Victims abound after latest crime wave

by David Sarphie

The Notre Dame campus was ravaged by a wave of crime and violence over the week-long Fall break, as three rooms of one dorm were burglarized and one student was beaten.

Officials indicated that the thieves may have been the same ones responsible for earlier crimes, both on and off campus. Additionally, two unrelated off-campus robberies occurred.

Two suspects have been arrested in the October 23 assault of Keenan Hall resident Andy Farah.

Keenan Rector Fr. Richard Conyers said that two South Bend residents, Dan Adams, 19, and a juvenile, were brought to the campus as guests of three Keenan Hall residents.

The two became separated from the students and proceeded upstairs, where they entered two unlocked rooms. They vandalism and robbed both rooms. Taken from the rooms were several books, calculators, and miscellaneous items.

The resident of one room, Mike Travis, remarked that several stereo components were severely damaged, as was a television. He surmised that the two burglars were planning to steal the stereo components, as they had been stacked next to the door.

Subsequently, several stolen items were found near the car of the three Keenan residents who had brought the thieves to campus. Several officials believe that the two were planning to steal the car.

Fr. Conyers said that the criminals were “drunk or high or both.” He deduced this from their reckless handling of the components.

The thieves left the two burglarized rooms and went downstairs, where they found Andy Farah asleep in front of his television. He was hit on the forehead with a bowling pin which had been taken from one of the upstairs rooms. Still groggy, he fell to the floor, chilling his tooth.

The two individuals hit him once again on the back of the head, demanding money.

“I woke up and saw these guys standing over me,” Farah related. “It looked almost like they had guns and they wanted money.” The thieves quickly left, and Farah immediately called Notre Dame Security.

Farah was later taken to St. Joseph’s Hospital, where he received 11 stitches in his forehead and three in the back of the head. The assault also caused a hairline fracture and concussion.

Working on names provided by the three Keenan residents who had originally brought the burglars to campus, Security was able to apprehend the individuals. “We found one of the suspects outside a South Bend bar trying to sell a calculator,” Assistant Security Director Rex Rakow said. “Because of Farah’s quick action in calling us, we were able to capture them.”

Many of the stolen items have been retrieved by Notre Dame Security and the South Bend Police Department.

Fr. Conyers said that the three Keenan residents who brought the thieves to campus have since been permanently restricted from the dorm. The action taken by Dean Roemer was termed “very generous” by the Keenan rector.

“Although the students weren’t directly involved in the crimes, there were certain related circumstances which caused their dismissal from the campus,” Dean Roemer said.

The rector was optimistic that the capture of these suspects may

When will it end?

by The Associated Press

Iran’s Parliament, the Majlis, failed again yesterday to reach a decision on the fate of the 52 American hostages, caused by a series of nearly six hours and will resume the discussion Wednesday, informed sources in Tehran reported.

A Tehran Radio broadcast said the United States was indulging in “wishful thinking” about the debate.

“They are now bragging about the imminent release of the hostages,” it said after the session.

“This is a rumor with which they want to gratify themselves.”

Continuing the secret debate that began Sunday, the 228-member Majlis met for four hours in the morning, recessed for two hours for prayers, and then met again in the afternoon for nearly two more hours.

No meeting will be held Tuesday because of a religious holiday. But the parliament will meet again Wednesday to continue the debate. Like today’s meetings, it will be a special session since the regular meeting days are Sunday, Tuesday and Thursday.

“It is not clear when a decision will be reached on the hostage issue,” a spokesman at the public relations office of the Majlis said before the morning session.

Tehran Radio reported the Majlis also discussed the war between Iran and Iraq at the morning meeting.

Two factors appeared to be extending the debate, which some reports had suggested would be resolved in a single day.

One was the wave of optimistic rumors from the United States of imminent release for the hostages, which a Tehran radio broadcast today implied was a form of pressure on Iran.

The other was Iran’s battlefield losses to Iraq in the 56-day-old Persian Gulf war. Iranian officials have accused the United States of siding with Iraq in the conflict.

Despite student vote

Trustees nix student senate

by Kathy Connor

and Tom Jackson

Although 96 percent of the voting student body voted in favor of Student Body President Paul Riehle’s Student Senate proposal, the move to transfer the power of the largely ineffective Campus Life Council to the Student Affairs Committee at its meeting Thursday, Oct. 16.

The Committee recommended to Riehle instead that he “revitalize” the GBC through a revision of its constitution, but Riehle’s move to bypass the GBC with the Student Senate is now apparently dead.

Student Affairs Committee Chairman John A. Schneider told Riehle he felt that having the Senate make proposals to the Student Affairs Committee at its meeting Thursday, Oct. 16.

Iran lost contact with its embattled port city of Khorramshahr yesterday while Iraqi infantry and armored columns fought a fierce battle for the bridge leading to Iran's giant refining center at Abu Sabra, war communiques reported. Iran acknowledged for the first time that Iraqi tanks and infantry platoons had made their way around Abu Sabra and that the city faced assaults from the south as well as the north. "In spite of the fierce battle and the large Iranian forces resisting the enemy," Tehran radio said in a dispatch that detailed fighting on and around the strategic bridge that links Khorramshahr with the road to Ahwaz, 10 miles to the south. The span is located immediately south of Khorramshahr, which the Iraqis claimed they seized Friday. Iran said the city fell on Sunday, but late Saturday Press Secretary Mohammad Ali Rajai said the situation at the port city was "critical."—AP

The Metropolitan Opera orchestra voted yesterday to accept a new labor contract and to continue its strike, an agreement that could spell the end of the 12-week-old walkout that shut down the New York opera. The vote was 76-11 for acceptance, with one abstention and six members absent, said M. Taplin, president of the American Federation of Musicians. Arons said he hoped the remaining unions would quickly approve their contracts to let the Met'sgolden curtain rise for a belated start of the opera's 1980-81 season. In all, more than 1,900 unionized employees in 17 unions must approve new terms before a belated start of the season is possible. But accords were regarded as very close in most cases. Frank M. Taplin, president of the Metropolitan Opera Association, met with executive board members after an executive board meeting that the last management offer "constituted management acceptance of all terms of a contract," said he would make a new offer to try to resolve the performance issue, the settlement provided for pay increases totaling 34 percent over the four-year period and guaranteed labor peace during the opera's centennial celebration in 1983.—AP

Jefferson Airplane/Starship founder Paul Kantner was in serious condition yesterday at a Los Angeles hospital Sunday. Kantner had been in Los Angeles with the group's San Francisco-based record company, Grunt Records, said Kantner entered the hospital Sunday. Kantner had been in Los Angeles with the band for about a month, she said, recording a follow-up to their last album, "Freedom At Point Zero." Kantner, a guitarist, began his career in 1963, helping to found the Jefferson Airplane, known for its popularization of acid rock with such songs as "White Rabbit." In 1974, he and Grace Slick, the married couple who later formed Starship, fled to China, assembled the band which became the Starship.—AP

Ugandan troops loyal to President Idi Amin reportedly badly damaged the district capital of Arua, according to travelers who went through the African country. At least one tank was destroyed in fighting for control of Arua, according to travelers who went through the area yesterday. The travelers said large sections of the town have been looted and many buildings destroyed in fighting that erupted after thousands of tribesmen in the West Nile region loyal to Amin have fled to Zaire from counter-attacking Ugandan and Tanzanian forces. The travelers said several thousand people in the area have taken refuge in church missions to avoid retribution by government forces. The Tanzanians are part of more than 10,000 troops who remained in Uganda after Amin was ousted 16 months ago. They have served as the major peacekeeping force for Uganda.—AP

Ronald Reagan leads narrowly over Jimmy Carter going into the final week of the presidential campaign as wavering Democrats move into Carter's camp, according to the Associated Press-NBC news poll. The latest AP-NBC poll shows Carter still leading Reagan by six percentage points. Other published polls say the race is closer, with some moving in Reagan's direction. Incomparable results from the polls fall within the error margins of such surveys. Many of the wavering voters are looking to today's showdown debate between the candidates as a key to their decisions. And possible developments concerning the U.S. hostages in Iran continue to loom as a potentially major influence on the race. Regardless of the choice of 42 percent of the likely voters, the poll says, while Carter is backed by 36 percent. Independent candidate John Anderson was supported by 10 percent. Three percent named others and 9 percent were not sure. —AP

Partly cloudy and cool today and tonight, with a 50 percent chance of rain this afternoon and highs in the mid-40s. Cloudy and cool tonight and tomorrow, with highs in the upper 20s tonight, and the mid to upper 40s tomorrow.—AP

Inside Tuesday

Of Politics and Practicality

Editor's note: Frank LaGrotta's columns regularly appear on the sports page of The Observer. Today, LaGrotta parts with the field of sport to comment on his current presidential campaign.

Up until last Monday, October 20, I had never seen a U.S. President: I mean, real, up close, in the flesh. I mean, the man between him and me, the man that I could-- without the air, 300 Secret Service men, twice as many reporters and photographers, with literally every camera and every national state policeman on the payroll.

So when it was announced that Jimmy Carter would make a campaign stop in my hometown of Beaver Falls, Pa., I made plans to get there early and witness the first presidential visit in the history of the city.

"You're getting up at six o'clock to see Jimmy Carter?" he interrupted, "I wouldn't get up at six o'clock to see Jimmy Carter if he were coming to my house!"

And he hung up. My friend is a Republican and one of many Americans (including myself) who wouldn't vote for Carter if he were running unopposed. But that wasn't the principle of the matter. I wanted to see a president and, unfortunately, Carter was the only thing available.

So I was there at 7:30 on a Monday morning, shivering outside a little yellow town hall that in order to reserve the performing issue, the settlement provided for pay increases totaling 34 percent over the four-year period and guaranteed labor peace during the opera's centennial celebration in 1983. —AP

Since Beaver Falls is a town that depends heavily on the production of steel, many of the local steelworkers have been concerned about issues affecting the working man — especially unemployment.

A march scheduled by the local steelworkers union to show support for the President was practically interracial, the expected 300 marchers, barely 200 showed up.

"You're telling us to vote for Carter," griped one angry, unemployed steelworker. "That's because the guys upstairs got their jobs. They're drawin' a paycheck. I got four kids, a wife and a hell of a big mortgage. I worked 27 years on the same job in the same mill. Then, two months ago they come and tell me they're shootin' down. They tell me you're sorry and they don't need you anymore. Well, hell, I'm the hell I supposed to do? A hundred-fifty bucks a week (his unemployment compensation) don't go far for these days."

"I'm blaming the President." "Blamin' him?" he smiled. "I guess you can't say he didn't say something to cause it. But he ain't done a damn thing to help us. Maybe I can't blame him, but I sure ain't voting for him either!"
more difficult than they are now. There was a terrific division in the Democratic party and of course, that campaign was car¬ried on with such a different intensity, the issues drawn so vividly. It seemed to me to be a campaign which the whole coun¬try was into, while this one is more of beauty campaign they are not really interested in.

Q: How do Bobby and Teddy Kennedy compare personally?
A: Teddy is a very confusing figure, I used to follow him around and listen to him speak and sometimes I thought he was very, very poor. He would sort of lose interest and his sentiments would wander around. A high schoolaledictorarian was often better. Then, all of a sudden, the last part of the campaign he really began to be rather wonderful and that speech of his at the convention was unbelievably good. It was everything Teddy can be. He's the most charming of the Kennedys, the best politi¬cian, the hardest working, has the best aptitudes, knows the political system wonderfully well, and has an absolute trap of a mind. Yet, there is something that Bobby had, for all of his awkwardness, his lack of patience, restlessness with those he didn't think much of, disinter¬est in political niceties, which made him a more formidable

**Trustees**

(Continued from page 1)

The committee meeting extended one-and-a-half hours over allotted time, and Riehle quoted one of the trustees as saying "it was the best meeting we've ever had." Schneider then consolidated the student requests and pre¬sented them to the Executive Board of Trustees at their bi¬annual meeting the following day. Riehle said that no student representative was allowed at this meeting, which Riehle plans to protest at the next Board meeting, but from the Trustees he spoke with he learned that "our position was presented accurately and lis¬tened to attentively.

Traditionally, students are only allowed input at the Octo¬ber and April board meetings, when they are able to meet with the Student Affairs Committee only, Riehle said. He expressed a desire to change this policy, and said that to his knowledge this will be the first instance where a student will serve as a repre¬sentative to the Executive Board.

Schneider was allotted 15 minutes to report on the com¬mittee meeting, but actually took 25 minutes. Riehle said the extra time given to this matter at both meetings reflects the Committee's interest in student concerns. He was pleased with the Board's reception and said, "I think we've got some momentum going."

Regarding the campus social space issue, Riehle said that Don Murdy, executive coordinator for Student Government, Rich Coppola, Student Union direc¬tor, and he plan to meet with Fr. Van Wolkvair sometime Wed¬nesday to work out specifics for the new "hangout" on campus. The group then would meet with Vice-President for Business Affairs Thomas Mason and Director of Physical Plant Donald Dedrick for further de¬finite action. Riehle hoped this would take place by the end of this week.

The Student Affairs Commit¬tee was also "very interested" in the off-campus situation, Riehle said. Off-Campus Commissioner Mark Kelley offered the Com¬mittee no concrete solutions to off-campus problems, but he just wanted to make the Board aware that problems exist. Ac¬cording to Kelley, the actual changes involve the University and the city, not the Board.
At St. Mary’s

Board introduces new members

by Kerry O’Barke

The Board of Regents for St. Mary’s held its first meeting for the 1980-81 academic year on October 17-18. The Board of Regents is the governing body for the College and is responsible for school policy, direction and finances.

Six new Board members were introduced at the meeting by St. Mary’s President Margaret Michael King, C.S.C., Chairman of the Board. The first, St. Theodora Abreu, director of Gerontology at the University of Portland, received her bachelor’s degree from St. Mary’s of the Wasatch, Salt Lake City, and her masters from Boston University. She serves as chairman of the research committee of the Northwest Gerontology Center in Portland and is a member of its board of directors.

Next, St. Judith Anne Beattie, director of Volunteer Services at the University of Notre Dame, is also on the advisory boards of the Clinical Pastoral Education Program of Oaklawn Center, Elkhart, Ind., and the Voluntary Action Center, South Bend. She received a bachelor of science in nursing from Loyola University in Chicago and holds a masters in theology from ND. Another new member, Mrs. P. John Daniel, a 1965 graduate of St. Mary’s and a resident of Chicago, is chairman of the Women’s Chicago Symphony Association Board and of the Children’s Home and Aid Society of Illinois. She was also recently named the national chairman of the St. Mary’s College Madeleva Society.

The fourth, St. Madonna Murphy, is academic vice-president and associate provost at Boston University. She served as director of the St. Mary’s College Library from 1971-74. Prior to that she was president of Cardinal Cushing College, Brookline, Mass. A graduate of Albertus Magnus College, St. Mary’s, Murphy received her masters and doctorate from Yale University. Another, Mr. William G. Ryan, a resident of Willowbrook, Ill., is president and owner of Town & Country Builders, Hinsdale, Ill. He was director of the Residential Home and Builders Association from 1970-74. Mr. Ryan attended St. Benedict’s College, the University of Illinois and Northwestern University.

The sixth new member, Miss Patricia Burke, a senior at St. Mary’s, is the student representative to the Board. She is majoring in communication and theatre, and was the College’s 1980 recipient of the Saint Catherine’s Medal awarded by Kappa Gamma Pi. Miss Burke is the daughter of Mr. and Mrs. John R. Burke of Louisville, Ky.

The student representative is elected through the same process as are the other members of the Board. She does not serve as a voice for the student body, but instead offers a student’s opinion on matters pertaining to the Board.

Other points of business on the agenda included resolutions, presented by St. M. Bertrand Sullivan, pertaining to the financing and construction of the library. These resolutions had been approved by the Administrative Members of the Corporation earlier in the month. The Board is also empowered to select a site for the library and to decide whether the funds will be obtained from the sale of tax-free bonds. A total of $5.7 million will be needed to build the $15 million library. About $1 million has already been raised.

Three resolutions of appreciation were also approved for faculty members, Rita Cassidy, Grace Sullivan, Margaret Michael King, and Sylvia Dworski, who retired in May. The Board also extended its appreciation to the work of the faculty and staff for their efforts this year.

The Board also approved the initial meeting of the College’s Research Committee, also presented by the student. The committee is chaired by Dr. John Wheelock, who is president of the College. The Board also approved the creation of a new position, the Assistant to the President, which will be filled by Dr. Donald Hickey. The position will be filled by Dr. Donald Hickey, who is president of the College.

The Board also approved the initial meeting of the College’s Research Committee, also presented by the student. The committee is chaired by Dr. John Wheelock, who is president of the College. Hear Johnny’s blooper

Backyard dishes offer more

by Deborah Moore Associated Press Writer

PUTNAM, Conn. — When Johnny Carson gets blopped on the "Tonight Show" by the NBC censor, Mark Kulaga and Portus Barlow III don’t have to read lips to know what he said.

TUESDAY

While most Americans saw only fragments of the Moscow Olympics on television, Kulaga and Barlow watched for hours. With a 12-foot-wide, dish-shaped antenna in their backyard, Kulaga, 21, and Barlow, 32, can tune in on a constant shower of microwaves beamed to earth by eight video-producing satellites parked over the equator.

Some of the satellite-carried programming is ready for public viewing, but some is unreadable, such as taped shows and news film being sent from all over the world to New York network headquarters.

... Q & A

(Continued from page 3)

political figure. Don’t know how to explain it.

Q: You have played for the Detroit Lions, performed the trapeze in a circus, and boxed several champions. Is there anything you haven’t done that you would really like to?

A: I’d like to sing with a rock group, maybe KISS. I’ve also always wanted to sing in the opera, which of course, went on strike recently.

Q: Sometimes you say you were somewhat crazy to do all the participatory sports you have done. What reply do you make to these skeptics?

A: I try to do these things as a reporting exercise that has been done by Paul Gallagher and several others... they’ve quit, I must say, and I seem to be still doing them. There’s a public that rather expects them to be done and wants to read what these hockey teams are like and what the tennis tour is like. I don’t know that it’s the best way of doing it, obviously there are many ways of skating a cat, but it gives me pleasure. Crazy? I suppose a little, but not as crazy as if I didn’t write books about it, then I really would be crazy.

Q: Any predictions in the Notre Dame football season?

A: Oh, how could I vote against Notre Dame? I just wish I was going to your sixth quarterback, that’d be nice.

(Continued from page 3)

However, the Committee encouraged Kelley to research off-campus communities at other universities and report at the meeting in April. Riehle said that research will begin immediately.

The two major proposals considered are the possibility of the University buying land, houses, and creating a student housing district, along with building additional apartments or townhouses.

Kelley said he is also pushing to expand the facilities of the Off-Campus Housing Office, as well as student awareness that such an office exists. At present, all information in the office needs to be updated, Riehle said, and although he feels that Bro. Ed Luther is doing a job as director, he would like to see this job become a full-time position. Luther is also the rector of Monteiny Hall.

... Trustees

The formation of student inspection teams for off-campus living quarters was another major proposal. Both Riehle and Kelley called for increased inspection so that only student-approved housing would comprise the off-campus housing list.

As far as dormitory mounting funds is concerned, there is no specific information regarding what action will be taken at this time.

Overall, Kelley stated that the Board "really listened and wants to make the place better." Riehle added that "they understood our frustrations," and the Board "seems a need for acting and acting at this time."

He continued to say that changes do not take place immediately at this university, and therefore "we must be persistent with long-term proposals." As a final comment, Riehle said "persistence is one of Don Mundy’s virtues."

The Observer

Tuesday, October 28, 1980 — page 3
In an election year where there is no ideal candidate, The Observer endorses Illinois Congressman John Anderson for President. The Observer believes Anderson is the man who can bring the best of America's two great political parties to the American Presidency.

Unlike incumbent President Jimmy Carter, Anderson has campaigned openly and at length. Unlike Republican nominee Ronald Reagan, Anderson has not let his positions on issues get in the way of making himself more responsible, ideas to solve this nation's diverse and complex problems.

On economic matters, Anderson has presented a sensible program of reducing government spending. His opposition to a five percent rebate from the new tax in the form of Social Security benefits would both aid that segment of the population which needs the money most, as well as help bolster the struggling Social Security System. This approach is much preferred to candidate Reagan's policy of leaving America's oil companies to dictate this nation's energy future.

The build-up of conventional forces and the improvement of America's defense capability is the most urgent international problem confronting the United States. Anderson's increased defense budget is the only responsible course to solve this problem. Anderson's position on the Kemp-Roth tax plan was unconvincing and the candidate's economic position was no better. Anderson did not state that while personal income taxes have been reduced, increased taxes on foreign corporations operating in Puerto Rico have directly offset those tax cuts. This combined with increases in indirect tax revenues and the loss of jobs caring to look at the facts that the Kemp-Roth plan was not vindicated.

In his argument Mr. Hiler states that 100,000 taxpayers have been added to the tax rolls in Puerto Rico and the implication being that because of tax policy the number of the unemployed in the economy has increased by 100,000. Yet in the period in question employment in Puerto Rico increased by 25,000. That and the fact that total employment in the economy is only 825,000 makes one wonder what the candidate is up to.

To sum up, the defense of the Kemp-Roth Bill wasn't much of a defense at all and involved only the facts one wonders what other such abuses fill the candidate's speeches, articles, and commercials. I can only say that for myself I see this candidate as not only a disciple of 'voodoo economics' but of 'voodoo statistics' as well.

Besides these reasonable positions on America's most pressing problems, Anderson is more open-minded when compared with either of his two major opponents. Anderson has successfully welded the best of economic classes. And unlike either of the other two major candidates, Anderson has the American Presidency.

Konald presented the most imaginative and, at the same time, clearly articulated program of a voiding a tax cut without a simultaneous reduction in gasoline consumption and encourage conservation. Anderson's policies are more a nostalgic longing for the America of the Eighties. Anderson's blend of liberal and conservative views. His policies are more a nostalgic longing for the America of the Eighties. Anderson's blend of liberal and conservative views.

Anderson's 50-50 energy tax rebate plan is by no means perfect. However, it is an effort to help ease the burden of the wealthiest Americans. This planks in Anderson's platform would reduce gasoline consumption and encourage conservation. Anderson's provision to extend a fifty percent rebate from the new tax is a major step in the right direction. Anderson has espoused both of these alternatives, and both seem to lead Anderson to the position which needs the money most, as well as help bolster the struggling Social Security System. This approach is much preferred to candidate Reagan's policy of leaving America's oil companies to dictate this nation's energy future.

The build-up of conventional forces and the improvement of America's defense capability is the most urgent international problem confronting the United States. Anderson's increased defense budget is the only responsible course to solve this problem. Anderson's position on the Kemp-Roth tax plan was unconvincing and the candidate's economic position was no better. Anderson did not state that while personal income taxes have been reduced, increased taxes on foreign corporations operating in Puerto Rico have directly offset those tax cuts. This combined with increases in indirect tax revenues and the loss of jobs caring to look at the facts that the Kemp-Roth plan was not vindicated.

Saint Mary's triumphant in tourney
by Kelly Sullivan
Women's Sport Editor
With emotions running high for both clubs, an aggressive Saint Mary's volleyball team beat a spirited Notre Dame squad yesterday in a tri-match that also included Taylor University. When the time was up the Belles had downed the Irish this season, winning in straight sets last night 13-6, 15-4.

"We had a definite advantage," explained St. Mary's coach Erin Murphy. "Beating them earlier this year helped us. We knew we had it, so we knew we could do it again. We didn't have to overcome that doubt. We were sure about whether we were capable of winning."

Aside from the psychological edge, another big plus for the Belles was the return of co-captain Marianne Viola, one of the team's best players. The sophomore attacker sustained a broken thumb in the Belles' season opener and has only resumed play this weekend.

"Marianne's become a better competitor since her injury," said Murphy. "After watching us from the bench the last couple of weeks she seems to know exactly where she's needed now."

Irish coach Sandy Vandlainger pinpointed her club's problems versus St. Mary's. "Our number one problem was our lack of communication on the court. We played well, but it was the minor errors that lost us the match. We missed too many serves, and that's like giving points away."

In the night's opening contest, Notre Dame lost to Taylor in a full three-game match. After losing the first clash 15-13, the visiting Trojans grabbed the momentum in the second game and defeated the Irish 15-8. Taylor went on to score 13 unanswered points in the deciding defense-ridden match as they blasted their way to a 15-2 victory to capture the match.

The battle pitted St. Mary's against Taylor. The Belles came from behind in the first and third games only to lose to the Trojans 15-8, 15-17, 15-8. In that final game, St. Mary's lost three match points but managed to hold on for a win that upped their ledger to 10-8. They will travel to Goshen for a match on Wednesday. Notre Dame will face the Redskins club Wednesday as well.

...Faust
Moeller, where nearly 50 percent of the student body participates in one of the 11 varsity sports, gathers its talent from 14 parishes in the Cincinnati area. Contrary to many reports, Faust does not recruit. He merely takes the 500 or so players that try out for Crusader football every year and selects a winning team.

"We have had working kids that dedicate themselves," says Faust. "This high school program is second-to-none in helping the kids develop physically."

"God gives each one of us different talents and we develop those talents-strengthening weak ones and building on strong ones."

Few can deny that Faust has been uniquely successful at developing talent. Last year 23 Crusaders received college football scholarships, putting the number of Moeller football players active at the collegiate level near the 100 mark.

Faust, who subscribes to the rule that "enjoying develops character," was rewarded for his efforts last year when he was named as the National High School Coach of the Year.

"His most outstanding feature is his enthusiasm towards his work," says Crable of his high school mentor. "He works 14 hours a day and does it everyday. His motivation is unbelievable. He really gets fired up at practice-from the moment it starts until the time it ends he's yelling good and bad and keeping you going."

Faust—whose wife Marlene serves as the Crusader cheerleader moderator and daughter Julie cheers for the sophomore squad—has only visited Notre Dame three times in his life. In 1952 he first came to South Bend as a recruited player; during the Panegian years he visited the campus and "talked football for a couple of days;" and last spring he brought his wife, daughter, and two sons to see the Annual Blue-Gold Game.

"When you walk on campus, Notre Dame gives you a certain feeling," reflects Faust. "It was evening and all you could see was the Dome all lit up. It brought tears to my eyes."

Faust's deep religious beliefs are what have cemented him at Moeller and are the foundation of his loyalistic switch to Notre Dame. As he has stated over and over again, that switch only would be to Notre Dame.

Soccer squad splits 2-2 over break

"WHEN MY FRIENDS COME TO AMERICA I TELL THEM: AMIGOS, DRINK LITE BEER... BUT DON'T DRINK THE WATER."

by Gary Grassey
Sports Writer

SOUTH ORANGE, N.J. — It is getting a bit redundant for Notre Dame soccer coach Rich Hunter, but the pattern continues.

After beginning their second annual Eastern swing with a gallant performance against the ninth-ranked Nittany Lions of Penn State University last Sunday in State College, PA — a 4-2 Irish defeat — the Notre Dame soccer team turned around two days later and fell flat on its face at the hands of tiny Monmouth College, by a 2-0 count. The trip concluded with victories over Upsala and Seton Hall, 1-0 and 2-0, respectively. The Irish record now stands at 16-6.

"Monmouth was the most humiliating thing this year," said a frustrated Hunter of the lackluster loss to a squad that had entered the game with a measurer 5-7 won-loss mark. "I really don't know how it is that we can play so well against the ninth team in the nation (Penn State) and the second team in the nation (Indiana three weeks earlier) and then lose to Monmouth. It was just humiliating — even the kids used that word to describe it."

The remainder of the trip added two victories to the Irish ledger, but they were not exactly works of art, either.

"We played better," said Hunter after the Seton Hall game, "but I can't say we played well. We should have had about eight goals against these guys." The Pirates had entered the game with a dismal 0-8 mark.

Against Seton Hall, the Irish were held to a scoreless tie at the half. Two crucial stops by goalie Bob Riger, starting his first game in two years for Notre Dame, prevented Pirate halfback Mike Curci from putting the Irish in an early hole.

Before the match deteriorated into a second half fist-fight, Notre Dame's top goal-getter, Kevin Lovejoy, ended the suspense at 48:35 when he lofted a chip shot into the far corner from 20 yards out on the left side. Bill Murphy's assist on the play was his first point of an injury-plagued senior year.

The outcome remained in doubt, however, as the Irish continually botched scoring opportunities and gave Seton Hall chances that the limited skills merited. But with two minutes to play, Notre Dame forward Ed O'Malley was assisted by a Pirate defender and awarded a penalty kick. When Seton Hall goalie Steve Mango decided the ball was placed too close to his net by the referee in lieu of the free boot, he was tossed out of the game. His replacement, forward Tony Colavita, was in no shape to stop O'Malley's shot and the Irish walked away with their 2-0 victory.

Notre Dame dominated Seton Hall in all statistical categories. The Irish outshot their opposition 25-6. Goalie Mango stopped six Irish shots, in an otherwise sloppy game that consisted of almost forty fouls.

"I guess it's just difficult for us to get up for teams like Seton Hall and Monmouth after Penn State," theorized Hunter. "But we're gonna have to learn some-time."

CORNER KICKS — freshman forward Rob Snyder scored the lone Irish goal in the Upsala victory on an assist from Mike Mali...Lovejoy and Mike Sullivan had goals against Penn State...both came on assists from Donnie McGuire...the Irish played the Lions to a 0-0 halftime standoff and trailed 1-2 until the final four minutes when State's Bob Weitenreger clinched it. All-American Peter Janevski scored the first two Penn State goals...McCarthy was outstanding in the Notre Dame nets with 13 saves. Sami Kahale, Lovejoy, and O'Malley are tied for the team scoring lead with 14 points. The Irish move to the #7 spot in the Great Lakes Region rankings last week (before Penn State) after dipping to #10 the previous week...this afternoon at 4 p.m. Notre Dame faces the University of Chicago on the Maroons' home turf.

Hockey tickets pick up today

All students must pick up hockey tickets today from 9:00 until 5:00 on the second floor of the ACC.

last period Friday," said Smith. "We coughed up the puck like crazy in our own zone."

Logan finished the weekend with three goals and two assists to lead the Irish while Poulin and Rothstein had two goals and two assists. McNamara, in addition to his superb defensive efforts, wound up with an assist.

Coach Smith's club entertains Central Collegiate opponent Bowling Green tonight at 7:30 p.m. in the Athletic and Convocation Center. Plenty of seats remain available for the Irish home opener.

The Falcons finished with a 16-20-2 mark last year for a fourth place spot in the CCHA. In their only contest with Bowling Green last year the Irish finished on top, 5-2.
The Ski Club will hold a seminar, "Ski Race Strategy," tonight at 7:30 p.m. in room 2D of LaFortune Student Center. A film and short lecture will highlight the meeting that will begin at 7:15 p.m. in basement room 1A of the Student Center.

Houze...Astro President and General Manager Tony Ranchoski, who rebuilt the Astros this season as the National League Western Division championship, was fired yesterday and replaced by former University of Oregon athletic director Al Rosen. Mr. Rosen replaces Mr. Talbot Smith whose contract was terminated in accordance with its terms, a tersely worded statement read from the announces. Rosen was named president and chief executive officer of the Houston Sports Association, owners of the NL team. McMullen said in the statement that the Astros were required to inform Smith this year if they desired to sign a new contract with him when the present agreement expired. Smith was cut off by the owner's perfect performance normally prevails, Smith said. "Even though we came a run short of winning the National League pennant this year, we will think it was a very successful year for the Astros and this franchise." Rosen was not immediately available for comment.

Ralph Houze, saying he "missed the fun and excitement" of baseball during two years in Florida retirement, returned yesterday by agreeing to a two-year contract as manager of the Arizona Republic, the Arizona Sports Association, owners of the NL team. McMullen said in the statement that the Astros were required to inform Smith this year if they desired to sign a new contract with him when the present agreement expired. Smith was cut off by the owner's perfect performance normally prevails, Smith said. "Even though we came a run short of winning the National League pennant this year, we will think it was a very successful year for the Astros and this franchise." Win 20-3

Green Machine: 0

by Michael Orman
Associate Sport Editor

TUCSON, Ariz. — The Green Machine is 6-0.

That was clearly the theme among the Irish players as they rounded up a bunch of football players in the victory's locker room here Saturday night. Apparently, it all.

It wasn't overwhelming or even all that convincing, but Notre Dame did win, but the 6-0 final score was the right one, according to all.

The Irish players had exulted following their sixth straight victory. A combination of atmospheric conditions got two teams early. Tucson isn't the "Mile High City" that Denver is, but the Old Pecos Trail elevation of 2,400 feet. That coupled with incredibly dry air (just 16 percent humidity at kickoff) drained the regulars.

"You could really notice a difference the minute we got here," said fullback John Sweeney. "After the first series, I was hurting. It was really tough to breathe out there." Senor tackle Jim Stone, who filled in for injured sophomore Phil Carter for the final five weeks, was visibly exhausted after the contest. Tucson's thinworkhorse since taking over for Carter (who stayed home still nursing a severe bruised thigh) three weeks ago recorded his third straight 300-yard plus performance.

"I've never been one to complain about altitude, I like it," he said. "Like everybody else on this team, I'll be ready when I'm called upon. Whatever it takes to win, I'll do it."

Freshman signal-caller Blair Kiel recorded his best day as a collegian hitting 11-20 for 253 yards plus 154 yards for Irish opponents. The Irish players had a few players following their sixth straight victory, but Notre Dame was able to get the job done.

"Our defense did a good job holding Arizona most of the time as well. A whopping five holding penalties contributed to Notre Dame's third straight 100-plus-game penalty yardage. The 114 yards in penalties liked the season total to 514 as compared to 415 for the Wildcats. A whopping 26 rushes.

"Arizona has a talented team," Stone noted. "Once they adjusted to us, they played very well. They made it very tough for us."
