Commissioners to plan campus-wide election

by Tom McKenney
Staff Reporter

In accordance with Tuesday night's Judicial Board decision, the Student Government Board is preparing to hold an election to select new student government officials. The decision was made during the Board's regular meeting held on Tuesday night. The Board has determined that the decision to hold an election is necessary to ensure that the student body has a say in the selection of their representatives. The election is expected to be held in the near future. Details about the election process, including the number of candidates and the date of the election, will be announced in the near future.
Student lobby for majority age

by Terry Kenee Staff Reporter

Student Body Vice-President Dennis (H-Man) Etienne and former Student Body Treasurer Mike Marget have met with Indiana college student leaders to form a student lobby.

The purpose of the student lobby, according to Etienne, is to be a political arm of and college students in Indiana.

"The lobby will concern itself with matters of consequence to college-age students. The immediate aim of the lobby is to lower the drinking age to 18," Etienne explained.

"With all the different people down there in Indianapolis the legislators probably got fed up with all the lobbying for the same issue by an essentially homogeneous group.

"Etienne believes that, under the new student lobby, efforts to lower the drinking age will meet with success due to the coordination of lobbying efforts.

With an association of this type we will have the resources to do the

The lobbying arm, comprising two representatives from each member college, will meet twice each year to determine the issues and methods of lobbying. And registered, professional lobbyists may be hired during the months the legislature is in session.

In addition to the bill to lower the drinking age, the lobby will do a good job of the Equal Rights Amendment to the Constitution, the landmark tenant bill, and the proposed state aid to non-public colleges.

The student lobby is still in the provisional stages and has yet to establish a permanent structure.

Dennis (H-Man) Etienne is Secretary of the current temporary executive board of the lobby.

George A. Hirsch, the founding publisher and president of New York magazine, will launch a new national magazine this fall. He has been organizing the bi-weekly newsmagazine since he resigned from New York a year and half ago. The magazine, entitled New Times, "will cover news in a new uniquely relevant way," according to Hirsch. "We intend to publish a news magazine that assumes a knowledge of news events, that goes behind the scenes for new insights and untold stories, that answers questions raised by the view, adding that trying of bitterness have been assuaged a seniority services to include counseling. One Planned Parenthood and its Services Bureau. regarding child abuse. In a similar the Runaway Project, and Youth the program as having its share of summer can contact Rick Figiola at 283-3058, or the Hotline offices at 301-272-7656, or the Hotline Hotline's status availability of Dehner ignored this view and immediately future, with no fresh- the long-range problems, but in the situation as it has turned out. Singleton called the situation "not pretty well but I doubt if there will interfer with their last year." Passatiore echoed this, stating "I think all the seniors will get along well," and have plans of our own for hall and not have time to sort through the complexities of life and events," Hirsch stated. said the University thought about Lyons acted only in accordance with their own con- covered, with the full student body going publishing commitment to cover a particular kind of news, or even by any traditional definition of what news is. On our bi-weekly schedule, we will have the capacity to present stories within a few days of assigning the, but we will also have time to sort through the sensibility picks." Dehner ignored this view and "Our feelings..." Among the ocntributing editors that Lyons residents who have to move next year wouldn't have a year. said Russ Dodge, Bend community, plus anybody undermining this view, adding that "first they started out on the wrong foot by having a Lyons class lottery and prejudging the winners. The prospects of bitterness have been assuaged a bit, but the threat of being cut has pulled the same student next year and not give Lyons residents their seniority picks." said "the University thought about having the station to operate the fall. Circle Unwound

Editor: In your recent editorial entitled "The Circle Game," I became very disgusted with some of the statements that you printed. The first of these is your statement that the vote of the hall councils on the constitution was in compliance with the student vote for Jim Clarke (30 percent) in the recent SBP election. This is not correct since eleven halls voted for the constitution and only eight against. And, in fact, there is a good chance that the constitution was misinterpreted or to the point that the eight halls voting no, since six of the eight presidents involved are new to the HPC and unfamiliar with the HPC's workings and potential.

Secondly, you stated that after all the constitutional work, the people, (politicists, as you term them) have finally realized that the students "...don't care how the government is organized, but just that there is one." But, in fact, these people have been bought to the point that is has been possible to pass them up long ago. Finally, last year's election, Chris and I had decided to run for the presidency, and the winning candidates were happy to have me nominated by the eligible students.

Thirdly, you made it sound as if the people (politicists again) involved in the constitution work existed solely for their own personal satisfaction. I, for one, am well into the "senior" side and would have been organized by this constitutional madness, but I felt obligated to the students in my hall to help the HPC where I believed I could. Therefore, I believe that the people involved in the HPC have not been acting for themselves, but in the best interest of the students as a whole.

I have checked with many of the people involved in the constitution that this is the case, and I found that they were very happy to have the opportunity to be involved in the constitution work.

Sincerely,

[Signature]

Man Sitting in the Outside World

Editor: Now that my role in the so-called constitutional game is over, I would like to explain personal motives for my actions during the last five months. My hope is that the other Stanford President-elects will be able to take my role over and feel comfortable in it. The people who have not been involved in the process may not understand what I am talking about, but they will be able to understand it if they take the time to read this editorial.

My name is Michael Desposito and I was the President-elect of Stanford for the academic year 1971-72. I ran for President of Stanford because I believed that I could make a difference in the way that the government of Stanford was run. I believed that the government was organized, but just too many people were involved in it. I wanted to make a change, and I believed that I could do it. I was not disappointed, and I believe that I made a difference.

I was able to make a difference because I was able to convince the people that I was running for President of Stanford that I was the right person for the job. I was able to convince them that I was the one who could make a difference, and I was able to convince them that I was the one who could make a change.

I believe that I made a difference because I was able to convince the people that I was running for President of Stanford that I was the right person for the job. I was able to convince them that I was the one who could make a difference, and I was able to convince them that I was the one who could make a change.

I believe that I made a difference because I was able to convince the people that I was running for President of Stanford that I was the right person for the job. I was able to convince them that I was the one who could make a difference, and I was able to convince them that I was the one who could make a change.

I believe that I made a difference because I was able to convince the people that I was running for President of Stanford that I was the right person for the job. I was able to convince them that I was the one who could make a difference, and I was able to convince them that I was the one who could make a change.

There are times when I think I could have made it as a street preacher in Greenwich. There are days when I think I could have been a faith healer in the churches, nipped by serpents, saved by grace. There are moods to the mind, there are murmurs of redemption at the pimps and harlots. There are nights wehn I were a rogue, l might collect my fantasies lifted over and help me with my speech of redemption at the pimps and harlots. If I were a moonbeam, I might have the courage to mount a street, sipping a creame de menthe. There are nights when I feel I am lessly set his backside on the ground and preached by the scruff of the neck. I was not my eye that had offended him, I was sure of that; it was my collar. My impulse was to go after him, pick him up, and place him on an 18-hole tournament against Nixon, I imagine I had been invited to the White House; but to that moment, then says, "What do you do?" "I'm a book writer." - meaning, of course, that he writes opines for the Bible. One wonders how Cardinal Newman would have handled the situation, or Paul of Tarsum dealing with the Second Corinthians. One can imagine the situation new: old Paul, not without his burdened nerves, in some cheap dive in Asia Minor. Some boony young girl beats over and asks, "What do you do?" "I'm a book writer," says Paul evanecly. "I am a book writer." - meaning, of course, that he writes opines for the Bible. The dancing girl. The booby dancing girl reflects for a moment, then says, "Could you help me make a selection from my head of-the-month club?" "I could never happen that way. St. Paul and Cardinal Newman never wandered into bars for a nightclub. One cannot imagine Newman talking to a booby dancing girl. Paul might have talked to her; but she would have told him to be silent in the churches, and he would have sobered her up on Jesus Crucified. The lady with the diction problems heard nothing of Jesus from me. Instead, I ended by playing the "Apostle's Wars" for her on the jukebox. The song was her choice, not mine. As far as I was concerned, we had nothing to celebrate, certainly not an anniversary. But I think if I had been apostolic, we should have had something religious to celebrate, and that is the sadness of the story.

epicurean daydreams

I do not really think, despite the epicurean daydreams induced by April, that I am one of the Christian heroes. I know I am not. If I were, young man and woman, I would become boozy with zeal, like a prophet that was fasted too long in the desert. In all your trials and triumphs, I would remind you of God's love. My words would constantly invite you into the shadow of the Cross which stretches between a dark earth and a black heaven, and I would show you the face of the Lord. Then you would understand your true worth, which is totally independent of grades, or med school acceptances, or successes in the dating game, or the triumphs of Cleopatra over acne. As it is, I know what you need, but I never said... remember: Darby and I never said we didn't love you.

A Saint Mary's Athletic Program? It may be hard to believe, but this spring will bring the debut of our new team, while two established ones continue. The St. Mary's fencing team hosted a winning 3-2 record this year and is looking forward to next year, both the tennis and golf games warming up for their first spring of competition.

tennis team

The tennis team was established last October and has played only two meets so far, losing to Kalamazoo College but besting the Norte Dame women's team. The 12 number team has been practicing at the Muirhead Park Club while awaiting spring and the completion of the resurrection of the courts near McCandless Hall. The tennis team will allow team to host other women's teams from the Michigan Alliance and Kalamazoo, Valparazo College and Michigan State. If the recommendation of the Planning Committee for Campus Life and Recreation is accepted, the team will get an indoor facility including a gym, swimmingpool and recreational center. The new facilities will enable the college to compete in intercollegiate competitions in all sports, and will also give St. Mary's students an opportunity to play handball, frisbee, creative dance, and free movement. The facilities will help expand the St. Mary's Physical Education program. Golf team

The Saint Mary's golf team will make its debut on April 28, when it travels to Purdue for an 18-hole tournament against Purdue and other Indiana schools. Organized this year by Nick Frein, the team is under the direction of Sister Kathy Reichert and Sr. Stever. Kathy Reichert instructing all of the golfers and placing a definite emphasis on having fun.

With the addition of emergency funds for equipment, gas, and movement, the team will be able to compete in intercollegiate competitions in basketball, volleyball, tennis, and placing a definite emphasis on having fun. The facilities will help expand the St. Mary's Physical Education program.

The team was organized to provide an opportunity for intercollegiate competition, but it is also open to beginning individuals. No experience is necessary.

The team consists of four golfers and golfing equipment. The team will be able to compete in intercollegiate competitions in basketball, volleyball, tennis, and placing a definite emphasis on having fun. The facilities will help expand the St. Mary's Physical Education program.

$300 prize offered to dance marathon winners

by Tom Mirabile

A $300 first prize has been offered by student government to the couple who dances the longest time and the biggest donation in the first annual Multiple Sclerosis Dance Marathon.

Jim Roe, chairman of the event, said the prize is being offered to misinform us as to the nature of this dance marathon. It is not 48 hours of dancing. Instead, each couple gets a half-hour break every two hours. Couples are allowed four hours of sleep both nights. Once钱 he feel the way the marathon is set up most of the couples will be able to dance the entire time.

When referring to the $300 prize money Roe stressed the fact that each couple should find out how this money is to be divided if they are being sponsored by a group or individual. Roe said, "This is strictly an event sponsored by student government and is in no way connected with An Tostal." The First Annual An Tostal Committee.

Steve Jesteinkick, chairman of the An Tostal Committee, echoed Roe's sentiment that the dance marathon and An Tostal are very definitely two separate activities. Jesteinkick and Roe both felt that since these activities were being held for different reasons they should not be included in the same program. Jesteinkick said, "An Tostal is traditionally a weekend in spring that is set aside so that students can enjoy themselves. The marathon on the other hand, conflicts with this in that it is for a very worthy cause and not for the enjoyment of the students."

Roe added that the response to the marathon is startling. "A lot of people in South Bend are interested in becoming contestants and as of right now we have five couple deficits, which means a total of close to $1000 in pledges. We encourage any hall, club, or university organization to participate in this contest," Roe said. The details of the Marathon are April 27, 28 in the LaFortune Ballroom. On Saturday night Scum of the Earth will be playing. Anyone interested can register in the student government offices or call 721-6511. The registration fee is $10.

Pit to be dug for An Tostal's volley-ball tourney in the mud

by Bob Quakenbush

Volleyball-in the mud?

"Yes indeed," says Mike Hansen of the An Tostal Committee. "Sunny Saturday's volleyball championship will be played on the slipperiest, slimiest, grittiest pit of mud ever made to be found on any campus. Absolutely no%100 court shall escape unmarred."

"Sunny Saturday" is April's last, and, as part of Notre Dame's annual An Tostal celebration, features a multitude of events. The First Annual Volleyball-in-the-Mud Tournament final is one which Hansen promises will be a favorite.

Yesterday, Hansen, an Alumni Hall Senior, released the rules for team registration, which follow:

1. Each team can be made up of any number of members.
2. Students from each year may all male, all female, or mixed.
3. Students and faculty from both ND and SMC are eligible to participate.
4. Each team must submit a nickname.
5. To register or acquire additional information, call 1179.

Hansen said the finalists will be determined through a single elimination tournament. He qualified single-elimination as a "losing two of three games to fifteen points against a thirty minute opposition" and added that these tournament rules would be adapted for use.

To obtain optimum playing conditions, Hansen crossed out many of the samples from about the campus, which he used. According to Hansen, "We tested for such qualities as the mud's adherence to skin and clothing, its caking ability, and, of course, its slipperiness. Our experimentation revealed the soil of the An Tostal field itself, midway between Notre Dame and St. Mary's to be most suitable.

A pit, will soon be constructed on the An Tostal field. The pit will range in depth from six to twelve inches and will host the finalists. Hansen promises many students as possible to enter the tournament noting that the three who had registered already. Actually, he said, registration begins as soon as six people can decide upon a name and reach their telephone.

An advance scouting report, according to an informed source claimed one of the three above teams, "the Omen-Are-Worms," look tough on paper. "After all," noted the source, "is mud in their kind of environment. Worms live in mud."

The team is managed by the Gustafson marvel from Breen-Phillips, "Mead Mike" Becker. Hansen promised "some interesting awards, if not world-wide recognition" for the eventual champions.

Debaters place third

Sixty of the best novice debate teams in the Midwest competed for national ranking this past weekend at the Stale-Maine-Western National Invitational in Louisville, Kentucky.

Sophomore Jeff Raffel and Dave Hayes both in their first year in debate, advanced to third in the country only to be stopped by the Southern Illinois University team.

In the preliminary rounds, the Irish gained a 5-1 record, defeating teams from Catholic University, Shepherd College, Emory, Wooster College and Abilene Christian College. The Irish lost to the Irish in four out of six rounds, while the College of Willam and Mary meet the same fate in quarterfinals. The Irish were able to come out to take Waked at the semi-final found in a split decision. The third place round was won by the University of Michigan, Indiana and University of Pennsylvania.

The weekend was also a good one for Notre Dame's freshman debaters. Bill Biltstrom and Bill Bean are the first two places in debate at the Rock Valley College Debate and Forensic Tournament in Rockford, Illinois.

The Irish debaters won the debate in the preliminary rounds, Keeney and Borkowski defeated Tulane in the quarterfinals. Keeney and Borkowski defeated Tulane in the championship round in the debate in the preliminary rounds, and were able to win the debate in the semi-final.

The Irish had a 4-2 record in preliminary rounds, Keeney and Borkowski defeated Tulane in the championship round.

The Irish won the debate in the semi-final round and were able to win the debate in the final round.

Singer, Claudia, who will accompany her husband, the tour, is uncertain whether she will perform with Taylor, Donovan said.

Concert tix still available

"There are still good seats available," said the Monday concert appearance of Jim Roe, chairman of the concert committee. "Tickets are available at the Student Ticket Office and the XCT Office and will be available through showtime. Singer Carly Simon, Taylor's wife, will accompany her husband on the tour, even though it is uncertain whether she will perform with Taylor, Donovan said.

SMC Danforth winners

Miss Mary Patricia Quinn, a senior at Saint Mary's College, Notre Dame, Indiana, won a $250 Danforth Fellowship for advanced study.

Quinn was invited to apply her fellowship to further art study. She plans to take studio art courses and eventually, to teach art on the college level.

More than 1,000 college seniors and recent graduates from colleges and universities throughout the United States competed for the 100 fellowships awarded this year.

The Danforth Fellows are expected to contribute outstanding college graduates who show promise of distinguishing in college teaching to continue their education.

Selection of Danforth Fellows is made annually by a national panel of educators, primarily on the basis of the evident intellectual power of the candidate and his or her commitment to humane values and their place in higher education.

Over 1,000 Danforth Fellows have been awarded since the program was established in 1932, and more than 1,200 of these men and women have finished Ph.D. degrees and are now teaching in colleges and universities.

What show to white Sox trip re-scheduled

April 5-6, Sox vs. Kansas City.

Buses will leave Circle at 9:30 a.m. Sunday.

No need to reconfirm. More seats available too!!

Sign up 12-5 Thurs. & Fri. at the ticket office in LaFortune or call 721-6511.

Leo Reen 418 Morrissey 3651.
Ford three specific groups were studied, 1970-1971 Pinto owners, 1970-1971 subcompact car owners other than Pinto owners, and an effective control group of non-Pinto owners. Each group examined the purchase process of the Pinto, and its supplementary research. The test drive project was designed to find out from salesmen that we could consider to be important in the sale of subcompacts. Factors such as appeal, effectiveness, and which group of consumers all of these were seen by the salesmen were developed.

Test Drive. The purpose of this project was to select that behavior mode which is the prime producer of the purchase process. The results had the use of a Pinto Runabout since November had not carried to out this project.

Mechanics. The intent of this report was to question mechanics and measure their feelings toward the quality aspects of different classes of automobiles.

1972 Pinto Owners. This project was designed to find out from questions about Pinto owners and their purchase. Pinto has been used from day to day.

In the past three years, Ford Motor Company's along with YouthMark Inc. has sponsored a marketing plan. Two years ago, when the project was first held, Notre Dame won one of the marketing research classes were volunteer services for the University of Notre Dame. Most of the calls received by the Hotline works very closely with the marketing team feels the applicant is ready to team.

The project at Notre Dame this year was the art of listening at the Hotline, explained volunteer. "This situation, but gain their experience listening at the training sessions as experienced volunteer. If the training can be given on the team feels the applicant is ready to is serious, a Drug Abuse Rescue more counseling is needed than is required to the Hotline Director, the training.

Culverhouse picks Irish golf program

There aren’t many things Jim Culverhouse hasn’t accomplished in his lifetime. But there is one goal he has yet to achieve. "For as long as I can remember the goal has been to own a baseball team," he says. "I’ve really wanted to come true," says the Merrillville, Ind. native. "Now that I’ve always thought about founding my own franchise, I’ve named the team as the Merrillville Marlins. The name came from a zany old baseball team that played in Merrillville in the 1940s."

If his list of honors to date has any bearing, Culverhouse figures he’s got a few more decisions to make. "You can’t afford to get caught up in decision making," he said. "We’ve been going through quite a few new things," he added. "But Parseghian’s plans for his defensive team sometimes fall flat in practice. And we have to work on a lot of things." Culverhouse’s plans involve a lot of learning, a lot of familiarization, and a lot of changes.

"We are going to be quicker next season," he said. "Instead of being big, we’re going to be quick and faster. When a team tries to run around end on us next year, there will be more to one or two guys out there than they should be. They can pass the ball."

"No team is going to beat us on quickness alone this season," he added.

Along with learning the new formations and alignments, Townsend is also watching as the Irish try coaches to replace the four missing members of our NCAA team. They are saying, according to Townsend, are already feeling at home with the number-one defensive unit for the Irish.

"I think the new guys are working out fine," he said. "(Mike) Fanning is good at tackle (although the race for that slot will be closed in September, when Steve Niehaus returns to action),"

Bob Roemer

Captain’s Corner

Come on, fans!

It is difficult to resist thinking about how baseball can be transformed from a sport performed either inside or under the worst inclement weather. Notre Dame baseball has participated in the "national pastime," and it is at times like these last few days when a baseball player considers changing sports. The baseball team has looked toward possible replacements for the 1971 Big Ten No. 1 and the Lake Porter Junior Tournament. It will be the beginning of a very successful campaign, and it is American Legion and Senior 12-12-13, 1973.
