MEMBERS RECEIVE TOWNS FROM UNIVERSITY, YEAR IS REVIEWED

As a token of appreciation for the past year's support, the University Senate of the University has given presents to the members. The gifts were received on Tuesday, April 2, at the meeting of the Senate's Board of Directors. The members were presented with a gold watch, a gold pen, a gold desk set, a gold tie clip, and a gold key chain. 

The meeting of the board began with the presentation of the gifts. The board then took up the business of the day, which included the consideration of the following items:

1. The appointment of a new president of the university.
2. The adoption of a new constitution for the university.
3. The approval of the budget for the coming year.
4. The election of new trustees for the university.
5. The discussion of the university's plans for the upcoming academic year.

The meeting adjourned at 10:00 a.m. after the conclusion of the business. The members were then invited to enjoy a luncheon at the university's dining hall.
THE DAILY'S STAND FOR NOTRE DAME

A union building to be built as soon as possible.

A well-organized student body, residing on the campus.

A safe and comfortable place for students to study.

A better appreciation for the efforts of men in campus activities.

THE END OF THE ROAD

It is June. In college life the month of June is a month of farewell, some of them leaving, some of them only in purging. Senior examinations begin tomorrow, in fact they have already commenced in some colleges, and the final examinations for undergraduates are not far distant.

In a short time "the greatest gang on earth" will scatter. Seniors will be going to Europe for a while. The juniors and the sophomores who will still be here in the fall will be completing their work, and the seniors will meet most often again, and others will remain in the recollection.

The year has been one of success. Notre Dame has triumphed in sports, in activities, and in education. It is the end of one and the beginning of another already blazing in its promise of achievements.

IT IS BECOMING NECESSARY.

At Columbia University the commencement day committee has unanimously passed resolutions asking students and alumni to observe the prohibition law during alumni celebration next week. The resolutions asked the alumni to cooperate in "predicting personal preference to regard for the fair name of the university.

It is becoming necessary to take such action. The problem of prohibition is a problem which can not be solved by advertising and propaganda. The problem is not to be solved by the mere passing of a law. It is a problem to be solved by the elimination of the root cause.

Leaving out of consideration entirely the question of the legislation of colleges and the schools, the resolution of colleges and men is at stake.

College people are looked upon in their communities as leaders in the world. If they disregarded the highest law of the land, the United States Constitution, with utter impunity, they will soon lose that esteem in the world in which they are held, and the same thing will happen for particular schools. It is a problem of all colleges and of all college men and women.

PACIFISTS AND SCHOOL BOOKS

The pacifist movement which is gaining a foothold in certain sections of the country has not been particularly alarming. The development in the group toward the revision of school textbooks is, however, a matter of some importance.

In this respect the pacifists are exhibiting some keen forethought. If the pacifist movement is to succeed in influencing thought in the grade and high schools, and their textbooks, then propaganda will creep into every history in the land. Just wars will be painted as a laudable cause, and the means which have been supported by the patriotic millions of our nation will be made to appear as the greatest of all wrongs.

The pacifists and the school books need to be watched carefully.

Scientists report that the world moves 1,110 miles a second. No wonder we have to go as fast as we can.

Some men are getting out in business without a system. But you never saw them going at such a rate as without an idea without a system.

An artificial personality is like an artificial complex. You can get by with it until you get caught in the rain.

A man may become wise without reading a single book. He'd be wise if he read a few, however.

The difference between a woman and a phonograph is that you can shut a phonograph off.

From the looks of things around here in spring a young man's fancy turns to fibbers.
The University of Notre Dame will be represented among the 14 non-conference schools that will participate in the annual outdoor western conference track meet to be held at the University of Chicago, June 6 and 7. This number, coupled with the ten conference schools, brings the total to 24.

Among the non-conference schools who will seek team honors in the Big Ten cinder classic will be Washington, Oregon, University of Michigan, Illinois, Western State Normal and Oberlin. Several of the outside schools entered heart of star performers who will give the best men in the conference ranks closer competition than was displayed in many of the Big Ten dual meets. Gray of Butler will be able to stand up against the sprint men of Illinois, Michigan and Iowa. The Normal school has a good quarter miler in Smith, while Ames has a hurdler that pushed Brooks in the Iowa-Ames dual meet. Notre Dame will meet a squad of seven men, which will probably include some of the following Kennedy, Lake Walsh, Harrington, Liverpool, Barr, Layden, McGorman, Barber, Oak, Wendland, Oberst and Milhauer.

From past performances, Illinois is due to take a huge slice of this team honors. Gill has a pair of record breakers in the sprinters, notably Evans, who will lead any man in the conference a merry dance. Their world record in the 220 meter run. Michigan will have
