Mckenna announces plan at HPC to extend student voice on policy
by Kevin Richardson
Staff Reporter

Student Body President Andy McKenna announced his "plan for action" regarding student
voice in the last meeting of the Hall Presidents Council (HPC), he stated.

McKenna's plan calls for a strong voice for student participation on all University regulations,
particularly those concerning hall life, and initiate and review actions in all areas of Student Affairs.

The plan states that the Vice-President for Student Affairs must act upon such proposals or veto them.
In the event of a veto, he must return to the house the reasons for his decision. This
decision may then be appealed to the Provost, and, if necessary, to the President of the University.

This plan consists of reasonable and constructive actions which are geared to achieve maximum stu-
dent support on Oct. 13, the day of the Board of Trustee meeting.

There are four main events which will be held to garner support for the plan, according to McKenna.

The first of these will be a series of articles and columns geared at educating students and stimulating their interest in the history and current status of student rights and alcohol regulations.

"We will also conduct a hall-to-hall campaign where the Student Body Vice-President, Judicial Co-
dinator and I will go door to door in each of the dorms with the respective hall president to discuss with students our solution to the current problems and the ways in which they can help," McKenna said.

A Student Rights Forum will be held on Sept. 28 in Washington Hall with students, Fr. John Wolvler, vice-president for Student Affairs, Dean of Students James Roemer, and University General Counsel Philip Facenda.

"This event will give students a unique opportunity to have direct communication with administrators on the topics of student rights and alcohol regulation," McKenna said.

"One last activity will be to set the proposal in petition form and solicit 3,000 student signatures through HPC petition drive," McKenna stated.

McKenna hopes the combination of the four events will maintain student enthusiasm for the plan.

"We have a well-thought out plan designed to keep us from peaking too early," he said.

Hussein disrupts triumph of Camp David Summit
WASHINGTON (AP) - The mood of triumph that swept the capital with the successful end of
the Camp David summit was shaken yesterday by sharp arrows from Jordan's King Hussein and
liberating Sandinistas over interpretation of the accords.

While President Jimmy Carter and the leaders of Egypt and Israel tried to maintain the momentum toward peace, their hopes were jolted by an official announcement that the accords were not An American official, who

**Begin's party support low**

JERUSALEM - Prime Minister Menachem Begin appears to have a strong supporter in Parliament for the agreements he signed with President Anwar Sadat of Egypt but reportedly he is in so much trouble with other members of his party that he could be forced to resign. Two of Begin's 18 Cabinet ministers are likely to quit if the two documents negotiated at the Camp David Middle East summit are ratified by the Knesset, or parliament. However, even if Begin were to quit as head of the right-of-center Herut Party, the arithmetic of the accord is far from over. By a vote of 59-39, the Senate declined to send the government's cause. Officials said they understood Smith and Hayakawa, R-Calif., to meet with President Jimmy Carter as a critical section of his energy plan. But opponents said the fight was far from over. By a vote of 59-39, the Senate declined to send the multi-billion dollar compromise back to a House-Senate conference committee for redrafting, a move that supporters said would kill it.

Smith's entry questionable

WASHINGTON - The State Department said yesterday it has not decided whether to allow Rhodesian Prime Minister Ian Smith to visit the United States on a private mission to promote his government's cause. Officials said they understood Smith and three associates have accepted an invitation from Sen. S. I. Hayakawa, R-Calif., to meet with U.S. political leaders and supporters. But department spokesman Hedinger Carter said not decision granting entry to the four will be made until after their application is received.

**Prof. Cacioppo to participate in psychology research conference**

by Ed Moran Staff Reporter

John Cacioppo won't be at the Notre Dame-Michigan football game this Saturday. Cacioppo, an assistant professor of psychology at Notre Dame, will travel to New York City to participate in "The Second National Conference on Cognitive, Behavior Therapy Research." Cacioppo will speak about recent research gains made at Notre Dame concerning "the electrical-physiological assessment of cognition."

The psychologist explained yesterday, "We have designed that measure the electrical activity of various places on the body, like the face and hands, to measure the electrical activity generated by the subject's thoughts or cognitions."

"These cognitions are then compared with the findings. What we are doing is measuring the main electrical processes generated," he continued. Cacioppo gave an example: "Place your hand flat on a table. Concentrate on your index finger. Tests would show that minute levels of electrical activity were generated in that finger merely by thinking about it."

"Ultimately," Cacioppo continued, "we would like to associate various electrical responses with corresponding thoughts or thought processes. For example, we have found that a person in a state of depression emits a unique, detectable level of electrical activity as compared with a person not in a state of depression."

Cacioppo will be one of five panelists speaking on this topic at the conference, which will gather "leading researchers and clinicians" from around the country. It will be held at the Statler-Hilton in New York Saturday and Sunday.

Cacioppo said he majored in economics as an undergraduate before earning his doctorate in psychology. He took his first psychology course during his senior year. "It was then that I found out how much I love research. I really enjoy doing research. I could do it for the rest of my life," he commented.

Scholarship program accepting applications

by Rick Travers

Applications are now being accepted for those interested in participating in the Luce Scholars Program, a nation-wide program for exceptional students interested in living, working, and studying internationally in Asia.

Participants are placed in jobs and internships according to their specific professional interest. Candidates must have given evidence of a potential for professional accomplishment within that field and strong personal motivation. Placing emphasis on career rather than academic goals, most of the scholars is formally enrolled in a college or university, and no academic credit is given. The objective is to develop a new level of understanding among future leaders.

To be eligible for the Luce Scholars Program, an applicant must be an American citizen who has earned a bachelor's degree and who will be no more than 20 years of age by Sept. 1, 1979. Scholars will be chosen on the basis of high academic achievement, outstanding leadership ability and strong career interests in a specific field other than Asian affairs or international relations.

Candidates must submit biographic information, a personal statement of interests and career objectives, academic transcripts, and four letters of recommendation to Professor Donald Costello no later than Nov. 27.

Professor Mahajlo Mihajlov, a Yugoslav dissident, spoke to an audience of over 100 people in the Library Auditorium last night concerning his struggle for human rights in Yugoslavia. Mihajlov also discussed his attempts to achieve freedom of press, a freedom he seeks in order "to speak out fully to tell the Yugoslav people about his spiritual experiences and thoughts."

Mihajlov stated that even though Yugoslavia is "the most liberal country in the Communist world," its one-party political system prevents any human rights. "Laws in a one-party system are meaningless," he told the audience.

Most of the controversy surrounding Mihajlov stems not from what he wishes to print, but from his refusal to submit to government censorship. Mihajlov was imprisoned in 1966 for attempting to organize an independent newspaper, which the government considered a "subversive underground organization."

He has since been tried and convicted for writing articles which appeared in foreign papers. Mihajlov spoke at length concerning his concept of a "religious renaissance." He does not think that all the problems of his country can be solved by military triumph over Communism. But he added, individual struggle and victory are possible through the "safeguarding of spiritual freedom."

The "mighty totalitarian pressure of the external world" controls some people, but Mihajlov believes that if one renounces everything that outside forces can take away, he feels "a joy... God."

"He also emphasized that a "concept of social awareness" is important both for the individual and a government. Mihajlov suggested that the "laws of the cosmos do not depend on us, but we must acknowledge them." If we do not, he explained, we feel loneliness, and impose it on others.

Mihajlov stated that governments, including that of the United States, should realize that a country's independence does not ensure freedom for the citizens. Yugoslavia is an independent country, Mihajlov noted, but freedom is impaired by the Yugoslav government.

The lecture was co-sponsored by the Student Activities Commission, the Center for Civil Rights, and the Institute of International Studies.

In final proposal

Price resolves Frosh housing

by Neal Patterson

Yesterday afternoon Edmund Price, director of Housing, met with approximately 25 freshmen and the rectors of Flanner and Grace to review the University's final proposal for those freshmen who still will live in study lounges in Flanner and Grace.

Under the plan, all study lounges will be vacated by the beginning of next semester. Those freshmen who are currently living in study lounges will be allowed to remain for the rest of the semester, if they wish.

Any spaces which open up during the rest of the semester in Flanner and Grace will be made available to the students. As students begin to move out of the lounges, those remaining may be moved together so that each occupied study lounge contains four people and there are as many vacant lounges as possible.

Those freshmen who want to move out of the study lounges during the first semester must notify the Housing Office by Monday September 25. Once notification is made, the student is obligated to take the first space that is made available to him by the Housing Office, regardless of the location.

"While attempts will be made to see that first choices are given, no assurances can be made," Price said.

If a student does choose to remain in a study lounge for the rest of the semester, he must notify the Housing Office of his dorm choice for next semester sometime during the first semester. Those students who wish to remain in the halls that they are presently in will be reconsidered and will be allowed to remain there if the space is available.

If we do not, he explained, we feel loneliness, and impose it on others.

Mihajlov stated that governments, including that of the United States, should realize that a country's independence does not ensure freedom for the citizens. Yugoslavia is an independent country, Mihajlov noted, but freedom is impaired by the Yugoslav government.

The lecture was co-sponsored by the Student Activities Commission, the Center for Civil Rights, and the Institute of International Studies.

Free University offers courses for fall semester

by Gregory Selman

Free University, which offers academic and special interest courses to Michiana area residents as well as the Notre Dame and Saint Mary’s community, will begin the week of Oct. 9.

Several psychology and health courses highlight this year’s program, as well as courses ranging from auto mechanics to ballet. Also included among the semester’s offerings are courses in guitar, government and history. Registration booklets outlining the available courses will be delivered this weekend to each hall.

Bill Caldwell and John Eardley, co-chairmen of the 1978-79 Free University, noted that last year’s registration procedure has been changed. This year, registration is in the fall to encourage freshman to take courses and so that all students would have a better indication of their course loads.

“We hope that if more freshman take courses in the fall,” Eardley added, “they will be encouraged to teach courses the following spring.”

Biology dept.

sponsors lecture

Erich Klinghammer, president of the North American Wildlife Park Foundation and associate professor of psychology at Purdue University, will lecture on “Wolf Behavior, Research and Conversation” at 7:30 tonight in Carroll Hall at Saint Mary’s. His lecture, the fourth presentation in The American Scene Series, is sponsored by the College’s biology department.

WASHINGTON (AP)-Fidel Castro, in an interview made public yesterday, told House investigators he would have been “insane” for him to have conspired in John F. Kennedy’s assassination.

Castro said his involvement in any murder plot would have given the U.S. government “the most perfect pretext for an invasion of the island nation. The Cuban president also repeated his belief that an effort was made by someone in the United States to implicate him in Kennedy’s assassination.

Portions of Castro’s interview were played by the House assassination committee, which is seeking to tie up the loose ends to Kennedy’s murder.

In his interview with House investigators and committee members last April, Castro contended it would have been insane for him to play a role in Kennedy’s murder.

That would have been the most perfect pretext for the United States to invade our country, which is what I have tried to prevent in every possible sense,” he said.

**Surpasses $100 million**

**Development drive sets record**

Notre Dame has passed the $100
million mark in its current devel-
oping campaign, according to the city's
newspaper.

**The Campaign for Notre Dame**,

a $135-million program announced in
April of 1977, has

J. Ryan, Pittsburgh, and Ernestine
Carmichael, Robert, and South Bend,
chairmen of the campaign.

Fr. Theodore M. Hesburgh,
president of Notre Dame, com-
mented: "The success of our
campaign during a period of econ-
omic uncertainty reflects the un-

ing efforts of our volunteer
leadership and the deep loyalty of
all of whom share a common goal
of providing the resources for
continued academic excellence."

Notre Dame is only the twelfth
American college or university to
raise more than $100 million in one
campaign, according to figures on
fund-raising efforts now in progress on 107 campuses publish-

**The Chronicle for Higher Education.**

"This is a milestone in the
history of the University," Ryan
and Radin said in a joint state-
ment. "The last $30 million will
not be easy to achieve, but we have
established a momentum that will
carry over into the final phase of
the campaign, the national solicita-
tion, next spring." Some 100 cities
across the nation will launch local
drives March through June.

The goal of the
"Campaign for Notre Dame" is
to increase Notre Dame's endow-
ment, which now stands at $141
million, the largest among Catholic
institutions of higher education.

The campaign is under way,
raising more than $100 million in one
campaign, according to figures on

the campaign, the national solicit-
ation, next spring." Some 100 cities
across the nation will launch local
drives March through June.

The goal of the
"Campaign for Notre Dame" is
to increase Notre Dame's endow-
ment, which now stands at $141
million, the largest among Catholic
institutions of higher education.

The campaign is under way,
raising more than $100 million in one
campaign, according to figures on
fund-raising efforts now in progress on 107 campuses publish-

"This is a milestone in the
history of the University," Ryan
and Radin said in a joint state-
ment. "The last $30 million will
not be easy to achieve, but we have
established a momentum that will
carry over into the final phase of
the campaign, the national solicit-
ation, next spring." Some 100 cities
across the nation will launch local
drives March through June.

Film fest urges awareness

by Ruth Kolman

The Third World Film Festival opened Monday night with "Black and White in Color," the first of a series of films on Africa. The festival, which will continue through November with showings of films on Latin American and Asian countries, is being sponsored by the Notre Dame student government and the Center for Experimental Learning. According to Tom Ludlow, promotional director for the film series, the festival was undertaken to create a better understanding of international human relations. Another aim of the series is to help participants gain empathy for these developing countries through knowledge of their situations.

"The third world countries are the poorer countries of the world which suffer intense population pressures and have not yet industrialized," Peter Walsh, associate professor of government and international studies, commented. First world countries are the United States, Japan, and the nations of Europe. Second world countries are the industrialized Communist countries.

"This year we have collaborated with student government in an awareness of the third world problems," Fr. Don McNeill, director of the Center for Experimental Learning, stated.

"The films lead into next semesters talks between student government and campus leaders," Ludlow explained.

Other year-long activities related to the third world festival include workshops, hall projects, and a conference in March with student government cabinet members, hall officers, class officers, faculty and administration. There will also be a maxi celebrated by Fr. Theodore Hesburgh, University president. Hesburgh made a personal contribution to the Third World Film Festival, according to literature promoting the films. In addition, financial support was also provided by the College of Business Administration, the physics department, the theology department, and the priests and brothers of Creby Hall.

"Because the films are free, shown at various times, and present a variety of perspectives, students are encouraged to attend and raise questions," McNeill said.

"Black and White In Color" won the Oscar for "Best Foreign Film of 1977." Two documentaries on Africa, "Nuer" and "The Last Grave at Dinka village," will be shown Sunday and Monday in the Bughnoring Auditorium.

Logan volunteers needed for dance

Attention Logan Volunteers: There will be a dance this evening from 7:30 to 10 p.m. in the Logan cafeteria, featuring the music of "Ziegfield." Volunteers are needed to set-up, help with refreshments and just promote a good time. Students who can come early to set-up should call Jim at 289-9529.
