Barlow-Underman elected by Jeannie Sweeney:

SBC News Editor

Kathy Barlow and Miny Underman, two juniors who won the campaign in conjunction with SBP and SBVP hopeful Don Mooney and Dan Sherry, easily won election to student office at SMC last Friday's voting.

Barlow and Underman received the majority of the 1,078 votes cast with a total of 541. Their opponents Jane Stenhy and Sue Wele picked up 299 votes and Kate Casady and Laura Bayer received 194. There were 44 abstentions.

Miss Barlow said "the election was an endorsement by the majority of the students of the main points of our platform merger of student government, increased cooperation with Notre Dame, and greater communication with the students."

Commenting on the large turn out of voters for the election, Mooney said "it shows that there is some kind of changes that are happening. The people are ready for a more action oriented administration."

The team added that their election demonstrated "an open and definite concern for coordination in the coming year."

Both girls felt their campaign had been excellently run by Junior Kathy Eglet, Miss Eglet really appreciated all the help the people that supported our team gave us, especially the hall captains who coordinated all of the meetings for Kathy and Miny in the halls and got people to vote on Friday."

Kathy Barlow added that she "hopes that this will continue during this campaign and the turn in the election will win."

(SBP candidates Don Mooney (left) and John Barkett wonder what the other is thinking as they prepare today's runoff election for the highest undergraduate office.)

Student Body Presidential Campaign officials today officially closed a 3 month morning.

In three public "meetings" Mooney stressed the importance of "spontaneously" and challenged people to "get involved." He used as an example of the "L.G.I.F.", party staged by the Student Union last Spring. Barkett, in turn, stressed the importance of the student as a whole in the life of the student at Notre Dame. He said that he would not "waste his time" on changes in the Notre Dame student government structure. He said that the essence of the social problem here must be solved by improving social life "through the halls, where the students live."

Mooney and his running-mate Dan Sherry also spoke of the need for "more students" structure, so that more students could "get involved." (continued on page 6)

Fitzpatrick gaining 13% seen as viable alternative

by Bill Weber

Last Thursday, for the first time in Notre Dame's 127 year history, a woman's name appeared on the ballot for student to see this woman elected over time in Notre Dame's 127 year

ning as a discussing their views on the campaign. Said Miss Fitzpatrick's name was not run as a "joke" candidate. She was not sure what kind of chance she had of winning when she began to run as a

definite and viable step on the road toward coeducation.

"This is definitely a 'watershed' in student government and interschool relations here," added Ryan.

There was an initial apprehension on Miss Fitzpatrick's part that she might be maligned or canceled on the campaign but nothing of this sort occurred. "This is a great testament to the Notre Dame student body," she said.

The question was raised during the campaign as to whether her sex would be the determining factor in her attempt to draw male voters. Miss Fitzpatrick said.

"I believe women are the determining factor in their voting patterns because I am a girl. I don't think that that is an illusion. I do not think that that concept has died as a

putting the city's limits and the city's limits. The Army has no drug amnesty policy in South Vietnam and if addicts ask for medical treatment the request may be used as evidence against them in a court martial, military sources said.

Thus, those undergoing withdrawal symptoms may have to accept "cold turkey" denial that methadone treatment, which is a non-addictive heroin substitute used by the Army and private drug programs.

Maj. John D. Sherry said that because some of those detailed were sentry dog handlers, the Air Force had to replace some of the guard dogs around the base perimeter because the animals did not accept a strange handler.

"The majority of those apprehended were security police men," said Col. Abbot C. Greenleaf, commander of the 483rd Tactical Wing and base commander at Cam Ranh Bay. Unlike the Army, the Air Force has no drug amnesty program in South Vietnam and if addicts ask for medical treatment the request may be used as evidence against them in a court martial, military sources said.

The Observer

Choice: Mooney, Barkett?
Final endorsements given

John Barkett in his bid for the post in today's run-off.
In their endorsement, Miss Fitzpatrick and her running-mate, Walt Secada, said that they "recognize in Don Mooney and Dan Sherry the embodiment of most of the ideas we stood for."
They also said, however, that "we have strong personal convictions, yet wonder what right we have to speak for the people who supported us. We must respect their freedom of decision as they respected ours to run. It is as individuals, then, that we speak."
Musica said in his letter to the Tower residents "when I return, I would like to see a different Notre Dame, I feel that if John is elected, Notre Dame Student Government will be more than just a play ground. Now is your opportunity. Give Student Government a chance. I strongly urge you to vote for John Barkett and Orlando Rodriguez tomorrow."
Musica also spoke of a "disappointment" on his part this year. As one of the causes of this he mentioned "a failure on the part of Student Government. It seems that every time things go wrong . . . they blame the structure instead of themselves."

The Notre Dame team analyzes Ford's Pinto

by Tim Burke

According to the report issued by the Notre Dame research team the potential purchaser of Ford Motor Company's Pinto is "X" tends to be sports-oriented, liberal, optimistic, and an innovator.
Ford's new subcompact has been the subject of a complete marketing report, recently compiled by the Notre Dame research team. The 200-page report, which was finished in February, has been sent to Ford Motor Company and the College Marketing Corporation, sponsors of the project.

Notre Dame was one of 160 universities throughout the nation selected to participate in the contest. Ford is offering sixteen regional grants of $1,000 each, and a national prize of $5,000, to those schools that most effectively analyze their target market, and the marketing strategies of the Pinto. The winning schools will be announced mid-April.

The Notre Dame research team was comprised of a faculty advisor, Dr. David L. Appel, and six Notre Dame seniors majoring in Business and Marketing. The students are: Bob Fries, John Hafel, Eric Appel, and Mary's students were selected at random to receive the master promotional questionnaire.
Four hundred Notre Dame students and one hundred St. Mary's students were selected at random to receive the master questionnaire. The research team received 400 replies, while it needed only 385 replies to make a accurate analysis.
The questions were designed to identify the potential Pinto buyer, reveal his primary purchase motivations, and suggest the most effective ways of communicating with him. They analyzed the socio-economic, demographic, and psychological aspects of potential buyers.
From those respondents who indicated that they were interested in buying a car in the next 12 months, the researchers selected approximately 40 people to test-drive the Pinto. Each driver answered the test-drive questionnaire while taking the Pinto on a 15-minute cruise around the campus.

"We wanted to see if it is worthwhile for Ford to push test-driving as a promotional device," explained McCarthy. The team compared the initial opinions of the drivers with those that they had after finishing their drive. McCarthy said that most people were "much more impressed with the car after driving it."
A Pinto advertisement, designed and donated by Ford Motors, was placed in the Observer last fall. A month later, the researchers placed an advertisement of their own design, uniquely tailored to the ND-SMC community.
The promotional questionnaires were used to compare the effects of both ads. A telephone survey was conducted to test student recall and awareness of the advertisements. One hundred students were contacted following each of the advertisements. However, the difference in response between the two ads was "insignificant."
Also included in this survey were questions pertaining to student awareness to the various media.
In a survey of 184 people conducted by the research team, over 97% said that they "read the Observer regularly." Based on these results, the team concluded that "the Observer is far and away the most effective way of reaching students on campus."

I STUDENT•RAILPASS

(Introducing an unbelievable new product: Student-Railpass.

(Would you believe two whole months of unlimited rail travel throughout thirteen European countries for a modest $125?)

Our brand-new Student-Railpass gives you all that Second Class rail travel on the over 100,000 mile railroad systems of Austria, Belgium, Denmark, France, Germany, Holland, Italy, Luxembourg, Norway, Portugal, Spain, Sweden and Switzerland. You'll discover that there's very little second class about Second Class. You can sleep in a Couchette for only $4.50 a night, and eat in inexpensive cafeteria-type Dining Cars.

Student-Railpass

The way to see Europe without feeling like a tourist.*

*Eurailpass is valid in Austria, Belgium, Denmark, France, Germany, Holland, Italy, Luxembourg, Norway, Portugal, Spain, Sweden and Switzerland.

Eurailpass, Box 90, Lindenhurst, New York 11757.

INTRODUCED INTO THE WORLD OF

CJF IS COMING

MARCH 5 & 6
Stephan Center

Founded by members of the Student Government of the University of Notre Dame and St. Mary's College. Students may be purchased for $2 from The Observer, Box 11, Notre Dame, Ind. 46556. Second class postage paid, Notre Dame, Ind. 46556.
John Barkett

Today's runoff election for the Student Body Presidency is probably the single most important day in student government's existence since J. Richard Rosi won the first rights of student self-government from the University. For the first time since Rosi, we have a candidate who is committed to a series of positive and realistic goals, articulated before and argued throughout the campaign. That candidate is John Barkett, and we strongly urge his election as student body President.

Barkett is more than a fine administrator. He is a man with a record of getting things done. His 2-year record in Morrisey speaks for itself; it is one of the best-run and most socially active halls on campus. Likewise, the Hall President's Council under his administration as chairman set up a leadership conference which helped other Presidents in their halls. It has also established definite conclusions about the rector-hall relationship, and in general has behaved in a far more active manner than it ever has before.

Barkett is informed, direct, and honest. He'll bother some administrators who are used to limiting student power by being better aware of the University's operation than student power's elected representatives, but he will represent the students, and represent them well. The way he'll represent them will not be with the empty rhetoric of confrontation, but with solid and inevitable reason.

When we write of honesty, we do not mean the trivial tests of honesty that have cropped up in the campaign. 3oth candidates pass that test. Probably the most important aspect of Barkett's campaign is his approach to coeducation. He recognizes both its economic necessity and its inevitability, and the suggestions he has made to anticipate coeducations are both commendable and helpful.

Particularly important are his suggestions to adjust the placement bureau for the admission of women, to appoint a co-ordinator, to recruit female professors and female administrators, and to provide gynecological services in the infirmary.

The merger of Notre Dame's student government with that of St. Mary's will be consummated regardless of who wins this election. Kathy Barlow has said this several times before her own election. We are confident that she will find it as easy to merge with a student government led by John Barkett as with one led by Don Mooney.

Mr. Mooney's campaign continues to be a disappointment. In an effort to "get specific" Mr. Mooney has written a list of programs; some of them of the promise-the-world variety ("open air concerts with good inexpensive groups") some already suggested by John Barkett (such as the Junior Year at Home Program) some of them vague ("revitalization of the Social Commission.") and some of them impossible to obtain, no matter how much confrontation is used (such as putting approval of the rector in the hands of the hall members.) Mr. Mooney has run an honest and fair inquiry into the affairs of the campus, but he has found no answers. Mr. Barkett has.

It is for all these reasons, then, and for the reasons expressed in last Wednesday's Observer that we endorse the Student Body Presidential Bid of John Barkett.
Saturday at midnight seems to me to be the most perilous hour of the week for the munchkins, for this on the campus of Notre Dame, the hour when the coven of witches will rise and stalk the streets. During the day they live like normal human beings, but at midnight something in them awakens, and they begin to appear on the streets in all their frightening finery. They are said to be especially active on Saint Patrick's Day, when the streets are crowded with revelers dressed in green. The munchkins are said to be particularly fond of the feast day of Saint Patrick, the patron saint of Ireland, because it is a time when the streets are filled with people dressed in green and enjoying themselves.

Munchkins and Demons

At the first football game, Nobody presented the flag to Mr. and Mrs. Kaplan's student son Rick Libowitz of 3 Rocky Rapids Road, Stamford, Connecticut, has a love for ancient Greek history and is a member of the American Philological Association. He has been studying at the University of Notre Dame for two years and is currently working on a dissertation on the works of Homer. He is particularly interested in the Epic of Gilgamesh and its influence on later literature.

On the eve of the 2023 season, Nobody returned to the University of Notre Dame to see his old friends and to see how the campus had changed since his last visit. He was pleased to see that the university had undergone many changes since his time there, but he was also saddened by the fact that many of his old friends had moved on to other things. Despite this, he was happy to see that the university was still a place where people could come together to learn and grow.

Nobody Wins

It was an extraordinarily miserable day on the campus of the du Lac when Nobody decided to stroll over to the student government offices and pick up a petition. He decided to do this after hearing about the various events taking place on the local drug scene.

Afterwards, I said to myself, I do not Keenan. The rest of the night. The boy supposed he was mescaline to have gone stale, gave his L.S.D. Eventually, I learned that two penings of a Saturday night as grist for the imagination was wide awake with images of events following the fiascoes of 70-71. Nobody was doing nothing. The trivial night swamps of the doomed imagination.

In my own experience, I have never seen a drug-user with his inner mess-ups so unorthodox as with the niggling of a Saturday night seems to me to be the most perilous hour of the week for the munchkins, for this on the campus of Notre Dame, the hour when the coven of witches will rise and stalk the streets. During the day they live like normal human beings, but at midnight something in them awakens, and they begin to appear on the streets in all their frightening finery. Junior parents comment on student life

(Continued from Page 1) at ND was not depicted on the film. The parents in the audience were then asked for questions. One father wanted to know what student life should be like. Mooney answered that it should be as diverse as possible and that there still may be too many Irish Catholics on campus. He also said the social aspect of the university must be much looser and that co-ed dining halls and dorms should be pushed. Corso answered a query on the cause of the damage of weekends by stating that there is not enough to do on campus. He put the blame on the students for the vandalism. Mooney said that it is not the fault of any one group, students or administration, but just the way things are presently set up.

A parent commented that twenty years ago students at ND had the same weekends to put up with, "yet there was not all this drinking and vandalism.

rep. Meyers pointed to the fact that "ours is a more affluent society, the students today expect more." Mooney added that an all-male university is no longer conventional, and that with coeducation the vandalism would stop. Corso said that coeducation wouldn't help all that much because some students would still drink too much but going coed would help, even if it would not solve the problem.

A junior in the audience added that twenty years ago students lived in fear of the administration. He noted that students have been given more responsibility today.

Another junior said that there are few activities in northern Indiana for those under 21. "All that is left is drink and drugs but with coeducation there would be new alternatives," he said. Mooney added that co-ed dining halls would stop much of the food-throwing there.

Other comments which had been interposed in the discussion included a note that the only thing parents were concerned with since the student gets home is grades, that the work load of students get the headlines while 90% only want a good education.

Mr. Aldo Corso said the problems in going coed only confirmed what parents had known all along, that "women are the source of all trouble."

LaFortune manager dismissed

by Jack Bennet

The T.G.I.F. concert held in the Student Center on Friday afternoon developed into an all night show after a large crowd filled the Center for most of the night. The existence of the concert led directly to the dismissal of Student Manager Mark Stoltz who made the decision to keep the show running after the hour originally agreed upon with Center officials.

When the concert finally broke up a 3:00 a.m. all of the audience who had remained helped clean up the entire area. The dismissal of Stoltz came late Saturday afternoon when he reported for work. According to Stoltz, Brother Francis Gorch who is official manager of LaFortune Center demanded his resignation for Stoltz's decision to allow the concert to continue past the previously agreed upon
termination time of 10:30 pm.

Stoltz who ordinarily closes the Student Center at 12:30 am on Friday nights said he made the decision because he felt that it was in the best interest of everyone to keep the concert going.

"For the first time since I've worked here this place was actually being enjoyed by the students," Stoltz said. He pointed out that he had willingly donated his time and services to keep the Center open late and had personally supervised the clean-up operations.

Irish drop Redmen, Dayton next

by Jim Donaldson

The high-flying Falcons of Bowling Green State UniversityA stepped on the floor, and that's a good thing. The Falcons have some small talent for the Irish at the 6:00 minute mark. Davis met with a pair of tallies.

The Irish had some good chances in the period but Galaski made fine saves on shots by Karl Kalmar, Mike Carr and Kevin Hoene, to preserve the Falcons' 3-0 advantage after 40 minutes of play. John Noble almost tied the score for the Falcons as the second period closed, but Bradbury and Williams got loose on a 2-on-1 break. Bradbury hit Williams with a perfect pass and the talented forward faked Todd Schaeffer's insurance and fired the puck past him with 1:16 gone.

The Irish had some good chances in the period but Galaski made fine saves on shots by Karl Kalmar, Mike Carr and Kevin Hoene, to preserve the Falcons' 3-0 advantage after 40 minutes of play. John Noble almost tied the score for the Falcons as the second period closed, but Bradbury and Williams got loose on a 2-on-1 break. Bradbury hit Williams with a perfect pass and the talented forward faked Todd Schaeffer's insurance and fired the puck past him with 1:16 gone.
