Reagan supports GOP's jobs bill

WASHINGTON (AP) — President Reagan gave his first public blessing to a $4.5 billion program from Democratic lawmakers yesterday, as Republicans moved to pass their own $8.1 billion program to create jobs and recession relief.

Reagan conferred with Republican congressional leaders, who then cautioned that adding provisions opposed by the president — and more spending — could "outlive the entire effort to pass emergency jobs legislation quickly.

The House Republican leader, Robert Michel of Illinois, said the GOP program could provide "probably as much as several hundred thousand jobs" by this spring.

"We must resist building, pump up, Christmas-tree legislation," said Democratic Majority Leader Howard Baker Jr. of Tennessee, who told reporters that departing from what Reagan sees as "excessive social welfare jobs...would sabotage the package."

HPC warns campus lottery threat is real

By MIKE KRISKO

HPC President Mike McAuliffe, warning that the threat of a housing lottery is real, last night encouraged students who are considering moving off campus to attend an informal open house for them next Thursday in Lafortune.

McAuliffe made the comments at the Housing Policy Committee meeting, after hearing the Student Government's Housing Commissioner, Jorge Valencia, announce that Director of Student Residences Father Michael J. Heppen has cancelled the "forfeiture of room deposit and the $1500 fine for any campus student who returned a valid contract and who decides now to move off campus. The only provision is that the Office of Student Residents must be notified of such a change by March 30, 1983. After March 30, the forfeiture of the deposit and the $1500 fine will be enforced," he said.

Copies of Heppen's letter were placed in campus dormitories over the weekend.

Valencia indicated that not as many seniors are planning to move off campus as had been expected. As a result, students who were contemplating moving off campus are again given the option to move. Valencia was not able to reveal precisely how many students must move off campus in order to avoid a lottery, but he agreed that the number is large.

Heppen, however, was quoted in Monday's Observer saying that approximately 200 men and 250 women...would have to decide to more off-campus in order to avoid a lottery.

"There have been many warnings in the past, but this time there is a real chance for a lottery," emphasized McAuliffe. "I'm afraid that not enough students are taking this seriously," he said.

MEXICO CITY (AP) — A renovated Latin American Church more sensitive to social issues and with a more disciplined clergy...awaits Pope John Paul II when he visits Latin America in the next two months.

The visit — the pontiff's fourth to Latin America — is expected to bring the Church's commitment to ecological rights, individual liberty and spiritual freedom, a message to be repeated even more strongly when he visits his native Poland later this year.

The message will take on special significance in turbulent Central America, where civil war and factional violence plague most countries and threaten the rest.

The Church of Latin America was identified with the heritage of a new and a sharp increase in attendance at Mass.

By contrast, a reawakened spirit is visible elsewhere in Latin America. Where half the world's 780 million Roman Catholics live, churchmen say.

During John Paul's first Latin American pilgrimage — a 1979 trip to Mexico — he found a church deeply divided over ideological issues, experiencing growing radicalization among both priests and faithful.

At a meeting of the Latin American Bishops Conference, said in an interview in Bogota...

President Reagan will hold a news conference tonight at 9 p.m. EST, his 15th since taking office, the White House announced yesterday. ABC and CBS said they would broadcast the news conference, NBC said it did not yet know if it would. — AP

More than 800 people showed up at Indiana University for free measles inoculations yesterday, the first day of a mass immunization program in response to an "unusual incidence" of old-fashioned measles in Bloomington, Ind. Nancy Tardy, director of the IU Student Health Center, which ran the center, detected a dozen cases of measles over the weekend. Another two cases turned up last Sunday at Bloomington Hospital. No new cases were reported yesterday. Indiana health officials were Monday in order to see free inocu-

ations in the solarium of the Indiana Memorial Union during the five-day telecast. The figures for December placed West Virginia with a 17.8 percent unemployment rate - at the top of the list, followed by Alabama, 15.9 percent; Arkansas, 17.3 percent; Tennessee, 12.9 percent and Illinois, 12.6 percent.

‘A celebration of literature’
Soph. Lit. Fest begins Sunday
By GRETCHEN PICHLER
News Staff

Novelties, short story writers and poets — including a 1960 Notre Dame graduate — will be on campus beginning Sunday for the inaugural Sophomore Literary Festival. The week-long festival presents a well-known contemporary author each day for afternoon workshops in the library and a 7:30 p.m. in the Memorial Library Auditorium.

The festival is sponsored primarily by donations and the Student Union. Post speakers have included Professor Murray, Kurt Vonnegut, William F. Buckley, and Tennessee Williams.

This is the 15th Sophomore Literary Fest, which is brought to the Notre Dame Saint Mary's community annually for the student's enjoyment, says sophomore Brian Ulcicky, the organizer of the 1983 festival. "It is a celebration of literature," he states.

The week-long event will be opened by novelist and short story writer Susan Sebag. Her essays have been published in the book Against Interpretation, and two novels - The Benefactor and Death Kit — expand on her philosophy of aesthetics. Sebag brings short the National Books Critics Circle award, the New York City native has studied painting and music in New York City and Harvard University.

Mary Robinson, Monday's speaker, has had short stories printed in The New Yorker, as well as the Enquirer. Her short stories have been published in a third collection selected to be the 1982 edition of The Best American Short Stories.

The third speaker is naturalist Barry Lopez, a graduate of Notre Dame. His most recent work, Of Wolves and Men, won the John Burroughs Medal for distinguished natural history writing. The novel also won the Pacific Northwestern Booksellers Award for excellence in production.

Wednesday brings Richard Beaiman, whose novels draw from both the beat movement of the 1950's and the youth revolution of the 1960's. His second novel, Trout Fishing in America, made him a cult figure for remnants of the love generation. His other works include In Watermelon Sugar and The Trojan Horse Express, his latest.

The son of an Irish Catholic bartender, Jim Carroll spent his youth in welfare homes and moving from place to place. He discovered basketball to preserve his sanity.

In Watermelon Sugar (1969) Carroll spent his youth in reforming a corrupt prison system during the late 1960's. Carroll continued on page 1

View Apartments, along with former college students, and a representative from the police department will be present. Valvani asked the hall presidents to encourage their residents who are considering the move to go to the open house and examine the apartments. McAdoo pointed out that because so many students haven't moved off campus, many prime locations are still available. It's the time to think of the choice apartments, he said.

In other business, a motion to place the responsibilities for an SPC attendance policy in the hands of the individual hall councils was passed unanimously.

The council agreed to pass the responsibility for the allocation of the $1,500 received from the Budget Committee to the incoming hall presidents.

The Dilemma of Crime and the Dilemma of Prison Reform. Father Theodore Hesburgh, University president, responded to questions concerning a variety of topics last night in Morrissey Hall. Students questioned Hesburgh about the death of varsity hockey and the lack of social space on campus. Hesburgh also emphasized the value of a liberal education, a topic about which he will lecture tonight at 9 in the Annenberg Auditorium. (Photo by Ed Carroll)

PLO both on Middle East peace talks

Seek resolution on peace

PLO to decide on Reagan plan

ALGIERIA, Algeria (AP) — One of Yasser Arafat’s aides said yesterday that the Palestinian exile parliament will adopt a “clear-cut resolution” on President Reagan’s Middle East peace initiative at its meeting this week.

Abu Jhada, Arafat’s deputy military commander in the Fatah guerrilla organization, told reporters Friday that Ahmed Abdel Rahman, the Palestine Liberation Organization’s chief spokesman and one of PLO chairman Arafat’s closest aides, said at a press conference: “The Reagan plan has definitely not been rejected outright.”

The 400-member Palestine National Council opened a week-long session Monday to consider the various Middle East proposals, and Arafat’s moderate majority clashed openly and acrimoniously on the sidelines with a Moscow-influenced, hardline minority opposed to peace moves through Jordan’s King Hussein.

But the pragmatic approach of the PLO chief was virtually certain of overwhelming support.

Abu Jhada and Abdel Rahman acknowledged that there were sharp differences among the PLO leaders, but Abdel Rahman told reporters these “are being narrowed, and the council’s resolutions committee is drafting compromise wording that will unite all ranks of the Palestinian leadership.”

Leading the fight against Arafat was Ahmed Jebril, head of the Popular Front for the Liberation of Palestine-General Command. His chief spokesman, Fadel Shreouar, admitted that hardliners were a small minority but said they felt confident their views would gain support.

He said the talks have achieved “openly defied” Arafat on five main points: 1. Arafat’s acceptance of the peace plan adopted by Arab leaders in Fez, Morocco, last September, calling for peaceful coexistence between Israel and the Arab states seeking self-government, PLO-Ruled Palestine. 2. Arafat’s refusal to reject Reagan’s peace plan calling for Palestinian “self-government” in association with Jordan. 3. Arafat’s willingness for King Hussein to open peace talks with Israel without a PLO delegation and to extend confidence between Jordan and an Arab embassation. 4. Arafat’s willingness to establish relations with “democratic and progressive” Arab regimes, including Zionist groups recognizing the “so-called State of Israel” as the representative of the Palestinian people. 5. Arafat’s effort to bring Egypt back into the Arab League from which it was expelled after the Camp David peace agreement with Israel.

Shreouar claimed the Syrian-influenced leaders of the Ba’ath party and the “Arab struggle front” sided with Jebril.

But Abu Jhada predicted that the outcome of the PLO meeting would not be expected next week, “will be an embodiment of national unity.”

Prof. predicts robots will replace workers

WEST LAFAYETTE, Ind. (AP) — Factories of the future won’t need many blue collar workers, and those who remain will be repairing and maintaining robots and machines that do their current jobs, a Purdue University professor says.

Future industrial workers “will have a very good job,” says Garel Salvendy, professor of industrial engineering.

“Another 30 years or so,” he says, “the blue-collar worker will pretty much disappear.”

By then, factories will be made up of numerous manufacturing systems that will include up to a dozen “intelligent machines” such as robots and other programmable devices, Salvendy predicts.

Those machines will be capable of carrying out a wide variety of jobs and far more workers now do — machining, painting, welding and assembling, he says.

A computer network will link the factories to the world, so that monitoring the activities of the various machines,” he says. “And the question will be: How much do we want to allow the human to impact the system operation?”

“If we give too little responsibility to the operator, he is bored. His productivity is low. But if we give the operator too much responsibility, we overload his information-processing capability and he will make errors because he has too much load. If we overload his computer, he can’t deal with it.”

Salvendy says he is being bored or overloaded with information, the worker also may suffer from “loneliness because he will work in isolation, Salvendy says, adding, “Many people like the feedback from the social interaction.”

Salvendy, who also is chairman of the Human Factors Interdisciplinary Graduate Program at Purdue, says the new sciences of job design must evolve in the next few years to meet the changes in the fac­

ities of the 21st century.

Eastern Airlines 727 makes belly landing

MIAMI (AP) — An airliner carrying 67 passengers and seven crew members made a successful emer­gency belly landing on a runway last night after its landing gear failed to retract fully after takeoff.

Seven people suffered minor injuries, and there was some damage to the Boeing 727.

“After a belly landing,” Eastern Airlines spokesman Jim Ashlock said after the Boeing 727 touched down at about 8:30 p.m. at Miami Inter­national Airport. “He pulled all of his gear up and fished her in on her nubby — her belly.”

Eastern Flight 194 slid to a safe stop on Runway 98, sparks flying, as emergency equipment stood by. The plane was then sprayed with foam as a fire prevention.

The passengers, red-faced but smiling, left the plane as its emer­gency chutes were taken to the airport terminal by three busses and moved into a private lounge by East­ern personnel.

“I was crying,” said second-grade Jena Cohen of New York City. “I really hated it because I was scared something would happen to the plane; that we might get hurt.” Her mother, Ronnie Cohen, 33, said her 4-year-old daughter Brett slept through most of the landing.

Florence Cowello, of Cold Spring Harbor, N.Y., said she scraped her hands and knees jumping off the plane’s wing. She said another pas­senger also suffered similar injuries.

“This was maddening, this whole situation,” said Alphred Belete, of Boca Raton. “People didn’t like the idea of a crash landing.”

“Afterward, it was incredible. Everybody was hugging everybody. When we got off the plane we went into the field. All you could hear was people on the side streets clapping.”

“It was a smooth landing, believe it or not,” one young woman said.

Another man added, “They told us everything we needed to know, and they were super.”

Gail Nemecek, of West Palm Beach, who was headed to New York for meetings, said “It was very orderly.”

“I never thought an emergency landing would be that smooth,” she said. “We were aware the whole time. Eastern told us exactly what was going on. There was no panic. It was marvelous.”

Earlier, the 727 had circled as officials prepared the runway, which runs along the Dolphin Expressway, for the landing.

Gail Nemecek, of West Palm Beach, who was headed to New York for meetings, said “It was very orderly.”

“I never thought an emergency landing would be that smooth,” she said. “We were aware the whole time. Eastern told us exactly what was going on. There was no panic. It was marvelous.”

Another man added, “They told us everything we needed to know, and they were super.”

The revival appears strongest in Argentina, where several hundred thousands of people have been converted in recent years, and in Brazil, where the church has been especially active in defending the rights of workers against brutality. Fellow­prelates speak out against laws ban­ning trade unionism.

Although not very forceful in its pronouncements, the church is about the only opposition to the observers in Paraguay, ruled by Gen. Alfredo Stroessner, and in Chile, where the church says “not to speak out strongly enough on the issue.”

WASHINGTON (AP) — Outlaw motorcycle gang members graduated from macho beer busts to sophisticated enterprises that carry a threat of Federal action for executions of organized crime, infiltrate police forces and launder profits from drug and prostitution into legitimate businesses, a Senate panel was told today.

The president of one gang, the Pagans, was said to be paid the same salary as President Reagan — $200,000 per year.

The new trend chieftains, police officials and a prosecutor said the "Big Four" clubs — Hells Angels, Outlaws, Pagans and Angels — are so rich and powerful that they are vying for control of local and state authorities.

Federal action, they said, is needed since grupos terroriza small-town police, use female associates to infiltrate law enforcement agencies and are almost up to good themselves since they require aspiring members to commit crimes.

"Motorcycle gangs are involved with traditional organized crime families, such as the Mafia," Capt. Terry Katz of the Maryland State Police told the Permanent Subcommittee on Investigations.

He estimated the combined nationwide membership of the four gangs at 6,000, with each person under a club's "colors" having about 10 "associates." There are another 900 smaller U.S. outlaw gangs, Katz said.

"The Big Four gangs operate in geographic territories that are controlled by the traditional organized crime families," Katz said, with the Angels pocketing the West Coast, the Bandidos in the Southwest and West, the Outlaws in the Central states and the Pagans on the East Coast.

"Terrifying behind a screen that hid them from the public, two men took on their Pagans days in the early and mid-1970s, before they became part of the federal witness protection program," Katz said.

William Jackson — an assumed name — said he was from being tightly run on a college football team and he held the simultaneous titles of national vice president, sergeant-at-arms.

Pagan policy is set by the Muther Club — a board of directors — and the organization is run by a president whose salary is purposely the same as that of the president of the United States, Jackson said.

"I dealt continuously with individuals who professed to be associate members of an organized crime family," he added, asking that he be kept of Pagans contacts with the Testa family in Philadelphia and the Gambino and Genovese families in New York.

Jackson said that as Pagan enforcer, he dispatched the gang's "Black Fingers" to be used as five fingers to intimidate police, witnesses or prosecutors.

BOSTON (AP) — For the first time, doctors have cured a deadly as- sociated with the body's immune system, saving the life of a week-old baby with an experimental treatment called monoclonal antibodies.

"We were able to stop what was clearly a fatal reaction," said Dr. Fred Rosen of Children's Hospital Medical Center in Boston.

The child developed the deadly reaction following a blood transfu- sion because of a rare birth defect — he had no thymus gland.

But many other people develop the reaction, known as graft-versus- host disease, after bone marrow used to treat leukemia and other diseases. Rosen said the new treatment holds great promise.

"It works like magic," he said.

Doctors cure deadly immunity defect

WASHINGTON (AP) — The president's comments in the "State of the Union" speech Thursday night will spell out his role in the future of the penal system and the move.

Bilateral leasing agreement of the four gangs at 6,000, with each person under a club's "colors" having about 10 "associates." There are another 900 smaller U.S. outlaw gangs, Katz said.

"The Big Four gangs operate in geographic territories that are controlled by the traditional organized crime families," Katz said, with the Angels pocketing the West Coast, the Bandidos in the Southwest and West, the Outlaws in the Central states and the Pagans on the East Coast.

"Terrifying behind a screen that hid them from the public, two men took on their Pagans days in the early and mid-1970s, before they became part of the federal witness protection program," Katz said.

More of the nuclear question

Dear Fluffy,

You probably don't know me, but I (and every other Notre Dame male, for that matter) know you. My love for you is deeper than the deepest ocean. I can guarantee you that I am unique, and that you are the only person I have ever loved. I am here to offer you a call for action on this unprecedented evening.

Every chicken dish imaginable has appeared in the serving lines this year at Norte Dame - chicken and broccoli, chicken and rice, chicken and potatoes, chicken and salad, chicken and noodles. All of this is in addition to my chicken show routine. I am confident in believing that I have gobs of chicken. I am confident in believing that I have gobs of chicken.

I have had teeth of chicken, baked chicken, creamed chicken, and chicken cacciatore. All of this is in addition to my chicken show routine. I am confident in believing that I have gobs of chicken. I am confident in believing that I have gobs of chicken.

I, therefore, call upon those who are opposed to nuclear weaponry to undertake a meaningful relationship with me. I am confident in believing that I have gobs of chicken. I am confident in believing that I have gobs of chicken.

Fluffy, my love for you is deeper than the deepest ocean. I am here to offer you a call for action on this unprecedented evening. I am confident in believing that I have gobs of chicken. I am confident in believing that I have gobs of chicken.

Love,
Stud

Dear Prospective Suitor,

Thank you very much for your interest. While competition is extremely stiff, I will review your credentials. If you have not submitted your application to the Tab dispenser, I will not consider your credentials. If you have not submitted your application to the Tab dispenser, I will not consider your credentials.

Your application will be evaluated following the following criteria: GPA, H.S.A.T. scores, other relevant factors including, but not limited to, your sense of humor, and your participation in extra-curricular activities (e.g., volleyball, tennis, bowling, and swimming). If you have any questions, feel free to write back. I am looking forward to a very deep and meaningful relationship with you. Your letter will be read in the quiet of my bedroom.

Sincerely,

Dear Fluffy,

You probably don't know me, but I (and every other Notre Dame male, for that matter) know you. My love for you is deeper than the deepest ocean. Sincerely,
The Crop of's of the afternoon. Shows like Dynasty, Falcon Crest, Knots Landing, Dynasty, DALLAS, tally up a majority of those precious ratings points. It is a curious trend.

I can just envision some Freudian psychologist (sorry, I'm just trying to analyze this type of behavior). Perhaps he might relate to some deep-seared memory of being abandoned by one's mother; then taken back, then abandoned... (sounds like a good plot for a movie picture... maybe I could even get two more sequels out of it.)

Historians could get into the act. They could research the events that led up to this sudden outbreak of sequels and serials. Who knows what they might find?

Yet this is not a film that is going to do anyone any good. It starts getting the audience into the humanity of its characters. It is a cinematic "world event." It is not that his voice is bad. It is simply that he sounds truly obsessed and demented in every one of his songs, and it is hard to get "Turn a Blind Eye." This is where we first get a sense of the immense power that is within the body of this little man. It is quite a thing to see.

The supporting actors in the film are quite good with Martin Sheen standing out in the relatively small role of Walker, a character amalgam of the band of western heroes who followed Gandhi throughout his life. The only weak point among the cast seems to be the band's lyrics. Gandhi, portraying life photographer Margaret Bourke White. Her role seemed fit to make Gandhi's Hindu faith played in his life story. Instead of drawing inspiration from the life of Gandhi the film perfectly clue the audience into the screen to eagerly wait for this picture to be on cable TV. It is a cinematic masterpiece.

The main reason for its failure is that the group, in a sense, goes too far; their message seems less serious and sometimes almost comical. They just weren't satisfied with their statement in "Turn a Blind Eye." This was a kind of shock. Instead of drawing inspiration from the life of Gandhi the film perfectly clue the audience into the screen to eagerly wait for this picture to be on cable TV. It is a cinematic masterpiece.

BC upsets No. 6 St. John’s

NEW YORK (AP) — Jay Murphy scored 30 points and John Garris added 18 Sunday night in a big East Big Eight contest at Houston Coliseum, as the Rams overpowered the Redmen for the second time in seven meetings.

The game was a back-and-forth struggle right from the start, with both teams leading at times. But in the second half, the Rams took control.

Houston led 37-35 after the first half, but BC took over control in the second half, scoring 11 straight points in the first half to move in front 51-44 and 57-46 a minute later after a steal and basket by Michael Adams, who finished with 15 points.

Houston routs Texas

HOUSTON (AP) — Clyde Drexler scored 21 points to lead No. 4 Houston to a 106-65 victory over the University of Texas in a Southwest Conference basketball game last night.

It was the Cougars’ 20th consecutive conference victory and their 17th straight win at home. Houston took a 6-4 lead early in the first half on a 20-foot jump shot by Michael Young and built the mar-
gin to 53-26 at the half behind the shooting of Young, Akeem Olajuwon and Red Green.

Olajuwon, the Cougars’ 7-foot sophomore, also blocked 10 shots as he set a seasonal record for the school with 127 blocks. He broke a record set by David Davi with 125 during the 1970-71 season.

Houston continued to dominate the game in the second half, reeling off 13 unanswered points to in-
crease its lead to 66-26 with 16:17 left.

Houston shot 53.7 percent from the field, and Texas managed to hit just 43.9 percent of its shots from the field.

Also leading the Cougars’ scoring were Young with 18 and Olajuwon with 17. Carlton Cooper had 22 points for Texas, while Bill Wendlandt had 18 and David Scelsi added 12.

Boston Bruins standout goalie Pete Peeters will attempt to tie the NHL record for most consecutive games without a loss tonight when Boston faces off against the Buffalo Sabres. See article at right. (AP Photo)

BOSTON (AP) — Ninety-six days have passed since Pete Peeters lost a hockey game. If he can make it 97 tonight, the Boston Bruins’ goalie will tie the National Hockey League’s unbroken streak of 52 games.

As much as his coach and teammates want him to match that mark, they’re trying to avoid emphasizing the significance of a win or tie against the Sabres in Buffalo.

“We’re all trying to downplay it,” says Boston Coach Terry Cheevers, who knows something about having unbroken streaks ignored.

It’s also true, set in 1971-72, that Peeters is chasing, and Cheevers says, “I went 26 games before anybody even brought it up.”

Peeters’ streak, combined with the Bruins’ 15-game unbeaten stretch, hardly has gone unnoticed by the media or teammates. But the 25-year-old goalie claims he doesn’t clutter his mind with thoughts of his achievement.

“I don’t think about the streak,” he says. “If I think about those things it would take some positive things away from my game. I just play the game and try to sneak away with the two points. I think I do otherwise.

I’d get floored.”

But to his supportive defensesmen, who have limited the shot attempts during the streak to 23 in 24 games: the milestone special.

“We’re only thinking now about 52 in a row,” says defenseman Mike Milbury. “We’d like to deliver it to Pete as a little bit of a thank-you present for the kind of goal he’s played for us and the contribution he’s made to the club.”

Obtained last June 9 in a one-sided trade with Philadelphia for defenseman Brad McCormick, Peeters started slowly. He gave up nine goals in his first two games with Boston, a win and a loss.

He was in the nets when the Bruins suffered a 5-2 loss to Quebec here on Nov. 13, lowering his record to 0-6-2. He is 20-5-0 since then. Against Buffalo this season, he is 5-0 and has allowed six goals.

Peeters, whose 27-game unbeaten streak in 1979-80 is an NHL record for a rookie goalie, has led the Bruins to a 6-0-6-0 record, the league’s best.

Opponents have scored only 61 goals in his 51 games, streaking to 21 games since missing three with a groin injury, and 12 goals forgotten by him. In that stretch, he has five of his seven shutouts and seven one-goal games.

He has held the opposition scoreless in two of his last six periods, and his 2.35 goals-against average leads the NHL.

“I don’t think we’re in first place,” says Barry Pederson, who shares goalie duties with Peeters. “It’s very nonchalant out there. He’s not the kind of goalie who makes easy shots look difficult. He doesn’t showboat.”

“He just makes the saves as if he’s saying, ‘What’s the big deal, that’s what I’m here to do.’”

Homecoming tonight
Varnier remains upbeat despite inconsistency

By WILL HARE
Sports Writer

Bill Varner has gone through some trying times this season.
He's had surgery on his knee, he's been benched for games,
and has had to sit on the bench and watch his teammates
play.

But Varner remains upbeat and determined to help his team get back on track.

"We definitely must beat Pitt and DePaul to make the tournament," he said.
"We're not giving up and we're going to keep fighting all the way to the end."
