Ballot tampering causes SMC re-vote

Alteration of forty August Hall ballots in favor of Eileen Fitzpatrick caused yesterday's Saint Mary's Student Body Presidential election to be declared invalid, according to Bob Kersten and Sue Welte.

According to Seymour and Welte, Ms. Fitzpatrick brought knowledge of the vote-tampering before the election committee and caused chairman John Garcia to disqualify the ballots, thus making them invalid.

Gaal and the election committee is obliged by the SMC Procedural Manual to count all ballots twice within 24 hours of the original election. Last night, the counting stopped when the 40 vote discrepancy was discovered.

According to Election Committee member Lori Sefranek, only 236 votes were actually tabulated, although Gaal told the Observer that all the votes were counted.

"We cannot allow such an obvious tampering incident to go unexamined," said Ms. Seymour, candidate for SSB. "We were asked by the election committee and Eileen to keep this whole thing quiet, but that course of action is clearly not in the best interest of students."

"This new administration," said her running-mate Sue Welte, "can go into office with something like this hanging over its head. We object to the fact that those ballots were not counted, and we want it brought out in the open."

According to Ms. Seymour, none of her representatives at the counting saw the 40 allegedly invalidated ballots. They were shown one ballot at a time and the hall name was not revealed.

An information leak from the Election Committee resulted in a lengthy session of the August Hall office's administators and Trustees. It would be potent when the (continued on page 4)

Editorial

Never, since student power and self-goverment was systematically organized seven years ago, have so many students been so bitterly disillusioned about what student government can do for them and about what they can do for themselves. The massive homecoming week slate of 20RP hopeful Bob Kersten and for UnCandidate the Col has conclusively proven that students at Notre Dame repect what the candidate himself termed so realtiy "the student government oligarchy," which has situated itself in La Fortune for the past three years.

That's why it is so important to elect Paul Dziedzic Student Body President tomorrow. All of Dziedzic's past efforts in student government have been directed towards throwing student government open to the student body. All of his plans for the future point in precisely that direction.

As Ombudsman, Dziedzic and his small staff have handled the complaints of close to a thousand people at Notre Dame and St. Mary's. He has dealt with individuals one-on-one, and he has solved their problems. He has expanded the office's capabilities by a factor of two.

As a candidate for Student Body President, Dziedzic has offered a comprehensive, intellectual plan for opening student government to the students--or more correctly, of bringing student government to the students. By searching through an organized assembly of hall presidents and section leaders, Dziedzic would form new chapters between student government and the students than has ever been formed before.

Paul Dziedzic has the sort of courage which can lead this union. He had enough courage to publicly ask his cabinet chief, John Barkett, to explain why he was organizing Notre Dame support for St. Mary's strike, and enough courage to be so forthright to hell when he couldn't give an adequate answer. It is the courage of conviction, and Paul Dziedzic leading the convictions of the student body will be something with which the Trustees will have their hands full.

This union between students and student government, once formed, would have a potent force in dealing with Administrators and Trustees. It would be potent when the (continued on page 4)

Kersten, Dziedzic slated for runoffs

by T.C. Treasurer

Observer Assistant Editor

Bob Kersten, a joke candidate whose candidacy became more and more serious as the campaign went on, last night polled 1740 votes -31.8 percent of the electorate-to lead the field of nine Notre Dame Student Body Presidential candidates.

The voter turnout of approximately 75.8 percent of the undergraduate student body to the highest turnout in any Student Body Presidential race in the last seven years. Out of a student body of 6400 students, 4650 voted yesterday, the weakest showing came from off-campus, traditionally a light voting area, with only 250 voting.

The 36 percent figure is not nearly enough to give Kersten a first-ballot victory, though. Instead, he will face Ombudsman Paul Dziedzic in a runoff election tomorrow.

Dziedzic collected seven hundred sixty-nine votes, or 15.8 percent of the electorate to out-distance SLC Vice-chairman Floyd Kersten by 183 votes for the second spot and a right to appear on the ballot with Kersten.

Kersten carried all halls save Lyons, Keenan, Badin, and St. Joe in a heavy voting turnout. He scored majorities in Brem-Phillips and Walsh, his home hall.

Student Government Ombudsman, Dziedzic took two halls, Keenan and St. Joe, but did not score a majority in either.

Kersten, SLC Towers representative, collected over 200 votes from the high rise dormitories and ran well in Farley, Holy Cross and Dillon.

Kersten piled up a total of 666 votes or 13.7 percent of the total, while Hall Life Commissioner Bob Higgins garnered 9 percent of the vote with 433 ballots.

That total was nearly matched by Joe Schlosser, off campus junior who came in fifth with 437 votes, for 9 percent. Schlosser came in second off campus, losing it to Bob Kersten.

Higgins ran strongly in Alumni, home of his running-mate Paul Poggi, in Badin, his home hall, and in Zahm and in Morrissey.

In first prize, Bob Kersten, St. Mary's strike, and enough courage to be so forthright to hell when he couldn't give an adequate answer. It is the courage of conviction, and Paul Dziedzic leading the convictions of the student body will be something with which the Trustees will have their hands full.

This union between students and student government, once formed, would have a potent force in dealing with Administrators and Trustees. It would be potent when the (continued on page 4)
CAC plans cancellations to balance overspending

by Joe Powers

The Cultural Arts Commission will cancel the Spring Folk Festival and will attempt to break contracts with Tom Rush, Duke Ellington, and the Chinese Dance Company in a last ditch effort to balance their over-spent budget.

CAC Commissioner Robert Brinkmann also assured in a statement made last night, that "there will be no changes, whatsoever, in plans for the Sophomore Literary Festival."

When Cass Rejent, Student Government Treasurer was asked to estimate how deeply the CAC had overspent its funds, he replied, "I’d rather not talk figures, it might scare people. Let’s just call it a substantial amount."

While Brinkmann stated that he did not have a present figure to give, he expressed hope that the deficit could be whittled down to $1,000 by the end of the year. "However," he admitted, "the CAC will lose more if it can’t get out of the contracts."

Tom Rush is contracted for an April 28 appearance in Stopen Center. He was to have been the feature artist in the now defunct Festival. Duke Ellington is scheduled to appear April 6, also in Stopen. The Chinese Dance Co., as part of the Performing Arts Festival is booked for the end of March. Brinkmann felt the Ellington concert would break even but anticipated a $2,500 loss if the CAC could not escape from the contract with the dance group.

Rejent, a senior business major, cited miscalculation in contract dealings as one of the major reasons behind the CAC’s financial woes. He added, "Brinkmann has unilateral control over all contracts."

Rejent pointed out a bugged incident earlier in the year where Brinkmann allegedly signed a contract with a company that "promised” X artist at a certain time and date and demanded a 50 per cent deposit immediately. The artist cancelled out due to “illness” but the CAC has still not received a refund of the deposit, which Brinkmann estimated to be $4,000. Brinkmann admitted that he had signed such a contract, that he had, in fact, signed two contracts with the company mentioned, neither of which materialized. Brinkmann explained that Neil Young cancelled out because “they said he was sick,” and “We decided to cancel Sea Train when the price jumped $1,000.” The booking firm which contracted the artists still holds the $6,250 deposit.

Phillip J. Facenda, Vice President and general counsel for the University, was contacted Monday by the CAC to arrange for a return of the deposit. He stated that he was “still checking into the matter,” but that it appeared to be nothing more than a “routine business problem.”

Speculation that some of the speakers for the Sophomore Literary Festival would have to be cancelled was squelched at a meeting last week between Brinkmann, Ray Puico, chairman of the festival, and Student Union Director Bill McGrath. Brinkmann explained that this was due to the fact that many professors had synchronized their course reading lists to concur with the authors presented at the festival and felt, "it wouldn’t be right to cut it down."

In relation to the budget, Brinkmann announced the presentation of four additional films this semester in the hope that the money raised would cost substantially into the deficit. Rejent stated that the Student Government would probably underspend its budget by $6,000 this year and this money would probably go to the Cultural Arts Commission. He did not seem to feel that this would balance the budget, however, as he added, “The CAC will have to get out of some of those contracts or we’ll all be nailed to the wall.”

"Hello, Chief? Pocahontas and I just eloped!"

"Delicate" news is so hard to communicate in a letter—and so much more graciously said with a long distance call. Costs so little, too, when you dial direct (about ½ the cost of person-to-person). For example, a direct-dialed call to Niagara Falls after 5:00 p.m. would cost less than $1.00. The tactful way to “break news” is to call. The economical way is to dial the call direct.

Brother Ryan discloses to HPC

New appliance ban proposed

by Don Hopfer

Last night at the Hall President's Council meeting, Brother Kieran Ryan opened the floor to suggestions for alternatives to the appliance ban recently proposed by the University.

The Assistant Vice-President for Business Affairs also explained the rationale behind the ban and the aid of a five page letter to the University's insurance company, Royal Globe, which stated that the use of refrigerators should be discontinued and also a fact sheet from 14M Electric Company.

The letter from the insurance company to Mr. C.S. Reddy, Notre Dame Insurance Officer, stated, "The practice of installing used domestic type refrigerators in dormitory rooms by students should be discontinued. The reasons they cited for this suggestion included breakdown in electrical wiring, thus creating fire situations, lack of adequate ventilation for these facilities in older dorms, and the possibility of leaking gas in an older unit using ammonia as a refrigerant.

The fact sheet showed that such appliances as air conditioners, "domestic type" refrigerators, televisions, toasters and hot plates had an average load exceeding 400 watts, and, in the case of the air conditioner, approached 1800 watts. Ryan considered this to be creating "a dangerous peak load," especially between the hours of 10 p.m. to midnight, when usage increases greatly.

Emphasizing that the proposal has not been implemented but is only under consideration, Bro. Ryan felt that the University had no alternative save for banning certain high wattage appliances for reasons of health and fire safety.

"It has been drafted for consideration only and represents the position I think we more or less have to take," Ryan said.

Rewiring Costs

He added that the rewiring factor was of particular interest. In a letter to John Bartlett from Bro. Ryan dated Feb. 18, 1972, the cost to date of rewiring seven halls was quoted at $272,172. The total in refrigerator fines collected to that date was over 50 thousand dollars.

He said the fines have a twofold purpose, namely, to deter the students from the use of appliances and to help defray the cost of rewiring.

In effect, the statement provided for the prohibition of air conditioners, broilers, rotisseries, skillets, toasters, and hot plates. It further limited the buying of refrigerators in rooms to three cubic feet concerning this, Bro. Ryan said that

HPC Comments

Bro. Ryan stressed the fact that he was "completely open to suggestions" and at the end of his presentation several halls presidents had some prepared as well as comments on the policy.

"Dave Loring of Keenan wondered whether the funds to be allotted by the Trustees could be utilized to defray the cost of rewiring. Bro. Ryan said that there were other priorities which had been put off for a few years which would have to be taken care of first.

Both Joe Markosek of Farley and John Kavirn of Moneynis questioned the validity of making it the responsibility of students presently at the school to pay for depreciation that has been taking place for forty years. Furthermore, they thought that halls which do not need rewiring were being unjustly taxed for the renovation of older halls.

After Bro. Ryan's departure, the HPC considered a proposal to form a committee to investigate possible alternatives to the ban and related fines, but the consensus was that the presidents should get back to their respective halls for opinions first.

Fathar Chambers sets up displaced students rules

by Sue Prendergast

Badin and Walsh residents will move to other halls as per a quota system established by Fr. Thomas Chambers, director of student residence, and an ad hoc committee of faculty members.

The displaced students will hold equal rank with their classmates in other dorms in selecting rooms. "They have no quotas in Ronan and Walsh equals time in any other hall," according to Dave Tobben, secretary of the committee.

More than 250 beds will be available to Badin and Walsh residents, although only 276 are expected to be needed, Tobben said. The extras will be assigned to freshmen.

The committee consulted each hall president in setting the quotas which range from 30 in Flanner and Grace to 10 in Fisher, Holy Cross, Howard, St. Ed's and Sorin.

There will be some flexibility in these figures, but we (office of Student Residences) will try to stay close to them," Tobben said.

In other business, Fr. Chambers told the committee that all lofts and partitions in the rooms will be removed to permit students to "see into the summit at the latest, since they violate regulations and create fire hazards.

The committee agreed to initiate fire drills in the halls. "As far as I know, there is now process for evacuation," Tobben said.

by Jerry Lukas

Defeated SHP candidate Bob Higgins came out with a strong statement of support for run-off candidate Paul Dziedzic last night in post-election activities.

Earlier in the evening, run-off candidate Florkelede urged students to "get out and work like hell for Paul Dziedzic..." Other candidates that could be removed failed to throw their support into the camps of either Dziedzic or primary winner Bob Kersten.

In his statement, Higgins said, "We wholeheartedly encourage everyone to consider the future of Student Government and support the Dziedzic-Sherrod ticket.

Higgins also confirmed the support of coalition ticket mates Jean Tobben and Sue Welte in saying that they fully endorse Dziedzic and Sherrod.

The Hall Life Commissioner noted that Dziedzic "more fully demonstrates the spirit of cooperation we worked for."

Chuck Laken, candidate for Pangborn Hall, failed to support other run-off candidate claiming that he could not be honest with himself if he told people who to vote for. "We've been fighting against enforcements this whole campaign," said he. "In an election like this no one should really tell someone else who to vote for."

Laken expressed his need the student dissatisfaction with Student Government that was mirrored at the Kersten vote. "I think the vote for Bob demonstrates a need for an alternative," he claimed. He claimed that throughout the campaign, his approach was one of an alternative, but noted that Kersten was a "radical alternative."

The Student Senator noted the possibility of a Student Government-in-exile saying that there are many thinking of it if Kersten wins. But Laken asserted that "I still think Bob (Kersten) win."

When Joe Schlosser was reached, he revealed that he was very happy with his showing. He also refused to comment in direct support of one of the run-off candidates.

"We really need to turn Notre Dame over in this election, and we did," Schlosser commented. "We're still carrying energy into Spring and into next year." Schlosser registered his intention to continue more Student Center concerts and "open-air things in the Spring..." They'll all be spontaneous, very open affairs," he said. He also pledged at least one more round to follow in the one produced for his campaign.

Mike Cunningham who campaigned on a social activities platform felt that he could not give an endorsement as of last evening. Cunningham was not particularly pleased with his showing in the election, noting especially his poor showing in Dillon Hall.

He also expressed a desire to aid in the social make-up of the campus for next year. But Cunningham said "Whether or not I get a title, I'll still help next year."

Denny Thomas, a campaigner for the off-campus students, also didn't endorse a candidate, though he said "If Bob Kersten was elected, I would not regard it as any kind of tragedy..."

Thomas noted that when you've got 38 votes in an election, "You've gotta be philosophical about the whole thing." And he further conceded that "I don't think anyone will pay too much attention to me, but I imagine most of my supporters will go with Kersten."

Thomas avoided declaring a definitive endorsement of Kersten, though.

Candidate Gary Caruso could not be contacted late in the evening either for statement or endorsement.

SMC girls comment on merger: tell of disappointment, anger

by John Cominsky

Editor's note—Mr. Cominsky researched this story with St. Mary's students on Tuesday afternoon, following the announcement of the Notre Dame-St. Mary's merger negotiation cancellation.

Final cancellation of merger negotiations will force St. Mary's students to make serious decisions concerning their academic futures. The consensus of student opinion seems to be that St. Mary's has committed institutional suicide, and that those students who entered SMC because of the promised merger no longer have a stake in the college's future.

In speaking to students yesterday, they, especially sophomores, are under extreme pressure to decide immediately whether to stay at St. Mary's, attempt to transfer to Notre Dame, or to leave the two institutions completely. The nature of application deadlines is such that many of these decisions will be hasty, and many others will be resolved through inaction. Those unable to transfer out will feel imprisoned by circumstance, and the resultant apathy will kill community at St. Mary's, according to some SMC students.

No Merger Regretful

Many students, with a genuine love for the friends they have made here, and the institutions themselves, regret the decision not to merge, and see no future for a St. Mary's separate from Notre Dame. They believe that Notre Dame's future is limited to an alternative for Notre Dame's cast-offs, and an aura of second-class citizenship would arise.

Basic Merger Oriented

Since St. Mary's appeal to its present students seemed to be basically merger oriented, it would also seem that whatever appeal SMC had previously no longer exists, or is overshadowed by present mistrust. The need for a Catholic women's college may no longer exist, or may call for an institution radically different than those now in existence. St. Mary's obviously cannot remain a sister school, on an equal basis with a co-ed Notre Dame. Tenancy and rivalry will replace the present community and mutual interest.

Jazz Festival announces schedules and judges

Jazz-rock percussionist Arne Domnerus, who played with Frank Zappa's "Mothers of Invention" has joined the list of distinguished judges participating in the 14th annual Collegiate Jazz Festival at the University of Notre Dame March 10-11.

Other nationally famous personalities on the panel include flutist Hubert Laws, winner of the 1972 Down Beat poll by Down Beat as best jazz artist; Dan Morgenstern, editor of Down Beat magazine; James Aebischer, reed player; and Malcolm X College's nationally famous Jazz Festival announces schedules and judges, will be bands from Arizona State, Massachusetts Institute of Technology, University of Illinois, Ohio State and Michigan, Southern University of Baton Rouge, Shenandoah Conservatory of Virginia, Malcolm X College of Chicago, and others.

Festival judges will participate in a symposium, "The Current State of Jazz," at 2 p.m. March 9 in Notre Dame's Center for Continuing Education. This session and a talk by Morganstern on "Jazz History" at 5 p.m. March 10 in the Memorial Library Auditorium are open to the public without charge.

Admission to evening sessions March 10 and 11 is $5 each night. The afternoon session March 11 is $2, or one can purchase admission to all sessions for $5. There is a 10 cent admission for the high school competition March 11.
Basketball season at the ACC crown for Notre Dame as the Fighting Irish come to a merciful close tonight at eight o'clock when Notre Dame plays host to the Villanova Wildcats.

The unrelenting Notre Dame schedule alone pits the Irish against four of the top five teams in the nation, and at least one of the four is expected to win the final NCAA tournament. The Irish have a four game losing streak and their total woes record of 6-18 will be the opposite of the team they will face tonight. With Dayton awating the Irish Saturday after last weekend's win over Villanova match-up, nobody is betting against a twentysomething year old. This year has been a long and trying experience and experience is just another behind the scenes session. Digger Phelps can be blamed for not having a team that can make it to the end, that is about to show up his own team. The past year when help will arrive in the persons of a recovered John Shumate and the inexperienced backcourt pair of Gary Brokaw and Dwight Clay. I feel they can adjust their rules to the needs of the modern college game. The Irish have a four game losing streak and their total woes record of 6-18 will be the opposite of the team they will face tonight. With Dayton awating the Irish Saturday after last weekend's win over Villanova match-up, nobody is betting against a twentysomething year old. This year has been a long and trying experience and experience is just another behind the scenes session. Digger Phelps can be blamed for not having a team that can make it to the end, that is about to show up his own team. The past year when help will arrive in the persons of a recovered John Shumate and the inexperienced backcourt pair of Gary Brokaw and Dwight Clay.
A definite possibility for a freshman class lawsuit against St. Mary's College exists, according to attorney Tom Singer. SMC student government secretary Nancy Christopher revealed yesterday that Singer, a lawyer handling a similar summer case, had discovered suit possibilities on two grounds: "breach of contract" and "negligent misrepresentation."

Individual sophomores and juniors will also have grounds for suit if they feel they are receiving an inferior education, or believe they were deceived into coming to SMC with the impractically high residence halls and in a present offices transferred elsewhere.

In a statement released Tuesday, Fr. Shills noted the request of the Board of Trustees for "a student survey...taken to include the physical facilities that would enhance social life in the residence halls and in a reconditioned LaFortune Student Center that could operate around the clock, possibly with all its present offices transferred elsewhere."

Fr. Shills continued, "We are asking all interested students to draft and submit to the Office of the Assistant Vice-President for Student Affairs plans in incorporating ideas for such renovations. Items to be considered in the plans include the current location of the administrative and student offices in LaFortune, potential student usage, and cost."

Fr. Shills said that some of the offices may be moved, but since this was not certain, plans could be submitted with or without the offices. Proposals should be submitted to the Office of the Assistant Vice-President for Student Affairs by April 21. The proposals will be judged by a "qualified panel," and fifty dollars will be awarded to the author of the best plan, with 25 dollars going to the runnerup.

"We intend to take all the results of these surveys, and in cooperation with SMC officials, prepare an improvement plan for the residence halls and in a present offices transferred elsewhere for the LaFortune Student Center."

In a statement released to The Observer, President for Student Affairs SMC freshznan Shilts said that some of the student survey...taken to prove right. But as there is a courageous, responsible men like Paul Dziedzic is the man to form and run this University."

Because we believe that the students must become part of student government, and because we believe that Paul Dziedzic is the man to form and lead that union, the Observer editorial board unanimously and firmly endorses Paul Dziedzic for Student Body President.

The Observer

Editorial (continued from page 1)

The Observer's attempt to crack down next year on Panathlets, as the two women's dorms will surely move them to do. So it would be poten in making innroads in the fight to have good dorms next year.

It would be poten in changing the current Academic Calendar, which presently has us planned to come back in the second week of August.

It would be poten in preventing the administration from enforcing the ludicrous and insulting refrigerator fines that we are trying to levy at us. Brother Kiernan Ryan says the University is "considering" firing students $40.00 for cubic ft. refrigerators, and $10.00 for televisions.

We believe a union between students and student government led by Paul Dziedzic would be poten in removing that consideration from the Administration's mind.

Many students believe that it is impossible to deal in any way with the Trustees, and the day the student body gives up those students, will be proved right. But as long as there is fight in the student body, and as long as there are intelligent, courageous, responsible men like Paul Dziedzic to lead that fight, the Trustees will not have carte blanche to run this University.

Because we believe that the students must become part of student government, and because we believe that Paul Dziedzic is the man to form and lead that union, the Observer editorial board unanimously and firmly endorses Paul Dziedzic for Student Body President.

To renovate the Student Center

LaFortune contest open to all

University Vice-President for Student Affairs Fr. James Shills and Student Government Research and Development Commissioner Ed Ellis announced yesterday a contest with a fifty-dollar first prize for students interested in renovating the LaFortune Student Center.

In a release statement released Tuesday, Fr. Shills noted the request of the Board of Trustees for "a student survey...taken to include the physical facilities that would enhance social life in the residence halls and in a reconditioned LaFortune Student Center that could operate around the clock, possibly with all its present offices transferred elsewhere."

Fr. Shills continued, "We are asking all interested students to draft and submit to the Office of the Assistant Vice-President for Student Affairs plans in incorporating ideas for such renovations. Items to be considered in the plans include the current location of the administrative and student offices in LaFortune, potential student usage, and cost."

Fr. Shills said that some of the offices may be moved, but since this was not certain, plans could be submitted with or without the offices.

Proposals should be submitted to the Office of the Assistant Vice-President for Student Affairs by April 21. The proposals will be judged by a "qualified panel," and fifty dollars will be awarded to the author of the best plan, with 25 dollars going to the runnerup.

"We intend to take all the results of these surveys, and in cooperation with SMC officials, prepare an improvement plan for the residence halls and in a present offices transferred elsewhere for the LaFortune Student Center."

In a statement released to The Observer, President for Student Affairs SMC freshznan Shilts said that some of the student survey...taken to prove right. But as there is a courageous, responsible men like Paul Dziedzic is the man to form and run this University."
