Poet Ginsberg highlights
SLF opening Sunday night

by Tom Jackman
Senior Staff Reporter

The 1979 Sophomore Literary Arts Festival will open Sunday night in Washington Hall with famed poet Allen Ginsberg giving a poetry reading. The Festival will run through next Saturday, with activities and workshops scheduled throughout the week.

Also participating in the festival, adding to the long list of renowned authors who have appeared here, will be Broadway playwright David Mamet and novelist William Gaddis.

The SLF, an annual event, is organized completely by students, and attempts to enhance the literary sophistication of Notre Dame students through personal contact with individuals from the literary world. Financing for the festival comes from an Indiana Arts Grant, Student Union, and donations. Admission is free.

Allen Ginsberg will begin the festival at 8 p.m. Sunday in Washington Hall. His controversial works have gone on trial for obscenity in the past, and his poems have been influenced by drug experimentation, politics and Eastern religions. He once described his avocational interests as "meeting with poets and watch doctors." He has an informal reception backstage with Ginsberg after the reading.

On Monday morning at 9:05, Ginsberg will give a talk in Professor Walter Davis's class on William Blake and his works. At 1:15 p.m., Ginsberg will hold an open workshop in the library lounge so, the outlook, playwright David Mamet will hold a workshop in the Library lounge.

At 8 p.m. Monday night, Mamet will give a reading in the auditorium, followed by a reception in the lounge. Mamet is the author of the play "American Buffalo," which ran on Broadway for over a year, and won the New York Drama Critics Circle Award for best American play of 1977. His latest play is "Mr. Happiness," which was first produced on Broadway in March, 1979.

On Tuesday, novelist William Gaddis will hold an open workshop in the Library lounge at 3 p.m., and will give a reading at 8 that night in the Library auditorium.

Gaddis published The Recognitions in 1959, a novel regarded by some as an American masterpiece. He published the book J.R. in 1975, and Contingencies: An Activity which he was proclaimed an American of America's most prodigiously talented novelists.

Donald Hall will conduct an open workshop at 1:15 on Wednesday afternoon in the library lounge, followed by a reading in Washington Hall at 8 p.m. and a reception afterwards.

Hall published several highly acclaimed collections of poetry, most notably Exiles and Marriages, which "Time" called "equal parts of intelligence and imagination," and A Roof of Tilled Earth in which he was proclaimed "a master of technique. His most recent work is A Blue Wing Tilt at the Edge of the Sea.

Thursday night, Marner will give a reading in the library lounge. Nims graduated from Notre Dame in 1939, and received his masters degree in 1939. He was a member of the faculty here for 23 years, and has published five books of poetry.

WASHINGTON (AP) - The government's economic barometer fell for the third straight month in January, pointing to an economic slowdown later in the year.

Economists disagree over whether there will be an orderly decline or a deep recession at the end of 1979, and President Carter was pictured as still confident there will be no recession.

The 1.2 percent drop in the Commerce Department's index of leading economic indicators was the steepest since a 3 percent decline in January 1975, which occurred toward the end of the nation's last recession.

The 1.2 percent decline followed decreases of 0.4 percent in October and 0.1 percent in December. The index also has declined for three months in a row in the summer of 1977 but the economy kept growing rapidly.

Press secretary Jody Powell said Thursday's report was consistent with the White House view that the rate of growth would slow this year, but that the new figures don't signal recessions.

He said there were other indicators that show improvement in the economy, mentioning that orders for durable goods rose and that employment grew in January.

William Cox, a Commerce Department economist, was one step further. Cox said decline actually was welcome news. He said the economy must slow down for the hectic end of last fall if inflation is to be brought under control.

"It would be premature to conclude that a recession is in the offing," Cox said.

Nonetheless, many private forecasters are sticking to their predictions of a recession later this year or early next year.

Economists at the National Economic Council, composed of corporate leaders, say that as many as 1 million persons may be thrown out of work.

The leading indicators report, when combined with a variety of other recent government statistics, paints a bleak picture of the economy:

- Consumer prices jumped 0.9 percent in January as food, apparel and housing costs continued to climb.
- Prices received by farmers in January fell 2.4 percent, the steepest decline in three consecutive months.

These increases often show up...

**Tanzanian president makes demands to end war in Africa**

NAIROBI, Kenya (AP) - Tanzanian President Julius K. Nyerere made peace demands on Ugandan President Idi Amin, but did not demand Amin's resignation. Nyerere said in a broadcast Wednesday the four-month-old war between the neighboring East African nations "could end tomorrow" if Uganda and the Organization of African States agreed to four conditions: An OAS condemnation of Amin for invasions in Tanzania; Renunciation by Amin of his claim over part of Northern Tanzania; A pledge by Amin never to invade again; and an Agreement by Amin to pay compensation for invasion damage.

**Weather**

Becoming Partly sunny today with highs in the mid 40s. Mostly cloudy tonight with lows in the mid 30s. Rain likely Tomorrow highs in the upper 40s. The extended outlook shows rain Sunday. Cloudy Monday. Fair Tuesday. Low in the 40s to lows 50s Sunday dropping into the 30s to lows 40s by Tuesday. Highs in the upper 40s to upper 50s Sunday and 40s by Tuesday.

NORTE DAME FOOD Service threw out 300 pounds of frozen corn this week after students and employees found three worms in food served in the North Dining Hall.

A student who asked to remain unidentified, last Saturday found a worm described by various sources as anywhere in length from an eighth of an inch to an inch. The student said he took the worm to one of the dining hall workers who "passed it off as not even being a worm."

After further inspection, dining hall managers admitted it was a bore worm. "Immediate action was taken and we dumped 300 pounds of corn," according to Ronald Arbe, Food service director at the North Dining Hall.

Another bore worm was found Tuesday evening in corn by another student. The corn was from the same Gree Bay W7 stock that had not been dumped. A third worm was discovered by an employee while she was serving corn.

"When learning about this we proceeded to send 65 cases of the frozen corn back to Green Bay for inspection. We are now using canned corn," Arbe said.

He explained that it is not all uncommon to find worms in corn. He said that bore worms are found primarily in sweet corn and they are sometimes hard to distinguish because they are the same color as the corn.

From Iranian cut-off
Consumers to feel oil squeeze

(AP) - The squeeze in world oil supplies caused by the Iranian revolution is filtering down to the American consumer. Oil companies on Thursday began limiting sales of gasoline and heating oil to dealers, and Texaco said it would close 2,200 gas stations in five states over a three-year period.

In industry sources, meanwhile, said the United States was on the verge of asking the world's industrial nations to cut their use of oil voluntarily. And Venezuela denied a report that it planned to implement a 9 percent increase Thursday.

Motorists wanting to buy gasoline during March from Texaco, Standard Oil of Indiana (which sells Amoco brand fuel), Cities Service, Mobil, Atlantic Richfield, Phillips Petroleum Co. and Continental Oil may occasionally find the pumps empty.

These companies are selling less gasoline to dealers during the month in attempts to conserve supplies that are low because Iran's oil fields have been idled by political turmoil. But analysts said the shortages at gas pumps would be infrequent and probably not last more than a day.

Phillips, which announced a week ago that it would limit dealers to 70 percent of 1978 levels, said Thursday that retail sales of gasoline at some company-owned stations in Oklahoma, where the company has its headquarters, would be restricted and said some stations would be closed on Sundays.

Before the revolution, Iran produced 10 percent of the crude oil used by the non-communist world and 5 percent of that used by the U.S. The short supplies have caused gasoline prices across the country to risk a price of two a gallon in recent weeks. Prices also have been going up because OPEC raised crude-oil prices Jan. 1 by 5 percent.

According to the Lundberg letter, an industry newsletter, regular gasoline is selling at a national average of about 70 cents a gallon at full-service stations, up two cents from the start of the year.

Texaco spokesman Jim Robertson said it would take about three years to complete the pullout and added that many of the stations would probably remain open, pumping a different firm's gas.

United States and China celebrate renewal of joint diplomatic relations
WASHINGTON (AP) - With an enthusiastic welcome from President Carter, the United States and China established full diplomatic relations yesterday for the first time in almost 30 years.

Temporarily setting aside his concern that China's 12-day-old invasion of Vietnam, Carter received diplomatic credentials from Chinese Ambassador Chai Tse and declared, "I consider this to be a momentous day in the historical evolution of our nation. We consider this to be a good opportunity for the future.''

Chai pledged efforts to "further promote the friendship between the two peoples.

U.S. Ambassador Leonard Woodcock was unable to be in Peking for the occasion because he was recovering in hospital at the State Department. He arrived only Wednesday, two days after his nomination was confirmed by the Senate. Woodcock was en route to Peking yesterday.

In Peking, Treasury Secretary W. Michael Blumenthal toasted the American flag over the U.S. embassy and welcomed the formal end to the long standoff in diplomatic estrangement.

"For too long, our peoples and our governments have been separated. That separation has ended. Our histories and our political and economic systems are different, yet we can trade together and we can work together," he said.

At a similar ceremony at the Chinese Embassy in Washington, China's minister for metallurgical industries, Tang Ka, expressed confidence that the new relationship will promote "friendship and cooperation between the two countries."

As a crowd of about 100 persons, mostly embassy officials looked on, a new Chinese flag was raised on the embassy roof and a gold-colored name plate was put alongside the embassy door.

The events culminated a process that began seven years and one day ago, when President Richard M. Nixon and Chinese Premier Chou En-Lai pledged to move toward normal relations. The barrage of firecrackers celebrated the conversion of the U.S. liaison office in Peking to full embassy status. A recording of "The Star-Spangled Banner" was played and dozen American children sang the U.S. national anthem.

Blumenthal claims China owes millions
PEKING (AP) - Treasury Secretary W. Michael Blumenthal toasted an "auspicious beginning" to U.S.-Chinese economic relations Thursday, but conceded that an agreement on $197 million in American claims against China has so far eluded his grasp.

Blumenthal has said settlement of the claims issue is essential to lasting improvement in trade and other economic ties between the two countries.

At a news conference winding up the Peking part of his nine-day visit to China, Blumenthal said the claims question remained unresolved. But he said his talks here have been successful because of advances made in such other areas as trade, banking and the establishment of a joint committee to deal with economic relations between the two countries.

These gains "altogether make for considerable progress in moving and implementing the normalization of our economic relations," he said.

"...We certainly consider the purpose for which I came to visit Peking, as it relates to our economic relations, has been achieved."

Earlier Thursday, Blumenthal hoisted the American flag above the U.S. Liaison Mission in Peking, officially transforming it into the U.S. Embassy.

The American envoy said some additional talks on the issue of outstanding claims may be conducted in Shanghai. He did not rule out the possibility that a final agreement could be reached before he left China for Tokyo Sunday.

Some progress was made in settling the claims in talks with Chinese leaders Thursday, Blumenthal said, but he declined to go into details of the points that remain in dispute.

Now comes Miller time.
Conference to begin tonight

The Less Developed Countries Conference, will begin tonight at 7:30 in the Center For Continuing Education.

Two nationally known speakers will join University President Fr. Theodore M. Hesburgh in analyzing the plight of developing nations. Their topics will include how social justice can be provided for inhabitants.

Denis Goulet, senior fellow of the Overseas Development Council, will speak tonight at 8 p.m. on "Perspectives of the Third World." He is the author of The Cruel Choice, Toward a New Moral Order and Uncertain Promise.

Speaking at 9 p.m. tomorrow will be Don Luce, director of the Overseas Development Council. Luce will discuss the involvement in less developed countries. As a member of the International Voluntary Service, he will report on the Tiger Cage project in Asia used for the torture of political prisoners.

Hesburgh's talk at 11 a.m. Sunday, "Our Moral and Ethical Obligations to Our Fellowman," will review the conference discussion topics and outline areas of assistance that can be provided.

The conference, which was part of Andy McKenna's SBP platform one year ago in which 11 schools ranging from San Francisco State to the University of Syracuse, NY, will participate. The largest delegation numbers, from Bucknell University, PA.

All of the events during the course of the weekend-long conference will be held in the CCE, and all members of the Saint Mary's-Notre Dame community are invited to attend.

If a student or faculty member plans to participate in all of the events of the conference there is a fee of $3. This amount may be paid to the Student Government Offices in LaFortune until 5 p.m. today. If someone wants to attend only one or two of the events, they are welcome to do so without registering at the Student Government Offices.

The registration fee is $30, $15 for students/declared adults.

[continued from page 1] a misprint, "the University could, with proper notice, change any of the rules at any time. I think it's to the students' advantage if they are in good operating condition. A charge of $15 will be assessed each semester against the occupants of rooms which have electric refrigerators of prohibited (any) size. Due to the energy short-age these regulations will be strictly enforced."

[continued from page 6] 7:30

Welcome and Introduction to Conference

9:00

Denis Goulet: Perspectives on the Third World. Goulet is an expert on less developed countries in Asia, Africa, and Latin America. He is a senior fellow on the Overseas Development Council, author of The Cruel Choice, Toward a New Moral Order, and Uncertain Promise.

9:15

Small Group Discussions based on Goulet's speech.

10:15

Social Hour (planned by Notre Dame's International Students Organization.)

Saturday, March 3, 1979

9:00

Don Luce: Human Rights and U.S. Policy. Luce is a nationally recognized critic of the U.S. government involvement and exploitation of less developed countries.

10:15

Issue Workshops:

A.) "Non-Capitalist Development in Latin America," Professor Ken Jameson, Department of Economics. This workshop will focus on the development of alternative models of development in Latin America focusing on the experience of Peru and Guatemala.

B.) Corporate Investments: Focus on South Africa. Professor Peter Walsh, Department of Government Protection. Professor Walsh, a historian, will discuss the impact of the way that they can be affected, will be discussed for the South African case.

C.) "Multinational vs. Labor in Latin America," Professor Charles Craypo, Department of Economics. The ability of multinationals to pick and choose its labor market has definite implications on LDCs. Particular cases such as the asbestos industry, activity in the Mexican-U.S. border, and Latin America's labor practices, and international labor cooperation will be discussed.

D.) "The Church and Politics in Rhodesia," Rev. Edna McDonagh, Department of Theology. Fr. McDonagh is a visiting professor from Ireland who has just recently returned from Rhodesia.

1:15

Panel Discussion

Don Luce, Ken Jameson, Charles Craypo, Peter Walsh, James Stewart, and Thomas McDonagh.

3:00-5:15

Departmental Workshops (Choose two out of the three below. Each will last approximately one hour.)

I.) "Cern'~ and Social Promotion: presentation and discussion of group action dealing with less developed environments. Experiential Programs - presentation and discussion of study opportunities in Third World and CSLA Summer Project: Initiation Interest Projects - presentation and discussion of student interest projects such as film festivals, urban projects, and workshops.

Twenty-two states rally in support of proposed anti-abortion amendment

(AP) More than six years after the U.S. Supreme Court struck down most restrictions on abortion, the issue is surging fresh debate as efforts continue to get Congress to amend the Constitution to protect the rights of the unborn.

An Associated Press survey of the 50 states showed that legislation urging or demanding action by Congress has been approved in 11 states and is pending in another 11 states. The issue has stirred debate in at least half a dozen additional states.

The Supreme Court ruled in January 1973 that states generally could not prohibit abortions during the first six months of pregnancy. Since then, groups opposing abortion have been seeking to change the constitution in order to nullify the effects of the court’s ruling.

The resolutions vary slightly from state to state. Most, however, are similar to one passed by the Arkansas legislature in 1977, urging Congress to call a constitutional convention to draft an amendment to provide that every unborn child shall be deemed to be a person from the moment of conception or fertilization and entitled to (the) right to life guaranteed by the U.S. Constitution.

A constitutional convention could be called if two-thirds of the states request one. Any amendment resulting from a convention — or from other action by Congress - must be ratified by three-fourths of the states to become Law.

Along with the drive for a convention to deal with the Abortion issue, a campaign is under way to call such a session to draft an amendment requiring a balanced federal budget. There has been no constitutional convention since 1787.

A measure calling for a convention on the "Right-to-Life" issue is pending in Illinois. Sen. Mark Rohard, one of the sponsors, said: "There really isn’t anything more fundamental to civil rights than a definition of what human life is...I think it’s subject matter worthy of debate in a constitutional convention.

The 11 states which have passed legislation calling for a "right-to-life" amendment are: Arkansas, Delaware, Indiana, Louisiana, Massachusetts, Mississippi, Missouri, Nebraska, Pennsylvania, Rhode Island and Utah.

The state of the Pennsylvania action, which came in 1978, is confused, however, because then-Gov. Milton Shapp vetoed the legislation. The legislature ignored Shapp and forwarded the resolution to Congress without either the state’s official seal or the governor’s signature. It will ultimately be up to the courts to determine the validity of the measure.

Dixie White, president of the Pennsylvania Chapter of the National Organization for Women, condemned the resolution. "It’s one of the most irresponsible actions in Pennsylvania’s legislative history," she said.

The 11 states where legislation calling for a constitutional amendment is pending are: Arizona, Connecticut, Hawaii, Illinois, Minnesota, New Mexico, North Dakota, South Carolina, Tennessee, West Virginia and Wyoming.

As war rages

Chinese propose peace talks

BANGKOK, Thailand (AP) - While Chinese troops fought in Cambodian provinces around a strategic Vietnamese provincial capital Thursday, Chinese Foreign Minister Alexi Kosygin accused Peking of preparing peace talks to end the two-week-old war.

The Chinese proposal to negotiate was made in a note to the Vietnamese Embassy in Peking, according to Hinhua, the official Chinese news agency.

The message apparently did not mention China's earlier demands that Hanoi pull its forces out of Cambodia in exchange for a Chinese withdrawal from northern Vietnam.

Hinhua reported that China proposed that both governments appoint a vice minister of foreign affairs as a representative to meet at an early date to discuss the possibility of concrete negotiations.

No immediate Vietnamese response to the peace overture was reported.

In its latest battle communique, Hanoi said its troops had killed or wounded 28,000 Chinese troops since the war began, on Feb. 17. It also claimed to have knocked out 200 Chinese tanks.

Chinese analysts say they believe these claims could not be independently verified. Intelligence analysts say they believe Chinese casualty figures given by Vietnam are exaggerated.

The Soviet Union on Thursday issued another strong warning to China. Premier Alexi Kosygin accused Peking of a brutal act of international brigandage and vowed that Soviet-allied Vietnam "will not be abandoned in a time of trial."

Kosygin, in a Moscow speech, also revived unconfirmed reports that the Chinese are preparing to invade Vietnamese-dominated Laos, and he declared, "The policy of appeasing the aggressor must not be repeated."

Kosygin also rejected China's call for a mutual withdrawal of Vietnamese troops from Cambodia and Chinese troops from Vietnam, a Soviet ally.

Japanese Foreign Minister Sunao Sonoda, in his country's first expression of opposition to the Chinese invasion of Vietnam, told the Parliament in Tokyo Thursday that China's actions were "unjust."

Bangkok sources said Vietnamese forces in the key Lang Son province, 80 miles north-east of Hanoi, had repulsed Chinese troops near the city of Lang Son and at nearby Loc Binh.

The Chinese then mounted counter-attacks with tanks in the lead and scored some successes in both areas, sources said.

Sources in Hanoi said Chinese troops in the Lang Son area launched human-wave assaults urged on by boggers, Japan's Kof C.Inducts
new members
on Sunday

The Knights of Columbus are sponsoring ceremonies marking the induction of members who have received the admissions degree Sunday at 12:30 p.m. in the Knights of Columbus hall.

A roast beef dinner will follow the ceremonies. All candidates should dress appropriately. Members may pick up their certificates and membership cards at the hall.

Those planning to attend should contact Bill Kooll at 6708.

Swift & Co. to interview at SMC

Swift and Co. will be conducting interviews for positions in sales and for staff accountants Monday, March 12, according to the Saint Mary's Counseling and Career Development Center.

Candidates for interviews should be pursuing degrees in Business Administration.

Ivoted for Hymie

Editor's Note: All statements in the following letter were approved by Michael Heaney before publication.

Dear Editor:

Yes, I admit it. I voted for Hymie, but I did so under duress. I am fully aware that Hymie is one of the most vigorous and dynamic candidates in the Notre Dame political scene, or any scene for that matter.

He dresses like a slob and appears to be dirty. Even after his personal assurance that he will try to appear more presentable, it pains me to vote for such a strange looking specimen. Nonetheless, I feel that Hymie's stand for a truly vocal student government, a stance seen in the platforms of the other candidates, is the new approach that is necessary at Notre Dame. Integrity forced me to vote for Michael Heaney for the same reasons.

I feel that to understand my choice one must realize that competition and the political strategy used only when the other side is out holding all the cards. The fact is our student government simply has no influence on major administrative policies which are of importance to the people of Notre Dame. The administration may sometimes give us the cold shoulder when they have considered our stand, but the administration has no choice but to acknowledge the student body. No to our ideas on student housing, no to our ideas on the record store, no to any changes in the Notre Dame system and on down the line. The answer is no to our quietly hands across the table, it is the immutable Father Hesburgh and company so they may say yes.

The answer is to exert the only political muscle students have concerning these issues. We must begin to chip away at the University's proud self image. The most powerful issue in this election is the new generation of students who care more deeply for Notre Dame. For a great academic institution must treat its students like adults. If we are ever to be accepted as adults by our university, we must speak out and voice the opinion of the student government, not just to speak to the slowly growing minority of alumnae who are sympathetic to our views. We must speak as the teachers, students, and administrators of Notre Dame whose views constitute the opinions of the academic world.

It is a wonder more people are not hit with a compound fracture of their left arm, and a concussion. Apparently she had been hit by a motorist who had just hit a girl. Apparently she had been hit on Notre Dame Avenue. This is due to two reasons. First, the sidewalk along Notre Dame Avenue is improperly cleared. At the time of the accident there were several inches of water on the sidewalk. Second, the university administration itself must be blamed. Apparently they feel they own the sidewalks, and in doing so do not take the usual course of allowing time for anyone to walk to the other side of the road as students attempted to cross and take their afternoon classes.

Cautions!

Dear Editor:

While driving down Notre Dame Avenue, early Saturday morning I was flagged down by a motorist who had just hit a girl. Apparently she had been walking from the bars. Security personnel said there had been an accident there was about 20 minutes later. Fortunately, she suffered only a compound fracture of her left arm, and a concussion. It is a wonder more people are not hit on Notre Dame Avenue. This is due to two reasons. First, the sidewalk along Notre Dame Avenue is improperly cleared. At the time of the accident there were several inches of water on the sidewalk. Second, the university administration itself must be blamed. Apparently they feel they own the sidewalks, and in doing so do not take the usual course of allowing time for anyone to walk to the other side of the road as students attempted to cross and take their afternoon classes.

Maintenance should attempt to clear the sidewalks, students should, if they must walk on the road, walk single file into traffic so that they can see the cars coming.

Ed Poss

Alternative to p殆etals

Dear Editor:

This letter is prompted by what we perceive to be a critical head in the ongoing controversy of the p殆etals. In the light of the revision for regulations concerning the p殆etals, our concern relates to the success of our co-ed housing experience in the Notre Dame dormitories. The majority of students appreciate the opportunity for residence in an environment more analogous to the existing social norms. Our concern favors the benefits of co-ed living and the development of the dormitories. It is to this end that we submit this letter to the student body president. I feel that to understand my choice one must realize that competition and the political strategy used only when the other side is out holding all the cards. The fact is our student government simply has no influence on major administrative policies which are of importance to the people of Notre Dame. The administration may sometimes give us the cold shoulder when they have considered our stand, but the administration has no choice but to acknowledge the student body. No to our ideas on student housing, no to our ideas on the record store, no to any changes in the Notre Dame system and on down the line. The answer is no to our quietly hands across the table, it is the immutable Father Hesburgh and company so they may say yes.

The answer is to exert the only political muscle students have concerning these issues. We must begin to chip away at the University's proud self image. Concern for the Family of Man

President Carter's foreign policy has not been deflected by the recent events in Iran. Yet it has been buffeted by the winds of the international scene. He himself has been described as a "thoughtful" and "wary" leader, but the fact remains that his foreign policy has not been able to withstand the pressures of the current situation.

Catholic university sounds the alarm bell. The Pope has issued a warning to the world: Catholic universities must be vigilant in the face of threats to their autonomy. The Pope has called for a universal commitment to education, to the spread of knowledge, and to the promotion of human dignity. Catholic universities must be prepared to resist any attempt to undermine these values.

The stakes are high. The future of Catholic education is at risk. The Pope's warning is a call to action. Catholic universities must stand firm against any threat to their autonomy.

Dr. Julian Pleasants

Dr. Pleasants is associate professor of microbiology.
"There's no need to panic. All you heard was a Plum being shot on court five."

Head proudly introduces the incredible Plum. Further evidence that racquetball will never become stodgy.

The Plum sounds like it looks and looks like it sounds.
So you see it fast. You hear it fast.
And the Plum's bounce is accurate.
So you can react decisively... confidently. From the moment the first serve explodes off the wall.
When the folks from the surrounding courts come over to see what's going on, you can simply explain that you're detonating a Plum.

Want a Head raquetball poster?
Just clip this ad and present it to your nearby Head dealer.
On Being a Throat

Tom Nobrega

Beyond this, a throat is a potential scholar, pursuing excellence in his studies. It is not easy to be responsible for there to be room at a university for the person who is interested in his studies for their own sake.

Being a "throat" may mean pursuing the comforts of the classroom. The pursuit should extend beyond the instruction, however. The crucial step in the life of a "throat" thus becomes letting this goal of excellence carry over into the rest of his life—a goal of becoming not necessarily the best human being one can be.

Real pursuit of excellence does not really start in the classroom. It begins with the working "throat," her greatest potential. This desire can and should be carried into the classroom and in its various forms onto the football field, into social relationships, eventually to every aspect of a life. The endeavor to realize one's potential is more than a selfish desire for achievement. Eventually it must encompass everyone with whom a person has contact, one whom it is a joy for him to be in touch.

Features

For Intellectuals Only

"Throat" seems to illustrate the aspects of university attitude. Many words may uncover a wealth of information, even insight, which the word itself only hinted at. The word can be seen in different lights, so do the many "throats".

Throat

Words are a little like the tips of icicles. They are the summation, the description, the complete set of meanings. Moreover, as ice takes on varying appearances in different lights, so do individual words take on varying shades of meanings depending upon the situation to which they are applied. Perhaps it follows, then, that a study of words may uncover a wealth of spiritual truth, which the word itself only hinted at.

Consider the word "throat." It is a word that comes used in the above-mentioned ideas by taking what is commonly used on this phrase, "Throat," seems to illustrate the..."Throat" may point out something besides this imbalance in the other, more positive reasons (besides grades) for rigorous study.

One has much use for a teacher, priest, businessman, lawyer, or any other person at some time in his life, been a potential candidate for the label "throat" itself as he really wanted to be. Saying someone is a "throat" is not necessarily considered name-calling and yet to many individuals it must be taken as a sort of compliment. It is an indication that someone recognizes they are pursuing something with discipline and rigor. They are probably many "throats" that have an honest intent to learn.

Introduction: I came across this letter yesterday; it was slipped under my door. I do not know who it came to me, since it is addressed to: Worumood

666 E. 10th Street Notre Dame, Indiana 46556

I guess the postal system is capable of making mistakes once in a while. The letter reminded me of some letters C.S. Lewis was receiving during World War II. I felt it was my duty to publish it, just as he did. It's been dedicated to the volume J.R.R. Tolkien.

My dear Wormwood,

I don't know how it came to me, since it is addressed to you, but I was interested in what you tell me about the spiritual progress being made by the students at the university. As you know, we are in a new environment. Fighting Irish make their residence with us over the years and it will make me extremely happy if I have a few more Donors keeping me company. I'm sure Our Father Below will be quite happy also. I feel it is my duty to remind you that you must work day and (especially) night to develop virtue in the students that instate those of Our Father's who is our Father.

I would like to make it clear to you, Wormwood, that you must not become impatient if the students are not being overly virtuous. It makes no difference if they take the quickest route here or if they take their time. It only matters that you you, our Father Below, are not too much concerned whether they are good enough to merit his attention. If you are successful, the results are obvious. The students will be of good character and sexual irresponsibility; fed and wrangling, bad temper, quarrelsome, drag their faces, drunk, disorder, orgies, and party spirit.

An area of tremendous potential is the parental situation. Don't tackle the problem head on, but do it in a roundabout way. May I suggest that you approach this problem in terms of the freedom of each individual. Let them all know that they are free to do what they want and that no one should regulate their lives. It is so much more fun when they freely choose to join in our activities. If they struggle against us and make us work so much harder. And for Hell's sake, don't let them come in contact with any of the Enemy's propaganda which deals with undue demands, and even to force them to control themselves...I urge you to see that you don't let them come into contact with the Enemy's handbook which they call the Bible. I was reading in the New Testament recently, it was an open book, but I didn't want to see the letters he found and soon dispersed the whole crowd. I'm sure that Wise Men will keep me company. I'm sure that the people are interested in his studies for their own sake.

Finally, I'm disappointed that there are only a few more Donors keeping me company. I'm sure Our Father Below will be quite happy also. I feel it is my duty to remind you that you must work day and (especially) night to develop virtue in the students that instate those of Our Father's who is our Father.

I would like to make it clear to you, Wormwood, that you must not become impatient if the students are not being overly virtuous. It makes no difference if they take the quickest route here or if they take their time. It only matters that you want to instill in them a sense of achievement in themselves; to feel good enough by which they should live. When you are successful, the results are obvious. The students will be of good character and sexual irresponsibility; fed and wrangling, bad temper, quarrelsome, drag their faces, drunk, disorder, orgies, and party spirit.

Letters to a Lonely God

You Will See Rare Beasts

Fr. Robert Griffin

"In all the dogmas," I said, "and in all the creeds, we read not enough, nor ideas enough, to tell us of the presence of theologians say we know more of what God isn’t than we know what He is.

"Agnostics are telling me," I said, "that you don’t know what God is?"

"I know there are those, who have seen God, haven’t told us what He is," I said. "They always say, in speaking of their visions, that words fail them. Language does not exist that describes the being of God."

"At least the atheist and the agnostic agree on something," Michael said. Then -- because it was a mid-weeknight, I got shook hands with one another and with the non-Practicing Catholics and the Semi-Practicing Catholic. We even woke up the Fourth Practicing Catholic from his nap so that we could shake hands with him.

The member of the group were bright and sharp with their doubts and their Kirkegaard. Unfortunately, in taking about the foibles and one’s own lines best. All of us together I think, share a faith in wanting to have a passion at the wonder of things. Auden writes: He is in the Way. Fragment.

Unlikeliness: You will see rare beasts, and have unique adventures. He is the True, Seek Him through the Kingdom of Anxiety; You will come to a great city that is a trash heap in seven years. He is the Life. He is in the world and the Flesh; And at your marriage all its occasions shall dance for joy.

Arabs attack Carter's policy

BEIRUT, LEBANON (AP) — American Foreign policy in the Middle East is coming under attack from Arabs of the left, right and center. Even traditional friends are grumbling. Basically, President Carter's administration is caught in a squeeze between those who say Washington is not doing enough and those who say it is interfering too much.

Since the Islamic-leftist revolution in Iran swept the American-backed Shah Mohammad Reza Pahlavi off his throne, Washington's allies in the Arab world have expressed concern about the strength and sincerity of the U.S. Commitments to them.

Recent Developments Include:

— Crown Prince Fahd of Saudi Arabia abruptly postponed a mid-March trip to Washington that Carter had hoped would soothe Saudi anxieties over security in the Persian Gulf and U.S.-sponsored peace talks between Egypt and Israel.

— Morocco's King Hassan threatened this week to turn to Moscow to buy weapons because of what he felt was U.S. dallying on arms requests.

— A foreign minister of oil-rich Kuwait added his voice to the leftist chorus denouncing statements by Carter aides that the United States would intervene militarily, if appropriate, to protect its vital oil interests in the Middle East.

— Jordan's King Hussein has taken an increasingly critical view of the Camp David accords between Israel and Egypt.

— After the fall of the Shah, most Arab regimes do not want to be identified too closely with the United States. The Iranian Islamic revolution has caused these governments to become more sensitive to public opinion at home.

And some observers say the continuing stalemate in the American-sponsored Middle East peace talks has strengthened Arab suspicions that the United States is backing a loser in Egyptian Presi­dent Anwar Sadat. Many Arab leaders also believe that Israel is not genuinely interested in a just peace settlement.

Most dismaying to America's allies is a growing perception of the Carter administra­tion as indecisive and bumbling.

As an example, after U.S. Energy Secretary James Schlesinger said it was conceivable that America might intervene militarily in the Middle East, Vice President Walter Mondale denied any U.S. intention of establishing a military presence in the Persian Gulf. This prompted prominent Beirut columnist Michel Abu Awdeh to comment: "This is not strange, because Schlesinger is President Jimmy Carter before noon and Mondale's President Carter after noon."

A growing concern among Arab political observers who are not unsympathetic to for­mula of playing on anti-communist fears and trying to assure stability by sending more weapons.

"Arabs, by and large, have been as averse to the Soviet thesis that the immediate threat to the Arab is Western imperialism as they have been toward the Western claim that communism is the paramount enemy," said a recent comment in Beirut's Middle East Reporter weekly.

These observers see America's arming of the Sadat regime as a potential replay of its foreign policy in Latin America.

At the same time, however, the Carter administration has been criticized by Arab friends for not supplying enough arms. In addition to complaining of the Carter administra­tion as indecisive and bumbling.

As an example, after U.S. Energy Secretary James Schlesinger said it was "conceivable" that America might intervene militarily in the Middle East, Vice President Walter Mondale denied any U.S. intention of establishing a military presence in the Persian Gulf. Gas stations implement rations; oil companies predict crunch

INDIANAPOLIS (AP) - With the spring driving season still ahead, many Indiana service stations already are facing tighter gasoline supplies that soon could force them to close early or shut down one day a week, a spokesman said Thursday.

"It's getting tighter all the time," said Curtis Robertson, executive director of the Indiana Service Station Dealers Association. "The criticalness of the situation is going to be facing us much sooner now." Robertson, whose association represents about one-third of the 3,000 service stations in Indiana, said oil companies already have cut supplies to as little as 70 percent of what dealers had a year ago.

Of the major oil companies serving Indiana, all but Marathon Oil Co. already are allocating gasoline to service stations. Robertson said Phillips 66 stations are getting only 70 percent of last year's supplies at this time, and Shell stations 92 percent.

How serious the shortage will be is uncertain, he said, depending on action taken by the government. That should be known sometime this month, he said.

"Somewhere between the first and the 15th of April, I think you will see a definite crunch," Robertson said.
**Spartans take over Big Ten lead**

MINNEAPOLIS, Minn. (AP) - Jay Vincent scored 23 points and Gregery Kebler added 22 Thursday night, leading fourth ranked SIU to a 76-63 Big Ten basketball triumph over Minnesota. The victory moved Michigan State into sole possession of first place in the conference.

Guard Ervin Johnson contributed 21 for the Spartans, who raised their record to 19-4 in conference play and 29-5 overall. While Michigan State, 21-5 overall, led 57-28 at halftime and never let Minnesota get closer than five points in the second half.

**Second-half standout**

Joe Barry Carroll fired in 21 points and Brian Walker hit three clutch free throws as Purdue fought off rallying Indiana, 55-48. Thursday night to stay in the Big Ten basketball chase.

The victory lifted Purdue's record to 22-7 overall and 12-5 in the Big Ten, one game out of the league going into Saturday's winup, at home against Ohio State. Indiana fell to 17-12 overall, 9-9 in the conference.

Parker leaves reporters, fans waiting

BRADENTON, Fla. (AP) — Dave Parker, the Pittsburgh Pirates' $4.3 million outfielder, kept a battery of news reporters and some 200 fans cooling their heels Thursday as he waited hours before notifying the club that he was "under the weather" and would not report until Saturday.

The delay was disappointing and embarrassing to the Pirates, who had arranged for a grand appearance of the National League's Most Valuable Player to possibly overshadow Pete Rose's debut Wednesday with the Philadelphia Phillies. "Dave will be here — don't worry about it," said General Manager Harding Peterson. "It is not in Dave's character to have no purpose. He has the greatest attitude in the world."

New reporters and photographers stood around the Pirates' spring training quarters awaiting the arrival of the game's highest-paid athlete. He is receiving an estimated $800,000 for the year.

"He will certain be here if I know Dave," said Manager Chuck Tanner, who went through a similar experience last winter with the unpredictable Dick Allen while managing the Chicago White Sox.

The Pirates' players, in their gaudy gold and black uniforms, joked among each other over the absence of the 6-foot-9, 250-pound slugger, who won the National League batting title for the second straight year, with a .344 average.

Also on hand was Tom Reisch, the Pittsburgh lawyer who negotiated Parker's contract, which could pay the outfielder, with attendance clauses, more than $1 million by 1982.

Parker left Pittsburgh on Feb. 18 on a banquet swing, and was late to report to Cincinnati and Atlanta. He was due in South Bend early Friday for Thursday's reporting time.

Peterson, Reich and Tanner all said they were in the dark about Parker's whereabouts. But all felt he would be on hand momentarily.

At noon, Peterson announced that Parker had phoned a message to the Daily News, apologizing for his delay.

SEC Tournament

Defending champion Kentucky, hitting 68.3 percent, edged Alabama 101-100, and Auburn later got two big wins from Bobby Cargile and Eric Swaggerty to outlast Georgia 95-91 in four overtimes Thursday night in the Southeastern Conference basketball tournament.

Kentucky, which got its winning margin on freshman Dwight Anderson's two free throws with 8 seconds remaining, moves into Friday night's semifinals against Southeastern Louisiana State, the nation's No. 8 team.

ACC Tournament

Senior Jim Spanarkel sank two free throws with two seconds remaining Thursday to stave off a furious Wake Forest rally and 11-0 Duke to a 72-69 victory in the opening round of the Atlantic Coast Conference basketball tournament.

In the second game Kendall "Tiny" Findlay scored 20 points to lead North Carolina State to an 82-78 win over a determined Virginia team, which rallied in the last minutes.

UCLA 79, UC 68

LOS ANGELES (AP) — Senior Guard Brad Holland scored 27 points and David Greenwood added 22 Thursday night as the third-ranked UCLA Bruins rallied to a 79-68 Pac-10 basketball victory over the California Golden Bears.

DePaul exceeds expectations

by Paul Mullane
Assistant Sports Editor

When Notre Dame fans first caught a glimpse of the 1978-79 Irish basketball schedule, they anticipated this weekend as a season-opening tuneup and an excellent preparation for the NCAA basketball playoffs. While DePaul (Friday night) and Michigan (Sunday) would both be teams no team wants, the Wolverines were to be especially tough, They were picked in the top ten by most pre-season pollsters, and with Phil Hubbard returning from knee surgery to join Mike McGore and Company, they were expected to give Michigan State a real run for the Big Ten crown.

So much for pre-season prognoses. While Michigan will still provide a formidable opposition in Sunday's nationally-televised (WSND-AM) game at the Silverdome, it is DePaul that could be the real horn in the side for the Irish.

The Blue Demons of former Notre Dame coach Joe Kuharich have more than made up for the loss of their leading scorer, a team as they have recorded a 20-4 record. And, more importantly for the midwest independent, they appear to be in good shape for the NCAA bid, based on their recent 61-60 victory over Marquette. This is a very good basketball team," states Irish coach Digger Phelps of the 15th-ranked Demons. "They're a very good one-on-one team. They have the proper conditioning, the strength, shooting and rebounding necessary to beat any team at any time.

"Take the play of Mark Aguirre, for example. It's a tribute to the coaching ability of Ray Meyer who can take a freshman and teach him to play major college basketball and, in fact, lead a very talented team in the scoring category. Aguirre, netting 23.6 points per outing, not only leads his club in point production, but also ranks as the highest scoring freshman in the country. The 6-7 product of Chicago's Westinghouse High School is also averaging 7.6 rebounds a game, second highest on the club. "He loves to work the lane, but can also handle himself quite well away from the basket," says Phelps of the rookie. "He has been described by many as the next Nadar Daytey. The Irish, who usually pump fake, and is much quicker than he looks."

The Irish, who will celebrate the return of a healthy Kelly Tripucka, will also have to keep a close eye on Aguirre's supporting cast. Senior guard Gary Garland and sophomore co-captain Toney Hugh, both from East Orange, New Jersey, are no strangers to Irish defenders. They both played on last year's DePaul squad which knocked Notre Dame, 84-64, in the final game of the NCAA Midwest Regional, after they handed the Irish a 60-68 overtime loss at the ACC during the regular season.

Garland, who led the team with 94 steals and 148 assists, was in second in scoring with a 16.6 average. It was his last-second 22-footer which beat the Irish at the ACC last year. Bradshaw, second in assists with 126, is averaging 11.1 points a game. Carrol Wasko and Jim Mitchell team with Aguirre to give the Demons a very potent and physical front line. Wasko, averaging 16.0 this season, ranks fourth on DePaul's all-time scoring list. The 6-6 senior also leads the team in rebounding with 8.4 caroms a contest.

"For a midwest transfer student from the University of Illinois, Ray Meyer has taken the most improved ball player. The 6-9 center, who usually pumps high, is scoring at a 8.5 clip and rebounding at a 5.7 pace in his first year at DePaul. While the Irish, now 22-3, will have a definite advantage by the simple numbers, the Demons are well-coached, have good depth and experience and a team chemistry few teams could hope to match."

The action will be rough and plentiful when the Bengal Bouts begins preliminary round on Saturday night.

Track team bosts final meet

by Mark Perry
Assistant Sports Editor

Notre Dame will be hosting their final home meet of the indoor track season, as Kentucky State and Illinois-Chicago (Chicagoland) invade the ACC this Saturday. The meet is scheduled to start at 12 noon, and admission is free.

The meet will be a final tune-up for the Notre Dame runners who have qualified for the NCAA Indoor Championships, which will be held in Detroit's Cobo Arena next weekend.

The two-mile relay team (George Senior, Rick Rodgers, and Pete Bohan) will be sending a distance medley relay team (Aragon, Ken Lynch, Burger, and Tony Huch) to compete for a spot in the 880-yard run have all bettered the qualifying standards in earlier meets. There is also chance that other Irish runners could go to the meet with outstanding performances this weekend.

For the rest of the Irish team, the meet will provide a chance to turn in some strong performances in preparation for the upcoming outdoor season. Notre Dame will also be trying to improve their season record in regular races, which stands at 3-1 thus far. The Irish team will be traveling to Alabama over break to open their spring competition. The Irish have several invitational and relay meets scheduled for this season, including the Kansas Relays and the ACC Indoor, all in March. They will also be hosting the Central Collegiate Conference meet this season, which will be held on their newly installed all-weather track.

Seven returning champs highlight Bengals

by Leo Late
Sports Writer

Soon it will be tournament time at Notre Dame. No, the Irish aren't hosting final four or NCAA basketball playoffs. This Sunday at 2:00 p.m., the Bengal Bouts will be center stage at the Athletic and Recreation Center's basketball arena.

With a field of seven returnmg champions, 14 past finalists and a group of contestants ranging from defensive backs to Notre Dame rugby players, this weekend's Bouts should be as exciting as ever. No college basketball fan could be any more hungry to see the electricity surrounding this year's bouts, as Sportsworld plans to televise the 4th edition of the Bengal tourney.

The boxing extravaganza will include a span of 12 divisions and approximately 80 students striving for that coveted class championship. The aspiring boxers have been training every day since Christmas break. Division by Division the fight card reads as follows:

125 Pounds: All the boxers in this competitive lightweight division are veterans, so look for lots of fast and furious action in this class. The top prospects include two returning finalists and last year's 125 pound champion, Rocky Romano. Romano has plenty of experience and power to repeat, but faces a stiff challenge from 1978 finals Danny Reyes and Doug Bergott. Reyes is speed personified, while pound for pound Borganti may be the strongest boxer in the club. Returning veteran Chris Macdonald is a darkhorse.

130 Pounds: Joe Viola, a runner-up in last year's 120 lbs. division is ready, willing and able to take it all. But he will have his hands full with Robert Rivers and Mike Mazurek hungry for the title. Rivera is a dancer with excellent hooks, while Mazurek is a 3rd year law student with Golden Gloves experience. Look for novice Bob Murphy to add to the competition at this weight.

135 Pounds: Boxing officer Jamie Shorter and Greg Grantz are the favorites. Shreiner is a success story in his own right. He was hand-capped as a child, but has turned himself into a strong fighter, and will be there for the race to the championship. Grantz is a southpaw with lots of power.

Battle Badgers

Notre Dame icsers battle for home ice

by Brian Ceglane
Sports Writer

Madison, Wis. - This is it. There is no tomorrow. To have home ice for the playoffs, or not to have home ice for the playoffs. That is the question.

It is a sure thing that the Irish hockey team has but one more chance to try and answer affirmatively to the question of whether or not they can find themselves in the thick of the playoffs. The Irish will begin to play their games this weekend, as they finish off the regular Western Collegiate Hockey Association season against the Badgers of Wisconsin.

With Notre Dame dropping two critical games last week at Denver and Wisconsin sweeping at Colorado College, the Irish now find themselves one point behind the Badgers in fifth place and one point away from the home advantage for the first round of the WCHA playoffs March 6-7. Wisconsin sports a 17-11-2 league record for 36 points, tying it for fourth with Duluth, while Notre Dame follows right behind with a 17-12-1 WCHA mark for 35 points.

"This series with Wisconsin will, of course, determine where we stand for the playoffs," notes Irish coach Lefty Smith. "If we get the breaks we could still finish as high as tied for second. We could also finish as low as fifth, though, so it should be an interesting series. Wisconsin has a very fine team, and playing at the Duane Coliseum will be a challenge in itself.

"With a five point lead over sixth place Michigan Tech, Notre Dame cannot drop any lower than its present position of fifth. For four points separate the four teams from second to fifth place, leaving anybody's guess as to where they will be after Saturday night."

"I don't think I have ever received so many calls," said WCHA Commissioner Bert Godchaux.

(continued on page 18)
