Sports changes also  
Administration restructured

Restructuring in the Administration and in the Athletic department has resulted in a number of changes in key University positions. In addition, several positions left open by retiring personnel have been filled.

In a move to strengthen the impact of its programs serving the Catholic ministry, the University has announced the appointment of Msgr. John J. Edgar, director of its Center for Pastoral and Social Ministry, as special assistant to the president.

Edgar will continue to supervise the activities of his own center, which now becomes a single agency of coordination for four other programs: the Murphy Center for Liturgical Research, the Notre Dame Institute for Clergy Ministry, as special assistant to the president.

Edgar is one of four administrators recently appointed to key positions. Other newly appointed administrators include Brian C. Regan, new assistant to the president for university affairs; Thomas J. Mason, director for university development; and Robert C. O'Dwyer, executive administrator of the Office of Undergraduate Enrollment.

As special assistant to Fr. Theodore Hesburgh, University president, Edgar will represent him in relationships with outside religious organizations. He will also supervise student affairs.

Church-related groups which operate on the Notre Dame campus, and encourage fund-raising to sustain all collaborative efforts between the Church and the University.

### Accounting firm establishes fund

A faculty development fund of a quarter million dollars has been established for members of the accountancy department in the University of Notre Dame's College of Business Administration by Arthur Anderson & Co., international firm of certified public accountants headquartered in Chicago.

Designed to underwrite research aimed at enhancing the effectiveness of the accountancy faculty members, including curriculum development, the gift will be paid in installments of $25,000 annually.

The Anderson firm presently employs more than 150 Notre Dame graduates, including 11 partners and 22 managers.

Notre Dame's accountancy department, with an enrollment of 437 students during the last year, was second in size to the University's pre-professional program in science where 488 students were registered. The department last year placed almost 100 graduates with national accounting firms and a similar number in industry, government, teaching or in graduate programs in business administration or law school. More than 90 percent of the faculty in the department are certified public accountants and 70 percent hold doctorates in their field.

The department has achieved national recognition for successful completion of the CPA examination by students who specialize in management controls, public, government and international accountancy and management information systems.

The department currently provides services courses for a graduate program in business administration and is presently considering the initiation of a masters program in taxation.

### WELCOME TO NOTRE DAME & ST. MARY'S

Freshman year in full of adjustments, such as learning to share a room with one or more students. Sometimes during that year the question "How did I get this roommate?" will arise.

Dr. Carmichael, Trustee, dies at 56

Dr. Oliver C. Carmichael, Jr., trustee of the University of Notre Dame and Chairman of the Board of First Bank of South Bend, died Aug. 3. He was 56.

Carmichael apparently suffered a heart attack while playing tennis on a private court behind his home. Carmichael received his J.D. degree from Duke University Law School, was Dean of Students at Vanderbilt University, president of Converse College at Spartanburg, South Carolina, trustee of the Indiana University of South Bend, and treasurer or the Republican National Committee. He also served as a member of the Advisory Committee on Trust in Lending of the Federal Reserve Board.

University President Fr. Theodore Hesburgh commented, "Mike Carmichael's life was enmeshed with higher education. He came to provide him with sexual favors."

Dr. Carmichael on a family of educators, followed his father's footsteps as a university president, and when his career shifted to the field of finance, his interest in higher education did not slacken," Hesburgh noted. "His contributions to higher education, both independent and state, will have a continuing impact down through the years, and he bequeaths to our students, an ideal that finds no more fitting memorial."

Dr. Carmichael, 56, served on a number of committees including the Administration Committee of the Democratic Congressional Campaign Committee.

Rep. Hayes may resign

WASHINGTON (AP) — Rep. Wayne L. Hayes, whose "personal relationship" with Elizabeth Ray sparked a Capitol Hill sex scandal, is resigning from Congress effective Sept. 8, reliable sources said yesterday.

The House Ethics Committee went into closed session late in the day and there was some speculation it would vote to terminate its parlour-sex investigation of the Ohio Democrat if he is no longer a congressman.

Hayes' resignation was submitted in a letter to House Speaker Carl Albert and presumably also to the House Ethics Committee, one source said.

Hays' press secretary, Carol Clawson, said his resignation from Congress is being considered "but no firm decision has been made."

His resignation would not affect Justice Department and federal grand jury investigations of the charges.

The Ethics Committee voted Monday to begin hearings Sept. 16 despite a plea from Hayes' aides — relayed through Speaker Carl Albert — that he is too mentally depressed to defend himself.

The investigation focuses on the accusation by Elizabeth Ray, 13-year-old platinum blond, that Hayes kept her on the House Administration Committee payroll to provide him with sexual favors. Hayes was the former chairman of the committee.

Hayes immediately asked for the House Ethics Committee investigation, which he said he would exonerate him.

Hayes admitted having a "personal relationship" with Miss Ray. In insisting she performed committee work to earn her $14,000 a year salary.

Hayes, Hayes said in an interview before he dropped his re-election three weeks ago, was three weeks ago, one reason was that "I don't want to give that woman a chance to go on the witness box and deliver a story."

The payroll-sex charge forced Hayes earlier to resign as chairman of the Administration Committee and of the Democratic Congressional Campaign Committee.

The processes at Notre Dame and Chairman of the Board of First Bank and Trust and Associates First Capitol Corporation, died August 3. He was 56.

Clawson, said his resignation from Congress is being considered "but no firm decision has been made."

His resignation would not affect Justice Department and federal grand jury investigations of the charges.

Key changes made in ND athletic department

continued from page 1

innovative instructional methods and techniques in teaching some foreign languages. Dr. V. F. O'Brien, who was appointed business manager at Notre Dame last year, was director of personnel at the University of Wisconsin at Madison and at the University of Notre Dame. He replaces Joseph F. O'Brien, who was appointed business manager of athletics at the University of Notre Dame for over two decades, to the position of associate director of athletics.

Dr. John J. Stephens, assistant director of athletics since 1968, has been appointed director of athletics.

The new designation for Col. Stephens and assistant athletic director status for both our athletic business manager and our director of sports information more clearly reflect the importance of their administrative functions," Joyce said.

O'Brien, personnel director at Notre Dame for over two decades, succeeds retired business manager of athletics Robert Cahill. Stephens joined the athletic department following his retirement from the Army and after serving as professor of military science and commanding officer of the Army ROTC unit at Notre Dame.

He has a master's degree in guidance and counseling from Notre Dame and a B.S. degree from Iowa University.

Dr. Robert Schuler, director of the Radiation Research Laboratories at Carnegie-Mellon University, has assumed direction of the Notre Dame Radiation Laboratory. In a consolidation of the Carnegie-Mellon and Notre Dame research efforts in radiation chemistry, Schuler has been joined by another Carnegie-Mellon research scientist, Dr. Richard Fessenden, who will also serve as a professor of chemistry.

Schuler succeeds Dr. John Maggs, who resigned to return to teaching and to his research in theoretical radiation chemistry. Dr. David C. Lege, program director for political science for the National Science Foundation (NSF), has been appointed director of Notre Dame's Center for the Study of Man in Contemporary Society.

Longo, whose doctorate is in political science from Indiana University, managed survey research at the University of Missouri and at the State University of New York at Buffalo before assuming the chairmanship of the Department of Political Science at the University of Illinois Chicago Circle campus in 1972. He has been on leave from that position while working with NSF.

Mr. Martin Raudt has been appointed administrator of the Notre Dame Student Infirmary, succeeding Sr. Miriam Doleo, who will join the nursing staff of the convent at St. Mary's College.

Raudt comes to Notre Dame from the Mount Carmel Medical Center, Columbus, Ohio, where she served during the last year as administrative coordinator of allied education.

Class trip

Junior class trip than Sunday, September 5.

Junior Parents Weekend is scheduled for February 25, 26, and 27. Any junior interested in chairing this committee is asked to please call 7308 or 1326. An officer of the class will contact those interested to arrange for an interview.

Flynn also reminded all juniors who applied for a job last spring through the Employment Placement Program, to contact him or Mary Lou Mulvihill.
Mondale schedules campaign speech at ND

Arrange to vote now!

by Kevin M. Walsh
Staff Reporter

Notre Dame students who want to vote in the November elections should make the proper arrangements now. Those students who are legal residents of Indiana and who have not registered may do so with Mary Giel in room 103 at the Campus Ministry Office in the Student Union. Voter registration is also possible in South Bend at either the County-City Building or St. Joseph County's Democratic Headquarters.

Students who are residents in a state other than Indiana can register in their home states by writing a letter to their county board of elections, or can register as an Indiana voter in the same manner as an Indiana resident. To be eligible to vote, all students must register in either Indiana or their home state on or before October 2, 1976.

All students who register in states other than Indiana must obtain absentee ballots. These ballots can be obtained by writing to one's town or city clerk.

All absentee ballots must be marked in the presence of a notary public. There are three on campus students who will notarize ballots. They are Betty Fitterling in the Office of International Students, located in the basement of LaForte, and Billie Mundere and Marge Strantz, both of whom work in the Office of Student Affairs.

Notarization of absentee ballots is a service of Notre Dame, and there is no charge to students.

According to John O'Connor of the office of Congressman John Brademas, residents of Maine, Rhode Island, Connecticut, New Hampshire, New Jersey, or Pennsylvania who have state scholarships should not register to vote in Indiana, for it might result in the termination of their scholarships.

Students already registered in either Indiana or their home state, but who have a new campus address, should report the change of address before voting.

LOUIS ANGELES (AP) — William and Emily Harris, one-time fugitive traveling companions of Patricia Hearst, were sentenced today to an indeterminate term of 11 years to life in prison on convictions of kidnapping, robbery and car theft. Brandler, who had listened to more than an hour of emotional statements from the Harrises and their attorneys, said he felt there was no reason for leniency "considering the gravity of the offenses committed.

The Harrises were impulsive as the sentences were pronounced. They had declared earlier that they did not expect justice or understanding for their revolutionary ideals. The couple declined to stand for sentencing, remaining in their seats at the counsel table.

At the end of an angry speech just prior to sentencing, Harris had declared: "Judge Brandler, you can bring on the jugglers and the dancing bears and get this charade over with."

Harris and his wife, Emily, took turns speaking at a lectern in the bulletproof courtroom where they stood trial, assailing Brandler as an unfair judge and denouncing the entire judicial system as unfair.

The minimum of 11 years and maximum of life results from the defendants' five convictions on car theft, kidnapping and robbery, as well as five separate firearms violations attached to the charges.

Although he ordered that the Harrises be committed to state prisons in Southern California—Harris to the men's prison in Chino and Mrs. Harris to the California Institution for Women at Fresno—it was believed they would not be sent there now.

Authorities said they plan to transfer the Harrises immediately to Alameda County in Northern California where they face trial on charges stemming from the 1974 kidnapping of Miss Hearst.
The job of The Observer's editorial page is to tell everyone else at the University and the College how to do his job. A newspaper, in addition to reporting the news as fairly and accurately as possible, has the duty to provide a forum for debate about issues confronting the community. This forum is the editorial page and it deals in doubts. Doubts and questions are needed to rip away the illusions of infallibility to which people, who often insist on changes.

One way to test the continuing times is to edit them for length so that we can run as many take on this page. college, or national life.

Letters are probably the most popular section on the page and we are always pleased to get them. They of course reflect the accounting, banking, stock market fraud, bribery, kickbacks and em-

Ford offers ‘regressive’ proposal to auto workers

ETROIT (AP) — Ford Motor Co. went the United Auto Workers today a new three-year-con-
tract that included an average $53 an hour in new wages.

The Ford proposal offered general wage increases ranging from 33 cents to 77 cents an hour over the three years, depending on job classification. For the typical Ford worker, who currently makes $6.88 an hour, the raise would work out to just $175 cents an hour each year.

The company also proposed to continue the present cost-of-living formula, which increased wages by $1.14 cents an hour under the current contract, when inflation was very high. Ford further proposed an unspecified addition wage hike for skilled trades workers.

Specifically, the company did not reply to a union demand for additional days off at full pay and a beefed-up unemployment benefits fund for laid-off workers.

Woodcock added the two sides are even further away from a settlement at this point in the talks than were bargainers at General Motors in 1970, when the union staged a 67-day strike—the costliest walkout in the history of the American labor movement.

However, Ford’s top bargainer said he remained optimistic that an agreement could be reached before the strike deadline. “There certainty is nothing in this proposal to suggest our objective of averting a strike is any less realistic than it was when we were named the target on opening day,” said Vice President Sidney F. McKenna.

Swiss army takes a wrong turn

BERN, Switzerland — (AP) —

The harnessing of a wrong turn at night: Clip-clop, clip-clop, clip-clop.

But the embarrassed soldiers made a sharp U-turn behind their mounties, lieutenant and marched back to Swiss territory.

The Swiss Defense Ministry said yesterday it had asked the time principle for "understanding" about the incident which occurred just before midnight Thursday.

Residents of the Liechtenstein hamlet of Irading awakened to the sound of horses and discovered they had been invaded by steel-combed foreign troops.

The villagers suggested the 75 Swiss milicenenza and their 50 horses were in the wrong country. They then offered the troops some refreshment.

"It's an area where such things can happen," said a Swiss spokesman. "Unlike certain other countries, we are not separated from our neighbors by barbed wire fences or border gates.

Officials said the infantry support unit had taken a wrong path at a junction in the hilly, wooded border region. They marched about 1,000 feet before finding themselves in Irading.

The horses were mostly pack animals. The troops had full combat gear but carried no ammunition, the ministry said. They are based at Laziensxing Barracks, a major center for the Swiss army.

Liechtenstein, a 62-square-mile nation of 31,000 people, is sandwiched between Austria and Switzerland. It is the last surviving member state of the Holy Roman Empire of German Nations, which broke up in 1806.

With invasions by its two neutral neighbors being infrequent, it gets along with a 40-man police force. Though Liechtenstein is a sovereign state, it maintains and customs and currency links it to Switzerland, as also takes care of the principality's foreign relations.

The incident was not expected to have any crisis between the countries. The relations survive a similar happening eight years ago.

At that time, five stray 5v artillery shells showered fragments on part of the Liechtenstein Alps resort, Malbun. No one was hit, but a few cars in a garr restaurant were damaged.

A Liechtenstein government source in Vaduz, the capital, said "It is not unusual that 5v soldiers cross over for a be although it is forbidden. We res don't bother too much.

A model program at Notre Dame which trains elderly and middle-aged people to work with those older people whose problems are not being handled by a service agency has received funding for the second year through a five-year grant.

The Help Outreach Program for the Elderly (HOPE) received $38,044 from the Experimental and Special Training Branch of the National Institutes of Mental Health.

The program is the only one of its kind in the country to be funded by NIMH as a model for future development in the mental health field, according to its director, Dr. John F. Santos, Notre Dame professor of psychology.

Its primary emphasis is on training personnel already employed to work with the aged. Among the agencies which have been represented by trainees are REAL Services, HealthTrain Hospital, Catholic Services, RSVP (Retail Senior Volunteer Program), the Elkhart County Home and others.

The project also has functioned as a treatment and referral unit in cooperation with service agencies.

The six-month training program includes special course work on mental health problems of the elderly, the social and psychological aspects of aging, family problems, counseling methods, program evaluation and utilization, health problems, and death and dying.

Trainees also are required to complete a supervised internship working with elderly clients from the area.

"It is fairly intensive training for outreach workers," Santos said. "The important thing to understand about the elderly is that their problems usually come in clusters.

"We try to prepare these outreach workers to deal with a wide spectrum of problems," he said.

While mental health is the primary concern, an important part of the outreach worker's job is recognizing problems and knowing how to bring programs and people together.

"The world can start closing in on the elderly and companionship all at once," Santos said. "You start to fall apart. Perhaps we can help by finding a way to encourage new social contacts or to get supplemental income. You'd be surprised at the difference this can make."

The first group of 31 trainees handled more than 100 cases from March through July.

The second training year will begin in October. Information about the program may be obtained by calling 283-3197 or writing to Help Outreach Program for the Elderly, 1127 Memorial Library, University of Notre Dame, Notre Dame, Indiana 46556.

TEACHING POSITIONS
MATH - PHYSICS - ENGINEERING DEGREES

The U.S. Navy has a limited number of openings for teachers in its graduate and undergraduate level Nuclear Engineering Program. This is a highly selective program which requires a bachelor's degree or prior experience and does not require exceptional undergraduate academic accomplishment in Math, Physics or Engineering. Starting pay $15,500 and increases to $6,000 in three years plus full benefits and privileges of a Naval Officer. This is a teaching position only, there are no military duties.

MINIMUM REQUIREMENTS

AGE: Maximum 28
SEX: Male or Female
CITIZENSHIP: U.S. Citizen
EDUCATION: BS–BA Math, Physics or Engineering

Send Resumes to:

BURTCHAELL: I was much influenced by our work on the Committee on University Priorities. For one thing, we are laying plans for very serious fund raising, which is essential to our continued existence and growth. Also, we are devoting a lot of attention to improvements in the teaching tradition. My own private thought is that independent exertions on the part of students can be drawn upon more than they are now.

BURTCHAELL: What do you see as your future?

OBSEVER: What do you see as your future?

AFRICAN BISHOP CHARGED

Donald Lamont, Roman Catholic bishop of Umtali, Rhodesia, has been charged with failing to report the presence of guerrillas, according to a Washington Post article of Aug. 27, 1976.

Lamont, who has spoken at Notre Dame on three occasions, "was charged less than two weeks after he publicly suggested that church officials might be justified in siding with guerrillas who seek help," the Post article stated. The charges usually carry the death penalty upon conviction, the Post noted, but a lighter sentence is expected since they are to be heard in the Umtali magistrate's court Sept. 14.

Soviet grain deal may not hike domestic prices

WASHINGTON (AP) — The Soviet Union has purchased an additional 275,000 metric tons of U.S. wheat, but the sale is not expected to hike domestic food prices, Agriculture Department officials said yesterday.

The Soviet Union, still feeling the effects of the drought that reduced this year's harvest, is seeking to buy additional grain. The latest sale, worth an estimated $248.3 million in the terms of the agreement. In addition there have been sales of about 2.5 million tons of corn, at an estimated value of $307.7 million.

The Soviets are expected to purchase about 1.5 million tons of soybeans worth an estimated $260 million from this year's crop. Soybeans are not included in the long-term agreement.

The temporary embargo was lifted when the new long-term agreement was announced last Oct. 20, but many farmers complained that the administration actions caused grain prices to decline.
Longley dealt to San Diego

DALLAS (AP) — Quarterback Clint Longley of the Dallas Cowboys, says he has no regrets about giving up fellow Notre Dame quarterback Roger Staubach.

"Longley was the Mad Hatter in my first year," said Longley of his time with the Cowboys. "I was the Mad Hatter in my first year and he was the Mad Hatter in his second year."

"I think he's going to be a great quarterback," said Longley of his new job with the Dallas Cowboys.

"He's got the arm and he's got the leadership," said Longley of his new role as the Cowboys' starting quarterback.

"He's got the talent," said Longley of his new role as the Cowboys' starting quarterback.

Swimmer leads Notre Dame in rowing

Ara joins ABC

NEW YORK (AP) — Ara Parseghian, former Notre Dame football coach, will join ABC Sports as an expert color commentator for the upcoming 1976 NCAA football season, the network announced Tuesday.

"I'm very excited to be working with ABC Sports," said Parseghian. "I'm looking forward to sharing my knowledge and experiences with their talented team."
