Freshmen will find some overcrowding as they settle in when they arrive at Notre Dame due to an increasing trend among upperclassmen to live off campus. Edmund T. Price, director of housing, stated, "More upperclassmen than expected want to stay on campus," Price explained. He noted there seems to be a "national trend" to stay on campus, pointing out that Ball State, the University of Michigan and U.S.C. all "have problems with housing."

Director of Admissions John T. Goldrick said, "A lot of people think the dorms are overcrowded because too many freshmen are accepted. That's not true." He explained that the admissions office originally expected 1,650 freshmen to enroll, including 400 women and 1,250 men.

As of yesterday, Goldrick said "about 1,645 students" are expected, based on previous year's statistics.

Price said that some figures will be changing due to attrition and last minute changes in student's plans.

Several residence halls will have freshmen living in converted study halls. Grace and Flanner will each house 36 freshmen in nine study halls. Lewis hall will house eleven freshmen in study/dining areas, and 16 freshmen are scheduled to live in the Farley Hotel, in the basement of Farley Hall.

While none of the extreme measures to board students are permanent, Price said he does not know how long they will be in effect.

Price said the study halls are fully equipped as rooms. The biggest problem, he stated, is "depriving others of the study rooms."

Bro. Charles Burke, rector of Grace, said the converted study lounges are "real bad rooms." He noted that "there will be a problem with the other students returning expecting study lounges."

"Price stated that there will be no off-campus lottery among upperclassmen this year. However, he said, "it's something to think about for next year."

Overcrowding greets freshmen

by Michael Lewis
News Editor

It is not a crisis situation like we had a few years ago. thin is lighter than we want to be," Dean of Student Affairs Kathleen Rice said of Saint Mary's housing overcrowding.

It is expected that only 24 students will need emergency housing this year, whereas in 1975 the college had to use classrooms and lounges to handle 100 extra students.

Also this year's "emergency housing" is considerably more glamorous than the Regina Classrooms used two years ago. The alumni guest rooms in LeMans and the parlour rooms in Holy Cross will be used to house the students.

Rice emphasized that according to recent statistics it is expected that enough students will not show up that only 12 students will need the special housing.

"Every year some kids just don't show up for one reason or another," she explained. "The reason for this year's overcrowding was not that we incorrectly predicted the number of freshmen, but that upperclassmen did not withdraw at the normal rate, which really says something good about the college," Rice continued.

Over the past five years, Saint Mary's enrollment has grown tremendously, so that many triples have been made into quads, quads into quints, and so on.

This year Rice and Minnie Owens, director of housing, plan to spend some time altering the rooms. They will then decide which rooms to split into two smaller rooms, thus creating more doubles and triples and fewer quints and quads.

"We want to make life more comfortable for the students by alleviating the crowding that has occurred over the past five years, while maintaining the same number of students," Rice said.

This year's enrollment is 1,557 resident students and 1,800 total, including those studying abroad.

SMC Freshmen orientation commences

by Jean Pooley
Saint Mary's Editor

"We can't possibly tell freshmen everything they need to know about college life in a 48-hour period. During those first few days, they're more interested in getting used to their room, roommates and new friends anyway," Mary Laverty, Saint Mary's director of student activities explained.

That is the philosophy behind Saint Mary's new orientation program, "ASK.

"ASK is a combined effort by Mary Ellen Klein of the freshman office and myself to give students a complete orientation to all aspects of college life," Laverty said. "The four Tuesday night sessions from 9:30 to 10 p.m., Aug. 29 through Sept. 19, will address such matters as how to organize one's work, become acquainted with both Saint Mary's and the ND-SMC community, student government, how to use texts, developing special study skills, student activities, library information and career development.

The sessions will be held in O'Laughlin Auditorium and the Little Theatre.

Along with ASK, the freshman office offers counseling for its students. Advisors help students select the courses that will be most beneficial to them. The office also makes sure that all freshmen take the required core courses.

We want to give them the necessary information in a clear-cut way so they can take full advantage of the services we have to offer them. This will be our opportunity to ask any questions they may have," Laverty said.

The sessions will be held in O'Laughlin Auditorium and the Little Theatre.

Organization and cooperation are the reasons behind the expected success of the first ASK program, according to Carey Ewing, Orientation chairman. Ewing, co-chairperson Chris McNulty, and a committee of eleven students have been working since March to plan the events.

The coordination dance, featuring Unity, is scheduled to begin at 9 p.m. Sunday, in the concourse of the ACC, to give the new students a taste of the SMC. A mass will be held for transfer students 9 a.m., Sunday, followed by a breakfast at 10.

Future events include Activities Night, planned for Sept. 11, in the O'Laughlin Auditorium and the Little Theatre. Although tours for freshmen and their parents are not a new idea, Ewing claims there are more students and parents taking advantage of them this year. She attributes this to the previous year's enthusiasm of the committee and tour leaders.

The airport shuttles were like-wise in effect before, but have been more regular recently. "We've been scheduling the shuttles, one or two vehicles meeting every plane," Ewing stressed.

The committee also spent time during the summer to mail packets containing the Welcome Week Information Sheet to 1800 students for several years, their parents is not a new idea, the hard work of the hall committee and the South Bend area. Ewing noted that a special effort was made to contact the transfer students.

In addition to the Orientation committee, each hall is responsible for planning their own welcome. The hall committees are responsible for the registration desks and intrahall activities. Ewing explained. She also commented on the hard work of the hall committee members, noting that more dorm activities seem to be planned than in previous years.

Welcome Week

by Michael Lawie
News Editor

Monday kicks off the first annual Welcome Week, sponsored by the Notre Dame Student Union. A full week of activities has been scheduled to "help create a social atmosphere," according to Student Union Director Bill Roche.

"We want to create a social atmosphere, and we wanted to get going right at the beginning," Roche said. He added, "In the past the Union has always wanted to schedule activities, and the halls aren't organized yet to meet those demands. We're going to get the列 of activities for this week.

The total cost for the week will be approximately $6,000, according to Roche, although some return revenue from admission fees was expected.

Organization and cooperation are the reasons behind the successful Welcome Week for this year's incoming freshmen. According to Mary's of student life, the events for this week will be more planned than in previous years, the "enthusiasm of the committee and tour leaders."

The airport shuttles were like-wise in effect before, but have been more regular recently. "We've been scheduling the shuttles, one or two vehicles meeting every plane," Ewing stressed.

The committee also spent time during the summer to mail packets containing the Welcome Week Information Sheet to 1800 students for several years, their parents is not a new idea, the hard work of the hall committee and the South Bend area. Ewing noted that a special effort was made to contact the transfer students.

In addition to the Orientation committee, each hall is responsible for planning their own welcome. The hall committees are responsible for the registration desks and intrahall activities. Ewing explained. She also commented on the hard work of the hall committee members, noting that more dorm activities seem to be planned than in previous years.
John L. Van Wolseley, a 1945 alumnus of Notre Dame, was appointed in May to succeed Bro. Peter Paczesny, S.M., as assistant dean for Student Affairs. As such, Van Wolseley will be directing the Student Services Office for all matters pertaining to the religious, disciplinary, social, recreational and physical welfare of undergraduate students.

After his ordination at Notre Dame's Sacred Heart Chapel in 1966, Van Wolseley taught at Holy Cross Seminary until 1954. He was also a deputy of the Chancery office.

From 1955 to 1965, he was assistant superior and assistant principal at Notre Dame High School in New York. Afterward, he was assigned to the University of Portland, where he served in a variety of positions until 1976.

Prof. Emil T. Hoffman

Dr. Emil T. Hoffman has served as dean of the Freshman Year of Study Program at Notre Dame since 1971. He also teaches the Freshman general chemistry course, and has directed innovative instructional methods and techniques in teaching science topics to 1,000 students a year.

Since assuming the duties of dean, Hoffman has supervised a revision of the first-year curriculum, which has provided more educational flexibility in choosing major courses of study and place new emphasis on a counseling program which has lowered University attrition rates.

Hofman has been closely associated with the National Science Foundation teacher-training programs and with the Northern Indiana Regional Science Fair. He directed the International Science and Engineering Fair at Notre Dame in 1974. He has also served as assistant chairman of the Department of Chemistry, assistant dean of the College of Science and Dean of Students.

Dean Roemer

James A. Roemer was named Dean of Students at Notre Dame in July 1975. He had served as University counsel since 1972.

Roemer, a South Bend native, earned his B.A. in economics from Notre Dame in 1951, and graduated from the Notre Dame law school in 1955. He has held legal positions in the St. Joseph's County Prosecution's office, the South Bend Redevelopment Department and the St. Joseph County Board of Zoning Appeals. He has also held a part-time position as city attorney of South Bend.

Roemer is a member of the Urban League, the United Negro College Fund and Neighborhood Study Help, Inc.

Academic Affairs at SMC gains two assistants...
by Jean Powley
Saint Mary’s Editor

Theresa Marcy, part-time member of the Saint Mary’s government department for the past four years, and Sr. Francesca Kennedy, college registrar for the past six years, will jointly replace Gail Mandell as assistant to the vice president for academic affairs. Mandell is expected to return to full-time teaching in the humanities department. She had served as assistant for academic affairs for six years.

Marcy will assume responsibility for counseling upperclassmen on academic matters and will act as advisor to sophomores and juniors who have not yet chosen a major. Kennedy will also do some counseling, but will devote most of her time to those matters that directly relate to her registrar position. For example, she will keep tabs on students’ core requirements and compile lists of those eligible for certain awards. Kennedy will sit on the Academic Standards and Curriculum Study Committee.

The Registrar’s Office and Academic Office have always worked closely, according to Kennedy. Thus she termed her new responsibility the “logical extension of what I had been doing.”

Marcy will continue to teach six hours of government. She commented that she is looking forward to her new responsibilities, “but then it hasn’t gotten complicated yet.”

Neither Marcy nor Kennedy anticipates any major changes in procedure or policy.

Gail Mandell always made this a welcoming and friendly office and we want to keep it that way,” Marcy said.

Marcy received her bachelor’s degree in history from Saint Mary’s After graduation she went to France on a Fulbright Scholarship to study French politics. Kennedy holds a bachelor’s degree in English from Dunbarton College, a master’s in clinical psychology from Catholic University, and a doctorate in education from Columbia Teachers’ College.

...While Student Affairs Office creates Director of Residence post

by Jean Powley
Saint Mary’s Editor

Saint Mary’s Student Affairs Office has been growing and adding new services for several years. And this year a director of residence life is the office’s addition.

Sr. Carol Jackowski, LeMans Hall director, has been chosen to fill the newly-created post.

“IT will be my job to make sure that whatever is done in the residence halls concerning students is done fairly and consistently,” she explained.

“IT was a lot of negative feedback on this from students, so my position was created to ensure quality control in the residence halls,” Jackowski continued.

Her responsibilities will include training resident advisors (RAs) and overseeing the whole RA program; evaluating residence hall policies; clarifying existing policies and formulating new policies.

She will also work closely with Minnie Owens, director of housing, on procedures and problems with the mechanics of housing.

On the job since the end of May, Jackowski explained that she has been working on the RA orientation program and has also been evaluating the sign-out policy for freshmen and its effectiveness.

“That is the only remaining policy which does not fit in with our overall policy of letting students be responsible for themselves,” she said.

A native of East Chicago, Ind., Jackowski has been a member of the Saint Mary’s community since 1977. She spent four years as a campus ministry staff member before being LeMans Hall director last fall.

Before coming the the college she spent three years as a counselor at St. Joseph High School in South Bend and several years as dean of students at a high school in Hammond, Ind.

She graduated from Saint Mary’s with a degree in social work and did her graduate work at Notre Dame.

Student Government at Notre Dame has many parts and appears to be a tiny bureaucracy. The Student Body President (SBP), Vice-President (SBVP), their cabinet, the Board of Commissioners, the judicial Council, the Student Brothers, the Freshman Council, the Notre Dame Student Union and the Freshman Council. Each hall also has its own judicial board.

Each class has officers. The freshmen have a class president and treasurer, who resign at the end of the year. The sophomores have a class president, who is elected in mid-October and a class treasurer, who is nominated by the class and is responsible for all areas of student government funds. The SBP, SBVP, Treasurer, Student Union Director, Hall Presidents’ Council Chairman and Judicial Coordinator serve on this board which ties together and monitors the student government.

The Judicial Council is an appellate court that reviews cases heard by the judicial board. The Judicial Council is also the appeals officer of the judicial board. The council is composed of the Judicial Board Chairmen from each hall and the Judicial Coordinator. Offenses are categorized as hall offenses or university offenses and then handled by the appropriate person. The Judicial Board provides assistance to students accused of violating rules and regulations, and works to clarify the rules and regulations.

The Hall Presidents’ Council, probably the most representative body on campus, is comprised of all the hall presidents. Chuck Del Grande, former Fisher Hall President, is the chairman. The council meets weekly to discuss pertinent hall issues. The NPC sponsors and coordinates activities between halls and on campus such as Mardi Gras, as well as coordinating itself with campus issues.

SAINT MARY'S COLLEGE CAMPUS REGULATIONS
1978 CHARISMATIC RENEWAL CONFERENCE

1. Please observe no parking signs. It is important that emergency vehicles have access to all campus buildings. Thus, any vehicle blocking a road or in a no parking zone will be towed away at the owner's expense. Individuals with physical disabilities should contact a Security Officer for special parking arrangements.

2. On Friday, parking will be permitted only in areas indicated by the Security Officers. On Saturday, parking will also be permitted in the entire main parking lot west of LeMans.

3. Please observe the no smoking signs posted in all auditoriums and chapels. Food and drink are not to be consumed in the chapels, auditoriums or meeting rooms. Vending machine areas are available in each dormitory.

4. Auditoriums will be opened approximately one-half hour prior to the time scheduled for the program. Admission will be restricted to the seats available.

5. Between the hours of 11:00 pm and 7:00 am, the following entrances to the dormitories should be used:
   - Holy Cross Hall........Front
   - McCandless Hall.......East
   - LeMans Hall..........West (by Main Parking Lot)
   - Regina Hall........Center
   All others will be locked between the above hours.

6. Living in tents, trailers and motor homes will not be permitted on the Saint Mary's campus. Self-contained units may park on the campus. Picnicking will not be permitted on the campus since we do not have adequate facilities. There are several parks nearby. Check with the Security Guard for directions.

7. There is no space for sleeping bags on the Saint Mary's campus. The only exception is for properly registered children sharing a room with their parents.

8. Children under 14 are not to be left unattended in any dormitory or classroom building. Children found without supervision will be taken to the Security Office.

9. Telephone calls while on the campus must be made by dialing 9 for outside and 0 for the Long Distance Operator - either COLLECT or CREDIT CARD.

10. Food Service: Persons with housing at Saint Mary's will have all their meals at Saint Mary's...extra meal tickets may be purchased at the Centre for Continuing Education on the Notre Dame campus.

11. Key Return: There will be a key deposit of $2.00 payable upon room assignments and refunded upon the return of the key when you depart.

12. Book Store: The Book Store located in the lower-level of LeMans Hall will be open Friday ONLY. The hours will be 9:00am until 3:00 pm.

13. Campus Shuttle Buses: Shuttle buses will circle the Saint Mary's campus and the Notre Dame campus, and will stop at clearly marked bus stops approximately every fifteen minutes. Buses will not run after midnight on Friday and Saturday on the campuses. Special buses that will run directly to Saint Mary's will operate immediately after the closing General Session each day from the Library's driveway.

14. The chapels in LeMans and Holy Cross on the Saint Mary's campus may be used for personal prayer during the Conference.

15. Conference Headquarters: A central information desk is located in the lobby of LeMans Hall. Telephone number 5788.

16. An information desk is available in each hall lobby. Please refer all questions to this desk and the Hall Director.

17. A Charismatic information center will be set up on Miller Arcade, adjoining O'Laughlin Auditorium.

Solving Problems

After he was appointed Director of University Housing last May, Edmund Price stated that he "would like to spend more time in dealing with students about their problems." Overcrowded dormitory rooms should give Price ample opportunity to fulfill his wish. It is possible that he has examined his own problems. Overcrowding might have been prevented, or at least alleviated, if Price had listened to his own statements.

For instance, after receiving 4417 housing contracts - 183 more than the number of residents last year - Price said he did not see any reason for concern about student housing for this school year. While Price admitted that rooms had to be found for another 28 women resident students, he claimed his problem had already been solved. At the same time, Price hinted the possibility of overcrowding in men's dormitories existed.

The reason Price gave for this year's overcrowding is the increased number of students who wished to remain on campus after freshman year. However, in an Observer interview on May 5, Price pointed out this national trend and related it to the problem at Notre Dame.

It seems that Price knew overcrowding was more than a remote possibility; yet the only action he took was to investigate the housing facilities at Holy Cross Hall and assure students "special temporary housing will be provided if necessary." He did not mention that temporary housing would include the study halls of Grace and Flanner or the dining-study areas of Lewis.

Now that "if necessary" has become a reality, perhaps Price can find time to talk to the students about the problems he foresaw but did not correct.

Appreciation Due

In the past, freshmen have been heartily welcomed to the Notre Dame - Saint Mary's community, and justifiably so. Now, for the first time the Notre Dame Student Union has taken steps to welcome all students back to campus.

The innovation of Welcome Week will not only show freshmen the social side of Notre Dame - Saint Mary's life, but will provide an excellent opportunity for upperclassmen to have one last fling before the academic rush.

Welcome Week, as explained in the SU letter sent to all students, will provide the chance to "get out, meet people, and really enjoy yourself." It is an answer to those students who complain about lack of activity until the start of football season. Movies, dances, concerts, and the Polish wedding will be a refreshing change from the typical "mixer" planned mainly to entertain freshmen.

Perhaps the most important aspect of Welcome Week will be its success, depending upon student involvement. The work Student Union accomplished over summer "vacation" may well be lost if the rest of the ND-SMC community remains apathetic.

The ND Student Union deserves appreciation. Show your support and do yourself a favor by enjoying Welcome Week!

Advice to Anxious Faces

Any students who have returned to this campus early have seen your faces - the anxious faces of freshmen and their parents. Where do we go? What do we do? Is this what college is really like? Relax. First of all, you must remember that everyone is a freshman. Everyone is going through the same doubts for some of us seems like a long time ago.

Second, the transition from high school to college, at least at Notre Dame, is not as difficult as one might think. Academically, you have few credentials; but even if you fail, there is the timely assistance of Dean Emil T. Hoffman and his capable staff at the Freshman Year of Studies to help pull you through. Socially, the changes may be a bit more pronounced, depending upon the initial environment to which you are accustomed. If you've never taken date then underwrought in for shock. But if you're expecting a replica of National Lampoon's Animal House, you'll no doubt be disappointed.

After a while you should begin to enter and you might ask yourself, "How can I make most of my college years?" Although there are almost as many different answers to this question as there are people, three basic responses are obvious. Some will say constant study is the best use of college time because good grades insures a good future. Others will say constant partying is better; as long as you keep up your school you'll have a good time. Still others will argue for a combination of involvement in campus organizations and activities with a balanced and diverse personal life.

All of these three of these responses are extreme. But by combining these three areas of involvement and view of the courses you are interested in, you should begin to develop a well-balanced and satisfying college experience.

The primary reason for attending any university is to learn. Whether this desire to learn is motivated by a theoretical desire to become an educated man or by the more practical desire to get a good job, there will be a great deal of bearing upon what you may decide to major. But if you do not necessarily preclude certain arrangements, social, academic, and extracurricular activity. This is because learning often occurs outside the classroom. You learn shooting the bull with your roommates, trying to pick up an attractive member of the opposite sex, building a stage for a play, or even assimilating in the publication of a newspaper.

But learning outside the classroom can be very different from learning in the classroom. Some classes require a passive student, one who takes good notes and follows lectures. Other classes require an active student, one who is willing to try new things, meet new people, learn new things.

You want to know how to get the most from your college years. It's simple - be an active student, take an active role in the classroom and activities. That's the simplest of lessons that those who get the most are the ones who give the most.

At the Observer we bid the class of '79 welcome and we hope that you make the most of your college years. Work hard, play hard, and learn at Notre Dame.
think the Observer covered it. That's her room across the hall; the one done in late Fruit-of-the-Loom. Well, I'm not sure if she washed them first. I think she was afraid of bluming the phone numbers. She was going to take Father Hesburgh to the Shmooish Hall formal, but it didn’t work out. I think he might have been busy that weekend. Screrks has the only single in the hall; her roommate found out about her shrunken head collection and moved to the rec room. Well, yes, it is a little noisy down there, but then she gets to food sales before anyone else. Oh, my God—Rana Tunserb's got another guy, Rana's sort of the section Casanova. How many? I don't know; we lost count after the first week. I can tell you this much, though: that girl's had more dates than Zakhi has cockroaches. She's got what is probably the most comprehensible little black book on campus; when they were making up the phone directories for the Towers, they made her chief consultant. That's her roommate, Neil Andrews; I think she’s on her way to the library again. Neil has to spend a lot of time at the library these days. She's president of an organization known as R.O.S.S.—stands for Roommates Of Soils and Soilettes. If you're known solely as your roommate's roommate, then you're eligible to join. There are lots of advantages to belonging to R.O.S.S.: you get your own cot at Stepam Center, in case your room's being - um used; and once a week, everybody gets together at Lafette for a hot game of gin rummy. R.O.S.S. has won all times; they had a chugging contest last weekend. It lasted too long; the floor was all wet after about two hours. I guess they just didn't hold their Dr. Pepper.

Don't look now—but you see that backpack on two legs shuffling down the hall; the guy lives in room 575; she lives here at all; that's Mortalla Sned, our current-in-residence. Then, I said, we don't see much of Mortalla around here, except on weekends, when she comes home from the library to do her laundry. She likes to measure dipole moment in the spare time. Guys? — well, no, but I understand that she did have an amorous passion for an I.B.M. machine once. That’s her roommates boogying in from dinner now; Jess Richards, better known as the "Disco Kid". Jess is the only person I know who can Pretzel with herself. We had a little accident at our last section party;"got down" just a little too far and dislocated some guy’s shoulder. The room door belongs to Captain Sarah; she's the section owes her money—at seven per term. She's a pretty tough one. I believe B.A. is using them for rolling papers.

That room on the left used to belong to R. J. Twidger, philo major and noted crook. He's probably out of jail now. Captain is one of those very few guys who belong to the Towers; he has the chief consultant position. That's her roommate, Nell Andrews; I think she’s on her way to the library again. Neil has to spend a lot of time at the library these days. She's president of an organization known as R.O.S.S.—stands for Roommates Of Soils and Soillettes. If you're known solely as your roommate's roommate, then you're eligible to join. There are lots of advantages to belonging to R.O.S.S.: you get your own cot at Stepan Center, in case your room's being - um

RA's and rectors help create community spirit

by Diane Wilson
News Editor

"The Freshman Year of Studies office is responsible for the academic program and counseling that is needed," said Dean of freshmen, Emil T. Hofman. This is done through five units: the academic program, systems, guidance, learning resources and special projects. The academic program unit arranges programs and courses according to University regulations and the overall objectives of the various college programs. Hofman explained that the systems unit is responsible for implementing the programs arranged by the academic program unit. It does the scheduling and registration for freshmen as well as the processing of changes and keeping of records, Hofman continued.

The guidance unit provides the academic and personal counseling for freshmen, he said, adding that it "administers the guidance testing program and interprets the results of the tests. The learning resource center includes the Tutoring Program, the Learning Skills Program, the Audio-tutorial Laboratory, and the Academic and Career Information Library," Hofman said.

He also noted that the special projects unit is concerned with a number of activities of various kinds. The guidance program, which has an administrative director, several undergraduate senior interviewers and consultants from among the faculties of the many departments of the University.

Hofman emphasized that all freshmen must attend their general counseling sessions tomorrow morning at 9 a.m. The location of these sessions will be given to freshmen as they move into their halls. He continued that counseling is available to all freshmen at any time. All the student needs to do is call or stop in the office and make an appointment.

The tutoring program which is another important program for freshmen is available to those freshmen whose survival in a particular course requires assistance beyond that which can be reasonably given by the teacher or staff of the course. Hofman said these students should seek the help available.

"At the center of the Freshman Year of Studies," Hofman said, "is the Freshman curriculum—the set of courses taken by freshmen. The objectives of the courses taken by freshmen are first to provide a good foundation in liberal education and second to provide an opportunity for freshmen to find out what they need to know in order to make an informed decision about a major program of study."

On-campus entertainment abounds

by Robbie Moore

Ninety-nine percent of the world population feels the need to get away and enjoy a little "R&R" from time to time, and students are no small exception. Fortunately, there are a wide variety of things to do right here on campus, so finding an excuse for taking a break is an easy matter.

For the after-dinner strollers there's always that twilight walk around St. Mary's lake. Better to try it before midnight though, unless you want to risk tripping in the dark.

After that leisurely expenditure of energy you might want to rest your feet at The Nazz, a quiet entertainment spot for those early evening hours. Located in the basement of LaFortune Student Center, and run by the students, The Nazz offers a wide variety of amateur performers. Snacks are to be enjoyed while you listen.

For the late-nite crowd the versatile basement of LaFortune strikes again. The form of entertainment is late-hour (or early morning) studying, usually lasting until 4 a.m. A cocker spaniel named Darby being the propogator, the hang-out is appropriately christened Darby's Place, and doughnuts, hot chocolate and coffee can be obtained under the watchful eye of Darby and his master, the University Chaplain Fr. Robert Griffin.

More in the coffee shop-snack bar line is available at Saint Mary's. Eats are found in the lower level of the dining hall, with hours as follows: Monday through Thursday, 10:30 a.m. to 3 p.m. and 4:30 p.m. to midnight; Friday, 10:30 a.m. to 3 p.m. and 6:30 to midnight; Saturday, 6:30 to 8 p.m.; and Sunday, 6 p.m. to midnight.

Cultural Activities

For those interested in something a little more serious than mud sliding, the Sophomore Literary Festival plays host to a Number of literary speakers during the spring.

Throughout the year, the Student Union also invites an interesting array of political, literary and popular interest speakers. Music, too, can be enjoyed on campus thanks to the Notre Dame Glee Club, the Notre Dame Band (which you may catch practicing in the quads if you are in the right place at the right time), the Notre Dame Jazz Band, and various music students who also give concerts from time to time.

Sports-minded people can take out their frustrations by using the athletic facilities at both Notre Dame and Saint Mary's. Ice skating, raquetball (courts must be reserved in advance), basketball, track, tennis and weight room facilities are found at the ACC, located down by the football stadium.

At the Knute Rockne Memorial Gymnasium (more popularly referred to as the Rock) you can enjoy swimming, basketball, racquetball, gymnastics and weight room facilities. Notre Dame also has a wrestling room.

Recently completed at Saint Mary's, the Angela Athletic Facility provides a large active area with three interchangeable courts for tennis, basketball and raquetball, a multi-purpose area for fencing, gymnastics, dance, aerobics, exercise; plus two raquetball courts.

The swimming pool in Regina Hall is also available for Saint Mary's students to use.

Last but not least, don't forget the opportunities provided by the great outdoors, such as tennis (courts are located near the ACC), golf and free-style football and frisbee on the quads. Beaching it is another possibility afforded by St. Joseph's lake.

Inter-and intra-hall sports are also available, ranging from tennis, basketball and volleyball to football, soccer and softball.

For those who do not choose to participate, loyal fans are always welcome to watch the various events. Times and places for games are usually posted in the halls.

Other Sources of Entertainment

The quads always lend themselves to eating out-of-doors, the first such event to be the annual Campus picnic during the first week of school.

Emil T. Hofman, dean of the freshman year of studies, organizes barbecues, trips to the dunes, snow parties and a trip to Chicago for freshmen each year. These activities are known collectively as "Emil Parties."

Home beer approved

WASHINGTON [AP] - Those who like their beer home-made won a round in the Senate yesterday. By voice vote and without dissent, the Senate approved a bill that would allow the adult head of a family to make up to 200 gallons of beer for household consumption.

The Senate also completed congressional action on a separate bill revising Customs Bureau procedures in an effort to ease America's re-entry into the United States with merchandise from abroad.

The bill would increase to $300 the amount of duty-free property that may be brought into the United States and levy a flat 10 percent duty on nearly $500 worth.

The legislation now goes to President Carter.

The home-brew measure would exempt do-it-yourself beer from the 29-cent-per-gallon federal excise tax and would cost the federal government an estimated $1.5 million a year in lost revenue.

It would put producers of home-made beer on the same legal footing as those who make their own wine and drop the current requirement that wine-makers register with the Bureau of Alcohol, Tobacco and Firearms.

Another part of the Senate had passed bill, however, one likely to cost about $1 million a year, would have required cooks to do it themselves for a refund of tax paid for home-distilled aviation fuel. The refund now was allowed only for the farmer.
Michiana offers entertainment variety

by Mark Root

Those who traveled here through the miles of flat terrain to the west, or south probably have the uneasy feeling that their chosen University is surrounded by one vast Indiana cornfield. As to the proximity of the much dreaded Hoosier wastelands there is a certain amount of disagreement among uppereclassmen.

However, the geographical corner you are now in, an amalgamation of restaurants, cinemas and malls known as "Michiana," is generally considered to be a cultural neutral zone, but fairly full of entertainment.

The establishments offering off-campus relief can be divided into mainly six areas: drinking, eating, dancing, shopping, theatre, and culture.

Where drinking is concerned there are four bars within walking distance off campus that cater to serious imbibers. On the corner of Eddie and Corner there are three of these—Corby's, Bridge's, and Nickie's—compete for the no-frills hard-core business. Because of this they frequently offer specials that allow one to hang out all night and go easy on the wallet at the same time.

Goose's Neck, on Notre Dame Avenue, is the highly popular Library, and offers much the same.

For those who are under 21 the "Mich" part of Michiana might be more hospitable. While all the South Bend bars are more or less accessible it is important to note that raids are not terribly uncommon (there were three last year).

You will receive less grief at Kibbick and Shyla's, two bars that have drinks, live bands, and most importantly, a 19-year-old age requirement. They are located in Michigan of course, and the Student Union runs a shuttle bus called The Quickie between those spots and campus on weekends.

If your tastes run toward doing the best place in the area is Cinemas in downtown South Bend. Dress is required, there is a cover charge, and the price of the drinks reflect the fact that it is not encouraged by any other disco in town.

In the food department there is a wide variety, all the way from the 3 a.m. greasy spoons to the acceptably inexpensive to the fairly full of the best seafood in the Midwest (if you are from the coast you will soon learn that this reputation is not hard to earn). Holly's Landing in Mishawaka and Eddie's also offer palatable food and drink.

There are plenty of theatres in the area. All the malls have a few and the downtown is blessed with four. Besides that, the current movies in town can be found on the Features page of The Observer.

For shoppers there are three malls known as "Michiana," each with its own merits. Northland Mall for pizza or sandwiches, Barnsby's is probably the best. Warning, there is no way you can get into Barnsby's on football weekends.

In fact, you can't get into any of these on football weekends, though if you are aggressive and don't mind braving the crowds there is a number of higher priced places that cater to harder tastes. The Bow's Head has beef primarily, a good salad bar, and serves a loaf of hot bread before dinner.

Captain Alexander's Moonraker has atmosphere going for it, and they are said to have some of the best seafood in the Midwest (if you are from the coast you will soon learn that this reputation is not hard to earn).

Holly's Landing in Mishawaka and Eddie's also offer palatable food and drink.

Notre Dame's long history unfolds

by Maribeth McCrea
Staff Reporter

Notre Dame is one of the most famous Catholic institutions. It is a higher learning in the United States. The University was founded in both its high academic standards and championship athletic teams. The University stands as a leader in the pursuit of quality education.

In 1844, John Francis Sorin, the University's founder, founded the University of Notre Dame in South Bend, Indiana. The University was named in honor of the University of Notre Dame in Paris. The Notre Dame name was not typical of other Catholic universities. In fact, the University was one of the youngest presidents ever appointed at a major university.

In 1879, however, tragedy struck Notre Dame. A fire destroyed the Main Building, which was totally renovated by 1881. The University gradually grew over 50 years in varying capacities, including terms as president and chairman of the Board of Trustees. The second major question involved the role of women and what position they should play in the future of the University. It is a constantly changing and growing place. It possesses a tradition that makes it like no other school.

The University gradually grew from a seminary into a college into one of high academic reknown. In 1870, however, tragedy struck when the Main Building was totally destroyed by fire. Through the efforts of both the community and students another building was erected just before the fall term as president of the University.

The University received its recognition in two ways. It possesses a tradition that makes it like no other school.

The University stands as a leader in the greatest periods of physical growth and expansion. Undergraduate enrollment grew from 300 pre-war to 5100 post-war. "Terrill," consisting of barracks converted to housing for married veterans, was built on the eastern end of campus. In 1952 the presidency was assumed by Fr. Theodore Hesburgh, one of the youngest presidents ever appointed at a major university. The University's 135-year history.

Notre Dame is one of the most famous Catholic institutions. The University's 135-year history. Today he heads an institution with over 1000 students, including about 1000 women.

Who's who?

[cont. from page 4]

awards given Father Hesburgh is the Medal of Freedom, the nation's highest civilian honor, bestowed on him in 1964 by President Lyndon B. Johnson.

Hesburgh was born in Syracuse, N.Y. on May 25, 1917. He was educated at Notre Dame and the Gregorian University in Rome, from which he received a Bachelor of Philosophy degree in 1940. He was ordained a priest of the Congregation of the Holy Cross in Sacred Heart Church on the Notre Dame campus June 25, 1943. Following his ordination, Hesburgh continued his study of sacred theology at the Catholic University of America, Washington, D.C., receiving his doctorate (S.T.D.) in 1945. He joined the Notre Dame faculty the same year, and served as chaplain to World War II veterans on campus in addition to his duties in the theology department. He was appointed head of the department in 1946, and the following year was named executive vice president in the administration of Fr. John J. Cavanaugh, University president.

At the age of 35 in June, 1952, Hesburgh was appointed the president of Notre Dame. His administration has marked one of the greatest periods of physical growth and internal development in the University's 135-year history. Today he heads an institution with over 1000 students, including about 1000 women.

Pope election begins

VATICAN CITY (AP) - One hundred and eleven cardinals were locked within the frescoed walls of the Sistine Chapel yesterday to begin their tradition-bound quest for a new pope - 262nd successor to the throne of St. Peter and spiritual leader of the world's 700 million Roman Catholics.

The cardinals, largest papal electorate in modern history, will raise the eyes of the world turned to the frescoed walls of the Sistine Chapel yesterday to begin their tradition-bound quest for a new pope - 262nd successor to the throne of St. Peter and spiritual leader of the world's 700 million Roman Catholics.

With the cardinals locked away, the eyes of the world turned to the hooded chimney on the chapel roof that will bring first word a new pope has been chosen. After each vote, the cardinal's ballots will be burned, sending puffs of smoke up the chimney. Black smoke signifies an inconclusive vote, but chemicals will be added to turn the vapor white when a pope is elected.

Black smoke signifies an inconclusive vote, but chemicals will be added to turn the vapor white when a pope is elected.

The first order of business for the cardinals, largest papal electorate in modern history, will raise the eyes of the world turned to the frescoed walls of the Sistine Chapel yesterday to begin their tradition-bound quest for a new pope - 262nd successor to the throne of St. Peter and spiritual leader of the world's 700 million Roman Catholics.

With the cardinals locked away, the eyes of the world turned to the hooded chimney on the chapel roof that will bring first word a new pope has been chosen. After each vote, the cardinal's ballots will be burned, sending puffs of smoke up the chimney. Black smoke signifies an inconclusive vote, but chemicals will be added to turn the vapor white when a pope is elected.

The 1977-78 season was proclaimed "The Year of the Irish." It was undoubtedly one of the most fruitful years of athletic competition at Notre Dame. The Gaels had been blessed with the National Championship which they had probably dreamed about since their freshman year. In 1973 they were told that they had been born one year too late as the Fighting Irish had just turned in a perfect 11-0 season in their prior campaign. Once again it could be said that the Class of 1980 has arrived one year too late, but don't count out any Fighting Irish team yet.

Missing from last year's 11-1 squad are eight starters, including All-Americans Ross Browner, Ken MacAuley, Luther Bradley and Ernie Hughes. Also missing will be NFL draftees Steve McDaniels, Fry, Ted Burgmeier and Doug Becker. Yet the experts are picking Dan Devine's crew to bounce back against a schedule that includes Michigan and Pittsburgh at home and Michigan State, Georgia Tech, and Southern Cal on the road.

Regardless of the outcomes, the upcoming season assures a lot of excitement under the Golden Dome. Obviously prognosticators have their reasons for picking the Fighting Irish to live up to their heralded tradition. The offense has eight starters returning including the entire backfield that put a record setting 382 points on the board last year and averaged nearly 500 yards per contest. Since the right side of the offensive line graduated Devine will have to order his runners to head for the left side of the field. Vagas Ferguson and Jerome Heavens should be ready to do just that. Heavens comes off an "almost 1000 yard season" (994 yards in regular season competition). If Ferguson can pick up from where he left off at the Cotton Bowl--100 yards, three touchdowns and the game's MVP award--then Devine will be smiling most of the season.

Joe Montana will keep returning split end Kris Haines in his gun sight most often with the tight end position still being contested in fall practice. Tom Domin will also be coming out of the backfield from his flanker position.

Center Dave Hancock anchors the__('teh___') __teh___ middle and if he can find a replacement for MacAuley, "the Comeback Kid" will become one of the most talked about players in the nation.

The experience side of the line. Jim Hassman, Tim Huffman and Bob Martinovich are the prime candidates for the left side of his line and their success will play a large role in Notre Dame's defense of the National Crowns.

If the offensive line is shaky, then the defensive line is trembly-trembling. Mike Calhoun returns to his right tackle slot but the familiar face and injuries make the rest of the line very questionable but the talent may be there. Jeff Weston returns to tackle to give his double surgery knee one last try. Scott Green underwent knee surgery and cannot be counted on. Defensive end Hardy Rayam has had his physical troubles but seems ready to go as is Tom Vandenburgh.

No coach shrugs off injuries, but the one place the Irish could survive this devastating fate is in the linebacking corps. One could play any combination of six players and still have one of the top throub noses in the country. All-American candidate Bob Golli leads this crew of strong men. Golli comes off a spectacular year as the leading Notre Dame tackler. At the left end linebacker spot for his third campaign as a starter is Steve Heimster while Leroy Leonpold mans the other outside slot. Mike Whittington walks in the wings as does highly touted fresh Bob Cralle and fifth year senior Pete Johnson.

The backfield is secure despite the loss of Bradley at fullback. West can play any combination of six players and still have one of the top running backs in the country.

One player who won't start but should make major contributions to the team is Jim Stone. Stone showed signs of brilliance last year behind Ferguson and is a lot of action as a dangerous weapon through the middle of the line. Mike Calhoun is a strong crew of fresh from around, Devine could pick up the depth his team will desperately need if they are to figure as a top contender. Joe Retic will once again handle the punting chores with Joe Unis holding the edge as Reeve's replacement.

The best thing about the 1978 Fighting Irish season is that anything could happen while nothing can be expected. Win, lose or draw, it's an excellent year to be a spectator at Fighting Irish football games.
