Turnbull leads SMC poll; undecided high in race

Junior Susan Turnbull held a slight lead over Student Government Secretary Barbara Curtin in the St. Mary's Student Body Presidential race as an OBSERVER straw poll revealed. With the election three days off, Miss Turnbull garnered 32.2 per cent in the poll. However, there was an unusually large number of undecideds, 37.2 per cent of those polled, making any prediction about the final outcome the winner almost impossible.

The poll results:
Susan Turnbull 32.2%
Barbara Curtin 24.6%
Undecided 37.2%

The poll was weighted to take into account the proportional representation of each class, with the junior class being over-represented. The OBSERVER reached approximately 30 per cent of all St. Mary's students, and a total of 90 girls. The OBSERVER's poll reached the same percentage of Notre Dame students during the SSB race two weeks ago.

The nomination deadline was extended to Friday noon because of the small number of names filed. No other names were placed in nomination, despite the extension. Junior Beth Driscoll was the only student to file for vice-president.

Only one candidate has filed for the other two positions held in Friday's election. Chairman of the St. Mary's Teacher Course Evaluation Pam Carey has entered her name for Academic Affairs Commissioner. Lemm Hall President Karen Weller has submitted her nomination for President.

The typically low turnout for the SGB was spurred by the two candidates.

McDonough to head WSND

WSND announced Saturday that Rick McDonough will succeed John F. Stowe as new station manager. He will take over July 1.

The campus radio station also announced other appointments. George Molnar will take over as chief engineer and Kathy Martin, the first St. Mary's student to be named as the head of a WSND department, will become the new sales manager.

The remaining appointments were:
- Carl Zwislcr as the head of the news department, Steve Del- 
  laPietra as the AM chief announcer, Jim Crow as the sports
  director, John Harahan as the director of production engineer-
  ing, and Tom Laffey as music director.

Continuing as program di-

Analyzer to students for the AM and FM stations are AI Hermann and Pat

Clinton. Luke Griffin will return as business manager, and Paul Hayashi of Enk Lister will stay on as FM pro-

gram supervisor.

"When asked what his major concerns would be as the new station manager, McDonough stated that he wished to concur-

rate on both the expansion of the FM outlet and the improve-

measurements that the Trustees put on the Hall Life Bill. All

ments to comply with the state law were passed. The original version of the changes was to insert the phrase "make stu-

dents aware of their obligation to comply with the state law" where the original had only stated "(make students) aware of

ear of the state law." Fr. Bu.

ed an example of action the Trustees had taken yesterday. In the case to which both candidates have only the Presidential race

the Hall Life Bill. Each of the amended sections was presented along with the original version. One of the changes was to

plans to look into the possibility of putting a FM transmitter on the
top of one of the new dorms. "In this way," he said, "we'll be able to transmit over a larger area. The transmitter which we have on O'Shaugnessy is not effective enough for wide range transmission."

McDonough also hopes to buy a used thousand watt FM trans-
mitter and a new AM transmitter. He stated that "with a new AM transmitter, we can make our present on-campus carrier more effective by placing an AM transmitter on both the North and South quads."

"To finance these plans," McDonough said, "we plan on reducing our monthly publica-
coralion to 3 editions per school year. These monthly editions present us cost us from $300 to $350 a month. With the $5,000 a year grant, which we receive from the administration, we hope to have enough to cover operate expense."

McDonough added, "I hope that this move will continue to financially improve the station the way John Did. He built up a secure relationship between the station and the administration."

SLC considers drinking

by BILL HOLLEY

The Student Life Council met Wednesday night to hear the an-

omen can proceed. The course will begin, at the discretion of the instructor, with a presentation on the dosage of drugs and the consequences of illegal use. The first section will emphasize the negative effects of drugs on individuals while the second will focus on the effects on the community. The course will cover the legal aspects of drug use, including the laws surrounding the possession, sale, and distribution of controlled substances. The curriculum will also include a discussion of the medical implications of drug use, including the potential for serious health problems and addiction. The course will also address the role of the criminal justice system in enforcing drug laws and the impact of these laws on individuals and society. The course will conclude with a discussion of available treatment options and resources for individuals who are struggling with drug addiction.

Part Two of a five part series on co-eduation at Notre Dame by Harry Breen and Jim Pelicier.

Notre Dame vigilantes with their thumbs in the air, in neat lines on Michigan and LaSalle, hungry men waiting patiently at the circle for that certain Mustang having two hungry women with tossed hair from the Vorgee Beauty School, back issues of Playboy tucked secretly under the bed and thoughts of shaving beards amusing at the gates of Washington Hall. You've got to wonder at the "snarls" that are emanating. A man, not a eunuch.

Notre Dame student is a sexual creature. As such, he has certain sexual needs and desires that cannot be ignored—aggressive drives that must find some suitable outlet. If no outlet is to be discovered, undue frustration and neurotic behavior might be expected. Society, particularly the Catholic Church, has long encouraged a substitution for the overly sexual. In lighter terms, one might have advocated a separation of the sexes for purposes of moral behavior. This is fine. We're perfectly in favor of moral behavior. But, unfortunately, those who encourage substitution must expect substitution and accept the consequences of that substitution. And they must expect a consequent stagnation of the natural psycho-

logical growth of the collegians.

Dr. Eugene Loveless, an advisor in the Counseling Center and a Professor of Psychology, felt that most Notre Dame students have not been given sufficient opportunities in this all male environment to advance mentally beyond the adolescent stage of puberty. Further, the fifth through eighth steps of development, betrays itself in an excessive concern for self and a preoccupation with the establish-

ment of some emerging identity. Role playing and role 
diffusion, hero-worship, putting on masks are all elements of this phase. Bettelheim in his work "The Children of the Dust" has pointed out that this phase is similar to the "storm and stress" period of children's development. During this period, children are concerned with their own self-image and are preoccupied with their own desires and needs. They may be reluctant to share their secrets with their parents or friends, and may tend to distance themselves from them. This can lead to feelings of isolation and loneliness.

Adolescent puberty is a narcissistic phase in which the adolescent begins to feel self-conscious and self-centered. During this period, the adolescent is often preoccupied with his or her appearance and may become overly concerned with social acceptance. This can lead to feelings of anxiety and insecurity, and may contribute to the development of personality disorders. Adolescent puberty is also a time of great physical change, with the onset of menstruation in girls and the growth of pubic hair and voice changes in boys. These changes can be overwhelming and may lead to feelings of confusion and identity crisis.

TOMORROW: Desireability on a nonsexual level
Students aren't the only ones who can dissent. At least that is what Mr. Daniel Stern proved last night in the Library Auditorium.

As the third speaker in a series for the Sophomore Literary Festival, Stern directly contradicted what SFL speaker Mr. Harold Hayes said the afternoon before. Declared Stern, "I understand the gist of what Mr. Hayes said. There's two things I want to say. He's wrong."

**HPCchairmanominations held**

The Hall Presidents Council, Sunday night, nominated Rich Heidecker, Barney King, and Jim Smith, for the office of HPC Chairman. Jim Smith declined, since he will be living off-campus next year. The three are the respective hall presidents of Zahm, Lyons, and St. E's.

Voting will take place next week. The new chairman will only complete Phil McKenna's term which would have normally expired in October. McKenna will not be running for the position of Body President April 1. Ron Manzana was renominated HPC co-chairman and is the sole candidate. His present term will expire in May.

Ed. Roger Weters, CSC, newly appointed Director of the Office for Student Residence, attended the meeting. McKenna had suggested that he come in order to meet the presidents with whom he will be working during the coming year.

Whelen also attended to ascertain the presidents' feelings regarding room selection and stay hall. Marty Donlan, president of Fisher, and Gerry O'baughness, president of Sonin, both expressed a desire to see presence of freshmen in their halls next year. Whelen, however, said that since the University has committed itself to the concept of stay hall, everyone will have to contribute to this concept to some degree.

Whelen also commented on the two new dorms. "I see them as being very advantageous. They just may outclass all the other dorms," he said. The dorms were designed with small group living in mind. "If you got eight or ten people who want to live together you'd be crazy not to move into one of them," he said.

Also discussed at the meeting was An Tostal, set for the first week in May. Stanford Mroz, frustrated general chairman for the affair, said that girls from fifteen schools have agreed to attend. He added that a number of girls from St. Mary's generously suggested that they stay in the St. Mary's dorms. The dorms can accommodate an additional two-thirds their normal numbers for the weekend.

**Economists released for SBP:**

McKenna approaches $300 limit

The two leading candidates for the SBP Body Presidency released the figures of their campaign expenses. Student Body President elect Phil McKenna's expenses totaled $379.21. The limit for expenses set by Student Government was $300.

McKenna's expenses came mainly from the printing of flyers and brochures. During the campaign he issued 3800 copies of large brochures which cost $90. The brochure included on his campaign platform.

Lost: male black wallet in vicinity of Convocation Center. Reward offered. If found call Jim W. 8605 or 8607.

**ATTENTION GOOD TIME REPUBLICANS**

The Notre Dame Young Republicans are heading to Milwaukee for the Midwest Convention this weekend. Good Times assured for all. If you want to join us call Mike Kelly at 205-1675 or write NDYR 137 BCP.

**Will study urbanization**

A detailed study of urbanization in the South Bend metropolitan area will begin this summer at Saint Mary's College as part of a continuing graduate program in Urban Studies.

The five-week program from June 16 to July 25 has been planned as an interdisciplinary view of the urban dilemma, both political and economic, and is being directed to Dr. Louis Tondreau, co-director and chairman of Saint Mary's Psychological Science Department.

Dr. Tondreau said the pattern of urbanization in the South Bend area from historical, political and economic aspects will be developed through investigation of classroom work and independent student research.

Research data compiled from student research will be published as an area agencies concerned with urban affairs, Tondreau said. The study will be presented in general to the considerations of South Bend's selection as a participant in the Model Cities program, he added. "Through historical and contemporary study of the urban South Bend area, we believe the community will be able to develop a clearer self-image which is a necessary ingredient in solving the urban problems of the inner city," Tondreau said.

The Urban Program, comprised of three separate courses in the historical, political and economic aspects of urbanization, is aimed at teachers, governmental, quasi-governmental and business leaders who have an interest in urban affairs.

With Tondreau, the program is being directed by Dr. Charles Poimlote, chairman of Saint Mary's Department of Business and Louis Henry of the Economics and Business Department.

The program will be initiated this summer as the first in a continuing course of study. Future programs may involve expansion of the study into the field of sociology, and may deal with specific programs for South Bend such as the possibility of municipal home rule as a solution to the urban dilemma.

**Eighteen teams in Grand Prix co-incede**

other activities to Grand Prix

Eighteen teams entered in Notre Dame's first Grand Prix have received their go-carts, according to Grand Prix Chairman Bob Folks. "But there is still an opportunity for other halls or groups to become interested," said Folks. "All they have to do is to contact the Student Union."

Practice on the track will begin in late April in preparation for the time trials on May 10. The race will be held a week later. Along with Grand Prix, several other notable social events and activities will be held at this time. An Tostal, the Blue and Gold Football Game, the various class proms, and a concert.

Besides providing spring social impetus ... and are not to trust their own sincerity. There are no blueprints to do this.

Modern men and women, according to Stern, are closed up in an inner world that is devoid of fresh styles.

"But style alone is not the issue. The issue is whether or not there is on earth, not an intention ... it is the writer's glory, but it is also his prison."

The speaker advocated the addition of metaphors to style for the creation of a genuine good fiction.

To the question of how literature is going to be changed, Stern declared that audience demand will be the factor in deciding the quality of future literature.
Sihan hypnotized: turns blue in rage
LOSALES (UPI) Sihan B. Sihan fired an imaginary gun
"over and over again" and shouted "You son of a bitch" when he
responded to the shoot of General Phnom Penh under hypnosis,
Trudeau not predicted. Yes.

Trudeau, called by the defense at Sihan's trial for the
desecration of the American flag, said that the
recounting of the shooting caused the 25 year old defendant
to go into a violent, blue rage and erratic state.

Asked to describe Sihan's mental condition at the time of
the shooting, Dr. Diamond said: "I'm my opinion that at the precise
moment of the shooting, Sihan was in a highly abnormal state of
mind with a rage reaction which was the outgrowth of a paranoid
psychosis, which started at the moment he became, confused and
dazed by the mirrors and lights."

Justice Department to file suit
WASHINGTON (UPI) - The Supreme Court ordered now lower
court rehearings yesterday for imprisoned treasurer chief James R.
Hoffa and former heavyweight champion Cassius Clay on their
claims that illegal government eavesdropping led to their convictions.

They were among 15 defendants who were granted rehearings at the
district court level under the controversial eavesdropping
rules set forth by the court on March 10.

With the exception, the court turned down a Justice Department
plea that the March 10 decision be reconsidered. The department
contended that the restrictions would hamper U.S. surveillance in the
foreign intelligence field.

Hoffa was told to rearing on two separate cases the jury
taken from his priso for more than 17 years in prison and on $10,000 fine.
Rusk says: ABM cannot be rejected
NEW YORK (UPI) - The United States cannot afford to neglect the
development of antiballistic missile systems, former Secretary of
State Dean Rusk said yesterday.

"If we were to abandon ABM and the Russians go ahead, they
might get a second strike or a breakthrough through that would make an
enormous difference in the strategic relationship between the two
superpowers," Rusk said in taped interviews for NBC's "Today" Show.

The Secretary of state dismissed the argument that deployment of the ABMs
would interfere with negotiations with the Soviet Union.

"I have no doubt the Russians will talk to us even though we are taking
some additional steps in the ABM field," Rusk said.

Houston says: Man on moon in July
SPACE CENTER, Houston (UPI) The Space Agency decided
decided yesterday it definitely will fly one more Apollo mission in
moon orbit this May before trying a landing on the hostile lunar
surface in July.

Reasons cited by Agency officials included the need for more
experience operating the U.S. moon landing craft, which made its
first moon landing on December 24, and for learning more about navigation
problems at the moon.

It meant that astronaut Thomas Stafford, Eugene Cernan and John Young will
blow off the moon mission Apollo 10 on May 18. They will spend as many hours in
lunar orbit.

The Apollo crew will spend this period in moon orbit Stafford and Cernan will
lower themselves within 10 miles of the lunar surface inside the spidery
moon landing craft, while Young orbits 69 miles high alone inside
the Apollo reboosting module.

Malik appointed fellow

Dr. Charles H. Malik, former
president of the United Nations
General Assembly and foreign
minister of Lebanon, has been
appointed a fellow of Notre
Dame's Institute for Advanced
Religious Studies.

Malik, since 1962 a distin-
guished professor of philosophy
at the American University of
Beirut, Lebanon, has also been
a visiting professor at several
United States universities, in-
cluding Dartmouth, Harvard,
and American University in
Washington, D.C. He holds an
carried doctorate from Harvard
and has received honorary de-
grees from more than 30 United
States institutions of higher
learning, including Notre Dame.

Prominent in the history of the
United Nations for many years,
including presidency of the Gen-
eral Assembly in the 1958-59
session, Malik served the U.N.
Human Rights Commission be-
 tween 1947 and 1954 and was
an author of the Universal De-
claration of Human Rights.

Malik has been active in ecu-
menical matters. He was given
the title of First Grand Ma-
trate of the Holy Orthodox
Church by Ecumenical Patriarch
Athanasius I, and was present
at the three meetings of the
Ecumenical Patriarch with Pope
Paul VI in January, 1964, in
Jerusalem; in July, 1967, when
the Pope visited Istanbul; and in
October, 1967, when the Ecu-
menical Patriarch returned the
Pope's visit in Rome.

He holds memberships in sev-
eral national and international
organizations in the fields of
philosophy and political science
and has written four books, in
addition to numerous articles in
American, Eastern and Near
Eastern magazines.

1000 copies printed.

McNamara also said that Doctor
Peter Michaelson of the Vite
Department has decided to use
Vacine as one of the publi-
cations to be examined in a Free
University Course he intends to
 teach on Fratricity in Art and
Censorship.

McNamara said that he felt that
the method for distribution of
the magazine was good be-cause
it "helped to salvage the
serious image of the magazine
which has been distorted mostly
by Joyce's announcement and
censorship."

"The appearance of Uranus" fan underground newspaper cir-
culated on campus", McNamara said, "coupled with the irrespon-
sible assertions that Rano-Kol Publications Inc. (the publishers of Vacuum) was the publisher of "Trudier also hurl Vacuum's image."

‘Vacine’ to be returned

The Student Life Council
announced yesterday that Fe-
celine McNamara, assistant
professor of Philosophy, and
the General Program.

Resuming copies will be
made available to other inter-
est faculty members.

Marly McNamara, a spokes-
man for the student group who
published the magazine, said
that the distribution procedure
was one that he suggested in a
letter he wrote to University
President Theodore Hesburgh.

McNamara said that he told
Hesburgh on his letter that 
"the damage done by Father Joyce's
confiscation of the magazine was
irreparable." He also said that he
hoped that all student publishers
would not feel bound to turn their
contract with the Student Union
to pay for the printing
of the magazine since it was
already delivered on Union.

According to McNamara, the
administration has decided to
pick up the entire cost of the
Study published
A study of the Breton lay and its
history, completed this spring
by Dr. Mortimer J. Donovan,
associate professor in the Univer-
sity of Notre Dame's Medieval
Institute, has been published as
"Folkloric Lays: A Guide to
Varieties" by the Notre Dame
Press.

The book treats the Breton
lays of Marie de France, the later
French Breton lay, Chaucer's
Franklin's Tale, and the Middle
English Breton lay.

Donovan received his doctor-
ate in 1951 from Harvard
University and is a member of the
Medieval Academy of America
and the International Arthurian
Society.

Consequently, the majority of sexual encounters of this stage are masturbatory. Accompanying the masturbatory act is what Dr. Loveless calls "masturbatory fantaster," the daydreams and visions of fantastical sexual encounters inspired and directed by Playboy and the cinema, fantasies in which the characters can be readily manipulated - fantasies in which the daydreamer can indubitably prove his masculinity. These fabulous visions may be later detrimental in the sexual development of the male, if, when actually presented, they become disenchanted. The masturbation itself cannot possibly measure up to his dream world.

The excessive drinking on dateline Saturday nights is another sub-conscious method recognized by the student body here. In a 1968 poll this statement was made: "The lack of appropriate social activities and outlets causes many guys to go drinking on weekends." Ninety per cent of the students agreed.

An increase of homosexuality must also be accepted by those who would separate the sexes for purposes of morality. Relegating drinking to dateline Saturday nights is another sub-conscious method recognized by the student body here. In a 1968 poll this statement was made: "The lack of appropriate social activities and outlets causes many guys to go drinking on weekends." Ninety per cent of the students agreed.

The annexed areas of Notre Dame and 747 acres of St. Mary's property, the annexation committee must first judge whether six requirements are met by the city of South Bend. This process may take from four to six weeks.

The committee must first judge whether the annexation will be beneficial to both the city of South Bend and the inhabitants of the area to be annexed. South Bend would benefit in the annexation by becoming eligible for a larger distribution of Indiana motor vehicle and cigarette taxes. This distribution of funds is based mainly on population.

Seminar planned

Fresh from a victory in the Wayne State Regatta on the Detroit River last weekend, Notre Dame's sailing club is recruiting new faces for a seminar for beginners tomorrow.

Club members will show a film at Beauchamp 7 p.m. in 1270 Nieuwend Science Hall. Next Wednesday's meeting place will receive instruction on St. Joseph Lake.

Bill McEvoy, Mike Morrissey, Jim Kelleher, John Stith and Tom Willis skipped in the Wayne State event. The trip qualified ND for the Midwest Sailing Championships May 3-4 at Ohio State.

Annexation plans are forwarded

by MARTIN GRAHAM

South Bend's Common Council forwarded the Notre Dame and St. Mary's proposed annexation ordinance to its annexation committee and the area planning commission for further study and approval today.

Council President, Robert Laven, stated that before the council can take action in the annexation of the 1,110 acres of Notre Dame's and 747 acres of St. Mary's property, "the annexation committee must first judge whether six requirements are met by the city of South Bend. This process may take from four to six weeks."

Undecided 40%

The sophomore class recorded the largest percentage of undecided voters, 40 per cent. Miss Turnbull's margin led to five per cent over the

The freshman class was the closest race of all. Miss Curtis held leading by only three per cent. Miss Curtis' margin was exceptionally large in that class also.

Banta to speak

Don A. Banta, a member of the Chicago law firm of Nuylin, Sullivan & Banta, will be one of the principal speakers at the Notre Dame Saint Mary's 17th annual Union-Management Conference April 1. Banta's topic is "An Administrative View of Coalition Bargaining," and he will speak at the 1:30 p.m. session.

The Observer is published daily during the college semester except vacations by the students of the University of Notre Dame and St. Mary's College. Subscriptions may be purchased for $10 from The Observer, Box 11, Notre Dame, Ind., 46556. Second class postage paid, Notre Dame, Ind. 46556.
