The Campus Life Council last night passed a resolution submitted by Keenan rector Fr. Richard Conyers calling for the administration to house women in the two new student dormitories being constructed in between the library and the tower. The resolution, proposed by Fr. John Doyle, recommended the towers remain male dorms, a super game room and a weight room; all of which I would have to give up," Ciancio said.

Under these tough-minded things, I think our hall is beginning to develop a tradition which will someday rival those of older dorms on the South Quad. If we all have to pack up and leave next year that tradition will be destroyed," Ciancio added. He said that he had first heard of the rumour from HPC advisor Ellen Dorney and Flanner rector Bro. Peter Mahoney.

According to several sources involved in a conversation between HPC chairman Ellen Dorney and University President Fr. Theodore Hesburgh, the rumour suggests that dorms would be closed that the halls will be closed and dormitories, presently under construction, for the use of undergraduate women. [Photo by Greg Maurer]

The resolution was generated by the presentation of a document drawn up by women who are members of the Hall President's Council. The document, which has been circulated to other dorms through the remainder of the HPC, lists several reasons why the facilities should be residences for men. Among the most listed were security, potential social implications, and expense.

Brein-Phillips Hall President Dale Robinson described the document as a "communicative device for eventual affirmative action" regarding the two new dorms. The document is the result of a campaign in which, if it were found to be false, it would place the hall and its members in jeopardy of losing its status as an all-male residence.

According to Assistant Vice-President for Student Affairs Fr. Gregory Green of the HPC, the rumour suggests that dorms would be closed, Flanner and the new dorms in the men's dormitories, presently under construction, for the use of undergraduate women.

According to Assistant Vice-President for Student Affairs Fr. Gregory Green of the HPC, the rumour suggests that dorms would be closed and Flanner would be housed in Flanner and the new dorms. A Flanner rector Bro. Peter Mahoney.

Hesburgh explained that Notre Dame is aspiring to become a "prestigious institution in its athletic competition" although "it will have a short-term solution." His words were echoed in the actions designed to slow economic expansion and inflation by making it more difficult for banks to lend and more expensive for people to borrow the moves the dollar up strongly in early trading in Europe yesterday and the surge held through the day.

Gold prices, which tend to move in the opposite direction as the dollar, closed at $374 a troy ounce in London and $372.50 in Zurich. On Friday, gold closed at $385.50 an ounce in both cities after hitting a midday record of $444 Tuesday.

Gold drops, dollar gains strength

NEW YORK (AP) - The government's plan to cut inflation and support the dollar did what it was meant to yesterday, as the dollar rose and gold prices fell. But stock prices fell amid fears that the plan means higher interest rates.

Economists generally reacted favorably to the program announced Saturday, but many said it could push the United States deeper into a recession. Some said it might not be strong enough to cure the dollar's chronic slide.

A trader on the New York Commodity Exchange, the nation's largest market for gold futures contracts, said the program "doesn't look like a long-term solution" although "it will have a short-term effect." Pieces of silver, grain and soybean futures fell on commodity markets in reaction to the actions by the Federal Reserve.

In an unusual Saturday night news conference, Federal Reserve Chairman Paul B. Volcker announced a 1 percent increase in the discount rate - the rate at which member banks borrow money from the central bank. The discount rate now is at a record 12 percent. The Fed also increased the amount of reserves member banks must keep.

The actions are designed to slow economic expansion and inflation by making it more difficult for banks to lend and more expensive for people to borrow.

Hesburgh reaffirms N.D. tenure rules, criteria

University President Fr. Theodore Hesburgh told the Notre Dame faculty yesterday in Washington Hall that there have been no tenure rule changes.

During his annual report, Hesburgh said that the rules and criteria are well spelled out in the faculty handbook this semester and remain unchanged. Tenure criteria - and, specifically, standards used in judging research achievements among faculty members - has been a major topic of concern to the faculty since early last year.

"Hesburgh said the assignment stage of the tenure process is the most important part of the tenure process. He advised that careful considerations be taken at the appointment stage.

"If someone is appointed and it is known, this is where things go haywire," Hesburgh said. According to Hesburgh, teaching, research and service are the three most important considerations made for tenure. "Teaching is the most important area but if the University in to achieve "excellence" then members of the community must themselves be "excellent." Hesburgh stated.

He informed the 200 faculty members present of his greatest goal, "I would like to help create a great Catholic university known for its academic excellence.

In today's world, the Catholic university is the exception rather than the rule Hesburgh said. He went on to cite the world-wide decline of Catholic institutions for higher learning.

Hesburgh explained that Notre Dame is aspiring to become a
Carter designates
Leif Erickson Day

PHILADELPHIA (AP) - The president of the Leif Ericson Society says he thinks ‘eventually they’ll do away with Columbus Day.’ ‘‘You can’t have two guys discovering the same thing,’’ insinuates Christensen, who says he received a proclamation from President Carter last week designating the Tuesday as Leif Erickson Day. ‘‘I was surprised how much the president really knew about our Viking hero,’’ Christensen said. ‘‘It was the first time we’ve had some recognition from the top.’’

Youth suffers critical injury during charity concert

ELIZABETH, N.J. (AP) - A 16-year-old youth was in critical condition yesterday with a stab wound he suffered after ‘‘bedlam’’ broke out among bottle throwing youths during a charity concert. Thirty-seven people were treated, including seven elderly bystanders, following the violence Sunday. The disturbance occurred at Williams Field shortly after a concert to benefit cerebral palsy victims got under way and reached a peak after 30 police officers attempted to clear the field. Seven officers were injured, one seriously.

Mother pleads insanity in children’s murders

SEATTLE (AP) - A 25-year-old woman threw her two young sons to their deaths from the Pasco-Kennewick Bridge into the icy Columbia River Feb. 3 in an effort to save their souls, her lawyer told a jury yesterday. Tanya Adams of Pasco cried as J.D. Evans described opening statements to the court. Mrs. Adams was moved from Pasco to Seattle because of extensive publicity. He said she had decided to freeze them (the boys) in the snow outside but one of the boys started crying. ‘‘Mrs. Adams pleaded innocent by reason of insanity.

News in brief

by Tom Kriegel

Notre Dame Student Legal Services has begun offering free legal advice to students. The firm is funded by Student Government.

Kathleen Kearney, Student Legal Services Division Director, noted that ‘‘The usual cases we handle are landlord-tenant problems, traffic accidents, and small-claims court cases. There is a financial need restriction for eligibility, but almost all qualify. The only other qualification is that those applying sign a release form. All cases are handled by second and third year law students in the Notre Dame Law School, and are supervised by a member of the Indiana Bar, John Emins, a Notre Dame Law graduate. Under Indiana law, the law students have the power of an attorney when supervised by a member of the bar, so they are protected by law from being forced to reveal anything a student client has told them, under the attorney-client privilege. ’’

We are for the most part the same as attorneys,’’ said Kearney. ‘‘We have even taken out malpractice insurance, although we hope we won’t need it. ’’

The Student Legal Service is just one of the divisions of the Notre Dame Legal Aid and Defender Association, in which Notre Dame Law School students work in various communities to get experience in the legal profession, and class credit also. It is very simple for a student to get aid from Student Legal Services. When a student applies for help in the ND-SLS office, a student intern will take all the information on the case, will give counsel, and if necessary research the problem for presentation. If the case actually goes to court, the intern will present the case in court, with the assistance of the supervising attorney.

One of the few types of cases that Student Legal Services cannot handle is any sort of fee-generating case, where an attorney would normally get a portion of a settlement for his services.

Furushashi announces MBA stats

The Master’s in Business Administration (MBA) program at the University of Notre Dame has enrolled 172 students this fall, according to Usaku Furushashi, associate dean of the College of Business Administration. This figure includes 84 first-year and 83 second-year students as well as 23 students in the combined MBA-JD program with the Law School.

Furushashi said 18 of the second-year students were spending the fall semester in England in the University’s MBA London Program, headed by Dr. D. F. Gurner. Ninety-nine undergraduate students in 12 countries and 11 foreign countries are represent-

ized, with foreign students comprising 15 percent of the student body. Twenty-two per cent of the students are women.

ND Student Legal Services receives funds from Student Government

The Observer

Night Editor: Rod Beard Art Editor: Bill Ker-

The Observer incorrectly spelled the name of the new president of the Leif Ericson Society, John Emins, on Wednesday’s front page.

Hall, Ananya Peczkowski, Beth Ameyer, Peggy Schneeman, and Christopher, 1 1/2.

The Observer is published Monday through Friday except during exam and vacation periods. The Student Legal Services is an auxiliary office, a student intern will take all the information on the case, will give counsel, and if necessary research the problem for presentation. If the case actually goes to court, the intern will present the case in court, with the assistance of the supervising attorney.

On controversial issues

**Pope reaffirms traditional stands**

WASHINGTON (AP) - The American people - starving for simple truths and spiritual her- oes - have a new leader to turn to in the person of Pope John Paul II.

But in his absence, the debates he joined on his Ameri- can tour will rage, almost certainly unaltered by his un- yielding endorsements of the traditions of the Roman Catho- lic Church.

While wrangling millions with his love and his soft-spo- ken charm, the Pope was staunch in opposition to special changes that have changed Catholic practices - and policy, in the United States.

Birth control, divorce and the role of women in his church are touchy issues, on which the Pope showed no inclination toward change.

The ban on birth control is almost certainly the most widely disregarded of its precepts in the United States.

Celibacy is a difficult remedy for the Catholics. An Associated Press-NBC News poll indi- cates that 76 percent of the nation's 63 million Catholics believe one can use artificial methods of birth control - the pill, or contraceptive devices - and not be distracted.

This widespread violation may appear minor, but it is symptomatic of a steady erosion in active support of Christian- ity's oldest church.

The ban on divorce is another divisive church dictum that has been commonly practiced by Catholics. The AP-NBC poll, conducted in late October, in- dicates that 63 percent of all Catholics believe one can divorce, even where children are invol- ved. The polling shows Americ- ans who have married once are more likely to use artificial methods of birth control than those who have married twice, or even those who have been divorced.

The allocation for campus clubs and organizations made by the Saint Mary's Student Assembly Sunday night were greeted yesterday with mixed emotions by the various organi- zations.

Most of the representatives said that the decisions were fair; however some clubs felt that the funds given were insufficient for their goals.

The SMC Sociology Club was disappointed by the allocation. Married students, the club said, "We minimized the budget and requested exactly what we needed to appeal the decision."

The members of the SMC Chemical Society were also disappointed with the results of the allocations. Jessica Benner, a junior physics major, said: "The amount of money is not enough to fund the activities of our club. Because many chemical corporations are not willing to do anything for students, our club would also appeal the decision."

The Neighborhood Roors Or- ganization was also not pleased with the decision. They were, however, able to tap alternative sources for funding, said Sheila Water, the Treasurer of the Organization. She said: "If the organizations were not happy with the money allocated to them, their appeals would be reviewed," however, the pur- pose of the help given is not to hand everything to the clubs, it is only to assist them.

The Notre Dame-Saint Mary’s Right to Life Organization declined to comment on their appeal.

**SMC Student Assembly allocates student activities funds**

by Mary Kay Leydon

The allocation for campus clubs and organizations made by the Saint Mary's Student Assembly Sunday night were greeted yesterday with mixed emotions by the various organizations.

Most of the representatives said that the decisions were fair; however some clubs felt that the funds given were insufficient for their goals.

The SMC Sociology Club was disappointed by the allocation. Married students, the club said, "We minimized the budget and requested exactly what we needed to appeal the decision."

The members of the SMC Chemical Society were also disappointed with the results of the allocations. Jessica Benner, a junior physics major, said: "The amount of money is not enough to fund the activities of our club. Because many chemical corporations are not willing to do anything for students, our club would also appeal the decision."

The Neighborhood Roors Organization was also not pleased with the decision. They were, however, able to tap alternative sources for funding, said Sheila Water, the Treasurer of the Organization. She said: "If the organizations were not happy with the money allocated to them, their appeals would be reviewed," however, the purpose of the help given is not to hand everything to the clubs, it is only to assist them.

The Notre Dame-Saint Mary’s Right to Life Organization declined to comment on their appeal.

**RISKING FINANCIAL DISASTER**

ISO caries on with activities

By Kathryn Casey

In spite of possible financial disaster, the ISO is carrying on with two activities each week.

According to Fr. Thomas Tallarida, director of the ISO, these two activities will depend on the success of each event. Each Saint Station Government has allotted to the ISO $1500 for the year's expenses.

"Money will disappear very quickly in activities that con- cern not just foreign students, but students on campus as well," Tallarida said.

The ISO has submitted an appeal to the Board of Com- missioners requesting more mon- ey. He explained that the ISO has sponsored events such as "Drum Dances" and "Dance After Work" whose activities fees are being spent by the ISO, but who are not involved. Last year the ISO received $1500 from the student government to sponsor cultural activities for foreign students. They never received money from the Uni- versity, Tallarida pointed out.

According to Assistant Professor Bill Roche, the bud- get for the ISO is in a two-step process which allows for change.

After the first draft is published, students have the opportunity to voice their opin- ions. The second draft is then passed and approved by the ISO, which proposes a tentative Roche said, and there is no reason for change.

He said that if the ISO can pose a convincing argument against the allocation, the Board of Commissioners can alter the budget.

The first of the two ISO sponsored activities will be a picnic held tomorrow from 5 p.m. to 9 p.m. at Notre Dame's President of the Host Family Association. The picnic will be held every third Tuesday of the month.

The second activity will be a traditional Chinese musical pre- sented by the Youth Goodwill Mission of the Republic of China. Composed of 16 college students, it will perform in Washington Hall on October 13 as part of a 50-day tour of the United States.

The drama will begin with "Drum Dances" featuring sev- eral drummers. The students from Taiwan will perform the Surf- board Drum Dance of Feng Yang, and the Peaceful Drum Dance.

The group appeared here in 1977 as part of the International Friendship Festival. It is sponsored this year by the Taiwan Television Company. Admission to the performance is free.

Student Activities will sponsor a dinner for the Youth Goodwill Mission at the Ramada Inn. The reception in LaFortune Student Center after the show, open to all Notre Dame students will be the expense of the ISO. The ISO will also pay for the picnic tomorrow.

Players need volunteers

The Notre Dame Student Player- ings are looking for individuals interested in becoming involved in their full production of "Stomp the World." Want to Get Greenwich? Especially recrui- ting volunteers to aid with lighting, scene painting and publicity. No experience is necessary. Inter- ested persons should contact John Shipp, President, on the second floor of LaFortune.
Volunteers support education

School in South Bend. The Primary Day School was founded by Sr. Maria as a special educational institution for children and adolescents who have failed in the South Bend Community School System. Once they attend Sr. Maria's school, the students are referred to the community school system. This year there are 1387 students at the school ranging from second grade through grade 12.

President Dan Rauch described the new NCND Program service in the school as "a big challenge to students and a little bit of special attention." The volunteers also have the opportunity to educate the whole school. The Alpha Phi Omega organization holds a special fund raiser for the school - a "Ugly Man" on Campus Contest held during An Tostal. The organization also plans to hold a movie screening of Shakespeare readings on football weekends. Alpha Phi Omega also sponsors the Blood Drive on campus in October.

Head Start is a child development program designed to give pre-school children from economically depressed back-grounds the education, medical care, and social services they need to begin school. The program also includes parental involvement. The program of the organization is Rosemary C. Calandra.

The Neighborhood Study Help Program (NSHP) involves a one-to-one tutoring service for 215 elementary children in two centers in the South Bend Community. The 200 SM/CND tutors provide transportation to and from the centers by the NSHP twice a week to "provide academic and emotional support for the kids," according to John Sax, president of the NSHP. The programs the NSHP is involved in now include a Spanish bilingual program and a program set up to aid the Vietnamese Boat People.

MECHA stands for the organization entitled Movimiento Estudiantil de Chilean de America, which means in English, "Student Movement of Chilean American." MECHA's activities involves the tutoring of Mexican American children who have learning disabilities, helping to pay for English language classes, and publicizing the issue of Affirmative Action.

In the community, "having difficul- ties because they speak predominantly Spanish," according to Sister Manta. MECHA provides direct assistance to children in El Casa, a day-care center, and to La Casa, a center for the elderly. Both centers are located in South Bend.

Big Brothers/Big Sisters involves a one-to-one relationship between a SM/CND student and child in South Bend. The students visit their little brother or sister once a week and engage in an activity of interest to both. The purpose of the Big Brother/Big Sister relationship is to "show needed affection," according to President Jim Martin. The organization also sponsors a program which sponsors local and national accounts such as field trips, parties, and sports events which reinforce volunteer relationships.

Editor's Note: This is the second part in a three part series. Part three will follow tomorrow.

by Kit Bernardi

One of the main concerns of the Volunteers is to educate. Many Saint Mary's and Notre Dame students partici- pate in the various organizational activities involved in one form of education or another. Some of these groups include Alpha Phi Omega, The Primary Day School, Head Start, The Neighborhood Study Help Program, MECHA and Big Brothers/Big Sisters.

Alpha Phi Omega is a national organization with chapters across the country. The co-ed fraternity is concerned in the South Bend area with the fund-raising and publicity for Sister Maria's Primary Day School in South Bend. The Primary Day School was founded by Sr. Maria as a special educational institution for children and adolescents who have failed in the South Bend Community School System. Once they attend Sr. Maria's school, the students are referred to the community school system. This year there are 1387 students at the school ranging from second grade through grade 12.

Weather fails to dampen spirits

Oktoberfest proves successful

by Ceece Baleille

This year’s Saint Mary’s Oktoberfest and Biergarten, held outside for the first time, was very successful despite the bad weather, according to Lisa Fulks, chairman of the committee.

Fulks was pleased that so many students showed up for the Biergarten. She commented that “the bad weather almost worked in our favor since the beer tent was very crowded.”

Next year she said she hopes to have two beer tents since it was so popular. The tents will be connected with music hooked up to each tent since “it was difficult to hear the music sometimes through all of the noise,” Fulks said.

Fulks also remarked that the food tent attracted large crowds. This year students sold hot pretzels and other foods.

There were no major problems with security, according to Fulks and Anthony Kovatch, the director of security at Saint Mary’s.

“A keg of beer was stolen,” Kovatch said.

Weather to speak

University President Theodore Hesburgh will speak tonight in the Howard Hall chapel at 7 p.m.

Senior trippers to meet

Plans for the senior class trip are finalized but there are a few reminders. First, proof of citizenship is necessary and seniors must have it with them on Travel Night. It can be one of the following four documents: voter registration, birth certificate, passport or affidavit for proof of citizenship.

Travel Night is Tuesday, Oct. 16 at 8 p.m. in O’Laughlin Theatre. Saint Mary’s Travel packets, money packets and general information will be distributed and T-shirts will be available at three dollars each.

Following the Travel Night meeting is Acapulco Night at Senior Bar with special prices.

and several people crawled into the beer tent, but other than that there were no major incidents,” Fulks added. Kovatch commented that he thought that the outdoor Biergarten was “a great idea” and that every thing went according to plans.

Fulks said that she hopes the Oktoberfest will be held outside in the future since it more closely resembles the one in Munich.

... Pirates

(continued from page 8)

But, though the faces have changed, the core of the fans is remarkably similar. In 1971, the Orioles strength came from pitcher's mound as they rode the arms of four 20-game winners and right-

row on the same team in the AL West (Rick Dempsey, Mike Cuellar, Pat Dobson, Dave McNally and Palmer made Orioles die-hard fans) and baseball writers to whip the boys from Pittsburgh. Some were even saying just the opposite — four games. The Pirates, on the other hand, relied on the lumber. Clemente, Stargell, Al Oliver and Dave Cash had some fantastic things with their bats that season and would have continued to do so if the Pirates were to stand a chance of knocking off Baltimore. Inconsistency on the mound looked to be Pittsburgh's biggest obstacle.

Well, to make a long story short, the Pirates hit the ball as expected, but much to the surprise of everyone especially the Orioles — the Pittsburgh pitchers were more than equal to the task. Blass won two (including a 2-1 decision in game seven), Nelson won four, another and Kison, a baby-faced reliever who had not seen that much time during the season, came on in the third inning of game three, after the seven scoreless innings and get his first major league victory. And guess who's starting game one for the Pirates tonight? Yep - he's still as baby-faced as ever. The only difference in the season, came on in the third inning of game three, after the seven scoreless innings and get his first major league victory. And guess who's starting game one for the Pirates tonight? Yep - he's still as baby-faced as ever. **Sports Briefs**

The Notre Dame hockey team will be competing for the first time in many years this weekend as the Spartans of Michigan visit the ACC this afternoon for a 3:45 p.m. scrimmage. Admission is free.

The Notre Dame Water Polo Club was defeated by Western Michigan on Friday, falling to Indiana state, 2-0. The loss snapped a three-game winning streak, the most successful in state's last Wednesday, 5-1. Tomorrow the Irish will try to improve their 3-2-1 mark when they travel to Franklin, Ind. to face on Franklin College.

The Irish were 4-4 season to smile after winning on Saturday, but those smiles faded after Tuesday's 4-3 extra-inning loss to Xavier. (Photo by Dave Lombardozzi)

Awesome Auburn tops Blue Division

Auburn University put on an awesome running display Friday, to capture the Blue Division championship of the Notre Dame Invitational Cross Country Tournament. The Tigers accumulated only 34 points from their top-five runners which proved to be three-times better than the 114 points amassed by second-place finisher Illinois State. Defending champion Michigan was third with a 136-point total.

Meanwhile, the Notre Dame team finished a disappointing 13th at 107, in this, the first meet of the season for the Irish. Coach Joe Piate had hoped his squad would challenge for the top spot, despite its lack of experience. Unfortunately, the top runner from last year's team, Pat Sullivan, was having troubles with his bad knee and did not compete. Auburn so dominated the meet that its top-five runners (those that contribute to the team point totals) all finished among the top 14. A total of 157 men completed the five-mile race, contributing to the team scores of 21 schools.

Auburn's Tom Graves won the race with a time of 23:35. The number 3, 6, 9 and 14 finishers were also from the Southeast Conference powerhouse.

The top finisher for the Irish was junior Chuck Aragon, clocking a time of 24:41, good for the 17th spot in the field. "We didn't run well at all," said Piatte. "It was an experiment. We won't know until later whether or not it was a good move. We probably needed another race before the invitational to prepare our runners." The Gold Division race also proved to be quite one-sided. Wisconsin-LaCross finished first with 61 points, well ahead of second place Marquette and third place Pittsburgh (Johnstown). Dan Erdel of Northern Illinois finished first in the division with a time of 24:18.

'S71 rematch

Orioles, Pirates tangle in fall classic

Let's stop the reminiscing; Weaver's got it this time

Hey baseball fans, look at this. For the first time in eight years, we have the two best teams in the sport going at it for all the marbles. The last time the sport's best two records met in the fall classic was in 1971 when these same two teams stretched and clawed for seven games with the underdog Pirates taking it.

So much for reminiscing, and on the same note, scratch that about the same two teams. The organizations are the same but the players are almost entirely different. Sure, it's easy to compare, but this is 1979, not 1971. What happened then will have little bearing on what happens this year. The Orioles combined baseball's best pitching staff with a strong bench and timely hitting as they marched to a 102-win season, just four more than their series opponents. At the same time, the Pirates out-slugged the batters with an equally strong bench and timely pitching as they squeaked past Montreal.

You can argue until the tups come up which is more important, hitting or pitching, and there's plenty of evidence to back up both sides. But hey, this is the World Series, not a 162-game marathon where only the finest survive. It may sound like a cop-out, but anything can happen.

The biggest differences between these two clubs are the managers. It boils down to true greatness against simple mediocrity (at best). One publicist far closer to the Pirates than I, admitted that, "If Chuck Tanner hadn't over-managed, the Buc's would have won the division by ten games." I'll leave it at that. On the other side of the fence is Earl Weaver. In 11 full
