Food sales controversy provokes allegations

By DAN MCCULLOUGH
Senior Staff Reporter

A South Bend pizza distributor has accused University President John VanWulfer of trying to drive the university's largest food retailer out of business.

VanWulfer, who is currently in a dispute with the university over the sale of beer and wine in dorm rooms, recently proposed a plan to move the campus bookstore and gift shop into a dormitory. This plan would reportedly eliminate the bookstore's current space and force it to move to a smaller location on campus.

The university has yet to respond to the proposal, but sources say VanWulfer is determined to see it through.

Meanwhile, the pizza distributor, who wishes to remain anonymous, has written a letter to the university expressing concern about the proposed plan. The letter cites a number of issues, including the potential loss of revenue for the bookstore and the impact on the university's reputation.

The university has not yet released a statement on the matter.

Snow storms cause 37 fatalities

A blizzard blamed for 37 deaths took a turn for the worse in the Great Plains region Tuesday while a third snowstorm moved into the interior Rocky Mountains.

The blizzard, which was first reported on Monday, has claimed the lives of at least 37 people in the region. Many of the deaths were due to hypothermia and exposure to bitter cold.

The blizzard is expected to continue through the week, with blizzard conditions likely to persist in many areas.

In Brief

The Institute of Nuclear Power Operations in Atlanta has awarded seven scholarships for the 1983-84 academic year to students at Notre Dame. INPO is a non-profit organization dedicated to promoting excellence in construction and operation of the nation's nuclear power plants. The seven recipients, all mechanical engineers, include three seniors: Carl Cera from Pitts­burgh, David Sarphie from Roswell, Ga., and Sharon Terpin from Mcdonald, Pa.; two juniors: Eric Enghardt from Cedarberg, Wis. and Catherine Schuur from Halwinv, Mo.; one sophomore: Jeffrey Borkowski from South Bend, and one freshman: Erik Hickey from Walker, Minn. Each year INPO awards $250,000 to 200 top-notch undergraduates nationwide who are studying in fields related to nuclear power. The funds are provided by INPO's members—the U.S. utilities that are operating or building nuclear power plants. — The Observer

The annual sale of UNICEF cards, puzzles, calendars and stationary is underway in the Memorial Library con­course. The sale runs everyday from 9:30 a.m. to 4:30 p.m. until Friday, Dec. 2, and is sponsored by the Ladies of Notre Dame and Saint Mary's. All proceeds from the sale go to UNICEF to help needy children around the world. — The Observer

Students interested in summer internships in Wash­ington, D.C. should stop by the Student Government offices on the second floor of Lafortune this week and pick up an information packet. The packet, compiled by the U.S. Department of Education, contains addresses and publications for internship applications. Any questions should be referred to the Student Lobby Commission at 259-7680. — The Observer

The Amateur Radio Club of Notre Dame hopes to con­tact the crew of Spacelab at noon today and ND ham radio operators have already begun receiving transmissions from the space shuttle, according to Deneb Wolfe, radio club president. Wolfe said the astronauts aboard the shuttle will start transmitting to “loads and loads of ham radio operators” in the Midwest area today and continue throughout the week. He said it is difficult to estimate the chances of the getting through but added that the club will continue trying to hail the spacecraft Friday and Saturday. — The Observer

Crew tests adaptation of humans to space life

Associated Press

SPACE center, Houston — Scientists on the ground monitored the work of scientists in orbit yesterday as the crew of Skylab 3 gathered and jumped and stuck themselves to needles in exhaustive tests of human adaptation to weightlessness.

The six men aboard the space station Columbia concentrated on around-the-clock science yesterday — working on some of the 75 experiments that will fill almost every moment of their nine days orbiting 155 miles above Earth.

A mission scientist monitoring the astronauts from the Johnson Space Center said the experiments were "going extremely well" and the crew was doing "a good job."

The largest crew ever launched into space divided itself into two shifts, the Red Team and the Blue Team, and kept work going nonstop in the 23 by 14 feet science module called Spacelab, which was carried in Columbia's cargo bay.

West German Ulf Merbold, a payload specialist and the first non-American member of a U.S. spacecraft crew, specialized a chair that spun and twisted at a dizzy rate in a study of the body's balance mechanism.

The Blue Team scientists, mission specialists Owen Garriott and payload specialist Byron Lichtenberg, used elastic cords as slingshots to propel themselves to the spacecraft floor in a test of their response to a full in weightlessness. They also attacked electricity circuits on the back of their knees and endured mild electric shocks to trigger a reflex action that was recorded on monitors.

All four scientists drew blood samples.

While the scientists worked in the Spacelab, mission commander John Young of the Red Team and pilot Brewster Shaw of the Blue Team maneuvered Columbia from the spacecraft cockpit, changing the flight angle as required by experiments.

Officials at Johnson Space Center were delighted with the work.

"Things are going extremely well with all the investigations," said Rick Chappell, a scientist who monitored the Red Team.

Spacelab is a $1 billion module designed and built by the European Space Agency.

The first two days in space concentrated on man himself.

Merbold spun in a rotating chair to try to trigger movement in the heart's inner ear adapted to weightlessness.

The test is one of a series of experiments aimed at determining why almost half the shuttle astronauts have become ill in space.

Chappell said there has been no indication that any of the Spacelab crew has become experienced sickness, but he said the rotating chair may provide clues to why earlier astronauts were ill.

Garriott and Lichtenberg, in a related experiment, took turns in a harness attached to the Spacelab deck by elastic cords. In a televised view, Garriott grasped a bar that was randomly released by a computer, sending a message to his new wife in Europe.

SMC juniors to carol in the dorms as stuffed animals perform vigil

By SARAH WRIGHT

Seattle Times Staff

In Jerusalem, live animals witnessed a birth in a manner at Saint Mary's College, pets aren't allowed in the dorms, so stuffed ones will perform the vigil this year.

Dorm residents have been requested to place a stuffed animal facing west outside their doors on Sunday, Dec. 6. Members of the junior class, who will meet at 9 p.m. at the Haggar College Center outside dorm rooms will be carolling through all of the dorms, turning the animals to face east to witness the birth of Christ.

The Saint Mary's Board of Gover-

nce was informed of this and other Christmas festivities when they met earlier this week.

The Saint Mary's Christmas Bazaar will be held from Monday, Dec. 5 through Friday, Dec. 9 from 10 a.m. to 5 p.m. in the LeMans Hall lobby.

Thirty-five to forty booths will be featured with every organization selling different items. The entrance fee, which each organization paid to be in the bazaar, will be donated to charity. "It's a good opportunity for getting rid of those items you don't need and getting some shopping done," said Kathleen Murphy, a board member.

The junior class and the loc Saint Mary's alumnae are decorating a Christmas tree in front of Stapleton Lounge of LeMans Hall on Sunday, Dec. 4 at 2 p.m. There will be refreshments and a short prayer service afterwards.

The junior class is also sponsoring a "Kneading vs. Kneading" on Saturday, Dec. 3. Admission is one dollar and will be held at Carroll Hall at 7 and 9:15 p.m.

The LeMans/Holy Cross Christmas Formal will be held Friday, Dec. 2. The dance is being held at the Century Center. There will be a bar and a 21 I.D. is required to be served.

Reagan agrees on joint measures

Associated Press

WASHINGTON — President Reagan agreed yesterday on joint defense measures with Israel to counter what he called a growing Soviet threat in the Middle East, and endorsed a plan for withdrawal of foreign troops from Lebanon that Syria is threatening.

Israeli Prime Minister Yitzhak Shamir, ending two days of talks with Reagan, stressed that the May 17 troop withdrawal agreement will be implemented in "all its parts" despite Syria's bitter resistance. U.S. officials said they would go no more to make the accord more palatable to Syria.

Thus, the outlook for breaking the deadlock that has kept Israeli, Syrian and Palestinian forces in Lebanon remained dim, as Reagan bade farewell to Shamir and began preparing for a visit Thursday by Lebanese President Amint Gemayel.

Reagan said his discussions with Shamir focused on "the agony of Lebanon and the threat there to our common interests." They disagreed on several issues, including the spread of Israeli settlements on the occupied West Bank of the Jordan River, but forged stronger ties between their countries.

Their most significant step was to establish a military commission to plan joint maneuvers in the Mediterrane-

rán. Reagan said the purpose was to respond to a "mutual threat posed by increased Soviet involvement in the Middle East."

A senior administration official, who spoke on condition that he not be identified, said the maneuvers plans amounted to "a message to Syria," which the Soviets have armed with missiles and hundreds of ad-

Ivers.

The official said moderate Arab governments should not be alarmed.

The meeting also paid off for Shamir with a U.S. promise to resume delivery of American-made cluster and heavy artillery shells. Delivery was suspended in July 1982 after Israeli troops stormed across the Lebanon border to break the back of the Palestine Liberation Organization in Beirut.

"The United States and Israel also will coordinate more closely against each other's products, and up to $500 million in U.S. credits will be common.

stormed into the teens yesterday, offi-

cials kept a snow emergency decla-

ra — restricting parking on main streets — in effect though most major streets were cleared.

In Michigan, the departing bliz-

ard dumped up to a foot of snow on the state. In Indiana, the town of Cabel got 16 inches.

Midwesterners faced 13 inches of snow, which brought the November total to a record 29 inches and the snowfall total to a record 77 inches.

Snow also was falling over parts of northern Illinois, including Chicago, leaving some roads and bridges slick but no heavy accumulations were reported.

The same storm also produced freezing rain and sleet over northern New England with a few inches of snow falling in places.

Appeals court grants permission to execute man Pope tried to save

Associated Press

STARKES, Fla. — A federal appeals court yesterday gave the state of Florida permission to execute convicted murderer Robert Sullivan, whom the pope tried to save from the electric chair. The execution was set for this morning.

The case then went to a U.S. Supreme Court justice, who asked to halt the execution rescheduled for 7 am EST Wednesday by Florida State Prison Superintendent Richard Dugger. Sullivan originally had been scheduled to die at 7 am yesterday.

An appeal had been filed with Powell on Monday, but his role was superseded when the appeals panel issued the stay. With the stay vacated, the case was back in Powell's hands.

A plea from Pope John Paul II that Sullivan be taken off death row was rejected by Gov. Bob Graham on yesterday night. Sullivan, 36, a Roman Catholic, insists he is innocent of murder.

"They haven't given us any timetable," said Art Wedinger, assistant general counsel to the governor. By late yesterday afternoon, there was still no word from the appeals court.

If the stay extended past noon today, the governor would have to issue a new death warrant. But if it was lifted, prison Superintendent Richard Dugger could set a new execution time immediately.

Sullivan was convicted of murdering Donald Schmidt, assistant manager of a Howard Johnson's in Homestead, Fla., following a $2,700 robbery at the restaurant on April 9, 1973.

Sullivan was waiting in an isolation cell a few steps from the electric chair at Florida State Prison in Starkes.

Euromissile deployment: the arms race continues

Editor's note: This is the first part of a two-part series on the deployment of U.S. missiles in Western Europe.

Since the inception of NATO in 1949, the United States has committed itself to the defense of Western Europe. Today there are roughly 65,000 American soldiers in Europe doing just that.

Beginning in 1977, then-Chancellor of West Germany Helmut Schmidt expressed concern that the United States was not willing to extend its "nuclear umbrella" over Western Europe. Schmidt and others feared that, in the event of westward Soviet aggression, the United States would not risk using U.S.-based weapons to defend Bonn.

In the face of a Soviet "modernization" of its nuclear forces, replacing aging SS-4 and SS-5 missiles with triple-warheaded SS-20, NATO unanimously voted on December 12, 1979 to pursue a "dual-track" response. One track was the deployment of 572 new U.S. missiles in Western Europe, the other was to enter into arms control negotiations with the Soviets to limit the number of Intermediate-range Nuclear Forces (hence the name: INF Talks). Four years later, the missiles are being deployed, the Soviets have termed further negotiations "impossible" while threatening retaliatory measures, and millions of European peace demonstrators are on the march. In the context of deployable U.S. Soviet relations, which many experts say are the worst since the Cuban Missile Crisis, the Euromissile deployment issue has become the most urgent and intensely debated political issue of the day, particularly in Europe. In 1980 and 1981, George Bush and Ronald Reagan made off-hand references to "limited" and "winturable" nuclear warheads. Europeans quickly deduced that a "limited" nuclear war would be staged in their backyards. They did not like the idea.

The deployment of U.S. missiles includes 108 Pershing IIs and 96 GLCMs (Ground-launched Cruise Missiles) in West Germany, 150 cruise in the United Kingdom, 112 in Italy and 48 in both Belgium and the Netherlands. Proponents of deployment argue that the missiles are a direct response to the 2,450 Soviet SS-20s aimed at Western Europe, and that without them, Western Europe will be vulnerable to "nuclear blackmail" at the hands of the Soviets. They argue that NATO has no comparable missile systems.

Yet the INF Talks have (so locked by the Reagan Administration and others) in 400 warheads on Poseidon submariners patrolling several thousand miles of Europe. Also ignored are the 5,840 U.S. "tactical" (battlefield) nuclear weapons in West Germany, as well as hundreds of nuclear-capable U.S. bomber squadrons stationed in Europe. Also threatening the Soviet missiles are 98 French and 64 British nuclear missiles.

There are qualitative differences between the U.S. weapons being deployed and the Soviet SS-20s. One difference is obvious—the U.S. missiles will threaten Moscow, while Soviet missiles pose no direct threat to the United States. Because the missiles will remain under exclusive U.S. control, they are forward-based strategic weapons. This asymmetry makes the deployment a "low-playing Cuban missile crisis in reverse."

Both the Pershing and cruise missiles are viable first-strike weapons. The cruise employs technology that the Soviets have yet to perfect. It flies 200 feet above ground, following the contours of the terrain, and is highly accurate and undetectable by radar. Yet the Pershing is even more menacing. It is the most accurate ballistic missile in the world (its circular error probability is 25 meters) and from West Germany it could reach the Soviet Union in five to six minutes.

These are irrelevant facts. The Pershing is just one of the manyNI missles in Europe. There is no "launch-on-warning" stance, leaving the initiative to the Soviets. This "use them or lose them" approach will make accidental nuclear war much more probable. If there is enough, the 20-foot-long cruise missile, once deployed, will make any future arms control agreement virtually impossible, even with on-site inspections (a missile that is easy to hide).

Militarily, the U.S. deployment of nuclear missiles in Europe marks the latest and most provocative escalation of the arms race. Rather than leading the Soviets to "negotiate seriously," it appears that deployment can only deepen trust in U.S.-Soviet relations, such that our diplomatic dialogue will be carried on by missiles, rather than words. If the Soviets counter our deployment with the counter-deployment, they have threatened. should we counter-deploy more missiles?

P. O. Box Q

Irish attitudes

Dear Editor:
This has been the twentieth year that I have made my trips back to Notre Dame campus to witness the exploits of the Fighting Irish football team. During that span, I have witnessed many victories and few defeats. But it seems that the defeats are becoming a lot more commonplace. I feel that these failures can be laid at the feet of only one individual, Gerry Faust. He has done a superb job of recruiting since his arrival three years ago. But what happens to these "blue chippers" once they arrive at ND?
I had my reservations about Coach Faust when it was first announced that Notre Dame had hired a "high school coach" to lead the Irish. How could they expect a "high school coach" to match football knowledge with the likes of Paterno, Snellenburgers and Perfis (four superb bowl teams) at this amount to a one-sided monarch. It appears to me that there has been a tremendous change in the attitude of the Irish football program. I would like to offer the following examples to support my opinion:
(1) When was the last time you ever saw players under Coach Parseghian or Coach Devine leading the cheers from the field? Their primary concern should be blocking and tackling—not worrying about the crowd.
(2) An excessive number of personal fouls called on the team — unnecessary roughness, late hits, unsportsmanlike conduct, etc. The team is beginning to express the frustrations that are being shown by their coach.
(3) Larry Kivlin had his 9 out of their last 11 on national television. It is bad enough losing that often but the disgrace to get "blown out" the way they have lately. What effect will this have on recruiting in future years?
(4) A losing season at home (2-3) against mediocre competition.
(5) To hear Ara comment on television the ND should stay home—they don't deserve a bowl bid.

Patrick Keelley

ND tradition

Dear Editor:
The Notre Dame winning tradition has evaporated over the past three years. Instead of great victories over favorites and coming from behind victories that made Notre Dame "America's Team", now the Spartans, the Hurricanes, the Falcons, the Wildcats and the Lions get the glory.

Instead of waiting for the inspiration to come to the Irish to gain victory, I listen and watch for the mistakes, and the initiative to be taken away.

This is not what Notre Dame tradition is. These great victories are for the opposition now. Air Force is still inapture from last year. Michigan State had a successful season by beating the Irish. Penn State salvaged their season.

Not enough! As I write this letter, Boston College appears to be the N.D.'s foe in the Liberty Bowl. How low have the Irish sunk? To be playing against a school that plays Yale and loses to Syracuse and will probably be the favorite O Longhorns/O money Irish — whatever the problems are — solve them!

Department Managers
Miss Manners
When whistling is welcome
by Judith Martin

I f Miss Manners is capable of anything so indiscreet as a knee-jerk reaction, it is to favor kindness over frankness, and to choose American manners over European. Nevertheless, there is one arena in which she champions a small but shrewd preference for the mean.

European custom over the generous American one.

"How was it?" when what is obviously meant was "Tell me I didn't make a complete fool of myself." Only a monster would reply, in fact, "Actually, you did."

But in the realm of top professional high culture, there is a division of opinion as to whether people of tremendous reputation and fees, successful or not in Europe, applaud is the favorable way an audience expresses its appreciation to performers for their efforts, successful or not. In Europe, applause is the favorable response to those who have found the performance enjoyable. Emotionally she knows the difference whether or not the napkin is on your lap? If you can

Miss Manners — Since so many wear slacks at restaurants, I think it is time to change the etiquette rules regarding placing paper napkins on your lap. Generally she prefers being in a volatile restaurant to a uniformly reverential American one. In an odd way, it seems more respectful to her to render keen judgments than to take in, with equal approbation, whatever comes along.

She does, however, disapprove thoroughly of any judgment that would ever do more than expose one's vulgarity at any but the appropriate time, which is when the offering has been completed. Curtain calls, for those who enjoy them, may be an obligatory part of attending a performance — are held so that audiences may express their opinions, in the form of clapping, standing, booping, whooping (a positive expression in America but negative in Europe), or silence.

At any other time, even the kindly encouragement of applause is off limits. One only need replace the music or critical dialogue just because the curtain has gone up showing the ragged cast of a wall, a favorite star has walked on (neither does one boo the arrival of an unknown), a great cultural feat such as a sustained note or pirouette be performed, or one realizes that the performance is drawing to its conclusion.

But if people are willing to observe these rules about not interfering with the ability of others to enjoy performances, Miss Manners is untroubled to interfere with their right to pronounce whether or not they have found the performance enjoyable. Emotionally she knows that this is one of the few areas in which changing people who take to the stage is easier, but culturally she is aware that there are those to whom discouragement would be kinder in the end.

Dear Miss Manners — Now that we are all so caffeine conscious, concluding a meal has become rather complicated. Once it was sufficient to offer coffee or tea for those who preferred the latter. Now I frequently encounter requests for caffeine-free coffee, and more trying, for caffeine-free tea of which there are numerous varieties. By the time the hostessess conclude the list of options the original beverage has grown cold; by the time one finishes serving all the varieties, conversation has stopped altogether, and one feels as if the meal has turned into an airline flight, or worse. Still, I'd like to please my guests, and please myself, and retain a pleasant conclusion to my favorite way of socializing.

Gerald Fromer

Dear Miss Manners, my cat was privy to a dangerous conversation recently, in which several otherwise upright looking people engaged in an animated discussion. One was saying to the other, "I want real coffee, that is, but those who want it caffeine-free is it. Let us not take such a drastic solution. Miss Manners prefers that you make what you think most people prefer, and admit sadly to the others that you do not have what they have requested. If this sounds inhospitable, it is at least no less than the elaborate taking of orders you describe.

Miss Manners

Many Americans watched "The Day After" last week. We said to ourselves, "That can't happen. I don't believe it." It is simply inconceivable. Humanity couldn't be that depraved to annihilate millions of people. Well, it has happened before.

Between 1935 and 1945, more than 18 million people were annihilated in Nazi-occupied Europe. Like the inhabitants of Lawrence, Kansas, the victims were innocent; the attack was unexpected. Families were forced apart and those who survived faced a world completely unlike the one they had known. These prisoners of war, men, women and children, were killed by gas: thousands were killed by execution, starvation or torture. The dead were buried in mass graves, and respect for life and death with dignity were ideals that simply did not apply. The actual experience of the Holocaust provides a frightening parallel to ABC's dramatization of a nuclear catastrophe.

Just as some of the characters in the movie survived the nuclear at tack, some prisoners survived the horrors of the concentration camps. World War II, in 1944 and 1945, a hearing was held in Frankfurt, West Germany, during which victims of Auschwitz spoke of their experiences in these torture chambers. The transcript of this hearing became the source of "The Investigation," a play being presented by the Notre Dame/Saint Mary's Theatre Department this weekend and next.

Peter Weiss, the author of "The Investigation," spent 20 months of testimony into a two hour montage that describes nearly every aspect of camp existence. Eight witnesses represent the hundreds who testified in Frankfurt, and fourteen, speak for every prisoner who passed through the camps. The aim of the hearing was to determine the culpability of the camp guards, administrators, and doctors, by following orders, were instrumented to bring about the deaths of the prisoners.

The aim of the play, however, is somewhat different. In his introduction, the author stresses that it is not his intention to peremptorily accuse the Auschwitz officials. Rather, it is humanity on trial. The play is a constant reminder that the line between prisoner and guard, oppressed and oppressor, is not a black and white distinction. One of the witnesses states, "Many of those who were destined to play the part of prisoners had grown up with the same ideas, the same way of looking at things as those who found themselves acting as guards... if they had not been designated prisoners, they could equally well have been guards." Walter K. F. C. Reich has described the play as "nothing less than humanity's own delight in sifting itself of humanity... (it is) disturbing in its implications.

"The Investigation" is indeed disturbing in its implications. It forces us to realize that the atrocities of World War II were not unique events characteristic of just one era. We must not shake our heads and pity the victims. We too can be the victims. A chilling line from the play seems to foreshadow the nuclear threat we now face: "We who still live with these pictures know that millions could stand again — waiting to be destroyed — and that the new destruction will be far more efficient than the old one was.

In trying to understand the problems of the nuclear age, it is important to look to the past. We must recognize that the motives behind destruction are not new. The human race has fought and continues to fight a battle against its own humanity.

"The Investigation" will be performed Dec. 2, 3, 8, 9 and 10 in the Center for Continuing Education. Tickets can be purchased by calling 284-4246.
**Sports Briefs**

The Off-Campus hockey team will be holding an organizational meeting today at 7 p.m. if those interested in participating should be at LaFortune at 8 p.m. — The Observer

**Bookstore Basketball**

Is it time for a commissioner for this spring's tournament? If you are a sophomore and are interested in running the intramural tournament, pick up an application at the Student Government office on the second floor of LaFortune. Applications for all other A:B:W commissioners are also available. All applications should be picked up by today. — The Observer

The Notre Dame Rowing Club has a meeting today at 7 p.m. in LaFortune's Little Theater. This is the final meeting of the year for A:B:W club members are required to attend this last meeting. — The Observer

**The Fellowship of Christian Athletes**

will be meeting tonight at 7 p.m. The meeting will be at the Anglia Athletic Facility at St. Mary's. Be prepared to play volleyball. Members are reminded to bring their own-shorts money. All are invited to attend. — The Observer

**Liberty Bowl tickets**

for Notre Dame and Saint Mary's tickets are available at the second floor bookstore. Show the following schedule: Today: junior, sophomore, Law/Glad students, Friday - freshmen. The ticket windows will be open from 9 a.m. to 4 p.m. (including the noon hour). When you report to the ticket window you will be asked to complete an application with your name, identification number, and class year. The cost of a ticket for the December 25th game in Memphis, Tenn. is $8. Checks should be made payable to Notre Dame's Athletic Association. Please check and sign completed application to the ticket clerk to receive your ticket. A student may present a maximum of two identification cards and applications for tickets. Members may purchase a ticket for their spouse at the time of issue by presenting proof of marriage. Upperclassmen may pick up their tickets after their designated day, but the last day of issue is Friday, December 2 — The Observer

Sign-ups for the insloco Squash tournament come to the end this week in the dorms. The Dec. 2-4 squash tournament appears to be as follows: A, "C" and "D" divisions. It is open to students only. Winners of this tournament advance to the regions held in Chicago in January. For more information, call Sean Richardson at 277-1649. — The Observer

Anyone interested in riding lessons should contact Margaret Hank at 8152 or Loreen Luman at 1674. — The Observer

“WE feel very confident we’ll be a competitive team,” he said. "We’re developing mental toughness and character from the first day of practice." The U.S. squad is led by forwards Pat LaFontaine, Dave A. Jensen and Scott Hipsgard, defenceman Chris Cleitos and Mark Fusco, and a pair of consistently steady goaltenders, Marc Behrond and Bob Mason. LaFontaine clearly is the star of the team. A first-round choice (third overall) of the New York Islanders in the National Hockey League entry draft last June, the 18-year-old centre is the leading scorer and most exciting player. He’s the man the － toward challenging the Soviets, now and in February.

"It’s exciting," said LaFontaine. "It doesn’t matter who’s on their team, it’s still tough. We’re the team you’re going to be afraid to face."

All-American team is selected

Associated Press

Oklahoma City — Top-ranked Nebraska, chasing a national champi-
onship and a perfect season, placed three players on the 40th an-
nual All-America team of the Foot-
ball Writers Association of America, announced yesterday.

The Cornhuskers, 12-0, were the
only team with three All-America
selections. Running back Mike Rozier, flanker Irvin Fryar and off-
fensive guard Dean Steinkuhler were chosen by an eight-man com-
mitee representing more than 700
members of the association.

Nebraska, which has held the No. 1
ranking every week this season, plays
Miami in the Orange Bowl on Jan. 2.

Rozier became the top rusher in
Big Eight Conference history, saturday,
gaining 205 yards in a 28-21 vic-
tory over Oklahoma to give him
4,780 in his three-year career.

His 1983 total of 2,148 yards also
was the second best single-season
effort in NCAA history, behind
Marcus Allen's 2,342 in 1981 at
Southern Cal.

Texas, the nation's No. 2-ranked
team, was represented by linebacker
Jeff Leiding and defensive back Jerry
Gray, and Brigham Young placed
quarterback Steve Young and tight
end Gordon Hudson. No other team
had more than one player chosen.

Only three players repeated from
the 1982 writers' team: Rozier, Hud-
son and Oklahoma defensive
linerman Rick Bryan.

Other schools represented on the
All-America team are Arizona,
Arizona State, Auburn, California,
Clemson, East Carolina, Georgia,
Illinois, Michigan, Navy, Pitt, S.M.U.,
Tennessee, UCLA, Southern Cal and
Wyoming.

Compared to 1982, Nebraska
averaged 1.2 yards per carry better
than opponents.

The Cornhuskers got 854 yards
on 63 carries against two defenses.
They averaged 4.7 yards per carry
against Nebraska.

to overcome such a situation." However, against Purdue-
Calumet, a runner-up to Franklin College in the IN3577 Tournament last year, the Belles were simply overpowered.Led by Gwen Markovics with 20 points, Purdue outscored Saint Mary's 24-9 in the first quarter, and 20-6 in the third
quarter, to reach the final 92-52 result.

The Belles converted only 12 of 24 attempts at the free-throw line, while Purdue tossed in 22 of 46. Fur-
theremore, Saint Mary's ran into foul trouble, as Pantelleria, Short, and Kreber all fouled out before the final
buzzer. Elaine Sues once again led the Belles' scoring drive with 14 points, while McGinnis tossed in 13
points, and Pantelleria added nine.

The Belles will participate in the
Goshen College Classic Basketball Tournament this weekend in Gosh-
en. The Belles will play Defiance College Friday night, then returning Saturday afternoon to face power-
house Franklin College.

Drug testing to be proposed

By HANK LOWENKRON
AP Sports Writer

INDIANAPOLIS — A proposal requiring drug testing and field meets in the United States will be voted on at the annual convention of The Athletics Congress, which begins today.

"Probably the most controversial issue at the convention will be that of drug testing," says Ollie Cassell, the executive director of the national governing body for athletics in the United States.

Cassell said TAC rules chairman Helio Rico of New York will make the proposal on drug monitoring, which is scheduled to be voted on Sunday, the final day of the meeting.

TAC rules require that any proposed legislation be mailed to all delegates 30 days before the convention begins so that they may be prepared for discussions on the topic, said Cassell, adding that he thinks Rico's proposal will be approved.

"Different committees can debate the proposed legislation during the general session has to vote on it, Cassell said. "Most of the delegates are expected to attend."

Drug testing became the major topic of this year's Pan-American Games in Caracas, Venezuela when several athletes were accused of being disqualified for allegedly using banned substances.

After hearing about the disqualification, a group of U.S. track and field athletes left Caracas before they competed. However, it was never determined if possible disqualification was the motivation behind their decisions to leave.

track and field representative who competed was disqualified.

Cassell says TAC's proposal is an important step toward solving the problem of drug testing.

"It would give a body out of TAC, either the executive committee of board of directors, authority to call for drug testing at certain events," Cassell said, adding that it could be called for at any event sanctioned by TAC.

"Before, we didn't have clear authority within our bylaws as to who could call for testing," he said.

The 1984 Summer Olympics in Los Angeles will be a major theme for the meetings at the Hyatt Regency Hotel. As host country for the 1984 Olympics, the United States will provide officials for track and field events. In a special three-day session that ends Wednesday, the Olympic officials Selection Committee will select the 150 people who will serve as officials next summer.

However, the names of those selected won't be announced until January. The selection process began last year when a committee was formed to develop a rating system for officials.

Other business items include revising selection procedures for the National Track and Field Hall of Fame, which is relocated here from Charleston, W.Va., determining entry standards for the national indoor and outdoor championships, selecting future sites for national championships, and rating all junior and senior American records and world records set in the United States, presenting annual awards, including three new honours that will go to individuals selected as the top middle distance runner, the top sprinter and the top field event performer, and selecting members of various international Athletic Federation and various committee chairs.

Jimmy Carnes, the organization's president since 1979, will provide the convention.

When General Motors orders a recall, we believe we are providing an important service to our customers and showing again how GM stands behind its products.

Every car we manufacture has 14,000 or so parts which must be interchangeable. Although the quality of parts in GM cars rivals that of the parts we supply for lunar rockets or for commercial jets, problems sometimes occur and probably always will.

You can't change the law of probability. Somewhere a machine tool may wear unexpectedly fast, or a material may have an invisible contamination.

General Motors tests its vehicles for millions of the dirtiest, dustiest, roughest, coldest, hottest miles imaginable. We even put our newly developed vehicles and parts into thousands of taxis and other fleets in dozens of locations all over North America. The goal: to put on real-world mileage fast. But even this is not as many as billions of miles driven by customers through every possible road, climate and maintenance condition.

Then the law of probability comes into play, especially since we produce millions more vehicles for North America than any other manufacturer. Although every car and truck manufacturer - both foreign and domestic - have recalls, we're a little more noticeable because of our numbers.

When you receive a recall notice on your car, you may feel like taking a gamble and ignoring it. Please don't. Answer it promptly. Follow the instructions in the letter. Recalls are initiated to protect your safety or to keep your car in good running order.

We publicize recalls so car owners will be aware of them. By federal regulation, General Motors has to notify owners by letter and report to the government on the progress of a recall for 18 months.

We go beyond the federal requirements. GM dealers send follow-up letters to owners if no response is received the first time. In addition, GM dealers can use our CRS (Computerized Recall Identification System) to tell you instantly if any recall work necessary on a vehicle recalled during the last 7 years. This is important to know when buying a used car. Ask any GM dealer for this information.

If you hear on television or radio of a recall which you think applies to your car, please follow these steps for your convenience.

First, wait until you receive a letter from us saying your car has been recalled. It may take some time before recalling list is compiled and parts can be distributed to the dealers.

Then call your dealer and give him the recall campaign number supplied in the letter. He will arrange an appointment to have the repairs made. This could save you time and could help the dealer to schedule his busy service department.

Two sided Irish fall to Hoosiers

BY MIKE SULLIVAN
Sports Editor

BLOOMINGTON, Ind. — The Notre Dame basketball team played two games in one last night at Indiana University Assembly Hall — one good, one bad. The second half was not enough to overcome a poor second half and the Irish dropped their first real test of the year 80-72 to the Hoosiers.

It was a 12-0 start early in the second half that allowed Indiana to wipe out a seven-point Notre Dame halftime lead. Good shooting by the Hoosiers and poor shooting by the Irish allowed them to take control of the game. The Irish, who had dominated the boards off the start while jumping out to a 12-point first half lead, did not help themselves as they committed a record number of costly turnovers and a lot of foul shots. Meanwhile, Indiana solved its first half problems and took advantage of the Notre Dame mistakes.

"I thought we played two halves and I thought IU played two halves," said Irish coach Digger Phelps. "They converted on their scoring situations in the second half, and we didn't. We made turnovers and missed foul shots.

The game was decided in the first 11 minutes of the second half led by the pay of freshman Marty Simons, who had a game high 22 points, and sophomore Steve Robinson, the Hoosiers began making their shots on offense and keeping Notre Dame away from the basket on the other end of the court. After Tom Smythe hit a jumper for two of his team high 18 points, IU began a stretch that saw it score 30 of the next 36 points.

"We were able to get some things together on offense in the second half," said Irish head coach Mike McQuillan. "They had problems making their shots. Their whole difference in the first 11 minutes was in the shooting.

"Everyone knew we had to do something after the first half," added Hoosier center Uwe Blab who finished with 15 points and 6 rebounds. "The first half was like a Miami, Ohio game (which IU lost 64-59 Saturday)."

What Indiana did was outscore Notre Dame 55-40 in the first half, shooting 57 percent from the floor, and 75 percent from the foul line and out rebounded the Irish 20-10. The sudden explosion by Knight's squad was too much for the young Irish.

After the Hoosier's charge gave them a 55-40 lead with nine minutes left in the game, things got sloppy as both teams began fouling heavily.

Before the game ended, six players had fouled out (three on each side). And it was the performance of each team at the foul line that kept Notre Dame from getting back into the game. As IU led 55-30 at the half, and the Irish could only sink 12 of 20 attempts. Despite a pressure defense that forced IU into 15 turnovers in the second half, the Irish could get no closer than seven points the rest of the way.

**see IRISH, page 8**

Face Goshen
Belles have big weekend coming up

BY DAVE WILSON
Sports Writer

Seemingly motivated by a convincing win over Lake Michigan College in a pre-season scrimmage, the Saint Mary's basketball team ... to a 79-68 victory over the Saints of St. Joseph's College on November 22 in the season opener. Coupled with Saturday's 52-92 defeat at powerful Purdue Calumet, the Belles take a 1-1 record into this weekend's important Goshen College Classic at Goshen.

In the home opener at Angela Ath- letic Facility against St. Joseph's, the Belles were paced by 16-point efforts from center Elaine Suarez and freshman guard Kris Pantellicia, and 17-points from forward Cindy Short. Saint Mary's proved that the taller team is not necessarily the more powerful, with help of a quick offense and a stubborn full-court defense.

"The key to the victory was our quickness", said head coach Mike Rouse. "We were able to force them into turnovers and then make those turnovers pay off for us.

"In the first five minutes the Belles caused the Saints to commit ten turnovers while only commit- ting five themselves. St. Joseph's seemed bothered by the full-court defense strategy, and in turn played in an offense that appeared sloppy and too quick.

"We wanted to always keep pressure on the ball," commented Rouse. "We kept the defense in a constant pattern change, and were usually one step ahead of them.

Rounding out the scoring, Teresa McGinnis cut off the bench to add 10 points, while starting guard Mary McQuillan contributed eight, Beth Kreher six, and Betsy Eobert two points.

At the foul line, the Belles were 17 of 20, with Pantellicia putting in eight of eleven, and Suarez making a perfect 5-5 from the line.

"I was really pleased with Kris (Pantellicia) performance tonight," said Roue. "She was interesting to see how she would handle the point-guard position. Elaine (Suarez) also played well at the center spot.

The Belles did have their problems and rough edges however, which could be expected against a team of such height and experience. Foul trouble as well as a number of unnecessary turnovers were a con­ tribution to the team's scoring threat in the second half of the game. Furthermore, Saint Mary's dominated the offensive boards, and once past the full court defense, the Saints produced a number of break- away layups.

St. Joseph's was led by 20 points from Jenny Pritchard, and 12 points from Sherry Henderson.

The context brought to light a number of interesting tactics employed by Coach Roue, including a 10-second delay of the offense for running of the thirty-second clock and a 'no-jump' strategy on the tip-off. In the case of the latter strategy, the Belles received the ball three times before they opted to hold on the jump.

"We have recognized that we are not a very tall team," pointed out Roue. "So, we must find strengths in our defense and speed.

Irish Items

The Greatest Rivalry in College Basketball...That's how many people have described the series between Notre Dame and UCLA, and there's plenty of evidence to support that claim.

January 23, 1973 — Austin Carr scores 46 points as the Irish defeat UCLA 89-82, handing the national champions their first loss of the season.

January 19, 1974 — One of the greatest games in college basketball history took place that year when center Greg Curtis from deep in the right corner to give the Irish a 71-70 win and snap UCLA's 88-game winning streak. The Irish trailed 70-79 with 3:12 left, before a 13-2 run during the final two minutes.

December 4, 1982 — Even though the Irish lost, this was still a dandy ballgame. John Paxson scores 25, but Ralph Jackson hits a loop with three seconds remaining to give UCLA a 65-64 win at the ACC.

This year's game adds to the misery of the last three years, as the Irish have won the last six in a row over Notre Dame. Hopefully, the Irish can put a halt to that streak on Saturday.

Bruins Bits...There are no Lew Alcindors or Bill Watsons on this Bruin team, but don't feel sorry for Larry Farmer. He has abondule All-America candidate in the forward Kenny Fields, one of the most underrated players in the nation. Fields averaged 18 points with a fine outside jumper to go with a strong inside game. Farmer is the most exciting players in the West. The middle of the lineup is anchored by 7-0 Smart Gray. While he is a dominant center, Gray is capable of clearing the boards with the best of them. Overall, this is a very sound UCLA team, and one that has the potential to be in the final four in Seattle.

Dooner Dribbles...Has Joe Plance taken over as basketball coach? The Irish are running up and down the floor like a track team. Phelps is taking full advantage of the quickness of this year's team, and it makes for exciting basketball.

While the Irish have been getting good production from a variety of folks, Phelps has been with the amount of turnovers (42 in the first two games) and several mental lapses made by the Irish. "We can't afford to play against UCLA on Saturday," said Phelps after the Marist game, and he's right.

Phelps will be looking for inside production from Tom Shelley, Tim Kempson, Jim Dolan, and Pat Mullaney, who is the key to the Irish offense. However, it will take a total six-man effort for forty minutes for Notre Dame to pull off the upset.

Pick of the Week...Swimming might be done for pleasure in the summer, but it's all in earnest competition tomorrow as Coach Den- nis Safrk's women's swimming team opens their 1983-84 season against Kent State tomorrow night at the Rockne Memorial Pool.

The Irish have a fine team, and this year should be no ex­ception as Safrk enters his third year as women's swimming coach. It should be a great way to break away from the cold weather, by watching the meet in the warm confines of the Rock.
