The Student Affairs Committee of the University Board of Trustees discussed many aspects of student life and listened to presentations by student and campus leaders at a meeting held yesterday in the Center for Continuing Education.

Two specific reports were presented on the overcrowded housing situation and on the purposes of the Campus Life Council (CLC). A general report was made on student life, which included statements from student government leaders describing their respective organizations.

The student life report also included a presentation by minority student representative Steve Travis asking for concerted university action toward addressing the unique needs of minority students. In the report, Judicial Coordinator Jayne Rizzo also described recent CLC action which allows parietals offended to be tried by hall judicial boards.

The tone of the meeting was informal and descriptive. Student Body President Andy McKenna described it as a "challenge for some positive exchange of ideas, especially about the issues which have arisen in the past two months."

The two CLC autonomy reports, which was addressed to the overcrowded housing situation and on the purposes of the Campus Life Council (CLC), were traced by the committee, including the possibility of graduate housing to undergraduate students.

In the report, Judicial Coordinator Jayne Rizzo also described recent CLC action which allows parietals to be tried by hall judicial boards. The people in this University are different but in our diversity we are united.

Travis stated that the problem for the meeting students, at Notre Dame is not success but survival. Part of the reason for this, he explained, is that the support services here are not geared to the unique needs of minority students.

"Minority students don't come from the same places that usually produce Notre Dame students," he said. He also explained that the cultural background of most minority students is generally not regarded as equal to that of other students.

Margaret Garcia further explained that the problems outlined by Travis applied to Hispanic students as well as to black students.

Rizzo described the reclassification of parietal offenses as "unwarranted." In addition to hall rectors and the Dean of Students, parietal offenses may now be heard by hall judicial boards. The purpose of this part of the report was solely descriptive.

There was not enough trouble choosing personalities in this era as there had been in others," remarked Campbell, one of the foremost authorities of the Midwest.

"Though this was not as clear at the beginning of the era as it was at the end," Campbell explained. The Nixon guidelines to Mideast diplomatic relations, which, in his view, included "a recognition by Nixon that the existing balance (of power) in the area had to be preserved" and that crucial domestic political recognition of the "strength of the Jewish community," had been made.

The speaker characterized then Secretary of State Henry Kissinger as a man who "brought into global terms" and "put his own stamp on American Middle East Policy."

The era in question ended with the October War of 1973, Campbell said, and was "somewhat like the 50's period in that it was a period of great events and crises."

Campbell outlined the Arab, Israeli, American and Russian reactions to the events which led to United Nations Resolution 242, Egyptian President Gamal Abdel Nasser. Campbell said, appealed to the Soviet Union for more arms and, more importantly, direct Soviet participation in the form of manpower.

"The Soviet Union made a bold and important decision to provide Nasser with missiles and crews," commented Campbell. "This changed the direction of the whole question...it involved the focus of the great powers."

All of this, Campbell stressed, was occurring as a parallel to the then developing detente between the United States and Soviet Union. At the 1972 Summit in Moscow, the great powers "considered the Middle," Campbell postulated. "There was some concern on the part of each power's MidEast client, but nothing specific was discuss-"
**Mourning ends for Pope**

**World**

VATICAN CITY—The Roman Catholic Church ended its nine-day mourning period for Pope John Paul yesterday while a computer "simulation" of the forthcoming week for a new pope showed the archbishops of Naples and Palermo as the front-runners for the throne of St. Peter. The computer study, using information obtained second-hand, said Cardinals Corrado Ursi of Naples or Salvatore Pappalardo of Palermo would most likely be the new leader of the world's million Roman Catholics. The research was conducted by the National Opinion Research Center in Chicago under direction of an American priest and sociologist, the Rev. Andrew Greeley.

**Network black-out occurs**

NEW YORK—The three big national television networks were knocked off the air for almost 15 minutes in much of the nation last night by a power outage at a telephone switching station in Chicago, a telephone spokesman said. Shultz said the outage occurred twice during prime time, once at 9:45 p.m. EDT for 4 minutes, and again at 10:19 p.m. for six minutes. In most areas, the network shows interrupted the first time were "Hawaii Five-O" on CBS, "Quincy" on NBC and "Soap" on ABC. The second time, the shows were "Barney Miller" on CBS, "Westend" on NBC and "Family" on CBS. The signal for all three networks is relayed by cables and microwave transmitters handled by AT&T.

**Senate hears Birch case**

WASHINGTON—The Senate Ethics Committee wants the Justice Department to decide if Sen. Birch Bayh, D-Ind., broke the law by taking campaign money in the Capitol from a friend of Tongan Park. The committee says in a report scheduled for release Monday that it has "substantial credible evidence" that Bayh or an aide took $1000 from a businessman friend of Park in the Capitol on Oct. 8, 1974, despite Bayh's denial. The report quotes Park as saying that, in addition, he himself gave $1500 to $1800 to the senator contrary to Bayh's denial of the allegations. Park, a South Korean rice dealer, became the center of the Korean influence buying scandal.

**Weather**

Fifty percent chance of showers and light rain through tonight. Partly cloudy and chilly tomorrow. Highs today in the mid 50's. Lows tonight in the mid and upper 40's. High tomorrow in the low and mid 50's.

7 pm workshop, "job search", ex. board room, le mans hall

6:15 pm concert, nd orchestra, washington hall, sponsored by the music dept.
A "student recruiting team" has been formed to attract better students to the University through campus visits. Mike Goldrick, director of Admissions, and Rick Gobbie, Student Government Academic Commissioner, revealed yesterday. The program is under the co-direction of the Admissions Office and the Student Government Academic Commission.

Each year, more and more high school juniors and seniors from around the country express an interest to attend Notre Dame, according to Gobbie. However, many have no contact with the University of the Notre Dame Student Union or the Admissions Office catalogues or other booklets, and will be held in the Admissions Office on Saturday afternoon football game.

Campbell ends series

(goblie outlined the program which will go on effect during midsemester vacation (Oct. 21-29). The Admissions Office and the Academic Commission have selected 37 students, designated as ND scholars, to act as representatives of the University to the high schools from which they graduated, Gobbie related.

These students will be trained by Goldrick, and will be available to the Admissions Office personnel to assure the "student recruiters" to speak to interested high school students.

The recruitment program was presented to the Admissions Office in September by Gobbie and Carol Basnacalis, who also serves on the Academic Commission.

"Although people are interested in ND," Gobbie said, "few have the benefit of being introduced to it in an official capacity. This program will help the Admissions Office in reaching those high school students who express an interest in Notre Dame."

Goldrick accepted Gobbie's program with what he termed "the greatest enthusiasm."

"We (Admissions) are really enthusiastic about the student recruiting program," Goldrick said, "it should be especially beneficial to the high school students."

"Obviously, there is quite a difference between what an Admissions officer can tell a student about ND, than what an actual ND student can. The lack of an age gap makes a big difference," the director continued.

This is not the first attempt at a student recruiting team, according to Goldrick. A similar attempt was made in 1970 by the Student Government which ended in "disaster," he said.

Goldrick blamed the failure on the lack of training provided to the student recruiters by the Admissions Office.

Gobbie accepted Goldrick's comment, saying that the "students in the program for over both could serve," he continued.

Campbell commented that September of 1970 marked "the end of step-by-step diplomacy," and saw the beginning of the many unilateral deals that followed. He ended his lecture series with an analysis of future events in the Middle East.

"When we look to the future, I think we have to take some account of the past," he commented. "The Middle East, we must say, will not be quiet. We (the United States) have taken on a tremendous responsibility."

"The lecture marked the completion of the inauguration of the new series for the Institute for International Studies."

Campbell currently the director of studies at the Council on Foreign Relations and former region specialist in the State Department from 1942-45, held a special question-and-answer period last night on the twelfth floor of the library.

Campbell ended his lecture series on the Midest yesterday afternoon in the Library Auditorium. (Photo by Mark Muench).

**St. Mary’s, CORED extend welcome to lecture series**

by Ellen Budy
Assistant St. Mary’s Editor

The Religious Studies Department of Saint Mary’s and CORED (Community of Religious Education Directors) is extending an invitation to the ND/SMC community to participate in a combined lecture-workshop series in moral development, according to Loreta Jancoski, a member of the CORED board.

There will be four Monday night sessions throughout the winter. The first one is next week, at 7 p.m. in Carroll Hall.

The guest lecturer for Monday’s workshop is Daniel Maguire, Professor of Theology at Marquette University. Maguire has a Ph.D. in Ethics and is the author of “Death by Choice,” and “The Moral Choice.” He will address the audience on the issue of morality, defining it and explaining what constitutes moral behavior.

After each lecture there will be small group discussions, allowing the participants to question the concepts covered in the lecture. A question and answer period will follow these discussions.

During that time, individuals or representatives from various groups may pose questions to the lecturer. A brief preview of the next week’s topic will be given and suggested reading will be assigned to supplement the lecture material.

Any one wishing to participate in the workshop is encouraged to register Monday night, prior to the first lecture. There is a $5 fee for the entire series. The charges for those attending individual sessions will be $2.

Loreta Jancoski, Professor of Religious Studies at Saint Mary’s, urges those who are interested to attend all four sessions. According to Jancoski, the lecturers will be presented as a progressive series, and each session is supplemental to the preceding one.

Other dates, topics and lecturers for the workshops include: Nov. 20, Loreta Jancoski, Morality and Human Decisions; Feb. 19, Fr. Jose Marcelli, Jesus Morality; and March 12, Fr. James T. Burkhard, Living Christian Morality.

Steve Martin tickets go on sale

The lottery for tickets to the Nov. 9 Steve Martin show will be Sunday at 6 p.m. in Jordan Center. Ticket prices are $9.50 for lower areas and $8.50 for Bleacher seating.

**SMC reflects on history**

35 years ago today

There were a few rules of St. Mary’s College during the 1940-41 academic year:

- "Regular hours for sewing are allotted to all the students, and they may keep their wardrobe in perfect order."

- "Regular time for receiving visitors is on Wednesday from 1:30 to 3:30, and all calls or visits must be received in the public parlor. Frequent or protracted visits are highly detrimental to the improvement of the pupils."

- "Parents should be the first to see the great disadvantage arising from pupils visiting home during their first session."

- "In order to avoid all objectionable correspondence, letters written or received are examined by the Superior of her substitute."

35 years ago today

The Graduate School of Sacred Theology for Women, first of its kind, was established in 1943. Then, in 1946, St. Mary’s became the first woman’s college in the United States to offer theology to undergraduates as a college major.

59 years ago today

On November 15, 1919, students from St. Mary’s college “witnessed their first Notre Dame football game.”

Irish Guard belongs to band

by Mary Ann Wissel

"The Irish Guard is part of the band. Just as the clarinetists are a section of the band, so are we — but we are the guard section," stated Chris Digan, a second year guardsman. Digan was at this point explaining why he feels most people at Notre Dame do not realize the Irish Guard is an actual part of the band.

The Irish Guard was started in 1951 by Fr. Joseph Keohoe, vice president for Student Affairs, and Lee Hope, band instructor. "They wanted something in the tradition of Notre Dame and to add an Irish touch to the band of the Fighting Irish," explained Robert O'Brien, director of the Notre Dame Marching Band.

"At that time Fr. Keohoe and I began the search for Irish kilts. They had much difficulty in obtaining Irish kilts so they compromised and settled on Scottish type kilts," O'Brien said.

"It was a temporary measure because they were the only types available. Of that time also, the Irish Guard played the bagpipes and wore Scottish bagpipes and wore Scottish plaid kilts," he said.

"I soon discovered that the pipes weren't compatible with the climate of the world. So, for our purposes, the pipes were obsolete. We then concentrated on an elite and impressive marching group," O'Brien explained.

Each fall, tryouts for the Irish Guard are held at the same time as band tryouts, O'Brien said. The competition is stiff for the ten positions.

Of the ten members, only eight march in each game, O'Brien said. Two guards act as reserves and serve to replace the band's path on its march to and from the stadium.

"The Irish plaid worn by the Guard is important. To symbolize the Irish was part of the reason to have the Irish Guard — we wanted to represent the Fighting Irish," the band director stated. "In 1966, we began work on our own official Notre Dame plaid. We designed it ourselves and the University owns a trademark and copyright on it."

"The plaid is predominantly blue (blue being the color for scholars). All the colors of the plaid are significant to Notre Dame in that the blue and gold represent the school colors which are interspersed with green and white for the Irish." O'Brien said.

The added red to the plaid and the doublets of the Irish are of papal red (signifying the Church and the Holy Cross Fathers)," he added.

This year, George Spohrer, an engineering graduate student, replaced John Fyfe, who for 15 years acted as advisor to the Irish Guard. Spohrer marched as a Guard during his four undergraduate years.

As advisor, Spohrer tries "to keep everyone happy — I act as the go-between between the guard members and the band directors." He is also in charge of the Guard's "(continued on page 6)"

SMC seniors sign petition in protest of ticket policy

by Ellen Budd

Assistant Saint Mary's Editor

Over the past month, senior Saint Mary's students have been concerned over the distribution policy for the 1978-79 basketball season. The student body is divided in its opinion of the ticket policy.

Last year, the senior class received 175 tickets while other classes were given 25. A package deal used this year allocates 100 tickets to the seniors, 100 tickets to the juniors, and 50 tickets to the sophomores.

Mary Laverty, director of Student Activities, said she plans to take action today concerning the petition. Her plans center around the allocation of tickets to seniors.

Mardi Gras workers to meet

All those working on the Mardi Gras, including both chairmen, engineers, raffle people, and committee members, are reminded that there will be a mandatory meeting next Tuesday at 6:30 p.m.

The meeting will be held at the St. Mary's clubrooms. A social hour will follow the meeting. The $50 from each hall can be paid at that time.

Digan considers ND Guard belongs to marching band

[continued from page 5]

uniforms.

"At practice, I make sure that the guards know what they're doing - it's not always easy. At half time, I'm down on the field watching them to make sure they know where they are going. If someone makes an error, I pull him aside late and ask him what happened," commented Spohrer.

"The guard used to be more of a super-macho, tough group. Initiation used to be a big deal. It was fun, but kind of archaic," he commented.

"We still use initiation, however, it is done to put the rookies (first-year guards) through some- thing together - then, they will become fast friends. We don't do it to embarrass anyone or put them on the spot," he stated.

Spohrer said the height requirement for the Irish Guard is 6'2". He explained the rule is not always strictly adhered to, because some years not as many tall people have always been.

"Ifill considers that the athletes' size is a thing together. The Irish Guard is usually the tallest among the guards this year. And with his black shako, the bearskin hat he wears, he stands over 7' tall. A student once asked Prendergast, "Can you eat the people you run over?"

"Team" to recruit in high schools

[continued from page 3]

周一 Office. Goldrick added, "You ca not be assured that the training program this year will prevent any such occurrence."

Gobie was quick to point out that, after being trained by Admis- sions officers, the recruiters will not only be able to handle most of the questions asked by high school students, but will also be able to pass on personal insights to the students.

"What better representatives does the University have concerning student life than the students themselves?" Gobie continued.

"I think the high school students will appreciate the different angle we can provide," he explained.

"Information on dorm life, social atmosphere, and many other as- pects of ND cannot be translated through a college catalogue." Both Goldrick and Gobie were quick to emphasize that the pro- gram will be run on a trial basis for one year only. "The Admissions Office and the Student Government will evaluate the program after break," Goldrick said. "If it shows merit, it will be continued in the future."

Students must move cars by 9

Due to the early starting time of the Pittsburgh football game, students must park their cars before 9 a.m. tomorrow. After this time the South Bend Police will not allow student vehicles to park on campus.

Students who arrive after 9 will be charged $2 to park in regular football parking facilities.

Pro-lifer Hyde to address general public

Rep. Henry Hyde (R-Ill), leader of the pro-life forces in the U.S. House of Representatives for the past four years, will speak in South Bend Sunday evening.

Hyde's non-political visit comes at the invitation of the St. Joseph County Right to Life Committee. Following a press conference at 7:15 p.m., he will address the general public at 7:30 p.m. in the Century Center's Bendix Theater. Admission is free and the public is invited.

In the House of Representatives, where he serves on the Judiciary, Banking and Finance and Urban Affairs Committees, Hyde is best known as author of the contro- versial "Hyde Amendment" to the 1975-76 Health, Education and Welfare appropriations bill. The amendment denies HEW authority to spend money on abor- tions except when the life of the mother is endangered.
Dear Editor:

One of the reasons for the students' vulnerability is the poor campus lighting. With its trees to bushe, the campus is so dark at night it invites prowlers. A perfect example of this is the quad in front of Hayae-Healy and Moreland Science Hall, where it is almost impossible to see the paths to walk on. During my freshman year lighting was a major issue. After a year and a half, I have returned to find that things are as bad as ever before. Perhaps we could turn the spotlights in the dorms to the ground and use them as streetlights.

Dells Morales

Fisher Hall
Losts

Asst. Rector

Dear Editor:

On Sunday, October 5, Peter Broccoliti, assistant rector of Fisher Hall, will be leaving Notre Dame to become managing attorney of the Key Legal Aid Group, a division of the Greater Miami Legal Services in Florida. Pete also served as an associate coach for the varsity and intramural athletic teams and the supervising attorney at the Law School.

Pete has been a backbone of students who have suffered a multitude of physical and emotional distress in the Fisher Hall kitchen or simply taking a hasty student out to dinner. Pete is known for his kindness and few bounds. Unknown to many, Pete was taking a single three-hour course in theology to complete work for his Master of Divinity degree. He will enter St. Vincent's Seminary next September as a student for the priesthood for the Diocese of Miami. Pete became a victim of a technique which prohibits a candidate for a degree from receiving exposure from knowledge of insufficient importance. He was faced with losing the small recompense he was receiving from the Athletic Department and the Law School. Pete did not want to return to Miami the only alternative for him. The staff and students at Fisher Hall will miss Pete. So many of us, as Notre Dame. We thank him this opportunity to thank him publicly for his friendship and generous assistance. And we wish him well for the future.

Casey at the Bat

seriously folks

Tell me why you blew the game as Mudville's greatest batter.

"Strike Two," the catcher shouted as he rolled upon the floor. Casey's eyes widened as his head met the ground. The fish blushed with anger for he could not take much more.

"I have a brand new Caddy sitting in the parking lot." Casey's eyes widened as his head met the ground. The fish blushed with anger for he could not take much more.

"Don't you dare say anything to the catcher," Casey shouted. "I know you're going to say something stupid."

"What the hell do you think is going on here?" Casey asked, his voice quavering with anger.

"Nothing," the catcher replied, his voice trembling with fear. "I was just trying to do my job."

"That's right, I said. "I was just trying to do my job."

"You're the batter, aren't you?" Casey asked, his voice quavering with anger.

"Yes," the catcher replied, his voice trembling with fear. "I'm the batter."

"Then why are you looking at me?" Casey asked, his voice quavering with anger.

"I'm just trying to do my job," the catcher replied, his voice trembling with fear. "I was just trying to do my job."

"That's right, I said. "I was just trying to do my job."

"Then why did you call me out?" Casey asked, his voice quavering with anger.

"I didn't call you out," the catcher replied, his voice trembling with fear. "I just called a strike." Casey's eyes widened as his head met the ground. The fish blushed with anger for he could not take much more.

"Then why did you call me out?" Casey asked, his voice quavering with anger.

Reverend Robert Griffin

Where is the young poet for the Holocaust?

"Do you wonder, Darby," I thought, "what is the body for the burial?"

He flashed me the sic in his left eye that gives him the appearance of wishing, and I kept digging, certain that my dog was absolutely fascinated with watching me, not sure whether he had a bone to be buried, or a bone I was trying to dig up. When my small chow in the ground was finished, I straightened up, lit a cigarette, and blew smoke rings for five minutes while waiting for me to have his knowledge to be complete.

I could have sworn he never took his eyes off me once. Then, into the gating hole, I dropped a cigarette lighter, an open pack of Pills, and the butt I had been smoking, and I covered them over with soil.

"That, Darby," I said, "is known as burying your activities of the Red Rocks bury you on that cocker spaniel just sat there, a monument to self-centerless, neverness, and nothing to see. He didn't hear a word that I said. He hadn't been paying the least attention to me. His whole body was alert to another experience, as though he were picking up the rumble of an approaching resurrection.

"Oh, shame," I thought, "He's march-

ling to the beat of a different drum; he's bearing the trees. I brought him up here as a witness to my little drama in self-splendour so that I could reproach me with a disappointed glance if he caught me smoking, and he's having a mystical experience with the bushes."

Darby O'Gill is restless from needing to pay homage to the falling leaves. His tail against the rag as a dog's equivalent of chain smoking. I on the other hand, feeling restless over my need for nicotine, end up chain smoking.

I try the hunched-over position from the rag as a substitute, but it doesn't help. Tomorrow, I'm going to start chasing falling leaves. Maybe leaf chasing is Darby's way of religious worship. Maybe he is a priest of the beasts' religions, performing the great dance of the cemeteries. In Darby's voice, "I thought, "I'm going to start chasing falling leaves."

Rome, the Eternal City, is one of the most fascinating places in the world. A walk through the streets brings one back to the 2000 years of history. Last year's members of the Saint Mary's Rome program--students from floors 12A and 12B of the Oklahoma State University--visited the city.

The fall rains sometimes do not cause as much which overpowers the viewer at first sight. Looking at the religious tradition of Rome, one often makes a student wonder whether the Catholic Church is a social or a religious institution. I realized that many church customs and teachings have human origins, my realization that the Church has never done anything to provide the people with a real understanding of the Church's teaching. Students have few problems as long as they do not participate in political demonstrations. The most common demonstrations are by feminists who are disturbed by any men's possessive attitudes towards women. Women's rights are usually heavily protected by the family and are rarely seen in the streets at night.

The academic side to the Saint Mary's Rome Program did a great deal to help the student learn about the historical and cultural treasures of Rome. Students in Rome this year have the great advantage of being able to learn about great works of art, history, and literature. Students usually buy a Eurail or Interal Pass and tour countries like West Germany, Denmark, Norway, Sweden, the British Isles, Belgium, France, Spain, and Portugal. Trips to England, Ireland, and Greece usually take place during spring break or at the end of the spring semester.

A year of study in Rome is a great experience one will always remember. The opportunities to learn about the culture and history of the different European countries is an opportunity for students to learn about great works of the past in history, art, and architecture. Italy has great combination of natural beauty and manmade wonders.

Irish to tackle ninth - ranked Pitt

by Tomy Pace
Editor-in-Chief

With their record now even at 2-2, the Fighting Irish football team takes the field this Saturday against the undefeated and ninth-ranked Pittsburgh Panthers. Pittsburgh's record over the past two and a half years is 25-2-1, that's the best in college football.

The potent Panther offense is led by sophomore quarterback Rick Trocano. The 6-3, 195 pounder saw some action last season, after the now-departed Matt Cavanaugh was injured, and he has started in all four Pitt wins this season. He has connected on 36 of 75 pass attempts for 485 yards and three touchdowns. He has suffered only one interception.

The Pitt running attack is well balanced. Their leading ground gainer is junior fullback Fred Jacobs. He has amassed 454 yards on 99 carries for a 4.6 average. He also has scored four touchdowns. Panther coach Jackie Sherrill alternates junior Larry Sims and sophomore Rooster Jones at the other running back position. Jones has gained 182 yards on 44 rushes and Sims is right behind him with 173 on 32 attempts. Jones and Sims have two touchdowns apiece.

The leading Panther receiver is Gordon "Too much" Jones. The senior speedster is an athlete extraordinaire. He can score points on punts and kickoff returns as well as when he latched on to Trocano aerials. His career average per reception is 17.9 yards. Gil Brandt, Director of Player personnel for the Dallas Cowboys, has said of Jones, "If he was a senior in 1977, he definitely would have been a first round draft pick-he's that good."

Pitt's other receivers are senior tight end Steve Caiazzo, a 6-4, 200-pound target, and junior Ralph Still, who had no game activity experience prior to this season.

The Panther line is anchored by four-year starter Matt Carroll. The 6-6, 315-pound senior has been one of the mainstays and tackle in his collegiate career. He will line up at right guard on Saturday. The other starting positions are taken by senior John Fieler. The tackles are junior Ed Gallagher and sophomore Ken MacAfee, both of whom are injured, at left tackle, and senior Dave Logan, at left guard.

Pitt's 5-2 defensive alignment is two defensive ends, a nose tackle, and three defensive tackles. The other defensive end is senior Dave DiCicco. The tackles are sophomores Greg Meenon and BillNeill. The nose guard in Pitt's 5-2 defensive alignment is senior Dave Logan. Logan was named Chevrolet's defensive most valuable player in last year's Notre Dame-Pitt clash.

Joining Chesley at linebacker is junior Jeff Pelusi. The two year letterman made 79 stops last season. Besides Chesley, the Panther defensive unit is very inexperienced. Senior Dave Logan. Logan was named Chevrolet's defensive most valuable player in last year's Notre Dame-Pitt clash.

The Notre Dame offense comes off its best showing of the season. Joe Montana completed 6 of 12 passes against Michigan State for 99 yards. In that same game, Kris Hanvey had three catches for 90 yards and Vegas Ferguson rushed for 140 yards.

The only offensive change is at the flanker position where Jim Stone will open. Pete Holohan will open as the second wide receiver with paddling on his injured hand.

The Irish defensive unit will be the same as the one which opened against State. Tom Gibbons and Randy Harrison are starting ahead of Tom Flynn and Joe Restic, both of whom are injured, at left end, and free safety respectively.

Notre Dame running back Jerome Heavens has turned in some of the most dramatic and most significant plays this season. The Sophomore has been named the most valuable player on the scoring play, a 12-yard pass to Mark Schubert. Heavens could set two career "marks" with a good showing Saturday against the Panthers. If Heavens gains 100 yards, he will surpass 1,000 yards for his career, and if he gains 100 yards against Pitt, he will become the leading scorer in Notre Dame history.

Things were different, right, but not enough to suit most Notre Dame fans. Dorsett managed only 181 yards, a mere pittance compared to 1975, when he averaged 14.4 yards per carry. And Notre Dame scored first, in a 25-yard pass from Rick Slager to Ken MacAfee, giving the partisans in Notre Dame Stadium what turned out to be false hope.

But after the Irish had driven to their 7-0 lead, Dorsett scrambled for 61 yards on Pitt's first play from scrimmage. And although he was caught from behind on a seeming-believe play by Ross Browner, he scored four plays later, and the onslaught was on.

In the end, the song was still the same, as the Panthers breezed to a 31-10 win, posting the first of their 12 consecutive wins in the national title hunt.

Once again, this year's game is crucial, as evidenced by the fact that it is being televised nationally for the third time in as many years. For the Irish, a win would go a long way in restoring their confidence and salvaging the season. The Panthers, on the other hand, need this game badly if they entertain any notions of making it two out of three national championships.

Jerome Heavens is only 98 yards short of George Gipp's all-time Notre Dame rushing record. (photo by Doug Christian)

Notre Dame maintains 17-game edge in series

by Craig Chaval
Sports Writer

In each of the past two seasons, the winner of the Notre Dame-Pitt game has gone on to claim the National Championship. Unfortunately, if that trend is to continue for a third year, it appears that 1977 will be the Panthers who will go on to claim the title.

Despite the overwhelming strength of the Pitt Panther offense, the game will be a defensive contest with 11:40 remaining in each half. The Panthers have scored just 4-0 during the scoreless overtime period. Each team has scored a touchdown in the first half, with Pitt taking the lead on a 12-yard pass to Bob Loper, and Notre Dame gaining the lead back on a 25-yard pass from MacAfee, giving the partisans in Notre Dame Stadium what turned out to be false hope.

And when Notre Dame punted and whizzed to the tune of a 20-13 loss to Mississippi the following week, Pitt backers needed no further convincing.

Last year's Notre Dame win broke the two-year Pitt domination that can be explained in four syllables--Tony Dorsett.

The amazing halfback gained 754 yards against the Irish in four games, which is an NCAA record for most yards gained against a single opponent.

Dorsett's 1975 performance, a whopping 301 yards in a 34-20 Panther upset win late in the season, gave warning of what was yet to come--both from him and from his team.

The Panthers entered the 1976 season as serious contenders for the national championship. But when ABC-TV big-wigs dictated that the Pitt-Notre Dame game be moved from October to early September as the season opener, they didn't do the Panthers any favors.

It would be bad enough having to face the Irish in South Bend in the first place, but having to do it in the opening game of the season, and in front of a national television audience was suicidal. So everyone thought.

And all week long, the Notre Dame defensive players spoke of revenge. They assured everyone that now that they had Dorsett where they wanted him--in Notre Dame Stadium--things would be different.

Things were different, all right, but not enough to suit most Notre Dame fans. Dorsett managed only 181 yards, a mere pittance compared to 1975, when he averaged 14.4 yards per carry.

And Notre Dame scored first, in a 25-yard pass from Rick Slager to Ken MacAfee, giving the partisans in Notre Dame Stadium what turned out to be false hope.

But after the Irish had driven to their 7-0 lead, Dorsett scrambled for 61 yards on Pitt's first play from scrimmage. And although he was caught from behind on a seeming-believe play by Ross Browner, he scored four plays later, and the onslaught was on.

To replace MacAfee
Montana finds new team of receivers

by Ray O'Brien
Sports Editor

When Ken MacAfee graduated last year, Dan Devine had wondered who would be hauling in crucial passes on third and fourth downs as the way "Big Mac" had done since his freshman year. Notre Dame's head coach had no answer last spring and the situation hasn't changed so far this fall. But instead of looking to a one premier target for his ace quarterback Joe Montana, the Irish have gotten the back's ends and running back patterns passing down.

MacAfee, a three-year All-American, was a big enough challenge but the problem of finding a replacement has been compounded by the unfortunate injuries. The picture began to look bleak when split end Kris Haines pulled ligaments during two-a-day practices during the early fall. Haines, who was the leading returning receiver posting 28 catches for 587 yards last year, was the only bright spot in the passing game during two-a-day practices during the fall.

"It was really unfortunate," I explained Haines. "I lived with Joe (Montana) this summer and we had a lot of time to practice and get down our timing. After I got hurt and missed a lot of practices, much of that timing was off."

While Haines competed with the aggravation of injuries in the first three games, his effectiveness was limited. The less than spectacular showing was accountable to more than just the injury. "I just was in a slump," confided Haines. "There were times when I still wasn't playing the way I knew I could." Could it be that the loss of MacAfee had put extra pressure on Haines? "I don't really feel any extra pressure," explained the Irish's wide receiver. "But I know people expect more out of me and it is a lot harder without MacAfee around because he is a good blocker and has concentrated more heavily on the split end and tight end. I haven't been able to run the patterns properly."

That is a problem that Devine is trying to deal with. After a phenomenal spring session, Kevin Hart was tabbed as the heir to MacAfee's cleats. But as luck would have it, his knee muscles were right before the season opener and saw only brief action. Nick Vehr then got the nod and performed adequately while Montana was away offering an offensive threat.

Since the opener, the tight end spot that had been such a sure spot for three years was now up for grabs. Nick Vehr has tried various Grinders there in addition to Hart and Vehr and is also looking to break freshman Dean Maxstak into the position when MacAfee was prepared four years earlier.

 Zinc and McWilliams, a first-year catcher against Michigan and the timing couldn't have been better as the reception was in the Wolverine's end zone good for six points. Since then Grinders have started and been used mainly in running situations, totaling four receptions to tie Maxstak for most passes caught by a tight end. Hart has been credited with one reception while Vehr has had two airmails bringing the tight end reception total to eleven. For now it seems that Devine will continue this shuffle system until one player stands out above the competition.

Injuries have also made their mark in the flanker ranks. Tom Domeni injured his knee right before the first game and had to undergo surgery putting an early Irish injury this season. "Injuries like Domini's have really hurt us," emphasized Devine. "His injury was strange because it came in a nearly non-contact situation. With the 90 scholarship rule in effect, you can't afford to lose too many players."

So sooner had Devine uttered these words before he lost his second string flanker—and during a practice. "I just caught a pass wrong and split my middle foot and it is an unfortunate occurrence of injuries."

The receivers will be working against a primary of Montana's returning 28 catches in 79 yards in the losing cause. Since then the flanker has been nearly non-existent as Mike Courtem and Jim Stone have split the duties.

In a depleted backfield MacAfee will go to his running backs to try and supplement the passing game and McGwheg. In fact, Vincas Furguson leads all Notre Dame receivers with nine catches for 64 yards. Jerome Heavens has contributed another eight catches for 131 yards. Total yards totals still read only 42 catches in four games compared to MacAfee's 28 catches for 587 yards.

Pitt-Nothe Dame clashes
by Lou Severino
Sports Writer

The Pittsburgh-Notre Dame contest will not only match a pair of nationally renowned schools, but will also serve as a showcase for several outstanding individual matchups. Here is a rundown on the several of the most important battles which will take place at the Panthers and Irish collee on the turf of Notre Dame Stadium tomorrow afternoon.

Pitt wide receiver Gordon Jones [6-1 185] vs. ND backfield Dave Wayner [6-3 200]: After working one-on-one against quarterback Kirk Gibson last week Dave Wayner deserves a rest. But the Irish cornerbacks will have their hands full since Wayner is known for his sprinter's speed (9.3, 10.0) to go along with fine moves and good hands. Jones is enjoying another outstanding year with 16 receptions in 4 games, good for 285 yards and 2 TDs. The speedy All-American can also possess a school record streak of 20 consecutive games with at least one reception. Wayner shutout Gibson in 9 of 10 half of the season, and although the MSU star finished with six catches he still got the job done. That will be the objective this week, prevent the long-gainer. Dave Wayner has shown thus far this season that he can get that job done.

Pitt quarterback Rick Tracano vs. ND secondary: The inexperience Trocanos ability to pass may decide the outcome of Saturday's game. The Panther rushing attack has not been very impressive, especially considering the quality of their opposition through the first four games of the year. Pitt has averaged only 3.4 yards per rush against the likes of Temple, Tulane and Boston College. On the other side of the hue, the ND secondary is badly in need of opposers who have completed 66 percent of their passes against the Irish. So it seems obvious that Pitt will challenge Dan Devine's club through the team's weak spot. But in the end, the Panthers and the Irish secondary are accounted for eleven interceptions while allowing only 40 completions in 500 attempts. Free safety Jeff Delaney is the only experienced defender for Jackie Sherrill's backfield. One possible target for the Irish is right cornerback Jojo Haines who has been looking strong on the field. Look for the Dallas native to average last year's battle with an outstanding effort in the middle of the line.

ND quarterback Joe Montana [6-2 191] and his receivers vs. Pitt pass defense: Montana turned in his finest performance of the season last week at East Lansing, completing six of twelve passes for 149 yards. He has no reason to believe that Joe will have to go to the air more often against the Panthers. The return of Kris Haines will be a big asset for the Irish. Haines caught three passes for 90 yards, including 34 and 44 yardsers in the first half before the Irish decided to stick to the ground game in the second half. Montana's other targets will be the flanker—his favorite receiver—Ralph Vehr and the MSU star finished with six catches and off the field. Look for the Dallas native to average last year's battle with an outstanding effort in the middle of the line.

How they match up

The Irish
The Panthers
In the trenches:
ND Offense
QB - Joe Montana
HC - Nevada Ferguson
FB - Jerome Heaven
ND Defense
LLB - Steve Heimerleiter
MLB - John Huffman

MLB - Al Chesley
The on the ground:
ND offensive tackles Tim Foley [6-1 325] and Bob Martinovich [6-5 256] vs. Pitt defense: Montana finds nearly all North Carolina defensive linemen worth watching. Pitt nose guard Dave Logan [6-5 256] will offer the Panthers their sternest test of the season. Hopefully the Irish will pass in both defense and with more success than other Pitt opponents have achieved.
The Irish Eye enters this week with renewed enthusiasm after picking perfectly for the second time in five tries. That success was due to Notre Dame’s second straight victory (although they still have not beaten the point spread). Upsets were few last week but the top two teams held on to their vulnerabilities. Oklahoma which seems head and shoulders above the rest of the field. This week some of the top twenty teams are going to get caught looking ahead.

The Pitt-Notre Dame contest is at the top of the charts but keep an eye on the thriller between Rice and Texas Christian. Here are the outcomes of this week in college football.

Florida at Alabama: Bear’s boys barely beat Washington last week relying on a late touchdown to save them from oblivion. The report is that Barna ain’t going to go wild with his game is in their backyard and it is a powerhouse.” Navy will be in a year when

Florida at Alabama: Bear’s boys barely beat Washington last week relying on a late touchdown to save them from oblivion. The report is that Barna ain’t going to go wild with his game is in their backyard and it is a powerhouse.” Navy will be in a year when

The lack of dependable receivers has also had an effect on the passing accuracy of Montana although the senior signal caller puts all the blame on himself. The timing on pass patterns hasn’t been perfect but I haven’t been putting the blame anywhere. Part of the reason Haines before the game with Michigan State.

Mountaineering, as all but the chronically misinformed know, is the skill, the science and the art of drinking Busch Beer. It begins by heading for the mountains (i.e., a quick jaunt to your favorite package emporium or wateringhole) and ends by downing the mountains (i.e., slow slaking swallows of the brew that is Busch).

However, between those two points lies a vast area of personal peccadilloes sometimes called technique and sometimes called methodology (depending on your major). Hence, this ad. Sipping vs. chugging. Both have their merits, of course. But generally speaking, except for cases of extreme thirst or a leaking glass, sipping is the more prudent practice for serious, sustained mountaineering. Next, the proper position. Some swear by sitting, others by standing. Suffice it to say that the most successful mountaineers are flexible, so you'll find both sitters and standers.

Which brings us to additives. Occasionally a neophyte will sprinkle salt in his Busch; others mix in tomato juice; and a few on the radical fringe will even add egg. While these manipulations can’t be prohibited (this is, after all, a free country), they are frowned upon. Please be advised that purity is a virtue, and the natural refreshment of Busch is best uncompromised.

Finally, there’s the issue of containers. Good taste dictates a glass be used. But bad planning sometimes prevents that. If you find yourself forced to drink from the can, you should minimize this breach of etiquette. Be formal. Simply let your little finger stick out stiffly (see Fig. 4). Happy Mountaineering!

Don't just reach for a beer. Head for the mountains.
Gold South: Forum II. Jack Nicholson strikes paydirt in his long-ago portrayal of an African bandit. However, the film's quality does not hurt the fact that he is a class act.

The Paper Chase: October 13; 7:30 p.m. Engineering Auditorium. For all you students who will undergo the torture tomorrow of those wonderful examinations, the LSAT's, this movie cannot be missed.

Animal House: Town & Country II. I hope this one doesn't stay around as long as Star Wars did. It hasn't seen it and I have avoided hearing about most of the madness that goes on in it, so you may want to drop by.

Up in Smoke: River Park. Cheech and Chong's look at the marijuana industry and its consumers. They try to blend their album comedy routines into the movie, so it makes for a good deal of wackiness.

A Wedding: Forum I. Robert Altman does it again with another all-star cast. The movie has received mixed reviews but if you like any or all of Altman's previous works, this will be worth your while and coin.

The Boys From Brazil: Scottsdale Theater. Starring Gregory Peck, Lawrence Olivier, James Mason. Why can't Peck and Olivier choose good movies to star in? The plot of the usual WW II Nazi escaped war criminal who wants to start a Fourth Reich and is hunted by Israelizes.

Bette Davis of Altman's previous movie who will undergo the torture tomorrow of those wonderful examinations, the LSAT's, this movie cannot be missed.

Centenary Center: October 13; 8:30 p.m. Libraries Auditorium and Lounge. Cancelled due to room reservation. Tickets are $2 and make sure you call for reservations because of a limited seating capacity due to Jim Cassarella's special stage design.

North Dame University Orchestra: Forum II, 8:30 p.m. Washington Hall.

Miracle Cleve: October 14; 8:30 p.m. California Suite, Neil Simon's comedy about a legless man and a deaf woman. Tickets are $9.50, $7.50, $5.50, but student price is $7 and for more info, call 322-3664.

Bar:

Dave's: October 15, 7 p.m. The Brenda Lee Show. Good country and western if that is to your taste. Tickets are $7 and $6.

Cinematheque: South Bette's only disco (and that's a real shame). Three other distractions: a dance floor that accommodates 17 people standing still; overpriced drinks and a ventilation system that blows warm air onto the dance floor. But if gettled dressed up and dancing to good disco for you, then this is the place to go.

Picture Show: The Ice House; 120 N. Maine, Mishawaka. A favorite watering hole of one of my housemates. The good Doctor provides a western airspace with much better than-average drinks. It has been rumored that some ND profs have been seen there, so you know it can't be too expensive.

Ice House: 100 Center, Mishawaka. The 100 Center is a nice place to go just for the interesting shops. The Ice House makes it even nicer.

Holly's Landing: 1717 Lincolnway East. Even though it's a chain in a five state area, the décor and service are more than adequate for a few peaceful drinks.

Lee's B&B: Always a favorite. Excellent ribs and low prices on house. If you haven't been there, go.

Senior Bar: If you're an underclassman, forget that you've got 18 more years to go. If you're '21 and an alumni or senior, this is the place to get happy with your classmates. Operator Mike Schlegeter and Co. offer a really swinging time.

Music:

Bar:

The Buddy Holly Story: Early in the Buddy Holly Story there is a scene which transcends biography and takes us to the heart of the unique, cultural phenomenon we have come to call rock 'n' roll.

Electric Apotheosis: 'The Buddy Holly Story' is an attempt to place in a historical context the life and times of an important artist who has contributed something new to popular culture.

Laughlin: 1717 Lincolnway East. Even though it's a chain in a five state area, the décor and service are more than adequate for a few peaceful drinks.

Lee's B&B: Always a favorite. Excellent ribs and low prices on house. If you haven't been there, go.

Senior Bar: If you're an underclassman, forget that you've got 18 more years to go. If you're '21 and an alumni or senior, this is the place to get happy with your classmates. Operator Mike Schlegeter and Co. offer a really swinging time.

"SEE OUR DISPLAY"
Americans and Swiss win Three share Nobel Prize

STOCKHOLM Sweden (AP) - Two Americans and a Swiss won the Nobel Prize for medicine yesterday for their discovery of a method for breaking apart genetic material that may eventually unlock some of the mysteries of cancer and hereditary diseases.

The winners, chosen by the Nobel Committee of Sweden's Karolinska Institute of Medicine, are microbiologists Daniel Nathans and Hamilton O. Smith of Johns Hopkins University Medical School in Baltimore, and Werner Arber of the University of Basel, Switzerland.

The three, who will share the $165,000 award, were chosen from among 200 candidates, sources said.

The awards put the United States well on the way to dominating the Nobel Prize list this year. The only other award announced so far, for literature, went to Isaac Bashevis Singer, 74, of the United States.

"Holy cow! Are you kidding!" the 47-year-old Smith exclaimed when told of the award by a reporter in Baltimore. "I just didn't imagine it would be considered in that light. I'm flabbergasted."

Nathans, 49, who heads the microbiology department in which Smith is a professor, said he was "delighted, especially to win the award with Hamilton Smith and Werner Arber."

The 49-year-old Swiss scientist returned from a vacation in the Alps Thursday and was told the news by a neighbor. "It's unbelievable," Arber told a reporter.

The three researchers, whose breakthrough findings were made in the late 1960's and early 1970's, were cited for the discovery of "restriction enzymes" and their application to genetics.

The enzymes - substances that act as catalysts for chemical reactions - enable scientists to separate out the basic units of heredity, genes, which are composed of the substance DNA and are carried on microscopic rod-shaped chromosomes in the nucleus of cells.

Then, by mapping the order of genes, analyzing their chemistry or creating new combinations, researchers can better learn how genes determine hereditary characteristics.

If we call this field genetic surgery, the restriction enzymes are our knives," explained Reichard. He said the discoveries will provide new insight into possible prevention or cure of body malformations and eventually hereditary diseases.

Another Swedish professor, Thomas Lindahl, said development of medical cures based on this basic research still is a long way off and the possibility of curing hereditary diseases through direct surgery on genes is "idiotic.. it can almost be called science fiction."

The discovery of restriction enzymes also made possible research into recombinant DNA, or "genetic engineering," which has stirred a wide ethical debate over the possibilities of manipulating genes and arbitrarily redesigning the human race.

The Swedish professors played down these fears and instead stressed the beneficial medical applications. Diabetes specialist Robert Luft said, for example, that restriction enzymes will be helpful in the future production of insulin.

Bryttan conducts Orchestra in open concert Sunday

The Notre Dame Orchestra, under Adrian Bryttan, conductor, will present a concert open to the public and free of charge at 8:15 p.m. on Sunday in Washington Hall.

The orchestra will be performing Rossini's "Overture to Semiramis." "The Good Soldier Schweik Suite" by Korngold, and Beethoven's Symphony No. 5 in major op. 67.

Other concerts by the Orchestra this year include the Nutcracker Ballet with the Southold Dance Company on Dec. 10, an orchestra concert with student soloists on March 11, and an evening of opera and ballet featuring "Carmen" and "La Boheme" on May 6.

DC Club charters bus

Those interested in taking the Washington D.C. Area Club's chartered bus home for the October break should contact Carl LaFrance at 3111 by Monday.

THE OBSERVER 15
Dancers rehearse routines
by Kathy Rosenthal

The Dancing Irish have been practicing hard throughout the semester to accomplish what Capt. Val Stefani called "a conscious effort toward improvement.

Since Sept. 1, the ten-member squad has been meeting three times each week. After October break, practices will be stepped up to five times per week and during basketball season, possibly up to seven times every week.

Stefani explained, "This year we are concentrating much more on the dancing aspects of the routines."

According to co-captain Suzanne Harty, the squad has had two lessons from a member of the Southhold Dance Company. "The dance lessons have really helped," Stefani commented.

Because all the members have had ballet or pom-pom experience, two-girl teams will take turns choreographing. "This should prevent any of the redundancy of previous routines," Stefani said.

The Dancing Irish have also ordered new uniforms. The cost of the green and yellow skirts, sweaters, pom-poms, and shoes will be partially offset by a $200 allotment from Student Union funds, according to squad member Cathy Donovan. To cover the rest of the costs, the Dancing Irish have sold football programs and sponsored bake sales and a carwash.

Previous Dancing Irish squads have had up to 28 members. "The smaller number of girls this year allows us to be more organized," Stefani said, adding "when we began in 1975, we had to experiment with numbers and we've found that ten to fourteen girls works out best."

Last spring, each member projected her weight for the basketball season in a written contract. Since Oct. 1 there have been weekly weigh-Ins and fifty-cent fines charged for every extra pound. In November, the fine will be increased to one dollar. "The fines are helping us pay for the uniforms," Harty stated.

"Last year, student reaction to the Dancing Irish was mixed," Stefani commented, adding "Let's put it this way..., even if there is only one boo, we hear it. We realize we can't please everybody, but we do resent the competition of the "unknown comic" who takes off his shirt during our performance.

Stefani said that the Dancing Irish have been well received by those with whom they work. "John Reid (Director of Student Activities) has been extremely helpful and is behind us all the way. The band has been great, and Digger Philips, head basketball coach, has been very supportive," she said.

Presently the Dancing Irish do not know which games they will be dancing at. They are waiting to hear from Bob Valdeserin who schedules the half-time events. The squad has proposed to perform in 13 games during the season.

Members of this year's Dancing Irish are: Val Stefani, choreography captain; Suzanne Harty, organizational captain; Kenna Shepherd, Lou Snowgrove, Ann Michaels, Joni Clark, Cathy Hassett, Curt Shea, Marilyn Thomassen, and Cathy Donovan.

Features Editor
Gruley to resign

Bryan Gruley, Observer Features Editor has announced that he will resign his position effective Oct. 19. Gruley is resigning to accept a position as Student Assistant with the Notre Dame Magazine.

Gruley began working for The Observer as a features writer in September, 1977. He worked under features editors David O'Keefe and Tony Pace before being appointed to his present position last March. Though he is relinquishing his administrative responsibilities, he will continue to write for the newspaper.

The Observer is now accepting applications for someone to fill the features editor vacancy. Interested persons should submit their resumes to The Observer office in LaFortune Student Center by Tuesday, October 17.
Robert wins wrench case

CHICAGO (AP) - Peter M. Roberts invented a little wrench when he was a teenager, battled to bear case last week, beating the big corporations. But you've got to be stubborn and believe that right has power, too. And this proves that right always wins, at least in some cases.

Roberts, now a grocer and apartment manager in Chattanooga, TN, patented a wrench on 15 years ago - when he was 18 - but sold the rights to Sears & Roebuck Co. for $10,000. His wrench permits a mechanic to change sockets with one hand.

Sears sold 25 million of the wrenches and made a $44 million profit, according to court records. A federal jury last May in

Sears obtained Roberts' patent fraudulently and awarded him $1 million. Sears lost an appeal and the U.S. Supreme Court refused to hear the case last week, clearing the way for Roberts, 33, to take the $1 million, which he picked up Wednesday from his lawyer, George Leighton was reviewing the settlement and may award Roberts even more money and possibly restore the patent to Roberts.

Sears spokesman John Armstrong said Wednesday that the firm had no comment on the case except that it had bought the rights "at a price Roberts and his attorney agreed to." "It wasn't clear at the time how important the rights were," Armstrong said, "because there were other patents pending in the same area."

The "Stop Pitt" pep rally will be held tonight at 7 p.m. in Stepan Center. Featured guests will include Digger Phelps, former Irish football player Bronco Nagurski, Coach Merv Johnson, Steve Heinleiter and Dave Waymer.

Immediately following the conclusion of the rally, there will be a fireworks display behind Stepan Center, sponsored by the Student Union Homecoming Committee.

Student Body President Andy McKechnes has asked people to refrain from bringing beer cans and bottles to the Stepan Center pep rallies. During the past few weeks there has been a problem with people throwing cans and bottles during the rallies. Consequently, those items will be confiscated before persons enter the building.

The Notre Dame chapter of Amnesty International will sponsor a "Prisoner of Conscience Week" from Monday through Thursday. The purpose of the campaign is to call attention to the plight of prisoners of conscience throughout the world-those innocent victims who are arrested, confined, and tortured because they profess the wrong politics, or pray to the wrong God, or were born the wrong color.

During Prisoner of Conscience Week, Amnesty International will present a display of materials dealing with the confinement and torture of prisoners. The exhibit will be located in the Library concourse.

Speakers are scheduled to discuss repression and political detention in countries around the globe. The talks will be held in the Lafayette Student Center at 4:30 p.m. Monday through Thursday.

On Monday Sean Golden, Assistant Professor of English, will discuss the situation in Northern Ireland, and on Wednesday a mass for all prisoners of conscience will be held in Sacred Heart Church at 5:15 p.m. The speakers for Tuesday and Thursday will be announced.

For any questions or information, contact Mark Hamms at 272-7674, or Mike Piette at 289-6406.

Irish open “Fun Season”

by Gregory Solomon
Athletic Student Editor

It is not difficult to understand why Tim Walsh, veteran defense¬
man for the Notre Dame Interhall Football Team terms the fall season as being “fun.”

This fall season opens against Chica¬
go and we hope to play a serious game they intend to play. The Notre Dame Interhall Football Team fields an experienced group and control the game until the final buzzer according to John Gray, buzzer, winning.
