Doctor says 3rd implant more routine than others
By BOB VONDERHEIDE
Editor-in-Chief

LOUISVILLE, Ky. - By the time Dr. William DeVries snipped it out yesterday morning, the dying heart was yellow, flabby, and almost useless.

In its place - and in record time - surgeons sewed in the Jarvik-7, a struggle. "The heart is working perfectly... its vital signs are stable and everything appears to be in great shape," said George Atkins, spokesman for Human Heart Ini- ternational.

Doctors also expressed hope that the 18-year-old autoworker whose life will become the first recipient to make a full recovery. William Schroeder, 52, who received an artificial heart in November, has subsequently suffered three strokes and a mild seizure and has not left the hospital. "I first received the Jarvik-7, died in 1983 after a courageous 112-day struggle.

Institute chairman Dr. Allan Lansing said Haydon came through very successful during Schroeder's surgery. "It was all over, everybody said, "That was a very successful morning." He said the atmosphere in the operating room was calmer than during Schroeder's surgery. "This was a much more routine process this time... it was all over, everybody said, "Man, that went well."

Robert Jarrard, the heart's inven- tor, said he talked to Haydon's family after the surgery and said the family were looking very relieved."

Freshman wants election nullified
By DAN MCCULLOUGH
News Editor

Freshman Ed Funn, doesn't believe last week's student body presidential election was legitimate and wants it nullified and the votes re-counted. "Since there were only a limited number of candidates, and with on- ly 24.3 percent of the student body voting for Bill Healy, and plus the restriction on Pat Browne and Joanie Cahill, we don't think it was a real election," he said.

There are "at least a dozen" people working with him on this, said Funn. "I've talked to a few people and the response was fairly positive.

The student government constitution states that if 15 percent of the student body, which would be approximately 1,100 signatures, sign a petition to have a referendum, the election, the entire election process, must be nullified. In 1979 the Justice Education Committee was formed by a group of concerned Saint Mary's students and faculty in response to a then re- cent bishops' synod mandate that "those who enjoy the benefits of a Catholic higher education have the obligation to bring the society with leadership in matters of justice and human rights.

Current Justice Education Coordina- tor Esmee Bellalta, a Notre Dame associate professor of ar- chitecture, calls the study and pursuit of social justice at the College "a very specific part of the sister's mission," and said the church has become very involved in social justice since the 70's.

Two years after the Justice Educa- tion Committee was formed, it was decided increased awareness of justice issues and the opportunity for active ministry in them was needed at Saint Mary's. This led to the formation of the Justice Educa- tion Office, which directs its efforts towards education, experience, reflection and action in social justice issues.

The Saint Mary's Justice Educa- tion Office and the Justice Educa- tion Committee have developed courses and sponsored lectures, workshops, and films related to relevant justice issues.

There are two groups within the committee: a human rights group, coordinated by Saint Mary's Business Professor Jerry McElroy, and a peace group, coordinated by Reference Librarian Robert Hoh!.

The human rights group, utilizing the theme "Interrelationships and Community Solidary," is stud-}

Student Body President Rob Ber- tino said initially there was some speculation as to whether the plan would be covered by the "Recall" or "Initiative" section of the con- stitution, but it has been decided that it would come under the "Initiative" section.

Because Funn said his possible constitution is completely within the rules of the student government constitution.

Junior Jim Basile, from Philadelphia, Pa., has been named the 1985-86 editor-in-chief of Scholastic magazine.

Basile, a government and inter- national studies major, has worked for Scholastic for two years, and is currently the news editor.

Basile outlined the "magnifying staff" as one of several changes in the magazine's format. Basile emphasized the need for a publication that the student body can "look forward to and expect." He would like to see bi-weekly publication, possibly to be distributed Friday mornings.

Regular interviews with "promi- nent guests," speaking at the University is also an objective.

Editor's note: This article is the first of a three-series among Saint Mary's concern with social justice. Tomorrow's story will examine groups created to increase awareness and to foster an awareness of social justice.

In Brief

Campus.net office hours have been changed for the last week in February. Beginning W-day and continuing through March 1, Campus.net will be open each Monday, Wednesday and Friday from 10 a.m. to 5 p.m. The office will also be open Fridays from 2:30 to 5 p.m. Also, the office will be open each Tuesday and Thursday from 11 a.m. to 5 p.m. Regular business hours - 9 a.m. to 5 p.m. - will resume March 6. — The Observer

A truce has been called between warring factions at a meeting between the Gay and Lesbian Services of Kansas and the Young Americans for Freedom reached "dangerous levels" and prompted leaders from both sides to request some type of calling for a cessation of harassment and promising "to deal with this matter in a rational manner." — The Observer

President Reagan, returning to the White House yesterday after a four-day vacation, said he feels justified making frequent trips to his California ranch because "you give up an awful lot of privacy" serving in the Oval Office. Reagan said the drawbacks of the office accompany him wherever he goes. "And I look at it in another way — at my age, how many more years do I have to go to the ranch and enjoy the ranch," the 74-year-old president said. After enjoying warm temperatures and sunny skies at his mountaintop spread, Reagan was greeted by 44-degree, overcast weather back in the capital. His major appointment this week is a meeting Wednesday with British Prime Minister Margaret Thatcher. — AP

Markey, chief judge of the U.S. Court of Appeals for the Federal Circuit. The talk will be at noon in Room 101 of the Law School. — The Observer

An informational meeting for all class officer candidates and off-campus commissioner will be tonight at 7 in the New Orleans Room of LaFortune. A mandatory meeting will be tomorrow. — The Observer

The Phone-a-Thon for the South Bend Women's Care Center begins tonight and will continue until Thursday and will begin again next week. The phone-a-thon will last from 9 a.m. to 5 p.m. Monday, Wednesdays, Fridays from 9 a.m. to 5 p.m. — The Observer

Weather

More snow likely today as the temperature is expected to rise to 30 degrees. Tonight and tomorrow, partly cloudy. Low in the mid teens. High Thursday in the upper 20s. Cool Wednesday with highs in the 30s and a low in the teens to the 20s. A little warmer Thursday and Friday with a chance of rain or snow. Highs in the 40s with lows in the 20s. — AP

It takes a lot to close ND

Blizzard warning today. Snow, heavy at times, with strong winds causing considerable blowing and drifting snow, high around 10. The weather wasn't "unpredictable" a little more than seven years ago. This weather forecast of Jan. 26, 1978 was 100 percent correct. More than 15 inches of snow fell on the South Bend area that Thursday. The winds whipped across the campuses at an average of 27 miles per hour, causing drifts of up to five feet, and the average temperature was 27 degrees. From under this blanket of snow, which by the next day was 32 inches deep, neither Notre Dame nor Saint Mary's plowed, except for food. Both schools were officially closed Thursday, Friday, and Monday. This was the longest period in the history of both institutions that classes had been cancelled officially because of inclement weather.

Despite the disaster, cancelled classes, a malfunctioning cable caused a power outage Sunday, Jan. 29. Some dorms lost electricity, others were without heat or hot water. Roads were impassable, which kept much of the grounds crew working around the clock in eight-hour shifts.

Almost a year to the day before this closing, the College shut down for the first time in its history and the University cancelled classes for the first time in 59 years. Both schools closed on Friday, Jan. 28, even though a relatively small amount of snow had fallen. Low temperatures and high winds combined to immobilize the area with a minus-70-degree windchill factor.

On this historic occasion classes and office hours were cancelled, and the ACC and the bookstore were closed, although the Rockne Memorial remained open. The hospital tried to get its buggies up on its rooftops as usual, but had to close early because of a shortage of help. At the request of Father Jarret, Monomoh, the university provost at the time, the library kept open its doors. "Conservor" signs were placed on the milk machines, but other than that, the dining halls served the students routinely.

Last week 17.5 inches of snow dropped on South Bend. Winds raced at an average of 14 m.p.h. Last Tuesday they were at their fastest, a chilling 23.9 m.p.h. And to the dismay of many students and faculty members alike, school was on as usual with only random class cancellations. As students trudged over mounds of snow, that rivaled the Himalayas, as to get to classes, the dining halls, library and the dorms in the buildings west of the library, students were told to plow, and the air was raw.

Then again, the University was increasingly more self-sufficient the farther back in history one looks. More faculty and students lived on campus; therefore, the hazard of the roadways was not as serious a consideration. For example, in 1873, the student-faculty population totaled only 70, and most resided on campus.

Despite contemplating the danger of staying open, Notre Dame and Saint Mary's could be considering the cost of an official holiday in 1985.

The schools would have to pay employees more than their standard salary to come to work on such an occasion. Another major concern could be discipline and control of alcohol abuse if classes officially were cancelled. Local liquor stores and bars reported dramatic increases in sales during the three-day holiday of 1978.

All of this is not to say that last week did not merit at least one official day off. Neither is the assumption that Father Hesburgh personally should have closed the University. If there is any definitive statement to be made, it is that when you are wading through the snow, remember that students ever since 1873 have shared your plight, as well as your contempt for Indiana winters.

**DISTINGUISHED STUDENT AWARD**

The Notre Dame Alumni Association will be accepting nominations from February 1 to February 22 for the 4th annual Distinguished Student Award. The Distinguished Student Award was created to honor an outstanding senior student at the University based on the following criteria:

1) Service to Notre Dame
2) Service to the Community, and
3) Good Academic Standing

Applications can be obtained at the Alumni Association Office on the second floor of the Administration Building, The Center for Social Concerns, and at Campus Ministry Office in the Memorial Library!

Nominations must be submitted to the Association by Feb. 22, 1985.

### Proposal would cut college funds

**Chris Skorcz**  
Staff Reporter

President Reagan's new budget proposals could have a serious effect upon Notre Dame and St. Mary's students. In an effort to cut back on the nation's budget, Reagan has introduced several proposals which would drastically limit the amount of federal funding given to college students. Among the various ideas is the imposition of a maximum of $4,000 per eligible student and the restriction of aid to those families earning less than $35,000 annually.

Professor Herbert Sim of the Finance and Business department recently commented on the possible ramifications of such legislation and on the effect it would have on Notre Dame and St. Mary's students.

"There is no doubt that this new budget will have a major impact on some students. Not only here, but at most private schools in general, it is likely that some students would be unable to attend these schools may have to reconsider on the basis of financial difficulties.

"However, the impact will not be immediate. It will grow gradually. After three or four years it may become a problem but the people already in school will not be affected very soon," Sim said.

"The new budget will have an effect on public or state schools. Many students will be encouraged to attend public schools. This is good for these schools because it produces more students and in-variability student of higher quality. And yes, the state schools can handle more students."

---

### Election continued from page 1

In his hopes of having the petition signed and verified, a referendum passed by March 10, the date the signatures stationary-stakes the student body election does must be finalized. "This isn't a final deadline, however," he said.

Tonight, Fusain said he plans to work with the Student Government for an official ruling on his plan.

He said, "If he wants an official ruling, he can just call me."

The petition may be available for signatures in a few days. "We've got the petition and the file forms all ready and we hope to start this week," Fusain said.

The petition will be taken around "mostly to the residence dorms," said Fusain. "We're going to try to keep it away from the dining halls. People go there with their friends and it's tough to get their attention."

As of yesterday afternoon at 3, Healy said he had not heard of Fusain's plan. "I think the election is over now and we have been working with Rob Bertino and Cathy David (current student body vice president) to set up the new administration. We're working very hard in setting up an administration for next year," Healy said.

Fusain said he is not doing this because Healy was elected. "It has nothing to do with him. He's a very nice person," he said.

Both Browne and Call were unable to be reached for comment last night.

The initiative section of the constitution states: "A Petition bearing the valid signatures of 15 percent of the undergraduate student body shall cause Student Government to hold a special election for the purpose of voting on the initiative."

If the initiative addresses the structure or organization of Student Government, or the activities of the University of Student Government, the election shall be held no less than two, no more than six, weeks from the date of the filing of the initiative petition. If one or more regularly scheduled campus-wide elections fall within the specified period, then the initiative election shall be held concurrently with a regular election.

"If the initiative does not deal with the structure or organization of Student Government, or the activities of the University or Student Government, the election shall be held concurrently with the next regularly scheduled campus-wide election."

"The petition session is far too late. If he keeps going we may have to reconsider on the basis of financial difficulties."

---

### Justice continued from page 1

to examine issues of poverty and oppression in the light of their Christian faith.

This year the Urban Plunge was a popular program. "The role of

the Urban Plunge is that of a very positive shock treatment. The plan is necessary to attempt to offer something which students can use," said Bellalta.

Bellalta said she finds there is a lot of social justice ignorance among students because of the middle-class background. It is not the moral backgrounds they are lacking," said Bellalta, "the students need to be more informed."

The Urban Plunge, along with its new follow-up course, may provide this information and offer students first-hand experience with the problems of justice.

Bellalta said she believes the faculty can get involved in justice issues also. Saint Mary's has recently joined an interdisciplinary Faculty Development project funded by the Lilly Endowment, Inc. "Along with a faculty from the university and the college, members of the Saint Mary's faculty will have the opportunity to meet with the Diocesan and Catholic Bishops' pastoral letter, "The Challenge of Peace," and search for ways to incorporate these concerns into college life."

Think the biggest value is getting (social justice) into all the disciplines."

Bellalta said she feels the key to the success of a social justice department would be to have an interdisciplinary structure.
Diversity is an integral part of good education.

What is an education? Is it simply attending classes, doing homework and thereby expanding one's knowledge of various subjects? Do we receive a "good" education by merely attending a top-notch school and doing the best we can? Possibly, but not likely. An education must be as diverse as the people and beliefs of the world in order to be valuable, or even viable.

Why? Because the fairest possible judgment cannot be made without being informed of as many different views as possible.

So what is a diverse education? It is mainly learning about as many different lifestyles, cultures, and customs in this world as possible. The best way to learn their insights is to live them. With the deprivations of our country, but the best way to learn their experiences of our country, but the best way to learn their insights is to live them.

This initiative has several aims. First, it is to provide a platform for others to learn and appreciate the different experiences available in our society and therefore be able to become as successful as possible in their interaction with others.

Religious diversity among students and faculty is imperative to a true learning environment. For it is through the learning of different value systems and beliefs that we can realize or reassert our own faith and values. And, again, the best way to learn about other religions is to be taught by believers of that particular religion.

This is not to say that these criterion alone constitute a "good" education. There are other contrasting factors such as decent facilities, materials, and professors, not to mention financial security, all of which this University seems to have under control. Yet neither of these factors alone can provide us with a good education; they must be combined. Unfortunately, Notre Dame has a long way to go before a balance between these factors is achieved. But with all its resources, financial and otherwise, Notre Dame can surely overcome this major setback in its quest to become one of the most valuable universities in the country.

Therefore, to provide the true education our society demands, it is the responsibility of the students, the faculty, and the administrators of this country to take unprecedented measures to provide a diverse education for all who desire one. This means actively searching and recruiting religious and theological students and teachers of diverse backgrounds.

In addition, it is up to the people of this country to demand a diverse education for themselves and for others in order for this to become a truly pluralistic society.

Michael Froning is a freshman at Notre Dame and is the regular viewpoint columnist.

In its last dual meet of the 1984-85 season, the Saint Mary's swim team traveled to the University of Illinois at Chicago and suffered a 72-39 defeat.

Although the defeat dropped the Belles' record to 6-5, the meet qualified nine team members for the NATA National Competition in Indianapolis, which will be held from Feb. 28 through March 2.

Freshmen Jenny Pancratz won the 500- and 1000-yard freestyle, breaking the current varsity record in the latter event. Junior Joyce Murtagh was able to capture the individual twin events, while contributing to the 200-yard free relay victory along with teammates Ellen Byrne, Megan Rafferty and Mary Ann Castaneda. Sophomore Kathleen Kennedy qualified for national competition in both butterfly events as she place second in the 100-yard event. Freshman teammate Rafferty, in a career-outstanding performance, won the 50-yard butterfly which qualified her for yet another event at the nationals.

Other national-bound Belles are team captain Byrne in the 200-, 400- and 800-yard freestyle relays, along with Annie Cushing, Margaret Mammon and Jennifer Veselka in the 400-yard medley relay. Despite the Belles' disappointing team record for the 1984-85 year, they each feel that the team has shown great improvement over the season.

"The season really isn't a good indication of a team's performance in an individual sport like swimming," says Flynn. "The girls have been breaking records and we almost half the team going to the nationals next week, so I am pleased.

With the nationals only a week away, the team will be tapering down its workouts before it makes the trip to University

Knee injuries from sports will be discussed by Dr. Patricia Murphy at the University of Iowa Women's Health Center, 1000-yd. Admission to the lecture is free.

The Saint Mary's fencing team improved its record to 5-8 Saturday in Cleveland, where it defeated Case Western Reserve University, 11-5.

Coach Mike Weaks said he was pleased with the team's efforts in the meet, which was particularly improved by Mary Ann Castaneda's performance.

"Mary is doing really well," said Weaks. "She went 4-3 on the day and has done this season.

The Belles had intended to fence in several bouts, but the other team didn't show up, raising Saint Mary's hopes of further improving its record in this meet.

The Wayne State fencers beat Saint Mary's 14-2, in Detroit on Feb. 6. The Belles traveled to Angola, Ind., the following day, losing to the C-Team of the University of Detroit in defeating Tristate, 14-2. Saint Mary's received a team record of 3-5 at Oakland University in Detroit Feb. 9, the Belles fenced four bouts, and the team will be tapering down its workouts before it makes the trip to University

The Belles will be meeting for practice at the end of the season. -

Off Campus, Alumni, Pangborn lead in hockey

By KEVIN HERBERT
Sports Writer

As the interhall hockey season reaches its closing stage, Off - Campus finds itself atop the Krause Division, while Alumni and Pangborn are tied for the lead in the Corrigan Division.

Off - Campus, with a record of 3-0-1, is maintaining a one-half game lead over Grace (2-0-2). Tim Farrell, the coach of Off - Campus, says he is not too pleased with his teams performances this year, despite their impressive record.

"We have not played very well at all thus far this season," notes Farrell. "The Irish have been fortunate not to have played, with the exception of Grace, a very good team so far."

To try to remedy his squad's shortcomings Farrell says he has scheduled several practices.

Duke
continued from page 8

Notre Dame did manage a 3-0-1 record this season. While the Irish missed several easy shots inside, and they often were denied a second opportunity to shoot.

"I thought defensively we were excellent, especially in the first eight minutes," Krzyzewski said. "We didn't allow any second shots, and Notre Dame (usually) gets a lot of second and third shot opportunities.

The Irish could have benefited from extra shots, since they managed to make only 41 percent of their field goals in the game. The Blue Devils shot only 39 percent in the second half, but ended the game with a 55 percent mark.

Notre Dame played Saturday's game without the services of guards Scott Hicks and Dan Duff, both of whom were playing in the conference with the flu. As a result, Rivers was forced to play the entire 40 minutes against Amaker and Dawkins, who were all over Rivers as soon as he crossed midcourt.

"We knew coming into the ballgame that David Rivers was the key to their ballclub," Amaker said. "If we could contain him and try to control him as best as possible, we had a good chance of holding down our opponent." While the Blue Devils did not entirely contain Rivers, they were able to keep him from penetrating to the inside often and creating opportunities for himself and his teammates in the key. Most of Rivers' and Barlow's points came from outside shots.

The Irish, who will meet Loyola (Md.) tonight, are now 14-7 this season. Duke is now 19-4.

Duke's schedule several practices.

"We just haven't jelled," he says. "We have three practices coming up. I hope we can come together in time for Dillon and Holy Cross/St. Ed's."

Grace, currently second in the Krause division, has been powered by the superb goaltending of Pat Chura. Grace will, however, have to pass Off Campus in the league standings to end up in first, a task which Grace team captain Mike Mulligan says he does not think his team can do.

"I think our team will make the playoffs finishing second in our division behind Off Campus," says Mulligan.

The Blue Devils did not entirely contain Rivers, as Rivers and the rest of the team were denied a second opportunity to shoot.

"We knew coming into the ballgame that David Rivers was the key to their ballclub," Amaker said. "If we could contain him and try to control him as best as possible, we had a good chance of holding down our opponent." While the Blue Devils did not entirely contain Rivers, they were able to keep him from penetrating to the inside often and creating opportunities for himself and his teammates in the key. Exciting and Challenging Career Opportunities

A small, highly selective MBA program has been designed by The Ohio State University to provide professional management education to students with nonbusiness academic backgrounds. This two-year full-time program:

- facilitates a high level of student and faculty student interaction
- has no prerequisite coursework work
- is especially attractive to students with liberal arts, scientific, and other nonbusiness backgrounds
- is based upon a tightly integrated study of foundation management tools and concepts
- offers the opportunity to concentrate in one or two management fields through elective course work
- is offered by the top 25 schools of management in the country and is accredited by the American Assembly of Collegiate Schools of Business
- last year's graduates were very successful in securing their opportunities. Examples of positions they selected include the following:
  - assistant to the chief executive officer, Midland Mutual Life
  - field marketing manager, Ford Motor Company
- management trainee with an international assignment, Chase Manhattan Bank
- assistant product manager, Molson
- financial analyst, Hewlett Packard
- inventory control manager, IBM Corporation
- account executive, Merrill Lynch
- assistant vice president, Price Waterhouse
- management trainee with an international assignment, Procter and Gamble

Irish have height edge in Loyola game tonight

By JEFF BLUM
Assistant Sports Editor

It certainly won't be a battle of giants tonight when the Greyhounds of Loyola (5-2) fly into the ACC for a 7:00 contest with the Notre Dame basketball team. Loyola, although 12-11 on the year playing out of the ECAC Metro Conference, starts a line-up with no one over 6-5.

The Greyhounds' tallest players are 6-7 forwards and 6-6 center Karl Hone, stands an imposing 6-4. Loyola's other frontliners are Kevin Carr, a 6-5 junior, and Aubrey Revels, a 6-3 sophomore. A pair of Loyola's other sophomores, 6-0 Tom Goerlitz, make up the Greyhound backcourt.

Gaston has Loyola's leading scorer, contributing 17.4 points per game to the Greyhound cause. Senior Mo Hicks' 5.9 rebound chips in with 14.4 of his own. Yet while having seen action in every contest, Hicks has started only one.

Loyola is a team with plenty of experience, averaging 70.7 points per game, while yielding 69.8 in its opponents. And, because the Greyhounds play a relatively weak schedule, tonight's game takes on special significance for them.

"This will be a contest with significant game of the year," says Irish head coach Dewayne Jones. "I've seen the Greyhounds play a big game for us in a lot of ways. We have to get back on the winning track. We have seven games left, and we just have to go after all seven.

"The Irish may not have the services of seniors Steve Hicks and Dan Doll, but Dick oppression, team made successful
goaltending from Lukenda.

The Irish grabbed their 3-1 lead after one period with the help of three goals and three assists to pace Notre Dame.

The win improved Notre Dame's record to 8-6-1 while Marquette is now even at 11-11-1. The Greyhounds fell to 12-6-5. The Irish were playing away from home for the last time this season, and the triumph marked just its first victory away from the ACC this season. Notre Dame finishes its road season 1-1-1. The Irish may not have the services of seniors Steve Hicks and Dan Doll tonight. Both missed the game because of the flu and upper respiratory virus.

IRISH ITEMS - The Irish, but no more specifically freshman Dan Dolls, are featured in the current NCAA Tournament Selection Show. Following Marquette's win over Dayton Saturday in current standings, round-robin play of the Midwest independents Saturday, is the current No. 2 team in the ACC.

Tonight, 7:00
Hockey game vs. Marquette

After landing 3-1 after the first period and 5-2 at the end of two, the Irish survived an early scare in the third period when the Greyhounds tallied twice on power plays to pull within 1-4.

Notre Dame bounced back, however, and scored four times to seal the win.
