David, the “bubble boy” who spent his entire life in sterile rooms because he had no immunity to disease, died at the age of 12 last night at Houston’s Texas Children’s Hospital, spokeswoman Susannah Moore Griffin said. — AP

The American Catholic Studies Seminar will meet today for a talk by Father Alden Brown of Queens College in Flushing, N.Y. Brown will discuss “The Great Movement in the United States, 1940-1962: The Role of Women in the Lay Apostolate.” The seminar will begin at 4 p.m. in the Library Lounge. The lecture is sponsored by Notre Dame’s Latin Center. — The Observer

The Reagan Administration’s failure to seek cuts in air pollution evoked a strong diplomatic protest from Canada yesterday. Ambassador Allan Gotlieb said his government wants to persuade the administration acid rain is the most important U.S.-Canadian issue that threatens to raise “high-level concerns” among Canadians. The text of the note given to William Schoenleber, undersecretary of state for security assistance, science and technology, was not made public, but Gotlieb told reporters, “This is a strong note.” — AP

Indiana University Professor John R. Krueger kept a telephone “sex line” to arrange sexual liaison, and recruited a woman last year to work as a prostitute, prosecution witnesses testified yesterday. Pamela Koone of Bloomington told a Monroe Circuit Court jury that Krueger arranged over the past few years for her to have sex with five or six men at her trailer or in his house. A second Bloomington woman, Linda Sparks, testified Ms. Koone introduced her last year to the 56-year-old Krueger, who said he could help her make money. Their testimony was heard on the opening day of the trial. Ms. Koone testified that Krueger had between five and six phones in his house. “He had a regular line and he had the other line, that was his sex line. That’s what he called it,” she said. Krueger faces two felony counts of promoting prostitution and one misdemeanor count of soliciting a prostitute. — AP

Olympic theme, new activities to highlight this year's AnTostal

By MARY CAROL CREADON
News Staff

Spring fever may be raging in epidemic proportions on campus, but what promises to be a cure is still several weeks away.

This year's AnTostal could be the best ever, according to Chairman Dave Jakopin, who notes that the festival will have an Olympic theme this year.

In true Olympic tradition, a torch bearer will lead a procession of gladiators to the mud pits.

And what would the Olympics be without the grueling decathlon event? According to Jakopin, the AnTostal decathlon may not be as competitive as the original, but promises to be just as entertaining.

These are just two of the many activities being planned by the AnTostal committee in the spirit of the Olympics, said Jakopin, who adds that suggestions for other activities are welcome.

In addition to the popular events from preceding years such as Ugly Man on Campus, Bookstore basketball, ultimate frisbee, the Dating Game, and the various mud pit escapades, there will be many new events, said Jakopin. These include a slam dunk contest, an air band competition to be performed during the breaks of the Saturday night band, and a NewsyWired Game for married or engaged students only.

Jakopin urges all students to participate in the planning by offering suggestions for events and/or helping to run an event themselves.

There will be a second organizational meeting this Sunday, Feb. 26, in Cushing Hall at 7:15 p.m. for all those interested.

Manmgement of funds for last year's festival have raised concerns over the finances for this year's event. An audit conducted by the Notre Dame Internal Audit Department in October of last year revealed the theft of $3,000, a $2,000 loss from the Heat Wave concert, the theft of $400 worth of sound equipment, and $800 worth of damage to two rented vehicles.

Jakopin said many changes were made to guarantee that such problems would not occur this year.

For example, the AnTostal committee does not have its own checking account as it did last year, so its spending will be more closely monitored. Also, the Student Activities Office stated that the 1984 AnTostal "will receive its funds in the same manner that all other Student Activity free money is expended - a receipt or invoice, processed with the Student Government Treasurer's Office."

The AnTostal budget has decreased this year but Jakopin said the committee is planning many new events that will be inexpensive to run.

Jakopin and the AnTostal committee have been cautious in their choice of this year's band because of the financial disaster last year. Arion, a more dance oriented band from tepan Center Saturday night, was chosen.

Jakopin has high hopes for AnTostal '84. He said his main goal is to have enough publicity to ensure awareness among the students of all the activities and full participation throughout the week.

SMC group promotes campus awareness of nuclear issue

By MARGARET GRAY
News Staff

Millions of Americans watched the final credits of "The Day After," last November, including a group of Saint Mary's students and faculty members who viewed the program in the Haggar College Center.

But for this group, "The Day After" didn't end with the final credits. Instead, in the planning they began discussing the question, "What do we do now?" Group members were not comfortable with dropping the issue just because the evening's discussion was over.

Participants in this discussion met several additional times to discuss and organize the Saint Mary's Peacekeepers - a group dedicated to educating and involving the Saint Mary's community in the nuclear issue.

The Peacemakers, in conjunction with Justice Education, Campus Ministry, and various other groups organized a three-day program on Feb. 12-14.

The program centered around the movement of the Union of Atomic Scientists' "doomsday" clock - an imaginary clock which indicates how close to nuclear war the group perceives us to be - "at three minutes to midnight," said Robert Hohl, reference librarian at Saint Mary's and a member of the Peacemakers.

The program's approach to the nuclear issue was three-fold. The upcoming presidential elections necessitated a practical approach, said Hohl.

Members of the campus were urged to study candidates' platforms and to consider their stances on the nuclear issue before voting.

An educational approach was also used, said Hohl, because faculty and staff on the committee believed they had a responsibility as educators to make students aware of the issue and to instill in them an understanding of it. They decided that the best way to do this would be through the class room.

Because this is a moral issue, said Hohl, it was also approached within a religious context. Prayer services and homilies based on the context of the Bishop's Letter, "The Challenge of Peace" encouraged everyone to pray and to work for peace. The idea was stressed that prayer could be a source of strength if everyone joined together.

Great emphasis was also placed on hope, said Hohl. Even though the nuclear situation often appears grim, members of the campus community were urged never to lose hope. To impress this idea upon the campus, green ribbons were distributed and worn, green representing the traditional color of hope.

BLOODY PROTEST

Frenchman Roland Agret protested his seven-year imprisonment for a murder he says he didn't commit by cutting off his little finger without anesthetic and carrying it in a jar to the justice ministry in Paris.

Revised Mardi Gras

to include game night

By CHRISTOPHER RYAN

News Staff

Mardi Gras will take on a new look this year with a revised Dance-A-Thon and a Notre Dame version of the Newleyhed Game.

The major addition to the Mardi Gras festivities this year is a Game Night scheduled for Saturday, March 10, in the North Dining Hall, where students can play a variety of board games for a $2 fee.

The highlight of Game Night will be "The Roommate Game," a takeoff on the television game show "The Newlywed Game." Roommates will be quizzed to determine which pair knows each other best.

Roommates wishing to be contestants in "The Roommate Game" may either contact Karen Klocke, the Mardi Gras chairwoman, or sign up at the Ombudsman desk in the LaFortune Student Center.

Entitled "All Night Long," this year's Dance-A-Thon will be held in the South Dining Hall, Friday, March 9, and feature a pajama hour and square dancing.

Contestants will dance from 7 p.m. to 7 a.m. but low-adventure, some dancers may attend from 9 p.m. until 1 a.m. This four-hour segment will feature the band "Phaze" and a disc jockey.

A pajama hour will follow, featuring prizes for the best pajamas, milk and cookies, and a bed-time story to be read by an undiscovered celebrity. To keep the evening hopping, a square dance with a professional caller has been scheduled from 4 a.m. to 6 a.m.

Students must sell at least one ticket booklet (10 tickets per booklet) to be able to participate in the full 12 hours. Ticket booklets will be available in the dining halls through next Thursday.

The student selling the most tickets to the four-hour dance will win a color television, a stereo going to the student placing second.

Those students who either buy a ticket to the dance-a-thon's 9 p.m. to 1 a.m. dance, or sell at least two booklets of tickets, will be eligible to win door prizes including free pizzas and dinners at local restaurants. The grand prize will be a trip to New Orleans for their version of Mardi Gras.

Two movies will kickoff the week's activities. The original film production of "The Jazz Singer" will be shown Tuesday night, March 6th. The second film of the week "Showboat," will be shown Thursday night, March 8th. Showtimes and locations of the films are to be announced.

The Student Government hopes to raise some $10,000 from its Mardi Gras activities, of which $6,000 will be given to local charities. The remaining $4,000 will be used to cover expenses.

Mock Convention Poll

Special to The Observer

Walter Mondale was the leading candidate for the 1984 Democratic nomination while 69 percent believed Ronald Reagan should be re-elected, according to a survey of Notre Dame and Saint Mary's students conducted this week by the Mock Convention Committee and The Observer.

Of the 130 students interviewed, 70 percent were on campus Notre Dame students, 20 percent were on campus Saint Mary's students and ten percent were off-campus students.

The results showed Walter Mondale, the Rev. Jesse Jackson and Sen. John Glenn (D-Ohio) as the three Democratic contenders most recalled by students. The poll also explored student opinion about the primary system.

The questions and results were as follows:

* Name all the Democratic presidential candidates of which you are aware.
  * 12 percent could name no candidates.
  * 18 percent could name one or two.
  * 50 percent could name three to five.
  * 20 percent could name six to all eight.

Candidates and the percentage of students who recalled them:
  * Rev. Jackson ... 21
  * Alan Cranston ... 33
  * John Glenn ... 77
  * Gary Hart ... 31
  * Ernest Hollings ... 22
  * George McGovern ... 19
  * Walter Mondale ... 79
  * Jesse Jackson ... 78

* Of the eight possible Democratic contenders, which one do you prefer? Responses listed as percent.
  * Walter Mondale ... 48
  * John Glenn ... 21
  * Jesse Jackson ... 7
  * Gary Hart ... 5
  * Rev. Jackson ... 3
  * George McGovern ... 5
  * Alan Cranston ... 2
  * Ernest Hollings ... 1

* Of the presidential election held today, would you vote for Ronald Reagan or the Democratic front-runner, Walter Mondale?
  * Reagan ... 69 percent
  * Mondale ... 28 percent
  * Unsure ... 3 percent

* Do you prefer the present state primary election process, or would you rather see one nationwide primary?
  * State primaries ... 59 percent
  * Nationwide primary ... 35 percent
  * Unsure ... 6 percent

The Mock Convention and The Observer will poll and publish student opinion each week.

The Mock Convention will be held in April and traditionally parallels the nominating convention of the political party out of power.
Phone-a-Thon expected to raise over $65,000 in pledges to College

By JENNIFER BIGOTT
Staff Reporter

The 10th annual Phone-A-Thon will take place at Saint Mary's during the week of Mar. 5-8 at Haggar College Center. Donations from the Phone-A-Thon provide an important source of income for the College, said Nancy Orr and Tracey Pauncick, student organizers of the event.

Last year, 110 volunteers reached 265,000 alumnae, raising approximately $65,000 for the College which far surpassed the original goal of $50,000, said Lisa O'Shea, assistant director of development.

This year, O'Shea hopes at least 4,000 alumnae will be reached, enabling this year's goal of $65,000 to become a reality.

More money can expected to be raised this year, due to an additional 6 phones to be used in the Phone-A-Thon, raising the total number to 24. A projected 200 volunteers consisting of alumnae, faculty and students are expected to sign up to work this year, O'Shea continued.

The workers will contact alumnae, recording pledges on computer sheets that each volunteer will have. Remittance envelopes are then mailed out to those who choose to donate. The money must be sent in by Thursday, May 31, "to make the fund year... that's why it's in the spring," said O'Shea.

Those who agree to volunteer their time will be entitled to a 5 minute free phone call anywhere in the continental U.S. courtesy of Saint Mary's College.

Miners strike

An unsanitized French miner was one of over a thousand workers to demonstrate Tuesday in Montceau-les-Mines, France in protest of the French government's plans to close uncompetitive mines and sharply reduce the work force in others.

Likewise, David Barrett has had considerable exposure to the ideas and opinions of the Michiana area. He hosted the nightly talk show, 'Straight Talk' on Channel 34, which approached various timely issues through guest interviews. He was News Director for WLOG-AM and WCOE-FM in LaPorte, and on WSNL-AM and FM here at Notre Dame, and is also active in community theatre in South Bend and Elkhart. Prior to this year's election, Barrett was involved in several gubernatorial and presidential campaigns.

Campaigns

Democratic nomination for State Representative under the theme, "For a Progressive Indiana."

In his platform, Roemer attacks the Indiana Bureau of Motor Vehicles system which-goods revenues to the coffers of the political party in power. "Last year," the candidate said, "Michigan received more than $258 million from license plate sales alone, while we in Indiana are looking for an estimated $250,000 in taxpayer's money missing from the Mishawaka branch."

Roemer would like to see motor vehicle fees go to education, improvement of the state's economic base, and management of roads and highways.

Roemer, 27, is optimistic about his first try for office. He has extensive experience on the campaign staffs of candidates for political offices in California and Indiana, and has worked as a research consultant for the New Energy Corporation. A doctoral candidate in government at Notre Dame, Roemer also draws from a broad base of experience as a member of a family active in local government and civic affairs for many years.

Camps

Several of the dining hall cooks said they have taken it upon themselves to make minor changes to the recipes even if their suggestions are against it. "We can't be proud of what we're putting out once we see the end result," one cook said. "We've been getting hassled from the line ladies and the students because they know how we normally cook." Hickey has insisted that the cooks comply with the recipes — at least the first time the dishes are prepared — in order to "establish a standard. Control is in the recipe itself. They (the recipes) are the standards of the operation."

During the summer, food services will be converted to a computer-based operation, with menus, orders, and recipes all filled into the system. With the recipes under rigid standards, food services will be able to prepare for the change now, Hickey said.

He added, however, that the initial preparation of the food through the computer system during the summer would be "interesting" since some minor problems might crop up.

One cook said the situation is "totally frustrating... it's getting worse, not better."

But Hickey remained steadfast. "The current Yale recipe file is what we're living by right now. There are no plans to change it."

Recipes

continued from page 1

Designed to feed 25 to 100 people and they are actually being used to make income for the College, said Orr. "The file included a recipe for chicken noodle soup without chicken and a recipe for beef noodle soup without beef."

Garrard said such recipes are not necessary "writing" but a different way of making the dishes.

One way to get things done at Saint Mary's

Max Lerner

The Russia nobody really knows

Gregory Romanov or an Andropov protégé like Mikhail Gorbachev or the KGB-trained Gaidar, Aliev, or any of the new crop of neo-Stalinists who are infesting the Party apparat for history's tender mercies, the West should be grateful. Chernenko owes his choice to a dislike of the late Yuri Andropov so pervasive that it made the Brezhnev era appear like a golden age. Chernenko became the nominal candidate. His passing over the last time around became the Road Not Taken.

Thus the struggle seemed to be an age-group confrontation, between the Old Guard (Chernenko, Tikhonov, Ustinov) and the "Young Turks," aged 50 or less. But in reality it was a struggle between the post-Andropov Brezhnev group and the younger group who seized power even before Andropov and have been turning Russia into a KGB state.

With each power succession we learn again how little we know about the internal workings of the Soviet Union. The emphasis of the "Kremlinologists" has been on the economic and defense picture. But when it comes to the Soviet leadership — aside from the externals of the "pecking order" — our intelligence is wholly in the dark.

One reason is the total secrecy of the Soviet regime. Despite the spate of books, the Soviet leadership is the Russia nobody knows.

The atmosphere is that of a Byantine court, with a central figure who wears the imperial trappings of power, and a circle of courtiers, each with his own satrapy in a loose semblance of feudal fidelities.

The whole of secrecy is reinforced by the fact of total media control, total police control, total KGB control. The accountability of each leader is only to the Party and state bureaucracy. There is no accountability to the people, and therefore no publicity, no public debate, no public knowledge of decisions taken.

Throughout there is a paranoid fear that any disclosure will be a disclosure to the Western enemy. Hence the rise of the KGB to dominance. Even the military is subordinate to it.

Chernenko is a carry-over from an earlier Russia — the Brezhnev pre-Andropov era, when the Party and state bureaucracies ran the show. It is as if the Andropov interregnum were only a bad dream. Like Brezhnev, Chernenko is oldish, sickish, with a love for the trappings of power.

Yet there is a newer and more frightening Russia, run by airstripers whom Andropov had picked even before he came to power — KGB-dominated, police-state-oriented, depersonalized, dehumanized. Chernenko will be lucky if he doesn't become a prisoner in his own kingdom.

As for the Americans, the intelligence scene is dominated either by CIA and military intelligence or by the big liberal funded "institutes" who see detente everywhere, or by the right wing institutes who see the enemy everywhere.

We have never developed an intellectual elite trained to study the Soviet Union without ideological blinkers. As long as this remains true, Russia will continue to be the unknown country.

P. O. Box O

Endorsing SBP's

Dear Editor:

Even though I am a senior at Notre Dame, this is the first year I have ever presumed upon the paper to bring up an issue that is close to my heart.

I am concerned about the subject of student protest and the implementation of SBP. The Observer is one of the few voices of campus news, and I would like to be heard as an ally of the Students for Business Progress.

I believe that SBP is necessary for the following reasons:

1. It is the most legitimate way for students to express their concerns and to present their opinions.
2. It allows for a democratic process where students can debate and vote on issues.
3. It prevents the administrative board from making decisions without student input.

I encourage all students to become involved in the SBP process and to express their opinions.

Sincerely,

[Name]

PS: This is my first letter to the Observer, and I hope to make more in the future.

The Observer
Patience is a virtue in instructing parents
by Judith Martin

Back when the world was orderly, adults possessed all the desirable social attributes and practical skills, and children were eager to acquire them. There were powerful incentives for children to behave and to the limits of their ability. The concept of control and in their anxiety to learn how to control things themselves.

Now that youthful behavior is inexplicably admired by the elders of the society, and a major skill — the ability to understand and use computers — is more often found in the young than the old, what is to make children polite?

Miss Manners will admit, the same sense of charitable kindness and pity, of noblesse oblige that traditionally required adults to be hospitable in their manners. And pity, of noblesse oblige that traditionally required adults to be hospitable to people you do not wish to entertain.

When I am invited to dinner by a friend or by a stranger, I expect a hospitable manner to people you do not wish to entertain. I expect a hospitable manner to people you do not wish to entertain. I expect a hospitable manner to people you do not wish to entertain.

Moreover, it is time in this era of surfeit and excess, of the adoration of fame, and of television, to stop trying to be funny and I was right.

To be honest, I really had hoped the film would be worth watching because I always liked Steve Martin. However, it is time in this era of surfeit and excess, of the adoration of fame, and of television, to stop trying to be funny and I was right.

The film tells the story of a man, dumped by his wife in his lust for fame, trying to learn the ways of a single, unattached male. Martin plays this poor soul, trying to be the manola deco, with Charles Grodin, another lonely guy, as a sidekick. That is all there is to the movie: a two line plot.

At the rate things are going, present children will one day be polite, in their wish to imitate the civilized behavior of those in society, and a major skill — the ability to understand and use computer — is more often found in the young than the old, what is to make children polite?

The Bindery

A new insight on
by Beth DeSchrwyer

Steve Martin not a funny man
in The Lonely Guy

by Chip Block
features columnist

An advertisement for a Steve Martin comedy special on cable television credited him with "an unpredictable brand of humor." Martin proved the advertisement true with various stage gags and funny stories. Unfortunately, this is too rare a talent that has not produced the same unpredictability. I recently reviewed Martin's new film "The Lonely Guy." I predicted that it wasn't going to be funny and I was right.

To be honest, I really had hoped the film would be worth watching because I always liked Steve Martin. However, it is time in this era of surfeit and excess, of the adoration of fame, and of television, to stop trying to be funny and I was right.

The film tells the story of a man, dumped by his wife in his lust for fame, trying to learn the ways of a single, unattached male. Martin plays this poor soul, trying to be the manola deco, with Charles Grodin, another lonely guy, as a sidekick. That is all there is to the movie: a two line plot.

Believe me, the lack of a plot is not this movie's biggest problem. The movie is not even funny. Each scene seems like a one-act vaudeville skit without connecting to any other. "The Lonely Guy" is more like an hour and a half of Steve Martin videos on MTV. There are some running gags throughout the film, but they are few and not very funny. I can envision the writers of this film sitting at a large oval table, made up. They wouldn't be so fun if Steve did, and no two writers listening to what the other has to say.

A good example of this picture's lack of continuity can be found in the opening scene. An unseen raitor starts telling the story until the camera zooms in on Martin, who then takes over the narration. About three minutes into the film Martin stops narrating, only to start again, a half hour later. Sometimes Martin even talks directly into the camera for no apparent reason. It's all rather confusing.

Another problem with this film is the way it treats some very delicate subjects. Scenes meant to create laughter create sadness. The audience can only partially identify with the character because of the way the material is presented. For example, at one point in the film, Grodin contemplates suicide while standing on the edge of the Manhattan Bridge in New York. While he

stand there, three or four bodies go by flying and splashing in the river. This is supposed to be a joke on the number of suicides in New York, but if the audience identifies with Grodin's character, they are seriously concerned with his life and won't laugh at the sick humor. If the movie had been a Monty Python film where the fate of the characters really doesn't matter, no one would laugh at the sick humor. It would be funny. It is not in this movie.

The film does stumble on some interesting viewpoints of loneliness, of the severest tests of a good teacher.

The movie simply lacks unity. Each scene seems like a one-act vaudeville skit without connecting to any other. "The Lonely Guy" is more like an hour and a half of Steve Martin videos on MTV. There are some running gags throughout the film, but they are few and not very funny. I can envision the writers of this film sitting at a large oval table, made up. They wouldn't be so fun if Steve did, and no two writers listening to what the other has to say.

HOUSTON, Oklahoma 

DePaul eaves loss to Dayton

HOUSTON -- Michael Young scored 22 points and Alvin Franklin had eight of his 14 points in the closing minutes as third-ranked Houston broke away from Rice last night for a 70-54 victory over the Owls in Conference

fravIency.

Young gave the Cougars a 24-3 season record and extended their winning streak to 37 con-

secutive league games.

Houston is 13-3 in SWC play going into today's showdown against 11th-ranked Arkansas at Hellmont Pavilion. Rice dropped to 5-15 for the season and 5-5 in conference play.

The Trojans took control of the first half when Rice went scoreless over a 2:07 span while the Cougars were scoring seven unanswered points.

Franklin turned the game into a rout, midway in the second half when he hit four straight baskets for a 94-41 Houston lead.

Acem Ojogwu also scored 13 points for the Cougars, and Mike Cunningham added 12. Washington added 15 points for Rice.

LAWRENCE, Kan. -- Freshman Tim McIlrath, playing with a stress fracture of the right leg, scored 31 points and 15 rebounds in a 93-69 victory over Kansas Saturday night, 92-62 and into at least a share of the Big Eight championship.

McIlrath scored 26 points in the first half on 10-23 shooting (43 percent). He made 10 of 11 free-throws to give him 26 points and 15 rebounds in the first half. He was 19 points short of.is all-time high, set against Kansas Jayhawks in 1982, 10, at 44. Rice gave the Owls 10 points in five overtime last night to eventually lose.

The Owls have now lost 17 of their 26 games and concluded their season, while Kansas has made it into the Big Eight.

All-American Taynide added 28 points for the Owls, losing the third game in a row against a top-10 team with the victory and 1-3 with three games left in the Big Eight season.

The Owls also added 28 points for the Owls, losing the third game in a row against a top-10 team with the victory and 1-3 with three games left in the Big Eight season.

**Metzler continued from page 12**

Michigan-Dearborn and Alabama-Huntsville made you look past the stereotype; but this fall and did well," he said. "Fall baseball is a stepping stone to the Spring, so I am very optimistic."

In his four years under the Gold Dome slowly wind to a close, Metzler has begun to reflect on his time here. "I'll miss playing the sports," he says. "After this, I can't play, but here the goals are more defined. You're really working for something."

"The friends I've met here, I'll always have. What I'm not about to be able to see them in person a lot."

Career-wise, Metzler is undecided. He has been interviewing with different companies and hopes to land a job near home. "Knowing I made it through Notre Dame and received a degree will provide a real sense of accomplishment that no one can take away," he says.

"We will be part of an elite crowd," he adds. "Too often, though, it is easy to get caught up in that, and be thought of as a stereotype, but I like to be myself. Everyone needs a sense of individuality. You can't be yourself if you're trying to be someone you're not. I just want to be Mike Metzler and what he stands for."

"I might get worked up. But I don't get filled up!"

John Madden

**Politics**

Mondadori's masterful, Crawford's a creep, McGovern's a moron, and Hart is too deep. Jackson can preach, and Kennedy can reach, but both are too distant for the White House to reach. Askew and Glenn round out the crew: What (in Stepp's name) should a conservative do? Some say "Forget 'em!" Reagan's my man; Mock Conventions are futile. I'll put as soon get a gun. But we must be pragmatic; we must see the right: Modernists and Conservatives should give a Liberal a fight. "It's a Bird, Yeah!" is the untempered scream, not coming from their overarching dream. Dye's too artificial, and not "off the cuff"); there's only one man he's the Right Stuff! Glenn may not be perfect (next to Reagan he's lame), BUT NEVER should a liberal represent Notre Dame.

Attend the Glenn Rally from 4:30-7:00, 2/24, at Alumni's Party Room. Paid by N.D. Conservatives for the Right Stuff not the Glenn campaign (277-4200)
Steelers' highest-paid player ever

Woodley traded to Pittsburgh

Associated Press

PITTSBURGH — Woodley, banished to the bench last season despite quarterbacking the Miami Dolphins to the Super Bowl in 1982, became the highest-paid player in Pittsburgh Steelers history Wednesday after being acquired for a third-round draft choice.

The Dolphins, committed to 1985 rookie sensation Dan Marino, also may get an undrafted 1985 draft choice from the Steelers, who are

continued from page 12

thing the club could not afford with the decrease in attendance.

A conflict with dates was also a big problem. The ACC officials had allowed the event the days of February 18, 20, and 25. The Boxing Club felt that it would be better off holding the fights at a later date. It also felt that the finals should be fought soon after the semifinals. The three-day gap between the 20th and 24th was too much.

The members of the club decided to look for alternatives and found they could use Stepan Center for a minimal fee. The better atmosphere was an added bonus. Scheduling was also made easier as the club was able to get the three dates — a Sunday afternoon (March 4), a Wednesday night (March 7), and a Friday night (March 9).

Realizing that the change in location was not enough to draw more people to the fights, the club also made a push for more fighters and more campus awareness. By sending letters to former fighters who had "retired" and emphasizing the importance of this year's event, the club received an outstanding turnout of boxers.

"We have 60 fighters this year, which is the biggest field since I've been here," says Ferino. "We only had 60 last year, so we've had an increase of 14 boxers in just a year.

The group's efforts are also being rewarded as far as advertising the fights is concerned. An attractive poster has drawn a good amount of notice, not only on campus, but also in South Bend.

The club will find out how successful its efforts are when it sells tickets next week. The tickets, which will be sold in the dining halls at lunch next week, cost $5 for the three-day package. The club's ultimate goal is to match 1977's total crowd of 10,000 for the three dates. Last year's attendance figure (5,000 in three nights) was one of the lowest.

worried about the sure right arm of veterans Terry Bradshaw.

"There's a great opportunity here for David to take the reins," Coach Chuck Noll said. "We're not sure...about Terry, but we expect it to be just about the same situation as last season."

Bradshaw, 35, had surgery in March on his right elbow and played in just one game in 1985. He said he won't know until just before training camp if he can play.

Woodley, at 23 the youngest quarterback to start in a Super Bowl, now becomes the likely starter for the only team in NFL history to win four Super Bowls. The only other quarter back on the Steelers' roster is seldom-used Mark Malone.

"I'd like to win a Super Bowl here," said Woodley, benching a month into the Dolphins' 1985 season.

Woodley, a free agent, and his agent, Howard Stuhler, negotiated with Steelers' executive Jim Bost on a contract earlier this month. The club then had to go through the formality of re-signing the Dolphins, since he was a free agent, before he could be traded to the Steelers.

If the club had signed Woodley as a free agent, they would have lose two first-round draft picks under the NFL's compensation rules.

Woodley, once a Louisiana State quarterback and termed a better player than passer, reportedly will earn nearly $700,000 a year for three years.

Once the NFL's lowest-paid starting quarterback, Woodley didn't deny the hefty numbers, nearly twice the reported $390,000 salary that Bradshaw, a future Hall of Famer, was paid last season.

"I spent four years with Miami as the lowest-paid quarterback in the NFL," Woodley said. "I was the third lowest-paid quarterback in the NFL when I played in the Super Bowl, I've had my time."

Steelers President Dan Rooney does not believe Woodley's signing will upset what previously had been a carefully maintained salary structure. Veteran stars Jack Lambert, Franco Harris and John Stalworth are paid considerably less than Woodley.

Irish defeat lowly Manhattan, avoid late upset attempt, 63-58

By CHRIS NEEDLES
Observer Staff Writer

NEW YORK — Perhaps it was fitting that Digger Phelps came back to Madison Square Garden last night for the first time in three years. In his last visit here, you may remember. Phelps became Public Enemy No. 1 in Cus. OKLA. because of his supposed bias toward Syracuse when he was Notre Dame's coach dur- ing the 1981 NIT Championship game.

Now Phelps hopes to return here again in about a month for the NIT Final Four — this time as a coach. Of course, his crippled Notre Dame team will have to win a few more games between now and then before they can start dreaming of a two-peat on Broadway.

None of those games, however, will be as easy as last night's contest against Manhattan. Or as easy as last night's game should have been. The Irish, deep-sixed, 63-58 over the lowly Jaspers before 9,502 boozed-up fans at the Garden. The victory raised Notre Dame's record to 16-10 and pretty much clinched a spot in next month's NIT — as long as tournament officials just look at the record, and not the scores of individual games like this one.

"We're a young team and we needed a win like this on the road," said Phelps after the game. "We lost our composure a little bit at the end and missed a few free throws, but I'm happy with it."

Notre Dame used 24 points from senior Tom Sluby and a solid 15 points and 8 rebounds from freshman Donald Royal to fight off a scrappy Manhattan team that now has won just eight games to 20 out- going this season.

The Jaspers' Tim Cain battled a tough collapsing Irish defense all night, managing 20 points, and drawing rave reviews from Phelps. "That Cain is a winning player," he said in regard to the 5-8 junior forward. "He reminds me a lot of Chris Mullin of St. John's. The way he handles and never gives up."

Notre Dame clearly was the superi- or team, but just couldn't shake Manhattan. The Jaspers shot 55 per- cent for the game, held their own on the boards, and kept mistakes to a minimum (15 turnovers). Fortu- nately for them, the Irish com- mitted just 8 turnovers and hit enough free throws (27-30) to stave off the upset.

The Irish led 30-25 at halftime, and stretched their advantage to 11 points, 48-37, with 5-8 left before Manhattan began pecking away. The Jaspers put within three points with 12 seconds left, but were out of time and thus could not stop the clock.

Now, with just two games remaining (Marquette Saturday and Dayton on March 5) in the regular season, Notre Dame's toughest and most important one as they have been kept a little hit at the end of the season."

See IRISH, page 9

Senior captain Metzler provides leadership

By ED DOMANSKY
Sports Writer

Mike Metzler may not wear a "C" on his jersey, symbolizing "captain," but the senior right wing from Niagara Falls, N.Y., definitely a respected leader of the Notre Dame hockey team both on and off the ice.

"He has excellent leadership qualities," says head coach Lefty Lawler, who has a hard time with a great attitude. He makes the most of himself as far as the team is concerned, and I think they respect him a great deal.

Metzler first tied on a pair of states when he was three years old, and a year later, he was playing of
gamed hockey. "We had a big back yard, so my father always built a rink," says the 5-11, 175-pound marketing major. "I enjoyed skating, so I thought I would try hockey."

The Ontario Minor Hockey Asso- ciation was Metzler's home league until his sophomore year in high school. The League featured mainly Canadian competition which added a big plus to Metzler's early develop- ment as a player.

"When you're young, you learn most of your skills, and from then on, you just develop them," he says. "Playing Canadians made each player develop a lot faster, so when we played teams from the States, it showed, because we beat them badl-

After ten years of competition in the OMHA against teams from Toronto, St. Catherine's, Hamilton and the like, Metzler decided it was time to look toward the future. "I wanted to go to college," he says. "The traveling was tiring and I needed more time to think about schoolwork, so I decided to play for my high school."

While playing for Niagara Falls High School, Metzler twice scored seven goals in one game. And during his junior and senior seasons, he won the Section Six Federation Hockey league scoring champi- onship.

"It was a big thing for me," he says, "a real accomplishment.""Along with earning three varsity letters in hockey and the honor of captain his final two seasons, Metzler also garnered four letters as a member of the golf team, and another four as a member of the baseball team.

When it came time for college, Metzler hoped to play hockey at Notre Dame, "I was hoping for a scholarship," he says. "But that was right when Notre Dame imposed the moratorium on scholarships, so when I talked to Lefty (Smith), it wasn't sure if they would have l NYC."

Bengal Bouts hope popularity returns

By MIKE SULLIVAN
Sports Editor

One of Notre Dame's oldest ath- letic traditions will be facing a cru- cial test in the next two weeks as it tries to stop a drop in popularity that could eventually affect its survival. That test is the Bengal Bouts — it's entering its 45th and, perhaps most important year with a new location and a determined effort to assure the Bouts' survival for 54 more years.

Also this year, the Notre Dame Boxing Club, which supplies the fighters, faces a tough fight as it tries to deal with dwindling student support for its attempt to raise money for the Bengal Missions in Bangladesh.

"This is a very crucial year for the fighters," says Angelo Perino, one of the presidents of the Boxing Club. "It's promises to be one of the most exciting, action-packed shows ever, but it all depends on the students' support to keep the program going."

The members of the Boxing Club are nobody around wanting to help, if the students and South Bend resi- dents are willing, however. They have been searching for advertising and trying to increase student awareness of the Bouts. Also, in an attempt to eliminate some major expenses, they have decided to move the fights out of the ACC and into Stepan Cen-

The move could prove to be the boost the Bouts need. Holding the fights in the ACC was becoming more of a burden than a benefit. Although the facilities are very com- fortable and convenient for NBC, who televised the Bouts until last year, the excised, "smoker-type" atmosphere was lacking.

"The atmosphere in the ACC was a little too much for our followers," explains Perino. "It has those plush seats that let people lay back and relax too much. Also, it's too big, the crowd noise gets lost."

By moving the fights to Stepan, the Boxing Club hopes to return to the excited atmosphere of the Old Fieldhouse, the site of the fights before they were moved to the ACC. The temporary status that had been used for boxing games will be moved into the building, supplying seating for approximately 4,000 per- sons. The acoustics of the building should provide for a very noisy event.

Finding a better fighting atmos- phere was not the only reason for the move, however. There were also financial and scheduling problems as the rent was increasing and the number of available dates was decreasing. It was costing the Boxing Club thousands of dollars to use the arena for three nights, some-
