Rape victim files lawsuit against ND

By SARAH HAMMOND

Attorneys for the Saint Mary's nursing student who was raped last May on the road between the College and Notre Dame filed a $3 million civil suit against the University in federal court in Chicago yesterday.

The suit charges that Notre Dame did not supply adequate security on the road between the two schools for the victim and now claims that someone other than the defendant was raping her at the time.

Notre Dame, in a statement, noted that the student was hit by a car on May 12, the student was returning from Notre Dame alone along the road connecting the two schools when she was attacked from behind. She said she could not hear her assailant approach because she was wearing earphones and listening to music.

The victim then was dragged into a wooded area 180 feet from U.S. Route 31 where the assailant brutally assaulted and raped her according to the suit.

Despite failing to protect the victim, the suit alleges that Notre Dame did not warn students and patrol the road. The University failed to provide adequate precautions to protect the safety of the students and those who were invited to its premises, such as Saint Mary's students, the suit states.

In another count, the complaint charges that the University did not do anything to light the road between Notre Dame and Saint Mary's to inadequately protect its students.

The law firm of Harvey, Barnett and Associates is filing five $5 million in punitive damages, $15 million in compensatory damages and $5 million in actual damage.

Humanitas' joins ND publications

By PATRICK CREADON

Editor's note: This article is part of a two-part series examining new Notre Dame campus publications.

The College of Arts and Letters, in conjunction with the departments of philosophy, English, government and the Program of Liberal Studies, is in the process of producing the first edition of Humanitas, a once-per-semester journal, according to John Dettling, editor.

"The idea for the journal was not an original one," Dettling said yesterday. "Actually, there have been several proposals in the past for such a publication, but the plans had never been carried out.'"

Dettling said the idea at the beginning of this year, went to the Dean of the College of Arts and Letters, Michael Loux, with my plans. He told me that if I constructed a format for the journal, put together a staff, gathered commitments from potential workers, and raised some money, he would back our efforts financially.

As of now, Humanitas is working with an $800 budget which, according to Dettling, covers the cost of production, publishing, and many other "little things" which are involved in putting together a publication.

Dettling also said his staff might look to outside advertising to help support the journal, but the staff would be "very selective" in choosing advertisers.

Just singing in the rain

Anne Peterson didn't seem to let the chilling November weather stop her from taking a stroll around North Quad yesterday. Winter coats came out of storage all over campus as temperatures dipped into the low 40s.

60s radical Hoffman speaks here tomorrow

By MARK PANKOWSKI

Abbe Hoffman, the 60s radical who was one of the "Chicago Seven," who has been arrested 41 times, and who once mailed 3,000 marijuana cigarettes to randomly selected people, is coming to Notre Dame tomorrow.

Hoffman, scheduled to lecture at the Center for Social Concerns at 12:30 p.m. and Washington Hall at 8 p.m., was in Washington, D.C. during the turbulent 60s, said Mike Vore, Student Activities Board ideas director.

"Hoffman was a big part of it. He was in it all," Vore added.

Hoffman, who is lecturing as part of the Future Perspectives Series, will speak on the "parallel between student activism in the 60s and the 80s," said Vore.

The proposed amendment definitely will address how students today are not as active as their 60s counterparts. "The idea for bringing Hoffman is to look back at the 60s and see what forces were influencing students and what events happened," Vore said.

"Those students of the 60s are in power now. They are in positions to make changes," he said, adding, "(Hoffman's) lecture will give us a chance to see the changes that are coming and changes that will occur.

Tickets for Hoffman's Washington Hall lecture are free and will be distributed from noon until 4 p.m. today at Rock du Lac.
College students must tune in to news from outside world

Look beyond the current anarchy in student government, the roller-coaster football season and the varying degrees of ethanol odor. In our own little world, the boundaries of our two campuses, these issues reach monumental proportions at times. These events are important and should be dealt with, but beyond the domain of the ethanol odor there lies another dimension, the "real" world with its own set of issues and problems.

South Bend's Channel 16 promotes its newscast by asking the question "How will you know what happened today?" They offer their newscast as a prime source to answer this question.

At first, I was skeptical. But after reflecting on what I've learned at the University of Notre Dame, I've decided that I'm not so sure that the student newscast will be so fulfilling after all.

To quote a friend of a friend, sometimes "we are just too busy being educated to learn." The average student gets so wrapped up in the daily routine of tests and papers, he generally will not take the time to learn about what is going on elsewhere in the world.

It is so easy to narrow our focus to what effects us now that we tend to forget the trace of issues which can have an enormous impact on ourselves, our nation, and our world in the long run. We can become isolated beyond the Notre Dame/Saint Mary's shuttle route.

For instance, very soon the first United Nations conference of the 1990's, the Rio Summit will be held in June in Brazil. The theme of this conference will be "development with justice for all." This conference will be the focal point for the world community's response to the environment. The theme of "development with justice for all" will be the main issue discussed.

As the UN conference gets underway, other events will be occurring around the world which will impact our lives.

On September 20, leaders from 150 countries will come together in Geneva, Switzerland. There is the possibility that a new beginning in relations far beyond the student government "new beginning" can be achieved.

How aware are you, however, of the issues to be discussed at the talks? Further, what stance do the two countries currently hold on the problems to be solved? On a similar subject, do you know the current status of the arms race and efforts to stop the frightening escalations?

In Congress, the debate goes on concerning the nation's deficit and tax reform, among other things. What are the latest proposals and why has action been so lacking? Do you know how your congressman stands on major issues?

Don't forget, an election year is always just around the corner. We need to start thinking about who we will elect in the upcoming term (although in a less immature manner). Just remember the "real" world. One more question: "How will you know what happens today?"

Thanks to you... it works... for ALL OF US

STUDENT ACTIVITIES BOARD PRESENTS:

AboFF Hoffman:
He'll speak twice tomorrow; first at 12:30 in the Center for Social Concerns, then at 8:00 in Washington Hall. You'll need tickets for his evening discussion.

Get them from the Recruitment Store today, from 12:00 UNTIL 1:00. 2 tix/ID. Free
The Future Perspectives Series

Scott Beary
Assistant News Editor

What we need to find is a way of getting a few more minutes each day to catch up on the news beyond the reflection of the dome, whether it be through Ted Koppel or Tassos.

Showing little concern for the issues of the day now can easily continue as our individual worlds change in location, but not in scope. This is a dangerous situation and one which is newsworthily in itself.

It is true we need to relax and root for a fourth football victory in a row and enjoy the happenings of college life. It also is important to get valuable hands-on learning through organizations and governmental involvement (although in a less immature manner). Just remember the "real" world.

One more question: "How will you know what happens today?"

One more question: "How will you know what happens today?"
Senate rejects proposal which relegates jobs

By CHRIS BEDNARSKI

The Student Senate rejected a proposal to adopt a new constitu-
tion that would not include a stu-
dent senate last night.

"This is our vision of student government," said Kevin Howard,
hall president's council chairman, referring to the proposal.

The proposal delegates the duties of the current senate to the HPC
and the Campus Life Council.

Senator K.C. Culum was against the proposal. "The five senators
are not mentioned. That's one reason I'm against this. I think this amend-
ment will not be passed by the stu-
dent body. I think we should kill it here."

Culum said he wants the senate restructured instead of disbanded

"Why don't we focus on restructur-
ing? Why don't we get a body that
works? Why don't we have elections
early next year and get on with it?"

Student Body President Bill Healy
told the senate he hopes to have a
referendum on the South African
issue before the student body soon.

"We are having discussions with
John Detting, Pat Baccanari and
Peter Walde. We don't want to rush
it though," he said.

Detting and Baccanari are former
members of the Committee for
Responsible University Business
Practices. Walde is the director of
Notre Dame's African Program.

In other business, Howard in-
formed the senate the HPC's letter
writing campaign is falling short of
hope.

The HPC is asking students,
parents and alumni to write letters
to Vice President of Student Affairs
Father David Tyson to complain
about the University's interpretation
of the parental policy.

"It's not too late to do something,"
said cabinet member Mike Jaeger.

Joint board meeting at the College
highlights Observer, future events

PEGGY PROSSER

Members of the Observer Editorial Board were the featured
speakers at the joint meeting of the
Saint Mary's Board of Governance
and Programming Board last night.

Along with explaining the
structure of the Observer, the
editors fielded questions from the
Saint Mary's student government
members.

Editor-in-Chief Sarah Hamilton
stressed the importance of Saint
Mary's student involvement, saying
that as a result, coverage of Saint
Mary's activities would increase.

"We are your newspaper, as well as
Notre Dame's newspaper. We
want to serve the importance of par-
ticipation from Saint Mary's. People
have complained that Saint Mary's
doesn't get enough coverage, but we
can't report the events if we don't
know about them," said Hamilton.

Test Guarino, Saint Mary's Ex-
cutive Editor, discussed the exist-
ence of the Saint Mary's Observer
office, located in Haggar College
Center.

"A lot of students at Saint Mary's
don't even know there's an Observer
office at Saint Mary's, and we
want them to be aware of it," said
Guarino.

Student Body President Anne-
Marie Kollman mentioned the pos-
sibility of free Resource Cards from
First Source Bank, for those students
that have opened an account with the
bank in order to be paid for their
campus employment.

Christian Life Commissioner Cath
Dahle announced Apartment Aware-
ness Week, which begins Nov. 14
through Nov. 21. The week will con-
sist of speakers, films and informa-
tion boards placed throughout the
campus. The week will end with the
Oxford East.

Other items discussed were the
success of the Ride Board in Haggar
College Center, questions and com-
plaints about the building renova-
tions at the dorms, and comments
regarding the Hair and Tanning
salon, opening soon in the basement
of LeMacs.

Federal loan subsidizes SMC dorm renovation

By KARLA KESMAN
News Staff
LeMans and Holy Cross Halls at Saint Mary's are receiving much-needed renovations due to a low-interest government funded loan, according to Jason Lindower, Controller and Business Manager of the College.

The work began over fall break and will continue until its expected finish in two years, said Lindower.

Over $4 million, he added, has been budgeted for the renovations. A low-interest college housing loan government is supplying $3 1/2 million of this proposed budget.

Saint Mary's had to apply in order to receive this loan, Lindower said. "The competition for the loans was very tough. In fact, there was only $35 to $45 million available for the whole country," said Lindower.

In the application process, the College had to demonstrate a need for renovation in their housing for students. Lindower said Saint Mary's had an easier time than most applicants demonstrating need due to "safety reasons" and the great necessity for repair.

Lindower also noted that the renovations that have started are progressing nicely although the work was delayed a month or more in the projected finishing dates.

LeMans and Holy Cross Halls, both older dorms, have been in desperate need of repairs, according to Lindower. The list of planned renovations is therefore long.

Work already in progress includes masonry, roof repairs and exterior stairway repairs.

The majority of the work is mostly exterior and will continue until the winter weather prohibits repair, according to Lindower. It will begin again when weather permits. Roof repairs on LeMans will also continue as long as possible, he added.

Two exterior stairways being repaired are on the south side of the dorm and were wings of LeMans. The stairways that are presently dead-end at the second floor will be extended to the ground, Lindower said.

He predicted Christmas as the expected finishing date for one of the stairways, while the other is expected to be finished by next going.

Five shower rooms in the northwest section of Holy Cross are being repaired and should be finished within the next 17 weeks. Also under renovation are three shower rooms in west LeMans. These should be finished in 15 weeks time, said Lindower.

Another important renovation planned in the budget is the updating of fire alarm systems and electrical service. Lindower named a mid-November starting date for these projects and said work will move upward from the basement.

Smoke detectors will be installed in all hallways and rooms. Emergency lighting will be provided, exit signs will be improved, and new fire doors will be added. Lindower stressed that LeMans Hall will also have the installation of hot air sprinklers next spring. Holy Cross will see the disappearance of the existing old-fashioned exterior fire escapes which now pose a hazard.

A final renovation plan projected is the replacement of the ancient gate elevators in LeMans. Both elevators are A-1 and will be updated with the first being out of service from March 31 to July 4 and the other from July 5 to October 10.

These renovations will present some inconveniences now but are being done as quickly as possible. The work should be completed in 17 weeks time, said Lindower.

Two exterior stairways being repaired are on the south side of the stairway repairs.

HPC continued from page 1

amendment and how it delegates responsibilities previously held by the senate. If passed by the HPC, the proposal would be brought to a student vote. If passed by the student vote, the HPC would become responsible for approving all student government cabinet and Student Activities Board Steering Committee appointments, and for impeachment against various government officials.

Panhellenic President Tom Halpin said that the HPC shouldn't handle additional responsibilities but should be concerned with hall duties. He is one of ten hall presidents representing nine halls which called the special meeting after maintaining the vote takes last week was done "in haste."

Joanne Cahill, Lyons president, and Howard disagreed with Halpin's view saying the additional tasks would not take much more time. Karen also did not feel halls would be neglected.

The HPC did agree to modify the proposed amendment in two ways and will continue to make revisions until the vote is taken. Onobahman representative Maher Mouasher said the proposal must be looked at very closely, noting "I've spotted potential problems at a glance. Maybe there aren't any more potential problems, but there very well could be.

Revisions made at last night's meeting include giving HPC the power to make amendments to the constitution without a student vote if all voting members of the HPC are in unanimous agreement. They also would be able to cause the student body president to call a meeting of the HPC within 10 days of a request made by a majority of voting HPC members. The student body president presently has the ability to call CUC meetings at his discretion.

All Students, All Majors, All Year's Welcome! Joint Degree Programs Offered with Harvard's other Professional Schools.

General: Cross-Registration Permits with other Schools.

When was the last time you had a free band in any experiments or had fun in the laboratory? According to Johnson, "The opportunities for innovative undergraduate research are not limited here - not only by a lack of funds, but also in terms of the incredibly small amount of free time available to the students who would be interested in such work. The majority of SPERO's research occurs in January and February in order to avoid conflicts in the fall with football and other major events. Johnson maintains that SPERO is a very open-minded group and encourages anyone interested in any aspect of solar research to contact the group and discuss the possibility of working in their experimental equipment. As Johnson said: "You can't beat research as a way to build or expand your understanding of the material you learn in the engineering class. Most people would like to see people take advantage of this chance."
Shuttle bus riding provides unique times, people

Kim Yurtovac

my views

Hordes of Saint Mary's women pile into the bus in front of Lehman every weekday. The bus driver, affectionately known as "Jammim Sam," eagerly welcomes them. They are exposed to a wide scope of the musical spectrum. Sam's musical tastes range from oldies to gospel to disco. The passengers vary from a group searching for a good party to an "Indiana Motor" that enjoys playing commercials more than music.

Doonesbury

Naturally, everyone does not have the same taste in music. Sam's musical spectrum is often a surprise. The Ultimate Garage radio station plays a variety of music, but most people do not have the same tastes in music. Sam's musical taste is a mystery to most people.

Not wearing seatbelts foolishly endangers drivers

Nearly every day, people put themselves into situations of great danger, facing Death each time. Most of the time, Death fails to capture them, but every once in a while, he gets lucky. Everyone who gets into a car, Death is waiting.

William Wilson

guest column

Automobiles are dangerous things. We hurtle thousands of pounds of metal around at great speeds. And, unfortunately, every once in a while, one comes to a sudden stop and someone is injured or dies.

Doonesbury

Weekend nights are the prime time of shuttle riding. The bus is usually jam-packed. Friends, roommates and dates alike can be lost in the shuffle. By the time the bus reaches its destination, the windshield is sprayed and there are so many people abroad that it is impossible to figure out which stop it is.

The shuttle arrives at the last shuttle quarter in the circle to greet suited Domers grasping roses as they prepare for their dates with the Jane Does of Saint Mary's. The aroma of Polo fills the air. One guy nonchalantly glances at the window to brush a stray piece of hair from his face and then he leans in to his friend and says, "God, I hope she's not a geek. I couldn't handle another date like last week." The late night ride back to Saint Mary's is quite different. Drunks get complacent about their strange SYR dates, while happy couples make the journey together drooling for the ever-popular "after parties" and "ladies who lunch." Either the bus has just left or it is about to leave. At this point, a frantic flagging down of the shuttle is necessary, especially if it is the last shuttle. Occasionally, this works. Courageous Notre Dame student attempted this by jumping in front of the shuttle yelling "stop!" The good old "tango" was suited Domers grasping roses as they prepare for their dates with the Jane Does of Saint Mary's and a regular Viewpoint columnist.

Quote of the day

"Let us begin by committing ourselves to the truth - to see it as it is, and tell it as it is - to find the truth, to speak the truth, and to live the truth."

Richard M. Nixon (1913 - )
Nomination Acceptance Speech, 1960
In the aftermath of the two earthquakes that struck here last month, everyday life for most of Mexico City's inhabitants has returned to normal. While the headlines of the papers were full of stories about the earthquake, many people were still seen walking the streets and going about their daily lives.

**Viewpoint**

**ND student in Mexico describes life after disaster**

Tuesday, November 5, 1985 - page 7

In the aftermath of the two earthquakes that struck here last month, everyday life for most of Mexico City's inhabitants has returned to normal. While the headlines of the papers were full of stories about the earthquake, many people were still seen walking the streets and going about their daily lives.

Yet, some of the 18 million people living in this city are still recovering from the trauma of the earthquakes. Many of them are still searching for lost family members. In some cases, they have been homeless for years to come. More than 400,000 Mexican remains home and face the prospect of searching for low-cost tenements in a city with chronic housing shortages.

Thousands also gathered in front of the President's Los Pinos residence last week demanding more government assistance. With their banners and signs held high, they claimed the government had not been doing enough for the homeless and the hungry.

Senior points to CLC and its shortcomings

**Dear Editor:**

I would like to clear up the confusion about the Campus Life Council that has clouded the issue of disbanding the Student Senate.

First, the CLC cannot serve as a voice of the student body because it is not designed to do so. The composition of the CLC is eight students, six rectors and two faculty members. The students do not even have a majority of the seats. Do rectors or faculty members express the "legitimate voice" of the student body? Second, the CLC is far less accessible than the senate. Student government's constitution states clearly that the senate will meet once a week during the school year. This enables any student to bring an issue that concerns him or her. However, the CLC, which has met less than ten times in the last four years, does not have any such provision, and we assume that it will not make one.

Finally, the proponents of the disbandment state that anything the senate does needs the approval of the CLC. This is simply not true. The CLC does not approve delegations sent to the trustees or approve cabinet positions. It does not watch over the funds of the student body or question the prerogatives of the student to bring an issue that concerns him or her. While it still affects him. However, the CLC is not designed to do so. The composition of the CLC is eight students, six rectors and two faculty members.

**Dear Editor:**

I would like to clear up the confusion about the Campus Life Council that has clouded the issue of disbanding the Student Senate.

First, the CLC cannot serve as a voice of the student body because it is not designed to do so. The composition of the CLC is eight students, six rectors and two faculty members. The students do not even have a majority of the seats. Do rectors or faculty members express the "legitimate voice" of the student body? Second, the CLC is far less accessible than the senate. Student government's constitution states clearly that the senate will meet once a week during the school year. This enables any student to bring an issue that concerns him or her. However, the CLC, which has met less than ten times in the last four years, does not have any such provision, and we assume that it will not make one.

Finally, the proponents of the disbandment state that anything the senate does needs the approval of the CLC. This is simply not true. The CLC does not approve delegations sent to the trustees or approve cabinet positions. It does not watch over the funds of the student body or question the prerogatives of the student to bring an issue that concerns him or her. While it still affects him. However, the CLC is not designed to do so. The composition of the CLC is eight students, six rectors and two faculty members.

**Recall effort successful despite its dissbanding**

**Dear Editor:**
Off-Campus basketball will be meeting tonight at 7 p.m. in the Lafayette Little Theater. Anyone interested in playing should attend. For more information call Grant Gailius at 327-2275. The Observer

Off-Campus hockey team will be meeting tonight at 7:30 p.m. in the Lafayette Lounge. Anyone interested should attend. For more information call Ed Sullivan at 272-2454 or Tim Connors at 288-5484.

An NVA weight training workshop will be held tonight at 7 p.m. in the Rocke Weight Room. Gary Weil, strength and conditioning coach, will be on hand to demonstrate proper techniques. For more information call the NVA office. -The Observer

The ND/SMC ski team will be holding a meeting tonight at 7:30 p.m. in the Lobby of LeMans Hall. For more information call Ann Ratledge at 277-2252 or Sheila Smigun at 272-6773. -The Observer

ND Water Polo Club members who are to take part in the dedication of the new natatorium are to meet tomorrow at 7 p.m. at the newly constructed natatorium while Vice President Chaitanya Parchal played in the "A" division. In doubles action, the Mapother-Parchal duo lost a match in "C" division play. -The Observer

hall at a spot where we aren't usually going to go beyond two players, we felt there was a log-jam. With Mark's natural ability, we had to find the same thing with Alonzo and felt sure he has what it takes to play. As Brown (in particular to receiver Tim Green explains.

"He's a freshman. He's very easy to coach. I got the chance. Indeed, it has worked. Green has caught eight passes for 100 yards in 10 reception) was the first reception) was the feeling really excited." (The Observer)

"It means easy. Green says.

"(The first reception) was the best feeling I've ever had in my life," he continues. "And the feeling really never changes. Whenever I have the opportunity to get in there and the ball comes to me I'm excited."

Coach Stuck has nothing but praise for the freshman, and remains undecided as to whether Green will move back to the tailback position next season.

"He's done a great job," Stock says. "We thought we'd give him a chance to get his feet wet, and he's just played above all expectations as a freshman. He's very easy to coach. He works hard, he's done a great job adapting, and is learning as he goes along."

"We worry about next year when it rolls around. There are many factors to be considered. As for now, he's doing an outstanding job where he is."

But even with Green's natural talent, stepping into the football program at Notre Dame was by no means easy.

I found it tough coming in as a freshman and trying to contribute," Green says. "It gets better, though. Once you get used to the system and settle down, you start smiling again."

If Green's early play is any indication, the Notre Dame coaches will settle on his position for now. He's doing an outstanding job where he is.

When the applicant reaches his/her goal, a free Club T-shirt will be given out. To fill out a pledge card or to get more information call the NVA office. - The Observer

The Cardinals moved 65 yards on their next possession for the go-ahead touchdown. Lomax completed passes of 11 yards to Smith and Smith's 15 and 12 yards to Tilley to set the stage for Earl Ferril's 6-yard touchdown run with 4:07 left in the quarter.

While the Cardinal offense rolled, the Dallas defense was continually frustrated throughout the second half by an aroused St. Louis defense that prompted two turnovers.

St. Louis moved 80 yards in 10 plays for the clinching score. Stump Mitchell ran 21 yards and then took a Lomax pass for 25 to put the Cardinals on the 42. Lomax hit Smith for gains of 10 and 19 yards before connecting with Smith on a 9-yard scoring play with 4:13 left in the game.

It was the Cards' third straight victory over Dallas, which had won 11 of the previous 15 games between the teams, including the last three at Busch Stadium.

Lomax completed 17 of 32 passes for 260 yards while White made good on 21 of 36 for 203 yards with one interception.

We wish to thank everyone for the ND/NMC generosity through out United Way's annual campaign at Notre Dame 

Lomax sparks second-half rally

Cards knock off Cowboys, 21-10

Associated Press

ST. LOUIS - Neil Lomax brought St. Louis to life with a 46-yard touchdown pass to Pat Tilley early in the second half and added a clinching toss to J.F. Smith with four minutes to play as the Cardinals ended a four-game losing streak by beating the Dallas Cowboys 21-10 in a National Football League game last night.

The Cardinals moved 65 yards on their next possession for the go-ahead touchdown. Lomax completed passes of 11 yards to Smith and 15 and 12 yards to Tilley to set the stage for Earl Ferril's 6-yard touchdown run with 4:07 left in the quarter.

**Irish retain hope after losing weekend match**

By CHUCK EHRMAN
Sports Writer

The Notre Dame volleyball team lost to DePaul last Sunday in Chicago, but it's not the end of the world. At least that's according to Irish head coach Art Lambert and his players.

Although dropping the match with the Blue Demons in four games (15-10, 15-8, 7-15, 15-10) disappointed Lambert's troops, the 9-16 Irish still have hope because they may get another shot to play conference games in the NCAA North Star Conference tournament.

Before the Irish play in any tournaments, however, they must face Valparaiso Thursday at 8 p.m. at the ACC. After this and a Nov. 12 match with Purdue, then Notre Dame can worry about the NCAA tournament.

While the Blue Demons clinched the top seed in this tournament with Sunday's victory, Notre Dame fell to 5-2 in the conference, good enough for a second-place tie with Loyola and Butler. And Lambert isn't complaining much about that.

"Obviously I was really disappointed that we lost," said Lambert. "But it's not like we don't have a great opportunity to turn things around when it counts, and that's at the league tournament."

At the NCAA tournament, which will take place Nov. 15-16 in St. Louis, Mo., it's a whole new ballgame. Much of what occurred during the season, good or bad, really does not matter except for purposes of seeding. This is good for the Irish, for they may get their wish of another chance to dethrone conference king DePaul from its pedestal.

But, again, any visions of conference glory must come after the Valparaiso match on Thursday. The Irish will be looking to improve their season mark and stay in top form for any future matches they may play. Hopefully for Lambert, they will get their wish against Valparaiso, which finished last year's season with a 6-27 record.

"I can't complain," said Haines. "P.W. really played a great game. They have an explosive offense that gave us a lot of trouble. Both teams really have won that game today. Just happened to have one extra big play."

Later, Haines praised his team's offensive performance.

"Our defense definitely carried us. It was our best offensive performance for the year. Colleen (Donnelly) must have thrown for 500 yards."

"The defense finally came through when it counted," continued Haines. "Now, we need to keep up the momentum into the championship game."

Momentum should not be a problem for either team in the final. The blue demons are the No. 1 seed again, and the Irish are the up-and-coming team that will definitely be working for both teams having been working for all season.

**Farley and P.E. win games, set up Sunday final**

By FRANK HUEMMER
Sports Writer

If the playoffs are any indication of what to expect, the women's flag football championship game this Sunday at 2 p.m. in Notre Dame Stadium should be a real barn-burner. Farley and Pasquerilla East will meet in the final after winning close games over Lyons and Pasquerilla West respectively.

Farley improved its record to 8-0 with a 14-8 overtime win. Lyons jumped out to an 8-0 lead by scoring with less than one minute remaining in the first half. Farley came back to tie the game at 8-8, however, when Joanna Branick took a pass from quarterback Marla Almeida and ran 40 yards into the end zone for the score.

In the overtime, both teams get one chance to score from the five-yard line. Farley received the ball first and scored as Almeida ran the ball around end. Lyons then took possession of the ball but failed to score as the Farley defense made a goal-line stand.

Although his team came away with the victory, Farley coach Pete Janicki praised Lyons' performance. "You can't take anything away from them. They played a very good team and deserved to have a lot better record than they did."

He later added that the Farley fans played a big role in the game. "The fans on the Farley side really made a difference in helping us play better in the second half," said Janicki. "They really helped to change the momentum of the game."

Meanwhile, the second contest on the day's schedule featured many slants of momentum as P.E. was able to outplay P.E. by a score of 26-22.

"P.W. scored the first two touchdowns of the game to take an early 16-0 lead. P.E. stormed back, however, behind the right arm of quarterback Colleen Donnelly who fried two long touchdown passes to running back Anne Schrenk to make it 10-14 at the half.

In the second half, P.E. again was led by Donnelly who tossed a touchdown pass to wide receiver Reg Richter. This one forged the 26-22 final."

When it was all over, it was again a case of the winning coach heaping praise on his losing team. Farley coach Dave Haines felt P.W. played a tough game throughout.

"You're never going to play P.E.," noted Farley mentor Janicki. "Defensively they are very similar to us. Offensively, they have the best offensive line of any team in the nation."

"However, the excitement and enthusiasm in Farley is becoming an unstoppable thing. Our girls really want to win, and playing in the stadium will be what we've worked all year to do." Pasquerilla East's coach Haines meanwhile is preparing his team for an upset-minded Ehrman.

"Everyone has picked Farley to take it all," said Haines. "They have a lot of talent, but we will be practicing real hard. Our team will be ready to meet the challenge."

Ready or not, this showdown will be a very interesting matchup and should provide a lot of excitement.

---

**He makes necessary adjustments**

Freshman Green answers questions

By MARTY STRASEN
Sports Writer

When Mark Green was recruited by the football staff at Notre Dame, a number of questions remained unanswered. And while some have not yet been solved, the freshman's future with the Irish looks brighter than I was defensively. Notre Dame got the word about me summer I said, 'I want to give the secondary. In the middle of the season at Michigan, and has since proven advantageous to both Green and Notre Dame. Offensive coordinator Mike Stock can attest to that."

"He was an outstanding all-purpose player in high school," coach Gerry Faust watched him scamper for touchdowns of 70 and 50 yards in a playoff game last fall. "He recruited me more or less, as an athlete, and let me make up my mind whether I wanted to play offense or defense," says Green. "They told me they wanted me to come and give tailback a shot and that if I didn't like it I could move over to the secondary. In the middle of the season I said, 'I want to give tailback a shot.' I figured it would be easier going as an offensive player and switching to defense than it would be going in as a defensive player and switching to offense.""

Another switch was still ahead for Green, however. The decision to move him to flanker was finalized two weeks before the Irish opened the season in Michigan, and has since proved advantageous to both Green and Notre Dame Offensive coordi-
