Israel rejects new Arab Mid-East peace plan

(AP) - Israel rejected the new all-Arab plan for a Middle East settlement yesterday and sent its warplanes against Syrian anti-aircraft missiles in Lebanon for the second straight day. Repairs to bases destroyed.

Lebanese radio said Israeli jets also struck Syrian armor positions in Lebanon, further heightening the threat of a showdown between the tens of thousands of Israeli and Syrian troops remaining in that war-battered land.

Sources at the Arab summit conference in Fez, Morocco, said the Arab leaders approved Syrian President Hafiz Assad's request to cancel the six-year-old Arab League mandate for an Arab peacekeeping force in Lebanon, enabling him to withdraw the troops. But Israel questioned Assad's sincerity.

"I think this (Syrian readiness to leave Lebanon) is lip service and there is no reality in it," Chief of Staff Lt. Gen. Raphael Eytan told Israeli army radio.

In related developments yesterday:

* Secretary of State George P. Shultz, testifying before the House Foreign Affairs Committee, called for congressional support of President Reagan's plan, on the other hand, refused to deal with the PLO since the creation of the Palestine Liberation Organization (PLO) and said he believes there is a "reasonable " chance that the plan's key goals can be achieved.

* The 800 U.S. Marines who helped supervise the withdrawal of Palestinian Liberation Organization guerrillas from West Beirut loaded vehicles and caught landing craft in preparation for their scheduled departure today from Lebanon.

* Lebanese army forces trying to reassert government control over West Beirut moved into the Palestinian refugee camp Bourj el-Barajneh, heavily bombarded during Israel's June-August siege. Israeli forces continued to hold their positions in Beirut, however, even though the U.S.-negotiated agreement that ended the siege called for their pullback.

The five-day summit, concluding late yesterday, produced the first collective Arab proposals for peace with Israel.

It rejected the all-Arab Peace Initiative for peace with Israel.

The plan contained elements long rejected by the Israelis: the creation of an independent, PLO-governed Palestinian state in the Israeli-occupied West Bank of the Jordan River and Gaza Strip, and incorporating the Arab-populated sector of Jerusalem in that state.

The proposals were outlined by summit sources, do not explicitly refer recognition of Israel.

In Israel, Prime Minister Menachem Begin's spokesman, Uri Porat, dismissed the summit, saying it was no different from previous such meetings "and there is no reason to pay attention to it."

Begin has offered limited autonomy to 1.5 million Palestinian Arabs of the West Bank and Gaza, under ultimate Israeli sovereignty over the territories, refuses to deal with the PLO, and says all of Jerusalem will forever be Jewish.

Reagan's plan, on the other hand, calls for full autonomy for the territories in some kind of association with Jordan, and leaves the Jerusalem issue open to later negotiation.

New Senior Bar building opens tonight

BY RYAN VER BERKMOES

Senior Bar General Manager Kevin Woods has a hard time containing his enthusiasm for the new building. "This is the best thing that could happen to a senior class," says Woods.

The new structure stands just north of the previous building's location. Carrotly about the new building is expected to produce a large crowd of patrons.

The planning and construction of the new building brought members of the administration together with several students. Dean of Students James Roemer said the primary reasons for building a new bar were to build a structure that was "classy," and to provide a facility that did not pose the safety hazards of the old building. The structure that formerly housed the bar had at one time been a house and had undergone numerous modifications through the years.

The Senior/Alumni Club, the formal name of Senior Bar, renting the Senior Bar building from the University of Notre Dame for $5,000 a year. Each year members of the coming senior class are given the opportunity to apply for managerial positions. The students chosen then operate the bar as a business with the goal of meeting the University's rent.

When the decision was made to build the new bar, Roemer met with protest when he proposed that the student managers be supplemented by a full-time professional manager. However, in Roemer's words, "the Senior Class and the current managers impressed me enough to try student management for another year." Current Manager Woods does not feel this will pressure him or his staff in any way. According to Woods, "the cooperation between all the parties involved has been fantastic."

The majority of design work for the new building was done by local carpenter Bill McCluen. For the past four weeks, McCluen has put in 16-hour days, yet he still remains enthusiastic about the project. "This bar is going to do a good job for the University. I'm also extremely proud of the student bartenders, they've made the difference."

Most of the interior finishing was done by local carpenter Bill McCluen. For the past four weeks, McCluen has put in 16-hour days, yet he still remains enthusiastic about the project. "This bar is going to do a good job for the University. I'm also extremely proud of the student bartenders, they've made the difference."

"This bar is going to do a good job for the University. I'm also extremely proud of the student bartenders, they've made the difference."

Also in this room is a large seating area and a number of table-top video games. To the right of the entrance is another bar with a second dance area and a large conversation pit.

Most of the interior finishing was done by local carpenter Bill McCluen. For the past four weeks, McCluen has put in 16-hour days, yet he still remains enthusiastic about the project. "This bar is going to do a good job for the University. I'm also extremely proud of the student bartenders, they've made the difference."

Most of the thirty student bartenders on the bar staff returned to school seven to ten days early. Since then all have worked without pay, in- stalling soda, fences, wiring, interior decoration, and performing numerous other jobs. Woods is obviously proud when he says, "We've all missed classes, this is the best

Whitman College in Walla Walla, Wash., has come to the aid of a prestigious journal that became too expensive for the University of Washington. The small college has agreed to underwrite the cost of the Philosophy and Literature Journal, which features philosophical interpretations of literature. U.M. Deborn spent $80,000 last year to print about 1,000 copies of the journal, which is published twice a year, but university officials decided it had to be dropped. The college's founder and editor, Dr. Difon, an associate professor of humanities at U.M. Deborn, then found new funding at Whitman College. The journal will be printed and distributed by Johns Hopkins University in Baltimore. — AP

Some Michigan legislators say it is time to switch from “recession” to “depression” when talking about the economy. The lawmakers, who say high unemployment and inflation uncertainty defy textbook definitions of a recession, are backing a resolution “calling on other states to stop using the term ‘recession’ and begin using the term ‘depression.’” This “misnomer” (recession) has been damaging since the 1975 recession, and has served to gloss over the true impact on the American people. — The resolution states. “For us to continue to ignore the facts of inflation, unemployment, and American people.” The measure was introduced Wednesday by Rep. Rick Sitz, D-Taylor, and 12 co-sponsors. It is to be House the Policy Committee. — AP

Fire broke out in a downtown apartment building in Hagenstown, Md. early yesterday, killing two people and injuring two others, one of them critically, officials said. Deputy Fire Chief Mills said the cause of the fire was under investigation. The blaze broke out at 5:55 a.m. in an apartment building adjacent to a tavern and was controlled about 45 minutes later, Mills said. — AP

Sixteen people were killed and six injured in Budapest, Hungary, when an international express train crashed into a bus in the western town of Stekelyeser, the Hungarian news agency MTI reported yesterday. The dead included eight children, the reports said. — The last Chinese government reported Thursday. The feat was seen as a demonstration of a military potential to launch multiple warheads.

The Observer

The feat was seen as a demonstration of a military potential to launch multiple warheads. China's 12th satellite in as many years orbited and is in fine performance," Xinhua said in a brief report that was published twice a year, but university officials decided it had to be dropped. The college's founder and editor, Dr. Difon, an associate professor of humanities at U.M. Deborn, then found new funding at Whitman College. The journal will be printed and distributed by Johns Hopkins University in Baltimore. — AP

The idea on the surface seemed great: two relatively small, private universities located less than a mile apart from each other in a setting where students from either campus were free to interact with students from the other campus not only socially, but spiritually and even academically. It seemed like a perfect way to make life at Notre Dame easier and more enjoyable. But somewhere along the line, someone's view of the whole concept was changed. It happened slowly at first, I'm sure. Perhaps a numbness set in about the lifestyle of those SMG chicks or another crack about "those hit dormer girls" or another. Whatever it was, it was the start of something that has really changed my views on the actual feelings between the two schools.

What I thought we were doing was bringing people, people from both campuses in contact with each other in a way that has never been done before. Along with those different than them has, in reality, turned into a major problem. What probably began as a light-hearted comment between the two students has become an ugly battle. The harmless situation has grown, and the two schools has changed to resemble a school against the other. The prejudice occurs on both campuses and, unfortunately, in a much greater extent than I had originally thought. I've seen Notre Dame girls actually walk out of a room when a Saint Mary's girl walked in and I've seen Saint Mary's girls openly and cruelly assault a Notre Dame girl in front of her date and many of her friends. But it's not the exaggerated expressions of contempt that are the real problem. It's the overall attitude of the students toward each other that is ruining the relationship between the schools. And with the co-op program, the food services are doing their part to encourage interaction between the schools.

I would like to think that the ill feelings felt from either side of U.S. 31 were programmed into the students when they got here and are now the true feelings of those in this community. Perhaps everyone should take a good look at themselves and at those around them and try to discover their true feelings, free from the influence of prejudice and the temptation to keep the rivalry going. Then maybe, just maybe, we can all start to act like we are really in the same school system. The administrations of the two schools have, in their own way, taken steps toward better interaction across the campuses. Saint Mary's students are allowed to double-major at Notre Dame, provided they already have a major at Saint Mary's and their second major is not offered on the Saint Mary's campus. In addition, N T Oute Dame students are given the chance to receive teacher certification through classes at Saint Mary's. Surely this would be advantageous to students seeking jobs in education, nursing, medical technology, or social work.

Trips, dances

Hofman plans freshman events

By VIC SCHELL Assistant News Editor

Who ever said that a bored freshman should have to spend all of his or her extra time alone or drinking with friends? Certainly not Dr. Emil T. Hofman, Dean of the Freshman Year of Studies. And to make sure, everyone man should have to spend all of his life. These various activities are planned to give freshmen another option — one that is fun but not intimidating.

A shopping tour of South Bend was held last Saturday. The four hour adventure included visits to the various malls and provided an opportunity for shopping at several stores.

Tomorrow evening, the Freshman Year of Studies will present the first of this semester’s “Freshman’s Other Choice.” These performances, to be held in the Luttrell Room, will include a student variety show followed by a dance.

This week’s variety show will feature talent from upperclassmen, including a Gee Club concert in miniature and several acts from last January’s Keanu Revue. Following those, a variety show will spotlight freshman talent.

A square dance will follow the variety show. A variety show and several other members of the physical education department will be present to encourage participation as well as to give instructions. Refreshments will be served. Although there will be no charge for any of the performances, tickets must be obtained in advance at the Freshman Year of Studies office. On any 200 tickets will be made available.

The following morning, buses will depart from the Stepan Center for a picnic on the Lake Michigan Dunes. All 200 tickets for the event have been sold.

Three freshman dates nights have also been planned for this semester. The #8 per couple fee will include transportation from campus to the 100 Center, buffet dinner at the Ice House, a movie, and return transportation. The only stipulation is that both members of the couple must be freshmen.

Other events include a parents’ open house in Stepan Center the morning of the Notre Dame-Miami game, football video parties for the Pitt and Air Force games and a trip to Chicago the day after Thanksgiving.

Hofman believes that the most painful thing a young person can experience is the feeling of loneliness. Inexperience at meeting people and in a new situation like college, Hofman fears that some freshmen may never get over being president of their senior class.”

Henry Ford II
to retire

October 1

Former Ford Motor Co. Chairman Henry Ford II will retire Oct. 1 as an employee and officer of the automaker which carries his name, but will remain on the board of directors and serve as a consultant.

He took over as chief executive of the company in 1945 upon the retirement of his grandfather, company founder Henry Ford.

Gunmen captured
Police rescue embassy hostages

BERN, Switzerland (AP) — Red­
helmeted anti-terror police
stormed the Polish Embassy yester­
day, rescuing five hostages and
capturing four gunmen in a blood­
less assault that lasted only 12
minutes.

"I'm overjoyed to be freed. Al­
though I was very tired, none of us
came to any harm," embassy press
attache Stefan Poworaw told The As­
nociator later after the lightning
rescue.

About 20 policemen wearing gas
masks and bullet-proof vests
stormed the two-story building after
blowing in the front door with a
remote-controlled stun bomb they
hid in a food container to fool the
gunmen, who seized the embassy
and 13 hostages Monday.

Eight captives were released
Tuesday and Wednesday through
negotiations, but the gun­men
threatened to blow up the embassy
and kill the others today unless they
paid $11.5 million, safe passage to
either China or Albania and an end
to martial law in Poland.

Justice Minister Kurt Fugler said
afterward that the Swiss govern­
ment would "never accept black­
mail." The government decided to
send in the police because "negotiations served no further
purpose," he said.

The swift conclusion to the siege
was hailed as "a total success" by
Swiss officials, who conducted vir­
ually uninterrupted telephone
negotiations with the gunmen, clad
in dark green camouflage fatigues
and armed with submachine guns.

They were led by a 42-year-old
former convict, Florian Kruzyk, the
self-styled "Colonel Wysoki," who
claimed to lead the "Polish Insur­
gent Home Army" after having
worked for the Polish intelligence­
gathering service. He was described
by Swiss officials as a "master of
patriot and criminal."

They said Kruzyk served most of
a nine-year prison term for a jew­

Fugler — who headed the federal
emergency management team and
jumped in the negotiations with Kruzyk's
hand — said the precision raid was
almost stopped by the attempted
suicide of one of the hostages, Col.
Zygmunt Dobroszewski, the emba­
ny's military attache.

"Neither the police nor the gun­
men used their weapons in the 12­
minute raid, which began at 10:02 a.m. (6:02 am. EDT.) The Swiss police chief, Marco Alu­lento, said.

This was the first time since live.
Swiss television, the lightning swoop
clearly took the embassy's occupiers
by surprise.

A youthful-looking man dressed
in a delivery suit deposited at the em­
bassy's front porch an aluminum
case that usually contained food for
those inside. This time it held a stun
bomb, which was detonated by remote
control by authorities in a car
nearby.

The glass-shattering blast
knocked down the door and the
police swept in.

Fugler said there were about 10
other blots of the police set of flash
and smoke bombs to confuse the
gunmen or detonated charges to
force them out.

Two of the terrorists were seized
in the ball near the front door, about
ready to pick up the container on
the porch. The other two believed guarding the hostages in an
adjacent room.

Private rocket flawlessly
launched

MATAGORDA ISLAND, Texas (AP) — The first rocket ever
launched by U.S. private enterprise blasted off flawlessly from the coas­
tial island yesterday and flew a sen­
and a half minutes before a suborbital
mission before splashing down in
the Gulf of Mexico.

"Everything looked perfect. It
went right down on the pipe," said
mission director Donald R. Rayson,
a retired astronaut.

Cosenstoa, 1, a gleaming white,
37-foot-tall rocket, climbed to an al­
itude of 192 miles. arched over the
Gulf and separated from a dummy
payload that spewed 400 pounds of
water into space. The payload and
rocket splashed down 321 miles from
the launch pad.

The launch by Space Services Inc.
of America was a "victory for private
enterprise," said company founder
and board chairman Daniel Hannah, a
Houston businessman.

"This showed that a group of
private investors can get together
and launch a rocket in a responsible
way and well within a commercially
feasible limit," said Hannah.

Hannah said a dozen oil com­
panies have expressed interest in
using RS to place satellites in orbit
to monitor oil wells in remote sites
and to search for minerals and oil
deposits.

Cosenstoa I was built around a
solid-fuel rocket motor from a
Russian Minuteman missile. RS
bought the motor from the govern­
ment for $650,000 and hired a con­
tactor, Space Vectors Inc., to build
the spacecraft.

Next on RS's agenda is launching
a satellite and raising $15 million to
$20 million to develop Cosenstoa
II. The company has yet to obtain
a launch site but is negotiating for a
location in Hawaii, he said.
Dining hall makes changes

By SANDY VALENZUELA
Staff Reporter

Various changes in the dining hall have already been made by Robert Luedtke, the new director of SAGA Food Services at Saint Mary's. These range from relocation of the deli line to a new salad bar system.

Luedtke has been with SAGA for six years working at various colleges. "Part of my job, as I see it," he says, "is to try to generate alternatives to the normal board programs that are financially feasible." He believes that by first establishing a repeating menu cycle, he can later offer variations from the regular schedule.

One change Luedtke has made so far is in the location of the deli line, moving it to the north side of the hall at lunchtime. Both hot plate lines are now on the south side. This, according to Luedtke, was done in order to alleviate traffic from the south side, from where most students enter. The students must still, however, check in at the appropriate side before getting their trays.

Meg Bowman of LeMans has encountered no problems with the rearranged dinner lines. "I think that at lunch time having it (the deli) on the other side is a good idea," she says.

But others disagreed. Kathie Welsh of McCandless resident, said, "I wish they'd put the deli line back where it used to be."

Kasey Welch of McCandless said, "It creates a lot of congestion, I wish they'd put it where the LeMans hot plate line is now. That way we'd have the hot plate lines on both sides."

Some other changes made include moving the Pepsi and ice machines out of the lines and into self-serve areas lands away from the traffic. The condiments have also been moved out of the traffic area.

"To make things self-serve allows more flexibility and usually shortens the time from getting your silverware to getting your meal," says Luedtke as an explanation for rearranging the dining hall.

At first the new arrangement of the salad bar caused confusion by leading students into the wrong tray lines. With only two salad aisles, the lines became congested during rush hour.

Luedtke believes the present salad bar system will avoid any more such confusion and allow the students to serve themselves more quickly.

Now, the salad bars have been rearranged to allow four aisles of traffic and have been moved away from the tray deposit.

The additional round tables holding lettuce and toppings allow extra space at the bar. In order to offer "another alternate dining solution to the individual salad, bulk service of yogurt and cottage cheese is now available at the salad bar," Luedtke says.

He explains that he was up for a transfer. He and his family chose not to leave the South Bend area. When an opportunity arose at Notre Dame, he applied and was hired as manager.

Luedtke plans to play a part in dining hall changes. An example, he notes, was the combined effort of the North and South Dining Halls in the purchase at Stepan Center.

Luedtke. One idea of his is for a nacho machine at the deli line. Other options include a mixed fruit bowl at the entrances and a bagel and cream cheese extravaganza.

Luedtke believes one was he can make residence life more fun is to bring in variety and specials. "Planned "monopoly breakers" for this year include peanut butter and potato extravaganzas as well as a spaghetti excursion. Special meals are planned for holidays."

This year the snack bar will be moved to the second floor of the old library. According to Luedtke, it may even expand to offer pizza delivery on campus.

Once the snack bar is moved, Luedtke plans on utilizing the available space by perhaps installing a wide-screen television or using it for the deli and salad bar.

Charles Flaim, former director of Saint Mary's Food Service, is now manager of Notre Dame’s South Dining Hall. Flaim left SAGA after 20 years of service, eight of which were at Saint Mary's.

He explains that he was up for a transfer. He and his family chose not to leave the South Bend area. When an opportunity arose at Notre Dame, he applied and was hired as manager.

Flaim plans to play a part in dining hall changes. An example, he notes, was the combined effort of the North and South Dining Halls in the purchase at Stepan Center.

House overrides Reagan’s veto of ‘budget-buster’

The Democratic controlled House dealt President Reagan on Thursday his first major reversal on a spending measure by overruling, 301-117, his veto of a $14.2 billion bill he called a "budget-buster." The margin was 22 votes more than the two thirds needed to overturn the veto. That sent the bill to the Republican-dominated Senate. It was only the second time in nearly two years the House has voted to reverse one of Reagan's vetoes, and the first such action on a major budget bill. The vote came as the president was flying from Topeka, Kan., to Utah just moments before the tally, House Speaker Thomas P. O'Neill, D-Mass., appealed to Republicans who originally supported the bill to "stay with your conscience." "Let's get America moving again and let's not leave these elderly, the handicapped and the disadvantaged behind," said O'Neill. Earlier, Reagan had fought to make the veto stick by offering a last-minute concession to keep alive a politically popular program providing jobs for 54,000 senior citizens -AP

Drean crew you could ever control, although Roemer said there have not been problems in the past. He also stated that frequent inspections by state, county and city officials have never found any drinking ordinance violations.

But Roemer is not taking any chances with the new building's liquor license. He recently announced stiff fines for people found violating University drinking regulations. People found in the bar that are under age, or those caught helping underage people enter, are subject to a $100 fine.

There will be one night when students who are not yet 21 will be able to use the bar facilities. On Sundays, all members of the student body will be able to enter the bar and purchase non-alcoholic beverages. Roemer says that "this will all younger students to eat pizza at a sing." Woods credits University "resident Father Theodore Hesburgh with this idea."

Woods hopes to have kitchen equipment installed by late September. This will allow the bar to serve a number of snacks and hors d'oeuvres. At that time Woods hopes to begin serving lunch each day. Most seniors are anxious to see what the new building has to offer. Saint Mary's Senior Class President Beth Busker feels that "even though it's not just a bar for seniors, I'm glad the alums and administration have provided something for everyone."

Tonight the Notre Dame Senior Class, in conjunction with the Student Union, are sponsoring the band Chart. "This is a good dance band from Chicago with a lot of bar experience," said Student Union Social Commissioner Dave Drosslard. He also plans to have an Irish band in the bar after the Michigan game.

Regular Senior Bar patrons will find the prices of drinks mostly unchanged. A total of 52 taps will dispense beer to patrons.

continued from page 1

Reilly said that when he contacted the Exchange, he discovered that all of the posts and been given out, but that one of the institutions was unable to raise the money for renovation. After several months of negotiation, they agreed to give their post to Notre Dame.

The money for the installation of the post was donated by Notre Dame alumni Thomas A. Coleman '56. Coleman is a graduate of the College of Business Administration and a partner in Adler Coleman & Co., a specialist firm on the Exchange.

He is also a member of the College of Business Advisory Council. Reilly declined to reveal the amount of the donation.

Explaining how the posts were used, Reilly said that three or four specialists at a post might handle about 15 kinds of stock each.

The style of post that Notre Dame now owns was introduced on the floor of the Exchange in 1929, Reilly stated. Later they began adding electronic parts to cope with the rapidly increasing trade volume. But by 1981, the attempts to renovate the old posts became inadequate, and they decided to bring in new electronic posts with video screens, Reilly continued.

The library was chosen as the site for the post for various reasons. "There is really no obvious place in the College of Business to put it," Reilly said. "The Hurley building was somewhat of a possibility, but there it would have had to be pushed into a corner, and I didn't think it was an appropriate setting.

"The library did have the space, and since it is for educational purposes, we wanted as many people as possible to see and benefit from it," he commented.

The dedication of the gift will be on Sept. 24, in connection with the Advisory Council meeting.

Chuck White, along with John J. Petran, Jr., president of the New York Stock Exchange, will be present.

There will be a related exhibit in the library during the week of the dedication.
The New Senior Bar

When these photos were taken, workers were busy preparing Senior Bar for tonight's opening. Once the sawdust and tools are removed, the interior should be ready for the thirsty masses.
Domino's Pizza Delivers.
A large “thank you” is in order for the stu-
dents who momentarily sacrifice their
garments in service of the Galveston.
Wednesday in a valiant attempt to bolster
the coffers of the World Hunger Coalition (WHC) World Hun-
ger, especially in the Third World, or the
era. The emerging nations embolden the
senses of which many of us more fortunate
can partake. The money given to the hunger
drives will be well received.

Gregory Swierz

Speaking Out

Yet the very thought that the noble efforts
of the WHC are being undermined by nation-
al and international politics is cause for
merriment and hopefulness to the point of
regurgitation. There is a paradox that exists
in the Third World nations, or the
nations most recently emerging from
the Third World. It is that of the lay
Apostolate, and many other organizations
devoting attention and knowledge not otherwise
available to all members of the community, and
are the work of the rest of the world as
underprivileged. The WHC is a member of the
Community for International Lay Apostolate, and many other
organizations make it their mission to offer their
services to other emerging countries, bringing much-needed knowledge and
resources that have so far been received by these nations. These efforts are
eatingly real. There is a real society that技
"thank you" expected by these peoples.

Yet there is a double standard when the
words "Third World" are spoken. For the
WHC and the others, this emphasis of
efforts serves the purpose of
attracting aid of whatever kind.
Cannot all of us understand the
American leaders who face record
unemployment in the
United States
and Canada would
be virtually nonexistent.
The WHC is a member of the
Community for International
Lay Apostolate, and many other
organizations make it their mission to offer their
services to other emerging countries, bringing much-needed
knowledge and resources that have so far been
received by these nations. These efforts are
eatingly real. There is a real society that
"thank you" expected by these peoples.

Yet there is a double standard when the
words "Third World" are spoken. For the
WHC and the others, this emphasis of
attracting aid of whatever kind.

"impressionable"
Mr. Snyder complains about the
"success" of trade to the emerging nations.

Saturday, October 10, 1982 — page 9

P.O. Box Q Feminist movement flawed

Dear Editor:
The changing role of women in modern
Western society has caused a great many
problems, not to mention a good deal of
skepticism to both men and women. These
problems are compounded by the
spe-\cious reasoning and shamelessness of several
people like Robert Snyder, who, in his
letter, "Second Thoughts," says that Notre
Dame men are searching for housewives. What
I find so interesting is the way the governments are
done by those who welcome the women's
liberation movement to portray the detects of
anything they want. It is a phenomenon which
these problems will disappear in the
country when women are able to
the engineer and Mary the corporate
executive can settle down and live happily
ever after; yet instead of varying opinions on
the abandonment of morality are
problems which strike the heart of society,
so that I cannot help but believe that if the
changing role of women has not caused these
problems, then they are, in all likelihood,
symptoms of the same disease.

Would it be too much to ask to
consider the possibility that the
philosophy behind the feminist movement
is inherently flawed and dangerous to the
well-being of both men and women?
Mr. Snyder complains about the
"medieval" notion prevalent at Notre
Dame that women are not equally
people. For starters, there was never any
problem with the existence of women in
Western Europe. Secondly, to condemn
and label feminism as \"medieval\" is
hurtful, considering how it was
thought on a Thursday.

Despite the housewives the feminist
criticism is essential to the maintenance of
credit on all levels.
In the future, we must help Notre
Dame not only to look at itself but also to help it to
turn outward. This is being done to a limited
extent by many of the community services
organizations on campus, but there is no
comprehensive plan for university involve-
ment in the South Bend community and the
world as a whole. In fact, the university has
done its best to minimize the contact between
itself and the surrounding areas. South Bend
could confidently profit from the input and
intelligence of Notre Dame, and Notre Dame has
a responsibility to do this as a Christian institu-
tion and a geographic neighbor.

Notre Dame is a fine place, and one
that I am proud to be a part of. The special
attachment that I feel toward the university makes me
want to see it live up to its fullest potential.
My criticisms of its actions and policies come
from my deep-seated desire to see Notre
Dame function as it should.

As a university Notre Dame is made up of
many people. If it is to become a leader in the
best possible way, then it must seek the
input on all of its Priorities and Commit-
mmittees.

To those who fast on Wednesdays: Keep up
the dedicated effort. The lives you save will
be worth it.

Chautauqua movement spreads to Notre Dame

Because they were discouraged (just as we Donors have a tendency to be) with the various types of entertainment available to them, several innovative western New Yorkers gathered at Lake Chautauqua in 1874 to explore new outlets for social interaction. This meeting proved to be successful, as it resulted in a number of new entertainment opportunities known as the Chautauqua movement.

Carol Camp

features

The primary goal of the founders of the Chautauqua movement was to provide a popular system of education through lectures, concerts, and various other forms of entertainment. As the movement's popularity increased, several hundred communities sponsored Chautauqua for the coming year.

Although the movement no longer enjoys the widespread recognition it formerly possessed, a small Chautauqua society still flourishes in New York state. More importantly, however, is the renaissance which Notre Dame's own Chautauqua (the Chautauqua coffeehouse which is sponsored by the Student Union) will be experiencing during the current year.

In the past, the Chautauqua concept has been subject to widespread negative reactions among many members of the Notre Dame student body. While the vast majority of students will not hesitate to admit that there are definite problems associated with the lack of desirable social life on campus, they nevertheless recognize its importance as a viable alternative. According to director Andy Abrams, much of the problem stems from the fact that Chautauqua has not yet been recognized as an important cultural center.

Another difficulty which Chautauqua's management faces is the restriction of number of restrictions imposed upon the coffeehouse by the local fire marshal. Required improvements in wiring and in lighting were two things that "made the project expensive." Even though improvements have been made, and new equipment (including a completely new sound system) has been acquired, Chautauqua now has a more difficult challenge to overcome: that of image. Because of the coffeehouse's non-alcoholic policy, the entertainment options it provides for Notre Dame students are often ignored. As a result, the lack of desirable social life has contributed to the problems which have plagued Chautauqua in the past.

Despite the problems which have plagued Chautauqua in the past, Abrams maintains an optimistic outlook for the coffeehouse's future. "I don't see what the problems are, but what the benefits can be." Perhaps the seeds of Domer discontent can be plowed under, resulting in the creation of true social interaction—a true "Chautauqua movement."

Hackett's first class OFFICER

In the early 1960's, while still a young critic with Cahiers du Cinema, Francois Truffaut advocated an auteurist approach to film theory. According to Truffaut, director's such as Hitchcock, Hawks, and Alfred Hitchcock were always creating complete films, and the camera frames and a Gentleman ran above its run of the mill subject matter. However, the visual aspects of an Officer and gentleman are shown primarily through some consistent camera work—nothing strikingly original, but with a right amount of "story"; the camera corroborates the screenplay. Thus, when Zack has lost his finger to the boxer, and the camera tilts away from the screen, the effect of the movie as a whole; there is a story, a balance to the numerous episodes which comprise the finished film.

An Officer and a Gentleman presents a number of tastefully undervalored performances by a promising group of actors. Richard Gere does a credible job as Zack Mayo, a lanky who comes to realize the value and necessity of friendship. Debra Winger is surprisingly versatile as the husband-hunting Paula, a factory girl hot on the trail of Zack. Lou Gossett will probably receive an Oscar nomination as the hard boiled Drill Instructor of the screen. And David Keith shows great deal of sensitivity in the role of Zack's best friend at boot camp.

An Officer and a Gentleman provides cause for optimism. While the film is conventional in many respects there is a number of potential talents at work here. With improved writing and direction, Hal Hartley could produce some quality films. An Officer and a Gentleman is a step in the right direction.
I like black people. Without trying to come off as a 21st century Yankee, I like the blacks I meet in New York, the blacks I meet on campus. When I write of minority groups, I am accounting for paternalistic and condescending. In the dining hall, when I've said to a seventeen year old freshman: "You're very pretty," a friend who knows me well would say, "Tell me more about those things. Tell me: 'You're very sexy.'" At age fifty six, I can risk being sex- ist, because I have been known to be a walking sexual object. My turn made Roman Catholic, I can say I like Italian people, and done out for a month on the invitations I get to eat spaghetti.

So, I am saying it as simply as can. I like Blacks. If there were a better way of saying it, I would try to find it. The members of my family were mostly Yankee fishermens, living on the coast of Maine. These sunburned men and their hard working wives were a class unto themselves. Tourists spending their summers in Bar Harbor speak of the native as down east character. Royal Dalton has done a portrait in porcelain of the Maine fisherman. He is an singular old cod. Any lady selling ballad's his appearances is a collector's item. I'm not offended when someone says "I like down Easteners." I understand that my people have been complimented. It is very regional to say that you like Yankees. The blacks I like are as diverse as the American continent.

I have just finished reading James Baldwin's Another Country. The novel is new, is dated in its language. You're old enough to remember the Civil Rights Movement, you've heard the language of suffering before. It becomes almost unbearable when a black woman crime has been committed. In the dining hall, when I've said to a seventeen year old freshman: "You're very pretty," a friend who knows me well would say, "Tell me more about those things. Tell me: 'You're very sexy.'" At age fifty six, I can risk being sexist, because I have been known to be a walking sexual object. My turn made Roman Catholic, I can say I like Italian people, and done out for a month on the invitations I get to eat spaghetti.

Braves into a 1-1 game lead over the Dodgers in the National League West race.

Bob Horner and Glenn Hubbard also smacked homers off Dodger ace Fernando Valenzuela. Benedict's second grand slam of his career and his third homer this season came in the sixth, when Atlanta started its rally with two out after Valenzuela had retired 12 batters in a row.

Braves into a 1-1 game lead over the Dodgers in the National League West race.

Bob Horner and Glenn Hubbard also smacked homers off Dodger ace Fernando Valenzuela. Benedict's second grand slam of his career and his third homer this season came in the sixth, when Atlanta started its rally with two out after Valenzuela had retired 12 batters in a row.

Indians blank O's

CLEVELAND (AP) — Ron Hassey's seventh-inning, two-run double snapped a scoreless tie and John Denney and Bob Anderson stranded both runners last night as the Cleveland Indians blanked the Baltimore Orioles 5-0.

Denney held the Orioles to two hits, striking out three and walking three.

Brewers right-hander Pete Vuckovich, out in just seven straight victories, worked the first nine innings, giving way to Ladd to start the 10th.

 Braves clobber LA

ATLANTA (AP) — Bruce Benedict's grand slam home run tied a poweräuthored line that carried the Atlanta Braves to a 10-3 victory over the Los Angeles Dodgers on Thursday night.

The victory went to Rick Mahler, 9-9, who allowed five hits and two runs while working into the sixth inning. Steve Bedrosian went the rest of the way to gain his 10th save.

The loss completed a sweep of a two-game series and lifted the Braves into a 1-1 game lead over the Dodgers in the National League West race.

Bob Horner and Glenn Hubbard also smacked homers off Dodger ace Fernando Valenzuela. Benedict's second grand slam of his career and his third homer this season came in the sixth, when Atlanta started its rally with two out after Valenzuela had retired 12 batters in a row.

The victory went to Rick Mahler, 9-9, who allowed five hits and two runs while working into the sixth inning. Steve Bedrosian went the rest of the way to gain his 10th save.

The loss completed a sweep of a two-game series and lifted the Braves into a 1-1 game lead over the Dodgers in the National League West race.

Bob Horner and Glenn Hubbard also smacked homers off Dodger ace Fernando Valenzuela. Benedict's second grand slam of his career and his third homer this season came in the sixth, when Atlanta started its rally with two out after Valenzuela had retired 12 batters in a row.

Indians blank O's

CLEVELAND (AP) — Ron Hassey's seventh-inning, two-run double snapped a scoreless tie and John Denney and Bob Anderson stranded both runners last night as the Cleveland Indians blanked the Baltimore Orioles 5-0.

Denney held the Orioles to two hits, striking out three and walking three.
Men’s tennis semifinal

Conners, Vilas advance in Open

NEW YORK (AP) — Second-seeded Jimmy Conners crushed col­
legian Roddy Hammond and No. 4
Guillermo Vilas of Argentina easily
eliminated Tom Gullikson yesterday
to set up the final men’s semifinal in the
U.S. Open Tennis Championship.

The reigning Wimbledon cham­
pion, who is seeking his fourth U.S.
Open crown, took only 1 hour, 53
minutes to crush Harmon 6-1, 6-3,
6-4.

Vilas, playing in a night match, rolled over Gullikson 6-2, 6-1, 6-3 on the
hard courts of the National Ten­
sis Center. It is the first time Vilas
has reached the semifinals since he
captured the U.S. Open in 1977. But
America’s premiere tennis event then
was played on clay — Vilas’s best surface — at the West Side Ten­
nis Club in Forest Hills.

In the other semifinal, defending
champion John McEnroe will play
Ivan Lendl of Czechoslovakia.

In yesterday’s only final, Kevin
Curren of South Africa and Steve
Denton combined to capture the
men’s doubles, defeating Victor
Amaya and Hauk Pfeifer 6-2, 6-7, 5-7,
6-2, 6-4. Curren served an ace on the
second match point to finish the
three-hour match.

Following a slew of upsets, the
women’s semifinals today will pit
two champions, seven-time
Lloyd against fourth-seeded Andrea
Jaeger, while No. 5 Hana Mandlikova
of Czechoslovakia takes on No. 7
Pam Shriver.

Shriver upset top-seeded Marina
Navratilova, her close friend and
doubles partner, in the quarterfinals,
while Mandlikova knocked off
defending champion Tracy Austin.

The women’s final will be held
tomorrow, with the men’s final in
America’s premier tennis event
scheduled for Sunday. Both finals
will be nationally televised by CBS.

The singles champs will
receive $90,000 each from a purse of
$1.5 million, the richest in tennis
history.

The reigning Wimbledon cham­
pion, who is seeking his fourth U.S.
Open crown, took only 1 hour, 33
minutes to crush Harmon 6-1, 6-3,
6-4.

Reaching the semifinals for the
ninth straight year, Connors broke
Harmon in the fourth games of the
second set and the opening game of
the third. He held a 5-2 lead and was
serving for the match when Harmon
broke Connors for the first time in
the match in the eighth game.

Harmon then held serve, but Con­
ners came right back to hold serve
and advance into the semifinals.

Harmon was the first black to reach
the U.S. Open quarterfinals since for­
mer champion Arthur Ashe lost in the
finals in 1972, said he received
some bad advice just before going
onto center court.

“I listened to a couple of people
to find how to play Conners, and it
was wrong. I just should have played
the game I play well, which is to play all
the aggressive way. I tried some
things — a slice backhand — that
was contrary to my game and uneasy
to play that way.”

Sports

open the season at home against the
Cleveland Browns.

The Colts, too, took no stroke
vote, player rep Mike Gudzowski said.

By the Seahawks could trigger
a job action in the opener against the
visiting New England Patriots.

In New York, the NFL manage­
ment council, the owners’ negotiat­
ing team, met to consider the
response. It was set for the New York
Baltimore or any other team. One of
those responses, a spokesman said,
could be a shutdown of all games.

“There could be a whole range of
responses,” Vine Lornbardi Jr., as­
istant executive director of the
Management Council, said. “Calling
off games could be one of them. We
could ignore them, reschedule
them... Let’s say we’re prepared
to take action, but there’s no point
in showing our hand.”

Attention Priests & Deacons!

Are you looking for an Apostolate? You can
work with loving couples in service for
the pre-married; through Engaged Encounter.

Catholic Engaged Encounters is a weekend
experience to prepare couples for a lifetime
commitment. We need you in our apostolate.

Women's volleyball
Notre Dame outclasses IUSB

By MIKE SULLIVAN
Sports Writer

The season opener for the Notre Dame women's volleyball team turned out to be not much more than a practice as the Irish thrashed IUSB by scores of 15-1, 15-8, 15-6, 21-8 in the ACC Pit.

The victory shows just how far women's volleyball at Notre Dame has come in its three years of existence. If the lopsided score is any indication, the progress is impressive.

IUSB, fielding its first volleyball team ever, was totally outclassed, making many of the same mistakes that the Irish made in its initial year when its record was 3-19.

The Irish women, used to having shots come back at them very hard, have noticed the fearsome blocks of IUSB women to poor return.

"I'm pleased with the way we played," said Irish coach Sandy Van Slager. "We wanted to see if the girls could handle all our offensive plays, and they did. We also did not make many errors on the serves which is something that we concentrated on."

The team showed its new offensive system early in the match. The system includes the use of many fakes to divert the attention of the opponent's defense. IUSB seemed to be puzzled by all the offensive moves, especially the fact that they scored 15-1, 15-8 and 15-6, putting many weak returns.

"The girls are used to returning hard shots," said Van Slager, and IUSB didn't hit it very hard. It gave us some problems. Also, we had trouble returning their disks (shots tipped just over the blockers)."

If they had some trouble, it was not evident in the first game. IUSB scored the first serve of the match, but the Irish then reeled off 14 straight points for the game.

The second game included the only mediocre play of the match for the Irish. While the outcome of the game was never in doubt, IUSB got off to a bad start and the Irish strengthened themselves out.

"We played some sloppy defense," explained Van Slager. The third game was similar to the first. The Irish put on a spiking exhibition about halfway through the game, climaxing the match.

The opening game starters for the Irish show that there is much hope for the future. Two freshmen, three sophomores, and a junior comprised the lineup. These players are considering staying the full four years and the team will be one to watch for the future. Two freshmen, three sophomores, and a junior comprised the lineup. These players are considering staying the full four years and the team will be one to watch for the future.

The team can expect some regional competition this weekend when it travels to Ann Arbor for the Wolverine Invitational. Other teams that are entered include Lake Superior State, Wayne State, Ferris State, Grand Valley College, and Michigan. Because the team is guaranteed at least six games, the tournament should show how accurately it rates.

Defensive line key to success

By STEVE LABATE
Sports Writer

This past summer, some of you may have caught ESPN's "Best of Notre Dame Football" series and reaquainted yourselves with a few of the heroes of our youth.

In particular, you may have noticed the fearsome blocks of muscle that made up the defensive lines of those teams Patulski, Kadish and Fanning, among others. Those players were the intimidating forces that characterized the awesome Notre Dame defensive lines of the '70s.

Last year however, imposing linemen like them were nowhere to be found, and the Irish plummeted to a dismal 6-5 mark. That is not to say that the defensive line was entirely responsible, for that's hardly the case, but as head defensive line coach Greg Blanche points out, "Offense sells the tickets, but defense wins the football games."

Emphasize the role of the players were the intimidating forces that characterized the awesome Notre Dame defensive lines of the '70s. This team is no exception as evidenced by the fact that he made only six tackles last season.

"It's a team game. The defense has to be seasoned senior Kevin Griffith. Mike Gann at flip tackle. Golic, at end, Bob Clasby at contain tackle, Jon Autry at the nose and Maurice Pressly at center. The defense will be sparked by the awesome forces that characterized the awesome Notre Dame defensive lines of the '70s. This team is no exception as evidenced by the fact that he made only six tackles last season."

"We've told them, 'When we strike, we want to see if the girls can handle all our offensive plays, and they did. We also did not make many errors on the serves which is something that we concentrated on.'"

NFL owners threaten to 'shut down' games

By BRUCE LOWITT
Associated Press

The National Football League Players Association is cautioning its members that the league's upcoming football opener for both teams.

"Our executive committee last night (Wednesday) in a conference call, decided that the owners were not going to call any strikes, that there was not going to be any action taken during the first weekend," said Frank Woschitz, press spokesmen for the owners.

"Approximately 2,500 owners are considering striking for the next eight days after comeback Walter Black's interception. The game marked the debut of Sermafino's "Froze" Fazio as Pitt's head coach, as well as Pitt's first regular-season college football games in 1970s by CBS-TV.

The waiving of the teams' player contracts, Dan McCoon and Mossi McCoon, and is a decision which is expected to be passed as a contest between high-powered offenses turned into a penalty-filled defensive struggle, with North Carolina penalized 15 times and Pitt whistled for 13 infractions."

In addition to Marvin's four interceptions, the Tar Heels gave the ball away twice twice on fumbles and on an interception by Panther linebacker Rich Krzyzak on the 31st with 1:57 remaining.
