Howard fire rouses three dorms

Bender appoints committee to evaluate The Observer

by Michael Lewis
Senior Staff Reporter

Student Body President Dave Bender has appointed an Observer Evaluation Committee to "examine the effectiveness of the paper as a service to the community." The committee members include: Fr. Dave Schlaver, former director of Student Activities and now assistant to the Dean of the Business College; Ted Howard, president of Holy Cross Hall; Ronald Zoroamski, a junior accounting major; Anne Thompson. Student Government commissioner for co-education; Tony Pare, newly elected editor-in-chief of The Observer; and a faculty member to be named later. Bender will chair the committee.

"The scope of the evaluation will include all departments of the paper, its editorial policy, managerial and decision-making processes, organizational structure, and financial accountability," he explained. He also stated that the committee was formed "not so much to set policy as such, but to try to clarify" The Observer's effectiveness.

Bender said, "Because the paper is financed primarily by student fees, it is necessary that there be an ongoing review to ensure that it is responsible to the students." The committee, Bender stated, would make suggestions to The Observer on possible improvements, pointing out "what parts are weak and need to be eliminated or fixed up." He added that the evaluation would probably cover this year's performance. Bender said that he personally would like the committee to operate on a tight time schedule, possibly within two weeks. He also stated, "I'd like to see the committee interview the editorial board members from this year to find their perceptions of their jobs."

"It's also important to go over financial records and accounts. It's the students' money that's being spent," he added, referring to the $6 Observer student fee.

The committee should also hold some public forums, he said, "to give students a chance to express their conceptions and perceptions about what The Observer has been and what it should be."

A report would then be compiled by the committee, which would include an evaluation, the perceptions of the committee members concerning The Observer's effectiveness, and suggestions on improvements, according to Bender.

Zoroamski commented, "We're the ones who are basically subsidizing the paper" and noted that the paper should print some kind of financial statement at least once a year. He added that he believed the paper "did a good and reasonable job" but said several areas needed improvement.

Also commenting was Howard, who said he was hesitant to judge a student organization because of the dual responsibilities involved. "Maybe the Observer isn't as responsible as it should be with the information it has," he said, "but I think they do the best they can."

"I don't want the evaluation to be carried out in the atmosphere of a witch hunt. If it's carried out in a way that needs to be eliminated or fixed up," he added. "I don't want it to be carried out in the atmosphere of a witch hunt. If it's carried out in a way that needs to be eliminated or fixed up," he added. "I don't want it to be carried out in the atmosphere of a witch hunt. If it's carried out in a way that needs to be eliminated or fixed up," he added. "I don't want it to be carried out in the atmosphere of a witch hunt. If it's carried out in a way that needs to be eliminated or fixed up," he added. 

No extended break for Saint Mary's

by Jean Powley
Saint Mary's Editor

Saint Mary's will reopen for classes on Tuesday, March 28 as scheduled, Dr. William A. Hickey, vice president and dean of faculty, announced in a letter to students last night.

However, because unexpected problems with Indiana and Michigan Electric Company's coal supply could arise, Saint Mary's students have been given toll-free telephone numbers to call for information on the College's reopening.

"It appears as though Indiana and Michigan Electric Company presently has a coal supply which should not reach the South Bend area before March 16," the letter said.

"In addition, a tentative agreement was reached yesterday on the major issues which have separated union and company negotiators. This event suggests possible settlement of the coal strike within the next several weeks," the letter added.

"Since, however, it is possible that unexpected events might occur during the next few weeks, we have installed several toll-free telephone lines which will be in service beginning Thursday, March 23. This service will provide you with up to date information on the reopening of school," it concluded.

The numbers which the college advises students to use daily to avoid any misinformation are 800-342-5672 for students in Indiana and 800-348-5154 for students out of state.

The announcement was made by Hickey because college president John M. Duggan is, at present, in Rome.

Notre Dame's Acting Provost Fr. John L. Brown told The Observer that the University has no plans to close the campus after spring break. If Saint Mary's is forced to close, some arrangement will be made for Saint Mary's students taking classes at Notre Dame, Brown promised.

Today's issue of The Observer is the last before break. The Observer will resume publishing March 29.
Flint in critical condition

ATLANTA -- Hudson magazine editor Larry Flint's condition is deteriorating because of infection and pneumonia, doctors say. He slipped into serious critical condition yesterday and doctors at Emory University Hospital placed him on a respirator. However, Flint's vital signs remain stable, a hospital spokesman said.

U of O offers humor course

DES MOINES, IOWA -- The University of Okoboji offers one course on humor-and school t-shirts proclaim "In God We Trust-everyone Else Cash." It's all in jest because the school doesn't exist, but state senator Kevin Kelly says it should come under the jurisdiction of the Iowa Board of Regents anyway. "Its high degree of professionalism could do nothing but add prestige to the Board of Regents," he said.

Atmospheric possibilities

South Bend weather, for those who care: Mostly cloudy through tonight with a 30 percent chance of snow showers. Decreasing cloudiness and cooler tomorrow with a few snow flurries. Highs tomorrow and Saturday of 60 to 65 degrees, with lows tonight in the high 40's to low 50's. For those who don't care: It was 82 degrees yesterday in Houston, 70 in Los Angeles, and 80 degrees was the high in Miami, Florida.

On Campus Today

3:30 pm: open forum, with wade mc cree, solicitor general of the u.s., sponsored by white ctr. at law.
4 pm: seminar, "studies of potential energy transfer," by dr. daniel h. wencir, sponsored by radiobiology lab.
5 pm: meeting, sigma xi annual business meeting, all members invited, unc. lib.
7 pm: lecture, "renaissance brasses," by william wixom, curator of cleveland museum of art, sponsored by art gallery, nd art gallery.
8:15 pm: faculty recital, beethoven sonatas, by deborah and illuminated art gallery, nd art gallery.
10:15 pm: seminar, "mass transfer & diffusion reaction," by a hoffman, mem. limnology & letters and medieval institute, eng. aud., sponsored by curator of gallery, nd art gallery.
11 pm: seminar, "man's role in the passover," by a hoffman, mem. limnology & letters and medieval institute, eng. aud., sponsored by curator of gallery, nd art gallery.

Friday

12:30 pm: seminar, "transient diffusion reaction applied to the measurement of diffusion reaction & mass transfer coefficients in slurrying reactions," by cornelius ivory, princeton univ., sponsored by chem. engr. dept., 269 chem. engr. bldg.
8 pm: lions club travelogue, "sweden-a midsummer dream," by nic douglas. 3 tickets available. contact the library.

March 18 thru monday, march 27 - spring break

Saturday

8 am: test, graduate management admission test - engr. aud.
12 noon: noma travelogue, "a midsummer night's dream," at unc. lib.
2 pm: concert, indiana accordion assoc., prize winners performing. no tickets required.

The Rocke Dining Memorial and ACC have announced their hours for next week for students who will remain on campus over break.

Tomorrow the North Dining Hall will close after lunch and the Dining Hall will close after dinner. Both dining halls will reopen for dinner on Monday, March 27. The public cafeteria will be open from 9 a.m. to 7 p.m. daily, except for Easter Sunday, when it will be open from 9 a.m. to 1 p.m.

The Huddle will be closed on Saturday, Sunday and Monday, March 18, 19, and 20, on Good Friday and Easter Sunday. It will be open from 7:30 to 7 p.m. tomorrow and from 8 a.m. to 12:30 to 7 p.m. on Monday and Tuesday. The Huddle will be closed for Mondays through Thursday, March 20 to 23 will be 8 a.m. to 4 p.m. The hours will return to normal on Tuesday, March 24.

The Memorial Library will be open tomorrow and Saturday from 8 a.m. to 5 p.m. on the first and second floors, but the tower will be open from 10 to 10 p.m. Monday through Thursday, March 20 through 23, and on Saturday, March 25, the first and second floors of the library will be open from 8 a.m. to 5 p.m. and the tower will be open from 8 a.m. to 10 p.m. The library will be closed from Friday and Sunday, March 24 and 26. On Monday, March 27, regular hours will be resumed.

Israel vows to hold captured land

JERUSALEM (AP) - Israel said yesterday that it had lost 10 troops and 3600 forces had completed the takeover of southern Lebanon aimed at creating a five-mile-deep guerrilla-free zone along the border.

The Post-Refugee peacekeeping force asked Israeli forces in southern Lebanon for Israel. The operation was aimed at creating a five-mile-deep guerrilla-free zone along the border.

Begin did not say with whom Israel hoped to reach an agreement to keep guerrillas away from the border. But he said world negotiators with the Palestine Liberation Organization (PLO), which claimed responsibility for the attack on Saturday on two buses along the Tel Aviv-Hadath road. Nine of the 11 guerrillas were killed.

Begin vowed that an intensive study be conducted to determine whether to send troops to the Palestinian territories in the next few days.

In Washington, Israeli Ambassador to the United Nations, Mitchell Dembitz, noted that the operation was aimed at creating a five-mile-deep guerrilla-free zone along the border. He said the operation was aimed at keeping guerrillas away from the border.

China detonates test weapon

WASHINGTON (AP) - The People's Republic of China detonated a nuclear explosion in the atmosphere at its Lop Nor test site in northeastern China at midnight (EST) Tuesday, the Department of Energy reported yesterday.

The explosion, the country's fourth since last Sept. 17, was in the yield range of 20 to 30 kilotons, the department said.

The Environmental Protection Agency said it was activated its environmental monitoring system to monitor any radioactive debris that might be carried over the United States. The Sept. 17 explosion also was estimated to have a yield of less than 30 kilotons. Radioactive debris subsequently crossed over the United States in an air mass 30,000 to 40,000 feet, but little radiological effect was reported at ground level.

ARMY ROTC can help you develop two career opportunities after college.

First, Army ROTC gives you two years of practical management training and leadership experience while you're still in school. Extra credits that will set you apart in the civilian job market.

Second, Army ROTC offers you a part-time leadership opportunity as an officer in the Army Reserve or National Guard. That means extra income, reserve responsibility, community involvement.

Army ROTC two-year program - for the good life.
Advisory councils recommended as an aid to class officers

by Anne Bache
Staff Reporter

In recent years, Notre Dame class officers have turned to advisory councils for getting ideas from and planning activities for their fellow classmates.

Although class officers may choose whether or not they wish to have an advisory council, each class for at least the last three years has opted to have one. "I encourage officers to use that pool of talent," explained Sophomore Class President Andy McKenna. "We just couldn't function without it."

"The advisory council gives us input from the halls, but it's also a working body," explained Herring, who followed the suggestion of the previous sophomore class officers in setting up an advisory council.

Sophomore class officers have met weekly this semester with their advisory council. "We talk about problems with the council, and get ideas from them," Herring related. "The officers make the final decision, but the input comes from the council."

Almost all the work on class activities is done by council members, or they get students from their hall to help, which we like to see," he continued, citing as examples the ski trip and the happy hours. The only exception he noted was the Sophomore Class Formal, which is being run by the class vice-president, "but, again, council members are helping," he said.

"Our campaign was based on communication," Herring pointed out. "So we ask council members to go door to door distributing newsletters and other information, so they can talk with all the students."

Junior Class President and Student Body President-elect Andy McKenna noted that the advisory council is "a good vehicle for communicating, getting people involved and implementing activities." He admitted that the class officers were not as good at delegating responsibilities to the council last semester as they have been this semester, but stated, "Now we let people decide what level of involvement they want to assume."

McKenna said that the junior class now asks for volunteers for most projects, although Junior Parents Weekend and the Senior Class Trip were two exceptions.

"We made a commitment to reserve planes for a Southern California trip on the basis of a unanimous decision from the advisory council," he explained. "The advisory council had a week to gather feedback on this before they made a final decision. We also mentioned this in the class newsletter. If next year's class officers decide they want to go somewhere else, they can. We just reserved the planes in case they do decide to go to Southern Cal."

McKenna stated, adding that no money was involved in the arrangements.

"In terms of actual feedback the council may not be too effective, but we've had good people and it's been really important for us."

Deanna Sokolowski speaks on Women's Lib. [Photo by Ken McAlpine]

Prof speaks on Libbers

"Libber or Feminist?" was the title of a discussion in Stapleton Lounge last night conducted by Deanna Sokolowski, assistant professor of English at Saint Mary's. The discussion was the final part in a Women's Awareness Series and explored the misconceptions of the Women's liberation movement and some of the reactions to the movement.

Sokolowski and the students present discussed questions on how to describe "women's liberation," how the women's liberation movement affects people personally, and liberated women and marriage.

The discussion was a preview to the Women's Opportunities Week to be held April 3-8.
Now comes Miller time.
If this is March it must be Winter

Dear Editor:

I realize that driving to school and back is boring for some people—make no mistake—but to make a game of trying to spray muddy water all over people walking along the sides of Notre Dame Ave. is going too far. Please slow down. I haven’t been to classes in a week for fear of getting drenched.

By Pat Byrnes

Something the matter with splatterers

Dear Editor:

I want to complain about the little tills that ourCup of American society suffer when those tills are only with great difficulty remedied. However, when a regard for reasonable cleanliness is the source of one of our many daily trials and when that regard is gratuitously ignored, someone must raise a voice of protest.

The "Pit" of theMemorial Libraryis for many serious students the only logical and convenient place to take a meal during a long day of work. And a "pit" it so often is! Tonight, Sunday night, the students who eat there suffer microscopic news truly reeking with the garbage-like smell of old spills, a total absence of any napkins or paper towels, filth on every table and on every waste container—more than a day’s accumulation, and three vending machines that don’t work! They eat in a windowless room plastered with signs that assume their functional illiteracy, and drink (if they were lucky enough to get a cup) soda that poors no carbon water, only syrup.

I can honestly say I do better by my dog. How can a person fail to concentrate on the subject at hand when the attorney is trying to hide? Indeed, we should! A Mr. and Mrs. Robert Ford who reside in the industrial, as well as the underdeveloped, countries of the world.

The views expressed by Mr. and Mrs. Ford are shocking, because they repeat the writings of the infamous and discredited racists of history. Surprisingly, they coincide with the official dictates of the Soviet Union regarding disinformation. The writers exemplify the anti-Semites who hate Jews more than is absolutely necessary.

Zip Code for Bethlehem

Reverend Robert Griffin

Nothing is as useless as a broken zipper. In the last two days, I've been to Bethlehem, Pennsylvania, to see the Moravian Brethren, and back again, leaving a trail of broken zippers behind me. During World War II, people used to ask each other how Hitler should be punished. May I suggest: they should have made him a priest, and then broken all his zippers.

They should have left him in airports without a working zipper to his name. They should have left him in the cruelties of the Unzipped Zippler (the Who Zippers, but is not Himself Zippered). Then they should also have cut off his buttons.

As the South Bend airport Tuesday morning, the hiring who does security checks on the luggage managed, in closing my suitcase, to lock my grundies into the truck of the bag's zipper. He couldn't budge the zipper. I couldn't budge the zipper. Somebody's mother whom we invited to help couldn't budge the zipper. Then Digger Phelps came along and offered a hand. and I would have thought that zipper would have given up those buttons.

Nothing is as useless as a broken zipper. muttering to himself: "Ara could have done it. Ara could have bugged the zipper." On the plane, with the help of the young student sitting next to me, I persuaded the zipper to give up the Grundies. The zipper got even, like a bad-tempered sport, by tearing itself out beyond hope of repair. Nothing, I say again, is as useless as a broken zipper. Or as stupid. Or as inconvenient.

In Cleveland, the zipper on my trousers broke. I don't want to talk about it. I just want to ask you: did you ever sit in the Cleveland airport in an over-heated waiting room, wearing a heavy coat buttoned up practically the whole way because your zipper was broken? Did you ever, while so buttoned into helplessness, get approached by one of the crazy people? This crazy old man gave me his theories. I didn't want to hear his theories, but he gave them to me anyway; and with a broken zipper, you don't dare to move unnecessarily, even to hide in a restroom. God, said the old man, had had Jesus assassinated. Why? Because God was jealous that Moses just said to the Jews standing on the shore: "Shuffle!" With all that upheaval, the old man said, something was bound to happen to the Red Sea. Archangels, the old man said, are appointed as God's foremen, because God couldn't possibly have the time to answer a million people all praying at once. But the archangels are stupid in doing their jobs. The old man said, and that is why the world is in such a mess today.

I wondered, as the old man rambled on with his craziness, whether there is an archangel in charge of broken zippers? I wondered whether that archangel hated me, giving me a bag that had to be carried like a lighted birthday cake while wearing a heavy coat buttoned as a defense against the broken zipper of my pants. I hinted listening to the old man, but I was glad I had been patient. As he was leaving, he said: "You have a good face, and you have kind eyes." I was glad he liked my face, it pleased me that he complimented my eyes. I was just glad that he couldn't see my zipper.

I finally got to Bethlehem yesterday to see the Moravian Brothers. Moravians don't know much about Catholics. They don't know whether Catholics come zipped or not, like monks who may not wear shoes. Maybe they thought broken zippers was something I was doing for Lent. They didn't ask questions; I didn't feel like making explanations. I just got busy with a needle and thread.

This morning, in Bethlehem, my pants zipper broke again as I was leaving the hotel room. I still don't want to talk about it. On the plane, the flight attendant kept wanting to hang up my coat. I hinted there were secret documents sewn in the lining, stolen from the Moravians to give to the Pope. I think she suspected something was wrong. I was only afraid she would have arrested me in Cleveland as a flasher.

I am home now, broken zippers and all. By the time you read these words, I will be traveling again, moving South with the Glee Club. Yesterday, I was in Cleveland; in three days, I will be in Atlanta. All of the miles, I think, and all the nights in a thousand cities, are simply the pinpoints we make in a longer journey. When we arrive at our Father's house, we will have more than zippers in need of mending.

I will pray for you as you travel on your journey. I hope you will pray for us as I also move along the roads.

Happy Easter, Derby and I never said we didn't love you.

O'Molarity by Michael O'Mollien
The Grande Finale

Dave Mason and Bob Welch

by tony pace

The last night of any concert tour is usually the night of the best concert. Last evening, Bob Welch and Dave Mason wound up a five week concert tour with a performance at the ACC. It was a dandy.

The show began about twenty minutes after it was scheduled to start. But then and not paying attention to the present still ring true. “Hypnotized” was first released in 1973 and it is a personal favorite. The oft-repeated lyrics “Seems like a dream, you’ve got me hypnotized” can put you in a trance. The slow, mellow guitar work added to the song’s hypnotic effect. In fact, the instrumental part of this was longer than the album cut and it certainly hypnotized the crowd.

Welch re-released “Sentimental Lady” with his solo album “French Kiss” and he gave a solid rendition of it last night. This song’s easy smooth melody illustrates Welch’s musical versatility. After playing several hard-driving songs, he had to shift musical gears to perform “Sentimental Lady.” He made the transition effortlessly.

Welch closed with his new hit single “Ebony Eyes”, a crowd favorite. The vocals on this song did not come through quite as strong as they do on the album, but the song was still good. This song was lengthened by guitar jams. Welch’s conversations with the crowd, and some of his side-stage theatrics. (These included climbing in front of the speakers and trying to incite the crowd. While these tactics were only mildly successful, Welch seemed to be enjoying himself.)

About twenty minutes after Welch departed, Dave Mason took the stage. He started with what he described as “a blast from the past.” This blast consisted of two old Traffic songs “Feelin’ Alright” and “Pearly Queen.” Mason exhibited some of the guitar prowess he was to develop later.

He then switched to some current music and played the title cut from “Let It Flow,” his most recent album. If the crowd was not in good concert mood before this song it certainly was once it had been played. The next two songs, “Shouldn’t Have Took More Than You Gave” and “We Just Disagree” were also flawless and the crowd rose in anticipation. The guitar jams became more serious and the crowd was “so high it got me movin’.”

Mason then broke into what may be his best song, “All Along the Watchtower.” His rendition of this song was as good, if not better, than his rendition of it on the “Certified Live” album of the same name, was one of the tunes which Welch revived. This song was originally recorded in 1971, but its lyrics about people looking too much to the future...
Bowen supports nuclear power

INDIANAPOLIS (AP) - Giving his strongest endorsement yet for nuclear power, Gov. Otis R. Bowen said: "To do that, he said, "we will need oil, natural gas, coal and nuclear power - especially in the coming years until commercially applied solar technology and hardware becomes more widespread and until we achieve the necessary breakthroughs in hydrogen and fusion."

The remarks came at a meeting on the Marbel Hill nuclear power project to be located on the Ohio River downstream from Madison, in southwestern Indiana. The meeting, held here, was sponsored by Indiana's rural electric cooperatives and Public Service Indiana, which is building the plant.

"Nuclear energy is essential. The public supports it," Bowen said. "Its record of safety has been proved in 60 operating reactors in this nation, another 60 in other countries and more than 100 in the United States Navy.

"Critics would argue that there are some uncertainties about nuclear power and that we should not move forward until all uncertainties are resolved," the governor said. "I would suggest that even if we were to end all the uncertainties, these critics would still oppose atomic power."

"There are uncertainties about all fuel. For that matter, this week coal is the most uncertain and unreliable fuel of all," Bowen said augmenting coal with nuclear power "is a necessary undertaking" to balance generating systems.

"Natural gas is not available for power generation. To increase our utilization of oil for power generation would increase our dependence upon OPEC (Organization of Petroleum Exporting Countries)," Bowen said.

Bowen said federal studies show there are enough domestic uranium reserves available to accommodate at least 200 conventional-sized nuclear reactors during their operating lifetime. And he said even more nuclear fuel could be made available through reprocessing or the use of breeder reactors.

"Nuclear wastes could be safely disposed in geologic formations under ownership and management of the federal government," Bowen said.

"I do not intend to downplay the role of coal," Bowen said. "It is Indiana's most available energy resource. It will continue to be the primary source of electric power for Hoosier utilities."

"However, the governor said the nation cannot expect to become energy independent simply by relying on coal.

Evaluation Committee
(Continued from page 1) in objective manner, it could be constructive for the paper and the students," he stated.

Pace agreed. "If the committee's attitude is constructive, I think their suggestions could be of use to the paper. I believe it can be valuable. The reason students should have input is because The Observer is the only student newspaper; it has a monopoly," he continued.

Howard pointed out, "I don't know how much you could have more input. Granted its input is limited, but I don't think much it should be. I don't know of any campuses that have more than one student newspaper."

Observer Editor-in-Chief Marji Hugan commented, "The Observer is not financed primarily by student fees. Advertising pays for over half of the production costs. I think we are responsive to the students.

There are Observer representatives in the office almost every hour of the day."

Observer Editor Constance M. Shearing also said, "To the extent that there is a need for input from the students, I believe the Observer is responsive."

CDLC discuss space
(Continued from page 3) mented that "this is a conservative estimate. I would guess that room for as many as 50 students could be created."

The report calls Holy Cross "the key to relocating students fro other dormitories to eliminate overcrowding."

Fr. Thomas Tallarcia rector of Zahn, suggested that the funding for the renovation projects come from the halls. A majority of the other council members agreed.

Members also focused on other ways to more efficiently use space in the halls. One member of the social space committee said that 5,000 square feet of space in Stanford is being used as "dead storage" for unsold books from the University of Notre Dame Press, and an equal amount of space is vacant in Keenan.

He cooper also brought up the question of athletic space, mention- ing that Carroll Hall has a hard- wood floor gym that is unused because its heating system is broken. He added that Holy Cross has basketball and handball courts and fully equipped locker rooms and shower facilities that are being used for storage space.

Also on the agenda was a report on student-faculty relationships by Mark Huard, Hall Presidents Council representative to the CDLC. Huard reported on proposals made Tuesday night by the Faculty Senate. A major proposal being considered by the Senate is that four meals tickets be allocated to each faculty member so that they can eat with students at the dining halls. It was pointed out that the plan was used 10 years ago and was very successful.

Huard stated that the aim of his similar proposals is to normalize relationships between faculty and students.

Another possible project is the establishment of off-campus households headed by professors. In this plan, professors and their families would live with student residents in a rented house.

"Notre Dame is in service to students and for the award area is to get faculty and students to interact," the council said.

The council also discussed the drafting of a job description for the position of Vice-President for Student Affairs. Conyers suggested that the vice-president be a Holy Cross priest, stating that the position is a pastoral ministry.

"The vice-president of Student Affairs should have residential life as the primary focus of his job," he added.

Gill suggested that the position be filled be someone who has been around the University for a number of years so they would be familiar with the University and its problems.

As an ability to coordinate and voice the interests of student body was cited by Sr. Vivian Whitehead, rector of Breck-Phillips a valuable qualifica- tion for the job.

Other evaluations were also discussed briefly. Fr. Eugene Gorski, rector of Howard, maintained that the evaluation should be conducted by the Office of Student Affairs, but the Senate disagreed. He said that students in Zahn initiated a rector evaluation last year. He said he found it very useful because students selected the areas of concentration that were important to them.

The CDLC's next working session will be Wednesday, March 29 in Keenan Basement. Meetings are open to the public.

SMC award to honor prof. Saint Mary's is seeking potential candidates for its annual Sps Unica award. The award is given each year to a faculty member for excellence in teaching and for dedicated service to the college.

Anyone wishing to submit a nomination should write a one-page letter on a note card to: the nominating committee, Sps Unica Award, Saint Mary's College, 16333 Howard Ave., St. Mary's, IN 46567. The nominations will then be presented to the Academic Affairs Council where the final selection will be made.

Presentation of the award will be at the annual Mass of Appreciation on May 8.
SG posts open

The McKenna-Roohan student government administration will be taking applications for Student Government cabinet and executive post positions from today until Friday, March 31. All interested students can pick up an application at the Student Government offices on the second floor of LaFortune. All applications will be followed with an interview.

ABC's Reynolds

ABC correspondent Frank Rey­
olds will speak on Saturday at 8 
p.m. at Century Center. Reynolds, who has recently covered stories on the coal strike and Begin-Sadat talks, will speak on current events.

New Dome editor

Applications for Editor-in-Chief of Dome '79 will be accepted until 5 
p.m. Tuesday, March 29. Anyone interested in the position must submit a resume and personal statement at the Dome office on the third floor of LaFortune Student Center before that time. Applicants should possess leader­ship qualities and a good know­ledge of the University, according to Greg Young, current editor of the yearbook.

Check your attic

Students are asked to check their attics at home over break for any old toys (e.g., hula hoops, kick balls, jump ropes, jack­ets, wheelies, wagons) that could be donated to An Tostal for Recess 60.

Paper recycling

Newspaper will not be recycled from the dormitories on Sunday, March 19 or 26, due to Spring Break. Collections will resume Sunday April 2.

SLF grant

The highly acclaimed Sophomore Literary Festival, bringing noted authors, poets and other literary figures to Notre Dame each year, has received a grant for partial funding from the Indiana Arts Commission and the National En­
dowment for the Arts. The presentation ran from February 12 to February 18 this year.

Campus Briefs

Fr. Theodore M. Hesburgh, University president, will be a guest twice this month on "John Callaway Interviews" on WTTW, Channel 11, Chicago's public tele­
vision.

The two half-hour programs, which were taped March 9 at the University will be broadcast Tues­
day and Thursday, March 20 and 23 at 7 p.m.

The first interview features a discussion of "the necessity of idealism in our lives, the self-inter­
est of moral content in what we do and what we make, and the necessity for global interdepen­
dence." During the second conver­
sation, Hesburgh talks about Notre Dame and about higher education in the United States.

InPIRG conducts pricing survey
by Rita Leard
InPIRG (Indiana Public Interest Research Group) recently conducted a pricing survey at grocery stores to offer students a listing of comparative grocery prices.

The selected stores are either within walking distance of the campus or are located on nearby main roads serviced by students. Approximately 40 items, comprising an average shopping basket, were priced at each store.

The accompanying chart shows the results of this survey. Stores are listed in the order of lowest to highest average price. The store with the lowest dollar price in each category was taken to be the zero point and all other figures in that column indicate the percentage above this base price.

Iroger's: A spokesman for the senior class president of senior class activities, said his class received two council roles last spring on interested applicants. McKenna found it not surprising to discover so much interest and advisory council has been involved in the functioning of senior class activities.

The results of this survey. Stores above this base price. Not surprising.

Ban set on aerosols to protect ozone layer

WASHINGTON (AP) - The government announced yesterday a ban on the manufacture of nearly all aerosol products containing chlorofluorocarbons starting Dec. 15 because of fears they are damaging the earth's atmosphere.

The ban will affect 97 to 98 percent of all aerosol products, including deodorants, hair sprays, household cleaners and some pesticides.

The Environmental Protection Agency (EPA) Administrator Douglas M. Costle said the ban would work no hardship on consumers. Most of the products will continue to be available. "With mechanical sprayers or other propellants such as carbon dioxide or hydrocarbons," he said.

The EPA, the Food and Drug Administration and the Consumer Product Safety Commission agreed in 1976 to seek elimination of all non-essential uses of chlorofluorocarbons as aerosol propellants. The agencies already require warning labels that say the aerosols "may harm the public health and environment by reducing ozone in the upper atmosphere."

Scientists say the gases from the aerosol cans are rising into the atmosphere and depleting the ozone, which protects the earth from the sun's harmful ultraviolet rays. Thinned ozone to more human skin cancers and cause damage to plant and animal life, some researchers fear.

Industries already have cut back sharply on production of chlorofluorocarbon propellants, with sales down 40 percent in the past three years.

Exempt from the ban will be aerosol products "from which no acceptable substitutes exist," according to the joint announcement.

These exempt products include contraceptive vaginal foams, drugs used in inhalation therapy, certain electric cleaning sprays, aircraft maintenance products and some insecticides.

The action does not block chlorofluorocarbons used as coolants in refrigerators and air conditioners and to produce plastic foams. But the federal agencies still are considering regulations for these non-aerosol uses of chlorofluorocarbons.

WASHINGTON [AP] - The Federal Communications Commission (FCC) decided yesterday to look into what the federal government can do to restrict unsolicited "junk" telephone calls.

The FCC said it was inviting public comments on how unsolicited telephone calls invade privacy, compared with highway billboards, mobile loud speakers, radio and TV ads, newspaper and magazine ads, "junk mail" and door to door sales calls.

The commission staff also will research the legal question of what the FCC can do to police this area.

Philip V. Permut, deputy chief of the FCC's Common Carrier Bureau, told the commission that if the bureau finds legislation is needed, it will come back quickly before the commission to recommend it.

He said the FCC has received more than 1,000 replies to its Sept. 13 request for comment on a petition by Citizens Communications Center, a public interest law firm, calling for FCC action.

Permut said most of the letters supported the petition.

The commission also has been asked by five members of Congress to act, including Rep. Les Aspin (D-Wis.), the chief sponsor among 84 other House members of a bill to regulate unsolicited phone calls. Sen. Wendell Anderson (D-Minn.) has introduced a similar bill in the Senate.

The FCC plans to look into person-to-person phone calls and automated phone calls which are dialed automatically and involve tape-recorded messages.

The commission said it will seek to find out if it has jurisdiction to regulate the calls if they do not cross state lines.

On this point, Commissioner Joseph R. F circuits said the commission should consider whether this might be solved by setting up a joint federal state board.

Commissioner Tyrone Brown wanted the inquiry to include whether the telephone company charges more when a firm makes thousands of calls a day "compared with the two a day at my house." even though Permut said this is up to state regulatory agencies.
Boy allowed to die at parents' insistence

CHICAGO [AP] - Doctors have categorized a child's injuries and pulled the plug on a machine which kept a baby alive for 14 minutes, but died 14 minutes later.

Now, state prosecutors must decide whether to press murder charges against the parents after the baby's death.

The 10-month-old boy's death in the Cook County Hospital's neonatal intensive care unit spurred a police investigation, but the baby's death was not violent or caused by abuse.

A whole new legal process is about to begin for the parents, who were notified of the child's death Monday, after an autopsy and medical examination.

Doctors said the child's brain had started to受损 before birth, possibly because of an oxygen deficiency during pregnancy.

The baby was delivered at 38 weeks and 4 days by cesarean section.

Doctors said the baby was in trouble at birth and was not breathing when it was born.

A medical examiner said the child was in legal jeopardy before he was born, but doctors said there is no evidence of any intent to cause the child's death.

The medical examiner said the child's death was due to prematurity and complications during the delivery.

The doctors said the child's brain damage was caused by a lack of oxygen during the birth.

Doctors said the child's parents were not present at the hospital when the baby died.

Fisher captures IH volleyball

On Tuesday night, March 14, Fisher Hall defeated Flanner Law, 3-0, in the Interstate Volleyball championship. Fisher, who had already lost in the double elimination tournament, had to beat Fisher twice to take the championship.

The teams played two matches, with the last match coming down to the best of three games. Flanner captured the opening game, but Fisher came back to win the second and claim the title.

The championship match was won by Fisher, 25-15.

The championship Fisher squad consisted of captain Tony Crudele, Joe Carey, Jim Birndorf, Bill Miller, Rick Thiesen, Jay Raftner and Dave Wagner.
I'll cheap SMG and buy it. Talking about this one orlando to go into step two and beyond. Advantages under the boards and what has been the psychological picture of an opportunity to stop where Notre Dame has not in recent years. Makes the Irish my pick for the regionals finals this weekend.

About that Palm Sunday clash? If it's DePaul then I've got to get to the bottom of this. I'm hearing from DePaul's directly. My choice from the second weekend will be done best for national titles by virtue of their senior-dominated squad. Only to get mugged by an mfertor eye. At least it's my pick for the regional finals this weekend.

As you can see there is no escaping the SMG and the big business of making money by selling the final four.

I was playing my first post-season game last Sunday—my state is perfect. So is Kirk Trippke's and Dean Wilson's. Blackhawk West ridge and Gil Sattas. Williams has seen three season's worth of big business and four men who have destroyed their one goal to go into step two and beyond. Advantages under the boards and what has been the psychological picture of an opportunity to stop where Notre Dame has not in recent years. Makes the Irish my pick for the regionals finals this weekend.

The Irish meet Utes (Continued from page 16) has lost in the second round the last two years in a row and said they have been in the final four at least once. Digger Phillips has taken a leave to the tournament (Fenwick, 1971) he also lost in the second round. Utes will be on the third Thursday in March.

Writers wanted There will be a meeting tonight for all interested in writing sports in The Observer office on the third floor of LeConte at 7 p.m.
Tom Desmond

Strategy

Six-Pointers

For the first time in four years Digger Phelps will be spared the kiss of death. The court is in order to avoid the exercise of the tradition that the Observer prints its Christmas list, Digger's gift "a calendar without a day, six one-hour series heats of 1,000 meter freestyle, the NCAA tournaments the Irish have been conquered in the first round but were vanquished in the regional semi-finals traditionally held on Thursdays. This week, however, the until Monday. The eighth edition will be determined in the 10:30 EST game between the 23-0 Utes and the 21-6 Irish. This is how the regular season changes could get to a regional final in his first year in the complexion. The team. A rarity this year, Notre Dame will find itself up against a team that owns an average performance as lofty as their own. Utah is 11-2-1 overall and has a defense that gets a lot of mileage out of their frontcourt. Tom Desmond Sports Writer

Golfers await southern tour

Continued

Tom Desmond Sports Writer

The Notre Dame golf team will open its 1977-78 season this weekend in the annual southern trip next week. Eighteen of the first 20 points are by NOEL O'SULLIVAN, the Irish golfer will compete in the University of Miami Invitational. O'Sullivan finished third in the 1976 Trojan Invitational Tour with a 144. O'Sullivan, a junior for the Miami team is looking forward to the 1977 spring and fall of 1977. is the only junior in the NCAA Championship Meet at Cobo Arena on March 25 and while Coach Joe Cumpian, a first-time winner form part of the youthful team, will host two stops in the Irish invitational tour this spring. Landgren, a multi-sport all-Minnesota player in high school.

Tracksters eye 'Bama

The Notre Dame Track Team will shift into high gear for the next ten days in preparation for the upcoming trip to Alabama. The first tracklet will hit the field for the low competitive round in pursuing an even-perfect 71 at Purdue's Big Ten Cross. A course that will host two stops on the Irish invitational tour this spring. Landgren, a multi-sport all-Minnesota player in high school.

Irish cagers face Utah Lawrence

Notre Dame has one of the most powerful frontlines in the country, according to the Howard Lewis. "I was told that Notre Dame was the team to beat. There were people wrong. The Irish are big, strong and fast." That Notre Dame frontline contending will be severely tested by the Cougars in Saturday's game. The starting five have the Irish offense as a whole fit the script of Sunday's reading. Underneath or outfront the Irish defense encountered. When in the man-to-man the Cougars could not dominate play. Underneath or outfront the Irish defense encountered. When in the man-to-man the Cougars could not dominate play.

Duck Williams played one of his best games of the season last Sunday evening when he led the Cougars with a 19 point performance from him if they hope to advance into the regional finals. A duo of freshmen. Tim Sackeh and Tom McCarthy, round out the top six. Sackeh is a local product and captured the South Bend City Chamber of Commerce Golf Tournament. McCarthy, a West Illinois, was called in to replace one of the top three freshman titleholders. Oregon State accomplished players in Noel O'Sullivan's golf team. The Irish team, including Landgren who enjoys fine competition tested. Tom Desmond Sports Writer

University of Alabama, where Plane "excells in all areas," and Memphis State, also in the NCAA and the other sports a fine group of distance runners in the nation.

But despite the Irish, the Crimson Tide will face a strong team in the nation, was fielded under Notre Dame's switching defenses.

ND IRISH: Look for Tracy Jackson and Jeff Carpenter the Irish offense as a whole fit the script of Sunday's reading. Underneath or outfront the Irish defense encountered. When in the man-to-man the Cougars could not dominate play.

Fieldhouse. In the final tournament at Kansas during his career he has been the key man in the later stages of the game. He scored 11 points in the second half of Notre Dame's 72-64 victory over Texas at the Texas Apple Fieldhouse in 1975. In the NCAA playoffs, playing the team they battled last week. The key to stopping a good offensive team is to have a balanced scoring attack. Duck Williams has contributed 18.5 points per game, a scanty 12 turnovers and more fitting than the inscription on the floor courtside at Phog Allen Fieldhouse. In the mid-70s Williams was the greatest scoring freshman in the country, playing one of his best games of the season last Sunday evening when he led the Cougars with a 19 point performance from him if they hope to advance into the regional finals.
Venezuelan speech ‘welcome gesture’

CARACAS—Venezuela [AP]-Jimmy Carter, the most popular U.S. president in Latin America, told John F. Kennedy, told Venezuelans yesterday that Senate approval of his Panama Canal treaties will “be a great celebration.”

Carter spoke in fluent Spanish during his arrival ceremony, sur­prising many on his first state visit and helping with the concert of Sun, the Cultural Arts Commissioner this year, Jerry Perez, a junior from East Canton, OH, will take the post of Cultural Arts Commissioner. “The Cultural Arts Commission will be rebranded and given a new purpose this year.”

Roche stated. “Rather than concentrate on a few events, we will look at different ways to enhance the overall academic atmosphere as well.”

A junior from Bethel Park, PA, Gary Luchini, will become the new Executive Director. “The Cultural Arts Commission offers a platform for students to showcase their talents and interests in a variety of ways.”

He spoke again in Spanish, saying Bolivia’s dreams were the same as those held by Washington, Argentine independence hero Jose San Martin and “all those who struggle today for human liberty.” He ended the speech with a cry: “Viva Venezuela!”

A crowd of 2,000, the largest he encountered on his first day here, waved paper U.S. and Venezuelan flags and cheered. The president waited into the crowd during hands, including those of some American tourists. One of them, Carrie Miznitzer, 22, of Boston, burst in tears and shouted: “Hello Jimmy. That’s great!”

The reception and comparatively dice security measures were in sharp contrast to a 1958 visit by President Eisenhower. Nixon and a 1961 visit by President Kennedy. Nixon was to open and his car nearly overturned. The army mobilized 40,000 troops for Kennedy’s visit.

Later, Carter and President Caro­los Andres Perez met aside more than two hours for talks about U.S.-Venezuelan relations. They included energy and economic cooperation, human rights, curbing the spread of nuclear weapons and restrains on arms trade.

Information topics on the Carter Perez agenda included the impact of oil prices on the world economy and politics in Africa. Venezuela provides much of the U.S. oil imports, Congress will visit Africa before returning to Washington next week.

American officials who asked not to be identified reported that three “agreements have been signed: an exchange agreement, a monetary allocation, preparing all financial statements, such as budgets, and providing financial information to the directors in help them decide what projects are feasible.”

Two comptrollers have been assigned to the social commission. Sophomore Rick Pinkowski will manage Darby’s Place, the jazz and homecoming expenses, and Donna Zimbek will handle all other projects. The Services Commissioner will be Sandy Rogalski, and the cultural arts commissioner will be Adam Sczepanski.

The first American chief executive to visit the poor of Venezuela live, where the poor of Venezuela live, the airport, named for national hero Simon Bolivar, provides much of the U.S. oil imports. Congress will visit Africa before returning to Washington next week.

In Hesburgh’s opinion, the major dilemma that the university must come to terms with is remaining relevant to the problems of society while at the same time retaining the good traditions of the university.

Concerning itself with contemporary problems and solutions and acting as an independent critic of society, maintaining its traditional commitment to excellence while providing equality of opportunity in higher education.

Hesburgh noted that “in educating students to live today and tomorrow, universities cannot afford to eschew the arts and humanities.”

Has it been as much communication between the commis­sioners and the commissions in the past, commented Carney, “and we hope to place more emphasis on a greater accessibility to solve this problem.” Roche stated that all the commissions are now looking for assistants and other volunteer staff members to work on various projects. Those who wish to offer their services should contact him by calling the SU office at 7277.

Defaul jurors file suit

LITTLE ROCK, Ark. - Theresa Eckstein, excused from jury duty because she is deaf, has filed suit against a Circuit Court judge. J. Kirby excused her from federal jury duty after he learned she would need an interpreter while serving on the jury. The suit filed in federal court asks that a section of the Arkansas constitution be declared unconstitutional. The section authorizes judges to excuse potential jurors whose eyewitness or hearing is substantially impaired.

Satellite launched

CAPE CANAVERAL, Fla. - The Broadcasting Satellite designed to conduct research aimed at transmitting high-quality color television signals, will be launched April 7 from Kennedy Space Center, space agency officials announced yesterday. The satellite will be launched into stationary orbit 22,300 miles from Earth over the Equator south of Japan.

Penn Central gets grant

INDIANAPOLIS - The Indiana Public Service Commission has been given a $833,490 federal grant to improve three rail freight lines in the state. Sen. Birch Bayh, D-IN, has announced. The funds from the Federal Railway Administration will be used for the Penn Central freight lines which run between Auburn and Auburn Junction, Decatur and Portland and North Vernon and Madison.

New system installed

INDIANAPOLIS - The Postal Service has announced plans to install a computerized mail forwarding system at the main post office here. Indon, which will be in metropolitan areas that will receive the equipment, which is expected to arrive in August. It allows clerks to retrieve new addresses rapidly and attach mailing labels with the use of a video screen and a typewriter keyboard. Tests have shown that the system can reduce the cost of processing changing-of-address mail by almost three cents per letter.

Consumer price index rises; economists fear sharp increase

WASHINGTON (AP) - Prices of beef and other foods increased substantially in February, pushing overall consumer prices up 0.6 percent and adding to fears that inflation may escalate faster than expected in 1978, government figures showed yesterday.

Several economists were partly to blame for a 1.2 percent increase in food costs, the same as in January, the government said.

Grocery prices increased 1.0 percent, with beef prices up 4.1 percent and pork prices up 0.4 percent, that rate of increase continued throughout the whole year, food costs alone would increase more than 18 percent this year. Although no one expected food prices to keep rising as fast as that, the Carter administration is expected to go forward by the size of the increase so far.

Besides beef and pork, other food prices also increased. Poultry rose 1.6 percent, and there were increases for cereal and bakery products, dairy products and processed foods and vegetables.

Prices of fresh fruits and vegetables declined 3.5 percent.

Economists say the sharp increase in beef prices was due partly to the weather, which made it more difficult to move cattle to market, and partly to a trend by cattlemen toward keeping smaller herds because of what they consider low prices.

Except for food, February inflation was not as bad as in January as overall consumer prices increased 0.8 percent. Clothing prices declined in February and housing costs rose, but not as rapidly.

"Nevertheless, the pace of inflation has not decreased in the past two months has led many' economists to conclude that prices will increase this year faster than the official forecast of 0.1 percent."

William A. Cox, deputy chief economist at the Commerce Department, said consumer prices may increase as much as 0.6 percent. Others expect it will be near 7 percent.

"Unless we come into some unforeseen kink, it will be hard to break even at 0.6 percent this year," Cox said. Consumer prices increased 6.9 percent last year, and the administration has been hoping to keep them below 5.0 percent from the inflation rate in 1978.

The Labor Department said its consumer price index for February stood at 188.4 of the 1967 average of 100, meaning goods that cost $100 then could be purchased for $188.40 last month.

The consumer price index is not a cost of living report, however, since it does not measure increases in taxes, such as this year's Social Security tax rise.

Taxes, however, do affect the buying power of workers' pay-checks, which declined in February for the third consecutive month. The Labor Department said in a separate report.

It said workers' purchasing power declined 0.2 percent. Although that was an improvement over a record 3.1 percent drop in January prices, it left workers with a net 1 percent more in purchasing power in February than they had a year earlier.

Gurley lectures on Marx and Third World

by Phil Wildebech

John Gurley, professor of economics at Stanford University, lectured last night before a crowd of 70 in Hayes-Healy Auditorium. His topic: A Marxist view of Third World development.

Gurley, a noted author and lecturer, traced the evolution of the world from the capitalist society of the early twentieth century to the vik uprising of 1917 was the first successful Marxist assault on the wealth distribution in Third World countries. He also criticized the inequity of wealth among capitalist nations, stating, "The economic inequality among capitalist nations is becoming ever larger."

Although he acknowledged that some third world countries have made considerable progress under the capitalist system, Gurley stated that this progress aids only a certain portion of the population. He said, "The rapid development of Third World countries is of no help at all to one-third of the population."

Gurley also pointed out that this rapid development occurs in a U-shaped form. He refers to the initial decrease in per capita income and employment that occurs before this rapid increase in economic development. He added that this development produces both "equilibrium and inequilibrium" society. He concluded, "Development cannot be an interrupted growth process protected from external antagonists, for antagonists exist within the capitalist system itself."

Gurley also criticized capitalism because "the capitalist mold builds on efficiency which is often contrary to equality." He believed that cheating and subversion are rewarded in a capitalist economic system.

Gurley did not refute capitalists' explanations of the inequality of wealth in Third World nations. He believed present information was inconclusive. But he did add that these nations are often treated like "children with childhood ill that must be worked out." He also stated that the inefficiency and ineptness of underdeveloped countries are often beneficial to advance capitalist nations.

Surprisingly, Gurley was not above criticizing Marxists. He believed they should examine the capitalists' views although he thought they should question them. He suggested that Marxists examine the situations surrounding Third World countries that have become successes as capitalists. "Marxists are trained to be highly suspicious," stated Gurley, "They generally misinterpret data."

Gurley concluded his presentation by stating that capitalist development cannot cause the inefficiencies of underdeveloped nations to those inefficiencies to be beneficial to developed capitalist countries. Gurley added, "This development creates the revolutionary condition required to overthrow capitalism."

Bergin participates in conference

Thomas P. Bergin, dean of continuing education at Notre Dame, was a participant this week in the annual conference of the National Arts Education Association in Houston. He presented a talk, "Arts in Education," and was a member of a panel discussing "Government Effect on Art Education Programs."

Bergin was recently named to the National Advisory Committee for the arts, a group organized to formulate policy for overall quality programming in maintaining national and international interest in the arts and aesthetic education.

The results of such successful revolutions will be the topic of John Gurley's next presentation to be held Thursday at 3:30 p.m. in room 243 O'Shaughnessy. He will give a Marxist's view of Socialist development.

Commission views Radio City as possible landmark

NEW YORK [AP] - Radio City Music Hall, scheduled to be closed April 12, should be designated an "interior historic landmark," the City Landmark Preservation Commission said yesterday, such a designation prohibits alterations of the art deco interior but not demolition of the building.

The commission's recommendations, which goes to the city's Board of Estimate for action, would not permanently save Radio City. But a commission staff member said it would result in a delay of at least a year of any move toward demolition.

Rockefeller Center Inc., which owns Radio City, has not disclosed what it plans to do with the hall after it is closed. Rockefeller Center President Alton Marshall has threatened to challenge the city's landmark designation law in court.

Li. Gov. Mary Anne Krupsak, who has been leading the fight to save the hall, said in a statement after the commission's vote: "I am absolutely overjoyed and convinced that Radio City Music Hall will be saved."

In announcing last January that the home of the world-famed, high-kicking Rockettes would close after the Easter Show, Marshall cited dwindling attendance and revenues, and projected the hall's 1978 losses would be more than $3.5 million.

Attendance at the 45-year-old theater averaged about 5 million yearly until 1967. After that year, attendance at the 6,200-seat theater gradually dropped to less than 2 million last year.

But after it was announced that the hall would close, attendance began picking up.

Hours announced

Notre Dame accepts 2 million in research grants for February

Notre Dame has accepted $2,297,321 in awards for the month of February to support individual faculty research projects, facilities and equipment, and innovative educational and service programs, according to Robert E. Gordon, vice president for Advanced Studies.

Awards for research totaled $2,128,938 and included:

- $170,000 from the National Science Foundation (NSF) for study of earthquake response and aerodynamic design of underground piping systems, by Toren Arman, associate professor of aerospace and mechanical engineering.
- $74,572 from NSF for study of co-coral carotenogenesis in germ-free mice, by Monty Ballard, chairman and professor of microbiology and associate director of Lohudain, and Tomoaki Asano, associate professor of microbiology.
- $64,374 from NSF for the study of earthquake response and aerodynamic design of underground piping systems, by Toren Arman, associate professor of aerospace and mechanical engineering.

WASHINGTON [AP] - The Supreme Court, despite angry disagreement by three members, said yesterday that judges virtually always avoid lawsuits filed by women who have ordered sterilized if they are performed when such orders are mistakes.

Voting 5-3 in a major decision on judicial immunity, the court said an Indiana judge who approved a mother's request that her teenage daughter be sterilized was not subject to damages.

Judges cannot be sued for damages if they act normally performed by judges "in the absence of all jurisdiction," the court said, reversing a ruling by a 7th Circuit Court of Appeals that allowed the suit. The 7th Circuit Court of Appeals had reversed a federal appeals court's ruling that the 7th Circuit Court of Appeals had protected the judge's immunity.

Justice Harry Blackmun, the court's lone woman, said that he would have a clear absence of all jurisdiction... the court's opinion, which would have allowed the suit.

Yesterday's decision reversed a federal appeals court's ruling that the 7th Circuit Court of Appeals had protected the judge's immunity, which "appears to have been premised on an erroneous view of the law." The 7th Circuit overturned that ruling, but in turn was reversed by the Supreme Court.

"We cannot agree that there was a clear absence of all jurisdiction..." said the Court's opinion. "A judge normally performs judicial act normally performed by judges..." and said it was "not beyond the realm of possibility..." that the judge's action was not subject to judicial immunity.

A federal trial judge ruled that the judge's action was not subject to judicial immunity, which "appears to have been premised on an erroneous view of the law." The 7th Circuit overturned that ruling, but in turn was reversed by the Supreme Court.

Famous Comedian
Opinion

From Revolt To Submission

Randy Nashido

What I profess here is merely an opinion, admittedly based upon severe generalizations. To some extent, the youth of the sixties, it is hard for me not to be sentimental. There was generation trapped by the stupidity of the Vietnam War. They were forced to fight in a war which they neither started, nor wished to continue. It was a war that was a mismanaged war, a mistake, a utilization thought out as spewed into the blood.

They asked for a generation a unique art, their music: The Beatles, the Grateful Dead, the Allman Brothers, Jimi Hendrix, Neil Young, Janis Joplin, Bob Dylan, Stephen Stills. This was the music they grew up with, and which likewise defined their generation. Timeless music, expressive of some sort of fever. It was wistful, it was, and remains.

Then there were demonstrations. There was Kent State, and podium broken on the heads of rights begot ghettos riots. There was Haight-Ashbury, Ken Kesey, and acid. There was Vietnam, the hero, pot, cocaine, mescaline, and LSD. There were in, hippies, yippies, and straight. Good. After all, it was all laughter all the way to the bank. There was a sexual revolution, the birth of the Pill, and Star Trek. There was, in all of this, to the youth of that generation, just in oil, the young people.

Of course, that generation has passed. It trailered a little into the seventies, and for a few more years, it moves through its denouement, maybe it is worthwhile to compare this generation of youth with that of the sixties.

We claim a special sort of music, of course, the drug culture, the expression and meaningful, poising impressionistic art form of our time. "Shake your boogooos and I'm a brick house." The timeliness of this music is precisely apparent. Merely observe how long "Doo Duck Song," and "I Can't Help Myself." As a matter of fact, everywhere I see people sitting still listening to this music. I'm overcome with this anticipation that we are all going to sit up and each scream "I'm glad I'm a conformist!"

There is this fighting spirit in this generation. I'm not trying to sell it. History will record it as being responsible for the most famous peaceful attack ever: millions of us patrons to McDonald's to buy Big Macs. Maybe there is just nothing to fight for, or again, anymore. To remedy this want of spark and vigor, we have cut our hair, shaved our beards, put on slacks, and decided to sit through college so we can fight each other for jobs when we graduate.

Campus unrest still bubbles occasionally in a liberal breeze, but this disheveled youth might lodge a complaint the social sciences say they say the school is co-ed, but remains predominately male. No one has the thing right in this sort of student role in admission. Instead, we successfully quarreled with a fascist President and his band of thugs, which is great. It is just that students here do not want to take on such responsibilities. And the students who do are usually associated with libraries and post-offices. The students who are to be considered are those who remain or leave, but the feelings are the same. The processional of mediocrity continues, with the same kind of students being admitted with the same passive participation.

I do not wish to go into a tirade about these events. Also, since I'm not Dean Roemer what priority student issues should be given administrative policy. Ask a rape victim next time you pay for a parking violation. Possibilities are there when his or her name is maintained on the comparative bargain. Under that philosophy, we seem to have become basement-bargain commodification-packaged and ready for use in four or five years, depending upon equipment ordered.

This generation and our student body probably is not weak and quibble. Yet, we accept a lot that we should not have to. Ten years ago, a word became a reality for an intensified generation: the revolution. The word carried both meaning and energy. It powered the youth clean out of an atmosphere steeped in trivialities, and into a libertarian atmosphere of.

Today we shy away from it. Perhaps, because it is too radical, "extreme", demands responsibility and the onus of freedom. I'm afraid this generation doesn't want to be bothered by too much historical baggage. The energy is not so abundant anymore. Might as well just play it out and get on with our own business.

We claim not to be back a revolution. Though, Revolt derives from revolution. The students here at U.S. claim to be the only school in the nation, present and future, where the library sounds like the Rose Garden. It's against the law. The rose garden, it is our home.

There were demonstrations. Lots of those now are out to Washington to see how much military aid they can get out of the United States.

Several weeks ago the president of Zemululan arrived in Washington for a State visit. Zemululan ambassador to the United States met him at the place, as did the American secretary of state and an honor guard from the U.S. Army, Marines and U.S. Air Force.

The Zemululan ambassador expressed to the president, "The first thing you must do is review the honor guard." It is a cover-up. The ambassador replied, "Those are nice rifles they're carrying. Can I try one?"

"No," said the ambassador. "But, I do want to fly in your helicopter to the White House where President Carter will greet you!"

After reviewing the troops the ambassador turned to the Zemululan ambassador. "Should I ask the secretary of state for 24 of these? It's too early in your visit. We have to go through formalities."

The president looked very disappointed. The helicopter landed on the White House lawn where President and Mrs. Carter were waiting to meet the party. President Carter made his opening remarks calling Zemululan one of the communities of the world and a friend the United States could not do without.

The Zemululan ambassador said out of the side of his mouth, "It is not the right day. We have sent orders for squadrons of F-15s..."

"It's not the right time. You never ask for military aid in the Rose Garden. It's against protocol."
After spring break comes spring fever. Students in these pictures display various symptoms in spite of the remaining evidence of winter. Another thought to keep in mind is pre-registration (see below).

History Contest
The Committee on the History of the University of Notre Dame has announced a contest offering a prize of $50 for the best historical study of any aspect of the history of the university. The contest is open to students of all years and to faculty members. The submission deadline is March 20, and the entries should be submitted to the Committee on the History of the University of Notre Dame. The committee will award a prize of $50 for the best historical study of any aspect of the history of the university.

Halfway House Funds Needed
A three-month fundraising effort is underway to provide funds for the Halfway House, a new halfway house for alcoholics in Michigan. The Halfway House has as its goal a total of $150,000 to cover the operation of Phoenix House for the next three years. A non-profit corporation has been formed to operate the facility, which is located near the former site of the Ann Arbor Public Schools. The four-week intensive workshop series will be taught by Dr. Charles B. O'Neal, a professor of English at Eastern Michigan University, and Thomas P. Piettas, 22, through June 3.

Preparatory School, English
of the Ann Arbor Public Schools. The four intensive workshop series will be taught by Dr. Charles B. O'Neal, a professor of English at Eastern Michigan University, and Thomas P. Piettas, 22, through June 3.

Summer Study in England
Eastern Michigan University is offering a summer foreign study program in England to students who elect to take one or both of the program's two courses. Students can earn hours of graduate or undergraduate credit for "The Literature of England and its Cultures" and "Film: The Human Document", the first course, which is a comparative study of methods of teaching English to British and American schools, will run from July 15 to August 4. A study of several films, primarily British, will be included in developing critical insights into the art of cinema and seeing it as an important means of recording human experience. The instructor will be Paul D. McGlynn, professor of English at Eastern, who has lived in England for 10 years.

The cost of each course is $525, which includes 21 nights in University housing and breakfast each day. The course is not included.

A deposit of $100 is required with each application. For information or an application, write the Office of Undergraduate Studies, Eastern Michigan University, Ypsilanti, Mich. 48197, or call (313) 487-3242.

Professor-Author Speaks on History
Fr. Stanley L. Jaki will present an address entitled "On Whose Side is History? Reflections of a Historian of Science" on Thursday at 8 p.m. in the Library Auditorium. Jaki is one of six American ever selected to give Edinburgh's famous Gifford lectures, the others being William James, John Dewey, John Dewey, Paul Tiliock and Reinhold Niebuhr. Distinguished University Professor at Seton Hall University, Jaki holds doctorates in both physics and theology. He is the author of seven books, including the "Relevance of Physics and The Road of Science and The Ways of God.

Ethics-Energy Conference
A conference on Christian ethics and energy will be held at Notre Dame from March 31 to April 1. Participants will consider the distinctive contributions of Christian ethics to energy-related problems in contemporary society, focusing on the ethics of energy production, decision making, consumption and conservation. The meeting is cosponsored by Notre Dame's Center for Pastoral and Social Ministry and Center for the Study of Man in Contemporary Society in cooperation with the National Catholic Bishops' Committee for Human Values.

Most of the speakers are from the University's faculty. Bishops and Church people from Indiana and neighboring states have also been invited. The conference is open to the public, especially those involved in the energy industry. Reservations should be made with Mrs. Norine Davis, Director for the Study of Man in Contemporary Society.

Sessions will be held in the Hayes-Healy Auditorium. College of Business Administration beginning at 8 p.m. Friday. Each session will feature more presentations plus an ethical critique or theological reflection. Topics will include: "Can There Be A Christian Ethics About Energy?" (8 p.m. Friday, and on Saturday "The Ethics of Production" (9 a.m.), "The Ethics of Decision Making" (10:45 a.m.), "The Ethics of Conservation conservation" (2 p.m.) and a summary session at 3:45 p.m.

SMC Summer Art Workshop
Saint Mary's art department, for the third year, is offering a six-week summer Basic Art Workshop at Fort Wayne. Robert Fuller, an editorial writer, will be the instructor. As an Army officer, he offers the students a unique opportunity for broadening one's understanding of the concept of nature and work in a chosen area. It affords students and faculty opportunities to live together in close harmony with nature. All workshops are scheduled to provide maximum use of exposure to the immediate natural environment.

Campus Briefs

Enrollment for each class will be limited to ten and applicants will be accepted in order of registration. Interested students should send a $25.00 deposit by Sunday to Gallery Director Michele Fricke at Saint Mary's. The coordinator of the workshop and can be reached by phone at 284-5717 or 284-4074.

Fuller elected new Distinguished Editor
Bill Fuller was elected editor-in-chief of the 1979 edition of the "Dome", the Notre Dame yearbook. Fuller, a junior from Warren, Ohio, was elected last night by a majority vote of this year's Dome editorial board.

Fuller explained that, like the yearbooks of the past two years, the 1979 Dome will carry a theme and will be organized into sections. He maintains, however, that he will work for a slight redefinition of the organizing of the sections, "in order to provide a more creative and expression book." In addition, Fuller hopes to have more magazine-like features in the written areas of the book.

Fuller plans to work in conjunction with the Observer and Scholaristic in areas such as the sharing of photos. He has worked on the yearbook for three years and has served as student life editor and sports editor.

Your college degree will get you started in life after college. Army ROTC offers you management training. Leadership experience. And a commission as an Army officer. Extra credentials that will set you apart in the job market. You'll also earn $2,500 during your two years in advanced ROTC and new career opportunities upon graduation as a leader in the active Army, Reserve or National Guard. Here's how to get started.

THE EARLY START
Start Army ROTC during your freshman or sophomore year with no obligation. You'll find a curriculum that's exciting and flexible enough to fit your class schedule and academic needs.

THE JUMP START
If you're a veteran or Junior ROTC graduate, then you're a jump ahead. You're already eligible to enter advanced ROTC.

THE BASIC START
If you're about to finish your sophomore year, apply now for our six-week summer Basic Camp at Fort Knox, Ky. You'll earn $450 and the opportunity to enter advanced ROTC next fall.

For details, contact:

Dorm fire apparent arson

VINCENNES, Ind. (AP) - A fire which destroyed the top floor of a Vincennes University residence hall apparently was the work of arsonists, authorities said yesterday.

The State Fire Marshall's office was called in to investigate the blaze that broke out around 3:30 a.m. yesterday on the third floor of George Rogers Clark Hall. The exact cause of the fire and the extent of damage have not been determined.

But students noted that there had been several trash can fires in the dorm earlier in the week. In addition, police Chief Dalton disclosed that his office received a call Monday warning that a bomb would go off in the dorm at 6 a.m. yesterday.

Two dorm residents, John Krueger, 20, of Tippecanoe, and Brian Heck, 18, of Edinburg, suffered smoke inhalation but were treated and released.

As thick smoke billowed through the hall, the dormitory staff made a room-to-room search to make sure all of the residents were evacuated. The dormitory has a capacity of 450, but only 460 students were registered as currently living there.

Classes were scheduled to resume yesterday following the spring break, and it was uncertain if all the dorm residents had returned from vacation.

Fire Chief William Rose said the fire started in the center of the hall and quickly spread to both ends, gutting the top floor and burning through the roof. The first and second floors sustained extensive water damage, said Barbara Delles, university public relations director.

,"We don't know if the building is a total loss," she said. "It will depend on whether it is structurally sound."

The displaced students were moved to available rooms in nearby dorms and to temporary living quarters set up at the gymnasium and physical education complex.

DeBoer said the university made arrangements for the dorm residents to call their parents to advise them of their safety. In addition, she said, the college bookstore and the library have placed needed texts on reserve for affected students and the university has arranged to make copies of class notes for them.

"After all, we're only five weeks away from the end of school," she said.

Distribution points have been set up for clothes donated by the university community for the fire victims, she stated.

More food stamps given; UMW strike, layoffs blamed

INDIANAPOLIS (AP) - The United Mine Workers strike, coupled with layoffs and several unmeasured layoffs and severance unemployment, forced an additional 7,300 Hoosiers into the Food Stamp program last month, state welfare officials said yesterday.

State Welfare Director Wayne A. Stanton said many counties reported significant increases in the number of persons added to the program last month.

A review of the February stamp issue was $7.8 million, an increase of nearly $115,000 over January 1978 figures, according to welfare statistics. But Stanton said the total increase ... (rest of the paragraph is not visible).

February, when strike-related electronic curtailments and unemployment reached a peak in area, according to Allen Greene, director of the State Welfare Department's Food Stamp Division. Including miners, 2,000 additional households joined the stamp program in February, he said. "We have about had 400 mining families in the food stamp program," Greene said. "It basically was at a seasonal increase rather than increase because of the strike. We usually have a seasonal increase this time of year."

Gibson County, in the heart of the southern Indiana coal mining area, reported an extra 90-100 households into the program last month, Green said.

Among other Hoosier mining counties, Vermillion reported an extra 30-35 persons to the program last month; Dubois had three while Pike had 50.

About 870 striking miners participated in the program in February, when strike-related electronic curtailments and unemployment reached a peak in area, according to Allen Greene, director of the State Welfare Department's Food Stamp Division. Including miners, 2,000 additional households joined the stamp program in February, he said. "We have about had 400 mining families in the food stamp program," Greene said. "It basically was at a seasonal increase rather than increase because of the strike. We usually have a seasonal increase this time of year."

Gibson County, in the heart of the southern Indiana coal mining area, reported an extra 90-100 households into the program last month, Green said.

Among other Hoosier mining counties, Vermillion reported an extra 30-35 persons to the program last month; Dubois had three while Pike had 50.

Carter asked to declare 2 counties disaster area

INDIANAPOLIS (AP) - Citing almost $30 million in damage during the past two weeks, Gov. Otis B. Bowen asked President Carter yesterday to declare flood-ravaged Allen and Adams counties in northeastern Indiana a federal disaster area.

Bowen's request came just one day after he announced that he had declared the two counties a state disaster area.

If Carter grants the request, the two counties will be eligible for low-interest federal loans for property owners and federal money for repairs and replacement of uninsured public facilities.

"This state has experienced severe and substantial damage as a result of flooding of the Maumee, St. Joseph and St. Mary's rivers in Allen and Adams counties," Bowen said in a letter to Carter. "This flooding began on March 15, 1978, and has continued through the present date, although the flood waters are slowly receding."

The letter, along with a survey of the flood damage prepared by federal, state and local engineers, was electronically transmitted to Washington.

State Civil Defense Director Milton M. Miltskin said it may be as long as two weeks before federal officials respond... (rest of the paragraph is not visible).

"It could be tonight. It could be tomorrow."

"I've been there for several weeks before federal officials respond."

"We have to talk to the governor."

"I've seen them twice and then not again."

"But sometimes they grant it within a couple of hours.

Bowed told Carter the flood waters crested in Adams County on Thursday at 87 feet above flood stage and in Allen County the next day at 75.7 feet above flood stage.

He listed damage at $379,244 for Allen county, $230,000 for private property and $200,000 in agricultural losses. The two counties already have spent more than $1 million to cope with the flood, Bowen said, including about $260,000 in state aid.

The two counties need federal money to restore public facilities, remove debris and assist in temporary housing and repair of uninsured residences, as well as extra food stamp coupons and unemployment assistance.

Community disaster, Small business Administration and Farmers Home Administration loans may also be needed, the governor said.
Irish fencers repeat Championship

by Paul Mallaney

KENSINGTON, Wis. - The Notre Dame men's and women's fencing teams have again reached the national championships, the first time the school has ever done so in almost as many years as the 1978 finals held at Wisconsin-Parkside on March 10-12.

Although Irish fencing had been in good shape for many years before this year, Notre Dame won its first national championship in 1978 when it was having the most success in the Midwest. This year, the Irish are following the trend set by their predecessors, with many of the country's top fencers. This year's team includes two national champions, a national runner-up, and two national finalists, and they are expected to do well in the national championships.

In the women's division, Notre Dame has two national champions, Roseann Sullivan and Margaret DeCicco, who will compete for the national championship. Sullivan, who was the national champion in 1978, is expected to perform well this year, and DeCicco, who was the national runner-up in 1978, is also expected to do well.

In the men's division, Notre Dame has two national champions, Paul Vaggo and Brian Schifrin, who will compete for the national championship. Vaggo, who was the national champion in 1978, is expected to perform well this year, and Schifrin, who was the national runner-up in 1978, is also expected to do well.

The Irish fencing team is expected to do well in the national championships, and they are expected to bring home at least one national title this year.
LEXINGTON, Ky. [AP] - An estimated 13,000 fans packed into Memorial Coliseum here and hundreds more clamored outside as Kentucky's NCAA basketball champions were feted with cheers, chants and official proclamations Tuesday night.

--"This is the prittest sight I've ever seen," said athletic director Cliff Hagan, who, as a member of Kentucky's, the highest percentage free-throw shooting team, enjoyed a similar reception in the same arena.

--"This basketball team will remember this for the rest of their lives," Hagan said. "I would like to welcome you to the basketball capital of the world and home of the 1978 NCAA basketball champions."

A huge paper banner reading "NCAA Champions 1978" hung from the ceiling. It was modeled after four permanent blue felt banners hanging in the coliseum, and in Rupp Arena, where the Wildcats now play their home games, to mark Kentucky's previous championships.

"We didn't have much time to get ready," Hagan said, pointing to the banner, "but it's gonna look awfully good hanging in Rupp Arena."

Gov. Julian M. Carroll led a parade of dignitaries reading resolutions and proclamations.

--"Today, we declared this day as Thanksgiving Day," Carroll said. "Where else would a team arrive at an airport at four in the morning and be greeted by 10,000 fans?"

He then proclaimed March 28 to April 4 as Wildcat Week in Kentucky.

Bob Joe Hall drew a standing ovation, as he declared this day as Coach Joe Hall Day, "It's a great moment here today, to show the players how proud we are of what they've done.

"Win or lose, I just don't like to lose a game," Cardinal Hagan said. "I don't like the kids, I don't like the teams. If you're Notre Dame's team, you're opposition, and the same holds true for Notre Dame's game, their juiced up attitude of playing their game, they're playing Notre Dame.

Yes, for a season that was so successful. It's sad to lose both. But one must look at the fact of the fact of the 21 Division I teams competing for those final spots, Notre Dame was one of the Final Four. It's been the greatest year in the history of Notre Dame basketball."

When it's tough to be knocked out in the end, the experience of the whole affair is invaluable. In addition, this year's basketball tournament, which lost both its final games had no competitors, was a great contribution to Notre Dame's basketball program.

The sports media in St. Louis questioned us on whether we have ever been there. If you'd only grown up in Kentucky and know what Kentucky basketball fan is all about, it's something you can understand basketball pressures," he said.

The Associated Press is a member of the Associated Press Group, which lost both its final games had no competitors, was a great contribution to Notre Dame's basketball program.

The Big Three

Some Things I Think

I sat in front of my typewriter for hours last night and tried to come up with a clever way to say a few things I think should be said. I guess I wasn't feeling very clever. So, without being cute, and at the risk of sounding a little bit more, which I certainly assure you I'm not doing here are some things I think:

I think the NCAA tournament is a bit overrated.

When I was a little younger and a lot more impressionable, I would watch the championship games on television. I always dreamt of being a star player myself (which I certainly assure you I'm not doing). I mean, I was a big dreamer. The thought of winning the job of being a star player myself (which I certainly assure you I'm not doing) was a source of great inspiration."

I have a lot of the people associated with the tournament are the true blue in common courtesy. Never before have I encountered so many people who seem to go out of their way to give others a hard time.

Why not? I think the NCAA tournament is a bit overrated. I mean, I was a big dreamer. The thought of winning the job of being a star player myself (which I certainly assure you I'm not doing) was a source of great inspiration."

The Big Three

A host of Irish and Razorback players wait for a rebound. The final bounce went to Arkansas, 71-69.
