Olympic Fund, the varsity defeated Indians, 4 to 1, in a seven inning game.

Game one: Shick drew the mound assignment and except for the first, when the run was made by the Crimsons, he kept the enemy well in check. Only two hits were made off his delivery.

Joe Bergman, putting in the game of the day, made a fine stop of the center of the encounter, driving out a baserunner at first base. Eager Nolan got a triple and a double, and it might have been him for hitting honors. Score:
