Class of 1990: the beginning at last

450 to enter Saint Mary's

By MARGIE KERSTEN
Saint Mary's Editor

More than 450 freshmen have ar­
ived on campus to begin their four
years of college at Saint Mary's.

"The incoming freshman class
gives a hint of what the Saint Mary's
experience as well as enhance the
College community," said Mary Ann
Rowan, director of admissions
for Saint Mary's.

Fifty percent of this year's freshmen are in the top one-fifth of their graduating class, and 30 percent were in the top 10 percent, Rowan said.

From an applicant pool of 1025
women, 820 were accepted to ac­
tend Saint Mary's, according to
Rowan.

The class of 1990 represents 34
states and seven foreign countries.
Indiana, Michigan, Ohio and Illinois
are the largest states that are
represented, she said. Rowan noted
that an increased number of students came from Wisconsin, Minnesota, Iowa, New York, Penn­sylvania and California.

The size of the freshman class is
down from last year, said Rowan,
explaining that it was "smaller by
design." The decrease in students is
because of the size of the grading
class of 1986, as well as the
"phenomenal retention rate"—the
number of students who remain at
Saint Mary's rather than transfer to
another college.

Although housing is filled to
capacity, Rowan said no student
will have to live in temporary housing.

Rowan attributes "the effective
teamwork of our admissions and
Student life departments and that's a
commitment." This includes per­sonal contact to prospective students by faculty and administra­tion as well as more than 700 per­sonal interviews by the six-member, admission committee.

Destination Dome

As future alumni and their parents arrive yesterday after­noon, they are greeted by the Alumni Association.

More than 1,800 Notre Dame freshmen will have arrived by this weekend at freshman orientation con­ferences.

Four years from now, many will travel this road again, but they'll be heading in the other direc­tion.

ND welcomes 1,820 frosh

By MARK PANKOWSKI
News Editor

For about 1820 incoming freshmen at Notre Dame, this is when it all begins.

Members of the Class of 1990 have arrived for freshman-orientation weekend, the first of many events during their four years at Notre Dame.

"I wouldn't doubt it's one of the best classes ever," said Pat Leonar­do, assistant director of admissions.

Thirty percent of this year's freshman class ranked in the top five of their graduating class, 75 percent were in the top 15 percent and 92 percent were in the top one-fifth, according to Notre Dame's 1986-87 Fact Sheet.

Members of the Class of 1990 also did well on the Scholastic Ap­itude Test. Their average com­posite score—approximately 1,200—is slightly higher than last year's. Leonardo said.

"It's a very talented class," Leonardo added. "A tremendous number of the students were captains of school teams or class presidents."

Approximately 2000 of the 6790 students who applied to Notre Dame were accepted, Leonardo said. Of those 2,900, between 1,820 and 1,825 are expected to enroll, he said.

Exact figures were not available because some students who sent in their enrollment confirmation may cancel at the last minute or not show up, he said.

Only about 90 of this year's freshmen have cancelled so far, Leonardo said. "That's one of the lowest number of cancellations ever," he said. "It's 50 percent lower than two years ago." The earlier a student sends in their enrollment confirmation may cancel at the last minute or not show up, he said.

Because this only accounts for about 20 students living in tem­porary quarters this year, rather than 90, Leonardo suggested that Student Residences might be par­tially responsible for the overflow.

"In fact 90 people are in student lounges . . . why isn't there 20 or 30?" Leonardo suggested.

After Leonardo asked this ques­tion, an attempt was made to call back Reinebold. However, her assistant said Reinebold had become ill and had left the office for the day. An early deadline for see LOUNGE, page 7

Study lounges to be temporary home for 84 ND freshmen

By MARK PANKOWSKI
News Editor

While some students like to get
a head start on their schoolwork,
that's not the reason why more
than 80 Notre Dame freshmen are
expected to be in study lounges this
week.

They'll be living in them—but only for awhile.

Because of overfilled dorms, about 84 freshmen will temporarily
reside in study lounges in Plan­ner, Grace and Sorin halls, according to Evelyn Reinebold, director of student residences.

In addition, six other freshmen will be squeezed into dorm rooms in Alumni, Cavanaugh, Morrissey and Zahm halls. For example, a room designed for three students may temporarily have four.

Reinebold, who has been at the
University for 15 years, said that
this is the largest number of freshmen in makeshift quarters that
she can remember. She added that
Student Residences has been forc­ed to put freshmen in temporary quarters for a number of years.

"We've always had an
overflow," she said.

As other students move off cam­
pus or leave the University, freshmen will be relocated into other dorms, she said.

Reinebold said that she didn't
know how long it would take to
find permanent rooms for all the
freshmen. "I wish I had a crystal
ball," she said.

Last year, study lounges were
home to 41 freshmen. Reinebold
said she believed all had permanent rooms by the beginning of Oc­
tober, possibly earlier.

Freshmen will be moved out ac­
cording to when they sent in their
enrollment confirmations, she said.

The earlier a student sends in his con­
firmation, the quicker he'll be mov­
ed out.

Freshmen who send in their confirma­tions between May 1 and in study lounges or squeezed into dorm rooms, Reinebold said.

Although in the past both male and female freshmen were placed in temporary quarters, this year all are male students, she said.

Reinebold said freshmen must be
placed in makeshift quarters because the Admissions Office ac­
cepts more students than there is
space for, knowing that some will
cancel. Admissions must estimate the number that will
decline the invitations, cancel their
confirmations or not show up.

Because the number of cancella­tions was low this year, Student
Residences was forced to place freshmen in temporary rooms, Reinebold said.

Assistant Director of Admissions Pat Leonardo disagreed, however.

Leonardo said that although the number of cancellations was very
low this year, Admissions expects
between 1,820 and 1,825 freshmen
to enroll. That's approximately the
same number as Admissions was
told to bring, he said.

With that in mind, Leonardo said
he could only explain why about 20
students are without permanent
rooms. According to Leonardo, on
Wednesday Student Residences
was given a list of approximately
1,840 freshmen that would need
rooms. About 20 freshmen do not
show up each year, he said.

Because Student Residences
doesn't know which freshmen won't show up, some must be plac­
ed in temporary rooms, Leonardo said. Later, as the names of freshmen that didn't enroll become
available, Student Residences can then assign those students in tem­porary quarters to the rooms of the
"no-shows."

Because this only accounts for about 20 students living in tem­
porary quarters this year, rather
than 90, Leonardo suggested that
Student Residences might be par­
tially responsible for the overflow.

\"In fact 90 people are in
student lounges . . . why isn't there 20 or 30?\" Leonardo suggested.

After Leonardo asked this ques­tion, an attempt was made to call
back Reinebold. However, her
assistant said Reinebold had be­come ill and had left the office
for the day. An early deadline for see LOUNGE, page 7
Three residence halls at Saint Mary's will have new directors. Holly Taylor, who served in a variety of administrative positions at Bethel College, will be Regina Hall's residence hall director. Mary Joo Paik, who received her Master of Science in counselor education from the University of Pittsburgh, will be director for McCandless Hall. Margaret "Maggy" Caven has moved to serve as director at LeMans Hall.

**Construction of the additions** to the Notre Dame Law School has been delayed and won't be completed until October, according to Don Dedrick, director of the physical plant. Rain in November and delays in delivery of materials slowed construction, Dedrick said. The remodeling of portions of the old building has been completed, as well as the north end of the addition, he said. Workers are now finishing the exterior masonry and working on the windows. Once they're done, they'll work on the offices in the south end of the addition.

**Notre Dame's War Memorial** will be completed in about two weeks, according to Don Dedrick, director of the physical plant. Construction was delayed by the late shipment of black granite that surrounds the fountain, Dedrick said. "We had a heck of a time getting the black granite from Italy," he said. On Tuesday, the fountain was turned on. However, workers still must repair the sprinkler system and put in new sod before the memorial is completely done, Dedrick said.

Ernan McMullin, O'Hara professor of philosophy at Notre Dame, has been elected to the American Academy of Arts and Sciences, an international honorary society based in Cambridge, Mass. McMullin, who joined the Notre Dame faculty in 1954, was chairman of the department of philosophy for seven years. Currently director of the program in the history and philosophy of science, he specializes in theories of scientific method, the scientific revolution of the 17th century and the interactions of science and theology. Academy members research and publish material on national and international issues such as human rights, weapons in space and corporate responsibility.

**Notre Dame** received $1,574,858 during June for the support of research, equipment and publication. Of this amount, $344,071 from American Biogenetic Sciences Inc. for research and services in the biotechnological sciences. Borkowski and Thomas Whitman, professors of psychology; and biogenetic sciences for research and services in the biotechnological sciences.

**Workers still must repair the sprinkler system and put in new sod before the memorial is completely done, Dedrick said.**

Tuning up

Rao Bologa, Greg Kils, Jim McEachen and Rob Grahak (left to right), of the Notre Dame marching band, gear up for the upcoming football season. Band members, who arrived late in the week, will be visible and audible in the coming weeks practicing for the first game on Sept. 13.

LaFortune renovation complete by October

By MARK PANKOWSKI
News Editor

Once hoped to be finished by now, the renovation of the LaFortune Student Center is currently slated for completion by the third week of October, said Don Dedrick, director of the physical plant.

However, Dedrick said, parts of the building are essentially complete, and some businesses and organizations have already moved in.

Dedrick attributed the late completion date to delays in the delivery of materials and bad weather in November and December.

The delivery of materials really held us up," Dedrick said. "When one material is not here, it really holds everything up."

"Construction delays were also caused by the weather," he said. "We had quite a bit of rain last November. We were doing outdoor work and we just couldn't get the work done."

Once completed, the student center will feature an elevator and a ramp, making it accessible to the handicapped, he said.

Dedrick described the renovation, begun last year, as being done "from the top on down. "As parts are completed, they'll be turned over to the students," he said.

Currently, workers are putting the finishing touches on the third floor, which will house Student Activities, The Observer, the Dome, Scholastic, Adworks, a lounge area and conference rooms.

The offices of Student Activities, The Observer and the Dome are nearly complete, while Scholastic's should be done in about two weeks, Dedrick said. Student Activities, however, have already begun moving in.

On the second floor, workers are painting and doing the wood trim. Dedrick said. Student government, the International Student Affairs/Minority Student Affairs Office, Student Activities Board, Shenanigans, the class offices, WAV-FM student radio station, the International Student Office lounge, the Black Cultural Arts Council lounge, Theodore's and club offices will all be located on the second floor.

Although Dedrick said the offices of student government should be completed in about two weeks, it wasn't clear when the others would be finished.

The Ballroom, also located on the second floor, is essentially complete. Dedrick said. However, the stairway leading to the Ballroom still needs painting and plastering.

On the first floor, construction is being done on the walls and ceiling of the Huddle, he said. The fast-food eatery should be completed by the third week of October.

Much work still needs to be done on the basement area, although the University Barbershop, which moved from Badin Hall is already open there, Dedrick said. He added that he expects 1st Source Travel, which also moved from Badin Hall, and the Irish Gardens florist to be open by the time school starts.

"The other businesses, it's a little premature for me to know when they'll be open," Dedrick said. "The street shop, University Hair Stylist and game room will be awhile."

University Hair Stylist will remain in Badin Hall until it moves to the basement.

Other businesses to be housed in LaFortune's basement include the Ticket Stub, The Cellar (a record room) and a 24-hour laundromat. A television lounge will also be located there.

Dedrick said he expects the 24-hour laundromat to be the last part of the building completed, probably by the third week of October.

"I think when we finish everybody will be pleased," Dedrick said. "It's worth the wait."
### TASTE

### Join us at the TASTE OF NOTRE DAME

Hawaiian Luau one of many events set for SMC freshmen

By MARGIE KERSTEN
Saint Mary's Editor

Saint Mary's freshmen may not have time to become homesick as the Orientation committee has planned several events to keep them busy.

Beginning this afternoon, freshmen and their parents will have the opportunity to learn about the different study-abroad programs affiliated with Saint Mary's. These include Rome, Spain, Semester around the World and the various summer-abroad programs offered by the College.

This evening, the traditional Hawaiian Luau will take place on the Dining Hall Green. According to Orientation Chairperson Maura Barille, Hawaiian dancers, food and much socializing will be part of the festivities.

Guests of Saint Mary's freshmen will be able to purchase tickets for $5. Admission is free for those 12 and under.

For the second year in a row, the survival-leader program will play a significant role in introducing freshmen to college life, according to Barille. "I think it (the program) is fantastic for the freshmen and is an instant way for the girls to make friends."

The survival-leader program consists of approximately 85 upperclassmen volunteering their time to the freshmen. Each upperclassman has five or six freshmen in her group, said Kathy Bryant, assistant chairperson.

All members of the group live in the same dorm, which allows the women easy accessibility to their leader, Bryant said.

Survival-group meetings will continue throughout the orientation period and possibly throughout the entire semester, said Barille.

Socializing will continue tomorrow night at the Pre-Dance party on the Hagar College Center Terrace for both Notre Dame and Saint Mary's freshmen. During the party, Saint Mary's freshmen will be able to obtain tickets for the Stepan Center dance, which will follow at 9 p.m.

In addition to the socializing, educational meetings will be scheduled for incoming students today and tomorrow. Meetings for parents and discussions about college majors are among the events planned.

After the initial transition to college life, Saint Mary's will be sponsoring a freshman trip to the Warren Dunes in Michigan. Buses are scheduled to depart from the McCandless Hall parking lot at 9 a.m. on Saturday, Aug. 30.

Barille said she is "pleased with the attitude and enthusiasm" of about 200 volunteers who have made the orientation possible. "We are really anticipating the arrival of the freshmen and feel we are organized and confident that it will go well."

**Ultimate icebreaker** set for Sunday

By LYNN STRAND
Staff Reporter

Before it's all work and no play for Notre Dame freshmen, they will be treated to Playfair, a set program of comedy skits and audience participation to be held tomorrow at 8:45 p.m. on the Stepan Court.

Described as "the ultimate icebreaker" by Martine Beamon, chairman of the Freshmen Orientation Committee, Playfair will feature group dynamic exercises. Students may be asked to form groups according to the month of their birth or their home state.

Lou Holtz, Notre Dame football coach, will be the event's guest speaker. According to Beamon, Holtz is the appropriate speaker because "he will tell why he's very proud to be at Notre Dame."

Beamon suggests students dress casually for the event because it's non-competitive. Following Playfair will be Dancefair, based on a recent, an event of Notre Dame's spring festival, An Tostal. "Dancefair is more than a dance, it's a party," said Beamon.

Freshmen will be officially welcomed aboard tonight at 7:30 in the Athletic Convocation Center.

CLARK TELECOMMUNICATIONS, INC.
ND student government unchanged

By FRANK LIPO
Staff Reporter

Although several attempts were made last year to reorganize Notre Dame’s student government, they all failed, and thus the structure remains the same.

Student Government

Campus-wide student government is established by a written constitution. The constitution establishes the positions of student-body president, vice president and treasurer, and allows a cabinet to be chosen by the student-body president.

Student Activities Board

By the use of subcommittees, the SAB runs the annual Stepan Mall where students are able to rent refrigerators and buy furniture for their rooms. The SAB also coordinates other events throughout the year.

Student Senate

The Student Senate also is established by the constitution. It is composed of representatives from other branches of government, an elected off-campus senator and four elected on-campus senators.

Judicial Council

The Judicial Council, also established by the constitution, is composed of the judicial board chairman from each dorm.

Although several attempts were made last year to reorganize Notre Dame’s student government, they all failed, and thus the structure remains the same.

Class

continued from page 1

smaller than last year’s, when approximately 1,840 freshmen enrolled, Leonardo said. However, it will be larger than the freshman class of two years ago, when 1,790 came to the University.

Approximately 1,310 of this year’s freshman class are men and about 515 are women, a ratio nearly the same as last year, Leonardo said.

Lounges

continued from page 1

this issue prevented additional calls the next day.

Earlier, Reinebold said that 40 freshmen would live in study lounges in each of Grace and Flanner halls, with four men to a lounge. Four freshmen will also live in Soen Hall’s study lounge.

Exploring strange frontiers

ERIC M. BERGAMO assistant features editor

Being a freshman at Notre Dame in South Bend is like being a stranger in a strange land. This is not the familiar places of your hometown, replaced by the new surroundings of South Bend. But if you take the time to help make the transition to this new land easier.

Places to shop

Three major shopping malls in the South Bend area offer a variety of stores.

University Park Mall is two miles north of the campus on State Route 23. The mall features more than 90 stores and restaurants along with two movie theaters that show the latest releases. A shuttle bus runs from the campus to the mall every Friday and Saturday evening at a cost of 50 cents. During the week Transpo, the South Bend area public transportation service, runs buses to the mall. Scottsdale Mall is on the south side of the city on Ireland Road. Scottsdale offers many of the same stores, also with a shuttle bus running from the mall. Transpo offers bus service to the mall as well.

The 100 Center in nearby Mishawaka is different from University Park and Scottsdale in that it is located in a renovated brewery. A number of unique specialty shops and restaurants can be found at the 100 Center.

Other smaller shopping centers are close to the Notre Dame campus. North Village Mall on U.S. 31 and the Town and Country Plaza on McKinley Avenue are near. The Goodwill Store offers used merchandise at very inexpensive prices. Such items as easy chairs, couches, tables and lamps for dorm rooms can be bought there. Goodwill is a half mile south of the campus at the Five Corners.

Lodging

A number of hotels and motels in South Bend provide lodging at comparable prices, either inexpensive or expensive. The Morris Inn, operated by the University, is the closest hotel to Notre Dame. The hotel is just south of the campus across from the Center for Continuing Education.

Many inexpensive hotels can be found on U.S. 31. The Budweiser Motor Inn, Days Inn, Motel 6, Howard Johnson's and the Ramada Inn. The more upscale hotels can be found in downtown South Bend at the Americana Inn on West Washington Avenue and the Marriott on St. Joseph's Avenue.

Places to eat

Fast food restaurants are on U.S. 31 near the campus. Arby's Big Boy, Denny's, Bonne Bonne, Godfather Pizza, the Golden Bear, Kentucky Fried Chicken, McDonald's, Pizza Hut, and the many other fast food restaurants found downtown can be found on U.S. 31. South Bend and Mishawaka are home to many other familiar restaurants as well as a few unique eateries.

The 100 Center in Mishawaka offers a variety of options including an ice cream shop and a deli.

Transportation

Transpo offers bus service to all of South Bend and Mishawaka at a cost of 50 cents one way. Transpo buses stop at the Main Circle and the Library Circle on the campus.

If Chicago is the destination, the South Shore Railroad Station, located at 722 W. Washington Ave., provides service to the "Windy City. The South Bend area public transportation service offers service to Chicago three times daily at a cost of $4.40. Amtrak also provides train service to the rest of the country from the station.

Freshmen can ride the Transpo bus service downtown to visit their parents at the Americana Inn.

**DESSERTS**

Peach, Apple, or Cherry Cobbler  
1.55

**OPEN 7 DAYS 11 a.m. to 9 p.m.**
**Predictions and expectations for freshman year**

Chances are you will be more than a little overwhelmed by all the sports and activities that Notre Dame has to offer. If you are not interested in participating, you may find yourself sitting in the stands cheering on the greats. However, if you choose to be involved, you will find that the Notre Dame community is very welcoming and supportive. You will have the opportunity to make new friends and become part of a strong community.

**Obligations:**
- **Athletics**: Participate in at least one sport to get a feel for college life.
- **Academics**: Attend classes, participate in discussions, and work hard to achieve your goals.
- **Social Life**: Get involved in clubs and organizations to meet new people and make lasting friendships.

**Tips for Success:**
1. **Stay Organized**: Keep track of your classes, assignments, and deadlines.
2. **Stay Intact**: Don't let the pressure of college life get to you. Remember to take breaks and enjoy the process.
3. **Stay Positive**: Keep a positive outlook and don't let setbacks discourage you.

**Quote of the Day**

"You know your gifts better than anyone else. You are free to use them as you will. I cannot tell you that you should use them to make the world better, although I think you should. Whatever you think, you must make the decision, and only you can. I can only say that your gifts are a precious heritage, and that mankind today needs such gifts if human equality, human development, and the promise of science and technology are to become a reality and not a frustrated hope."

- Rev. Theodore M. Hesburgh, C.S.C. President, University of Notre Dame

P.O. Box Q
Notre Dame, IN 46556
Welcome to your home away from home! We, in the Office of Student Activities, know how thrilled you are to be in South Bend, Indiana!! Well, you can enhance your stay by participating in some very exciting events. Start your year off right — a year which we hope will be academically successful as well as socially enjoyable.

Following are some of the highlights:

Hear ye, hear ye, Class of 1990! Orientation takes place August 22 through August 24. There will be a movie Friday evening, "Flamingo Kid" at 8:00 p.m. in Washington Hall. Following the movie, parents are invited to a reception in the South Dining Hall at 10:00 p.m. while students may attend a gathering on South Quad at 10:00 p.m. Social festivities will end Sunday with "Playfair" from 8:45-9:45 and a "Dancefair" immediately following which you won't want to miss. Last year there were approximately 3,000 students who attended this event. This dance is a great way to start off the social side of your college career.

Whether you are jubilant or hesitant (or maybe a combination of the two) about your return, you will find fun geared to your individual pleasures during our week of welcome. Individual class picnics, ice cream socials and trips to the Dunes are just a few of the events enticing you to participate. There will also be an opportunity to do some shopping at Stepan Mall to make your dorm less dreary. Come spend your moolah! A few other highlights of this week are 1) "The Panic" will be playing on the North Quad in front of Haggard Hall from 8:00-11:00 p.m. Everyone is invited. 2) There will be a first ever outdoor movie on campus. No cars invited!! 3) Yes, the "Music King" returns to play again at the annual (campus-wide) "Dance Under the Stars" Beach Party, August 29 from 9:00-11:00 p.m. Just imagine 22 tons of sand on the Quad in front of Haggar Hall from 8:00-11:00 p.m.

For more than a decade, Gloria Steinem has been the most persuasive spokesperson for the feminist movement in America. At the same time, she has built a reputation as a journalist of outstanding integrity. Her work has appeared in New York Magazine, where she was a founding editor and the political columnist until 1971, and numerous other national publications, as well as many abroad. She currently writes regularly for MS. Considered to be one of the most influential women in the United States, she also travels as a speaker and feminist organizer. We in the Notre Dame/Saint Mary's community will be fortunate enough to hear her elaborate on issues concerning the humanity of all peoples on September 17 O'Laughlin Auditorium. Don't miss this opportunity to hear the "woman of our times."

"The World's Greatest Mime." This is how Don McLeod is billed. McLeod was the famed American Tourist gorilla and is presently filming an episode of TV's "Amazing Stories" which will be aired in September. Don performs a closing piece entitled "The Creation," which portrays God's creation and Man's uncreation. In addition, he has agreed to create three of four topical pieces regarding social concerns. He will also do a piece called "Sophomoric" about a young college student who "Knows it all." He will appear in Washington Hall, 8:00 p.m., September 18. Don't miss this unique performance.
Mike Bobinski - Bobinski is something of a newcomer to the athletic department's administrative ranks, although certainly no stranger to South Bend sports. He was named ticket manager and assistant business manager in the spring of 1984. The 28-year-old Bobinski is a 1979 Notre Dame graduate and former Irish baseball pitcher who returned to South Bend after two years in management audit and participant accounting with Disney World in Orlando, Fla. He earned two vars as a right-handed pitcher and was a four-year member of the Irish starting rotation.

Mike DeCicco - Better known as coach of the highly-successful Notre Dame basketball teams, DeCicco doubles as academic advisor for all Notre Dame athletes. Responsibility for the University's high graduation rate among its athletes mostly with DeCicco, whose task is to advise more than 500 athletes at Notre Dame. A 1949 graduate of Notre Dame, DeCicco taught for a number of years in the University's mechanical engineering department before giving up teaching to concentrate full-time on his job as academic advisor. His fencing teams have brought home an overall record of 40-40 and won the national championship last spring as well as back-to-back titles in 1977 and 1978.

John Heisler - Now in his fifth year as associate director of sports information at Notre Dame after four years as assistant director, the 52-year-old Heisler has had a large hand in the editing of a number of award-winning publications. Ten have been judged "Best in the Nation" by College Sports Information Directors of America panels, including two of the last four football guides. Before coming to Notre Dame, the South Bend native had been an assistant director at Miami's football program for over a year, after serving as a student assistant at that school for four years and then graduation from Missouri's School of Journalism in 1976.

Jim Daves returns to Notre Dame to begin his first year as assistant sports information director. Daves, who was a graduate assistant in the Sports Information Department two years ago, will edit both football and basketball game programs as well as supervise press relations and publications for Notre Dame's non-revenue sports. The 25-year-old native of Greensboro, N.C., graduated from North Carolina-Charlotte in 1984 and spent last year as associate director of communications for the North Carolina College Foundation.

It is to use by participating in a self-paced 5-minute demonstration. This will qualify you to win a 12-speed T8K Touring Bike. Also, Macintosh bicycle caps will be given away free to the first 500 people to enter.

If you have already ordered your Macintosh computer --- Come to pick it up.

For those of you who haven't ordered your Macintosh yet, Here's your opportunity to purchase one at a special price.

Either way, make sure you stop by to see how simple the Macintosh is to use by participating in a self-paced 5-minute demonstration. This will qualify you to win a 12-speed T8K Touring Bike. Also, Macintosh bicycle caps will be given away free to the first 500 people to enter.

Representatives from the Notre Dame Computer Store and Apple Computer will be hosting a Computer Fair from 9:00 a.m. to 5:00 p.m. on August 25th.

Open to All!
We knew you'd be back.

We knew you couldn't stay away.
That you spent all summer thinking about
organic chemistry and Kafka.
That why we're stocked up with a
full selection of all members of the Apple*
Macintosh* personal computer family.
Because whatever you're going to be
doing in school this year, there's
a Macintosh that can help you do it better.

From the enhanced Macintosh 512K
to the Macintosh Plus, students everywhere
have learned that working smarter and
doing better in school can be as easy as
pointing and clicking.

And one of our people will be happy to
show you the Macintosh system that's best
suited to your needs and budget.

So welcome back.
It's been a long, lonely summer.

Sports facilities offer diversion from classes

Athletic & Convocation Center - The double-domed ACC, located east of the Stadium, contains more area than the Houston Astrodome. The South Dome houses the basketball arena used by both men's and women's varsity teams. The North Dome is used by the hockey, tennis and track teams, among others. Within the structure are handball, racquetball, squash, basketball, tennis and volleyball courts that usually are open to the public. Reservations are required for most of the courts. One may also take advantage of the ice rink, boating room and running track.

The Rolf's Natatorium - Completed last year, this Olympic-sized pool is located at the east end of the Athletic & Convocation Center. The pool has the capability of being divided into three sections. This allows diving in one end, recreational swimming in the middle and water polo in the other end. The pool, which measures 50 meters in length and 25 yards wide, also includes a diving area with three one-meter boards and two three-meter boards.

Angela Athletic Facility - Located north of the Cuntz-Leighton Library, on the Saint Mary's campus, Angela includes a track, basketball, volleyball, racquetball and indoor tennis courts. Weight machines, fitness and gymnasium equipment are also housed in the facility. In addition, there are tennis and basketball courts outside the building. The facility is open to all Saint Mary's and Notre Dame students. The reservation of a student ID. Reservations are needed for the racquetball courts.

Burke Memorial Golf Course - On the west end of campus is the 18-hole, 6,500-yard University golf course. The course is open until late fall and reopens in early spring. Green fees are $5 for students, faculty and staff.

Rockne Memorial Building - Located at the west end of South Quad, "The Rock" is the center for the physical education program. The brick structure contains basketball courts, handball-racquetball courts, a weight room, a light apparatus room, a swimming pool and the golf pro shop. Use of the Rockne Memorial is free to all students and faculty members upon presentation of a University identification card. Closing time is 11 p.m. daily.

Stepan Center - Stepan Center and its adjoining fields and outdoor basketball courts are located in the northeast corner of the campus. Outside of the domed Center, one can play basketball, football, soccer, rugby and softball. The basketball courts, which can be turned into an ice rink in the winter, are outfitted with lights that allow students to play basketball late into the night. Within Stepan Center are basketball and volleyball courts, open for recreational and league play.

Their reunion was both brief and awkward — each still bearing the wounds from that ugly "Jane incident."
Scrimmages such as that above signal the beginning of the 1986 Notre Dame football season. Although Holtz says he is pleased with the team's progress.

By DENNIS CORRIGAN
Sports Editor

One of the comments heard most often along the sidelines at practice this week has been "I can't believe it's football season already." But with the season opener with Michigan less than a month away, the 1986 edition of the Notre Dame football team has gotten into full swing. Upperclassmen reported Friday, August 15, to receive physicals and equipment and after Picture Day last Saturday, began three days of practice without pads. The following Monday, the Irish began two-a-day practices in full pads.

As usual in the first days of practice, the defense appeared to be a little ahead of the offense in the first scrimmages. Tackles on pass patterns and the center exchange were off. Yet despite the nuisances, freshman head coach Lou Holtz was pleased with his squad's early showing.

"We can't do any more as far as effort and intensity," Holtz commented after Thursday's drills. "You can't tell that we're getting there - and we've got a way to go - but we're getting there.

"No matter how much film you look at in the summer, you've still got more to work on in the fall."

One thing that was immediately evident was the discipline that has been instilled on the field. There were more "yes sirs" and "no sirs" head on the field than one hears at a boot camp.

So far in this early season, injuries haven't been much of a factor with the exceptions of senior offensive tackle Pete Rokick and senior tailback Hawaiih Fransisco. Rokick suffered a herniated disc while lifting weights and was scheduled to undergo back surgery yesterday morning. As of then, it was too early to tell how long Rokick would be unable to play. Francisco has yet to take part in any action because of continuing problems with his arthritic knees.

Defensive backs George Sureret, Mike Haywood and Steve Lawrence all sat out Thursday's action because of various minor muscle pulls.

Holtz pleased with fall scrimmage

Frosh football players prepare for college ball during fall practices

By DENNIS CORRIGAN
Sports Editor

Life at Notre Dame began early for a select group of the class of 1990, the freshman football players. For this group, they faced more of an adjustment than just being away from home. On August 10, the newest members of the Irish squad reported to Notre Dame and when they did, they were no longer the high school stars that they had once been.

Instead of being the biggest, fastest or strongest players on their respective teams, now they were just one of many players of equal ability. They now had to start over to prove themselves to their coaches and teammates.

"On your high school team, you're the man. Here, everybody's an All-American," said Kevin McShane, a 6'3, 218 lb. outside linebacker from Joliet, Ill. "Now you have to rely on techniques, what the coaches are telling you rather than God-given talents.

After the first meal on the 10th, the players underwent physicals and then began a series of daily meetings that left them little time to themselves.

"The schedule was kind of crowded," said Braxton Banks, a 6-2, 205 lb. fullback from Hayward, Calif. "There wasn't much time between meetings, and we're used to relaxing and doing what we want to do. There just wasn't much time. But it's something you have to overcome and get through - no pain, no gain."

After the veterans reported last Sunday, the freshmen and the rest of the team began working out without any equipment for three days, which left the freshmen wondering about what it was going to be like when they started mixing it up with the players the size of 6-9, 274 lb. Walter Kirn, or 6-7, 243 lb. Tom Rehder when contact drills began Thursday.

"There was a big question mark in every freshman's mind," said Anthony Johnson, a 6'-1, 220 lb. running back from South Bend, "After a while I really wanted to hit. Once we started hugging, it was kind of a relief."

"The night before pads, everybody was a little uptight," echoed McShane. "The next morning, no one was talking. They were all thinking about what it was going to be like. The coaches do a really good job. They start out easy and in everybody progress through.

A guide to the people behind ND athletics

Rev. Edmund P. Joyce, C.S.C. — A 1937 Notre Dame graduate, Fr. Joyce was named executive vice president of the University in 1952, three years after his ordination. As chairman of the faculty board in control of athletics, Joyce always maintained, "First things come first, and the first things for us are academics." I tell every squad of Notre Dame athletes that when the students return to campus each fall, "You've still got more to work on." Joyce is the Director of Athletics at Notre Dame and is the University's head basketball coach. Joyce also is credited with the introduction of two new varsity sports - lacrosse and women's swimming - in his first full year as athletic director. Additional­ly, women's cross country made the jump to varsity status that year. Before coming to Notre Dame, Corri­gan served for nine years as director of athletic programs at the University of Virginia.

Dr. Jo-Anne Nester - Nester is in her third year as Director of Athletics and Recreation at Saint Mary's College. In her first col­legiate athletic administrative posi­tion, some of Nester's accomplish­ments include organizing Saint Mary's first student-run athletic council and bringing in four highly-talented players to the College. Nester is credited with the introduction of two new varsity sports - lacrosse and women's swimming - in her first full year as athletic director. Additional­ly, women's cross country made the jump to varsity status that year. Before coming to Saint Mary's, Nester was the Assistant Director of Athletics at the University of Virginia. Nester is one of the most sought after coaches in the nation, and is able to attract top-notch athletes to her programs. She is known for her ability to develop and retain top athletes and coaches, and has been instrumental in the dealings of the College Football Association (CFA) with both the NCAA and the television networks.
