Senior Fellow not named in election

By JANE KRAVICK

A Senior Fellow will not be named this year because only 25 percent of the senior class voted in the election yesterday.

Fifty percent of the class must vote in the election in order for a winner to be declared. The 25 percent of the votes which counted as members of the class voting included the write-in votes, which would not have been counted in the final tally.

Senior Fellow Committee Chairman Mike James commented, "This is the first time in a number of years that this award hasn’t been given."

When asked if he thought the election should be held again, James replied, "I think the issues received more than enough publicity; there were enough chances to make the decision. Today, the senior class made their decision."

James did not think the Senior Buddy elections also held yesterday affected the turnout for the Senior Fellow election. "As I observed, people were voting for both while they were in the dining hall. I don’t think that they took away votes."

The Senior Buddy election was won by Harold B. Augustine with 58 percent of the 617 votes cast. Augustine had mixed feelings about the award. He said, "I think that it’s nice and I’m very happy. I wish there hadn’t been all of the controversy, though."

Augustine was removed from the Senior Fellow ballot by the Senior Fellow committee. He became renowned on campus for his comment "A wet campus is a happy campus," made in The Observer during Junior Parents Weekend.

Only 34 percent of the senior class voted in the Senior Buddy election. Commented Senior Buddy Coordinator Oscar Osorio, "We were not allowed to set up in Lafortune, where the off-campus seniors are. Because of this, we feel 34 percent of the vote was a mandate."

The other 22 percent of the vote was divided among other candidates.

Proposal to raise activity fee by $5 passed at senate meeting

By MIKE MILLEN

News Staff

The student activity fee was raised from $30 to $35 at last night’s student senate meeting. The increase will go mostly towards Student Government programs.

Lee Broussard, programming board services commissioner for student activities, said, "We have decided that dorms don’t need student activities, said, "We have decided that dorms don’t need..."
Contrary to popular belief, students can affect school policy

Complaining is a popular way to spend time at Notre Dame and Saint Mary's. And student government is one of the more popular things to complain about, along with dining hall food, professors, and life in general.

Criticisms concerning student government are quite familiar to all: "They're just out for themselves." "They have no real influence over what is going on." "Students aren't really represented."

True, student government at both schools will never be fully involved in major administrative changes, as evidenced by the nonexistent voice of students in the Notre Dame alcohol policy decision.

But student influence is possible. Making an area in which Saint Mary's students have far more potential and can be far more effective than Notre Dame students.

By volunteering to do the job, Saint Mary's students ad administrators are far more accessible and receptive to student needs and demands.

But are students taking advantage of this situation?

At first glance, no, except in situations where someone else has done the work first on a major issue, everyone is upset. Then it is easy to join in on the bandwagon.

A good example is the housing policy reorganization that began this semester. Weeks before room picks, students had been griping. They were going to get stuck in terrible rooms next year and the administration wanted to cater to students' fancies.

No one wanted the integrated dorms, and the discussion of room picks had been blocked off, making people all the more angry.

A few days before room picks, petitions initiated by the student body were circulated and finally, on the afternoon of room picks, a meeting was held with College President John Haggan. With the Surprising move, reversed the housing policy - 2 hours before room picks were scheduled to begin, Students were unhappy - but suggestions from amongst friends and to people who can get things done, that potential will not be realized.

Saint Mary's students - quit your complaining and start acting. It could be more productive than you would imagine.

FRESHMAN PRE-ADVANCE REGISTRATION PROGRAM

Pre-advance registration programs will be conducted for freshmen in all college program areas on Tuesday, April 10 from 6:00PM to 8:30PM.

At each program complete information will be given on the advance registration procedures and its relationship to the degree curriculum.

The meeting places for the programs, according to college program area, are as follows:

<table>
<thead>
<tr>
<th>Arts and Letters College Programs (all, including AL Preprofessional)</th>
<th>Engineering Auditorium</th>
</tr>
</thead>
<tbody>
<tr>
<td>Architecture</td>
<td>Cushing Hall, room 303</td>
</tr>
<tr>
<td>Architectural Building, room 201</td>
<td></td>
</tr>
<tr>
<td>Chemical</td>
<td>Cushing Hall, room 212</td>
</tr>
<tr>
<td>Mechanical</td>
<td>Cushing Hall, room 305</td>
</tr>
<tr>
<td>Electrical</td>
<td>356 Fitzpatrick Hall: A through L at 6:30 PM</td>
</tr>
<tr>
<td>Mechanical</td>
<td>Fitzpatrick Hall, room 254</td>
</tr>
</tbody>
</table>

Science College Programs

| Computer Science | Galvin Life Science Center, room 278 |
| Electrical Engineering | Newell Science Hall, room 341 |
| Chemistry | Computing Center & Math Building, room 151 |
| Biology | Galvin, room 109 |
| Chemistry | Newell, room 401 |
| Mathematics | Neweraudour, room 127 |

All freshmen are required to attend the program of the college or department they intend to enter in the sophomore year.
CROP Hunger Walk will run Palm Sunday

By LAUREEN WOLFE

Five hundred persons will walk 10 kilometers through the streets of South Bend on Palm Sunday, all to help raise a goal of $25,000 to combat hunger within St. Joseph County and around the world.

The annual St. Joseph County CROP Hunger Walk is scheduled for April 15, and will begin at 2:00 p.m. at St. Joseph High School. Registration will take place in the parking lot at 1:30 p.m.

The walk will proceed south from St. Joseph toward the city, and will continue through the East Race area and then downtown. The course will then turn westward for several blocks before looping north to complete the circuit of 10 kilometers, ending at St. Joseph High School. An average of $50 will be raised per person.

Twenty-five percent of the funds raised will be distributed among local organizations such as the Food Bank of Michiana and other groups working to alleviate hunger within the community. The remaining 75 percent of the funds will be distributed worldwide to fight global hunger. Sponsors may designate their pledges for world hunger to CROP or any major international relief agency.

There are several ways to become involved in this year's CROP Hunger Walk. Individuals are needed to seek pledges and to walk. Sponsors to support walkers are also needed. Persons are also required to assist with registration and other tasks such as moral support the day of the walk.

The walk will conclude with an interfaith service at St. Joseph Church, and will be followed by a free community dinner in the St. Joseph High School gymnasium.

The walk is sponsored by the local chapter of St. Joseph County CROP, a national organization that works to combat hunger and alleviate poverty worldwide.
Speakers say U.S. interventionism supports repressive governments

By PATRICK MULLEN

Newsljetter Staff

The two speakers at last night's lecture on United States interventionism agreed that past and current American foreign policy in Latin America sustains regimes guilty of political, social and economic repression and supports subversion of regimes which are more representative of their people.

Han Seus, a representative of the Young Socialists in West Germany, and Oscar Izquierdo, representing Costa Rican Social Democrats, also expressed their resentment for the Reagan Administration's policies toward Latin American countries.

The lecture featured the movie "America in Transition" which portrayed the history of U.S. involvement in support of dictatoral regimes and overthrow of democratic and Marxist-socialist governments in six different Latin American countries. The film emphasized that the U.S. government's fear of communism and protection of U.S. economic interests in Nicaragua, Guatemala, Cuba, the Dominican Republic, Chile and El Salvador was at the root of policy toward these countries.

The 90-minute movie narrated by author Ed Asner concluded that American policy is not gaining the U.S. the support of the people of Latin America, but is in fact turning popular opinion in the region away from the U.S.

Seus, a member of the German Social Democratic Party (SPD), said that contrary to what the U.S. government claims, the Sandinista government in Nicaragua is representative of its people and it has initiated a struggle against ignorance, poverty, and multilateral control of its economy. According to Seus, both the U.S. and West German governments are wrong in cutting aid to Nicaragua and "closing its doors to the international market." They said the U.S. is violating the will of the Nicaraguan people by supporting the subversive activities of right-wing contra there.

Seus stressed that the U.S. must do something to stop right wing death squads in El Salvador instead of supporting a government in which many leaders have links to the death squads.

Izquierdo spoke of the efforts of the democratic government in Costa Rica to keep American troops out of Costa Rica. He said Costa Rica has attempted to remain neutral in the highly volatile region of Central America, but that it is under great pressure by the Reagan administration to accept American soldiers along its border with Nicaragua. The soldiers would presumably be put there to assist the rebel contra in Nicaragua.

The lecture is part of a nationwide series sponsored by the Democratic Socialists of America (Youth Section). Two of the lectures were not denied visas to the United States by the Reagan administration under charges that they were "threats to national security."

The Student Organization for Latin America (SOLA) and the Democratic Socialists of America (DSA) sponsored the lecture at Notre Dame. Anyone interested in joining either of these organizations should contact Bill Kras at 283-6713.

After your last exam, what tough questions will you still be facing?

W: I don't have any answers. But we'll listen to your questions, share some of our own about who we want to become and where we want to journey. For anyone who has considered the path of priesthood, the Holy Cross Fathers One Year Candidate Program provides an opportunity to ask and explore the possibilities in community.

Strong offensive line enters year experienced

By JERRY MELLA

The outlook for the 1984 Notre Dame offensive line can be summed up in two words — strength and experience. The Irish will greatly miss the efforts of left tackle Pat Pavlansky and left guard Neil Akins, who were not at 100 percent during the spring season, but in his rookie season, but in 1983, he was only coaching. In his sophomore season, he was still running hard all week and it became a valuable asset to the team. He was the only offensive starter to be replaced. This will be accomplished by moving senior Larry Williams (6-6, 286 lbs.) from tackle to fill his big hole. It is here where Williams can use his height, weight and strength to his best advantage.

Williams was an Irish standout on the offensive line in 1983 and carried second-team All-America honors in the 1983 season. He was a force for his efforts like Kelly, Williams has a great deal of experience. In 1981, he participated in four games, mainly at guard. As a sophomore, Williams was starting at tackle in his third year at Notre Dame. Williams was one of the few offensive players who contributed to the Irish record. He was a valuable asset to the team and was able to be the first off the court. He was the first Irish starter to be replaced. This will be accomplished by moving senior Larry Williams (6-6, 286 lbs.) from tackle to fill his big hole. It is here where Williams can use his height, weight and strength to his best advantage. Williams was an Irish standout on the offensive line in 1983 and carried second-team All-America honors in the 1983 season. He was a force for his efforts like Kelly, Williams has a great deal of experience. In 1981, he participated in four games, mainly at guard. As a sophomore, Williams was starting at tackle in his third year at Notre Dame. Williams was one of the few offensive players who contributed to the Irish record. He was a valuable asset to the team and was able to be the first off the court. He was the first Irish starter to be replaced. This will be accomplished by moving senior Larry Williams (6-6, 286 lbs.) from tackle to fill his big hole. It is here where Williams can use his height, weight and strength to his best advantage.
