**Bombing victim**

Iranian mourns Rajai's death

BEIRUT, Lebanon (AP)—Iranian crowds mixed mobs of mourning with troops yesterday as the nation buried its president and prime minister as mar­ tyr with dignity at dawn in Sunday's assas­ siination bombing.

President Mohammad Ali Rajai, who headed the office for 27 days before his death, and Prime Minister Mohammad Javad Bahonar, in office for just 29 days, were buried in Teh­ ran's Beheshti Zahra Cemetery in services that drew a crowd reported of 2.5 million people.

In a speech broadcast by Tehran Radio, Ayatollah Ruhollah Khomeini promised new elections to replace the "government" saying that the "deaths would not alter the course of the Is­ lamic fundamental revolution that he led.

It was the second time in two months that Khomeini's top political leadership had been wiped out in blasts and gunfire.

On June 28, an explosion at the headquarters of the ruling Islamic Revolu­tionary Party killed Ayatollah Mohammad Hosseini Beheshti, con­ sidered the second-most powerful figure in Iran after Khomeini, and more than 70 other leaders.

As the funeral procession wound through the streets of the capital yesterday, voters demanded the deaths of ex­ President "Doein to America" and the opposition Vijahmad Kahlil leader Masoud Rajai, both left to­ Par in a dramatic July 29 escape about a commandoed air force plane.

A two-man presidential council which assumed executive powers after the explosion in the prime min­ ister's office formally announced the death of Rajai, 68, and Bahonar, 47, at dawn. It was broadcast in Farsi by Tehran Radio and monitored in Beirut.

A spokesman at Khomeini's office told the Associated Press by phone that "there was no evidence of bomb blast." He said five other people were killed and 15 injured in the blast.

The presidential council's state­ ment blamed the bombing on the United States and on the secular op­ position groups which waged a nine-week campaign of urban guer­ rilla warfare.

Rajai was the leader of the Islamic­ Marxist Mujahedeen Khalq that has been the most active opposition group.

Rajai, a 51-year-old political leader who was deposed the late Shah Mohammad Reza Pahlavi, told the nation that "the blast must be punished back by as­ sassination," said John Stil­...
Seven separate explosions in Lima, Peru, including blasts at the U.S. Embassy and the residence of Ambassador Edwin G. Cair, caused heavy damage and killed two people today, police reported. The nearly simultaneous explosions shortly after 2 a.m. at the U.S. diplomatic installations coincided with denunciations at the Ford Motor Co., the Bank of America and the local distributors of Coca-Cola and the G. Bockwender and Co. milk products and administrative offices, which represents Carnation Milk in Peru. The seventh blast was at a private home where a fire killed two people and injured seven others, police said. — AP

Drivers ended their month-long search through the Andora Doria's murky corpse yesterday and prepared to weigh anchor with a locked safe and an answer to the liner's "last mystery." The divers found the hole that the Stockholm opened on the Andrea Doria's side 24 years ago, expedition leader Peter Gembel said Sunday. It was so large and so deep, he said, that it ended speculation about whether a missing watertight door caused the ship to sink so quickly. It was the massacre made when spokesman Lillian Pickard termed "a very, very tough decision" to abandon the search for the purse's safe in the first-class lounge. Instead, she said, divers spent yesterday and Monday to time and made preparations for the expedition. "We support vessel Sea Level II was to hoist anchor today and arrive back in Montauk, N.Y., tomorrow." — AP

A small-town judge who presided over the landmark criminal liability trial against Ford Motor Co. has died of cancer in a Winamac hospital. He was 62. Services are planned for Thursday morning for Pulaski Circuit Judge Harold L. Staffeldt, who died last Sunday. Staffeldt once coveted some criticism for his handling of the work to regain material against a first criminal trial material against a first bankruptcy corporation. Ford was accused in the deaths of three teen-age girls when 1973 Pinto automobile burned into flames when struck from behind by a van in Elkhart County on Aug. 19, 1978. The 1980 trial, returned to this northern Indiana farming community of about 2,400, ended when a jury of seven men and five women acquitted the automaker of criminal charges brought by an Elkhart County grand jury. The charges were based on a 1977 Indiana law holding corporations as well as individuals subject to criminal prosecution. Staffeldt is survived by his wife of 52 years, Helen, and two sons. — AP

Reflecting growing patience with President Reagan's African policy, a high-level delegation from black African nations called yesterday for immediate steps toward independence for Namibia. However, the delegation carefully avoided any direct criticism of the administration after a meeting of nearly two hours with Secretary of State Alexander M. Haig Jr. The delegation was led by Robert Omba, foreign minister of Zambia. The administration has been trying to avoid antagonizing black African nations on the Namibian issue while it is also seeking an agreement for independence for the mineral-rich country that will be acceptable to South Africa, which has said it would not make any moves toward independence that would undermine its interests. Critics have said the Reagan administration's go-slow approach on the issue in one reason more progress toward Namibian independence has not been made. — AP

Religious leaders, officials and 2,500 Vincennes — both gentiles and Jews — walked the narrow cobblestone streets of the old city yesterday in a procession mourning victims of the weekend grenade attack on a synagogue. Memorial services were held in the street outside the 155-year-old brefel Temple, a bouquet of flowers marking a doorpost left bloodstained in the Sunday attack, which killed an elderly man and a young woman. Twenty people were injured. Three suspects, described by police as Arabs, were in custody, but the authorities said one appears not to have been involved. Authorities released six others yesterday saying they were not involved. Police said they did not know who was behind the attack although one of the suspects claimed ties to the Palestine Liberation Organization. The FEO has repudiated the claim and condemned the attack. — AP

Chase Manhattan Bank lowered its prime lending rate by one-half of a percentage point to 20 percent today, breaking ranks with the rest of the banking industry and sparking new hopes for a sustained decline in interest rates. The move marked the first change in the discount rate in nearly a year, and analysts expected more action from major banks to follow Chase's lead. Chase is the third-largest bank in the nation. Chase's action followed a better-than-expected money supply report by the Federal Reserve Board on Friday. The Federal Reserve said the basic measure of the money supply had declined 3.7 billion, the smallest decline of the year. Some economists said the new decision would allow the Federal Reserve to provide additional reserves to the banking network, paving the way for further drops in interest rates. The prime rate is the interest banks charge on most short-term loans. Top-rated commercial borrowers generally are charged at least a percentage point above the prime. The prime rate does not apply to consumer loans. — AP

Mostly cloudy and continued warm and humid today with temperatures slightly higher than the 5 to 10 percent today. Continued warm and humid tonight and tomorrow with a chance of thin, isolated showers. Low tonight in the mid 60s. High tomorrow in the mid to upper 70s. Chance of rain is 60 percent today and 30 percent tonight. — AP

The Observer

The Observer is an independent newspaper published by the students of the University of Notre Dame and South St. Mary's College. It does not reflect the policies of the administration of either institution. The news is reported as accurately and as objectively as possible. Editors represent the opinion of a majority of the Editorial Board. Commentaries, opinions, and letters are the views of the author. Copy is available to all members of the community, and the free expression of varying opinions on campus, through letters, is encouraged.
WSND plans auditions for the upcoming year

By MIKE SCHIER

WSND, Notre Dame’s student-run station, plans to hold auditions Sept. 1 and Sept. 2 from 6 p.m. to 11 p.m. on the first floor of O’Shaughnessy Hall. Positions remain open in announcing, reporting, production, sales, promotion, public relations, and engineering. The job openings require no prior experience.

WSND station manager Tom Nesninger said “there will be no significant changes in either the AM or FM line-up this year. We’ll just continue building on the basic programs developed three years ago” 1978 marked the addition of a music format to the AM station and an overall emphasis on variety for both stations.

Air Force freshman Kevin Leiten announced his station’s new slogan as “We basically stick to Billboard’s top one hundred, but requests always take priority. We don’t do station IDs, we label songs as much as possible,” Allen said.

The station regularly offers concerts of the Boston Symphony, Metropolitan Opera, New York Philharmonic, Chicago Symphony, and Milwaukee Symphony. By courtesy of the University Artist Series, WSND-FM this year offers the Cleveland Orchestra, which Allen terms one of the best.

Other new programming includes Professor Danely’s theme show “Operas from Shakespeare on Sunday nights and a talk show Encounters, currently without a time slot.

Burns seeks ‘sense of college’

A&L dean

Burns seeks ‘sense of college’

By CAROL CAMP

News Staff

Dr. Robert Burns will assume the position of acting dean of the College of Arts and Letters during the 1981-1982 school year.

Commenting on his qualifications for the task, Dr. Burns stated, “I’ve been at Notre Dame for twenty-four years and I know the College inside and out — I had better!”

The dean received his undergraduate degree in history at Northeaster University, Boston, in 1948, and earned his Ph.D in 1960 at Harvard. Since 1957, he served as part of Notre Dame’s history department, teaching British, European, and Irish history, as well as Western history. He maintained a role in administrative work in various capacities since 1968.

Dr. Burns describes his views concerning the strengths and weaknesses of the College of Arts and Letters as an examination of the needs and goals of the college.

The College needs to develop more interdisciplinary programs, Dr. Burns stated, adding “Notre Dame is much too interdisciplinary than its peer institutions.” He believes this results from the association of faculty members to their department rather than with the college as a whole.

“In other words, we need to develop a better sense of college,” he said.

The dean noted the progress achieved through the development of the Arts and Letters Pre-Professional program and an increasing interest among students and faculty in Middle Eastern affairs. Dr. Burns said he plans to continue this trend in the coming year.

The Harvard graduate commented on his commitment to the development of a London exchange program at the University. Dr. Burns said he anticipates that this program, “will serve as an enrichment of all major programs in the college because it is an idea whose time has come.”

Dr. Burns states that “we’ve come a long way in 24 years, but we still have a long way to go.

“The idea of a first-rate university in a global context is extraordinary. No other school in the United States can be Catholic and great.” He said “We are the best hope in 1981.”

**Banks suspend programs**

**By LOUISE COOK**

Many banks and savings and loan associations temporarily suspended bonus programs tied to All Savers Certificates yesterday because of confusion over an Internal Revenue Service warning about possible tax problems with the high-interest deals.

"It's really a buyer-beware situation," said Randy Renken, a spokesman for the National Bank of South Dakota. "A lot of people are calling and we're telling them at least not to get us a chance to talk to the IRS."

In Atlanta, Kevin G. Kidd, vice president of the Bank of the South, said the institution was suspending its high-interest offer "until further clarification from the IRS."

Jim Kendall of the U.S. League of Savings Associations said member institutions were calling the league offices in Chicago and Washington, asking what to do. "We don't know," he said.

IRS spokesmen said yesterday they did not know what a final ruling on the subject would be.

One-year All Savers Certificates were authorized by Congress as part of the recent tax cut. They will be available beginning Oct. 1 for a 12-month period. The interest rate will be equal to 70 percent of the interest on one-year Treasury bills. A maximum of $1,000 in interest on $2,000 for married couples will be exempt from federal income tax.

Financial institutions trying to get customers to deposit money in advance of Oct. 1 have been offering high-interest promotional deals. In general, the bonuses work like this: A sort of loan to the financial institution which pays a high annual rate of interest. On Oct. 1, your investment will be converted, usually automatically into an All Savers Certificate. Some institutions have been offering cash bonuses; others promise annual interest rates of up to 50 percent on the "repo" part of the deals.

On Saturday, however, the IRS issued an unusual weekend announcement saying it had "substantial doubt about the income tax consequences" of the package investments.

It added: "Interest from All Savers Certificates issued under the conditions stated in advertisements placed by financial institutions may not qualify for tax-free treatment under the 1981 act."

The IRS did not give any specific reasons for its warning.

One possible problem is that many of the programs make the interest payments on the "repos" considered as additional income on the customer's investment in an All Savers Certificate.

If the customer does not buy a new certificate, he or she will lose the interest on the "repo." If the "repo" and the certificate are considered as one transaction, the total interest paid could be higher than 70 percent of the rate on one-year Treasury bills. That would make the investment ineligible for the tax exemption.

Some institutions said that they did not require reinvestment in an All Savers Certificate and therefore thought their programs were safe. For example, Joe Scally, president of St. Paul Federal Savings & Loan in Chicago, said that customers who invested in repurchase agreements had signed authorizations to have their money converted into All Savers Certificates, but people who chose to revoke the authorizations would not be penalized. "We don't have the linkage problem as far as I know," he said. "We have two separate plans and they are not interdependent."

Adding to the confusion, meanwhile, was the fact that several federal regulatory agencies were considering whether to allow people to withdraw money from certificates of deposit, without the usual penalties, to invest in the All Savers Certificates.

The Federal Deposit Insurance Corp., with authority over 4,000 state-chartered banks, said Monday that such withdrawals would be allowed.

**Acrobic class slated**

An aerobic exercise class will be held regularly beginning this week on the second floor of the Boone Memorial. The class will meet on Mondays, Tuesdays and Thursdays from 4:15 to 5:15 p.m. The cardiovascular exercise program will be open to all Boone women free of charge. Please bring student IDs.

There will be meetings for all interested in going on trip to ND-Miahai game over Thanksgiving.

Date: Tuesday, September 1
Time: 7:30 P.M. at N.D. LaFortune Ballroom and 9:00 P.M. at SMC LeMans Lobby

Four states hit
Lightning bolt causes blackout

DENVER (AP) - A lightning bolt knocked out electrical power yesterday to more than 150,000 customers in most of Montana, southern Idaho, northern Wyoming and one Colorado town, utility spokesmen said.

An estimated 150,000 Montana Power Co. customers east of the Continental Divide lost electricity when lightning hit a 540-kilovolt line between Four Cornes, N.M., and Pinto, Utah, Montana spokesman Russ Cox said. The blackout last about midnight, also affected 1,800 people in southwestern Idaho and 80 in southwestern Colorado. An undetermined number were affected in Wyoming's Big Horn Basin.

Montana Power lost its entire system - three coal-fired and three hydroelectric units. The plants tripped off automatically to protect themselves from power surge from the lightning.

The Montana blackout last two hours in most areas... some remote areas were still out after dawn yesterday.

The blackout did not affect Butte, Missoula and other points west of the divide, Cox said. There were apparent sufficient connections between Montana Power and Washington Water Power Co. to maintain service there, he said.

Idaho Power Co. spokesman Bob Rome said hydroelectric units at Striker, Thousand Springs, Twin Falls and Shoshone Falls went out, affecting about 1,800 customers in Boise, Twin Falls and Salmon for two hours.

In northern Wyoming, Buffalo, Sheridan and Lander lost power for about 10 minutes, said Bob Taran­to of Pacific Power & Light Co., as did oil fields in the Big Horn Basin. Colorado said Colorado-Ute Power Co. in western Colorado reported a 260-kilovolt line tripped causing one coal-fired plant to shut down briefly and creating a 20-minute blackout in Montrose, a town of about 800 people in southwestern Colorado.

...Bomb

and there would have been a massacre."

Shortly after the explosion, security guards sealed off the base to all but "mission essential" personnel.

Military police in full battle dress and carrying M-16 rifles raged the parking area. But Air Force spokesman Maj. Tracy McCollister insisted base operations continued normally.

U.S. officials also stepped up security at other installations in West Germany, where some 260,000 U.S. troops are stationed.

In Frankfurt, military police searched for bombs at the post exchange, the headquarters of the U.S. corps and other installations with out turning up any further devices.

The West German Federal Criminal Office took over the inves­tigation of the Ramstein explosion.

The explosion occurred shortly after 7 a.m. local time and apparently came from an automobile parked in a lot in front of the adjacent headquarters buildings of the U.S. Air Force Europe and the North Atlant­ic Treaty Organization air com­mand. West German police said.

Witnesses said the bomb, which west off as the first stream of civilians and military personnel were reporting for work, shattered car windows and blew out win­dows and interior walls in nearby buildings.

"Thank the Lord the explosion oc­curred before most people reported for work or we would have had a lot more injuries," an Air Force spokes­man said. He said damage was ex­tensive.

A spokesman at the West German Federal Criminal Office in nearby Karlsruhe told The Associated Press that German authorities believe the explosion was the work of ter­rorists, but he gave no further details. No group claimed responsibility.

"The cause of the explosion has not been determined," a brief Air Force statement said.

U.S. officials denied Ger­man radio reports that a second bomb was found near the base.

Yesterday's blast was the second this month aimed at U.S. military facilities in Germany. On Aug. 18, small pipe bombs exploded at a U.S. garrison in West Berlin, causing minor damage, but no injuries.

Judge grants last wish
to dying woman

HUNTINGTON, W.Va. (AP) — Golda Yoder, whose last wish was that she be freed from life support machines, died yesterday night nine minutes after a doctor unplugged the system.

The action had been approved earlier in the day by Bethel Lodge Circuit Judge D.B. Daugherty, but only after Daugherty was told the 76-year-old woman already was "brain dead."

Mrs. Yoder's last wish had divided her family and put Daugherty on the spot last week when she asked to be disconnected from machines that were keeping her alive despite near­ly constant pain. Doctors said she was dying of incurable cancer of the liver.

Dr. Donald Klimenti­ver said he un­plugged the respirator at 9:26 p.m.

"There was a consensus of cardiac ac­tivity at 9:35," he said.

The doctor said Mrs. Yoder probably would not have lived more than five minutes after the support sys­tem was cut off. She was in coma at the time of her death and was not aware of what was happening nearby, he said.

During a hearing yesterday in Daugherty's court, Klimenti­ver received a message from the hospi­tal that the woman's condition had deteriorated rapidly. He passed a note to Daugherty which said: "pupils are dilated and fixed. This in­dicates brain death."

Strange on a new level: Duke at Doobies

Ramon Duke

I tried the rear gate, where a huge white blob was much more agreeable. I couldn't really focus on the face, but I had to draw my name, and the words "Ramon" immediately gained me entrance.

Some minutes later, I located the press box, which is located somewhere just west of Elkhurst, and about the furthest place you can be from the stage at the ACC. I was crowded into a backrow seat next to two locals who were surgically attached at the neck, and noted only my convenience to be a location where I could consume the necessary supply of narcotics to wear me through the show without protest.

Already on stage was the Michael Stanley Band. And one thing is for certain — Michael Stanley wishes he may remember Ramon Duke from University.

The intermission seemed over, especially as my tempers were pulsed at 1.0 beats per minute, and a secondless second sound track took place by the left ear. The scene was a solid.

ANNOUNCING THREE NEW ARMY NATIONAL GUARD PROGRAMS THAT CAN HELP YOU PAY FOR COLLEGE.

If you're like many college students, the closer you get to your degree, the deeper you get into debt. But, you don't have to get in over your head. Not when you join the Army National Guard.

Because now, the Guard has three new programs to help you pay for college: the College Loan Repayment Program; the Educational Assistance Program, and the Enlistment Bonus Program. And you don't have to wait for graduation to take advantage of them. You could join the Guard right now.

You see, the Army National Guard is part-time. After your initial training, it takes just two days a month and two weeks of annual training a year to serve. So there's plenty of time left for your studies. And you get paid for every hour you put into the Guard, so you'll have extra cash for books, lab fees, and all those other little expenses that come up.

Of course, there's more to the Guard than money. It's a chance to do something good for your country, as well as for people right in your own community. The Guard can give you more options in your life—and more control over your financial future.

If that sounds like where you want to be, see your financial aid officer, contact your local Army National Guard recruiter, or use the toll-free number below for complete details on how the Guard can help you pay for college. And help in a lot of other ways, too. But hurry! These special programs for college students are available for a limited time only.

The Guard is America at its best.

ARMY NATIONAL GUARD

Call toll-free: 800-638-7600.

In Hawaii: 737-5255; Puerto Rico: 723-4550; Virgin Islands (St. Croix): 773-6438; Maryland: 728-3388; in Alaska, consult your local phone directory.

Program terms, payment amounts and eligibility requirements subject to change. All programs not available in all states.
Football ticket distribution begins today. All students and non-registered guests who purchased season football tickets during the summer may pick up their tickets today. Ticket windows will be open from 8 a.m. to 5 p.m. until approximately 2:30 p.m. tomorrow. Gate 3 doors of the ACC will be open at 7:30 a.m. The football ticket committee reminds students that the seats in the student section have not been pre-assigned by the Ticket Office. Therefore, it is important for students to arrive with a specific classmate, and students are also encouraged to form a group of five or more students for ticket distribution procedures. Additionally, students who purchased tickets during the summer should report to the ACC for adjacent seating. No student may present more than four IDs.

Saint Mary's Athletics (Department is accepting applications for the position of varsity track coach for the 1981-82 season. Salary is negotiable. Track experience preferred. For further information, call 284-5849. - The Observer

John Shumate, a former all America basketball player at Notre Dame, is back at the campus for a tryout with the Fighting Irish. Shumate will be serving as a volunteer assistant to Digger Phelps, in addition to serving as an assistant coach at the Notre Dame basketball program. In the area of minority recruitment. Although plagued by illness that caused him to miss one year of college ball, and two and a half years of NBA, Shumate is the ninth leading scorer in Notre Dame basketball history, and owns the career goal percentage record (60.1) a first-round draft pick by Phoenix in 1974, and a member of the NBA's all-rookie team the next season. Shumate played for five pro teams before retiring last season. - The Observer

The Notre Dame swim team will hold their organizational meeting tomorrow in room 218 of the Rockne Memorial Student Center. Preliminary practices will meet at 6 p.m. and upperclassmen will meet at 4:30 p.m. Freshmen and freshmen will meet at 5 p.m. - The Observer

The Ultimate Frisbee Club meets daily at 3:30 p.m. on the Notre Dame field. Newfound members are always welcome. - The Observer

Notre Dame's wrestling team will hold its organizational meeting on Friday in the ACC for anyone interested in learning about the wrestling program. For more information, call Brother Joe Bruno at 7544. - The Observer

Interhall Athletic Commissioners are asked to contact the Office of Non Varsity Athletics as soon as possible so that the complete list of dorm commissioners can be compiled. The procedure is either call 610 or stop by the NVA office in the ACC. - The Observer

Notre Dame's fencing team will hold its organizational meeting on Thursday at 7 p.m. in room 411 of the Administration Building. All members of last year's varsity team should attend. For more information, call Rich at 8981. - The Observer

Hermann's successor

Campbell, Gates vie for PU Job

WEST LAFAYETTE, Ind. (AP) Purdue University has had a long line of top-notch quarterbacks, including Dan Howard, Mike Phipps, and, of course, Mark Herrmann. The latest candidates for the quarterback position, now battling for the starting spot vacated by the graduated Hermann, are Scott Campbell and Larry Gates. Campbell has the job for now, but Gates won't let him relax a minute.

"The competition is friendly, and it makes you work hard," Gates, who get to be Hermann's backup quarterback last year before a summer auto accident sidelined him for four months, said.

"I feel like I've finally got an opportunity," said Gates, whose lean, 6-foot-5, 215-pound build and drop-back passing form are reminiscent of Herrmann. Gates, who has a strong arm and work hard on the things that need improving, was thrown into action as a starter against Notre Dame in his first collegiate game as a freshman last year when Herrmann was out with a thumb injury. Purdue lost 31-26 passes for 178 yards and no touchdowns in the game. "We'll still pass a lot, but we'll try to run a little more, too," said Campbell. "We'll run the option some 1-2 times a game, the coaches have told me I'm No. 1 (quarterback) so it's up to the other guys to beat me out. If I don't perform, they'll change it, but I plan on doing the job and keeping my position.

Campbell said he felt honored being chosen to replace Hermann, make college football as his all-time passion.

"I learned so much about the game during my time at Purdue. I've learned how to perform under pressure, it's not the same in the NFL, so I'm working on the defenses, turning, turning, turning to the throw the ball. A lot of guys want to play as fresh, but I didn't," he continued. "I felt it was time to go to the system down, adjust, and then come in as a sophomore as No. 1."

A year earlier, it was Gates who was Hermann's understudy. The accident that left him with a separated shoulder, broken clavicle, collapsed lung and concussion.

"Coach Jon Young calls Campbell a 'competitive, winning quarterback who has a great arm and the ability to run. He is very good at handling all around ball protection. But Larry Gates is a strong arm and is a winner who has proven himself to be a great competitor, excellent for games for us two years,'" said Young.

"It's a psychological boost for him and his teammates. Whether or not he's able to pitch is up to the manager."

Richard's tragic odyssey started July 30, 1980, when he suffered a serious head injury in a workout in the Astrodome. Richard underwent emergency surgery to remove a blood clot from his neck.

Amazingly, Richard was able to report to spring training in February with his team and started specialized work-outs aimed toward his dream to pitch in the major leagues.

The dream took another step forward Sunday when the Twins announced that Richard and first baseman Marchan would face each other on the team's disabled list, suffering from a strain.

Astros General Manager Al Rosen said the move was made: "He's worked hard to get himself into condition," Rosen said. "It's a psychological boost for him and his teammates. Whether or not he's able to pitch is up to the manager."

Virdon said he was impressed with Richard after watching him throw 20 minutes of hasting practice Saturday. Virdon said he's had Richard's performance in the decision to reactivate the 1980 All- Star starting pitcher for the National League.

**NFL checks Stabler**

**HOUSTON (AP) — The controversy swirling about Houston Oilers quarterback Ken Stabler spread Monday to include a National Football League investigation of Stabler's association with a known gambler and a man in Alabama accused of gun running.**

Stabler, who ended a brief retirement last week and played in the Oilers' 29-26 preseason loss to Dallas Saturday night, has refused to comment on allegations that he is associated with convicted bookmaker Nicholas Daudiik of Perlu Ambory, N.J.

While Stabler's off-the-field problems mushroom, Oilers Coach Ed Biles said he sees no problems.

"If you want me to sum up my feelings, I think it's time for somebody to either put up or shut up," Biles said. "We don't feel there is a problem. We're going to sit here and create more problems by discussing and going into it."

NFL executive director Don Weiss confirmed in New York Monday that the league is conducting a probe of Stabler's acquaintances.

"His investigations as to overall thing goes back several weeks," said Weiss, who also indicated the NFL investigated Stabler previously in 1978.

**White Sox pull triple play**

**CHICAGO (AP) The Chicago White Sox pulled off a triple play in the top of the second inning against the Boston Red Sox Monday night.**

Kirk Gibson opened the second with a single and Lance Parrish walked. With a 3-1 count on Al Cowen, both runners broke and Cowen hit a first-pitch liner to right which Hal Raine caught. Raine then threw to Roybernard at second to double Gibson and Bernard helped to first baseman Mike Squires to triple Parrish and end the inning.

Chicago may have won the battle in that inning, but Detroit won the war, defeating the White Sox, 5-1. Detroit's Kirk Gibson extended his hitting streak to 10 with a pair of singles.

Morton Rookie Mark Herrmann is No. 3 on the depth chart.

Coach Dan Reeves said the decision to cut Knapple and retain Deberg was made "in order to bring Herrmann along slowly, with a guy with experience in front of him. I feel that with Deberg's experience he will be ready to step in if something happens to Craig ... Mark Herrmann has a bright future and it was a chance for us to get somebody of experience."

The Observer Tuesday, September 1, 1981 — page 9
Oakland waves Pastorni

By BRUCE LOWITT
Associated Press

Quarterback Dan Pastornik, obtai-
ned by Oakland from the Houston Oilers for Kea Inah in one of last
season's biggest trades, was waived by the Raiders Monday as National
Football League teams pared their
rosters to the opening-day 45-man
limit.

An 11-year pro out of Santa Clara,
Pastornik, 32, started the first six
games of the 1980 season for Oak-
land before breaking his leg. He
cended the year on the bench as live
Plunkett led the team to a Super
Bowl championship.

In other moves, fullback Tony
Galbreath was traded from New Or-
leans to Miami, quarterback Steve
dellinger was dealt from San Fran-
sisco to Denver and place-kicker Dan
Dockrock was cut by the Cleveland
Browns.

A number of teams said they
would not announce their cuts until
Tuesday.

Galbreath, who lost a
job.

...Surveys ...

continued from page 12

"This is not just another school," said the captain of the Fighting Irish
football team. "Everyone here is
bonded by the academics, the
sports, and the great tradition of
Notre Dame. And Catholicism is an
additional bond which holds
everyone so close together."

The Observer also found that the
present Notre Dame athletes do not
place more emphasis on their educa-
tion than on their respective sports.
Instead, a majority of those surveyed
said that a perfect balance between
football players receive their
degrees in four years. But during the
football season, both academics and
football are an equal level.

The Observer also found that a
major factor in deciding to attend
Notre Dame lies with the great
tradition and aura of mystique.

"It's every young boy's dream to
someday go to Notre Dame," said
Mark Fischer, center for the football
team. "There's something special
here; all the great people who have
been here in the past, and the
tradition which has been a part of
Notre Dame for so long. It makes
you want to be a part of it."

Concurring with Fischer and a
majority of the athletes surveyed in
star tenis player Mark McMahon.

The winning tradition of Notre
Dame sports and the mystique
which surrounds the school were
definitely major factors in my deci-
dion to attend."

The differing results between the
surveys can be attributed to several
factors. The Observer survey in-
volved current scholarship alerates
while the other involved athletes
who have the distinct advantage of
looking back on their college years.
The great difference in the results of
the "Catholic factor" could be ex-
plained by more non-Catholic ath-
letes enrolling them in the past

quarterback... please comment.

"The biggest reason I chose to
attend Notre Dame is the balance
which exists between academics and
athletics," said John Pauson, the
shooting guard for Digger Phelps'
basketball team. "In the long run,
academics are more important. But
right now basketball is also very im-
portant.

'Sophomore quarterback Blair Kiel
agrees. "The major reason I came to
football team was to succeed both in
the classroom and in athletics."

The different results between the

...Backfield...

Blache is also impressed with the
young crop of freshmen backfield er-
tailback Chris Smith and full-
back Mark Brooks, both from
Minnesota. This is one of those trades
except for a few minor errors, were
of course, more aggressively the
results. "Overall, we had a good
workout," Blache said. "But we
will have to eliminate the little er-
rors - the problems in discipline,
university with several teams.

So, when the "new and improved"
Fighting Irish line was on the field
against LSU, the least of their
worries should be the performance
of the backfield. That will allow
them to concentrate on other, more
important matters - like what color
es to wear to which game.

IRISH ITEMS... Tight end Rob
McGarry is lost for the season after
undergoing knee surgery last week.
the first preseason scrimmage will take place at
the Stadium... the scrimmage will be closed to the public.

...Roysals fire Frey...

KANSAS CITY, Mo. (AP) - The
Kansas City Royals announced today
Jim Frey has been fired as manager
as a result of the team's play.

Manager Dick Howser named as his
replacemen

Howser was introduced at a 4 p.m.
news conference at Royals Stadium.
"This was a very difficult decision
for us to make, especially for me
personally," said Joe Burke, Royals vice president and general manager. "Jim Frey is one of the most loyal, ded-
icated and hardworking individuals I
have had the good fortune to be
associated with in my long baseball
career.

Howser is 45 and a veteran of 22
years of pro baseball. He was
languagian of the 1980 Athletics and
American League Champion. He gained the
career the guided the club to a
103-59 record. That .635 percentage was best in
major league baseball for the regular
season.

This is one of those trades
that will benefit both teams and one
that will benefit Tony's career."

Galbreath was the Saints' No.2
draft pick in 1976. He and Chuck
pastorini, the franchise quarterback in
the New Orleans backfield for several
seasons. But they were in a good
time when the Saints
were traded to San Diego and
Mitchel.

The Broncos acquired Delberg
from the 49ers for an undrafted
draft choice and cut second-year
backup Jeff Knapp. Delberg, picked
up just five days after the Broncos
had waived Matt Robinson, gives them
a veteran to back up Craig

Athlete surveys conflict

By MIKE MONK
Sports Writer

The results of a recent survey show that the University of Notre Dame attracts athletes more because of its Catholic character and its reputation for academic excellence than by its successful athletic programs, according to the Department of Information Services.

The results of the survey are based on extensive personal interviews with 87 alumni of Notre Dame’s 3,000 monogram letter winners. It involved graduates from as far back as 1925 through 1979 and canvassed the continental United States. No women were surveyed due to their relatively recent inclusion in the University.

A sport-by-sport breakdown of those surveyed was not available from Information Services. It also was not known how many of the 47 surveyed were scholarship athletes.

According to the survey, most club members were concerned more with Notre Dame’s educational program and the institution as a whole than with the success of its athletic teams. Nearly all the club members cited the educational emphasis in the athletic programs and the high percentage of graduating athletes as being very important to them.

The interviews were conducted by Roger Valderrama (Sports Information Director), Dr. James Frick (Vice President for Public Relations and Alumni Affairs), James Murphy (Assistant Vice President), and James Gibbons (a Monogram Club member).

The survey was done in preparation for setting up an Athletic Endowment Fund at Notre Dame. "More than one fund would constitute the first time the University has raised money for sports.

Conflicting results were obtained from a telephone survey conducted by The Observer. Current scholarship athletes from football, baseball, men’s and women’s basketball, hockey and tennis were asked why they chose Notre Dame over other prospective colleges. While all of the athletes cited the University’s academic reputation as a major factor, only 16 percent said that Notre Dame’s Catholic character was a factor in their decisions.

The fact that Notre Dame is a Catholic school had much to do with Dan Fout’s decision to attend.

See SURVEYS, page 10

Install wingback

Backfield features new position

By CHRIS NEEDLES
Sports Writer

For months now, Notre Dame football fans have been inundated with news and general gossip about their "new look" fighting Irish.

But there is a new position to talk about. Gerry Faust, who hopes to make a mark in his first season as head coach, says that next season’s team will be stocked to sleep the past few years by too many third-down punts and not enough offensive creativity. But almost everyone now knows enough about Faust to write a biography on him.

Then there are the new uniforms, a stylish mixture of blue and gold. Before the season, the team wore a new look, "or at least one of the best. It has to be something we’re committed because he’ll be asked to do so many different things." Former flanker Tony Hunter, a two-year starter, has been tabbed as the new wingback, without much argument from the critics. The 6-5, 220 lb. junior, who had a superb season in 1980, brings with him an increased physical stamina on my part, but I enjoy the increased responsibility." Hunter said.

But one can get a good look at these on the cover of the 1981 Notre Dame Football Guide. The tagline is a drawing of Bob Crable and Phil Carter doing their work.

But now, with the 1981 season opener just 11 days away, there is nothing much else left to talk about except football. And nowhere else will this "new look" be more in evidence than on offense, most especially in the backfield.

Gerry Faust’s new offense, verses with 87 days at Moorehead,features a brand new position — wingback — and a lot of motion, most of which will take place in the backfield. The tailback and fullback positions remain intact, but the addition of the wingback, who can line up on either side, and also running back or in the slot as a flanker, creates endless play-calling options for Faust and his staff.

"The wingback should be the best athlete we have," Faust said. "At least one of the best. It has to be someone you’re not going to anticipate because he’ll be asked to do so many different things." Former flanker Tony Hunter, a two-year starter, has been tabbed as the new wingback, without much argument from the critics. The 6-5, 220 lb. junior, who had a superb season in 1980, brings with him an increased physical stamina on my part, but I enjoy the increased responsibility."

"With the change of positions, which also brings with it an increased involve­ment in the offense, ’I’ll still be primarily a receiver, plus I’ll be in motion a lot. Hunter said. "And lots of times I’ll be in a full-house backfield, which will give me the op­portunity to run the ball, too."

"It’s tough to learn a new position, but I really like it. It requires a lot of physical stamina on my part, but I enjoy the increased responsibility." Hunter said.

There is a potential problem, however, with the newly created position, one that is adding a few wrinkles to the bow of backfield coach Greg Blache. "We have a definite problem in regards to depth at the wingback position," Blache said yesterday. "Tony Hunter is healthy and he’s taking to the new position well, but there is still room for improvement from him."

"After that, though, we’ve got problems Tim Tripp (who was slated to be Hunter’s backup) will be out at least four weeks with a sprained knee. Past that, we’re pret­ty well full good." Blache continued.

"If Tony were to get injured," Blache continued, "we’d probably use one of our tailbacks to take over at the wingback position."

The interviews were conducted by Roger Valderrama (Sports Information Director), Dr. James Frick (Vice President for Public Relations and Alumni Affairs), James Murphy (Assistant Vice President), and James Gibbons (a Monogram Club member).

The survey was done in prepara­tion for setting up an Athletic Endowment Fund at Notre Dame. "More than one fund would constitute the first time the University has raised money for sports.

Conflicting results were obtained from a telephone survey conducted by The Observer. Current scholarship athletes from football, baseball, men’s and women’s basketball, hockey and tennis were asked why they chose Notre Dame over other prospective colleges. Northwestern leads the way

EDITOR’S NOTE: Several publications publish a ver­sion of "The Bottom Ten." This one is unique to The Observer.

AUTHORS NOTE: "The Bottom Ten" is a light­hearted, often tasteless, look at college football polls. Anything contained herein that offends anyone is ab­solutely intentional.

Far be it from the Bottom Ten voters to learn from their mistakes.

In 1979, the Florida Gators topped the end-of-season poll with an 0-10-1 record. So voters made them the pre-season favorite to repeat as the nation’s worst team in 1980. Despite a heroic last-second loss to Georgia, Florida finished with a dismal 8-3 record before going on to the Tangerine Bowl.

Teams like UCLA, Penn and Columbia should be familiar to Bottom Ten devotees. But, alas, there are several traditional powerhouses whose programs have suffered unfortunate improvement.

The return to power of a Republican administration, and the resulting increases in defense spending, have doomed Army and Navy to moderate success. That much is evident from pre-season snubbing in North Korea and the Mediterranean.

Don’t look for Chuck Fairbanks and Colorado in the polls this year. The Endangered Species Act has rescued the Buffaloes. The annual mid-summer meeting of the Bottom Ten voters, held this year in Kansas City, was a sellout. The announcement that former Arizona St. Miu­souri, Green Bay and Notre Dame mentor Dan Devine had been elected to the Bottom Ten Hall Of Fame brought the house down.

Here, then, are the 1981 rankings with 1980 records in parenthesis: 1) Northwestern (9-11) — Denny Green inherits Wildcats’ five-year record of 5-5-1. 2) Georgia Tech (19-9-1) — Yeah, we heard, they beat Georgia Tech. See BOTTOM, page 10

Houston Oilers’ quarterback Ken Stabler, who just returned to ac­tion following a brief retirement, is the subject of an N.F.L. investiga­tion concerning his alleged connection with a known gambler. (AP Photo)
