Arias Out Again

For the third time since 1940, Panama's national guard ousted President Arnulfo Arias from office. The guard suspended civil liberties, arrested and dispersed the National Assembly, but promised elections for the future. Arias fled to the US Canal Zone. In Washington, Secretary of state Dean Rusk issued a statement saying: "We are deeply distressed by the overthrow." Arias had been in office for only 11 days of a four year term.

Rhodesia - Not Yet

GIBRALTER UPI - The British Rhodesian talks aimed at reaching agreement on independence for the former British colony collapsed last night. Rhodesian Premier Ian Smith, en route to a final meeting with British Prime Minister Harold Wilson, said "I cannot see any reason for a quick resumption." His statement came hours after the British sent a six point ultimatum to the Rhodesians warning that the talks would fall unless Rhodesia accepted the points. It set no time limit. Smith told reporters as he left quarters aboard the destroyer Kent for Gibraltar: "We are deeply distressed by the overthrow." The talks, which began last Thursday, were regarded as a final attempt to reach agreement on legal independence for the southern African colony on its own initiative.

Senate Roundup

WASHINGTON (UPI) - The Congress acted last week on the following:

Cong. passed to four year continuation of authority to induct men for up to two years. Rejected plan to select by lottery.

Cong. approved President's request to ban discrimination in about 80 percent of the nation's housing by 1970, coupled with antirent provisions, staff penalties for racial intimidation, and rights for Indians.

Jud. rejected and received prohibition of discrimination on basis of color, race, sex, or creed in selection of federal jurists.

Cong. approved a ban on mail order sales of hand guns, approved police improvement program.

Cong. approved President's request to ban discrimination in about 80 percent of the nation's housing by 1970, coupled with antirent provisions, staff penalties for racial intimidation, and rights for Indians.

Jud. rejected and received prohibition of discrimination on basis of color, race, sex, or creed in selection of federal jurists.

Cong. approved a ban on mail order sales of hand guns, approved police improvement program.

Cong. authorized $113 million one year extension of the Peace Corps.

CIA In The Himalayas

WASHINGTON (UPI) - A research program in the Himalayan Mountains has rekindled fears in Asia that spies may be hidden among American scholars working abroad.

The University of California at Berkley sponsors a research project called the Himalayan Border Countries. It sounds innocent. But an uproar was touched off in the Indian Parliament when it was disclosed that the U.S. Defense Department is contributing about $125,000 to the project. The Indian Prime Minister Mrs. Indira Gandhi told Parliament her government would "very carefully look into" the Berkley project. There are major concerns, as part of an overall $8.1 billion appropriation for the Treasury and Post Office departments.

Cong. authorized $113 million one year extension of the Peace Corps.

ASP - No Endorsements

Meeting at St. Mary's yesterday afternoon, the Action Student Party decided not to endorse candidates for the University Student Life Council. Although several ASP members, including Chairman Peter Kelly, are running, Party members felt that, in the words of Kelly, "This should be as apolitical a campaign as possible."

While voting not to endorse, the meeting reached a consensus that Party members should work as individuals for several candidates. It also was agreed to drop a sizeable number of ASP candidates and sympathetic Party members. Ten candidates who received consideration at the meeting are likely to benefit from ASP assistance. They are Kelly, off-campus Senator Armond Gelson, former Hall Presidents' Council Chairman Gordon Hunt, Farley Hall President Mike McCaulley, Scholastic

Wallace Presents "Platform"

SEATTLE, Wash. (UPI) - George C. Wallace Sunday presented a 14,000 word American Independent party platform which promised to help return "from whence they came" those who are "totally unlifted" for big city life.

In many respects, Wallace's long promised platform offered not a dime's worth of difference between what he promised and what the Republicans and Democrats have promised in their platforms and campaign speeches.

Like Hubert H. Humphrey, Wallace promised a substantial increase in Social Security payments, and like Richard M. Nixon he promised to use automatic Social Security increases to raise the cost of living. Wallace produced the document after speaking Saturday night in a jammed football stadium in Seattle where thousands of overflowing supporters stood outside in a downpour to hear his words piped over a loudspeaker.

On Sunday the third party candidate scheduled a rally for San Francisco's Cow Palace at the start of a three day campaign swing through California. Wallace was present about who wrote his platform. He said in an interview it was written in Monaco, after his staff there "had listened to hundreds of hours of tape recording of my speeches" delivered over the years. The platform condemned politicians who "paid homage to the shrine of disorder and drunkenness and worshipped at the shrine of political expediency."

Talking of persons who found unhappiness in the big cities, Wallace promised: "Those totally unlifted by training, background and environment for urban living who have been lured to the metropolitan areas by the wholly false promises and commitments of self seeking political leaders must be afforded an opportunity for training or, in the alternative, an opportunity to return to the gun fields to gainful employment in the less urbanized area from which they came."

On Vietnam, Wallace promised a speedy victory through the use of non-nuclear weapons if negotiations fail.

The platform also pledged local control of schools and desegregation decisions, saying that schools are in such a disarray that "the maintenance of order in schools is the major problem and usually education is the forgotten objective."

"We cannot see any reason for a quick resumption," Wallace said. "Our thoughts are with the people of the United States who are now leading us directly into Socialism and Communism," Wallace's vice-presidential running mate said in a broadcast interview. Meet the Press NBC.

The former Air Force chief of staff and Assistant Secretary of the Air Force who should resign full scale bombing of Notre Viean and Rhodesia rejected two years ago.

But promised elections for the future. Arias fled to the Peace Corps.

There are major concerns, as part of an overall $8.1 billion appropriation for the Treasury and Post Office departments.

Cong. authorized $113 million one year extension of the Peace Corps.

For Che

SANTIAGO, Chile (UPI) - Two dozen teenagers of the youth arm of the pro-Castro Socialist party attempted to burn three homemade American flags on Independence Plaza Saturday in homage to Ernesto Che Guevara, but were dispersed by police. They burned one flag but fled with the arrival of police and left one smouldering. The third was burned a few blocks away.

MECHANICAL ENGINEERING—Engineering or mechanical maintenance departments of steel plants, fabricating works, service divisions, and shipyards. Fuel and combustion departments. Supervision of production operations. Marine engineering assignments in Shipbuilding Department. Also: Sales or Research.

METALLURGICAL ENGINEERING—Metallurgical departments of steel plants and manufacturing operations. Engineering and service divisions. Technical and supervisory positions in steelmaking departments and rolling mills. Also: Research or Sales.

CHEMICAL ENGINEERS—Technical and supervisory positions in coke works, including production of byproduct chemicals. Fuel and combustion departments, including responsibility for operation and maintenance of air and water pollution control equipment. Engineering and metallurgical departments. Steelmaking operations. Also: Research or Sales.

INDUSTRIAL ENGINEERING—Positions in steel plants, fabricating works, shipyards, and mines. Engineering and maintenance departments. Supervision of steelmaking, rolling, manufacturing, and fabricating operations. Also: Sales.

CIVIL ENGINEERS—Fabricated Steel Construction assignments in engineering, field erection, or works management. Steel plant, mine, or shipyard assignments in engineering, construction, and maintenance. Supervision of production operations. Sales Department assignments as line salesman or sales engineer (technical service to architects and engineers).

ELECTRICAL ENGINEERING—Steel plant, fabricating works, mining operations, and shipyard electrical engineering, construction, and maintenance departments. Technical and supervisory positions in large production operations involving sophisticated electrical and electronic equipment. Also: Research or Sales.

MINING ENGINEERING—Our Mining Department operates coal and iron ore mining operations and lime-stone quarries, many of which are among the most modern and efficient in the industry. This 10,000-man activity offers unlimited opportunities to mining engineers. Also: Research.

NAVAL ARCHITECTS AND MARINE ENGINEERS—Graduates are urged to inquire about opportunities in our Shipbuilding Department, including the Central Technical Division, our design and engineering organization. Also: Traffic.

OTHER TECHNICAL DEGREES—Every year we recruit loopers with technical degrees other than those listed above. Seniors enrolled in such curriculums are encouraged to sign up for an interview.

Accountants—Graduates in accounting or business administration (24 hours of accounting are preferred) are recruited for training for supervisory assignments in our 3,000-man Accounting Department.

OTHER NON-TECHNICAL DEGREES—Graduates with degrees in liberal arts, business, and the humanities are invited to discuss opportunities in the Sales Department. Some non-technical graduates may be chosen to fill openings in steel plant operations and other departments.

Bethlehem Steel Loop Course Interviews:

- What is the Bethlehem Loop Course? It is our management development program for graduates with bachelor's or advanced degrees.
- The course starts early in July with four weeks of orientation at our home offices in Bethlehem, Pa. Loopers attend lectures on every phase of the corporation's activities, and make almost daily visits to a steel mill.
- Steel Plant Loopers, who comprise a majority of the average loop class of 150 to 200 graduates, proceed to various plants where they go through a brief orientation program before beginning their on-the-job training assignments. Within a short time after joining the course, most loopers are ready for assignments aimed toward higher levels of management.
- How about other loopers? Our Sales Department loopers (30 or so) remain at the home office for about a year of training. Most are then assigned to district offices where they take over established accounts.
- Fabricated Steel Construction loopers are trained in a drafting room, on a field erection project, in a fabricating shop, and in an engineering office. A loop's first work assignment is based on interests and aptitudes disclosed during this program.
- Loopers in Accounting, Shipbuilding, Mining, Research, Traffic, Purchasing, Finance and Law, General Services, and Industrial and Public Relations go through training programs tailored to their types of work.

Where would YOU fit in? Check your degree or the one most similar to it.

On The SLC

The importance of the University Student Life Council cannot be overemphasized. The Council represents a first major step in the direction of student participation in governing affairs of this University. For years, besides venting grievances about individual rectors and rules, those active in student government and student activities have called for participation in the decision making which affects our lives here at Notre Dame. Finally, we have been granted a voice in determining the rules under which we must live.

The Council is by no means perfect, but it is with us, and it is our responsibility to make it work. Administration and Faculty elected thusfar indicates the Council has the potential of becoming a vehicle for meaningful and substantial change. However, for all the thoughtfulness and openness of those Faculty and Administration representatives chosen, most concrete proposals are going to emanate from the students on the Council. It is ourselves and our lives with which the Council is concerned and thus the stimulus for the Council must come from us.

This responsibility of initiating meaningful proposals and programs makes the upcoming SLC elections crucial. Six representatives are to be chosen, representatives who will have in their hands legislative power with regard to student life on this campus. Thus what we have is not an ordinary election but rather one requiring the student body to make a sophisticated judgement of the candidates in the race.

Upon what should that judgement be based? We would feel its key elements to be the concrete proposals put forward by candidates and the ability of those candidates to, quite simply, be legislators.

As to the proposals, the gauntness of the usual name familiarity gaps and grab-bag promises must be overlooked in this election. Substance must be the deciding factor. This, we feel, should also mean the ignoring of candidates who make the simple promise "I will go into the Council with an open mind, that's all!" This is the attitude which should be taken by the Administration and Faculty representatives. Since the Council concerns itself with student life, its student representatives cannot just walk into meetings with no idea of what should be done.

As to legislative ability, a judgement must be made of the candidate as a man on a basis of reading what he stands for, hearing him speak, and looking at his record. This is going to be most difficult with a large field of candidates, but still it simply must be done to insure truly effective student voices on the Council. Candidates have a responsibility to campaign for the Council so that students may hear what they have to say. Students, in turn, must seek out those aspiring to Council posts in order to make a personal decision rather than choosing on the basis of familiarity with a name.

We do not really like to be so dreadfully solemn, but our feeling is that the SLC elections are vitally important to what happens, not only this year, but what is to happen in the future. With the Council we have, albeit to a limited degree, student responsibility and the student power to legislate. Those invested with that power must be energetic and able. It is our responsibility to attempt to make the Council work.
The Notre Dame Student-Faculty Film Society in association with the Student Academic Commission announces its year of cinema excellence. Tickets will be available for purchase beginning Friday, October 18, in the dining halls. All those interested in helping with the series should attend the Film Society Meeting, Wednesday, 106 O'Shaughnessy, at 8 pm.
NOTRE DAME Ind., Nov. 8-A frenzied mob of an estimated 3,000 students, reportedly inspired by the campus chapter of the SDS, rammed residence halls of this great Catholic university and gained control of virtually every building on campus yesterday.

Protest and Administration officials are presently holding out in the Administration Building and Corby Hall. Student Body President Richard Posse, official head of the student insurgents, said, "We plan a radical restructuring of this university. Hapsburg (University president Rev. Theodore M. Hapsburg, CSC) has said girls would not be allowed in the halls as long as he is president. We want to help fulfill the prophecy."

Shortly after the maids left at 2 p.m. students in several halls began ripping up their neatly made beds and at dinner refused to bus their own trays. As sunset approached a tight band of commandos led by Pegleg Sam Boil took possession of the campus radio station, WSNW. Posse's vice president Chuck Gnaw later spoke over the station urging students to meet at the flagpole on the main quadrangle for an attack upon the LaFortune Student Center.

WSNW Station Manager John Stern, who refused to sign a letter circulated by Posse and media heads William Paking of the Observer and William Stotes of the Scholastic, was found this morning stuffed into one pocket and a directive of the Homecoming Chairman, said, "We plan an attack immediately and the Administration Building."

Of the attack Hapsburg said, "The situation in the halls is indeed lamaestable and the Administration will have to do something about it."

The following day security guards were amassed by a group of students apparently hanging Dean of Student Rev. James Realty, CSC, in effigy. Later upon closer investigation the charred guards discovered that it was really Really. Three one thousand dollar bills were found stuffed into one pocket and a directive of demonstrations in the other. Security Director Arthur Peers immediately began administrating lie detector tests.

**Flying lessons.**

Apply here:

Well, what else? A pilot is the officer in charge of a million dollars worth of high flying, sophisticated supersonic equipment, isn't he?

Yes, and you'll wear a snappy blue officer's uniform, enjoy officer's pay and privileges. You'll probably travel to exotic foreign lands, and have a secure future in the biggest scientific and research organization, World's biggest.

You'll be where all the exciting Space Age breakthroughs are made. Where it's happening, Now. Today. Right now. This minute. The Air Force is the "now" place to be.

If you want to fly and don't try the aerospace teams, you'll miss your big chance. Let that be a lesson!

The Irish Eye
Who's No. 1?
By Terry O'Neil, sports editor

Straighten your tie, gentlemen. The game is on.
After unequivocally stating the 1968 college football would be a
10-team affair, Dan "Poison Typewriter" Jenkins has, once again,
skirt it right in the ear.
Sports Illustrated's notorious jinx has put the fork into yet
another squad. As a result, they're dreaming about No. 1 today in a
lot of places–and ND is one of them.
Maybe ARE's right when he plays with the sportswriters, "Don't
make us No. 1 before the season. Don't make anybody No. 1. You
can't really tell who's the top team until about the fifth week of the
season. And don't pick us 10-0. Do you know how hard it is to go
10-0 with the overall balance in college football these days?"
Pat Jack and his Boilermakers know. Guess what it would take to
get Purdue to the Rose Bowl. Two Big Ten losses in the final four for
Ohio State, Minnesota and Michigan and one for Indiana. Ain't it
love for that to happen. The season's over in Lafayette and do we love
it?
Southern Cal, Penn State, Ohio State and Kansas are ND's rivals
for No. 1 now. All are 4-0.
We gotta do some serious rootin' for the Trojans, so they come
to that final game unbeaten and top-ranked. That would set up
ND's Nov. 30 visit to Los Angeles as the second Poll Bowl or the
two teams and possibly send a National Championship to the winner.
Before then, USC must face Washington, Oregon, California,
Ohio State and Michigan. Ohio State will be seeing Northwestern, Illinois, Michigan State, Wisconsin, Iowa and
Michigan. Penn State (a much overrated team as we see it) has
Boston College, Army, Miami of Fla., Maryland, Pitt and Syracuse
on its schedule. Kansas battles six Big Eight conference foes–Oklahoma State, Iowa State, Colorado, Oklahoma Kansas and
Missouri.

Bobo Stops Chico, Mates Follow Suit

By GREG WINGENFELD

While the tough Northwestern defense was holding the Eleven Proline offense to its season-low 15 points, the much-maligned Irish defense was turning in a solid performance Saturday in a 27-7 defeat of Northwestern.

Bob Olsen played his usual brilliant game with eight solo tackles, 14 assisted and a pass disruption. But it was the big front four that stood out in what Irish Coach Ara Parseghian called "their best game of the season."

Mickey McCoy and company allowed the Wildcats but one sustained drive and consistently forced the Cats into mistakes or quick kicks. McCoy involved 270 lb. in eight stops. His cohort at tackle, Bob Jackish, assisted on five and defensive ends Chick Lauck and Bob Kuchenberg each were involved in four tackles. All helped generate an improved pass rush which buried the Northwestern quarterback Dana Woodring and Shelbourne all afternoon.

Northwestern crossed midfield on the Irish only five times in the game. Four of those ventures proved futile. Late in the first quarter, the Wildcats were at the Irish 41, but Eric Norri, subbing at tackle, threw Woodring for a 13-yard loss, forcing a punt.

The next time Northwestern got the ball penetrated to the Notre Dame 24 with the aid of an offside penalty. Enter Chick Lauck. He circled in from his right end position and jammed loose a prospective Woodring pass. Jackish recovered the fumble to snuff out that drive.

With less than two minutes left in the half, Northwestern had a fourth and two at the Irish 5-yard line. In the postgame locker room, coach Agase stated that "if we could have scored in the first half, it would have given our players a tremendous lift."

Bobo (Bobo) Kuchenberg each were involved Bobo Olson's "lifted" Chico Kurzawski short of the first down and Northwestern didn't get their first-half score.

Northwestern's third quarter offense amounted to an interception, two punts and two quick kicks.

The final quarter saw the Wildcats mount their only sustained drive going 61 yards in nine plays for the touchdown. As time ran out on the defense again thwarted a deep penetration. With first goal on the 9, Eric Norri, in again, dumped Shelbourne, this time for an 11-yard loss. Two plays later, a fumbled string tackle Pat Madron caught Shelbourne for minus six and Northwestern's hopes died on the 20-yard line.

Harriers Tenth

It was a Michigan field-day at the 13th Notre Dame Invitational Cross-Country meet, held last Friday.

Eastern Michigan topped the standings with 95 points, while Western Michigan and Michigan University took second and third. With 228 points, Notre Dame placed 10 in the 17-team race.

Pittsburgh's Jerry Ritchey won the individual title with a time of 23:58. Irish junior Bob McCoy finished second in 24:02, edging out Ed Norris from Kent State.

Cavanaugh Rolls

By GREG WINGENFELD

On the second weekend of interhill football, two teams were impressive in their initial outings. Off Campus used two breaks to hand a good Sorin team its second straight defeat, 124-0, and St. Ed's battled an improved Farley team to a 0-0 tie.

In other games, Zahm and Keenan saved their scoring until the second half as they defeated Breen-Philips and Holy Cross, respectively, by identical scores of 14-0. A vastly improved Lyons team tied Dillon, 8-8, Cavanaugh romped over Stanford, 20-0, and powerhouse Walsh and Pangborn grappled in a scoreless deadlock.

An abortive punt attempt gave Off Campus the ball on the Sorin eight-yard line early in the first quarter. Jim Hanson scored for the party boys on their first play from scrimmage for a scoreless deadlock. The OC pass rush being particularly effective. Sorin quarterback Frank Bellatti was a hurried man all day. He was dumped seven times for losses totaling 34 yards and failed to complete a pass in seven attempts. Late in the fourth quarter, Pete Abouziths picked off a hurried pass and raced 31 yard to cap the scoring. Mike Murphy generated the Farley offense. Neither team could find the goal line however Marked as the defenses thwarted deep penetrations.

Zahm scored all fourteen points in the fourth quarter against Breen-Philips. George Phelps passed to Terry Shields for a 15-yard touchdown and

Bill Cassel ran back an interception 32 yards for the score as the Zombies evened their record at 1-1. Keenan blew a scoring chance in the first half, losing a fumble at the Holy Cross three, but managed to blow the game open in the second half. Bob Mylissie's two-yard touchdown run was set up on a 40-yard pass play from Mylissie to Charley Blum. Bob Watters accounted for the final ten yards on the play when he took a lateral from Blum. Bill Walkup added a field goal TD plunge later. Mylissie hit Joe Simpson for the two pointer to close out the scoring.

Lyons scored on a 55 yard punt return by Joe Crunchell early in the first stanza and pointed the two point conversion. Dillon stormed back to tie the game on a 52-yard scoring pass from Dave Driver to Phil Michaels.

Bob Richer hit Frank Clifford with two scoring bombs of 73 and 70 yards and Tim Farrell ran off a 55 yard TD plunge as Cavanaugh romped for the second straight week. A strong pass rush botted up the Stanford offense.

Next weeks games include Off Campus vs Walsh, Pangborn vs Morrissey, St. Ed's vs Lyons, Dillon vs Alumni, Holy Cross vs. Zahm, Stanford vs. BP, and Keenan vs. Cavanaugh.

The standings:

League I: Alumni (1-0)
Dillon (0-0-2), Farley (0-0-2), St. Ed's (0-0-1), Lyons (0-0-1).

League II: OC (1-0-0), Pangborn (1-0-1), Walsh (0-0-2), Morrissey (0-0-1) Sorin (0-0-4).

League III: Cavanaugh (2-0-0), Keenan (2-0-3), Zahn (1-0-0), BP (0-1-1) HC (0-0-1), Stanford (0-2-0).
