by Tom Bornholdt

FR. Daniel Berrigan S.J., arraigned on the charge of de- struction of federal draft files, spoke to a near-capacity crowd in the Library Auditorium last night. He contended in a lengthy address that the radically disad- fect, whether black or white, were convicted, were bounded together in a holding pattern in room 125 Sorin on Wednesday night. The bat, apparently entering through a hole in the floor, was first noticed by senior Andy Trojillo of 246 Sorin, who sounded the alarm.

The residents of the triple, Ralph Bianco, Jim McCown, and Jim Crow, along with Andy ran out of the room and prayed for the bat's departure. A security guard appeared and, after being asked for help reportedly replied that "if you can't get it out, what do you expect me to do?"

The bat, maybe unnerved by the noise, settled out of the room and prayed for the bat's departure.

Last night, this speech was marred by a rumor that the FBI would intervene, since Mr. Berrigan was quoting the terms of his bail. He was completely unaffected by this prospect, how- ever, and commented seriously that in case of trouble he would plead that his speech was a sermon, legal under the terms of his bail.

The gendarmes never arrived, however, and his speech entitled "Faith and Violence", went uninterrupted. Sponsored by the Department of Nonviolence, Berrigan quoted heavily from Che Guevara, the decapitated Bo- livian revolutionary. Berrigan didn't unfold any new doctrines or theories, but rather in a low, witty style, raveled off several thoughts.

In speaking of his fellow dis- sidents, Berrigan concentrated on the idea that he down- played their differences. To him, the Black Panthers and the DC Ten are drawn together.

"They are all one," he de- clared. "There is a kind of Bud- dish drawing in one's stand on the survived of the world".

In contrast to Berrigan's tran- quil appearance and confidence, he told the audience that there was little to hope for and that, "things would get worse before they will improve. He claimed he felt that demonstrations, and even civil disobedience would not stop Nixon, the generals, and the rest of what he called the Establishment. As an answer to his problem, he suggested patience. He said that if one was not prepared to act over a "long"

SCMC freshmen to vote

by Anne Therese Darin

St. Mary's College freshmen will vote in districts this week- end on the final draft of their new constitution.

Originally slated to have been voted on last Monday's class meeting, no action could take place because of lack of a quorum.

Kathy Murphy, then, moved that senators return the constitu- tion to their committees for review.

Major revisions center on anew wording of represent- ing senator's approval, representation, and sub- committee meetings.

According to the new pro- visions, if a senator is absent from one of these regular Senate meet- ings, she will be ousted from the Senate. Senator who does not believe her senator is repre- senting the district equally and fairly, she may approach one of the other class officers who determine action. The officers have the power to remove the senator from office.

Revisions also guarantee that any class member may also belong to a subcommittee and be eligible for its chairmanship. The committees are social, voting, and publicity.

"Our officers need to know that they're not standing alone," commented Kathy Murphy. Holy Cross Hall representative.

"They have to have more support than just table talk at dinner."

"If the Freshman Class really wants to work and have some sort of expression as people, if they're seeking this, then they have to show themselves to be true to their word," she added.

Bank freshmen to vote

by Dan O'Donnell

A group composed of Busi- ness students and faculty mem- bers is endeavoring to develop a business enterprise for the Rosebud Sioux tribe, whose reserva- tion is located in Crazy Horse Canyon in southern South Dakota. The group intends to serve in an advisory capacity through Mr. Redbud, a Rosebud Sioux, who spoke at the recent SUAC Indian Conference.

The Rosebud Sioux reserva- tion is located among the bor- don one hundred counti- es in the United States in terms of per capita income, and male unem- ployment is in excess of 70%. The tribe has a population of about 8,000.

The group, composed of gradu- ate students Richard Adenick, Tom Assoyo, George Kohler, Les Laura, Len Belocek, Dennis Toohy, Tom Connally, Arie Sharon and senior Jerry Griffin, is being assisted by Prof. Freder- ick Dow, who is serving as chair- man. A. L. Soens, Assistant Pro- fessor of English, Dr. Hugh Fujukoski, Chairman of the Mar- keting Department, Father Ir- ving Thomas, General Program, and Vincent R. Raymond, Assistant Dean of the Business School, are also aiding the committee's efforts.

Currently the Rosebud Sioux rely on what Dr. Dow called "cottage type industry" whereas their handcraft and art is carried on exclusively in the home. Dur- ing the Indian conference Mr. Redbud expressed desire to set up a production corporation owned by the tribal co-operative that could efficiently produce and market arts and crafts. As a result Soens contacted Dr. Dow who opened the plan up to his students.

"The great thing about this idea is that it's student initi- ated," said Dow.

Under the plan two members of the team would spend Easter, break on the reservation to con- duct a study so that they can advise the Indians in the areas of organization, marketing re- search, production and funding. Dr. Dow indicated that both the Small Business Administration and the Office of Minority Busi- ness Enterprise would be con- tacted for help in this area.

The initial funds for the trans- portation and living for the week long study will come from an O'Brien Fund grant. The group will attempt to bring Mr. Rosebud back to campus in the near future to discuss details of the program.

Dr. Dow commented on the program saying that, "its success will mean a source of revenue for a people that has practically no revenue, now."

He went on to indicate that he hoped that in the near future, two Notre Dame business gradu- ates could receive Robert F. Kennedy Fellowships and spend a year working on the reserva- tion with the Sioux.

Dow concluded, "What grati- fies me is the involvement of business students in projects of a social nature." He went on to point out that this advisory council is just one part of a program that Prof. Soens has drawn up as a result of the SUAC Conference on Indian Affairs.

Keenan residents agree to hold referendum on parietals

Keenan Hall residents at a hall meeting last night agreed to hold a referendum on parietals after proposals for changes in present parietal regulations are presented next Monday to the SLC by the Hall Life Board.

Any changes in Keenan's parietal rules before this weekend was thought to be precipitous by the residents of Keenan and could possibly have brought punitive action by the Hall Life Board.

Instead, the residents chose to wait for Monday when the Student Life Council will consider a proposal that would allow the individuals to set their own hours subject only to the ap- proval of the Hall Life Board.

If this proposal is passed, the Keenan referendum is designed to establish concretely the form of parietals its residents want and the new rules will then be presented to the Hall Life Board for approval.

The Hall Life Board has juris- diction over any parietal viola- tions, and the suspension of a hall's participation privileges is a possible penalty for failure to comply with parietal regulations. It was this threat that primarily blocked any changes now in their hours by Keenan residents.

A parietals referendum was held in Keenan last December, and a majority of residents indi- cated a desire for an increase in the number of allowed hours according to Keenan President Tim Mahoney.

Any proposals passed by the student Life Council are subject to the approval of the Board of Trustees. Existing university reg- ulations state that a hall may not have more than twenty-four hours of parietals a weekend and no weekday parietals are permitted.

Parietal hours were first pass- ed last year, and the Hall Life Board considered the year long experiment largely a "success." The SLC on Monday will con- sider that evaluation.

Bat flies in Sorin

A misguided bat was observed flying a holding pattern in room 125 Sorin on Wednesday night. The bat, apparently entering through a hole in the floor, was first noticed by senior Andy Trojillo of 246 Sorin, who sounded the alarm.

The residents of the triple, Ralph Bianco, Jim McCown, and Jim Crow, along with Andy ran out of the room and prayed for the bat's departure. A security guard appeared and, after being asked for help reportedly replied that "if you can't get it out, what do you expect me to do?"

The bat, maybe unnerved by the noise, settled out of the room and prayed for the bat's departure.

Letters to the Editor

Thoughts on Corso

Editor: The recent column "Legisla­ting Morality" by Mr. Corso seems to be quite contradictory. He calls that "any person who is interested in working for the CIA is not going to sign up with them before asking their repre­sentative anything he is not sure about." This "takes care of pro­ductive employees." Then later on, "Our recent distinguished visitor, Sister Joanne Malone knew more about the CIA than perhaps the CIA did." Doesn't it seem that an interview, according to your statements, would be better off, informationwise, by talking to Sister Joanne or to both her and the recruiter? Might this be the purpose of the required public dialog? Might it not be nice if the facts discovered and emphasized by both sides were heard, rather than just the one side heard in an interview?

For the protection of Notre Dame students from later surprise, both sides should be heard before the private interviews are allowed, if some other side, from among the students wants to hear. Any company or organization which refuses to meet in public dialogue with the public about its least bringing up issues when students request it should be prohibited from recruiting, like the CIA has been. If they still recruit, with authority of the administration, the students and faculty must enforce the prohibition.

This is not a question of morality, but a question of protection of the students. The CIA was not ordered off because it was immoral, but because it refused to meet with the public. It should have been thrown out, as should any company which is challenged under the provisions of the Senate bill, whether they make napkins or rosaries.

Who is Brogan, anyway?

Editor: I would like to know who the hell Jim Brogan thinks he is. I would like to know what he thinks it is that gives him the right to go against登登 groups and comedians. Is it that he is a second-rate intellectual on a paper of the caliber of the Observer? I hope his position has not somehow elevated him to a peak of godly omniscience from which he thinks he can dictate the moment at which David Frye should have pursued his "shocking" of Jim Brogan so he would have "played it in a low key." What if Frye had kept his voice low and did not "shout" the lines he enjoyed? I'd wager Brogan would be the first to charge that the punch­lines were not emphasized enough.

I think if Brogan were to look for a few good things about a concert and mix his comments with a milder, more intelligent critic, he would improve what little journalistic skill he has. A candid critic should have a subtle spunk about him. This quality in a good critic has to be admired, but what can be admired in his observations as "...the overall effect was somewhere between devastation and boredom," or "The most horrible, the most wretched, or simply the worst." Let me clarify that I am an avid Frye fan. In fact, I didn't even attend the concert. I was prompted to write this letter by Brogan's concept of good, editorialism, recollection of his previous concert critiques, and the disparaging impact of "Grand Funk Stunk..." had on me.

Thoughts on Russell

Editor: Is it that the question of peace or war is relevant, the merits of either side becomes insignificant, in comparison with the importance of peace. In the near war, the human race can not survive without peace. For this reason I always side with the more peaceful party in disputes between powerful nations..." from Unarmed Victory.

Ten days ago Bertrand Russell died. And I have been waiting, perhaps foolishly, during the last few days for something to come forth to the effect that he was ever alive. Of him was said: "a man possessed of one of the finest minds of our time -- of any time." A mathematician when that term was synonymous with philosopher, a historian, critic, logician, etc., he was perhaps a man who will be ignored now that he is dead. His was the "horror that mankind will perish in a nuclear Armageddon."

To this end, in 1967 he con­demned the U.S. job, criticizing the wiles of American Imperialism in Vietnam greater sense of the term -- of any time -- was expressed. Yet the stories of this case were relegated to back pages of newspapers which effectively said that a hater of all American was at it again. Perhaps if this country had read the transcripts of the Tribunal, at which former GI's testified, we would not have been "shocked" when told about what American boys were doing in that country. Rather if this country...is...to something which was, or maybe it's "Time Machine" is actually the most boring song on the first L.P. Mr. Brogan must have been in the bathroom, when Don Brewer played his fantastic drum solo. They didn't bill themselves as the next "Cream" and they didn't sound like them. I'm happy that Grand Funk has their own spe­cific sound. Peace, Editor, let Mr. Brogan go back to reviewing those sweet opera singers.

Editorial

Bifran relief
Notre Dame Freshman Tom Hamilton has organized a national student movement for Bifran relief whose purpose is to raise funds for the needy in Biafra. Hamilton has made extended efforts to get the organization off the ground. He has enlisted the help of Father Hesburgh and has embarked on a national publicity drive by getting in touch with college newspapers and the national media.

Through contacts provided him by Father Hesburgh, Hamilton was able to go to see many State Senators, members of Congress in Washington and in New York in an attempt to enlist their aid. His efforts gain the usual political touch of letters of endorsement by politicians and statements read into Congressional Record.

If the organization is to be successful though, students must begin to rally to its assistance. The most important need of course is for funds to go to the people of Biafra.

Why worthwhile funds for today's young student to participate in. Certainly the cause for aid to Biafra must be high on the list of priorities. Since the national student movement had its roots in Notre Dame we hope that the Student Body will give the group its aid.

NEWS MEETING
FRIDAY AT 500
How to tap a keg
(and tie into the best reason in the world to drink beer)

1. Pick up a half-barrel of Bud
   (good for about 245 12-ounce cups... with foam) and the tapping equipment on the day of the party. Just set the beer in a tub of ice to keep it cold.

2. Just before the party begins, tap your beer. First, make sure the beer faucet is closed (you wouldn't want to waste a drop of Beechwood Aged Bud!). Then, insert the faucet and pump unit into the upper valve of the keg, give it a quarter turn clockwise, and lock it in place by tightening the lower wing nut.

3. Next, insert the lager tap in the lower valve of the keg and give it a quarter turn. Now, set the keg upright in a tub and pack ice around it.

4. You're now ready to draw beer. Pump press... to the proper point for good draw, usually about 15 lbs. That's all there is to it, but there's no rule against sampling just to make sure everything is perfect. Abbubh! It's no wonder you'll find more taverns with the famous "Bud on Draught" sign than any other!
Nixon opposes busing

WASHINGTON (UPI) — President Nixon yesterday endorsed the concept of equal enforcement of school desegregation laws in all parts of the country.

At the same time he opposed busing of students as a means of achieving racial balance.

As for busing, Ziegler said Nixon had consistently opposed busing of school children to achieve racial balance.

"The President feels that to the maximum degree possible, in efforts to eliminate dual school systems according to the mandate of the courts, we should not use busing," Ziegler said.

"And also, to the maximum degree possible, it is the feeling that we should do everything to preserve the neighborhood school system."

The Stennis amendment states in part that school desegregation standards "shall be applied uniformly in all regions in the United States without regard to the origin or cause of such segregation." Opponents contend the Nixon white minority/composition not less than 10 per cent nor more than 50 per cent.

Compliance with the order, Kelly said, "would mean the virtual destruction of the school district."

He said studies indicated busing of some 240,000 students daily was the only feasible means of carrying out desegregation, at a cost of at least $40 million during the first year and an estimated $180 million in the next eight years.

"Appeal is necessary," Kelly said. "If for no other reason other than to establish, once and for all, what governmental policy shall be with respect to mandated racial balance."

"If the federal government, speaking through the U.S. Supreme Court, is going to say that school desegregation is the No. 1 priority issue, then government is going to have to be prepared to assume the costs," Gardner said.

Gitelson said the board has "dubiously" adhered to a program of building neighborhood schools "within racially imbalanced, segregated and ghetto areas knowing and intending" that the schools would be racially imbalanced, Gitelson said.

LA appeals order

LOS ANGELES (UPI) — School officials here faced with a Superior Court order to begin full integration of the 622 Los Angeles public schools by next September, yesterday reviewed avenues of appeal.

The school board, not scheduled to meet until Monday, was expected to approve the recommendation of Board President Arthur Gardner and Superintendent of Schools Robert E. Kelly to appeal the desegregation order "to the highest court in the land if necessary."

Superior Court Judge Alfred E. Gitelson, in a 103-page opinion handed down Wednesday, found the school district, the second largest in the nation, had deliberately perpetuated segregation of its 674,357 youngsters through board policies on school construction and boundaries.

Acting on a suit filed by the American Civil Liberties Union on behalf of 12 Mexican American and Negro students, Gitelson ordered the school board to submit a master plan for desegregation to his court by June 1 and to begin putting it into operation by next September.

By September, 1973, he ruled that all schools within the 711 square mile district must have a

strange madness

CHICAGO (UPI) — Vice President Spiro T. Agnew last night attacked "superior sophists" who advocate policies of "open admissions" to the nation's universities.

"By some strange madness," Agnew said in a Lincoln Day address, "responsible educators are advocating that teachers and students in the universities should be chosen "by considerate, cultivated and scholarly aims rather than by teaching or learning."
Frosh tankers - record every meet

by Bruce Kennedy
Observer Sports Writer

Beneath the hollow thumps of ball-on-wall at the Rock, much record- breaker Pete Meyer has been going at the Rock pool. Bruce Kennedy, sports on NB, said Meyer is a long-time swimmer, doorstep John Sherk and Gene Krathaus two years ago.

Dec. 13, 1969 at Rockne Memorial pool: John Sherk won a National record in the 1,000 yard freestyle with a mark of 22.2.

Feb. 2, 1970, at Wayne State: Sherk wins the record book once again with a 2:08.2. He also beats the ISU pool mark 1:13.5 with 10:52.5.

Feb. 9, 1970, at Kent State: Krauthaus breaks his won 50 free with 50.9.

Both had high school All-American honors, Gene being in the 500 freestyle and John receiving honorable mention in the 500 freestyle and 200. From Buffalo, Gene won the New York 50 championships the last year, and John, from Dearborn Heights, Michigan, picked up several records in the Detroit area.

What influenced them to come to Notre Dame? "You can't swim forever," says John, so he decided to go where he felt he could get an excellent education.

The two are satisfied with what displeased with the work-out factories. Swimming isn't treated like an important sport.

The Irish were plagued by many problems. They and Gene visited the campus last year and found it to be a hiking tour. They are two first place votes for 198.

One year ago.

Four other teams also clung to their college rankings. Elkhart in seventh spot, followed, in order, by Richmond, Muncie Central and Evansville Memorial.

The latter, however, had to share 10th place with Jasper, which regained a "Big 10" berth, moving up from 14th position.

St. John's, 17-2 for the season and probably the best team in the capital City, climbed from fourth to third and East Chicago Washington from sixth to fourth.

Two other "status members" are Purdue and Notre Dame. Purdue has an average of 220, long jump and 440 relay champions, with the track team in the spring and will miss spring football practice, scheduled to start April 6. Pennell also can compete in track.

Roosevelt, Seymour tops

INDIANAPOLIS (UPI) - East Chicago Roosevelt and Seymour, the two major unbeaten teams in a field crowded with would be spoilers, continued to pace the Indiana high school basketball elite Wednesday, well in front of their closest pursuers.

While these two powerhouse teams ran 1-2 in the UPI coaches' mid-season ratings for the 10th week in a row, Indianapolis Shortridge, one of the state's premier teams, dropped out of the top four teams one year ago, moved up to third spot, its best showing this season.

But nobody, barring a king size, late season upset, appeared to challenge the two top teams for their runners for their "status seats." Both Roosevelt, 24-0; Calumet 22-5; the four week state tourney with 20 game winning streaks.

In balloting for games through last Saturday, Roosevelt received 18 of 20 first place votes for 199 points, just 2 short of a perfect score. Seymour, which beat Scuttahag Saturday, 61-59, got the other two first place votes and a total of 1727 points.

1. E.C. Washington (24) 198
2. Seymour (2) 1726
3. Indianapolis Shortridge 135
4. E.C. Washington (Muncie Central) 123
5. Michigan City 100
6. Huntington 66
7. Eastern 61
8. Richmond 58
9. Muncie Central 53
10. (Tie) Evansville Memorial 20 (Tie) Jasper 20
11. Fort Wayne Southword 16; Fort Wayne Snider 14; Southport 15; Gary Roosevelt 8; West Baden Springs 8; Gibson County 7; New Harmony 6; Adams 8; Lebanon, Jeffersonville, Terre Haute Geyer- meyer 4; 21. South Bend Central, Indianapolis Attucks, Val- paraiso, Warsaw, Fort Wayne Snider, Silver Creek, Darlington, Hebron, West Lafayette 1.

BL OOMINGDON, Ind. (UPI)-Coach John Pont has an- nounced that five undergraduates varsity football players who par- ticipated in Indianan practice last fall and were suspended from the squad will return following interval.

"These five young men have each informed me of his desire to participate in Indiana's foot- ball program," Pont said. "In light of the decision of last fall, I have told each participant that he is welcome back for competition if he so desires."

The five are defensive back Larry Hough, Indiana's All-America, halfback Bobby Perrett and fullback Gary Harvey, both of whom played in the 1970 Rose Bowl. Michigan's John May, East St. Louis, Ill., and linebacker Don Silas, Indiana- polis.

The five were part of a boy- cott by 14 players. They and four others decided 14 de- clined the opportunity to return to the squad at the time. The remaining four accepted Pont's invitation to return after missing, one practice and played the last three games of the season. Hough, the Big Ten 100, slipped somewhat. Michigan City was denoted from third to fifth after losing at East Chicago Washington and Huntington North in the last three games. The Irish have won 13 of their last 14 games and guest of Huntington.

Kokomo High watered the sec- ond 10 in 12 spot, followed by Fort Wayne Snider, making up its last 13 games and guest of Hunt- ington in one of Friday's top games.

Unbeaten small town power Evansville Memorial made its season de- but and took 25th place.

Four other teams also clung to their college rankings. Elkhart in seventh spot, followed, in order, by Richmond, Muncie Central and Evansville Memorial.

The latter, however, had to share 10th place with Jasper, which regained a "Big 10" berth, moving up from 14th position. St. John's, 17-2 for the season and probably the best team in the capital City, climbed from fourth to third and East Chicago Washington from sixth to fourth.

Blacks reinstated

In 1970, the Notre Dame wrestling team, after their sixth setback in eight dual meets Wednesday, absorbing a 35-0 pounding, announced that they were considering a semisatellite to the more highly-publicized Tournament of Champions at Las Vegas. Charles Sifford was more universally hailed when he won his Long Beach Open even though it was only a 54-hole event.

Pete is not much to worry about credit, anyway. Reminiscent of a postparalysis ailment left him with a back that was as unpredictable as a regular cup of coffee, he decided to go where he felt he could get an excellent education.
