French Demonstrate Against Policy

PARIS (UPI) -- Dozens of young pro Israel youths demonstrated Thursday night outside a Paris radio station where Foreign Minister Michel Debre was broadcasting a defense of President Charles de Gaulle's arms embargo on Israel.

Debre said de Gaulle's Middle East policy "conforms to the interest of France" and pointedly challenged growing domestic opposition to the embargo by asking "if the French do not think that what it is doing for them?"

The demonstrators gathered on the sidewalk outside the privately owned radio station, Europe Number One, just off the Champs Elysees, expressing their solidarity with Israel.

But Debre seemed more concerned with the criticism of De Gaulle by the French press, some of the sharpest the 79 year old president has had to put up with in his 10 years in power.

The country's most influential newspaper, Le Monde, said Thursday that the 79 year old French president imposed the embargo on Israel because of "personal dislikes" and expressed the hope that France "will not have to pay too dearly for the abuses of one man rule."

Earlier in the radio interview that French Middle East policy recognized Israel's right to exist, to security and to normal guarantees of international rights, but also provided for development good relations with the Arab world.

Czech Union Considers General Strike

PRAGUE (UPI) -- The powerful Czech meat workers' union Thursday night served notice that it will not accept unquestioningly the decision of parliament Chairman Josef Smrkovsky by Deputy Premier Peter Colotka.

A union plenary session proposed that Smrkovsky and Colotka should name another dual candidates, the winner to be decided by assembly vote.

The national party Presidium Tuesday named 44 year old Colotka a middle of the road Slovak with liberal leanings, as its choice for the key post.

The 900,000 member union pledged that if their proposal "is turned into an ultimatum, in view of the fact that the Slovak candidate Colotka is also progressive, we shall not consider a general strike justified."

Colotka observers said the announcement could be interpreted as a face saving gesture to allow the union to voice acceptance of Colotka without appearing to betray the Smrkovsky cause.

They said it was doubtful the proposal would be accepted by the Presidium.

Accuses South Vietlts of Blocking Talks

PARIS (UPI) -- North and South Vietnam Thursday exchanged bitter accustions that the other was deliberately blocking the opening of the broadened Vietnam peace conference.

Nguyen Thanh Le, Hanoi's chief delegation spokesman, said the South Vietnamese regime of President Nguyen Van Thieu was trying to sabotage the conference in order to keep American troops fighting in South Vietnam.

Charging that Saigon was "obstninately opposed to peace" and was "tarnpering the Paris conference, Le said Saigon "wants the United States to prolong its aggressivness so that they continue their life as lackeys."

Sihan Trial Snags over Publicity

LOS ANGELES (UPI) -- The trial of Sihan B. Sihan for the murder of Sen. Robert F. Kennedy Thursday was stabled over publicity given to the defendant and to his chief counsel's role in another case.

After an eight minute open court session, attorneys adjourned to chambers to discuss in private a defense motion on news coverage the defense felt could deny Sihan a fair trial. It was not disclosed whether the motion sought a mistrial because of adverse publicity, a 30-day continuance or a change of venue.

For the first time since the trial began Tuesday, no members of Sihan's family were present in court Thursday.

The 24-year old Jordanian immigrant was serious and unsmiling in contrast to Wednesday when he waved and flashed a big grin several times at his family.

Rabbit Punchs Chicago Man In Stew

CHICAGO (UPI) -- Donald Hargadon was in a stew Thursday and no doubt wishes the 40 pound rabbit that attacked him was too.

Hargadon, a worker at Augustana Hospital, was transporting the rabbit from the hospital's laboratory to the Lincoln Park Zoo when the attack occurred. He reported the rabbit kicked and scratched him.

Hargadon was taken to the hospital's emergency room where he was treated for scratches.

There wasn't much pain from the cuts or the "rabbit punch", Hargadon reported. The only thing really hurt was his pride.

Christmas Vacation a Field Day

Nine Halls Hit by Robbers

Thieves enjoyed a field day on the Notre Dame campus lately as students returning from Christmas vacation reported lost of televisions, stereo systems, clothing, and money, including checkbooks.

Initial reports from the Notre Dame security offices were sparse. Nine complaints have been filed and the loss estimated at $1500.

Sources indicate that most of the robberies are not yet on file with the security department and losses may double or triple as students file complaints, seeking action from the administration.

Scattered reports came from virtually every hall on campus, including Monroe, Dillon, Badin, Lyons, Alumni, and Zahm. Hardest hit, however, were Stanford, Keenan, and Holy Cross Halls.

Holy Cross Prefect Fred (Skip) Rahaim commented on the methods used to enter the rooms. "The robbers entered through the near door. They rammed one first floor room, but concentrated mainly on the second and third floor rooms where locks were broken and doors jimmed."

In conflict with this statement was the reaction of several security guards, who claimed that no rooms had been forced open. Security guard Sergeant Novak said that the doors to all the rooms on campus were checked daily and locked when found open.

While insufficient security measures could be blamed for the Holy Cross thefts, an invitation was extended to burglars in Stanford and Keenan Halls, which were poured over the holidays and many of the rooms left open. The fourth floor of Stanford was hit particularly bad, where checkbook were stolen and checks written for several hundred dollars.

The campus security guards appeared to favor the idea that a fuse key was used to enter the rooms. Campus Security Director Arthur Pears echoed this statement and said he anticipated no changes in administration policy regarding pass keys or security operations.

He had no recommendations regarding reimbursement of the student victims for their losses.

Sergeant Novak reported that some of the stolen items were recovered via an anonymous telephone call. Some of the property of victimized Holy Cross residents was found beneath sheets on Douglas Road, behind Moreau Seminary.

Reports that the thieves were from South Bend were unfounded by Sergeant Novak. No connections were made between this recent rash of burglaries and the $800 in furniture stolen from Holy Cross Hall before Christmas.

Prefetch Skip Rahaim examined possible felony charges measures by the school. "More guards should be hired for the vacation periods, with one guard stationed in every hall. Cruising across the campus in a station wagon is an inefficient way of maintaining security, as these incidents testify. The victims were more to the point of maintaining security, in order to demonstrate concern for the individual student in the University community."

Members of the University staff were adamant in their belief that the school would not enter into a theft insurance agreement, a measure proposed by some of the students.

Pro-Term to Come to St. Mary's Next Fall

Harry Maronca, Director of Secondary Education at St. Mary's College, announced yesterday that the Education Department will offer seniors who desire a teacher's certificate a Professional Semester. The program will go into effect during the 1969 Fall Semester.

The program for the Professional Semester was passed by Saint Mary's Teacher Education Committee and given final approval by the Academic Affairs Council prior to the Christmas break. A conflict over approval of the program arose earlier this semester "because I did not go through the proper channels", Maronca said.

The entire Professional Semester will be devoted to teacher preparation. Seniors may take the Professional Semester either semester. The semester will be offered for eighteen credit hours, and courses in other departments will not be taken during the semester.

Because of the Professional Semester, seniors will not have to divide their loyalty between education courses and their major courses. Previously these courses overlapped, making it difficult to complete requirements for the teacher's certificate.

Maronca feels that the Professional Semester will be a major improvement over the old program, because he believes that "student teaching is a full time job."

The Professional Semester will be organized into two parts. The first half of the semester will be devoted to a concentration of education courses. The second half will be devoted to full time student teaching.

Critical experiences at the Professional Semester include the completion of thirty hours of pre-student teaching experience, and fifteen written observations. The completion of Education 170 is also required. Students wishing to take the Professional Semester must be admitted to the Teacher Education program, and must not have a grade point average below 2.25 on the 4.0 system.
by Joel Connelly

A year ago there were less than 20 American deserters in Sweden. Now the number is in excess of 200. Young groups throughout Europe, led by the German SDS, are adding American servicemen desiring to escape the military. Swedish novelist Sarah Lidman has organized a Swedish Friends of the Deserters to aid the constantly increasing number of deserters. Having seen the support and aid for the deserters, one might ask what the deserters are doing themselves.

The answer is plenty. The American Deserters Committee was formed so that those in Sweden could continue political work as Americans even while in exile. It works through the media, publishing a magazine and a newspaper as well as putting out radio broadcasts. ADC spokesmen have spoken at universities throughout Sweden and even addressed a meeting of the World Council of Churches. In November a delegation of 12 deserters traveled to Denmark, a NATO nation where the government is armed services.

While many reaching Stockholm: I would also say their resolve is considerable in its dimensions, although it comes across in an undertone. When I asked Ray Krzemiński what the Committee's work is like, he said, "You can tell the people something back at Notre Dame. If they want to help me they can form the first apocalyptic church of St. Thomas the Doubter. Instead of a crucifix they should use a question mark."

The story of the ADC does not end with the group's activities. The group sees itself as an integral part of the American Left with a unique role to play due to the working class background of many of its members plus of course their military experience. The American Deserters Committee is an autonomous chapter of the Students for a Democratic Society and represents Ramparts magazine in Sweden.

Three Veterans Join AROTC Staff

Col. John Lavin, Professor of Military Science of the Notre Dame Army ROTC detachment, has announced the addition of three new officers, all Vietnam veterans, to his staff. Maj. Joseph R. Mayo, who will be a Sophomore instructor, comes to Notre Dame from Walter Reed Army Hospital, where he spent seven months recovering from wounds received during his third tour in the war zone. Maj. Mayo was the commander of a rifle company in the 25th Infantry Division near Tay Ninh when he was wounded. A 1954 enlistee in the Army, Maj. Mayo won an appointment to West Point in 1957. After graduating from the Academy in 1961, his first assignment was in Korea. After this he attended Special Forces School and then traveled to Southeast Asia for his first combat tour, in a camp in the Mekong Delta, where he spent six months. Maj. Mayo's second tour lasted one year. He was assigned to another Special Forces camp near Ban Hau. Maj. Mayo is married and has a daughter, 3.

Capt. Robert G. Hasty, 27, has just completed the one-year course at the Advanced Artillery Officer's School, at Fort Sill, Okla. A 1963 graduate of the ROTC program at the University of Richmond, Capt. Hasty's first assignment was with the 199th Brigade at Fort Benning, Georgia. The 199th was rotated to the war zone, and Capt. Hasty spent most of his time there. After this he attended Special Forces School and then traveled to Southeast Asia for his first combat tour, in a camp in the Mekong Delta, where he spent ten months. Maj. Hasty commanded a 105mm Howitzer battery, about 30 miles south of Saigon.

Capt. Hasty is also married and has two children, a daughter, 4, and a son, 3.

Cap. Bruce Knowles, 24, has just returned from a tour with the 1st Brigade of the 101st Airborne Division near Hue. A 1966 graduate of Western College, in Westminster, Cap. Knowles' first assignment was in Germany, where he was stationed until Nov. of 1967.

Frisco State Erupts Again; Four Arrested

SAN FRANCISCO (UPI) - Police and student strikers clashed yesterday at San Francisco State College after union teachers rejoined their ranks in defiance of a court order.

At least four students were arrested as contempt citations were readied for picketing members of the American Federation of Teachers. The union went on strike three days ago.

The melee followed the firebombing three blocks away of the home of an administrator in charge of student discipline, the arrest of a youth for disrupting a classroom, detonation of stink bombs in the library and a mass meeting of UFT teachers.

The striking teachers returned to the picket line singing "Solidarity Forever." The militant students cheered and cried, "On strike, close it down." The picket ranks rose to several hundred, including a Negro youth with two Doberman Pinschers on leashes. Police moved against the pickets after warning the strikers that they were milling rather than marching in an orderly fashion.

"We also considered the dogs as being out of control," said an officer.

The animals were quickly stunned with dog repellant and their owner, John Cleveland, was hauled to a patrol wagon. Two students who attempted to free Cleveland from the officers also were arrested.

The crowd surged into the intersection at the main campus entrance. A few rocks and bottles were heaved at the police as 200 officers, some mounted on horses, cleared the street.

The AFT teachers abandoned the picket lines for a closed meeting in which a spokesman said only that "by unanimous vote we decided to continue the strike and picketing." The union represents about 300 of the 1,300 faculty members at San Francisco State where hardcore groups representing a few hundred of the 18,000 students have been on strike for several weeks.

For beleaguered San Francisco State, the day began with two firebombs hurled at the home of Edward Duer, campus coordinator of Teachers. The union went on strike three days ago.

The day ended with the arrest of four students at a meeting of UFT teachers.

Student Government has accomplished more in the past year under Richard Rossie than any other administration in recent history. The formation of the Student Life Council, the development of the judicial code, the revision of the Student Manual, all have come about with no small assistance and encouragement from Rossie.

The Student Union, too, under Richard Rembusch has developed into a commendable service to the student; his right to evaluate a teacher, that is, to state clearly unquestionable efforts in any area, such as competence and breadth of vision, have been overcome. The Social Commission may finish in the black for the first time in its history and the Academic Council, with an excellent selection of speakers and conferences even in this non-political year. A large part of the Union's success has been due to the organizational abilities of Rembusch and his excellent vice president Bill Wade.

An attempt has been put forward by Rossie and Rembusch insist upon breaking down the confidence they have built in the students, faculty and administration for their organizations by involving themselves in a personal clash disguised as a "constitutional crisis". The whole thing seems pretty ridiculous when you remember that it all started over a $60 car rental bill incurred by a Union group attending a national conference without specific approval from the Student Body President.

It appears that a bill will be proposed to the Student Senate which will subordinate the Student President to the Student Body President finally and without question. Rossie feels that as "the highest elected representative" of the Notre Dame student body he should have dominion over the Union. Obviously, Rembusch sees Union autonomy as a crucial prerequisite for a well-functioning organization. Both claim they are acting in the students' interest. Both, in fact, are acting only in light of their own personal ambitions.

The petty bickering of the two student leaders severely diminishes the responsible image that Student Government has built. We feel that if Rossie and Rembusch honestly have the students' interest at heart then they will overlook their own personal differences and begin functioning as responsible administration.

The constitution certainly needs no amending when the problem lies not in that document, but in the personal bias' of the people involved. The present constitution has served adequately to this point and there is no reason to believe that it will not now.

We submit that if Rossie and Rembusch sit down calmly together, consider the students' first and their own personalities second, that a satisfactory solution can be easily reached. Perhaps today's Union Board of Directors meeting will soften the disagreement and resolve the matter.

Our Evaluation

The Scholastic's "Teacher-Course Evaluation booklet," published earlier this week, is the clearest example to date of students actively involved in the government of the university. It is also the first time in years that The Scholastic has succeeded in bringing before the entire university community thoughts and comments that are at the same time both peremptory to this vital area of academic interest and constructive in their criticism.

The problems that beset such efforts in any area, such as competence and breadth of vision, have been overcome. The field of academics still, for better or worse, characterizes the student; his right to evaluate a teacher, that is, to state clearly unquestionable efforts in any area, such as competence and breadth of vision, have been overcome. The Social Commission may finish in the black for the first time in its history and the Academic Council, with an excellent selection of speakers and conferences even in this non-political year. A large part of the Union's success has been due to the organizational abilities of Rembusch and his excellent vice president Bill Wade.

Yesterday, Today and..."...is now the year of Our Lord, 1969. Many conflicts and crises faced our world in the last year, and many seem to be heading for the horizon. A look at the reasons for this is that we are trying to answer the problems of today with the answers of the past, with a narrow and antiquated vision.

The problem of distribution of wealth is still being faced only in terms of liberal socialism and conservative capitalism, yet neither of these systems will ameliorate the situation today. Unions demand more pay, and management responds to their demands with higher salaries and corresponding price hikes. Racial minorities are demanding jobs and increases in welfare, etc. The incoming federal government counters by advocating black capitalism and further technical training. Neither the questions being asked nor the answers which are provided face the fact that the worker is becoming obsolete. Because of the increasingly automated nature of industry, and the potential automation has, the worker is becoming unnecessary. What will be the function of man in a society that does not require his work? What will be the structure of the economy in which people are not producers but consumers?

The diplomacy of the major powers are reflections of Mitternich in different costume. Weeks are spent in Paris quibbling over seating arrangements, and yet we have scientifically advanced communications to the point where television shows are broadcast trans-oceanically in an instant. The incoming government in Washington favors an increase in military strength, while right now America and the Soviet Union have enough nuclear power to overpower the world six times. People continue to think in terms of nationalism, and continue to build walls. The UN is consistently ignored, and without a sense of world community, considering the weapons at hand, there soon might be no world at all.

Our sense of national priorities in America has put three men in orbit around the moon at an expense of billions of dollars, yet medical societies dedicated to the prevention and cure of terminal diseases still must peddle their wares to do for sickles and divorces. Vietnam is certainly a horrible war, yet it has become the chief concern of a great segment of today's college student, while the overpopulating world continues the process of populating and starving itself into annihilation. Where is the direction and depth of vision?

Copernicus taught us many years ago that the sun was the center of the universe, and we believe that geographically, yet psychologically, politically, philosophically, and religiously the earth is still the center of the universe, and man is in the center of the world. The only quality which supplies a valid reason for individuating ourselves is the potential for creative thinking, and that seems to be the one power that is being ignored and neglected into oblivion. Man is self-centering himself into a closed and destructive vision of his civilization. Perhaps we might realize that man is only one animal among many animals, on a small planet among nine planets, orbiting around a star among many stars, in a galaxy among many galaxies, in the infinity of space. If God had the omniscience to create all that is, it seems probable that the high point of his career wasn't the creation of the homo sapien; at least a species which cannot see beyond today.
A Few of My Favorite Things

By Bill Thiemann

I spent New Year's Day, 1969, like every other New Year's Day, getting up tremendously late and lounging around the house all day, listening half-heartedly to the local bubble-gum stations playing the big hits of the year gone by. Somehow these hits are always disappointing (to everyone, strangely enough), but this year's was incredible. In vain I sought a top-song list that even half suited me. Obviously the infallible sources or requests, record sales, and juke-box plays were useless. So I consulted the only other infallible source I know of—my own taste—and here is the resulting list of the Big Ones of 1968, albums and singles. This is it, gang, the Cream of the Crop, the Groovy Gravy, the Super-Sounds of last year. And, in massive retaliation to the Top 40 stations, I have included a list of the Bottom Ten—the worst single examples of taking a comprehensive poll of myself, I came up with the First and Last Annual "Summertime" Awards for 1968.

Tom Ehrbar

Dixieland

The raging struggle for campus power took a severe twist yesterday when a small but mysterious note was uncovered somewhere in the labyrinth of La Fourche. The note read:

Dear Honest Rich,

As we have long advocated a complete overthrow of the charlottesville campus establishment (i.e. Student Union and now that you have come into confrontation with that very 0rganize, the time has come for unity!

Our plan is simply this. We offer you our unwavering allegiance and aid in vigorous rebellion against the above-mentioned Student Union.

The next move is yours. We will be awaiting a communiqué in our campus post office box. And remember—save your Dixie cup, the South will rise again. May we remain sincerely yours. We will be awaiting a

Yours,

John Reb

Student Demonstrations Spread to Brandeis

WALTHAM, MASS (UPI) - More than 400 demonstrating students were arrested at San Fernando Valley State College Thursday and a new police-student clash hit violence ridden San Francisco State College.

Across the nation at Waltham, Mass., more than 200 white students staged a sit-in at Brandeis University in support of 65 protesting Negro students who held control of the campus protest alleged racist policies.

The mass arrests at San Fernando Valley State College, in Northridge, Calif., came after the protesters defied a state of emergency order imposed by the college president.

Grim-faced police swept the campus when the demonstrators refused to disperse. There was no resistance, and many of the students tried to joke with officers as they were led away.

Dr. Delmar T. Oviatt, the college's acting president, was jeered when he appeared among the demonstrators, appealed to them to end the demonstration and offered to meet with protest leaders.

At least four students were arrested in the melee at San Francisco State College, which came after union teachers rejoined the protesters ranks in defiance of a court order.

A spokesman for the American Federation of Teachers AFT said the teachers voted unanimously at a rally to continue their strike. Contempt citations were readied for the teachers.

AFT teachers picketed for the second day at San Jose State.

State College.

At Brandeis University, white students clogged hallways in Bernstein Marcus administration building but did not interrupt operations.

The white students sought amnesty for the black students who Wednesday night took over Ford Hall, a classroom building, and the university telephone switch board. The Negroes said Brandeis had failed to follow through on demands made by the blacks last spring after the assassination of Dr. Martin Luther King.

Maurice Abram, president of the university, told newsmen he did not contemplate immediate disciplinary measures against the Negroes but said "anarchy will end at a time to be determined." Abram said university officials were not prepared to "discuss issues under duress."

In New York City, Queens College was to reopen Friday for final examinations. The campus was quiet Thursday. Officials noted the campus was quiet a day for two days to avoid possible violence.

Dissident Negro and Puerto Rican students were demanding complete control over a ghetto student aid program at Queens and warned of a possible "long and bitter struggle."

Arrest Ten at Commune

NOVATO, Calif. (UPI) A hippie commune with a population of 25 adults and 25 children was in sorrow Thursday after a narcotics raid resulted in the seizure of an assorted stock of drugs and the arrest of 10 persons, including a former nun.

Don McCoy, 37, a wealthy ex-businessman who heads the "Chosen Family" community in the Rancho Oolpali camp north of San Francisco, was among those arrested.

The children wept, threw their arms around McCoy and tugged at the skirts of Cecile Korte when the adults were taken to jail. Miss Korte is a former Dominican nun who has been teaching the children at the commune.

"Good bye, Sister Mary. God bless you," one of the youngsters said when she was taken away. She was known as Sister Mary Norbert as a nun.

Agents swept down on the camp Wednesday night. They searched the sprawling main building, eight outhouses and other facilities. A pound of methamphetamine worth $10,000, hashish valued at $600, seven pounds of marijuana and several hundred capsules of LSD were seized. Agents said they also found a quantity of what was believed to be heroin.

 McCoy was washing dishes when the agents arrived. He admitted having marijuana in his possession, saying, "it belongs to God, but I've been smoking it."

By PETER BRUDERLE

Notre Dame struggled against Tony Hinkle's "cat-and-mouse" offense and a rugged rebounding effort. The Irish scored their highest mid-way through the second half to post a 76-73 win over the Butler Bulldogs.

The Irish, scoring now and again when it counted, coasted unscathed through the first half to a 31-31 tie. With 11:57 remaining the game was still knotted, 47-47, when...

Pied Piper

The Pied Piper of Hamelin never had more followers. He couldn't possibly. Every place Joe Namath goes, a crowd suddenly concentrates. Every corner he turns in, the crowd is right there behind him, only wishing to be there. He has long since given up the idea of enjoying much privacy. He tries getting lost. He lost the little-known "New York Jet." regular practice session Thursday morning when he put on a rather wrestling, plain-looking pair of plaid bathing trunks and walked out to the pool at the hotel. The swim team stayed, hoping. St. Louis. to soak up some sun in one of the lounge chairs. He looked as if he wanted to be alone but they wouldn't let him. Wave after wave, the people came at him; they never really stopped. It was no use.

The Notre Dame hockey team opened its 13-game hockey season yesterday afternoon with a convincing 6-3 drubbing of Ohio University in the Garden. The only team to beat the Du Lacs this year, John Womack, a freshman winger, scored three goals to pace the Irish offense.

Playing before a sparse but confetti-minded audience of 637, the Irish ics took a 4-1 first period lead and were never headed. Womack drilled a Kevin Home run past the net past OU goalie Mel Wolff with only 4:17 elapsed in the initial stanza. Less than three minutes later, with OU shorthanded, Phil Wittliff zipped down the right unassisted to score the first of his two markers. Paul O'Neil added two goals in the period as ND threatened to blow the visitors off the ice. The game was "wide open and loosely played" according to Notre Dame assistant coach Tim McNeil. The 13 goal total and 11 penalties will attest to that.

Goalie Dick Tomasi and made 28 saves in the game, none of them miraculous. He was at his best in the first two periods, smothering 18 of 20 shots. OU scored three last period goals after the contest was all but decided. Paul Thornton scored outrebounding his big men.

De Paul Visits ND Tomorrow

Sporting an 8-2 record and a .902 scoring average, the De Paul Blue Demons invade the Convoc Center for a 2:30 contest tomorrow against the Irish.

Led by senior captain Al Zetraiche's average, Coach Ray Meyer's crew are making a comeback from last year's 13-12 record, the worst percentage since 1951-52. Over Christmas, the Demons took the consolation bracket title at the Quaker City Invitational Tournament in Philadelphia.

Meyer's sophomore son, Joe, runs the offense and contributes a 15.0 average. Other starters figure to be 6'7 center Ken Wyrzyński (9.4), 6'4 forward Tom Hunter (11.2), and 6'3 guard Tom Tracy (9.4). Back-up service is provided by Ed Goode in outrebounding his big men. 51-48. This figure wouldn't be so disappointing if you could ignore the fact that the Butler's "big man" was only 6-5 and the rest of his teammates were each giving away about two inches to the taller Irish.

Leading scorer for Notre Dame was Bob Whitmore with 16 points. Bob Arzen added 14 while Murphy and Collins Jones tabbed 11 each.

Garry Hoyt lead Butler with 25 points including 13 of 20 shots. Other contributors were each giving away about two inches to the taller Irish.
