Mardi Gras foresees financial difficulties

by Mary Price Callahan

Staff Reporter

The Mardi Gras Raffle is in severe financial trouble and the location of 70 percent of the raffle tickets usually cannot be accounted for, according to Mike Day, Mardi Gras business manager. Appearing before the Hall-Tell to the C.C. negligent night, Day said that at this time of year, raffle tickets usually account for 50 percent of revenue, yet this year ticket sales have only generated approximately $4,000. As the event's prime revenue source, 95 percent of the tickets still remain unsold.

"Somewhere along the line... something got messed up," Day commented. Citing a large gap of communication between raffle chairmen and section leaders, Day admitted, "We don't know who has the tickets, nor where they are now." Day indicated that the Mardi Gras raffle committee is inexperienced.

Using United Way as an analogy, Day said that the Mardi Gras' inexperience is the fault of students who participate on a percentage of a project that has 30 percent of its contributions cover administrative costs. The Mardi Gras raffle committee's revenue is the only treatment of revenue that has no administrative costs. Day said all money goes directly to local organizations.

"The students don't know how much they pay," Day explained, "the reason why students would participate 100 percent on a project that has 30 percent of its revenue source, 95 percent of the tickets still remain unsold until only 30 percent have been recovered."

Armond meets with plaintiffs

by Mark Rust

Editor

About 30 women faculty members attended a meeting last night in Hayes-Healy to ask concerns about their possible participation in a class action suit against the University, according to Director Armond. Armond, an attorney for Davis, Miner and Barnhill of Chicago, who are representing the plaintiffs.

Armond's appearance before the group was almost curtailed at the University's request. The group of women faculty members who do not want to be named in the suit have demanded that Armond explain his reason for representing them.

Over 130 women are eligible in two suits. The Ford suit will attempt to prove that the University discriminates against women, while the women faculty members who do not want to be named in the suit have demanded that Armond explain his reason for representing them.

Decision-makers in Washington and Ottawa decided to act when they did because 'we knew everyone that the danger was becoming greater,' Canadian officials later confirmed the basics of the report. Stare Department officials said the Americans who have been in "friendly embassies," but the Canadians said all were at the Notre Dame sex discrimination mission. This seemed to indicate that some of the Canadian mission apparently gathered there later.

Americans slip out of Iran, elude officials

by Pam Degnan

Staff Reporter

LeMans Hall residents will be suspected this weekend due to a gross violation of party regulations, according to Sr. Carol Jackowski, director of LeMans Hall. The Observer also learned last night that certain sanctions will be given to individual students who sponsored the parties.

Three different floors of LeMans hall has caused embassies officials to guess the residents will be suspect due to a gross violation of party regulations. According to Sr. Carol Jackowski, director of LeMans Hall, the residents will be suspect due to a gross violation of party regulations. According to Sr. Carol Jackowski, director of LeMans Hall, the residents will be suspect due to a gross violation of party regulations.

"Among us women who have served in the Canadian mission, there have been 'friendly embassies,'" but the Canadians said all were at the Notre Dame sex discrimination mission. This seemed to indicate that some of the Canadian mission apparently gathered there later.

In the Notre Dame sex discrimination suit, the women potentially involved in the suit have been exempted from themselves. In the case of the approximately 130 eligible women, the University suspended them as of Monday.

Last night's meeting, sponsored by Committee W, a women's group and sub-committee of the American Association of University Professors (AAUP), was an attempt to answer the questions of those women who have not yet formally decided whether to join the suit.

Committee W sponsored last night's meeting, according to Chairperson Elizabeth Gilbert, "because we are a sounding box" at the meeting.

Skinny action being taken is that the parties produced certain "blatant" instances such as the theft of 35 ND student ID's that were left at the parietal desk and the destruction of the fire extinguishers in the LeMans basement. The greenhouse next to the science building was broken into and windows were shattered.

Jackowski said she feels since the sewer had supposedly operaters on a community-conscience principle, it would only be "right" to devise a punishment suitable for all the residents.

"Although I met with the Judicial Committee last night, no specific measures will be taken until the Board reviews each individual, according to Jackowski. Jackowski explained that the reason such severe action is being taken is that the parties produced certain "blatant" instances such as the theft of 35 ND student ID's that were left at the parietal desk and the destruction of the fire extinguishers in the LeMans basement. The greenhouse next to the science building was broken into and windows were shattered.

Two-day schedule

SMC sponsors sexuality workshop
by Mary Leavitt

The Saint Mary's Counseling and Career Development Center will present a two-day workshop on human sexuality, open to the ND/SMC community. This workshop on sexuality will be broken down into three main topics: 1. The Medical Aspects of Human Sexuality; 2. The Religious and Cultural Context of Sexual Values; and 3. The Emotional and Interpersonal Aspects of Sexuality.

Such subtopics as family planning, sexual dysfunctions, virginity as a sexual attribute, sexual anatomy, the sociological context of sexual behavior with specific focus on heterosexuality, masturbation and homosexuality as a normal part of sexual development will also be included in the program.

The workshop will be conducted in an informal manner. Short talks will be given, followed immediately by breaks for small group discussions. The talks are in no way intended to be lectures. The main goal is to impart what is felt to be much needed information.

Professionals from the South Bend community will be the speakers during the workshop. Drs. Mark Sandock and Ellyn Stacker will conduct the session concerning the medical aspects of sexuality. Sandock, who has made previous presentations concerning human sexuality at SMC, is a graduate of the Indiana University School of Medicine and is on the teaching staff at St. Joseph's and Memorial Hospitals in South Bend. Dr. Byrnes is a graduate of Michigan State University College of Human Medicine and is presently in Family Practice Residency at SMC's Hospital in South Bend.

Heading the session dealing with the religious and cultural context of sexual values will be Mrs. Mary Hickner and Reverend John A. Struzzo. Hickner has an MA in Psychology from Western Michigan University and is a counselor in private practice. In addition, she has conducted numerous workshops on aspects of sexual identity. Struzna received a Ph.D. in Sociology from Florida State University and did post graduate work in marriage and family counseling.

Dr. and Mrs. Ted Hengeshbach will be leading an informal workshop.
Delegate selection will begin today as the Norde Dame Mock Convention organizes for the 1980 political battle. The Mock Convention will take place from March 5 through March 7. Delegate and alternate selection will last through Tuesday. Convention organizers urge students to attend all sessions, political persuasions, and interests to attend the delegate and alternate selections from their home states.

The 1980 Mock Convention, in keeping with the tradition, is devoted to the political party which is not currently in office. Thus, it will be a Republican convention.

The delegates will be lead by their respective state chairmen through caucuses which concern candidates and platform issues. John Dillane, who is in charge of the delegate and state chairman selections, stresses that one need not be a Republican to participate in the Convention.

The Convention organizers emphasize that this is a 'course work' convention open to everyone. "No prior experience is necessary," said Jones. "If a person has never done anything in politics, this is a great way to get started. We're looking for a thousand people of all classes, all political persuasions, to state with one voice what Notre Dame feels about 1980..."

There are spots for 200 delegates to the Convention, which will be selected today from the opening speeches will be heard on Wednesday March 7th and Monday night." Friday afternoon is platform night."

Testimony continues in trial of Marine

CAMP LEJEUNE N.C. (AP) - A major prosecution witness against Marine Pfc. Robert Garwood, accused of desertion and collaboration with the Vietnamese, said yesterday that fear prevented the military from conducting a fair trial in Vietnam.

The testimony came as a hearing, which could lead to a court-martial for Garwood, resumed after a 2 1/2 week break. Answers for the 33-year-old Garwood, an Adams, Ind., native who returned to the United States last year after nearly 14 years in Vietnam, convicted Garwood of merely one of several prisoners who cooperated with the North Vietnamese out of fear.

Gustav Mehrer, a former Army private who was a prisoner of war for nearly five years, conceded under cross-examination that he wrote American letters for the communists because he feared for his life.

"I remember being told if I didn't desecrate these letters I would be executed," Mehrer, 30, said in a high-pitched voice.

Mehrer said he was tortured, and he realized he could not obey the code of conduct, which restricted prisoners to telling only their name, rank and serial number.

He said he agreed to write anti-American letters after days of torture which left him feeling "like I was always spinning." "After several days I finally had to give in and say yes, I would write the letters, because at that point I believed I would be executed," Mehrer said.

But he said he later told his captors he would try to escape if the opportunity arose and would nothesitate to kill for his freedom. Mehrer, who lives in Colorado Springs, Colo., and lives his occupation as disabled veteran, said he continued to try to resist his captors, and he refused to parallel his actions with those allegedly taken by Garwood.

Maj. T.B. Hamilton Jr., presiding officer at the hearing and the man who will recommend whether there should be a court-martial, asked Mehrer if he knew of any American prisoners who cooperated voluntarily or were pressured by their captors.

"Just one," Mehrer said. He was not asked for a name.

Theory in practice

SMC holds fair

by Pastry Ryder

The Curriculum Fair is the culmination of a year long program in which Saint Mary's Education majors put into application the principles they learn in the classrooms.

Education 102 Curriculum Practice is a two semester course taught by both Dr. Skip Shannon and Prof. Karilee Watson. The first semester centers on the theory and history of educational curricula.

During the second semester students are able to put into practice what they have learned in theory.

Throughout the second semester the students create a simulated school in room 327, students choose their students and work together in grade level groups to construct various learning centers.

An example of a learning center is a "metric box" - a wooden box one meter in height, width, and length in which a small child can sit and study the metric information.

Teachers from elementary schools in the South Bend area will be invited to the Curriculum Fair held sometime in May. They view the "Saint Mary's Elementary School" and buy the learning centers for their own use.

Last year's fair sold out and a new fair is hoped to be as successful.

Opera holds auditions

Auditions for the chorus of "La Boheme" are open to all applicants who are the daughter or son of Saint Mary's students. Auditions will be held tomorrow night at the South Bend Symphony Hall of Music. Sign-ups for auditions will be held at 7 p.m. before the 8 p.m. "Le Nozze" at the Notre Dame Orchestra, and Vocal and Notre Dame and St. Mary's Opera and New York City Opera.

A children's chorus for Act II will also be organized. Interested students may sign up in room 206 Crowley.

WSND to air psychology programs

By Kelli Flick

The Department of Psychological Services is presenting a series of thirteen quarter-hour radio programs titled, "Spotlight Psychology," on WSND-AM.

The series, which begins Sunday, Feb. 3, at midnight, after the album hour, is produced by well-known members of the American Psychological Association in conjunction with the Broadcasting Foundation of America. The first program will be broadcast at 11:45 p.m. on Feb. 5. The series will continue in consecutive weeks at these times.

According to Patricia Crosson, director of Psychological Services, the topics presented on the programs come up in therapy in terms of the student's own life, as well as his/her ideals and concerns for the future. "We are pleased to be able to present these programs to the student community."

"We expect the tapes to stimulate thoughtful conversations. If a raw nerve is touched by any of the subject matter, a student can make an appointment with the professional staff at Psychological Services to process the problem," Crosson added.

The purpose of the series is to enhance public awareness of the science and practice of psychology, to enhance public awareness of the science and practice of psychology, to provide a good study break for students daily lifestyles, Crosson said.

Many of the nations leading psychologists comment in brief on such persistent problems as pain, aging, dieting, parenthood, divorce, death, sex and intimacy. A selected list of reading materials on subjects covered will be available from the Psychological Services Center, according to Crosson.

According to Make Tanner, program director of WSND, the 11:45 time-slot was chosen because of the popularity of other programs scheduled at that time. "The program will provide a good study break for students," Tanner said. "Most students have just finished from the library by this time, and listen to the radio for relaxation."

"The advantage of these programs is that they are light-hearted and give a lot to think about," Tanner said. "We've all heard there in one way or another."

SCUBA LESSONS

Spring Semester

- Certified NASDS instruction
- Be certified before finals

COURSE FEE INCLUDES:
- Mask, fins, & snorkel (you keep)
- All necessary rentals
- All classroom materials

To reserve your spot, come to Room 2D in Laforthe Thursday, Jan. 31st, at 7:00pm. If you are serious, bring a $30 deposit

For more info. Call 272-8607 or 272-9780

"Arimond"

...board." She also pointed out that Committee W is just as interested in nothing possible tressons that arise over the suit as they are in getting information to the women about the suit.

Committee W has taken no official position on the suit, Gilbert said.

Arimond, who remained in town this morning to answer additional questions about the case, said that she only answered questions about lawsuits and court actions at the meeting. She declined to comment on other questions that were raised about possible retaliation by the University for those who participate in the suit.

She also declined to comment on the knowledge that questions were raised about possible retaliation by the University for those who participate in the suit.

Carter moves to reinstate
Selective Service System

by Ammanie Stors

The Selective Service System of the United States will resume the registration of young men within the next several months as a result of President Carter's order, according to a release from the White House Office of Media Liaison. This move will speed the nation's ability to assemble military forces in the event of an emergency situation.

The threat to vital oil supply lines in the Persian Gulf, which has resulted from the Soviet Union's invasion of Afghanistan, precipitated this move. The decision is not linked to any Union's invasion of the White House Office of the President.

Actual registration will take place at the more than 34,000 local posts throughout the county. It has not been disclosed exactly who will be required to register, although the Military Selective Service Act contains a policy of eligibility including all men between the ages of 18 and 26.

The President does not have the legal authority to register more than 20,000 additional men in the selective service system.

In protest against Moscow
Senate votes to boycott Olympics

WASHINGTON (AP) - The Senate voted overwhelmingly yesterday to authorize the President to direct the U.S. Olympic Committee to cancel, postpone, or give up the Olympic Games in protest against the Soviet invasion of Afghanistan if the games go on a scheduled basis.

This action is part of President Carter's decision to review the organization, scope and plans of the Selective Service in order to improve readiness. A report of the findings by the new Director of Selective Service, Dr. Bernard Roskind, will be presented to the President on Feb. 9. This report will include recommendations which will be the basis for legislative action and budget proposals supporting the revitalization of the Selective Service System.

The resolution offers an alternative to a boycott by urging the International Olympic Committee to cancel, postpone or relocate the Games. But IOC members have already indicated they will reject this request. The vote was 88 to 4.

The four votes against the resolution were cast by Sens. Rudy Boschwitz, R-Minn.; Mark Hatfield, R-Ore.; Ted Stevens, R-Alaska; and Paul Tsongas, D-Mass.

Sen. Edward M. Kennedy, D-Mass., a Democratic presidential hopeful, did not vote although he was in a Senate office building conducting a news conference.

Kennedy said he supports President Carter's position on the boycott but considers it a symbolic gesture of little value.

Unlike a similar measure adopted 386-12 last week by the House, the Senate resolution does not set a Feb. 20 deadline for the Games as passed. The Senate resolution does not set a Feb. 20 deadline for the Games.

Sen. Frank Church, D-Idaho, chairman of the Senate Foreign Relations Committee, said the resolution, approved in a 14-0 committee vote Monday, includes a vote of confidence in America's athletes who are being asked to give up the goal of a lifetime by foregoing participation in the Olympics.

The resolution also urges the IOC to give urgent consideration to moving the Summer Olympic Games to a permanent home in Greece, "the country of their origin." And it calls for American athletes to cooperate in supporting "strenuous efforts to keep the Games in Greece.

Among the many issues covered at last night's H.P.C. meeting was the financial instability of Mardi Gras. See page 1 for the story. (Photo by Beth Press).

Correction

Monday's article 'Saint Mary's Sponsors Couples Workshops' incorrectly stated that one hour credits would be given for these workshops. No credit will be given for the workshops. The Observer regrets the error.

U.S. should boycott Games if held in Moscow

Last week, President Carter issued an ultimatum regarding the Summer Olympic Games: "The United States will not participate in the Moscow Olympics under conditions of the kind described."

Carter cited the boycott of the 1980 Summer Olympics in Moscow as a means to protest the Soviet Union's invasion of Afghanistan. This decision was met with mixed reactions from around the world.

The decision to boycott is significant as it marks the first time a major power has chosen to skip the Olympics for political reasons. The boycott could have far-reaching implications for international relations and the future of the Olympic Games.

The move to boycott comes amid increasing tensions between the United States and the Soviet Union, particularly following the invasion of Afghanistan. The Olympics have traditionally been seen as a symbol of international cooperation and peace, but this year's games were marked by political controversy.

In the lead-up to the games, many countries had already announced their intentions to boycott. The United States' decision comes after similar moves by other Western nations, as well as leftist and socialist countries around the world.

The boycott of the 1980 Moscow Olympics was prompted by the Soviet Union's invasion of Afghanistan. The decision to boycott was widely criticized by some, who argued that the games should remain a neutral ground unencumbered by politics.

Despite the controversy surrounding the boycott, the 1980 Moscow Olympics proceeded as scheduled. The games were marked by a high level of security and an atmosphere of political tension.

The boycott of the 1980 Moscow Olympics was a significant event in the history of the Olympic Games. It set a precedent for future political interventions in the games and raised questions about the role of the Olympics in international relations.

Group offers pen pals

Thousands of college students in more than 100 countries overseas are seeking American pen friends of the same age and interest. We have written in these pages about American students who have corresponded in this non-profit educational effort in which Catholics and non-Catholics participate in this program abroad. Since it was started in 1975, the program has linked Catholics and non-Catholics on every continent through emotional and interpersonal letters. Catholics feel that their religion has been an obstruction in learning more about human sexuality, but as Pat McGinn, director of the Counseling and Career Development Center commented, "It isn't that they (the church) don't want sex talked about; they just don't want it to be talked about in the Pope and official teachings contradicted."

The workshop will take place on the weekend of Feb. 23. The Saturday session will run all day from 9 a.m. to 4:15 p.m. The Sunday session will be an afternoon one, beginning at 2 p.m. There will be breaks for lunch and refreshments.

The cost of the workshop is $5. Interested students may contact the Saint Mary's Counseling and Career Development Center at Ext. 4-4813.

Starting a sales career at Xerox is an education unto itself.

Xerox sales teams don't just knock on doors. They determine our clients' needs and work out what steps to take. Xerox uses a computerized prospecting program which gives our people the competitive edge. No two Xerox sales teams are a study in aggressive leadership. And they build a path for your advancement. At Xerox, we know how to train them. Our sales teams advance quickly and enjoy their success. And, of course, sales come easier when you work with a leader. One equipment is well known for a high degree of dependability and our clients know that. They also know that they get what they want when they need it.

Energy budget to stress diversity

WASHINGTON (AP) — President Carter's 1981 energy budget lays out an ambitious strategy to cure America's appetite for imported oil. Coupled with sharp increases for defense, the energy plan signals a two-pronged approach to securing U.S. fuel supplies. But it includes a shift in priorities that Energy Secretary Charles Duncan called the start of a "20-year transition to energy diversification."

More money for conservation, for solar energy, for synthetic fuels and fusion. A reduced emphasis on non-nuclear fusion research. Carter's latest strategy takes into consideration the ongoing crises in the Persian Gulf where turmoil in Iran and Soviet ambitions expose the U.S. vulnerability to uncertain supplies of foreign oil.

Carter is seeking $1.1 billion for energy programs in 1981, eight times the billion-dollar spending set in 1971, prior to the Arab oil embargo that brought the energy crisis into consideration the ongoing crises in the Persian Gulf where turmoil in Iran and Soviet ambitions expose the U.S. vulnerability to uncertain supplies of foreign oil.

In drawing his $616 billion 1981 federal budget, the president marked defense and energy for the two biggest increases in spending, highlighting his efforts to assure U.S. fuel supplies. The energy plan may mollify critics who have charged Carter with ignoring conservation as a way to cut fuel consumption. Carter proposed slowing development of advanced nuclear reactors, omitting the Clinch River breeder reactor and proposing an end to work on gas-cooled reactors.

Overall, the nuclear budget would be cut by 17 percent and $1.05 billion and much of the remaining is on plants already in service, a reaction to the accident last year at Three Mile Island. Carter did not ignore nuclear research altogether. He seeks a 23 percent increase in spending on the futuristic fusion reactor that would burn hydrogen from water to create electricity. But fusion is decades away and Carter said in his budget message, "Conservation is the quickest and cheapest step we can take to confront our energy problem."

He backs up his rhetoric with a 42 percent increase in spending for conservation, requesting for conservation, a total of $855 million in 1981. Included in it was $50 million for an advertising campaign, coupled with new goals, to sell Americans on the need to conserve.

Indications are that higher prices already have established conservation in many households. Nearly 6 million taxpayer claims $600 million in tax breaks last year for installing a range of conservation devices, everything from storm windows to solar water heaters.

Carter's budget anticipates those tax credits will cost the Treasury $79 million in 1981. Carter said that solar and other renewable energy sources ought to provide 20 percent of U.S. energy needs by the year 2000. The 1981 budget. Carter proposes a 6 percent increase in solar spending, to $565 million. Carter administration is finally recognizing that solar energy is a technology for today and not tomorrow, said Sen. Gary Hart, D-Colo., an advocate of solar energy.

But other solar advocates were unimpressed. "We've got a solar budget with an increase less than the rate of inflation," noted Bill Bergman, a spokesman for the Solar Energy Industries Association.

Nuclear industry supporters said Carter took a very unrealistic view of the nation's needs in cutting atomic research. "Solar production of electricity is a long way off," said John Conway of the American Nuclear Energy Council.

Right now the only two practical means we have for meeting the energy needs of the future are coal and nuclear," said Conway. Anyway he wouldn't have with the 15 percent increase Carter proposed to upgrade the Nuclear Regulatory Commission, plant safety efforts, but he said his group would lobby Congress to replace funding for the breeder reactor. Carter opposes the reactor because plutonium produced in the plants could find its way into nuclear bombs.

While cutting research for so-called "second-generation" nuclear power plants, Carter upped research by 25 percent into nuclear fusion, the dream of turning water into power through a reaction similar to what occurs in a hydrogen bomb.

Carter seeks $1.67 billion — a 12 percent increase for fossil fuel programs, including research into synthetic conversion of coal.

Some of the spending drew Republican objections in Congress. Rep. Clarence Brown of Ohio, ranking Republican on the House Energy and Power subcommittee, said the budget spelled government intrusion into energy decisions which should be left to private enterprise.

SMC seeks support for mission

by Deirdre Dalton

The Saint Mary's Spiritual Committee is sponsoring a Students' Mission Care (SMC) to promote support of the Holy Cross Sister Mission. In a drive to encourage awareness to other countries, the SMC will be asking St. Mary's students and faculty to think globally and act locally. This will be done on February 4 and 5.

Twenty Holy Cross Sisters and three lay volunteers are now working in Brazil as missionaries. Sr. Francis Bernard, who is in charge of the Holy Cross missionary program here, is president of the SMC. St. Mary Ann Ebbing, her secretary, is now interviewing for potential missionaries who are needed in Brazil and Uganda.

There are also fifteen Holy Cross Sisters in Bangladesh, six in Thailand, five in Uganda and four in Sri Lanka. The Sisters and volunteers do a wide variety of work which includes pastoral work, social work, parish work, catechical work, and work with the retarded. Six of the Sisters are presently working in a school in Sao Paulo, a very impoverished section of Brazil.

The Sisters are financially supported by donations from their own congregation and have been given money in the past from the Mardi Gras Committee and from a Saint Mary's volunteer organization. The Holy Cross Sister mission has been in existence since 1947 and has had lay volunteers since 1969. Although St. Mary Ann pointed out that there was a gap of five years when there were no volunteers. Saint Mary's students and faculty will be asked to pledge a dollar a month for a period of four months. The pledge will be collected monthly with the idea of promoting continued awareness. The theme is "We care" buttons and a newsletter on the Holy Cross Mission happenings will also be distributed by the Student Mission Care Committee.

Even with Brooks' efforts, the Explorers have had a rocky season so far. The team is 10-6 with a 10-6 record, including Monday's 78-59 win over Delaware.

Joining Brooks on the front line are Mike Connelly, who averages 13.4 points and 9.1 rebounds per game, Junior Stanley Williams mans the pivot, averaging 9.1 ppg. Senior Keith Hall leads the backcourt, leading the team in assists with 62 and ranking second in scoring with a 13.5 average. Junior Kevin Lyman fills out the lineup, averaging nearly eight points a game.

"LaSalle is a physical team that hvesn't a lot, name Phelps. They are not that tall, but they make up for their lack of height with hustle and aggressive play around the basket. They like to use the fast break, and we'll need a good defensive effort to stop them. They're not a very deep team, but they are solid and experienced."

With Tripucka out, Phelps probably will use the starting lineup for the Maryland game, with Orlando Woolridge moved to Tripucka's forward spot and Gilbert Salinas moving in at center. Bill Hanzlik saw some action at forward with freshman guard John Paxson at guard, and Phelps figures to use this lineup to slow down Brooks.

Sports Briefs

Hockey tickets remain available

While Saturday's Notre Dame-Wisconsin hockey game at the ACC has been sold out, there are a few tickets remaining for Sunday's game against the Badgers. Remaining tickets can be purchased at the ACC's Gate 10 ticket windows from 9 a.m. to 5 p.m. during the business week. Both of the weekend games will face off at 1:30 p.m.

Engineers at Xerox work miracles.

Our engineers convert complicated tasks into simple ones. Just the push of a button, Xerox equipment works wonders. Dependably. Our returns? Success. And Xerox technology is built on success stories. Xerox is dedicated to new ideas. And to our engineers who are developing them. While our competition outspends our R&D budgets, we increased ours 15%. Engineers at Xerox work with almost $1 million a day converting the technology of the future into reality. One challenge of the 80's: Not Xerox is ready for it. Xerox it. And we're looking for engineers who want to be part of it. Your future can get off to a great start with our reprographic technology.

But did you know that Xerox is also in processor memories, designer and drives, electronic typing and printing and telecommunications? Xerox is a total information center. Give your ideas the attention they deserve. Check with your college placement office for campus interview dates and schedule. Then talk to our campus representatives...

Edward W. Krause, athletic director at the University of Notre Dame for more than three decades, has received the E. Armstrong Award from the Notre Dame Alumni Association.

The award, named for the former secretary of the 62,000-member associate, honors an employer of the University who has performed outstanding service and demonstrated qualities in his personal life that reflect the high principles of the University.

Krause, who celebrates his 67th birthday on February 2, carried athletic laurels from South Side Chicago's De LaSalle High School to Notre Dame between 1931 and 1934. He guided the fighting Irish in basketball and football and earned a letter in track.

While at St. Mary's (Miss.) College, then at Holy Cross and finally served six seasons as head basketball coach at Notre Dame, compiling a record of 96-48. He was also football line coach for six years.

Krause was named assistant athletic director to Frank Leahy in 1948 and athletic director in 1949. Over the years he has been recognized often for his civic and humanitarian as well as athletic contribution. He is

Edward W. Krause a Knight of Malta, one of the highest papal honors a Catholic lay person can receive, and there is a medical research fellowship in his name at the City of Hope National Medical Center.

Krause has been a member of the National Basketball Hall of Fame and the Honors Courts of the NCAA and of the National Football Foundation and Hall of Fame. The award will be presented to him at the spring meeting of the National Alumni Board on campus.
Aaron disagrees with Rose selection

The Daily Crossword

by Michael Molinelli

Macri's Italian Bakery

RIVER CITY RECORDS

Wednesday, January 30, 1980 - page 10

ATLANTA (AP) - All-time home run king Henry Aaron, who snubbed an award commemorating his record 715th homer as "The Greatest Moment of the Decade," added fire to the controversy Tuesday by claiming he, and Pete Rose, should have been selected as "Player of the Decade."

"I don't want this to sound like I have anything against Pete Rose or his accomplishments, because I don't," Aaron said. "I just feel like what I did in the '70s was in no way second best to any accomplishment of anybody, no matter what they did.

Aaron knew only played the first six years of the decade, but I think what I did in those six years would be easier to take if the vote was had by the fans, but it was by sports writers - people who know a little about baseball," he said.

Sports broadcasters and writers and baseball executives participated in the voting. Rose received 100 points, including 24 first place votes. Rod Carew of the California Angels was second with 90 points and 20 firsts. Aaron was next with 86 points, including 20 firsts. Aaron blamed New York sportswriters.

"I just think there were some people in the press who didn't want to give me that award. I don't want to get into a racial thing, but I was never the ideal person for the New York press," said Aaron, now 45 and a vice president with the Atlanta Braves.

"Rose has a tremendous record, but as has Henry Aaron. Just look at the records and compare the stats. I'm sure Rose being the player of the decade was just as much a result of him being more of the sports writers favorite," he said.

Aaron said Rose probably had a better relationship with the press than himself because "I just went about my business and played baseball the way I thought it should be thought." He said he has no reason to compare problems. "But I feel I have to speak the truth," he said. "I see something no one can take from me. I will speak my mind until the day I die.

Aaron was honored Monday in New York in baseball Magazine, along with Rose of the Philadelphia Phillies, Keith Hernandez of the St. Louis Cardinals and Don Baylor of the California Angels, chosen the top players of the '70s.

Instead, Aaron, upset over what he considered a six-year snub by Commissioner Bowie Kuhn, refused to show up or accept the award, because, he said, the Hall of Fame failed to appear Wednesday at Atlanta Stadium on April 8, 1974 when he set the record.

Tension mounts for big game

It's hardly been a typical week here in South Bend,本着 down to the final game of the season. But then again, the week before the Notre Dame-Saint Mary's game was the week when the Irish took on the Belles as "that school across the street." And the reporters are still hassling us for three hours in the cold outside the plush high-rise dormitories complex which houses the Notre Dame players. But Notre Dame Stadium finally chose me as the only one they would let in the university. I had wanted to talk to 6-3, 215-pound freshman Shari Marley, the Irish star who has been called the top player in the ACC, but she has been managing to keep her alma mater to herself.

Except for the rumors that Notre Dame forward Douglas Young was in the hospital with a broken bone, and that the Irish are planning to have a second team for the second half of the game, there have been few news items of note at Notre Dame. The most significant item was the victory over the Belles, a team that had upset the Irish in the regular season.

And the year Dallacio blamed a loss on the fact that somebody turned off the heat in his room in the Marriott Inn. It was a year after Petro grabbed the public address microphone and implored the Notre Dame crowd to stop yelling obscenities, saying, 'This is Notre Dame, and we don't need that kind of thing here.'

And there was also the time Dallacio showed a tape to his teammates in the face of a reporter from the student newspaper who had the gall to ask him what was wrong with the Saint Mary's transition game. And the year Petro was on the air with a live broadcast to his team fired up.

My favorite story was about the one Petro chased after a Gators player after a loss to Saint Mary's in the ACC. Of course, we found out later that Notre Dame would have to forfeit the game anyway when three of its players were discovered to have received credits for improper college courses.

And do you remember how close Petro came to losing his job when one of his players accused her of punching him and humiliating him in practice?

Things haven't all been peaches and cream for Dallacio. Either. The fans booed him when he came out to lead cheers in the street suit and verdict, and they laughed at him when he wore a sweatshirt and sweatpants against Old Dominion.

Yes, it's been quite a season.

**Tonight**

**Belles, Irish to continue rivalry**

By Mark Hannukelsa

Rivalries are always a part of sports, and tonight's contest is no different. The Irish are leading the way in basketball, with a 15-2 record, and the Belles are right behind them with a 14-3 record.

**W.S.N.D.**

Tip-off time for tonight's Notre Dame-Saint Mary's game is 7:00. The game will be aired as the first game of a women's college doubleheader on W.S.N.D. AM, 640. The second game, between the Irish and the Belles, is scheduled for 9:00. Features Notre Dame's men against LaSalle live from Philadelphia. The game will be televised locally.

**Why the Patriots? Digger insists!**

By Frank LaGrotta

LaSalle

from Penn he went on to the head job at Fordham, leaving after one year, a 26-3 record, and a hell of a lot of defense for Saint Mary's. He goes back there one year too.

But not this arena (if you can call it that). That's not what bringing him back here either. Here, the grey hair and wrinkles of the last 10 years fade into the past as he looks around and remembers what it was like to dream about how it might be someday. How it is now. Coin Digger. Some things are more important than game receipts.
