Vetted and favored

Committees vote on AWACS

WASHINGTON (AP) — A Senate committee recommended Thursday that the proposed sale of a large AWACS jet to Saudi Arabia be vetted, but Senate Republican leaders said the deal is more confident than ever the sale will go through.

"We have a certain momentum," Baker told reporters. "It's now within the last week or so in which we can get this done."

Baker offered his assessment prior to the Foreign Relations Committee's 9-0 vote against the sale, a lineup that the GOP leader had an- nounced Tuesday.

The committee vote came despite Baker's plea that "the sole issue at this point is the consequences for the ultimate security of this country and the region."

And Sen. Helms, R-N.C., had told his colleagues if the Senate rejects this sale, he fears ever senator who votes against it will regret it.

In Philadelphia, President Reagan said he is more confident than ever the sale will go through.

"Frankly, I'm gratified that it was that close. Of course, I wish they'd go the other way."

The president said that with the committee vote that close, he is still confident the sale will be approved on the Senate floor.

The Foreign Relations panel action came a few hours after the Armed Services Committee endorsed the sale 10-5, concluding a report that it "will enhance the potential of U.S. military forces to protect U.S. interests in the Persian Gulf region."

The House rejected the $8.5 billion sale Wednesday by a 501-1 margin, but the deal goes through unless it is also rejected by the Senate, where the administration has been concentrating its lobbying efforts.

Reagan prepares for development conference

PHILADELPHIA (AP) — President Reagan annull the Soviet Union on Thursday as having nothing to offer when he accepted the rejected the claims of "some shrill voices" in the Senate that the United States needs the help of America's

setting the stage for his journey to Miami next week for a conference between 22 industrial and developing nations.

Instead, Reagan offered a promise of increased foreign aid in the years to come, though he noted several countries from America and than any other nation.

Instead, he stated a greater contribution to "is to follow through with our own economic recovery" abroad, "the key to our investment in foreign trade."

"By getting out of the economic house in which we win, we win, we all win," the president said, referring to the industrial democracy and one hand the poorest nations on the other.

The speech, before the World Af- fairs Council, broke no new ground.

But it did serve as a warning of international economics one week before he meets with 21 other heads of government in Geneva, Mexico, to review relations between the "winners and losers."

The president was interrupted once in the man of the audience several hundred shouted from the balcony: "Are nuclear weapons the way to world peace?"

Reagan said, "In return, I spoke here in 1975 and there wasn't an echo."

As if to say that several others chanted "Stop nuclear war," and were promptly escorted from the room. Standing up, the headlines were listed, striking Philadelphia teachers and fired federal air traffic controllers demonstrated against the presi- dent's spending policies.

A conference wide was then decried, "the Soviets will not attend the con- ference and will not agree to wash their hands of any responsi- bility, insisting all the economic growth of the world result from capitalism, and all the solutions lie with socialism."

"The real reason they're not com-

Women students meet with Trustee next week

BY SARA ZAPPIA

The need for a university student center will be the major topic of discussion at the Oct. 22 meeting of the Board of Trustees.

Student Body President Don Murphy said that a major reason why students move off campus is because there is no place to go and nothing to do. He also said that students should do something to resolve this need for social space before things get out of hand.

Murphy pointed out that the student center has been a topic of interest for several years, and that he feels it is time something is done toward making it a reality.

Another topic of discussion will be a request for longer library hours. Murphy claimed that there are few places on campus to study, and that the hours of the library are not sufficient. He said that a student center would solve this problem.

Also on the agenda is a discussion of coeducation at the university.

It was not clear how the Board will explain the need for integration between male and female students. She will also relate this to the request for a student center.

The final topic of the meeting will be a presentation by Monday thanking Father Hesburgh for his 30 years of service to the Univer-

Airlines engage in fare war

By GREG SMALL

Associated Press Writer

HONOLULU (AP) — Hawaiian Airlines' round-trip fare for its popular flight between Honolulu and Maui is $84 at the start of the year. Early this week, the airline was charging just $35, one way — and throwing in the return trip for free.

The "Fly Home Free" promotional fare — $45 for short flights and $65 for inter-island trips — was identical to Aloha Airlines' "See Our Guest" fare.

Yesterday Hawaiian announced an even lower fare: $37.90. Aloha immediately cut it to fare accordingly.

But the lowest fare going in the Hawaiian skies is the $29.90 charged on Saturdays by Mid Pacific Airlines, an upstart newcomer leading a three-way inter-island air fare war that is delighting the flying public.

On any other day, Mid Pacific charges $57.90, hence the moves by Hawaiian and Aloha.

Since January, fares on some flights have gone down by as much as 50 percent, according to Hawaiian Air spokesman Tom Brown.

The air war began last March when Mid Pacific entered the inter-island flight market on a limited basis.

Unlike Aloha and Hawaiian, which fly to all the state's major islands, Mid Pacific serves only two islands from Honolulu — Maui and Kauai — with a tiny fleet of three turbo-prop planes.

While Aloha and Hawaiian have been losing passengers and money, Mid Pacific has turned a profit, despite being forced to undercut the major competition, says Mid Pacific spokesman Keith Haugen.

All the airlines, however, will be boosting their fares on Dec. 20 for the holidays, which traditionally mark an upsurge in the number of tourists coming to the island state.

"All of us will be able to fill our planes during Christmas and New Year," Haugen said.

It was the inability of Aloha and Hawaiian to sell these planes that led them to enter the fare war. But the two larger carriers insist it is not competition from Mid Pacific that is causing their slump. Both Hawaiian and Aloha blame shrinking tourism totals.

Mid Pacific, on the other hand, says 85 percent of its passengers are local residents who rely on inter-

island flights to visit family and friends or to conduct business, according to Haugen.

Figures from the Hawaii Visitors Bureau show just a slight decrease in the total number of visitors to Hawaii so far this year. But the drop is much higher on the neighboring islands.

Aloha's Milton Goto said he inter- preted the figures to mean that people are willing to travel as far as Honolulu but "the cost-conscious traveler" backs at paying extra to visit the outer islands. Here by both the decline in pas- sengers and the loss of revenues from the fare war, Haugen and Aloha also have been forced to cut

staff by 10 percent and slash wage 10 percent for non-union employees.

Despite Mid Pacific's obvious ef- fect on their business, neither Aloha nor Hawaiian consider the new- comer a real threat to their es- tablished stronghold on inter-island air traffic.

Hawaiian's McCarvey noted that his airline and Aloha transport thousands of passengers a day, while Mid Pacific handles only hundred.

Nevertheless, Mid Pacific is growing, Haugen said the carrier will be adding staff soon and doubling its fleet to six planes by the end of the year. The airline also plans to open new routes to Hawaii Island.

Haugen also pointed out that even in a sluggish economy, Mid Pacific is meeting success in the inter-island

Ray Shamble, 60, an industrialist and investor, launched a campaign yesterday to unseat Sen. Edward M. Kennedy, D-Mass. Shamble kicked off his statewide campaign with full-page advertisements in 60 daily newspapers throughout the Bay State. It marks his first attempt at statewide politics. Shamie will be announced as the candidate in those years. He also was charged with failing to report prisoned as long as five years on the conspiracy count and three years on a money laundering count. AP Church leaders said Moon, a Korean native who has a home in Irving, added: "Our chance for rain Saturday. Highs in the upper 60s."

Phoenix - Valley home, his office said Wednesday. The Arizona Republican government, alarmed at shortages of skilled workers, has issued the first public returns and declared non-active or made to attend, according to the Senate votes on the proposed sale of AWACS surveillance planes in New Orleans' French Quarter. Ron Small, a business owner, said: "The difference in the quality of the city's water."

There is a distinctive possibility that the next time you pick up an Observer (when you return from fall break) headlines on the front page will proclaim the selection of a new president of the University of Notre Dame. Rumors are rampant on campus that a successor to Fr. Theodore Hesburgh will be named during the University Board of Trustees meeting, which commences next Friday at 9:30 a.m. Information Services Director Richard Conklin told me yesterday afternoon that the issue of the impending presidential vacancy is not officially on the agenda of the meeting. However, he added, "We'll just have to wait and see.

Zimbabwe's 17-month-old black president, Robert Mugabe, whose anticipated appearance on the country's television and radio broadcasts could spark further violence, has managed to build up quite a list of enemies. So far avoided - the watch list of the people most often mentioned by some of my most reliable sources:

- Fr. James Birchall, the man who several years ago predicted that the United States would be called upon to intervene in the conflicted region. His comments have managed to build up quite a list of enemies.

- Fr. Ernest Bartell, professor of economics.
- Fr. David Tyson, assistant professor of management and director of sophomores in the College of Business Administration.

The only reasonably certifiable fact gleaned from this informal list is that the Notre Dame administration - just like its ultimate chairman of the board of theology, and the man who several years ago predicted that the United States would be called upon to intervene in the conflicted region. His comments have managed to build up quite a list of enemies.

"It's going to be very interesting to see how this person [new president] will react," said James Birchenall, a member of the board of trustees. "But if one of them does, don't forget where you heard your information.

Looking ahead for the moment, what would life be like for any successor to Father Ted? From all indications, Hesburgh will not fade away after he resigns the chairmanship of the board of trustees - just as his predecessor did. No one has managed to build up quite a list of enemies.

"Despite these limitations, amateur "dome watchers" have managed to build up quite a list of "serious" contenders. OK, let's get down to the nitty gritty line I've so offered - the watch list of the people most often mentioned by some of my most reliable sources:

The next meeting of Amnesty International will be held on Oct. 28 in the International Students' Lounge in the basement of LaFortune. All new members are welcome. For more information contact Prof. Loescher.

I DON'T GET NO RESPECT
Former U.S. justice aids blind students

WASHINGTON (AP) — Former Justice Potter Stewart, who helped mold American law for 25 years on the Supreme Court, has returned to retirement to reading those cases aloud for the budding young lawyers who need help to hear them.

After stepping down from the high court last July, Stewart volunteered as a reader at the Washington chapter of the non-profit Recording for the Blind Inc.

The retired justice recorded a dozen pages of a 255-page text called "The Rights of Aliens" on Thursday for William Poyner, a second-year student at moot law school.

Stewart, speaking in a Midwestern baritone, made his recording debut for the non-profit group last week with a reading from a book called "Assignments in Legal Research."

The 66-year-old jurist called the two-hour sessions challenging but rewarding, adding that the readings take a great deal of concentration.

He says he is looking forward to reading again.

His next assignment is the 188-page text of the New York Penal Code.

Recording Center spokeswoman Judy Reis said Stewart has not worked out definitive recording dates, in part because he is still sorting his schedule.

Stewart read yesterday in a soundproof booth under the careful supervision of another veteran Edna Lingerre.

Ms. Lingerre, who followed along with the same text and operated the recording machinery, is a retired assistant to senior trial lawyer with the Justice Department's Antitrust Division.

Stewart reads not only the texts of the various cases, but also the detailed footnotes often set out in tiny print.

Law school textbooks are at the center of American legal education. They contain both court opinions and often lengthy commentary and citations to various cases.

Ms. Reis said readers and their monitors must be experts in the field in which they are reading. She noted that when one reader leaves off, another picks up, so that any one reader may not finish a whole text.

The spokesman said that a master tape of Stewart's readings -- as with all of the chapter's recordings -- will go to the Recording for the Blind headquarters in New York.

Copies are then made available to other blind law students.

One copy will be sent to Poyner, a resident of Washington, D.C., where Antioch Law School is located.

Recording for the Blind is a 50-year-old private group that records and provides free taped cassettes of educational textbooks to more than 17,000 handicapped and blind people in all 50 states.

RESUME OF A PROSPECTIVE EMPLOYER

APPLICANT: Standard Oil Company of California

ADDRESS: 225 Bush Street
San Francisco, California 94104
Attn: Coordinator of Professional Employment

OBJECTIVE: Hire the best minds we can find, give them room to breathe, and see where they take us.

A FEW HIGHLIGHTS FROM OUR 100 YEARS OF EXPERIENCE:

1880. Fred Taylor, using something called a cable drill, reaches the hard-won depth of 500 feet. Rock gives way to oil.

1959. The first of the modern hydocracking processes, developed by Socal researchers, is commercialized.

1965. With construction and installation directed by Socal engineers, the largest offshore rig in history is settled in the turbulent North Atlantic. The central 1/3 times the height of the Great Pyramid, the platform is 1/4 of the man-made object ever moved.

1982. We don't know what the breakthroughs will be this year, but we've committed $2.8 billion to making sure there are some.

ACTIVITIES: Earth sciences, engineering, computer sciences, alternative energy research, and more.

REFERENCES: 40,000 employees worldwide.

market precisely because it is new. Without an established staff of senior pilots and other officers, the salary tab for Mid Pacific is lower. The airline hasn't been bedeviled with "woven management staffs," Haagen said.

Operation costs are also kept low, Haagen said, because Mid Pacific is a non-profit and therefore does not have to meet the salaries being paid at Aloha and Hawaiian.

Haagen said the turbo-props also save money, and he toured them as "the most economical way to fly distances of less than 400 miles" Aloha and Hawaiian use jet planes on their routes.

Although Hawaiian and Mid Pacific say the air face war appears to have eased off, pending the start of the Christmas season, Aloha's CEO isn't so sure.

Artist Series continues

University Artist Series continues its fall semester presentation with a performance by France's Duo Vox Nova at Sacred Heart Church Tues-

day, Oct. 27, at 8:15 p.m. There will be a $2 admission charge at the door.

Duo Vox Nova includes baritone chanson Illo Humphrey and organist Claude Pascal. The pair specializes in sacred liturgical music of the Judeo-Christian culture in its past, present, and future perspective.

Duo Vox Nova visits Notre Dame as part of a seven-week U.S. tour that began Oct. 1 in Boston and con-

cludes in the Los Angeles area.

See us when we visit your campus Nov. 2-3.
WASHINGTON (AP) — The Senate, reversing itself on one of the year's most controversial budget costs, voted 95-0 yesterday to restore the minimum Social Security benefit of $122 a month for more than 2.5 million recipients.

The bill also is designed to shore up the Social Security fund by taxing some personnel costs for the first six months a worker is off the job.

The measure cleared unanimously only after Republicans crushed a Democratic-led attempt to increase taxes on the oil industry by more than $14 billion and use the money for the giant federal pension system.

Congress, acting on Reagan's request, voted earlier this year to abolish the minimum Social Security benefit, beginning next March. Democratic leaders fought fiercely against the move at the time, but Senate Republicans used their new majority strength to force the change.

The House later voted to restore the benefit for all three million current recipients. And last month, Reagan asked Congress to restore the benefit for most of them. Senate Democrats lost but tried unsuccessfully on several occasions to do just that.

The measure will now go to a conference committee where House and Senate negotiators will attempt to work out differences in the two bills.

The final passage of the bill was a foregone conclusion, most of the debate centered on the proposal to tax one seventh of the oil industry.

The vote was 65-30 to table, and thus kill, a proposal by Sen. Thomas Eagleton, D-Mo., to repeal part of the "windfall profits" tax cut Congress gave the oil industry earlier this year. That cut was part of a bill providing a three-year reduction in personal income taxes.

Senate aides said they expected the bill to restore the minimum Social Security benefit and help shore up the fund that provides old age and survivor benefits would win final passage either late yesterday or today.

Eagleton's plan would have raised taxes on so-called poorly paid oil and gas discoveries by an estimated $14.2 billion through 1990. The money would have been used to shore up the Social Security Reserve Trust Fund to provide a cushion and thereby the financially troubled program.

"It is estimated that between 70 and 80 percent of this oil is produced by the top 50 companies, in which the tax break is a pleasant, if gratuitous, bonanza," Eagleton said.

He said his proposal was an attempt at beginning the debate on how to use the tax dollars reaped earlier this year, which he described as "the worst legislative abomination in the history of the United States Senate."

Chrysler distributes bonuses

DETROIT (AP) — Chrysler Corp. employees in the United States will find an extra $50 in their paychecks today, representing a significant profit-sharing agreement and a special profit-sharing benefit agreement between the company and the United Auto Workers union.

The bonuses, which will go to more than hourly and salaried workers in the United States and Canada, will cost Chrysler about $4 million, the No. 4 auto-maker said.

Company and union officials also are pointing out the details of a special lottery to distribute $304 prizes to UAW members. The lottery and the bonuses will cost about $6 million.

The bonus and lottery package was negotiated as part of a profit-sharing program agreed to by Chrysler and the UAW in July to compensate UAW members for the wage and benefit concessions they made to help Chrysler win federal loan guarantees.

But the union pushed for the additional bonus and lottery package to help customers anger over raises given to Chrysler executives earlier this year.

The profit-sharing program itself extends through Dec. 31, 1983, and will distribute among UAW members at Chrysler 15 percent of any $100 million profit in excess of 15 percent of the company's net worth.
Letters to a Lone God

When I was a young priest, there was a kind of poetry about faith that I believed to be true. It was the year before priestly ordination, when I was a student. I began to see the ordination to the priesthood as my vocation. It was a journey into the unknown, a pilgrimage that would lead me to a life of service. I remember the joy and the excitement of that moment. It was a time of expectation and anticipation.

As a novice, we were taught a theology of the canonical vows of poverty, chastity ad obedience, which we were choosing to accept for life. After Vatican II, the new theology of the vows was incorrect, and I resisted it. I wanted to stay true to the teachings of the Church. I believed that the Church's teaching was correct, and I refused to accept the new theology. I wanted to stay true to my own convictions.

The Church's teaching is that the vows we have now are the form we have now. In the late 1960s, during the Council, it was temporarily revised, and later it was revised into the form we have now. During the time of revision, we were allowed options. We could substitute other prayers for parts of the office, or we could read scripture instead. After a while, it wasn't clear to me — and to other priests, I think — what the Church expected of us. A fact became clear. Our old obligation to recite certain texts was the voice of God's Holy Spirit praying to human beings in their daily work. I felt the promptings of the Holy Spirit in my heart.

Nowadays, I enjoy saying the office, not as a prayer of the Church, but the reality of what I am doing has been demythologized from the sublime. It is now something that can be glossed over by any romance of our singing litanies as the voice of the Lord. I think this is a mistake.

As I said, I have been taught a theology of the canonical vows of love. I am a priest as the Church in¬stalled it on me. I do not accept the teaching of the Church that the vows are no longer valid. I believe that the Church has erred. I believe the Church's teaching is incorrect.

I have been asked to write about the New Establishment. They are as important as the truth they express.

By CHUCK GREENE

Sports Writer

As the USC game grows ever closer, it becomes increasingly apparent that the play of the Irish offense must improve for Notre Dame to have any chance of winning. One of the crucial areas that will be tested against the Trojans is the offensive line, led by senior Phil Pozderac.

Pozderac, a 6-9, 260-pound tackle, has not played as well as he expected to so far this season. "I'm trying to master this new offense," he says. "Of course, I know all of my blocking assignments by now, but there are so many things I'm just starting to realize about this offense that can accomplish." 

Coming to Notre Dame out of Garfield Heights, Ohio, Pozderac has seen a lot of change in his four seasons here. "I guess I've learned to deal with different people more than anything else," says the big senior. "Along with learning the offense, which was challenging enough. I had to play for different line coaches in my first two seasons."

Then, when I finally mastered the offense and the different coaches, I had only last season in that system. Coach (Gerry) Faust came in and it was like starting all over again." Also, Pozderac has made the change from playing behind all-American Tim Foley his first two seasons here to starting the past two seasons. This season's early problems seem to baffle Pozderac just as they do the rest of the team. As he puts it, "After the third game (Michigan State), I thought that we finally had things together, but we didn't. I think the complexities of the offense that are just starting to be understood is a big part of the problem, but other than that, I can't seem to put my finger on it!"

Pozderac also expressed his feeling that Coach Faust is putting a lot of unnecessary pressure on himself because he wants to do well. "I'm trying to do too many things at one time," Pozderac says, "but he says he needs to understand college football more and more, his mistakes will become fewer and fewer."

"It's so hard to say anything bad about him, he's such a nice guy." As far as the USC game is concerned, Pozderac says not to count the Irish out just yet. The rivalry itself will make it close, according to Phil, who also says, "We have the personnel to beat them, but we'll have to play ball-control offense, keeping our defense off the field, to be successful."

The future could bring many different things for Phil Pozderac, but right now it looks like pro football is a strong possibility. "The pros like my size, and I'd like to play professionals," he says. "One of my weaknesses is the fact that scouts think I'm not aggressive enough, but that doesn't worry me much, because I'll get stronger."

Before the pros can have Pozderac, he has to finish his career here first. Notre Dame fans will see next weekend how his predictions for USC are. But for now they hope that Phil and Notre Dame can get it together and play as well as it is able to.

NL Championship moves to Montreal

Montreal (AP) — A remarkable pitching performance by Ray Burris may have removed the underdog label from the Montreal Expos as they return home for tonight's third game of the National League Championship Series against the Los Angeles Dodgers.

In fact, the Expos might be favored over the veteran laden Dodgers going into Friday night's contest in Olympic Stadium.

The best-of-five series stands tied at one game apiece with the future action in Montreal, where the cool weather might work to the advantage of the Expos. They boast the league's best home record of 38-18 this season.

Manager Jim Fanning, more than pleased with the 5-0 victory that the 31-year-old Burris posted in Game Two Wednesday night, said, "If we had left Los Angeles any worse than 3-1, one back, we would be fully guilty of the wall."

Now, he has ace Steve Rogers to pitch against Jerry Reuss of the Dodgers in the third game, scheduled to start at 8:20 p.m. EDT.

Rogers beat the Philadelphia Phillies twice in the NL East Division championships, while the left-handed Reuss won the final game of the West playoffs against Houston to put the Dodgers into this league title set.

Rookie left fielder Tim Raines, who hit safely three times in Wednesday night's game, commented, "I've seen Reuss just once and I think I had three hits off him."

"I don't think cold weather would have any effect on us. We've been playing there all year. I think we've got an advantage because we've been playing in Montreal."

Raines, who hit .304 during the season's restricted regular season with 71 stolen bases, was activated for the Championship Series while recovering from a broken hand.

Manager Tommy Lasorda of the Dodgers didn't think any weather conditions would affect his club. "We've been able to generate any offense in that second game and I've never seen Burris pitch that well."

Nobody could remember when the veteran right-hander had last had a one-hitting shutout. Searching the record books, it was determined he last did it with the Chicago Cubs against Houston on May 3, 1977.

Losing pitcher Fernando Valenzuela, in his rookie season, had led the National League with eight shutouts but he commented, "Nobody can win them all."

Finances...Army ROTC can help put yours in better shape. With assistance of nearly $2500 during your next two years of college, opportunities for scholarships paying full tuition and more, and options for additional part-time earnings of about $1000 per year.

General manager

Green says 'yes' to Cub post

CHICAGO (AP) — Dallas Green, who managed the Philadelphia Phillies to their first world cham-
ponship in 1980 officiated became general manager and executive vice-

The Observer — Sports
Friday, October 16, 1981 — page 9

ience president of the Chicago Cubs.

Green, who had been groomed for the same position with the
Phillies, was introduced by Andrew J. McKenna, chairman and chief exec-

utive officer of the Cubs since

they were purchased by Tribune Co.

from William Wrigley last summer.

"Green's background is consistent with the criteria established for the
job in the assuming," said McKenna.

"It was considered important that

the candidate have a background in

player development and come from a

winning organization. Green will have

complete authority in the operation of the club.

Terms of Green's contract or its

length were not revealed, but it was

believed to be long term and

largely.

Green, 47, originally turned down

the Cub offer but said things have

been very positive.

"I'm no Messiah but I guarantee

nobody's going to outwork us," said Green. "It's intriguing and exciting.

If I'd think I could do it, I'd do it, but I couldn't do it here today.

Green, who was in the Phillies organization for 27 years, said there were similarities between

the A's today and the Phillies of

1972 who finished 53 games behind the

Red Sox.

"This is a big moment in my life.

and, hopefully, a big moment in Cub

history," said Green, who felt his op-

tions open as to hiring a field manager. He's been the A's hitting coach and will

get the job currently held by Joey

Amalfitano.

"I want to talk to Joey face to face

first and then I'll make my decision," said Green, who expects to meet with Amalfitano early next week.

Green said it was a very difficult

decision for him to leave the Phillies, who are run by General Manager

Paul Owens and have been putting up

for sale by owner Rudy Carpenter."

"I have sincere appreciation for

what Rudy has done for me and my

family," said Green. "And Paul and

Paul and I grew up together. I had to

close my era with the Phillips and go on with the Cubs.

Green fielded questions about free

agents, lights in Wrigley Field, possible trades and bringing home

run hitters to the cozy ballpark.

"The free-agent era is here and

you have to live with it," said Green.

Green "I'm not ruling out free agents but

the money is available. That you can't win playing all day games is an

interesting theory. Lights are not a

free priority right now, offside things are important. I have a strong

theory that if you are in decent-

shape you can handle July and

August playing day games.

"Bill Buckner is not going anywhere if I can help it. Everyone

loves home runs but you still have to

play the game. We want athletes who can do a lot of things and not

wait for home runs, or a situation

where if there are no home runs you lose ball games.

...Yanks

**Fall baseball**

**Irish impress with 9-3 slate**

By TIM LARKIN

Sports Writer

One would think a 9-3 record would have more teams truly excited about their performance. Notre Dame's baseball team passed that mark as its fall exhibition season, but the players aren't reaching with joy, as they look forward to a winter's preparation for the spring season.

"On the last day I found that the players weren't satisfied with the season," says Coach Larry Gallo. "The kids expect to win now and they realize that they still have things to work on. But with a 9-3 record, I have to be happy."

Gallo is certainly satisfied after accomplishing what he wanted to do this fall. He gave the freshmen some playing time so they wouldn't be foreign to it next spring, and tried a lot of players at different positions so he knows what he's got to work with in the spring season.

Also, Gallo's veteran players were able to work on their hitting in these exhibition games, hence Valenzuela, who will supply power to the offense, had an exhibition who will supply power to the offense, had an exhibition.

Exhibition
day with

Notre Dame first baseman Henry Valenzuela

...and one-for-three pointments this fall, Dave Clark, who went one-for-three and 14-16. The team now has a 6-6 record so far this season.

TRW, an everyday reality.

TRW, an everyday reality.

"I'm confident that we're going to hit," says Gallo. "but I try to stress to the players that defense and pitching will win ball games."

With the loss of Jim Montagano, Notre Dame's offense will be less explosive, so this fall Gallo displayed his own brand of Oakland's patented "Billy Ball." In a game when the Irish fell behind 5-0 in the first inning, Gallo still had his players smiling. He told them that unless their opponent can stop them, they're not going to divert from his gamerplan.

Gallo is filling the hole behind the plate created by the loss of Montagano with three players Phil Dingge (.300 average) and Tim Ambrey (.200 average), plus his mainstays, plus he has freshman Dave Clark, who went one-for-three at the plate. "I feel confident at that position and I think we're stronger defensively," says Gallo.

Another freshman Gallo is pleased with is Henry Lange. Lange can play both infield and outfield, and although he only had a couple of hits in eight at-bats, he, too, drew praise from his coach. "He's come along quite well," Gallo says, and "I know he'll make a valuable contribution to our team."

Playing the roles of Gallo's top starters will be Steve Whitmer and Bill Mars. Whitmer had a 2-1 record this fall with a deceiving 7.20 ERA in his game against Xavier. He gave up six runs in three innings in 5-3 loss, and the fall, the Irish pitching staff was freshman Bob "Buster" Lopes, who had a 1-0 record with a sparkling 1.12 ERA in eight innings pitched.

"He (Lopes) is really going to help us," says Gallo. "One thing that impresses me and the players is that he's mature and has composure, and he's only 17 years old."

"I didn't have any major disappointments this fall," Gallo continues, "just minor ones that if we don't fix them in the fall, they would become enormous in the spring. We had some mental lapses, but I'm not too concerned since it's a common thing when you only play on weekends."

If mental mistakes were the only problems Gallo had this fall, he must be very satisfied with his team. He'll be even more content if his team can continue these good fortunes into the 1982 spring season.

**The challenge... for those who dare... is at TRW**

Challenge! For some, it's a once-in-a-lifetime experience. For others, like the professionals at TRW, it's an everyday reality. These knowledge-intensive men and women operate as a team to reach the highest levels of technical excellence. They recognize the value of the individual to the group effort in reaching the top in a variety of technical disciplines — from large data base software systems, communications spacecraft, and alternative energy sources to scientific satellites, high energy lasers, and microelectronics.

So, if you're a rugged individualist with a strong desire to pit your skills against complex technical problems, look into TRW. We'll give you the experience you need to become an engineering professional of the highest caliber.

Now that you've mastered the basics and conquered one mountain, we invite you to scale ours.

TRW will be on campus October 26 to interview graduates in Engineering and Scientific disciplines at all degree levels. Contact the placement office to schedule your appointment, or write to:

**Bethel defeats St. Mary's**

BY MARY SIEGER

Sports Writer

Last night in the Angela Athletic Facility, the Saint Mary's volleyball team was defeated by Bethel College by scores of 15, 9-15, 15-13, 15-14 and 14-16. The team now has a 6-6 record so far this season.

One of the reasons for last night's disappointing performance was in consistency. "We hit the ball out of bounds 17 times while our opponent had the serve," comments Head Coach Ers Murphy. This means that the team gave the Pilots 17 points simply by hitting it out of bounds.

Despite the team's loss, junior Heidi Krumdieck had her best game of the season while teammate Lorey Haney had her best defensive game ever. "This weekend the team travels to Illinois Benedictine College for a tournament. "We need to work on our hitting and on our defensive positioning before the tournament," Murphy says.

Murphy is still optimistic about the rest of the season. "Our standings in the conference are still good," she says, "and that's the most important thing."

Both Murphy and the team are looking forward to this weekend's tournament because she hopes that it will pull the team out of its losing streak. "This is the finest team we've ever had," says Murphy. "The players begin believing that, then the sooner we will be on a winning track," adds Murphy.

**Today in History**

Today's highlight in history

In 1756, British forces under Robert Clive marched against the Nawab of Bengal, India.

In 1793, Marie Antoinette of France was beheaded.

In 1941, the Germans captured Odessa in the Soviet Union in World War II.

And in 1907, Anwar Sadat became president of Egypt, succeeding the late Gamal Abdel Nasser.
