Hesburgh urges nuclear education

Special to The Observer

TORONTO — Notre Dame president Rev. Theodore Hesburgh has challenged educators and their institutions this morning to organize themselves effectively to stop the nuclear arms race.

"Our students especially must learn that they are not powerless," Hesburgh said at a joint meeting of the American Council on Education and the Association of Universities and Colleges of Canada. "The groundswell is there in the freeze movement, but this is just a first step and the whole movement needs more creative direction and focus." Hesburgh pointed out the efforts of the International Physicians for the Prevention of Nuclear War and his own efforts to bring together internationally prominent scientists and religious leaders to develop ways to slow the arms race. He said Notre Dame's new course Nuclear Problems and Solutions uses the American Catholic bishops' recent pastoral letter on peace as a text, and he applauded the newly established Inter-Faith Academy of Peace at Notre Dame's Ecumenical Institute for Advanced Theological Studies in Tantur, Jerusalem.

The nuclear dilemma should concern educators — not just politicians — Hesburgh said. "If we do not learn and teach our students effectively about this primordial nuclear problem," he said, "we need not worry about all the others. After total nuclear conflagration, all human problems are moot." Hesburgh said there is now the equivalent of four tons of TNT for every human being, "not just in our own country, but around the world, poised on a delivery system, hair-triggered to a very fallible computer."

"There is a decision time of ten or fifteen minutes, much less on the field of battle, and there will be practically no time for decision once these systems are placed in space," he said.

Disagreeing with the contention that the Soviets alone have fueled the arms race, Hesburgh said, "while we have presumably been sitting on our hands," Hesburgh said, "well, while we have been doing so, the Soviets have developed the MX with 10 warheads, the Trident submarine with new superaccurate missiles, the Pershing II, the cruise missile, the B-1 bomber and the Stealth bomber which will make the B-1 obsolete."

Hesburgh has tried privately to bring together internationally known scientists and leaders of the world's major religions to make common cause against nuclear weapons.

The Toronto meeting of the American and Canadian education councils was the first joint conference of the two major educational associations.

Tab for Cop'n Crunch Fest 'nowhere near' $60,000

By BRAD COURY
News Staff

It's been a healthy economic year so far, and signs point to continued improvement. Rep. John Hiler of Indiana's 3rd district told a group of Michiana businessines last night at the Morris Inn.

In a talk given during a dinner meeting of the Michiana Chapter of the National Association of Business Economists, Hiler cited numerous statistics to illustrate the improvement of the economy in 1983.

But Hiler said "interest rates, compared to the strength in the economy we have had, have risen only slightly." Hiler also maintained that the rise of interest rates will determine the success of the economy in 1984.

Hiler said the economy would continue to perform well in the coming year because "Fed policy will keep interest rates basically where they are, or just marginally lower."

Hiler outlined a few major reasons the Federal Reserve would attempt to keep interest rates stable. He cited the international debt crisis, claiming that the Federal Reserve would not contribute to this problem by raising interest rates. Hiler also said the Fed is concerned about action that Congress could take to restrict its independence if the Fed insisted on raising interest rates, especially during an election year.

Hiler described what he considers the important problems the economy will face in the future. He thinks that the national debt will be the most crucial of these problems although he said, "I think the deficit will be far lower than predicted."

Hiler was also concerned about the exchange rates, claiming "a trade deficit is a direct result of the exchange rate situation."

Rep. John Hiler
Zone of Interest

Edmundo Vargas, executive secretary for the Inter-American Foundation, speaks of the Human Rights of the Capitalization of American States. He will talk about this at 4:15 in the Center for Social Concerns on human rights in Latin America. The lecture, 'Human Rights in Latin America: A Different Perspective from the Inter-American Commission,' is sponsored by the University of Notre Dame's Department of International Studies. Before assuming his office in the OAS, Vargas taught international law at several Latin American universities, including the University of Caracas and the Catholic University of Chile.

Representatives from four major corporations will be in Room 122 of Hayes-Hickey this afternoon from 7 to 9 for a business career forum sponsored by the Notre Dame Management Association. The representatives are: Stephen Lott of Remington-Rand Department Stores; Thomas Martin, college relations coordinator of a commercial National Bank of Illinois; Hans A. Zeller, vice president of operations at American Hospital Supply Corp.; and Scott Stratum, assistant director of Consulting Administration of Arthur Anderson Inc.

A nuclear war double feature will be shown tonight in the University Little Theatre starting at 6. "War Without Winners II," a film produced by SPC for the Center for Defense Information and featuring an interview with Paul Newsom, former presidential August Eisenhower and President Reagan, will be shown first. "The Last Epidemic," a film on the medical consequences of nuclear war that was produced by the Physicians for Social Responsibility, starts at 8. Both films, sponsored by Ground Zero, are free.

The Observer - July 28, 1983 - page 2

Weather

It'll be wet again today as rain develops this afternoon. Cool and cloudy tonight. High today, mid-50s.

In Brief

A zone of interest for the planned addition to Galvin Life Science Center was unanimously approved last week by the St. Joseph County Board of Zoning Appeals. The variance was needed because the addition will extend to the near Juniper Rd. to meet standard zoning regulations, according to Don Dedrick, director of physical plant at Notre Dame. Construction of the $3 million addition is expected to begin in January.

Despite an apology from city officials, a woman who was arrested and detained by police as she drove to a hospital to give birth says she still plans to sue the Detroit suburb of Fraser. City officials ejected a janitor of an office building Friday to Kathleen, 33, of neighboring Mount Clemens. However, he was told Tuesday after receiving the letter that she still plans to sue the city. Police stopped Wise Aug. 29 for a broken taillight. She then was arrested for a 1980 traffic violation and held at the police station until her parents arrived to post $25 bail. She delivered a boy six hours later at a Warren hospital.

An investigation has been ordered on the Los Angeles County computer system used to process traffic tickets after three court clerks were charged with accepting bribes to fix tickets. The investigation was ordered Tuesday to determine whether the system's computer records added additional speeders. Investigators said people were able to have traffic tickets dismissed without going to court by paying part of their fine at the Long Beach Municipal Court clerk's office. The defendants allegedly pocketed the money and entered a record of a dismissal of those cases into the court's computer, said District Attorney Robert H. Philibosian.

Hundreds of Kansans watched their hometown of Lawrence being devasted yesterday in "The Day After," network television's controversial movie about nuclear war. A viewer she was saying it was a "powerful" and "intense" experience. "I would hope everybody could see it — everybody in the whole world," said Lula Miller, 50, whose grandson was an extra in the film which was previewed in Lawrence. More than 1,300 people attended three free screenings of ABC's two-hour, made-for-television drama yesterday at the Lawrence Civic Center.

The publication of the Notre Dame magazine could be temporarily suspended by editors if administrators have a legitimate reason for it, the school's executive secretary, Kevin Misiewicz, told The Observer on Monday. Administrators may refuse to allow publication of Playboy magazine.

The magazine itself is much more than pro-abortion editorials or centerfolds of nude models. Playboy publishes fine investigative articles and indepth analyses of social problems — topics which few other magazines would touch with a 10-foot pole. What scares me most about Heifner's visit is that abortion critics have ignored the debate. I too do not favor abortion. But to make Heifner's visit a battle between pro-choice and pro-life activities is to ignore the another great moral problem Playboy and the Notre Dame College of Business Administration face — capital punishment.

Heifner is a successful businessmen who was invited to Notre Dame not because the magazine is at the forefront of unconventional muckraking, but because Playboy Enterprises is a profit-making member of capitalists society. The business college simply asked Heifner to speak at Notre Dame to say what most everyone there wants to hear: capitalism works.

While it remains conventional in its coverage of society, Playboy magazine has become a part of the American establishment. It is as accepted as the Wall Street Journal and New York Times — read by capitalists as Mother Jones in read by socialists.

Law and judges have covered the University of covering the incident, Information Services and the business college categorically deny a cover-up. But why should the business college or University cover-up the visit?

Notre Dame's Office of Information Services issued a press release announcing Heifner's visit. The wording of the release, however, became another cog in the debate over respect for capitalistic success as it charts the rapid rise of Heifner in the corporation he started 50 years ago.

Administrators who may have fended embarrasment now may exploit Heifner's visit. They probably will claim the entire enterprise is opened-minded because a controversial figure as Heifner spoke, and single issue conservatives such as Frank Rice will play into administrators' hands by taking issue against Heifner's visit not because she's a devout capitalist, but because she favors abortion.

And that's too bad.

Inside Thursday

Tale of strange bedfellows: Will ND exploit Heifner?

"I suppose of what you say, but I will defend to the death your right to say it," Voltaire

With all the controversy about Christien Heifner and Playboy Enterprises, what does the University get out of her visit?

A lot. If first it seems improvable that Heifner's visit could give Notre Dame some academic credibility, one must realize how University administrators could exploit Heifner by saying that, as Voltaire, believe all per- sons have a right to say what they want.

The University and business college, by inviting Heifner to speak, prove no one can convince liberal academics that the bastion of conservative American Catholicism is an open-minded institution which allows anyone to voice her or his ideology.

Heifner's visit, but they probably will stop giving money to Notre Dame — the only repercussion administrators fear.

Anyway, business college administrators have a legitimate reason for invit­ ing Heifner: she's a recognized success who "will attract a heck of a lot more listeners than a less known businesswoman," says Kevin Misiewicz, a professor in the business college.

The majority of those who think Heifner's appearance is a disgrace accuse Heifner of supporting abortion on demand and making women women through Playboy's sex publications.

"University subject to Heifner's views as "antithetical to everything the Church teaches," as law professor and abortion critic Charles Rice does. But Heifner is by no means only concerned with publishing Playboy magazine.

Few certainly Heifner is a successful businessmen — one who heads a multi-million dollar organization which includes gambling casinos, hotels, and movie studios.

The magazine itself is much more than pro-abortion editorials or centerfolds of nude models. Playboy publishes fine investigative articles and indepth analyses of social problems — topics which few other magazines would touch with a 10-foot pole.

What scares me most about Heifner's visit is that abor­ tion critics have ignored the debate. I too do not favor abortion. And that's too bad.
Survey of SMC students to explore how ‘the people’ view social life

By EDWARD NOLAN
News staff

A survey on campus social issues will be conducted by the Saint Mary’s Programming Board, a committee of the Board of Governors, on Nov. 9 and 10. The final plans for the survey were completed at last night’s Programming Board meeting.

The purpose of the survey is to give students an opportunity to meet their representatives and air their opinions. Questions concerning campus activities and their publicity will be emphasized.

The survey will be conducted orally, not with the typical anonymous multiple-choice method. Each Board of Governors representative and Programming Board member will be assigned several tables in the Saint Mary’s dining hall to question the students while at dinner. Programming Board member Mary Ann Potter, one of the initiators of the survey, commented, “Students do not go to the people in the positions to fix their problems, as a rule. It is our job to go to them.”

The last survey of this type was taken three years ago at Saint Mary’s, but the board said it was ineffective in assessing the students’ concerns. This time the board is looking for more positive results and general input from the students.

It was also announced at the meeting that the Oxfam Fast has been tentatively scheduled for Nov. 17. “The fast is designed to increase awareness among the student body of the world hunger issue,” said board member Katie Hoban. Saint Mary’s students are asked to fast for one day during the year to focus attention on hunger.

We’re looking for Notre Dame accounting majors with the GRACE DIMENSION

We need outstanding individuals to go to work in our corporate headquarters in New York. We prefer majors in accounting, but will consider other majors with a minimum of three accounting courses. These positions are in the Financial Planning and Analysis Division of W.R. Grace & Co.

The Division’s job is to assist the Chief Executive Officer and corporate management in analyzing the strategic and operating issues facing Grace’s businesses. It evaluates the five-year business plans and the performance of all our operating divisions in chemicals, natural resources, and consumer products.

As a member of this division, you will review all major capital investment proposals, and undertake special projects initiated by corporate management, by the operating divisions or by the department itself.

If you’re successful, you will spend several years in the Financial Planning and Analysis Division, after which relocation outside of New York City is likely. Promotion and increased responsibilities will be principally financial; opening up possible moves into line positions throughout international operations.

W.R. Grace is an unusual company, a $5.1 billion multinational which in the last ten years has seen its income grow from $361 million to $3616 million. Growth like this relies upon people with an unusual mix of professional abilities and individual characteristics if you like assuming responsibility, and can prove it to us.

If you are an effective communicator, and can prove it to us, then you may have the Grace Dimension.

If you have that dimension, the chances are you know it. We would like you to tell us about it, or show us.

Send your resume and we will arrange to visit you on campus. Send it to Joseph Fitzgerald, Manager College Recruitment, W.R. Grace & Co., 1114 Avenue of the Americas, New York, N.Y. 10036.

been a whole different set of cir-
cumstances,” he said. “Cap’n Crunch Night at ‘Senior Bar’ has been added to the schedule of events for the week, said Sopho-
more Class Vice President Jason Baker. The event will take place Tuesday night from 8 to 11 and will be non-alcoholic, said Baker. Cap’n Crunch will be present, distributing free T-shirts at random, she added. Admission will be $1.

Registration for the eating contest and the Cap’n Crunch costume contest is underway and will continue each night from 6 to 9 until Tuesday in LaFortune, said Broussard. Registration also will be held in the dining halls during dinner tomorrow until Tuesday, he added. There is a $5 fee per team for the eating contest, but registration for the costume contest is free.

Beginning Monday, certificates for a limited-edition Cap’n Crunch/Notic Dame T-shirt will be hidden on campus, said Baker. These certificates will be redeemable throughout the week from 6 p.m. to 9 p.m. in LaFortune, she added.

NOW-WWE’LL PAY YOU TO ATTEND MEDICAL SCHOOL

In fact, we’ll even pay you more than $575 a month while you attend. That’s in addition to paying for your full tuition and required books and fees.

It’s all part of the Armed Forces Health Professions Scholarship Program. How does it work?

If you’re selected for a Physician Scholarship—from the Army, Navy, or Air Force—you’re commissioned as an officer in the Reserve.

While you’re in school, you’ll serve days a year on active duty, gaining valuable medical experience. After graduation, you will serve three or more years, the length depending on the requirements of the Service selected and years of scholarship assistance received.

An Armed Forces physician you’ll receive officer’s pay and benefits, and enjoy the advantages of working regular hours. You’ll also see a diversity of patients and have opportunities to use sophisticated medical technology.

But most important, while you’re in medical school we’ll help pay the bills. For more information, send in the coupon. There’s no obligation whatsoever.

Judicial Council coordinator wants his group to regain credibility

By JOSEPH MURPHY
News Staff

The Judicial Council should be "an advocate of students rights," Judicial Coordinator Bob Gleason said last night at meeting with council members, and he said he wants to "make sure students know their rights."

But before he can do that, Gleason said he has to help the council regain its credibility.

"In recent years, the Judicial Council has been less than effective in carrying out its duty," he said, adding that Student Government has reduced the Judicial Council's budget drastically since the council was formed in 1976.

Still, Gleason is hopeful that the council can benefit the student body.

"Our job above all is to maintain, but rather to strengthen and safeguard the Judicial Board system," he said. "Each dorm has a judicial board to which students can appeal disciplinary decisions of their rectors."

The other committees are the Special Events Committee, the Public Relations Committee, and the Newsletter Committee. Each has a specific role to perform. The Special Events Committee will hold a workshop within the next month for the new judicial council members. All of these events are part of Gleason's plan to upgrade the Judicial Council's performance.

Gleason said, "We can only recommend, the administration has the final word."

In judicial matters be emphasizes that the Council is not an "adversary" to the administration. In fact, he said, "The administration is supportive of the student government. The Student Government decreased my budget because of past performance." The members of the Council, which is comprised of the judicial board members from each hall and a few cabinet members, want to get the Council back on its feet. Their next meeting is Nov. 2 and they hope to have reports from the five committees on what improvements can be made regarding the Council's objectives.

Because of an editing error, a story in yesterday's Observer incorrectly reported that an evening concert of choral and organ music by Craig Cramer and the Notre Dame Chorale would be held last night in Sacred Heart Church. The concert will be held in the church next Wednesday at 8 p.m.

Some question have to be answered and some changes may have to be made."

The three priests said they support tougher policies if that would solve the problem. Tyson said, "I'm willing to go to a dry campus if that is what is needed, but I'd really rather not." Beauchamp agreed saying, "If solving the problem requires toughening of the rules, such as a dry campus, so be it."

"As residents of the Notre Dame community, it is both necessary and desirable for the students to have as great a role as possible in ensuring its good order." He wants to create "greater student awareness" of the means available through the Council to handle discipline.

The Judicial Council is composed of five committees, each with its own chairman. Joe Roveda, the head of the DuLac Review Committee, said, "We want to get a general direction of where we want to go." The Council's second meeting last night was an attempt to do just that. In addition to reviewing DuLac, the Council through its Judicial Review Committee will analyse judicial procedures now in effect.

ference in the way alcohol is used," said Beauchamp. "It would be very good if the students did it, but unfortunately they don't seem to and the administration has to come across as the heavy."

Party rules can make a huge difference in the use of alcohol, according to Beauchamp. Tyson added, "Social space can determine parties and the use of alcohol at them. It's partially a space and environment problem."

All four of the committee members said it is too early to tell the results of the committee's study and said, Tyso said, "I'd like to refine the present rules," Callaghan said, "I'm in favor of the present situation, but I think..."
A letter to and from the editor

Dear Editor:

Enclosed is a 25 page letter addressing five subjects. I hope you'll run it on consecutive days without editing since I am a very wealthy person.

The first pages are a rebuttal of Bob Fluck's reply to Joe Calkins letter on Smith's comments about C, Reilly's feelings on the immorality of breathing. I argue that if God thought breathing was morally acceptable, why would he allow pollution to exist? Either breathing is wrong, or there is no God.

Keith Picher
Guest Editor

Profoundly's demise

The next part of my letter concerns a more important subject; it was what the kitchen in the other day. I found my grandmother's old recipe for black raspberry dumplings. Printing it on the Viewpoint page would be a great service to the community. I think her ingredients will stir up a good deal of controversy around campuses (most people use less baking soda and plain, not whole wheat flour.)

My letter's third part is a rebuttal. That inanimate, monistic, un-Christian, little stub who was the universe has been hit a bit too for this time. In his column of November 7, 1981 he asserts the speed of light is 186,200 miles per second. If he had bothered to exercise some journalistic responsibility he would have discovered that light travels at 186,282 miles a second. I know he wrote the column nearly two years ago, but many of us are still up by his irresponsible comment. My letter is three times longer than the original column, but please leave it with the editor, it is usually acceptable. Why would he allow pollution to exist? Either breathing is wrong, or there is no God.

Mark Fredrick
Guest Editorial

So send my Hungarian noodles to India

How many times have we left food on our plates and tossed food into the garbage can as this sounds, and heard some wise crack about waste? The standard comeback is, "So send my Hungarian Noodle-dike to the poor and hungry in India." I suppose people would usually accept that. We dropped it for our food and do so with it as we please.

P. O. Box O

Maguire stand

Dear Editor:

Just out of concerned curiosity, what is it that Doctor Maguire advocated? If he is not pro-abortion, then his endorsement of the abortion bill is puzzling. If he is pro-abortion, as the recent article indicated, why not come out and say so?

If Notre Dame is to remain a Catholic University it must teach Catholic doctrine to its undergraduates. There is no moral theology. Is it Catholic doctrine that abortion is wrong? Therefore, teachers of undergraduates should teach this doctrine at Notre Dame.

What a professor discusses with his pupils in his or her business, we understand, and he understands in the 12 hours of theology allowed us here has a right to have the Catholic viewpoint presented, not the private views of private theologians. We are paying tuition for this. And could this be John A. O'Brien chair, the position which Dr. Maguire is presently filling, a chair for teaching Roman Catholic Theology?

Founded November 3, 1961

Thursday, October 13, 1983 — page 6

Berce Breathed, Mr. Larson, Max Lerner, and Mr. Associated Press all refuse to comment on student life here at Notre Dame and Saint Mary's. I think you should sit down and have a talk with each of them about their 'Holier than Thou' attitude, and the fact that they don't produce. I could do a better job than any of them.

Please run my letter in large type in the upper left corner of the page. A staff artist should compose a cartoon for each article. Also, run the article in three columns instead of the usual four. The headline should be done in either standard or italic type (after all, I wouldn't want to infringe on your responsibility as editor of thisuncharged since the entire essence will be lost if you alter a word)

The fourth portion of my letter concerns a recent comment made by your executive editor in chief. He states "I like the yellow paint in my room." How can anyone make such a blatant racist slur. Though the comment clearly indicates his hatred for Indians, the text is not easy to make out.

The last portion of my text concerns several writers on The Observer staff, Miss Marilyn, Mark Fredrick, and Mr. McGinn. What is it that they submit material for publication. I have decided not to run your 25 page letter to the editor, and have written this letter so I can avoid talking to you personally.

Mr. McGinn:

Rarely do I write to those who submit material for publication. I have decided not to run your 25 page letter to the editor, and have written this letter so I can avoid talking to you personally.

Very, very, sincerely yours,

M.J. Twofaced

Mr. McGinn:

My decision was difficult. When a letter like yours finds its way to my mailbox, I either throw it away or publish it in its entirety. If I throw it away I keep the Notre Dame and Saint Mary's community from reading your work. If I publish it, 6,000 people will learn how naive you are.

Don't misunderstand me, The Observer always is looking for letters which are typed (to keep our typists happy), concise (to keep our readers happy), and well thought out (to keep me happy)

When I receive letters like yours, though, I wonder whether you're more concerned with seeing your name in print or saving something coherent. Remember, Mr. McGinn, nobody has a right to a letter published, through I have a responsibility to present varying points of view.

I never promised to print your letter, so don't be offended when it doesn't appear. In the same way I try to respect your opinions, please respect my editorial decisions. Hopefully, you will do so.

Sincerely,

The Editor
The Flying Fathers, known as the Harlem Globetrotters of ice hockey, will play a game Wednesday, Nov. 9 at the ACC for the benefit of Phoenix House, the house for recovering alcoholic women in New York. The fathers are an internationally-known group of priests, and have at all one time played either amateur or pro hockey prior to entering the seminary. They will play a 20-minute exhibition hockey game at the Dan Club hockey team, the St. Joseph's High School hockey team, and the Ice Boxers of the Michigan Senior League. — The Observer

Vagas Ferguson, the Irish star backwasher who graduated in the Lafarge year, was on the phone last week discussing folk music with Ferguson, the all time leading scorer for Notre Dame, had been cut by the New England Patriots before the start of the season. — AP

The fourth annual running of The Human Race is set for 10 a.m. on Saturday, Oct. 15. The 10-kilometer footrace and fun run are sponsored by the Broadway Christian Parish United Methodist Church and the South Bend YMCA. The race is a fund raising event for both organizations. Registration forms for the race can be obtained at Broadway Christian Parish, the YMCA, the Athletic Foot's Foot in University Park Mall, and the Athletic Annex stores in Southscat Mall and the University Commons. — The Observer

The Wind Surfing Club will be meeting at 8 o'clock in the Lafarge hall to discuss their plans and to arrange the Navy and game board for those who wish to bring their boards back after a break. Those attending should both provide insurance of their boards. — The Observer

The Notre Dame-USC game, to be played Oct. 22 in ND Stadium, will also shown live via closed-circuit television at the Student Activity Center. All football fans in the student body are invited. All Northeastern University fans in the student body are invited.

NCAA regulations prohibit any lining of a closed-circuit broadcast of the game. All 59,075 seats in the stadium have been sold out since last summer.

The Observer Lafayette office accepts classified advertising from 9 a.m. to 12 p.m. Monday through Thursday. All classifieds are accepted at the front desk of Hager. College Center, open from 9 a.m. to 5 p.m. Monday through Friday. Classified ads may be placed in the office at any time.

All classifieds must be typed,大战 a person or a job change in any story; allow a 20-word limitation.
Marcus Dupree, the outstanding sophomore tailback for the Oklahoma Sooners, has been practice since the Sooners' 28-16 loss to Texas last dropped from the team. He had not reported to Saturday. See story at left for more details.

Shaping tomorrow...

Looking to the future. And helping to shape it. Be a part of projects that go far beyond easily defined technology. Live in a world where few disciplines are static, few problems are simple and few dreams impossible ... a world where you can make a difference.

TRW
TRW offers a wide range of challenging opportunities in the fields listed; projects that range from theoretical studies to small, medium, and large hardware contracts for space, digital communications, software development, systems engineering and microelectronics.

TRW offers full support for your continuing education plus a work environment that is exceptionally attractive to self-motivated people.

TRW will be on-campus
November 3 and November 4
See your placement office for sign up information and plan to start shaping your tomorrow.

"Last year we played them and won, 2-0. They have most of their people back." Despite the concern, Grace, an 87-1 loser to Keenan last week, will have a tough time trying to stop Dilks' 1-7 wining streak.

The best matchup of the weekend will feature two teams from the Leash Division as Alumni faces Zahn Sunday at 3:00 on Stepan North. Stanford, idle this weekend, owns first place in the division with a 5-0 record. However, Alumni still has a good chance of capturing the title if they can defeat Zahn this week and finish the season with a win over Stanford. John Burke, Alumni captain, is confident going into the last two games, "We're looking to win both games. I think Stanford will be tough, but we haven't seen Zahn yet."

The verdict is still out on the Alumni team which defeated Cavanaugh in its first game but struggled to a 0-4 tie with Holy Cross last Sunday. "We've been moving the ball but haven't scored so we have yet to prove ourselves," remarked Burke. "The defense looks tough, though, and we have a lot of fresh talent." Holy Cross will try to keep their slim playoff hopes alive as they face flawless Cavanaugh.

The rest of this weekend's games include Morrissette v. Keenan, O.C.C. v. Flanner, and Sinn v. Carroll.
**GROUP PROGRAMS**

**Building Self-Esteem:** A program designed to help students identify thoughts, feelings, and behaviors that affect self-esteem, and to explore and practice new ways of increasing positive feelings.

**Relationship Enrichment:** A program designed to teach students how to communicate effectively and enhance their relationship through the use of role play techniques.

**Developing Assertive Behavior:** A program designed to help students identify thoughts, feelings, and behaviors that affect self-esteem, and to explore and practice new ways of increasing positive feelings.

**Stress Management:** This program will focus on skills to successfully deal with stress. The purpose of the group will be to help students understand and cope with stressful factors in their daily lives. Each student will be assisted in designing his/her own stress management program to meet his/her own individual needs.

**Men’s Awareness Group:** The purpose of this group is to bring men together to examine the effects of being born male, the sex role expectations men have, the responsibilities of being male, explore new ways of relating to others. Membership is restricted to males.

**To Enroll:** Call the Counseling and Psychological Services Center at 284-4597 between 9:00 a.m. and 5:00 p.m., Monday - Friday. To participate in some of the groups, you may first need to have an appointment to see the leader. All groups are limited and on a first come, first served basis. The Counseling and Psychological Services Center is located in the 3rd floor of the Student Health Center.

**Ford gets beaned**

**Associated Press**

BALTIMORE — The pitch, as Dan Ford best remembers, was heading toward his head and "it was coming fast."

The pitch, a fastball from Philadelphia reliever Willie Hernandez in the eighth inning of Game 2 of the World Series last night, hit Ford on the helmet — sending the helmet flying — and broke his glasses.

As soon as Ford slumped to the ground, Hernandez and Baltimore third base coach Cal Ripken Sr. came running in to check Ford. After a couple of minutes, Ford was helped to his feet and he remained in the game.

Today

Thursday, October 13, 1983 — page 11
By TOM ANTONINI
Sports Writer

With only two weeks remaining in the Little League season, there is still much to be decided with regard to the up- coming championship games. Each of the sixteen teams will enter these final weeks with at least some chance of seeing postseason action.

This year's playoff format has expanded to include six teams. According to the director of inter- hool football, the agreements of the teams to schedule one extra game before October break allows for the increase in the number of playoff games that will be played in Novem-

Under this new system, the two teams with the best won-loss record from each of the three divisions will advance to the playoffs. In addition, the top two ranked teams overall will receive first-round byes. In case of a tie, the teams which receive a by will be chosen at random.

The games will be played on con- secutive Sundays beginning the sixth week of October. The setup is designed to insure that the top two seeded teams will not meet each other until the final week. The final field is set for November 20, but the loca- tion has yet to be determined. There is hope that the game will be played in Notre Dame Stadium as it was last year.

The Rockne Division is indicative of the close competition in each league. Although undefeated Hose is ranked as high as champion Dillion, the minimum 2-0-1 record, both Carroll and St. Edward's are within reach of the playoffs. St. Ed's controls their own destiny as they only face tough Outagamie this week before facing Howard in the season finale.

As in the past, Dillon continues to dominate the Parquis Division with a 6-0 record. However, the Big Red has faced some tough competi- tion from Flanner this year. Flanner is now 2-1 after losing to Dillion Sunday by a 3-0 score. Charlie Rice, captain of the Dillon squad, wasn't surprised by the close game with Flanner and expects to see more of them in the playoffs. "Keehan and Off Campus still have a shot, but we expect to see them (Flanner) again," commented Rice. Flanner is also care- ful to avoid overlooking Grace. Dillion and Grace are both unbeaten. Although Grace is 0-1-2 so far this year. Rice thinks their record is deceiving.

Associated Press

Baltimore—Rookie Mike Bod- dicker pitched a three-hitter and drove in the winning run with a sacrifice fly in the fifth inning as the Baltimore Orioles won their 19th World Series game at one-game apiece last night with a 4-1 victory over the Philadelphia Phillies.

The Orioles scored their first three runs in the fifth inning, igniting John Lowenstein's leadoff homer and fueled by the bottom of the lineup, which until then had col- lected only four hits in post season play.

Lowenstein also had a double and a single in the game.

But the key was the right-hander throw- ing a "shoo ball" — a combination forkball-changeup — allowed only an infield single by Joe Morgan in the fourth inning, a two-out single by Gary Matthews in the seventh and a bloop single by Bo Diaz in the eighth. Facing only three more bas- men than the minimum 27, he struck out three of the first four batters he faced and allowed only two baserunners to be called upon for only four putouts.

As a topper, Boddicker struck out Mike Flanagan, the Phillies go-to man, in the first inning, to lead off the game.

Boddicker walked no one — the second successive night Oiler pitchers issued no free passes.

The Philipps only one hit of the night was un- earned, the result of an error by first baseman Eddie Murray in the fourth inning.

Baltimore's victory, on a road to the first World Series title ever by an all-day rain, sent the two teams to Philadelphia for Friday's third game even at 1-1 in the best-of-seven series.

The Orioles will pitch left- hander Mike Flanagan, while the Phillies go with 300-game winner Steve Carlton.

Boddicker and Philadelphia's Charles Hudson were locked in a duel of rookie pitchers on the fifth such meeting in World Series his- tory, when Lowenstein struck in the fifth inning.

Before the inning was over, Boddicker had collected his first major league RBI — batting in a year when the designated hitter is banned from the Series — Rich Dauer had broken an 0-4-18 post-season slump, some questionable fielding had let the Phillips down, and the Orioles had sent nine men to the plate.

After Lowenstein's homer to near-straightaway hit, Boddicker went on to allow no runs from see SERIES...page 10

In case you haven't noticed, we've been seeing a dif- ferent Notre Dame football team over the past two weeks. Granted, the opponent has not been the greatest, but the team now has that something extra that has been missing for quite a while.

No, it's not Steve Beuerlein. The man looks great and makes the future look very bright indeed. In fact, he makes the present look pretty good. But, while he may help the offense's consistency, doesn't play defense, and that is where the improvement has been most noticeable.

No, what the team has is that spark, that intensity that it was missing for a long, long time.

You may remember, that a few weeks ago, the Miami football team pushed Notre Dame all over the field in front of a national audience. The Miami players badly intimidated that Irish that night, taunting them verbally and making the future look very bright indeed.

Actually, it looks like they tried to. Somethings like that doesn't happen to Notre Dame players arc not going to let opponents

But, the only thing that matters is what goes on down the road. "Keenan will continue to play like they are now, it may prove to be the most important team meeting in Notre Dame history. After all, the change has been dramatic. Notre Dame players badly intimidated that Irish that night, taunting them verbally and making the future look very bright indeed. In fact, he makes the present look pretty good. But, while he may help the offense's consistency, doesn't play defense, and that is where the improvement has been most noticeable.
