SQC students upset by vandalism of cars  

by Jean Powley  
St. Mary's Editor  

Approximately 20 student cars in St. Mary's McCandless parking lot were vandalized during early morn-
ing hours Wednesday. Windows were broken and radios and antenas were ripped from the vehicles.

Windows in the dining hall, the new Angela Athletic Facility, Regina Hall, and the convent were also smashed. Trash barrels at the Science Hall were overturned, after a sign from the dining hall was thrown through a window in Haiti-
can Hall.

St. Mary's security believes that the vandalism, for which they have no suspects, occurred when it did because Halloween had been so rainy that the vandals waited for good weather.

Sue Allemon, a senior whose car was among the casualties, expressed her anger at finding her windows smashed and her side view mirror dangling from her car door. "I was so mad! I want to know who did it so I can do whatever is necessary to make sure that they patrol that parking lot every 15 minutes, but it must have been the last few days of the fall semester. The old rules, depending on which hall he lived in, his rector might choose to handle the situation within the hall or send the offender to the Dean of Students. Large amounts of money from others in the hall - the dean or Student may decide to treat the violation as a University offense, subject to the University disciplinary procedure. This clause appears in both the old and new du Lac.

In the past, a student offender could choose to have his case heard by the Dean of Students, a hearing office appointed by the Dean, or by the University Judicial Board. The board did not function during the summer, any violation of University rules tall occurred during that time would have been taken to the Dean of Students. According to the new du Lac, every violation of University rules and regulations will be taken directly to the Dean of Students. If a student is found guilty, the new du Lac outlines penalties which may be imposed, depending on the gravity of the offense. These include, expulsion from the hall or transfer off campus, constructive activity, monetary fine, disciplinary probation, suspension or dismissal from the University.

Other changes which appear in the new du Lac concern the rights given in disciplinary proceedings. The only major changes in this area include the addition of a "hearing before the Judicial Review Board" to the eight found in the old manual, and the right to confront witnesses and the right to appeal decisions of the Student Life Council (SLC) to the Appeals Board there that there has been an abuse of discretion of that substantial new evidence has been found which, if proven, would alter the decision.

Both the Judicial Board and the Appeals Board were composed of students, faculty and administra-
tors appointed by the Student Life council (SLC) each spring. The new manual abolishes both boards and removes students from the disciplinary process. A student dissatisfied with the Dean of Students' decision may appeal that decision to a Judicial Review Board. "A student is entitled to a review hearing of any aspect of the Academic Board's decision, including the severity of the penalty, the manual now states. The and the Dean may call witnesses and present evidence at the hear-
ing. Students are entitled to "the right to a review hearing for all disciplinary actions resulting from violations which occur before the end of the last class day of the spring semester and after the first day of class in the fall semester. Appeals of the Dean's decision during the summer months will be to the President or the Acting President in his absence."

The Judicial Review Board is composed of five faculty and one administrative officers. Each board is selected by the President and approved by the President. A final appeal may be made to the University President. Both versions of du Lac state, "the President of the University has the right of final decision in discipli-

**Debate successes continue**

by Tony Pace

The Notre Dame Debate Council has continued its recent upsurge by tying for third place at the Xavier Marx debate last weekend in Cincinnati.

This is the second time in less than a month that the Council has fared well in a debate of national prominence. In fact, this year is the first time in the last 13 years that the Council has participated in national debates.

Each of the 20 colleges representing the Xavier-Marx debate was represented by an all-freshman team. After some preliminary competition, the Notre Dame team, under senior Jim Maniance and sophomore Jim Jones was seeded third. During the course of the competition, they advanced to the semi-final round where they were eventually defeated by a team from John Hopkins University.

Overall, Vanderbilt defeated John Hopkins to capture the debate title. Florida Tech, which had been defeated by Vanderbilt in the semifinals, tied Notre Dame for third place.

Maniance, who is the president of the Notre Dame Debate Council, received the ninth speaker award. Speaker awards are given on the basis of the number of points each debater is given for the whole debate.

The Xavier-Marx debate is sponsored annually by Xavier University and the Marx Foundation. The foundation provides for the transportation expenses and lodging for all of the debate participants. This foundation was begun as an endowment from the will of the late Robert S. Marx, a Cincinnati judge.

This is a nationally prestigious debate, and the Notre Dame team of Maniance and Jones is pleased to be performing at a national level once again. In Maniance's words, "This is a much more selective debate than some of those we have participated in. We are competing against the cream of the crop. Naturally, we are pleased by our performance." 

**French theater company to perform Sunday at SMC**

To honor the twentieth anniversary of the longest running production in the world, "La Cantatrlce" will be performed at the Library concert. This play, a French play by Marcel Aymard, has been presented in the United States since 1950, the year it was first performed. It is a morality play about the impact of the French Revolution. The play is directed by La Cantatrlce, a group devoted to promoting French culture throughout the United States and Canada for the past 19 years, and will appear on November 6, at 2 p.m. in La Cantatrlce Auditorium. 

At Slidecraft we specialize in processing Kodak's professional and amateur film. Using a unique, low HP process, we can develop, dry and deliver your negatives and slides in as little as 24 hours. Visit one of our convenient locations today and experience the Slidecraft difference. 

**Betterway seeks volunteers**

Betterway, Inc. is presently searching for volunteers for their rehabilitation program for juvenile delinquents. This program is especially recommended for girls and law education students, or students interested in social work.

Tom Peters, director of Betterway, will be in the Library con- course today to answer any ques- tions as well as to recruit volun- teers.
AAUP committee purposes, duties discussed

by Rosemary Mills
Senior Staff Reporter

Professor Nicholas F. Fiore recently assumed the chairmanship of the Committee on Academic Freedom and Tenure for the local chapter of the American Association of University Professors. This is the chief executive arm of the faculty. The new chairman, who is the law school's dean, asked the observers to fill him in on the committee's duties.

The committee is comprised of six faculty members who volunteered their time at Fiore's suggestion. Salvatore Belli, professor of Management, represents the Business school. Thomas Ferri, associate professor of art, is from the college of arts and letters. Professor Biology, Morton Fechs, speaks for the Science faculty while Lawrence Lee, guest professor of Aeronautics and Mechanical Engineering, is from the School of Engineering. The law school faculty is represented by Edward Murphy, and Associates Gleason represents the Library faculty.

According to Fiore, there are certain standards for the committee members to meet. "I know all these people to be experienced scholars. They are all respected by their colleagues on the faculty and members of the administration. I know all these people to have a great interest in the students', welfare, and the welfare of the students, all of them. All of them have reputations beyond Notre Dame, and have feeling for what goes on in other universities."

The purpose of the committee is to assist faculty members who feel their academic freedom has been violated. "Every year," Fiore stated, "we have usually a small number of cases in which someone on one of the four regular faculties feels their academic freedom has been violated; or that tenure is not given appropriately; or they aren't being treated fairly by either fellow faculty, the chairman of the department, the dean, or the administration." In such cases, Fiore explained, the individual can complain to the committee and they will confidentially investigate the case.

"If we feel a gross injustice has been done," Fiore said, "we will advise and assist the individual in receiving legal assistance from the national AAUP. Fiore added that the committee may also find the complaint has no grounds.

Other duties of the committee include working as a middle man between the national AAUP and the ND administration in matters of academic freedom and tenure, and carrying out the requests of the executive committee of the local AAUP chapter. Fiore cited the organization as a model of cooperation as an example of an executive request.

The academic freedom of a professor can be violated when his wish to pursue scholarly activities is refused, or if the University forbids him to publish a soundly researched and written article on a controversial subject. According to Fiore, however, an AAUP chapter is not given the right to interfere in other University business.

"The purpose of the AAUP is to give a voice to the faculty," Fiore said. "It's an academic review in a sense. If a professor feels that his freedom is being violated, he can go to the committee, and we will speak out and be heard."
O’Brien comments on Dancin’, Irish controversy

by Mike Kenahan

“I got caught in the middle because I was trying to help out,” responded Robert O’Brien, director of University Bands, to the Dancin’ Irish controversy. Statements made in the Oct. 19 issue of the Observer by Dancin’ Irish co-captains Valerie Stefani and Sandy Stoiber have received several reactions around the campus.

O’Brien directed most of his comments towards the issue of whether, in 1975, when the Dancin’ Irish were formed, there was or was not an agreement made in writing that the Dancin’ Irish would not ask to perform at home football games. O’Brien said he recently verified the agreement with Bro. Benedo, director of Student Activities, and with Astrid Hotvedt, coordinator of women’s athletics and Dancin’ Irish advisor. “It was stipulated at that time that they wouldn’t appear at football games. It was basketball only and they were content with that,” O’Brien said.

In the Oct. 19 article, Stefani was quoted as saying, “Mr. O’Brien claims he has a letter from Astrid Hotvedt saying that we would never ask for football. Now Astrid has no copy of this letter, and Mr. O’Brien has yet to produce this letter for us.”

O’Brien responded to this by affirming, “I’m sure I have one, but letter or no letter Miss Hotvedt responded to this by saying, ‘I’ve never been approached by anybody from the Dancin’ Irish. John Ryan mentioned that they approached him, but they have never tried to speak to me directly.’

In reflecting upon the notion of the Dancin’ Irish performing at football games, O’Brien admitted that, “there was no agreement on the time. They said something about between quarters but there wasn’t any time. There’s not a minute-and-a-half, there’s only 6 minutes.”

He added, “I don’t dislike them. I’m not against them or anything like that. There are all timing problems. We don’t have much time for other things.”

Dave Bender, student president, also wanted some clarifications to be made known.

Bender denied statements made by Stoiber in the Oct. 19 article that he was “totally against” the Dancin’ Irish performing at football games and would not back them. Stoiber was quoted as saying, “He wouldn’t go to the game and he couldn’t help us.”

Bender said that, “I’ve never been asked to perform at home football games.”

Hotvedt agreed that, “If Mr. O’Brien said there was a hard and fast agreement then there was. I’m not going to contradict anything Mr. O’Brien said. People’s lives were upset by the Dancin’ Irish co-captains. He stated that, “My purpose was solely to find out what the position of each side was. As far as the letter is concerned there is no letter. Ryan is Administrative Assistant to the Student Government.

Bender admitted, however, that when Ryan approached him on the matter he said, “We just don’t want to deal with the Dancin’ Irish at the time.”

Bender added that he spoke to O’Brien and Benedo about the Dancin’ Irish situation but stated, “I have to abide by Bro. Benedo’s decision.” He observed, “It’s kind of a political thing. You really have to be careful because you don’t want to damage relationships with people over something that although it might be important to about 35 people, it’s really not important to the students as a whole. It’s just a judgment call.”

Meanwhile, Stefani said she plans to send a letter to President Bro. Fredric VanDenBosch, director of Student Affairs, soon. Stefani said that when she does meet with just, “all I would be able to later is what procedure to go about and that I am a student University representative.”

“I am still willing to understand Bro. Benedo’s viewpoint if you let one club down on the field how can you say no to another one.”

Stefani said, however, that “if Astrid tells us so, then we’re not going to go in because after all she is our sponsor. But get the information consent to come with us I think it would be better. I think it would show that we were really serious about this.”

The Dancin’ Irish co-captain also mentioned that the 16 dancers are working on this year’s performance, being prepared for the upcoming basketball season.

O’Brien commented, “We hope to start a tradition of having some of our maternity members perform at an ‘open ceremony’,” he added.

“The first ‘faculty showcase’ will be presented Nov. 13 at 8 p.m. in the auditorium. The program features two one-act plays performed by Julie Jensen, acting teacher, and Diana Hawfield, costume designer for the department, as well as a number of something that Mir Sparks Field, a ballet instructor and part-time teacher in the department.

A reception will be held after the performance as an opportunity to talk with members of the department who will be presenting.

The second category of programs includes the "dancing showcase," a program which will feature ND-SCOPE and dance teachers. “This is something new that we have never done,” Amenta commented. “We hope to start a tradition of having some of our faculty members perform once a semester,” he added.

The final category of programs which we try to get the kids interested in is a great accomplishment,” Stefani said. Amenta explained, "Beyond the Horizon.”

The final category of speech and drama programs involved works in the South Bend and surrounding areas, the "second scene productions" which include full length plays, readers theatre presentations and the directing finals of the Directing II class. In the past, these productions have been presented by social worker and evening to Eugene O’Neill’s “Beyond the Horizon.”

Amenta said that the second scene productions are held in the fall and spring throughout the year. The presentations are free of charge.

The final category of speech and drama sponsored programs involved works in the South Bend and surrounding areas, the "second scene productions" which are presented by college and high school students.

"In recent years we have introduced a participatory program in which students who are involved in the program in which they participate can actually participate in the program," Stefani said. "because it exposes us to the public as well as providing us with an opportunity to be creative."}

The department does creative drama work with Headstart at the Headstart center located in the South Bend, Bloomington, etc. They dress up as clowns and present a show that we were really serious about things even though they might be important to about 35 people, it’s really not important to the students as a whole. It’s just a judgment call.”

Meanwhile, Stefani said she plans to send a letter to President Bro. Fredric VanDenBosch, director of Student Affairs, soon. Stefani said that when she does meet with just, “all I would be able to later is what procedure to go about and that I am a student University representative.”

“I am still willing to understand Bro. Benedo’s viewpoint if you let one club down on the field how can you say no to another one.”

The switch of dining hall operations between Notre Dame Food Services and the Saga Corporation is going along smoothly with a contemplation of food improvements and campus organizations, such as Robinson moving from Grand Rapids to Notre Dame to take over the position of . Robinson said that technically the former Food Service employees are now employees of Saga. No changes will be made in status or wages except those already promised by Notre Dame Food Service. He also emphasized that the differences are practically nonexistent between the food services, in the interest of the students.

"For instance, I see that some have picked up rumors about our food being packaged and sent from Kalamazoo," he said. Although Saga owns the St. Mary's food service, the two offices operate separately and in the works for the Co-ex program between the middle two schools, and on the subject of "special meals," Robinson reported that it is a practice his office will probably continue. "As a matter of fact, the first time I was aware of it was when I walked in on the one Monday night. wasn't it great?" exclaimed Notre Dame's new head food man.

"Before we start," he said, "making any kind of changes, we want to find out more about Notre Dame, because, hey, I'm going to live here. We learn some in the last few days and we'll be learning a lot more. We realize that Notre Dame is a school full of traditions and we want to become a part of it. For example, just today I found out about the hamburgers and cheeseburgers on our menu."

If we changed that before we knew about the tradition, we'd be in big trouble with our customers."

"There won't be any big changes at first; everything is running just like before," Robinson continued. "When it comes to changes, Saga's direction is always to find out what the student's want through contact with the student government and talking with students in the dining halls. My management staff will be in contact with both. "Student suggestions are usually very good—you know, serve more of this or that. We'll be sensitive to that. There are needs or perceptions from students that consistently come up, I'm not going to sit back and say 'well, it's not April 1st so we can't change,' or something like that. We will be very responsive," he added.

Of his new account and new position Robinson was enthusiastic. "I love it here. I haven't met a person yet who hasn't asked how they can help me. Just great."

WASHINGTON (AP) The United States is prohibiting the export of military supplies to South Africa and will recall two U.S. Embassy attaches in a further show of U.S. opposition to Pretori­ca's crackdown on dissent.

U.S. Secretary of State Cyrus R. Vance announced that tightening of an embargo the United States has observed since 1963 and an exca­lation of U.S. government administration efforts to disassociate itself from the South African government. Vance told a news conference the actions "reflect our national concern" over South Af­rica's "continued attempts to ban 18 civil rights groups, to shut down the major black newspaper and arrest scores of dissident leaders both black and white."

"We cannot hope that South Africa will make progress and reverse its repressive actions it has taken," Vance said.

He announced the recall of the U.S. Embassy attaches in Pretoria and the commercial attaché from Johannesburg.

Senior Class Fellow Nominations are also being accepted by the Com­mittee Chairman Elizabeth Naquin. "We have had over 60 turned in," said Mrs. Naquin. "The committee is very pleased with the response and hopes to receive many more replies before nominations close at 6:30 this evening."

Although she declined to identify any of the nominees, Naquin did say that all of them will be given equal consideration. Each nominee will be evaluated based on the Senior Class Fellow Committee on the basis of the following criteria:

1. The individual must be accomplished in his or her field.
2. The individual's lifestyle and accomplishments should embody the spirit of the Notre Dame Class of 1978.
3. The individual should be highly regarded as integrit­ity, leadership, and with a Enthusiasm and personality will also be considered. A candidate who does not come up can be selected at least one and only one candidate of his or her sex as a guest of the Senior Class.

Nominations who best fulfill those requirements should write for a final election to be held later in the month.

The Glee Club will hold its fall formal concert tonight at 8:30 p.m. in Washington Hall. David Lase will open the evening with invited vocalists.
Eight Who Did Not Give Up

dave bender

Editor’s Note

The judicial procedure contro­versy is now settled with the acceptance of the new salary revisions by the Board of Trustees little over a week ago. The whole affair was an extremely intense one with both sides in the end manifest­ing much faith and trust in each other and a sincere desire to do what is right for all concerned at Notre Dame. Of course we did not achieve all that we wanted, but for the most part the standardization of the hall J-Boards, the clause requiring the rectors to use them, the automatic right to an appeal and a complete hearing by an impartial board, as well as the dropping of the use of marijuana, alcohol and fireworks to hall offenses, represent a step in the right direction. With this in mind, therefore, I would like to take this opportunity to publicly thank all of those individuals that helped these much-needed reforms go through. It would be impossible, of course, to list all those by name in the HPC, the Hall J-Board Chairmen, the Alumni Board, the SLC, etc. that assisted us in this regard. There are, however, at least eight students who deserve special recognition and a word of thanks from me and the entire University community.

Back in August a group of student leaders were called to a meeting with some trustees and certain members of the administra­tion. At this time we were all informed of the University Judicial Proposal, which to all of us seemed incredible, unfair and unjust. Moreover, to be told directly that certain portions of the proposal “were non-negotiable” was almost too much for all of us to handle. When students attend a school where it is constantly stated that we are members of “the greatest student body in the world,” and that Notre Dame students are among the most intelligent, socially mature, and morally conscious of any students in the nation; then subsequent attempts by some students to be informed that their opinions really don’t matter in certain areas and there will not be any discus­sion, it becomes a very bitter pill to swallow. Indeed, our moralism was extremely low. All of us felt that we were faced with an almost impossible situation right off the bat at the start of a year that only that summer had seemed to be so promising and hopeful. For me to keep going under these circum­stances was much easier than for those eight students who found themselves in a position and any success that we enjoyed would fall on me; any failure or the failure of a single student. That the age-old excuse of “ineffective or powerless student government”. Those eight students had nothing to gain by not giving up and everything to lose. Their names rarely make the paper and yet they chose to serve the students and the University and not become apathetic. In one week alone they spent over twenty hours in four days to draft our own judicial revision proposal, which for the most part is what was approved by the trustees. Despite the criticisms leveled at them by some of their fellow students and the predictions of many that what they were doing was impossible, they stuck with me to achieve a goal that for most of the time seemed unrealistic and unachievable.

When Fr. Sorin saw his life’s work burn to the ground (all except Sacred Heart Church was destroyed) he commented, “If all were gone I would not give up.” In the spirit of Fr. Sorin and the University of Notre Dame, Tom Soma, Joe Gill, Tom Bryne, Steve Dain, John Talbot, Patty Donlan­ville, Mary Ellen Woods and Rick Pinkowski did not give up either. What was an attempt at public or public glory, they decided to give their all for the Notre Dame body that justice might be done. I thank them for their tremendous gift of themselves, and I ask you to join me in thanking them as well.

Michael Walsh Mt. Prospect, Ill.

Dear Editor:

This letter is to thank the many people in the Notre Dame community who helped the Logan Center children to have an extra special Halloween.

For those who waited with candy, who didn’t mind, “I don’t eat candy,” but couldn’t get to all of you to create the most delightful atmosphere in the dorms.

To those of you who went trick or treating, your patience and enthuziasm enabled over 30 children to have a fun-filled Halloween which otherwise might not have been possible.

I am thankful for all of you and really feel you can do something about this. Please, Father, don’t let this happen again.

Michael Walsh Mt. Prospect, Ill.

Thank you, St. Mary’s

Thank you, St. Mary’s
Bryan Gruley

It was the Thursday before the Notre Dame-Southern Cal game, and I was in Michigan for a friend’s funeral. There I happened to run into Fr. Fitz, the omnipotent wisecracker. Fitz the lege­n­uous one line tagger who loves nothing more than tostereleansallstufans anything you might hold as sacred, dear or important to your person. He wants to be your friend, your job, your college. Good of amiable Fitz who gets his hair up for Notre Dame whenever I’m around and an occasional one line of Flie—standing and laughing in my face, telling me that ND “really looked Impress­ive against Massachusetts.”

“Yeah, Fitz,” I defended, “you go for the one line tagger. I put mine in the trash.”

Fitz laughed harder. “No WAY, Bryan! Not this year. You see, every year we have the same old charade. It’s the same old song and dance. It’s the same old story. We’ve all heard it before. We all know the ending. It’s the same old question. ‘How could Notre Dame possibly get into the Rose Bowl when the Irish have only won the thing once?’ I mean, seriously, Fitz. I don’t know how you do it.”

“Screw that,” Fitz groaned again. “We’ve gone right down the same ole’ road every year. ND just doesn’t have the talent. Our players are not tough enough. Our defense is just too soft. Our offense is just too weak. Our special teams are just too bad. Our coaches are just too bad. Our fans are just too bad. Our administration is just too bad. Our athletic department is just too bad. Our hockey team is just too bad. Our football team is just too bad. Our basketball team is just too bad. Our lacrosse team is just too bad. Our soccer team is just too bad. Our softball team is just too bad. Our baseball team is just too bad. Our tennis team is just too bad. Our track team is just too bad. Our swimming team is just too bad. Our gymnastics team is just too bad. Our cheerleading team is just too bad. Our cheerleading team is just too bad. Our cheerleading team is just too bad. Our cheerleading team is just too bad. Our cheerleading team is just too bad. Our cheerleading team is just too bad. Our cheerleading team is just too bad. Our cheerleading team is just too bad. Our cheerleading team is just too bad. UFO specialist to speak at ND

by Lee Severino

Clark C. McClelland, UFOlogist and former director of the National Investigations Committee on Aerial Phenomena, will lecture at Notre Dame this Saturday. McClelland's presentation will be held at 7:30 p.m. in the Library Auditorium and is sponsored by the Academic Commission of the Student Union, Administration.

UFO research and the possibility of life beyond Earth will be the topics of Monday night's lecture. McClelland's experiences with unidentified aerial phenomena both by personal observation and others' sightings have produced new data which could help solve the mystery of UFOs.

According to the April 18 issue of U.S. News and World Report, "the Government - perhaps the President - is expected to make what are described as unsettling disclosures about UFOs." Such revelations about the CIA would be a reversal of official policy that has, in the past, downgraded UFO incidents.

The lecture will cover real-life cases of UFO sightings and will include slides of actual UFO sightings. McClelland will also investigate the possibility of communication with other worlds and cases of alien contact with humans.

McClelland is presently employed by a private engineering firm and was recently appointed as an investigator for an international Center for UFO Studies, based at Northwestern University.

The Pittsburgh native, a direct descendant of William Clark of the Lewis and Clark expeditions, has worked as a nuclear diver, science writer, archaeologist, artist and engineer. He also served as city manager of Tinsville, FL (pop. 35,000) for two years.

McCllelland began studying the stars at the age of 10 using homemade telescopes. After graduating from Western Pennsylvania Institute of Technology with a degree in Structural/ Mechanical Engineering, he joined the National Space program and soon after was appointed Director of the Committee on Aerial Phenomena. He held this post for past 11 years (1958-1969).

McClelland was directly involved in the Apollo Program as a technical assistant and a back-up assistant to the astronaut crews.

During this time, McClelland took part in several archaeological expeditions in search of evidence proving the existence of the legendary continent of Atlantis. These expeditions took him to the Amazon Jungle, the Amazon Yacut and the Atlantic Ocean. In 1968 one of these trips resulted in the discovery of ancient stone structures in the Bahamas that have stimulated new speculation regarding Atlantis.

New Orleans and in Atlanta in 1972. These reports aroused much interest that this statue was taken to many more countries, including South Vietnam before its fall. Other miracles have been reported, including a girl born blind gaining her sight.

The Blue Army of Our Lady of Fatima has organized this visit to Notre Dame and South Bend, and plans are still being made about the ceremonies that will take place. Louis Kaczmarek, a former president of a plastic company in Detoilet, is currently travelling with the statue, and he will speak at ND during the coming week.

The Blue Army is a worldwide group of Catholic men, women and children who have signed a pledge to fulfill the requests made by Our Lady during her appearance at Fatima in Portugal in 1917. For fulfilling her request, she promised world peace.

The special theme chosen by this group for the ten day visit, is "Respect for Life and Increase in Morality."

On Diamonds

Chapter 1: "The More you Know About Diamonds..."

Over the years, the one thing I've come to expect from students is skepticism. Like right now, you're probably asking yourself why this column is appearing in your newspaper. And since I hope you'll continue reading "John Marshall on Diamonds..." in the forthcoming weeks, here's my reasoning:

Motivating factor one: I enjoy talking about diamonds with anyone who is interested. As a graduate Geologist, I've spent most of my adult life learning about diamonds and other fine gemstones. In fact, I even teach classes in gemology at a little University campus across town. So as long as I'm basing my material on information from the past few years, you'll find it interesting.

Motivating factor two: Sadly, some students who purchase engagement diamonds wind up "re- selling" them for less than full value for their investment. Every year I come into contact with students who have been victimized by "special sales" or "student discounts" on engagement diamonds that are nothing more than eyewash. Now, since most of you operate on a limited budget, I would at least like to arm you with a bit of knowledge before you start shopping. Logic is a poor basis for the engagement, but a solid basis for selecting an engagement ring.

Motivating factor three: I'm guessing that the more you know about diamonds, the more tempted you'll be to visit my Diamond Import Company. Whether you ultimately decide to buy from me or not, I will promise you that you'll learn more about diamonds when you leave than you did when you came in. You'll know how they're classified in terms of quality and color, how they're priced, and why two seemingly similar stones may have very different values. You and your chosen one will have full usage of my Gemological laboratory and research library, and can make your selection in an atmosphere of absolute privacy.

So much for my motivations. If you're still skeptical, then perhaps you'll be curious enough to speak with me first hand. I'm at Diamond Import Company, in the lobby of the St. Joseph Bank Building in downtown South Bend, or by phone at 287-1427.

Next week, I'll look at diamond classifications systems, or "what you should tell the jeweler who offers you a "real deal" or a "perfect blue-white" diamond."

ND icers to host Wolverines

by Paul Stevenson
Sports Editor

The Notre Dame hockey team will host the University of Michigan tonight and Saturday at the ACC, with both contests slated to start at 8 p.m. The Wolverines were selected as the number-one preseason team by the WCHA coaches’ poll. Michigan, last year’s NCAA runner-up, rounded out the Denver Pioneers last weekend in their regular season opener, 10-4, but were humbled in the concluding battle, 6-3.

Sophomore center Dan Lerg registered a goal and an assist last weekend, in the third period, to lead the Wolverines to their Friday night triumph. Michigan held a 3-0 advantage after one period and only 4-1 after the second stanza, but exploded in the final period for six scores. Kip Mauer followed Lerg with two goals in the opening game victory.

The Wolverines boast a very powerful team, a squad which returns 11 forwards, two defensemen and two goalies from last year’s 20-12-0 club. They demonstrated their ability to come-from-behind last Saturday at Denver. The Pioneers built a substantial 5-1 lead, but the Wolverines stormed back. Although Michigan failed on seven consecutive power plays, the Ann Arbor icers successfully knotted the score at five. However, Denver eventually emerged victorious at the 1:24 mark of the overtime period.

Lerg and Mauer did not provide the Wolverines with all of their punch last weekend. Dave Debol, who registered 34 goals and 37 assists last year, heads the WCHA after one weekend of competition with all of his goals and six assists. Mauer, meanwhile, added 32 goals and 23 assists for the Wolverines as a junior last season.

The Irish are going to need a major rebound from last week’s double loss, to Colorado College. The stage is set; the Irish will be looking to bounce back weekend’s double loss to the Tigers. The improving Notre Dame icers are prepared for their clash with the Wolverines.

"Our play has improved since the Duluth series," Smith stressed. "If we can show continued improvement this weekend, I'm sure that fans will see two very fine collegiate hockey games.

The defensive play in that series was admirable, however, the offense could not generate the shots. The main reason for the low point total was Tiger goalie Vern Mott, who racked up 40 saves, several close to spectacular.

"We took a considerable number of shots on Mott last week and just couldn’t put it past him," Head Coach Lefty Smith commented. "I thought John Peterson played a fine game Friday night and whenever we can hold a team to three goals we should win the game.”

The Wolverines have been awfully powerful on offense, compiling 35 goals in four games, including their two preseason clashes. While Michigan averages seven goals a game, they have only relinquished four tallies per contests. Thus, this matchup will be quite a test for the winless Irish.

"This duo boasted the second and third best goals-against averages in the WCHA respectively, last season. The stage is set; the Irish will be looking to bounce back weekend’s double loss to the Tigers. The improving Notre Dame icers are prepared for their clash with the Wolverines.

"Our play has improved since the Duluth series," Smith stressed. "If we can show continued improvement this weekend, I’m sure that fans will see two very fine collegiate hockey games.

Irish to collide with Ramblin' Wreck

by Craig Chval
Sports Writer

Terry Eureik leads the way for Notre Dame's leading ground gainer, Jerome Heavens. (Photo by Doug Christian)

Paul Stevenson

The Irish Eye

Last week was routine in the world of college football as the top nine teams remained unscathed. The only big news was the jump to Southern Cal as the Trojans fell to the Golden Bears of California, 17-14. After meeting the on-up Irish on October 22, Southern Cal based another sky-high team in the likes of a California, a squad that dedicated itself to the late Joe Roth.

Meanwhile, Clemson won another game last Saturday, defeating Wake Forest and extending their winning streak to seven. The Tigers' only loss came in their season opener against Maryland, 21-14. Clemson has a tough contest tomorrow against the Tarheels of North Carolina, especially if they are anticipating their clash with the Irish next weekend.

So, with the assistance of Bob Brink, here are the Irish Eye's picks for this weekend's collegiate intramural action.

**Georgia Tech at Notre Dame**

The Yellowjackets are coming off a heartbreaking 25-24 loss to Duke. After that clash, the Ramblin' Wreck's bowl aspirations with a 23-14 upset at Southern Cal. With this loss, the Yellowjackets haven't gone hungry for 112 years, but they have won their first two games of the 1977 campaign. The Irish were wiped from the major bowl scene last year in their home arena. However, Purdue quarterback Mark Herrmann is still the meal ticket, and the Yellowjackets are tough on their home turf, a fact the Irish noted two years ago. The Tarheels should have won against Georgia last Saturday against the Trojans, but they should be able to down the Huskies. As a result, this match goes to California by 6. Brink expects the Tarheels to come out on top.

**Vanderbilt at Georgia Tech**

Georgia Tech is the nation's third in passing, not too bad for the freshman phenom. If Johnny Pont said his squad would win some games and end up dumping highly-touted Colorado, Brink eyes the Tide by 6.

**Georgia at Florida**

This game will be quite a battle. Bear Bryant has pulled off his third-straight upset of the Gators. This week, Brink expects the Gators to come out on top.

**Alabama vs. Southern Mississippi**

This game will be available. The ability of Notre Dame's offense to get out to an early lead will be more important than in any other game. If Alabama is not breathing a lot easier when this one's over. The Tigers are great at pulling off upsets and this one has real possibilities. The Crimson Tide will give this clash to Minnesota by 3. Brink looks for Michigan to come out on top.

**Ohio vs. Georgia**

If politics are your cup of tea, this clash will give you a good idea of Ohio State's prospects. The Buckeyes are in the running for the national championship, and the Buckeyes are second in the nation in passing, not too bad for the freshman phenom. If Johnny Pont said his squad would win some games and end up dumping highly-touted Colorado. Brink expects the Gators to come out on top.

**Clemson at North Carolina**

Clemson has had a memorable season with a 7-1 mark thus far. That's quite a rebound from last year's 3-6-2 record. Brink looks for Clemson to emerge victorious by 13. Brink looks for Clemson to come out on top.

**Washington State at California**

This game will be available. The ability of Notre Dame's offense to get out to an early lead will be more important than in any other game. If Alabama is not breathing a lot easier when this one's over. The Tigers are great at pulling off upsets and this one has real possibilities. The Crimson Tide will give this clash to Minnesota by 3. Brink looks for Michigan to come out on top.

**Upset of the Week:**

Brink's upset of the week is Georgia at Florida. Georgia at Florida.

**Football Picks**

**Week 10**

- **Alabama at Southern Cal**: This game will be quite a battle. Bear Bryant will break a lot easier than this one's over. The Tigers are great at pulling off upsets and this one has real possibilities. The Crimson Tide will give this clash to Minnesota by 3. Brink looks for Michigan to come out on top.
- **Georgia at Florida**: Georgia at Florida.
- **Clemson at North Carolina**: Clemson has had a memorable season with a 7-1 mark thus far. That's quite a rebound from last year's 3-6-2 record. Brink looks for Clemson to come out on top.
- **Washington State at California**: The Golden Bears are 2-2 in conference action and need this game if they have any prayer of staying in the Pac Eight race. Washington will give them a tough battle, but if the Bears play like they did last week, the Tigers should be able to down the Huskies. As a result, this match goes to California by 6. Brink expects the Golden Bears to come out on top.
- **Kentucky at Vanderbilt**: The Commodores have not been playing bad football recently. However, their defense may be surprised a lot of people with their crushing performances this year. Vanderbilt could surprise the Wildcats, especially with the game being played at Neyland Stadium.
