Krashna plans to ease transition

by Cliff Wintrobe
Observer Associate Editor

Newly elected President Dave Krashna and his running-mate Mark Wintrobe, from a wild victory celebration the night before, yesterday cited a "neutral and comfortable" transition between administrations as their primary task between now and inauguration.

To accomplish this task, the pair contended it is necessary to establish a working relationship with people at all levels of the university structure who are connected to student government operations. The cooperation of student government was also seen as crucial.

"We have to find and establish contacts to carry out the ideas we raised during the campaign and along with that, we must sit down with members of the present administration and study the mechanics of the various governmental offices," said Krashna.

Mark Wintrobe said that the beginnings of a new administration were started during the campaign and already information is being collected on campus issues.

"Throughout the campaign, we have been gathering information on all related areas of student life from the question of black concentrations to which halls to present to the Student Life Council to how to get to the halls on a personal basis," said Wintrobe.

He cited contact between Director of Housing, Father Edger, Wintrobe, and Karen personnel during the campaign discussing room selections as an example of action already initiated by the new leadership.

The pair indicated that the transition time off April 6, when they come into power, will be concerned with probing specific details about issues raised during the campaign and closely examining the possible solutions. In this manner, they feel the specifics of implementing their ideas will be presented soon after taking office.

Krashna expects the McKenna administration to be important in evaluating the existing campus situation.

"We will be sitting down with the present administration and seeing exactly where they are, where we want to go, and we will make appropriate changes based on these factors," said Krashna.

When Krashna and Wintrobe said that they were determined not to follow precisely the same procedures of the McKenna administration, they did feel there is a necessity for the continuation of some of the programs and activities of the old administration.

---

Junior Parents arrive for weekend activities

by Mike Ruffer

The first registration period for the 18th annual Junior Parents-Son Weekend will officially begin at 4 p.m. in the lobby of the Center for Continuing Education, and it will last until 10 p.m. Weekend Committee chairman, Jim D'Aurora, stressed the fact that it is very important for the parents to register: this is the only way for them to obtain the specific information about the weekend.

This evening at 6:45 p.m., the Notre Dame Glee Club will present its Spring Concert in Washington Hall. The film, La Dolce Vita, will follow the concert at 8:30, also in Washington Hall.

Tomorrow, the final registration period for the parents will be held in the Center for Continuing Education from 9 am-7pm. The detailed schedule for Saturday's events can be picked up in the CE Center at this time. From 9:30-11 am the major presentation will take place in their respective college and departmental facilities.

At 11:15 am to 1:00 pm, the program will continue on page 9.

Sheedy discusses need for more intercampus interaction

by Charlie Meyers

Expressing the need for more informal interaction between the students of both campuses, Father Sheedy, head of the Notre Dame-St. Mary's Co-Exchange program, discussed the future of Co-exchange in an recent Observer interview.

The pure academic mixture he feels, has been very satisfactory, yet the day-to-day routine of both student bodies has not reached its full potential.

One reason he cited for this is the present program is being done on the du Lac campus. He noted that "the Notre Dame set of facilities is not conducive to much informality at present."

Apart from the student center, there exists very few places where men and women can get together, he noted.

Sheedy feels that "a change in physical facilities has to happen."

Another factor Sheedy pinpointed as contributing to the lack of routine contact with women is the comparable size of the two schools.

"Notre Dame is so large that girls tend to become lost," he stated.

Fr. Sheedy is extremely optimistic about the overall effectiveness of the program.

"Whatever happens in terms of co-education will be preceded by co-exchange," he stated.

The joint-registration policy, implemented this semester with SMC students registering at ND, is here to stay, Sheedy said. He pointed out that the academic calendars of both schools now coincide, and a common grading system is being worked out.

Father Sheedy would like to see more joint departments established. A joint Theatre department already exists. He hopes that similar programs will be set up "by mutual cooperation rather than by directed policies."

According to Sheedy, approval for joint degrees has already been granted. Father cited the case of two architecture students from SMC presently studying at Notre Dame. Joint degrees are important for those students seeking degrees in areas not offered on their own campus.

Sheedy revealed that a new policy for next fall's sophomore class is now being processed. An exchange program is being set up for approximately 70 students from each school.

"We are going to explicitly make it a co-exchange program, over and above those who will sign up anyway," he noted.

He feared a scheduling difficulty here in the fact that sophomores have so many electives open to them.

"It is fairly easy to do with the freshmen class, since they basically have the same program," he noted about scheduling co-ex courses.

The fall of '69 marked the first time that freshmen had been offered co-ex classes. Last semester's prerequisites were sent out inquiring whether incoming students would be interested in this program or not. This policy will be repeated this fall.

The question of SMC expansion, he notes, is a financial one. St. Mary's freshman class was expanded by roughly 200 people this past fall, Father said, but any physical expansion becomes a question for their Board of Trustees.

Notre Dame's physical expansion, he notes, would naturally becarn more of a problem than St. Mary's, U.S. 31 would pose a serious problem though, he mused. Notre Dame's Route 31 divides the two campuses.

"There isn't a tremendous amount of physical expansion left," Father Sheedy explained, "since the two schools become one."

The co-ex program has been growing at various departments at both schools permit more students to take classes at the other school.

As late as 1965 only sixteen students from both schools were enrolled in co-exchange. This present spring semester has more than 1000 Notre Dame students enrolled at SMC alone.
continued from page 1

students really think about their work," he said. Another "stabilizing" move by Bach will be to lessen the night editors' work load. Since most of the "best writers are night editors" said Bach, the, Observer would benefit from more night editors.

Prepress editors Jim Hilsinger, John Brown, Dave Lammers, Tim Trezona, and Cliff Wintrode would become Bach's "senior reporters" to cover important news events.

Bach stated that he wanted more staff people to know more about the total operation of the paper so they will be more able to handle their particular assignments more capably.

By making the Observer an education in journalism, Bach foresees that next semester he will have a responsible crew of night editors and a smoother operation.

The total effect of his policies would be to insure continuity from year to year to insure that no editor would be "forever taking a job just knowing nothing about the Observer."

It will be a "graduate program," Bach said. "If I do my job right, the next editor will have it a lot easier."

The Observer
FRIDAY, MARCH 12, 1970

DESIAPINO NAMED PUBLISHER

DeSapio will stay with the Observer as publisher "until that time the business staff gets a firm control and understanding of the operation."

"Bach," said DeSapio, "will have complete and free control of editorial direction and of staff assignment." DeSapio will retain "financial control," he noted however that DeSapio would have a vote on the editorial board.

DeSapio noted that this arrangement should work for the best. When Don Holliday was the Observer publisher at the beginning of the year, DeSapio's relationship with him was not "clearly stated." Now, DeSapio noted. This often gave rise to duplication of effort and misunderstanding of roles. There was sometimes question of who had the primary responsibility for putting out the paper and directing the editorial policy.

"I believe that I will be able to write for the paper more in any field that Bach felt that he wanted him to."

"Dave is an outstanding change director and I am sure that the Observer will grow under his direction."

DeSapio "...

Symposium scheduled

The West European Studies Program, under the direction of Professor Stephen D. Kertesz, will sponsor a symposium en­itled "New Challenges to Constitutional Democracy in the Atlantic Community." The symposium will consist of a series of lectures to be held at the Center for Continuing Edu­cation this Sunday, Monday, and Tuesday.

Noteworthy addresses on Monday include "Current Chal­lenges to Democracy in the United States" by Glenn Tinder of the University of Massa­chusetts and "The Withering Away of Western Liberal Democracy," by Anthony Hartley, editor of Interplay.

Tuesday's activities include "The New Left," given by Gerhart Niemeyer, Professor of Government and International Studies here at Notre Dame.

A registration fee of $2.00 must be paid by anyone interested in attending. Professor Kertesz can be contacted at his office, 1201 Memorial Library.

Germfree animals susceptible

The germfree animal can't catch a cold or come down with the flu, but he may be much more susceptible to hardening of the arteries than animals which do normally catch colds. Experiments to simulate that activity through diets are being conducted by Dr. Thomas F. Kellogg and others.

The reason? He lacks friendly bacteria in his intestines, Dr. Kellogg explained. The friendly bacteria, which reduce levels of cholesterol in the blood, can actually do their damage by suppressing the activity of beneficial bacteria. On the other hand, added foods such as corn oil help the body eliminate cholesterol and aid in reducing levels of the fatty substance in the blood.

Kellings' main interest is in the chemical means that bacteria use to modify cholesterol and other compounds like it. He is also investigating a fatty acid which reduces levels of choles­terol in the blood of both conventional and germfree animals. Unlike other diet factors, this fatty acid does not function by merely increasing bacterial activity, but seems to have some direct effect on cholesterol itself.

Research into these fundamental studies of cholesterol metabolism are supported by the National Institutes of Health and the Indiana and American Heart Associations.

Krashna outlines plans

"If there is not a student forum, we will not be as effective in getting back into the halls as we would have been otherwise. It is a tool, and if the tool breaks down, the job usually breaks down," he said.

Krashna said that coexistence with increased responsibility for hall presidents is increased responsibility for all the members of hall government and basically increased personal responsibility for the residents.

"We must emphasize again that it is not purely hall presidents, it is hall government and all that entails such as having effective and selective leaders and more basically dedicated hall members that will make or break student government," said Krashna.

Winings said the new admin­istration will be met with an attitude in which "communi­cation is already there. We can improve it, but at the same time there are legitimate needs which have to be recognized and acted upon by the administration."

"At the same time you have to be reasonable and recognize that there is a great deal of interest in the development of Notre Dame, and that no one side has all the answers," Winings said.

"We are dealing with structures that are so complex and bureaucratic, there is a great tendency to get bogged down unless you take a firm and adamant stand you will not steer clear of those structures," said Krashna.

Holmes to speak

Dr. Urban T. Holmes, Kenan Professor of romance philology at the University of North Carolina, will speak at 3:30 p.m. today in Room 707 of the Memorial Library.

Holmes, a member of the fellows of the Medieval Aca­demy of America and Chevalier of the Legion of Honor, will speak on "Chretien de Troyes."

His talk will be introduced by Dr. A.L. Gabriel, director of the Medieval Institute.

Introducing Rallye 350
...new from Oldsmobile!

It's here—Olds Rallye 350—freshest fastback on the road today with a budget-pleasing price. Here's an exciting new Olds model that's a leader in both value and looks.

Its value starts with a big Rocket 350 V-8 that features Oldsmobile's exclusive new positive valve rotators that deliver smoother performance, longer engine life...a side-guard beam in each door for added security...hidden windshield wipers, and a radio antenna that's in the windshield...a 112" wheelbase for quick handling...an anti-theft steering column lock...front fender liners that fight metal corrosion.

Its looks feature an exciting color...Sebring Yellow. A fiberglass hood with functional air scoops and special paint treatment...new urethane-coated bumpers and painted wheels...a blacked-out grille...custom-sport steering wheel...special two-tone striping...super wide-oval bias-belted tires for longer tread life. They're all part of the Rallye 350 option. Why, you can even order a rear-deck spoiler if you wish.

Stop in soon at your Oldsmobile dealer's and check out the new Rallye 350 and all the other great Olds models. One thing you can count on: Every one of them gives you "something extra" in comfort, convenience, performance and value.

Olds: Escape from the ordinary.

Oldsmobile
For "something extra"; see your Olds dealer.
A mandate for change

We would like to congratulate Student Body President-elect David Krashna and his running mate Mark Winings on their overwhelming victory on Wednesday. The impressive and record-breaking margin of votes is an endorsement of their idea of how to bring student government closer to the students. Their election can only be interpreted as a mandate for the change in the atmosphere here which they envisioned.

We support the efforts of the two men to bring about the changes that they seek. It won't be easy but with much work their concept of a Student Forum should prove effective in bringing the student body closer together and bringing student government closer to the students.

Elections are always emotional occurrences. Supporters of both sides can often be shown to have gone overboard in working for their standard bearer. As the weeks pass after election day enthusiasm usually wanes but more often than not animosities linger on.

We hope that this year Notre Dame will awake to the fact that "community" will never be achieved if the political divisions that are raised during the campaign are not forgotten.

Both major candidates this year stood for the most part persistently on the need to encourage a campaign run on the issues and a post election attitude of cooperation and understanding. We add our voice to that of the candidates.

If the call for increased student responsibility is to work there is a need for students' actions to mirror their vote. It is the obligation of each student now to take an active interest in the hall—in helping to provide a sense of direction—to increasing communication and relieving tensions. Krashna will be asking students to evaluate their present leadership to assure that there will be capable hall leaders.

The "new atmosphere" must be a change of spirit if nothing else. Krashna and Winings' election alone can not bring it. Nothing that student government can do will bring it. Changes can be made in the institution and the structures—but the changes will be meaningless unless each student takes it upon himself to do a little more for his own spirit and for the atmosphere of this community as a whole.

Letters to the Editor

Cheers

Editor: Three cheers for Ann-Therese Darién! Her article on the Women's Liberation Front at St. Mary's was excellent, and conveyed the general reaction. Personally, I wish the WLF would shut up and quit rocking my boat. If they want to stop wearing their bra, it's fine with me, but I rather like the privileges and deferences that go with being such a second-class citizen!

-Paddy Donovan
St. Mary's

Over the triteness

Dear Notre Dame,

Why do you look solemnly at me? Why do you pass over my humanity? Why am I not your brother first of all and other things? Why are we not human beings together? First, above all else we are human beings, aren't we? Then why not recognize that fact first?

My dear white brother, my dear black brother, my dear brothers of other races and creeds, we are common in our humanness. Can't we recognize that over and above our triteness of ourselves? Why can't we live together as human beings? Why?

David A. Redle
312 Dillon Hall

The Great Loud Minority

Editor: The letters I have written before this concerning the faults of Notre Dame have brought exactly the response I thought they would. The people who have written back have either asked me to leave Notre Dame or stop throwing rocks. This is the mentality of the majority of the people at Notre Dame and I'm glad they have shown themselves truly form.

For those who have read a few of my letters, I hope they have noticed the lack of response when I talk about national affairs. This fits in perfectly with Notre Dame's "Great Silent Majority." Once again Notre Dame shows itself, this time by abstaining.

"While her loyal sons are marching onwards to victory." This is possibly the best description of Notre Dame's student body. They march as in follow the leader, loyal as always (tradition, now and forever). And they're all heading for victory, namely that giant dollar sign at the end of the field.

Larry Oetov
1233 Notre Dame

The Great Silent Minority

Editor: While I respect your position as Assistant University Chaplain, however, I raise a disturbing point. If the opposition of grass at Notre Dame in the issue that moves one to take to the pen, a curious set of priorities is uncovered. Allow me to suggest that Rev. Lochner's analogy of a train wreck might ring a bit absurdly. In the hope that such a mandate for the change in the atmosphere and editors of The Observer, and do not necessarily reflect the views of St. Mary's College, the University of Notre Dame, their administrations, faculty, or student bodies.
Three essays for Junior Parents or 'The Golden Dome may be heaven high, but it's only cardboard thick'

Three essays for Junior Parents

or 'The Golden Dome may be heaven high, but it's only cardboard thick'

by Dave Stauffer
Observer Features Editor

I.

Hello, junior parents. How are you? How was the trip up? How’s that fine young junior of yours?

Don’t answer that last one too hastily. I suppose that you’ve already checked the hair. Nothing over 1½”, right? Face shining as he greeted you, dress shined, perhaps a tie and maybe even a coat.

Well, don’t believe it. I mean, you aren’t really going to let his stellar two-day image convince you that he’s like this all the time, are you? After all, you’re up here to find out how he looks and behaves when you aren’t here, right?

Take heed: The old ‘invert the image’ method will serve your purpose splendidly. It’s quite simple and based on the universally acknowledged fact that the more someone wants to hide something from you, the more that someone will reverse ‘invert’ his image when he is with you. Get it?

Now you can decipher your son’s true NF self with the greatest of accuracy. The shorter his hair is for you, the longer from you, the more that someone will reverse or ‘invert’ his image when he is with you. Get it?

So in a nutshell...

II.

A story of questionable accuracy which depicts for the reader the origins of Junior Parent-Son Weekend.

It was a gloomy, early spring day at Notre Dame. Somewhere in the Admin-
istration Building, a group of young students was huddled in the third floor, a member of the University administration who also happened to be a priest was contemplating how students and parents of students felt toward his school. He thought longingly about how nice it is when students are freshmen. Their parents bring them out to Notre Dame, and the little freddies just love the place. Their parents love it too. It’s a man’s school. Everyone is a part of the Notre Dame Family and everyone is happy.

But the administration member was sad because he realized that the situation doesn’t last. The parents go back home. The only way they hear about Notre Dame is through letters from their sons. At first it’s good. But during sophomore year the students become disillusioned, and they tell their parents.

By junior year the students are rather disgusted, and they often wonder why they ever came here — and they tell their parents. Soon, even the parents are becoming disillusioned with Notre Dame! The administration member recognized the problem: the students, and eventually the parents, lose their vision of the Golden Dome and awake to reality. Reality must be overcome! But how? The administration member wondered.

Then just a curious thing happened. Seemingly carried by a breeze which blew off the Rothenbuhl construction site near the Student Center, and dressed to the hilt. You’ll never see a shinier Golden Dome.

III.

A short, short play featuring the parents of two juniors. The place is the registration line. The juniors are seen, but not heard. The action begins after confirmed introductions.

MRS. A. — Why’re we from New Orleans and what a dreadful flight we had! It’s such a bother to come such a long distance, but we think that it’s worthwhile, even as long as our Mike is going to Notre Dame.

MRS. B. — I know just what you mean. Luckily, we live near the campus from Peoria, but Lord knows Bill and I had to fight to get to Notre Dame if we lived in Thailand.

MRS. A. — Of course our Mike was just right. He told me that he wouldn’t like the weather, just like you know, but he considered it all quite seriously and said that he wanted to go to Notre Dame even with the bad weather.

MRS. A. — Weather’s atrocious up here; but thank you. Mr. B. — Uh... that’s Bill.

MRS. A. — Why we came up for the Navy game when our Mike was a freshman and it was terrible. It rained and then turned to snow during the game. Why, football or no football, we went back to the motel and watched on TV.

MRS. B. — Even so, the boys like football so much. There’s so much to be entertained by at Notre Dame. Football and pride and sportsmanship and the pageantry on football Saturdays. We couldn’t have found a better school for Donnie, you see.

MRS. A. — I’l tell you what I like about Notre Dame is that president, that Harshen Berger fellow.

MRS. A. — That’s Hesburgh, honey.

MRS. B. — What do you think, Blaine?

MRS. B. — Why, the very night they announced that fifteen minute ride on Huntsley-Brinkley I turned to Blaise and said, “Aggie, I believe that we should send a letter of congratulations to that Heistenberg.”

MRS. A. — That’s Hesburgh, honey.

MRS. B. — I know just what you mean. Bill and I have such admiration for that man. How can he run a school with the national image of Notre Dame and serve on all those commissions at the same time is beyond me.

MRS. A. — He’s here so much to this school. Why, I wouldn’t be surprised if this weekend weren’t his idea, also. Why, it’s nice for you and I to get back up here and see a campus with lots of trees and grass, and isolation from the cities, and beautiful buildings, and a good football team... and good teachers.

MRS. A. — And of course it’s always so nice to reminisce the trees and grass and look at that lovely Golden Dome.

537 Notre Dame students killed!!

by Students for Biafran Relief
P.O. Box 516
Notre Dame

Sounds preposterous, doesn’t it? But it might as well be true. Right now our African brothers and sisters are dying of starvation in what was once known as Biafra.

There is a national student organization headquartered at Notre Dame. There is a national student organization headquartered at Notre Dame. There is a national student organization headquartered at Notre Dame.

That is trying to alleviate some of the hunger in Nigeria. It’s called STUDENTS FOR BIAFRA RELIEF.

And they need your help so that they can effectively help.

This weekend, a drive will take place in the Notre Dame-South Bend communities to raise the money which will be used to purchase food and medical supplies by the Nigerian Red Cross in the strife-torn area of Biafra. In the Junior Parent masses, a special collection will be taken to supplement the need for food in that sector of Africa. In Sacred Heart Church Sunday, all the contributors will find envelopes in their pews which are specifically designed for STUDENTS FOR BIAFRA RELIEF collections. Anyone who wishes to help those University will be asked, nearly the same, to place the contribution in the envelope and place the envelope in the collection basket during Mass. There will be a special collection basket passed around during the Mass, but instead all donations should be placed in the special envelopes in the regular collection. In case anyone would like to make a contribution to the cause, the envelopes are self-addressed and thus only require the placing of a 6 cents postage, in addition to the check demoted and placed as a subordinate unit within the Federal Ministry of Development.

Statistics indicate that over 42.4% of all children under 4 years of age are suffering from nutritional deprivation, and that 31.4% of the entire population suffered from that same illness. The people only require 2 ounces of high protein food each day (cereal, stockfish, and dry milk) in order to survive. It costs very little to buy the food, but very much to buy enough and to transport it to the people. So please, remember those Christian people when you are attending your Christian services; and at all times when you wish God’s grace upon existence, when we take so very much for

A ‘Fan’s Notes’

will become movie

A ‘Fan’s Notes’ the prize-winning first novel by Fred Exley, will be brought to the motion picture screen by 30-year-old producer Martin Davidson and director Eric Till for Warner Bros release.

Exley’s novel, a quasi-autobiographical story of a man’s struggle to cope with his environment and with himself, won the William Faulkner Award as the year’s best first-novel. Exley is the son of the National Institute of Arts and Letters when it was published in 1968 by Harper & Row.

The film will be the first to be produced by Davidson, until recently an agent for the International Famous Agency, and the third to be directed by Till.

Davidson, a long-time fan of the New York Giants professional football team, bought the rights to the story for $3000, and he found that it contained references to famous alumni of the Giants, such as Frank Gifford and Tom Rote and the rest. The novel, however, is not about football; it concerns a man who, in battling to find himself, discovers that, as Davidson says, “is never a participant in life, he is only a fan.”
Confusion over future of black concentrations

by Bob Fulton

A misunderstanding between Father Edgar J. Whelan and Alumni Hall has caused much confusion over the future of the blacks. On March 1, Father Whelan was invited to Alumni Hall by President Tim Shafter to discuss the role of hall government and its responsibility to the residents it represents. In the course of the meeting, Tim Shafter said Father Whelan explained a line in a letter he wrote to all hall governments on guidelines to room selection.

The line reads, "Moreover, no ro-"ons or othe- basis of race, religion, or nation-

ally."

The Alumni Hall government felt that it was endangering the existence of the Board of Co-

operation. Father Whelan said Tu-

cedy that he felt that it was important that the University not allow halls to mark ro-

sters on the criterion stated. If they were not opened together, they could pick their rooms as such.

On March 9, the hall govern-

ment issued a statement declar-

ing that they and the Afro-A-

merican Society would challenge the University’s ruling which, they felt, endangered the black concentra-
tions.

When confronted with the statement Father Whelan reaffirmed the University’s position and said that he felt there had been a "misunderstanding" of what he had said at the Alumni meeting. "If the blacks have done anything on this campus they’ve told the whites they have a problem and the whites have better sit down and face their problems. This was a message we brought to the campus through the blacks. It’s a message this campus has to hear."

When asked if the University’s ruling had anything to do with the HEEW, Whelan answered, "One would have to go a very long way to prove we have segregation in our dormitory housing here."

One argument made by the Alumni Hall felt that the possibility of segregation would be marked rosters.

Alumni Hall feels that the University has given the respon-
sibility of room assignment to the hall.

Says Don Mooney, Hall Sena-
tor. "What he (Father Whelan) seems to be saying is that it is up to the hall to do it (assign rooms), and that’s exactly what we’re going to do."

Art McFauld, president of the Afro-American Society, "Basically, to sum it up, it is for purposes of identity and what we term survival. However, in the past the University has spread us out when we got here; now that we have more responsibilities, we need to depend on one another. We are especially in a predominantly 99% white environment. We have no interest to look to others, to Black students..." McFauld said.

SMC Alumnae to meet

The annual spring meeting of the Board of Directors of the Alumnae Association of SMC’s College will convene this weekend, March 13 and 14, on campus. Mrs. Michael M. Donovan, of Houston, Texas, president of the international association, will preside over the two-day meeting.

When highlighting the Board’s schedule will be a reception in Stapleton Lounge followed by a candlelight dinner in the College Dining Hall welcoming the Class of 1969 into the Alumnae Association. Mrs. Timothy F. Galvin, treasurer of the Association, will deliver the welcoming address issuing a challenge to the seniors as they complete their college careers. Responding for the new members will be Miss Rosemary Leninia, Senior Class president.

In sessions scheduled for Friday afternoon and Saturday, the Board will discuss final plans for the annual reunion, June 4-6 at Lake Vermillion, recently named Director of Placement Services-Student Personnel at Saint Mary’s, will discuss a proposal for alumnae association for Negroes within their home communities. Also on the Board’s agenda is a report of the Alumnae Fund program.

With a membership of over 9,000 former students and graduates, the Saint Mary’s Alumnae Association is currently in its 91st year, one of the nation’s oldest women’s college alumnae associations. Its members reside in all 50 states and 40 countries throughout the world.

Dr. James Shannon to speak here

Dr. James Shannon, former auxiliary bishop of St. Paul Minneapolis and currently vice president of St. John’s College, Santa Fe, N.M., will speak Sunday (March 15) at 8 p.m. in the University of Notre Dame's Washington Hall. His lecture, sponsored by the Student Union Academy of Com-

mission, will be on "Challenges to Constitutional Democracy: an Atlantic Community."

CENTER FOR CONTINUING EDUCATION
Hesburgh replies to Nutting backers

by Ed Ellis

Notting for President Head- counters announced last night that they had received a letter from Father Theodore Hesburgh C.S.C., stating that he would remain uninvolved in the current controversy over the proposed Chancellor-President form of university administration.

The text of Fr. Hesburgh's March 6 letter reads: "Dear NFPD,

I am reluctant to write an organization rather than a person, but I want to acknowledge the several letters you sent me with the enclosures.

"My own position is relatively simple. Any change of governance here at the University would come from Board of Trustees, not from me. I think it inappropriate that I became involved in any discussion of the matter prior to a decision on their part. As far as I am concerned, your group or anyone else is perfectly entitled to an open and active exchange of ideas in matters that ultimately affect the University.

"Your expression of concern, your group or anyone else is perfectly entitled to an open and active exchange of ideas in matters that ultimately affect the University."

The spokesman expressed "disappointment" over the results of a letter sent to the 41-man board of Trustees on February 2nd. "We requested each of the members to express their opinion or concern with our proposal. Of the 41 letters sent, there hasn't been a single reply."

A second letter, dated March 12, 1970, asked each member if he would care to express any opinion or concern about the proposed change. This second letter, according to a press release from Notting for Presi dent Headquarters stated that "your first letter was not a

evaluation of the proposal in a practical sense, and that the proposal isn't a practical imposibility."

"Also included in the second letter was a more precise statement of the objectives of the organization, the responses of various faculty members to the campus, and excerpts from the Observer (Mar. 1, 1970) and the Student (Jan. 16) concerning the Notting for President movement.

In its educational campaign, the group announced that they intend to increase efforts to communicate to the Notre Dame community the nature of the Chancellor-President structural revision. Two projects which help to allow for a "meaningful dialogue" over the issue were mentioned. "A Notting Night" on Friday March 13 at the St. Mary's College. "The Observer" (Mar. 1, 1970) and the Scholastic (Jan. 16) concerning the Notting for President movement.

Education quarterly is formed

The University has announced the establishment of a new formal quarterly, "The Notre Dame Journal of Education," the first issue of which will be published in late spring.

The new quarterly will be sponsored by the Notre Dame, Institute for Studies in Education, which includes the educational curriculums on both the Notre Dame and Saint Mary's College campuses — graduate studies, teacher preparation, educational research, and counseling programs.

"We will be asked," said the Rev. Neil J. McCluskey, S.J., dean-director of the Institute, "why we are starting a periodical when a number have folded and others seem headed in that direction. Our answer is simply that we feel we can produce a journal which will meet needs not currently being met by any other publication."

The editor of the journal will be Dr. Vincent P. Linnane, an associate professor of education and a specialist in the history of American Catholic education. Linnane said the new publication will take an interdisciplinary approach in political, ethical and religious matters, and in cultural and technological developments.

M. Lee Peterson, (right) South Bend sales manager for the Aluminum Company of America, presents a $5,000 grant from Alcoa to Dr. Frederick J. Cronson, (center) dean of the College of Arts and Letters at the University of Notre Dame. Frederick S. Beckman, professor of art and director of the industrial design program, looks on. The award will encourage design students to enter Alcoa's twelfth annual Student Design Merit Award Program.
by Dan O'Donnell

Tom Kronk, chairman of the University Arts Commission reported yesterday that although there have been no major contributions to the Arts Council's program, the Finance Committee is in the process of sending out proposals to forty major corporations and foundations.

In addition, Kronk told of a Student Information Committee that will shortly visit the Arts Council to inform them of the Council's progress. Kronk stated that according to all available reports, the Fieldhouse must be saved or it will soon be unobtainable. Kronk also noted with enthusiasm the co-operation and communication that the Council has achieved among students, faculty and administration.

Kronk expressed his belief that the state of the arts at Notre Dame is looking "promising." In addition to the grant, each receives free aluminum corporate design staff. The Carnegie Theatre, the largest in Notre Dame history, will shortly visit administrative officials to inform them of the Council's progress. Kronk termed the Festival "impressive." At least sixty schools, faculty and administration will shortly visit the arts center.

The future of the Black Studies Program seems to be very favorable, according to Assistant Professor Thomas J. Musial, chairman of the Colledge Seminar. The Program is now being discussed by the Academic Department of the Arts and the Academic Department of the College of Liberal Arts and Sciences.

The Art Center represents a unique experimental in innovative education and an attempt to provide educational opportunities for people whose structured program does not include education to the arts. Kronk said, "Thus far we have not seen any opposition to our program. We have two months left before the university decides the fate of the Fieldhouse. We hope that those who make this decision on June 1 will be educated to the total concept of the Center and realize the relevance of this concept of individual development to the community."

The delegates of this year’s Model United Nations are in a position to gain a deeper understanding of the role of the United Nations and its member states and to consider the challenges and opportunities that lie ahead. The delegation, which is made up of students from various African countries, will attend the Model United Nations conference and will be represented by several African countries, including Algeria, Kenya, Tanzania, and South Africa.

African Block 110
O’Shaughnessy Hall
Arab Block 20
O’Shaughnessy Hall

Model U.N. Chairman, Michael Kelly, urged delegates to attend the block meetings and to draw up appropriate resolutions. Delegate Director Tim Walch reiterated that forty-six delegations, some in all six blocks, are still open for delegates. Anyone wishing to sign for the Model U.N. will be on hand to contact delegates at 12:30.

**Heavy Mekong fighting**

SAIGON (UPI) - South Vietnamese troops reported killing 65 Viet Cong yesterday in one of two heavy battles through Mekong River Delta jungles. Field commanders appealed for all available air support as the second action raged into the night.

Intelligence reports have indicated that South Vietnamese and Viet Cong troops used the delta rice bowls as the testing ground for the U.S. Vietnamization program. Most American ground troops have been withdrawn from the area to the Soviet broadcasts, leaving its defense to South Vietnamese.

The 65 Communists were reported killed in five hours of fighting that began at 1 a.m. on the edge of the U Minh Forest, a strategic Communist base in the Mekong Delta, at the hands of many Vietnamese to harbor enemy spies. Two Communists were captured in the tight nine miles north of Thoi Binh and 128 miles southwest of Saigon.

Loses to men of the 21st Division of the South Vietnamese army were glanced at, 28 wounded and three missing.

The second battle erupted yesterday evening when elements of the South Vietnamese army’s 9th Infantry Division reported heavy contact with Communist units 100 miles southwest of Saigon.

Carmen in minis

ROME (UPI) -

Rome Opera House put Carmen in minisks for the first time and touched off a storm of protest yesterday by critics. They didn't like the fact the Opera was sung in French, its original language, and that scurried over the miniskirts worn on stage by all the women in the cast.

The only thing about the new production Wednesday the critics agreed they liked were the long and slender legs of American soprano Grace Bumbry. Her short modern costume, tight in the bodice and full in the skirt, showed her slim but voluptuous figure to advantage.

"Lovely figure, beautiful legs," said Il Messaggero critic Renzo Rosellini. Miss Bumbry evidently wore tights beneath her short costume, which ranged in length from just above the knee to half way up the thigh. The chorus and soloists employed black lace stockings which stopped just above the knee and showed a healthy expanse of flesh between stockings and skirts.

The first indications of modern dress came when the girls employed at the tobacco factory where Carmen works trooped onto designer Renato Guttoso's Italian looking town square and wearing cotton minidresses covered with watermelon shaped from printed with jumbo polka dots.

Romeans show human side of designing

Happy end of a school year abroad program conducted in that city. Describing the reactions to the new program in a taped interview in Rome with Dr. Otto F. Seeler, professor of architecture, the students offered comments, advice and criticism for their classmates.

The human element inherent in the most ancient buildings impressed Kellifer most. "These buildings were designed for men -- people -- and are still being used with their lifestyles in mind. In the United States, people have to change their life styles for the buildings."

La Dac called the opportunity to view well-designed structures from many sides and under many conditions a prime advantage of the program. "A good building has many sides," he explained, "and here you can see it every day, from every angle, with traffic and without traffic, with people and with no people, in all kinds of weather, during the day and at night."

Marin agreed, adding that each visit to a well-designed structure yielded a new insight into detail, over-all design, or the subtle relationship of details to the shape, purpose and structure of the building.

The students added that the opportunity to live with Romans and to get to know their architecture was enriched by the academic emphasis of the curricula. Architecture students in Rome take eight courses during the year, including design, sculpture, structural mechanics, historical research and Italian. The architecture students in Rome take eight courses during the year, including design, sculpture, structural mechanics, historical research and Italian. The opportunity to integrate new insights or artistic concepts into design work immediately was seen as a significant stimulation of artistic effort.

In suggesting improvements for the second academic program to begin next fall, the students urged that the living quarters be moved closer to the center of Rome, where contact with the people and the historic buildings would be easier. They complained that the group formed "an American ghetto," at the Hotel Raganelli, six miles from Rome, hindering their assimilation of the language and values of the city.

They also urged their colleagues at Notre Dame to prepare themselves for the Italian experience by reading and studying: "This is not a big holiday," one student suggested, "but an opportunity to live and do, as well as read and study."

Father Sheedy, who was on leave from Notre Dame during the last academic year while serving as a consultant to the seven-school Boston Theological Institute, also cited the following trends in Catholic theology:

A growing number of coalitions embracing some of the 166 Catholic major seminaries with enrollments of fewer than 50 students and bringing the theologists of religious orders under the wing of other universities, Catholic and Protestant.

A renewed interest in systematic theology which reflects an openness of the Catholic Church, a pilgrim Church, changing and developing."
Letters to the Editor

The Wrath of Scared: Editor
If I am to believe that I have felt the way I do now; and the high
reason of the feeling will be elucidating me. The Observer has lately in
sent the news-editorial. No newspaper should be a -
biased reporter of the news. You castigated Rich Moran of the
Scatorial for not following our orders to print such as he did, even
when the Scatorial does not pretend to be anything more that
mendacious. I believe that you, with diverse views present.
They do not pretend to be incorrect in the copy. Your texts, says,
has failed in this respect.
In your editorial today, you say, among other things, that you do not reprint the five
statements of a candidates. Per-
haps you have never written Glen Corso, your news editor, that
such procedure is in your organization. Just read today's article on Thrasher-people
who do not pretend to be correct. Glencros can write something
without misrepresenting it is by questioning the direct contradiction to your
story. They have your news layout -I have been in varied publications,
from corso to corso, every printer with whom I have come into contract. And they told me about the very diverse methods of
keeping and handling the text. They have no consideration, hardly ever, no demand a certain type of layout: this ability to anyone, without
preparing your newspaper, Young, has failed in this respect.

Editor: Editor’s Note: I hope that your point can be answered adequately.
I believe that you have a certain
of some standard of journalistic ethics here-and that we always have.
Throughout the campaign, candidates were quoted "exactly.
"About the article on Krashna on Friday was almost one candidate or another and
work the other people's feelings. But I am sure that you
cannot find one who would say that the Observer is not your
endorsing Thrasher, as
you said. The observations about layout
that were given to you by your
friends may have been true enough, for their publica-
tions but if you question them
sure that they will tell all you that each publication
has its own unique layout techniques. We happen to be
bumped by space limitations
but I just don't have the time to
always decide when The Observer is different
