Coroner's Investigator Ann Schellinger. It was announced by Coroner Thomas Ma.~onJohnson of Florida's electric chair. He maintained that the convicted murderer was either unconscious or dead when he went to Florida's electric chair.

The autopsy results were to be confidential and not released. Florida officials conducted two investigations and concluded that the allegations were unfounded. Former senator Michael Fikes presented some security recommendations for Roemer's consideration. Among these was a change in policy that prevents men from driving their female companions to their dorms.

Roemer agreed that current procedures preventing this individual from car are poorly enforced. However, he held the policy, noting that a bad precedent would be set by allowing personal cars to drive on campus.

Fikes also mentioned the need for improved lighting in several areas of the campus. Roemer agreed, saying that most of the lighting problems are a result of burned-out bulbs.

Schellinger agreed that apoptosis is a major problem. She said that the school had considered women about security problems around the campus, but "it goes in one ear and out the other."
Polish union leaders maintained a strike alert in one of the Soviet republics that borders the country. Soviet authorities said. Seven hours after the Monday morning start, authorities reported that the strike had ended.

A "very calm" gunman entered a jetliner yesterday at Los Angeles International Airport, taking six people hostage and demanding ransom. At the last minute, the pilot and authorities reported, the gunman released the hostages.

President Reagan's proposed budget would give the Department of Health and Human Services the same amount of money as its current budget. The president made his budget request today. The budget would be combined into four broad groups, to the states, which would decide how to apportion their share of $68 billion in federal funds, in 1982, based on the needs of the state and the Medicaid program.

The book will be there. The reporters, who have reported the back and forth ironies of the issue, wrote in the March 3 edition of the Los Angeles Daily News, that the book will be there. Priest calls revolt 'popular'

By MICK ORBEN
Staff Reporter

A Markovsk priest yesterday told a group of ND-SMC students that the events in strife-torn El Salvador are a "popular uprising" rather than the Soviet-inspired com- munist revolution that it has been pictured to be.

An Tostal adds new events

By JEFF HARRINGTON

An Tostal '81, the annual school festival, will feature three major new events during its run April 23-25, according to Mitch Felks, An Tostal chairman.

In addition to the traditional events of the Irish Wake — chariot races through the mud-pits, "Recess," and the popular Bookstore Basketball — the An Tostal committee on Wednesday announced it will introduce a Mass Assassin contest, Innertube Water Polo, and a talent show, said Felks.

Signups for the Mass Assassin contest are scheduled for Sunday from 10 a.m. to 4 p.m. in the LaFortune bathroom, according to Jeb Cashin, Mass Assassin chairman. For a $3 fee one can hire an assassin who must "knock off his victim before being killed by another assassin," said Cashin.

Billling the event as "the finest in An Tostal presentations," Cashin urged prospective assassins to sign up early since only 512 spots are open. He added that the assassin committee will offer players the service of "tactical advice and strategizing in how to kill someone!"

A maximum of 64 teams of six players each can sign up for Innertube Water Polo Sunday night at 6:30 on the first floor of LaFortune, according to Marc Stolwyk, event chairman. The matches will be held throughout An Tostal week at block with a team fee of 46, he said.

Audiitions for the third new event, a campus-wide talent show, have not been scheduled yet, said Felks. The talent show will be held Thursday of An Tostal week in the Angela Ath­letic Facility at AMH, he said.

Felks emphasized that workers were still needed to plan the festivities of An Tostal, an event he viewed as "everyone's best opportu­nity to blow off steam before they hit the finals."

FRIDAY, March 6, 1981 — page 3
Applications for the position on Saint Mary's Board of Governance next year are available for interested students in Saint Mary's Student Activity Office this week.

The available positions on the Board include Social Justice Commissioner, Development Commissioner, Judicial Commissioner, Student Activities Planning Board (SAPB) Commissioner, Election Commissioner, Spiritual Commissioner, Off-Campus Commissioner, Athletic Commissioner and Alumni Commissioner.

The Social Justice Commissioner was an experimental position on the Board of Governance this year, but will remain as a permanent position in next year's administration. The Social Justice Commissioner, along with Campus Ministry and the Justice Education Committee, works at raising the consciousness of students on issues of social justice. The Social Justice Commissioner also aids in the publication of The Liberator and organizes student participation in community projects at Logan Center, Head Start, the Justice and Peace Center, the Hispanic and Black communities and several area nursing homes.

The Development Commissioner is director of the school charity, the student representative in the Business Associates Program and a member of the Board of Regents Development Committee. The Development Commissioner plans and coordinates Saint Mary's annual phonathon.

The Judicial Commissioner is chairperson on the Student Relations Board which makes decisions concerning student cases. The Judicial Commissioner is responsible for selecting and training members of the Student Relations Board and acts as a consultant in the entire judicial system.

The SAPB Commissioner oversees the programming of campus activities involving films, speakers, entertainment, traditional events and the newly developed Coffee House.

The Election Commissioner is responsible for organizing and managing student body, class officer and freshman council elections.

The Spiritual Commissioner works directly with Saint Mary's Campus Ministry creating programs and activities that respond to the spiritual interests and needs of the students. This includes coordinating hall masses and developing a hall liturgical planning committee.

The Off-Campus Commissioner works with Saint Mary's administration and Notre Dame's Off-Campus Commissioner in planning, coordinating and organizing activities for all students living off-campus.

The Athletic Commissioner chairs the Student Athletic Council, coordinates intramural sports schedules, oversees all hall and class sponsored sports activities and plans Saint Mary's annual Olympic Week.

A new position on the Board of Governance next year will be an Alumni Commissioner. The Alumni Commissioner will work closely with the Alumni Board at involving the Saint Mary's alumni in more of the students activities on campus. An example of this was the Alumni Founder's Day Program initiated this year.

Applications for these positions are due by Friday March 6 in the Student Activities Office. When reviewing the application, the student must then sign up for an interview. Information about this will begin Monday March 9 with incoming Student Body Officers, outgoing commissioners, the Student Body President and the Director of Student Activities.

For 56 years, Universal Notre Dame Night has been an annual tradition of the Alumni Association. Many students will have the opportunity to attend these events in their hometowns over Spring Break.

Universal Notre Dame Night was started in 1924 by John Neeson, an alumnus from the class of 1925. The purpose is to highlight the non-athletic achievements of Notre Dame, especially academics.

The name "Universal Notre Dame night" came in the beginning when university officials, faculty, and others went to the various regional alumni clubs on the 1st Monday after Easter to update the alumni on activities at Notre Dame other than sports. Today, Universal Notre Dame Night is held by nearly 125 regional clubs during a period of two days from March 17 to May 27. The Alumni Association is a tourist attraction for Notre Dame alumni.

Congress is candidate for reform

Bill McGuinness

The light at the end of the tunnel

The last ten years have seen a great American effort to "clean up" society. We have tried to clean up the air, water, waterfront, Vietnam, inflation, and a myriad of other assorted social calamities. Many of these demands have emanated from our elected officials in Washington, D.C.

If ever there was an organization of the people of the United States Congress. For too long, members of the U.S. Congress have been allowed to operate outside of common decency and to violate the fence of the law. It appears that many of our congressmen and senators are like children: they mustn't be left alone for more than five minutes because they can't be trusted.

When these representatives are caught with their hands in the social cookie jar, they rarely admit their guilt and then decide to conduct his own investigation. This was certainly plausible. However Congressmen Kelly's story lost credibility when it was revealed that he began spending the Congressional crime. This is one of the law. It appears that many of the law. It appears that many of the members of the United States Congress have been allowed to keep this number to a minimum? It is impossible for every citizen or even a substantial percentage of them to be a moral watchdog over the United States Congress. To even consider this possibility is an indication of the low esteem which many people have for Congress. Sure, we will pay attention to how our representatives vote on specific issues, but one is not likely to ask the American people to keep watch over a congressman or senator who is speaking "funny talk" to Arab sheiks or Korean businessmen, that is too much.

As a partial solution to this situation, I propose specific statutory prison sentences for congressmen or senators who are convicted of felony crimes. Uniform? Yes! Discriminatory? Yes! Squirrel! I hope so! It is too much for the American people to demand honesty within the halls of Congress? It would appear on the surface that an honest representative would not object to such a law. Although this is not necessarily true. Many of our elected representatives might argue against such a law because the temptations of Washington are so great that one never knows when one will become enmeshed in the D.C. Law.

This law will not eliminate congressmen or senators who are convicted of felony crimes. However, it will make it less likely that the morality is dubious. First, congressmen, senators, and federal employees need not participate in that giant Ponzi scheme known as Social Security. A Social Security takes a bigger chunk of the nation's paychecks each year, the median American family income. It is, in this age of inflationary trouble, some feel that those people who create the budget and (ultimately inflation) should bite the economic bullet first. Last November's congressional elections saw many long time incumbents defeated at the polls. Is it one thing to pay our elected officials when they are in office, but is it quite another for the taxpayer to support the inordinate pensions that Tom Jagen, congressmen and senators are receiving. Adding insult to injury, the Privacy Act of 1974, forbids the public from knowing the exact amount of an individual's federal pension. While privacy is an important part of American doctrine, this law travels across the field of privacy and into the area of deceit. According to Lloyd Shearer, congressmen and senators are being paid three times the average salary for their three highest paid years. A local example might make this point clearer. Former Congressman John Brademas represented the South Bend area for twenty-two years. Based on service and congressional salaries, a conservative estimate of Mr. Brademas' annual pension places it in the neighborhood of $28,000. Congressmen and senators are not poor people. This year they are being paid three times the median American family income. Pension money paid to our officials in very likely to be spent on the luxuries, instead of the necessities of life. The purpose of this is not to tell people how to spend their money, but to make a plea for the end of government extravagance. How is it that our elected officials receive such large pensions? The Congress simply passed a law awarding themselves these pensions. Like anything else in life, good government is difficult to achieve. However, if we don't demand it, we will never obtain it. Americans work too hard for their money to allow a third party (government) to foolishly spend their money. There will always be ingropies in any system, but through hard work and a sharp phys- cal eye these discrepancies can be kept to a minimum. The election of President Reagan and the new Congress affords us the opportunity for a fresh start. As in the past, these officials will only be as responsible as the public demands them to be. Continued economic failure will rest not on their shoulders, but on each American taxpayer.

Bill McGuinness is a senior finance major from Woodbury, New Jersey.
Dear Mr. President

Elizabeth Roach

As an American born in Pittsburgh, Pa., and a personal friend of two of the women who were recently murdered in El Salvador, and as a Maryknoll sister who has worked in Latin America for more than 25 years, I enclose this letter, "Parable for a president." Please consider it my inaugural gift to you. It is my hope that you will reflect on it and use the power of your office wisely.

Once there was a big party going on, "the most expensive inauguration in the history of the USA." A rich man, a former matinee idol, dressed in a $1,500 suit, stood behind bulletproof glass and grinned happily.

It was the first time since Nero, the fiddler, that a performing artist had attained so much power. At the same time, many people throughout this land and at the door of his country were having hard times. Their last name was Lazarus and all they wanted was bread on their tables, a job to support them and a little love on the Capitol steps.

The 14 sent their soldiers to kill the four daughters. The Lazaruses were very sad. Nine thousand of their family had already been killed, but they were especially sad about the four daughters, because they knew the four could have stayed in the rich man's house and enjoyed the party. It was because they were with the Lazaruses that they had been killed.

After that, few people in the rich man's house heard the story. So that you think it will help the Lazaruses, if you don't see why not, Mrs. Jenrette says. "Great!"

Unfortunately, by the time the article was scheduled to appear, she had left Washington. But the idea of how a typical congressman's week ends up is a good story. From there the story gets complicated, because the rich man and his friends don't know what to do with all the guns and bullets and bombs and nuclear warheads they've been stockpiling for years. They can't eat them.

Congressmen's wives are boring

Playboy magazine has just done a lovely take-off on Rita Jenrette, the wife of the former congressman from South Carolina.

Appropriately, Playboy was searching for an in-depth feature on the typical congressional wife, and by chance caught a glimpse of Mrs. Jenrette while she was making love to her husband on the Capitol steps.

This is how the story came about. A Playboy editor, who was on his way to protest higher mail rates for magazines, was stopped, flipped over the couple and said, "This is a great honor for me. I never thought I'd meet a congressman and his wife in the flesh."

Then he explained that Playboy was planning to do a long spread on the trials and tribulations of what it was like to be married to a congressman.

"Congressional wives lead an awfully dull life," Mrs. Jenrette protested. "We just go to parties, give bylobbies, where other politicians proposition us, and sometimes people attempt to put drugs in our drinks, and other times a governor gives us a free trip to the Bahamas."

"That's just the point of our story," the Playboy editor said. "Despite the glamour and the hectic atmosphere of Washington, you're still just plain simple folks at heart. We'd love to hear a story about something. Do you make any love to your congressmen?"

"That's as far as I need to go with our story," the Playboy editor said. "It's not like we've never heard it before."

"We're just like everyone else," Mrs. Jenrette said. "We attend our husband's meetings, sit at home reading the help ads in our magazine, we keep a stiff upper lip when he goes off the wagon, and we hide our cash in a shoebox."

"That's just the point of our story," the Playboy editor said. "It's not like we've never heard it before."

"That's as far as I need to go with our story," the Playboy editor said. "It's not like we've never heard it before."

Just Try to Understand Me

I am doing a report on the "West Ridge" community of Chicago, a neighborhood on the far North Side, next to Evanston and Skokie. To augment my report, I want evidence of the area's community spirit. But I don't want to need a license to use Canon AE-1 since he is an intern. I know Hackett has a camera, but I can't find Hackett to ask him if he can borrow it. I guess, then, that I am just going to have to ask William. William has an Olympus Somethingothen othet, but Wil­liam's is not mine, and no, I have never been able to get it. I feel very bad asking her. I have not been all that friendly with her. It's not that I don't like her—well, I don't really like her; she's just not my type. It's simply that I can't get access to her camera if I really want her. I feel I have a right to try to do, to be, to wish, to have her. I feel that she is doing this to me. I am interested. I feel very bad asking her. I have not been all that friendly with her. It's not that I like her—well, I don't really—she has never been able to get my name. I feel very bad asking her. I have not been all that friendly with her. It's not that I don't like her—well, I don't really like her; she's just not my type. It's simply that I can't get access to her camera if I really want her. I feel I have a right to try to do, to be, to wish, to have her. I am interested.
What is it?

The coffeehouse this weekend features a unique combination of progressive rock and roll tied in with a talented electrified bluegrass duo. Both bands, Zibbytebo and Gorecki and Stout hail from the Midwest, thus representing the strong musical pipeline renowned to this region.

In the likeness of Northwestern's "Amazing Grace" and Michigan State's "Ten Pound Piddle," Notre Dame's coffeehouse offers an outstanding entertainment for students and staff alike. Tonight's and Saturday's cross blend of music is a prime example of one of the coffeehouse's objectives: introduce students to different forms of music in a pleasant, mellow atmosphere. Don't be too surprised, though, when these two bands kick it out for a fine night of fun and music. Zibbytebo, featuring the Balbo Brothers, plays progressive rock with the best. Featuring harmonies reminiscent of Crosby, Stills, Nash and Young, these musicians play the full spectrum of rock. Ranging from CSN to Cream and the Doors, Zibbytebo is certain to provide a good set. The Balbo Brothers were a hit at Vegetable Buddies and the group presently is coming off a Midwest tour.

Stout and Gorecki feature progressive "grass" with outstanding lyrics and music. Hailing from Jackson, Michigan, this electrified bluegrass duo are also completing a Midwest tour that included trips to Ohio and Michigan. Future bands on the coffeehouse's agenda include nationally known Eddie Shaw and Ellen McLwaine with Jump in the Saddle scheduled for the last show.

Future talents will provide domers with many evenings of entertainment.

Why Chautauqua?

Greetings to all the Chautauqua, who have set aside one day in the recognition of the original movement started by those two men of imagination Lewis Miller and J.H. Vincent, a movement based on the idea which has now spread over the whole of our country and, in fact, over the world; an idea which has been and will continue to be of immense educational value to all the people and, therefore, of first importance to their welfare.

Tonight and tomorrow evening, the Chautauqua Movement comes to Notre Dame in the form of the coffeehouse in the ballroom of LaFortune Student Center. The concept behind the movement dates back to the first part of this century when Chautauqua tents dotted rural America. During those days, the tents rolled back and forth across America's countryside bringing along a constant flow of music and lectures. Don't be too surprised, though, when they have come, the movement ended with the invention of the radio and the car.

The institution of Chautauqua was founded in 1874 in western New York next to Chautauqua Lake. It began as a popular system of education with a twofold purpose: summer school for Sunday-school teachers and a presentation of correlated lectures and entertainment. Underlying this movement was the belief that an individual must necessarily take advantage of the best that the educated world can afford in the literature, art and the sciences.

"Chautauqua Week," in hundreds of communities, became the most important five to seven days in the whole year. Bold thinkers of daring ideas spoke openly about issues of the day, and all America went home to think. Inside the big brown tents of the travelling Chautauqua, millions of Americans listened to outlandish ideas like a federal income tax, slum clearance, free school books and even world disarmament!

"The most American thing in America," Theodore Roosevelt once said, a statement that few tried to challenge during the first quarter of this century.

Today, Chautauqua still exists in New York as a small cultural society with a summer program of speakers. Tonight and Saturday, it starts again at Notre Dame. The transformation of the ballroom into an entertainment center likeable to the old Chautauqua tents has just begun. This long term undertaking undoubtedly will give Notre Dame and Saint Mary's a forum for thought and entertainment featuring professional musicians and speakers. The coffeehouse ideally will host a wide variety of talent. Jazz, blues, bluegrass, rock, comedy, oration or even debate - the possibilities are endless. At long last the search for an alternative to those dreary weekends that have permeated our semesters at the University of Our Lady have come to a happy ending. Chautauqua has arrived as an outstanding alternative.

Ellen McInnes will appear soon at "Chautauqua," Notre Dame's new student coffeehouse

FRIDAY, MARCH 6, 1981 — PAGE 8
Coffeehouse serves all students

At Notre Dame, there are two categories of student interaction. One is off-campus interaction at such places as the bars, (the major focus of off-campus diversity), and movies, restaurants and (infrequent) student-oriented cultural events in the South Bend community.

The other is on-campus interaction. The dominant focus of this type is within the dormitories, sporting events and on-campus movies provide for the most consistent and widely attended events, but something still is lacking. Dorm parties are inherently limited to dorm members, and overcrowding cramps much of even this space.

One alternative is the coffeehouse in the Lafortune Ballroom.

The objective of the coffeehouse is to create a mellow and comfortable atmosphere where friends and friends-to-be can enjoy outstanding musical performances. In contrast to the NAZZ, which is a valuable source of student artistic expression, the coffeehouse will provide professional entertainment for a low admission price.

Through a serious sound survey, the ballroom has been equipped to accommodate professionals in every sense of the word.

The coffeehouse, however, is not merely a concert setting like, for instance, an Nazz or Steppen. The atmosphere to be created in the ballroom relies on the music, but will have its roots in the room itself. Great emphasis has been placed on the room as the place where people can relax, exchange information, and be seen without the noise, sweat and alcohol of the hars.

The setting will be seen without the screaming fans of a football, basketball or hockey game. The setting will provide top notch entertainment on a campus sometimes barren of things to do.

For all those who have asked — NO, the NAZZ will NOT be moving up to the ballroom. The NAZZ and Chautauqua are two separate entities and are quite different (the following ways:

1.) Location: The NAZZ is located in the Stepan Center. Chautauqua is in the ballroom.

2.) Type of entertainment: The NAZZ is completely volunteer while Chautauqua will present "professional" entertainment which will not include students unless they are paid. The NAZZ is completely volunteer while Chautauqua workers will be paid.

3.) Price: The NAZZ does not charge admission to its shows and never has, except in cases of benefit performance for charity (ie. Cavanaugh Hall's Andy Sower Fund, FLOC, Cambodian Relief). Chautauqua will be charging a cover charge to take care of payment of professional entertainers as well as staff.

4.) Staff: The NAZZ staff and its student performers (many of whom have gone on to play professionally) would like to thank the student body for their support of the coffeehouse since its inception approximately ten years ago. As those of you who are "regulars" (and not so regular) know, a coffeehouse at Notre Dame is still be hanging in there — with your support! Stop down and visit anytime!

---

**Chautauqua; not the NAZZ**

The student government and student activities office should be congratulated on the opening of their latest venture, the Lafortune ballroom coffeehouse "Chautauqua".

There are, nonetheless, several things which have to be set straight before the capital coffeehouse opens.

The jump in the Saddle Band will be jamming the tunes at the campus' new coffeehouse "Chautauqua".

Guitarist Chris Smith has been booked for Chautauqua.

Sure, it's a big game. Just ask the folks at NBC. It's the kind of match up that gets a close-up box in TV Guide complete with this little pencil sketch of a basketball player who looks like he's doing it off the page.

DePaul versus Notre Dame in the season finale. Why, it's a match made in --

Vincentian: "So, how's things up in the Windy City?"

C.S.C.: "Yeah, I gave it a shot."

Vincentian: "So, how's Coach Meyer?""You know who you're gonna win Sunday, huh?"

C.S.C.: "You bet your (expletive deleted) I do!"

C.S.C.: "To make a little wager on it?"

Vincentian: "Name your stakes."

C.S.C.: "How 'bout I give you the Golden Dome if you win and you give me Ray Meyer when I win."

Vincentian: "Fine with me but what are you gonna do with Coach Meyer? You already have Digger."

C.S.C.: "Yeah but Ray's so lovable and our students are so fond of him that we'd just like to have him around to smile and say a few 'Holy Mass' to rich alumni. Besides, if he comes here we won't have to feel guilty anymore about beating him once a year."

Vincentian: "Okay, you're on.

C.S.C.: "Great. See you Sunday, right?"

Vincentian: "You better believe it. I'll be on the bench with the team. Which one of you guys will be on your bench?"

C.S.C.: "Ah... we'll be going to a special guest on our bench. He's flying in for this game.

Vincentian: "Father Hesburgh, huh?"

C.S.C.: (smugly) "Well, I'm not really at liberty to reveal his name at this time, but I can tell you that it's not Father Hesburgh."

Vincentian: "Oh! One of the Bishops, maybe?"

C.S.C.: "No, but they're getting closer."

Vincentian: (concerned) "Well, you said he's flying in Sunday, right? What time does his airplane land?"

Vincentian: "Airplane? What airplane?"

The Irish, too looking toward Vatica chickenn try to do everything we can to prepare ourselves for the NCAA tournament. We""re going to Sunday and Monday off to give all of our players a good rest. Then the Blue Demons will be another stepping stone in our preparation. I think we're in a good frame of mind right now. The players have been through enough different situations this year and in past seasons that they know what has to be done. They know what they have to do if we're gonna get ready. That's what playing teams like Kentucky and Virginia has done for them.

Anyway, it's sort of the rest of the game. We know we can play with DePaul or whoever we draw in the tournament. It's simply a matter of staying smart and knowing what we can and can't expect to do."

IRISH ITEMS: Dayton was the last game for both DePaul and Notre Dame. DePaul creased the Flyers 84-64 Wednesday night in UD Arena while the host Irish stopped Dayton 70-57 last weekend. Notre Dame stands second behind Oregon State in field goal percentage with a .562 mark... Tri-captain Orlando Woodruff, who was one of only five Blue Demon starters to start all 31 games, states his career achievement was a 66.9 shooting percentage ... good enough for third in the nation. Kenny Truckas continues to lead the Irish in scoring with an 18.2 averages while Woodruff, Tracy Jackson and John Passon also rate in double figures.

FRIDAY, MARCH 6, 1981 - PAGE 11

DePaul seeks revenge vs. Irish

By BETH HOFFMAN
Sports Editor

Coach Ray Meyer and his DePaul Blue Demons do not take defeat lightly. The Mark Aguirre-led club finished 29-2 last season, scoring just Notre Dame (76-74) and ASS (79-74). The Demons avenged the Bruin loss December 27 in the Rosemont Horizon, humiliating the Irish 93-77. That leaves DePaul with just one more "score to settle" from last season.

That score will be tallied this Sunday when the Irish invade the Horizon for the second time in as many years. DePaul time for the nationally-reviled game is 12:45 p.m. CST.

"We see the intensity DePaul had when it played UCLA in December, when they did the same kind of thing in the tournament. I'm sure DePaul will come in here tomorrow and make that same kind of day after our victory over them last season," said Digger Phelps, who has six wins of nine career games against the 68-year-old Meyer.

The Rosemont Horizon, 57-56 victory of the Virginia Cavaliers last season, will not be the warm, receptive hall that opened its arms to the Irish last week. Instead of the rowdy Irish fans who invaded the new facility for the clash with Terry Holland's club, Notre Dame will be confronted by a crowd possessed by the Blue Demons.

Ray Meyer, a 1938 Notre Dame graduate, headers the 26-1 DePaul club for his 36th year. Meyer, aided by his son Joey, has recruited some of his alma mater's best basketball players in recent years with Aguirre, named the best player in America last year, boasts nearly a 24 point scoring average and clears the boards at an average of nine per game.

Two Chicago native sophomores, Teddy Grubbs, a 5-8 forward, and Terry Cummings, a 6-8 center, join the remarkable Aguirre in the front court. Cummings, center at a rate of nine points per game while Grubbs manages him at a 15.0 clip and hails in as many as 10 points a game.

Skip Dillard, a 12-points per game man, is the fourth Blue Demon star from the Chicago area. Dillard, who like Aguirre is a graduate student at Chicago Westhigh School, pairs at the guard spot with allAmerica Clyde "the Glide" Headshaw, a native of East Orange, N.J. Headshaw leads DePaul in the assist category while averaging nine points a game.

"When DePaul is on a roll, there isn't a team in the country that can stay with them," said Phelps. "I think Ray Meyer knows that and so do the teams who they play. The key is finding a way to take DePaul out of its rhythm, because once they get things going their way they're tough to stop. They've got all the talent a team could ask for, and this year they've already had one loss to funnel them up and take some of the pressure off them.

The Irish, who possess a 41-24 series edge over the Blue Demons, found out last year just how tough it is to beat DePaul "on a roll." Meyer & Co. won that game 86-82 at a 25:00 start and a No. 1 national ranking on February 27, 1980. Later that same campaign Chicago school was disembarrassed and with its record embalmed, America Kelly Trinitaca the Irish struggled to a 64-64 tie, and then Westminster to a 78-70 overtime deadlock. With the home crowd behind them, the Irish once again played the spoilers, winning 76-74 in a second overtime period.

This year, the Blue Demons already have "the monkey off their back," of losing 63-62 to Old Dominion on January 10. Meyer has the second-ranked DePaul club primed for the NCAA tournament appearance, the Blue Demons' fifth trip to the play-offs in the last six years.

The Irish are looking toward the NCAA tournament. "Right now, we're trying to do everything we can to prepare ourselves for the NCAA tournament," Phelps said. "We took Sunday and Monday off to give all of our players a good rest. Then the Blue Demons will be another stepping stone in our preparation. I think we're in a good frame of mind right now. The players have been through enough different situations this year and in past seasons that they know what has to be done. They know what they have to do if we're gonna get ready. That's what playing teams like Kentucky and Virginia has done for them.

Anyway, it's sort of the rest of the game. We know we can play with DePaul or whoever we draw in the tournament. It's simply a matter of staying smart and knowing what we can and can't expect to do."

ITINERARY

MARCH 9th & 10th at the ticket office
9:00am-5:00pm
At Midwest Invitational

Fast start for swimmers

By MICHAEL ORTMAN
Sports Writer

The regular season may be over, but for the Notre Dame swimming team, the fun is just beginning.

Wednesday afternoon, Dennis Stark took his Irish swimmers to Terre Haute, Ind., to compete in the annual Midwest Invitational Championships, a meet which has traditionally put the Irish in their place - usually near the bottom among Midwest independents.

That is, until yesterday.

After the first of the scheduled three days of competition, the Irish found themselves solidly in second place with 98 points, 24 behind the leader, Western Kentucky, and 18 ahead of third place Bradley, the team that beat the Irish last weekend, 64-49.

Considering the fact that Notre Dame has never finished higher than fifth in the 10-team meet, yesterday's feat ranks on added significance. The Irish did especially well in the events that had not been so kind to them during the recently-concluded regular season.

Sophomore Paul McGowan finished first in the one-meter diving competition, another unique accomplishment considering the Irish had only one first place finish in each of the last two Midwest Championships, both coming on the final day of competition. In 1979, then-freshman Don Casey stunned the rival swimmers from Western Kentucky with a time of 1:57.9. Last spring John Komora, now the team's senior co-captain, earned a top prize in the 100-yard freestyle with a time of 47-31.

And the fact that both Casey and Komora will compete in those same events again tomorrow can only be good news for the Irish.

"This is the meet the guys really got psyched up for," said Stark before he left for Terre Haute. "The team usually shraves down, gets fired up and then sets most of the season's best times."

Notre Dame, who finished the regular season with a 9-3 mark, was certainly not considered to be among the favorites, but that didn't bother the Irish swimmers at all.

"We look at it as the ultimate challenge," said Komora. "You need top-notch swimmers to push you to do your best, and you always get that at the Invitational. You don't have to finish first to do well because it's all relative to the competitive level of your team. For us, this is just about the top of the line."

Stark took a squad of 19 (15 swimmers and four divers) to the Indiana State campus. He had hoped to bring 21, but freshman sensation Dan Flynn, a butterfly specialist, was released from the hospital last Saturday after treatment for a collapsed lung, and sophomore Lou Bowersox stayed home with a virus.

"It was just one of those things with Dan," said Stark. "He woke up Wednesday morning, and wasn't feeling well. No one knows just how it happened." Flynn was to be a valuable asset at the Invitational along with Casey. Casey posted his best time of the season last weekend at Bradley with a 1:57.96 in the 200 fly. Flynn's best this season was 1:58.21.

Among the nine teams joining the Irish this weekend are three that have competed against Notre Dame already this season. In dual meet competition, the host Irish defeated Illinois State in January, 62-91, and last week, Notre Dame lost at Bradley. In December's Notre Dame Invitational Relays, the Irish finished third with 78 points, 15 ahead of fifth place Wisconsin-Milwaukee. The other six teams are Eastern and Western Kentucky, host Indiana State, Evansville, Valparaiso and Oakland College.

Only five events were completed yesterday, leaving 13 more to be contested today and tomorrow.

...Track

continued from page 16

Domany in the two-mile who was the Illinois state cross country champion this past fall.

The field events are slated to begin at 6:30 with the running events at 7:00. Their will also be exhibition races beginning at 6:30.

The mile is the first event of this meet so those wishing to see Chuck Aragon run in his specialty should be in the hockey dome at the ACC by 7:00. The distance medley relay, which Notre Dame will run in at the NCAA championships next week, is not an event in regular dual meets, however.

Fencers face Cleveland St. State

By JIM LEOUS
Sports Writer

After two disappointing losses to 
NCAA champion Wayne State and Il-
inois, the Notre Dame fencing squad is looking forward to 
Cleveland State this weekend and the 
Great Lakes Invitational on March 11 and 12. The Irish 
face Northwestern 2-6 and Wis-
consin 19-8, however, they met 
their match, losing 17-11 to Wayne 
State and 16-11 to Illinois last Satur-
day.

Coach Mike DeCicco commented 
on the losses, saying "We were mis-
ing Ola Harstrom and Marc dejung, but some of our other guys came through in the early round against 
Wayne. We had five quick wins, then the roof just caved in on us. We
never should have lost to Illinois. It was the first time in over ten 
years that the Irish have lost two matches in one weekend.

The fencers have a chance to average their losses later this month when they face Wayne State in the 
Great Lakes Invitational.

Next week the Irish fencers meet 
Cleveland State, Oberlin College, and Bowling Green. Cleveland leads 
boasts one all-American epeeist and 
one gold medal epeeist. Says DeCic-
co, "Cleveland State might give our 
epee team some trouble, but we've
got too solid a team to lose to the 
other two."

The Notre Dame women's squad went 0-5 this past weekend, losing 
to Northwestern 4-5, Wisconsin 2-7, and Wayne State 1-8. The Saint 
Marie ladies were much more success-
ful last weekend. They beat Wayne State 5-4, and Northwes-
ter 8-4, while losing a very close 
match to Wisconsin 4-5. Both teams 
will participate in the AIAW Women's Qualifiers to be held at 
Wisconsin-Parkside later this month.

The Great Lakes Invitational will be held on March 14 and 15. Notre 
Dame will have a tough decision, 
deciding which two of their three 
starters to send in each weapon. 
Coach DeCicco feels that it is a two 
team race between Notre Dame and 
Wayne State. Says DeCicco, "We
could get two of our men in the 
finals of the foil, one, maybe two, in the 
sabre, and we need two epeeists 
in the finals in order to beat Wayne 
State."

Optimism abounds as the Notre 
Dame fencing team winds down the 
season towards the Great Lakes In-
vitational and the NCAA Champions-
hips.

Bengal Bouts' finals set

By GARY GRASEY
Assistant Sports Editor

For the first time in 51 years, the Notre Dame Bengal Bouts are not under the guidance of Dominick D. Negri; however, the event is still the jewel of the 73-year-old Italian legend who began the tournament in 1931 in athletics and fighting.

Tomorrow night in the main arena in the ACC, the finals of Negri's Bengal Bouts will be staged to stage funds for the Holy Cross Missions of Bangladesh, an organization that has received more than $50,000 in donations. Donaldson, a former head coach of Notre Dame basketball, said first-year head coach Dominick D. Negri is the only thing the people of South Bend and the student body.

"If the Notre Dame students are truly a socially aware group, then they should go to buy a ticket because all proceeds from admission go to the Bengal Missions," he continued. "This is an unbelievable tax credit for the sport, buying a ticket would just be a donation to a very worthy cause." Bengal tickets are $3.00 and general admission passes (lower arena) are $2.00.

TUE MATCHUPS:
3:00 P.M. -- In a battle of two nationally ranked teams, the Cardinals' Mike Mulvaney (Sr. Pittsburgh, Pa.) vs. Mike Mulvaney (Sr. Columbus, N.H.) -- Mulvaney is one of the strongest fighters on the sport with a crisp left jab and the ability to punch powerfully with both hands; Mii has rehbed his power with skill and confidence from a broken jaw suffered in the last Bengal. Mulvaney's uppercut is a stardom.

157 POUNDS -- Jim Maldegan (Sr. Pittsburgh, Pa.) vs. Dave Lockard (Sr. Pittsburgh, Pa.) -- Another two-time senior, Maldegan may have appeared in the best form of his career in Wednesday's semifinal round, stopping Mark Nasca 20 seconds into the third round. Maldegan's speed and power will be matched with Spider Lockard's southpaw style that features an imposing left-hand lead.

Irish host Northern Illinios

By MATT HUFFMAN
Sports Writer

Tonight, the Notre Dame indoor track team will make its final appearance of the season, where it will be decided if the team can be a NCAA qualifier for the NCAA indoor meet. The team's performance will be evaluated based on their finishes in the NCAA meet.

One of the key events that could determine whether the team qualifies is the mile. The team's top performers include Wayne Rohy in the mile, who set a personal record of 3:56.2, and Chris Hilton in the 800-meter run, who finished second in the NCAA meet.

Other important events include the 4x400-meter relay, in which the team managed to qualify with a time of 3:07.5. The team also performed well in the long jump, with John Jones finishing in second place with a jump of 7.30 meters.

In addition to the track events, the team also excelled in the field events, with Mike Johnson winning the shot put with a distance of 16.25 meters and John Brown taking third place in the discus with a throw of 44.25 meters.

The team's performance in the NCAA meet will be crucial for their NCAA qualification. If they perform well, they will have a chance to qualify for the NCAA championships, which could lead to a national championship.

Major college upsets

Upsets abounded last night in college basketball, as many post-season conference tournaments went under way. The biggest shocks occurred in the opening round of the Southeastern Conference Tournament in Birmingham, Alabama, where Mississippi defeated 10th-ranked Tennessee, 81-71, and then unranked Vanderbilt defeated seventh-ranked North Carolina, 60-55. Fourth-ranked LSU survived, though, beating stubborn Florida, 85-73. In the Big East Tournament in Syracuse, N.Y., lowly Providence surprised conference champion Boston College, 67-65, while Villanova easily beat second-place Connecticut, 65-54. Finally, in East Lansing, Michigan State toppled eighth-ranked and Big Ten leader Iowa in overtime, 71-70, allowing Indiana to move into a first-place tie with the Hawkeyes by virtue of their 69-66 victory at Illinois. — AP
