Two resident assistants lose jobs for furnishing alcohol to minors

By MARY FARKOWSKI

Two Notre Dame resident assistants have been dismissed from their jobs after they were cited for furnishing alcohol to minors at an off-campus party.

Kurt Petersen of Keenan Hall and Anne DeWald of Lewis Hall said they were dismissed Tuesday by Vice President for Residence Life John Goldrick. The decision came after state police issued citations to Petersen and DeWald at a Friday night party.

Petersen and DeWald said they received the citations because an undercover officer had watched them collecting money and giving cups to party goers, some of whom were minors. Those who purchased the cups could then fill them with beer.

"We know as RNs that we are representing the University in a special way," said Petersen. "So we agree retribution was necessary.

"But the punishment they gave us didn't fit the circumstance," he said.

Addicted DeWald: "We were hoping he (Goldrick) would take character and past behavior into consideration."

Both said they sympathized with Goldrick's position, however.

"He (Goldrick) said it was the most difficult decision of his life," said Petersen. "He said he wasn't trying to make an example of us but that we were being given a punishment that we deserved."

Goldrick and Vice President for Student Affairs Father David Tyson were out of town and could not be reached for comment.

Petersen and DeWald said they had collected money for a hobby, but only if the amount was more than what the partygoers could afford. They said up to that point neither Petersen nor DeWald believed they had done anything illegal, they said.

"We made a bad judgement," said Petersen. "We didn't realize it was that simple."

He added that they never thought that those at the party were underage.

State police said they ticketed a large number of minors for consumption of alcohol at the party. It was unclear exactly how many, however.

Petersen and DeWald's dismissals mean that they must move out of the rooms provided to them as resident assistants, they said. In addition, they'll no longer receive free room and board.

Petersen and DeWald said they haven't decided whether they will remain in their dorms.

Goldrick's decision to dismiss the two came during the last of three meetings with Petersen and DeWald, they said. Keenan Hall Rector Brother Bonaventure Scully, Lewis Hall Rectors Chris Mengacci and Assistant Vice President for Student Affairs Brother Michael Dedrick said the person who called the sisters was only there to observe.

Despite the citations, Petersen and DeWald said they still believe they should not be stripped of their responsibilities.

"We feel this mistake was made under our ability to do a good job," said Petersen.

But, he added, "We know the loss of our job is not the end of the world."

Civilians killed as Israelis attack Palestinian arms depot in Lebanon

Associated Press

SIDON, Lebanon - Israeli warplanes attacked a Palestinian arms depot yesterday, killing three civilians and destroying more than 90 shops in an industrial district on the edge of this port city.

Shortly before the raid, an Israeli gunboat intercepted a rubber dinghy carrying Palestinian guerrillas on a mission to attack Israel, Israeli and Palestinian officials said.

Hospitals said 13 other civilians were injured in the air raid, which began just after 6 a.m.

It was Israel's eighth air raid in Lebanon this year. Israeli officials said it was not linked to Saturday's attack on a Synagogue in Sarafand, which left four civilians injured.

About 60 Israeli military planes flew into Lebanon from Israel yesterday. They then targeted a small village, where investigators said a rocket was launched.

The individual touched the gunboat's rubber dinghy off the south Lebanon town of Sidon, about 25 miles north of Israel.

In Tel Aviv, an Israeli military official confirmed the infiltration attempt and shootout. The official, speaking on condition of anonymity, said the air raid was in retaliation for the attempted guerrilla attack.

A Palestinian Liberation Front source said that after the gunboat intercepted the dinghy, the Israelis "called in helicopter gunboats and dropped flares all over Sidon and Sarafaand. Our guerrillas then came under fire from the gunboats. They fled back and changed course to return to their base."

Sidon police said the Israeli jet may have been attempting to repair the valve.

"It was probably someone trying to help the situation," he said.

Wrench marks on the displaced valve led Dedrick to determine tampering had caused the accident. He also said that "no amount" of pressure could forcefully unscrew the valve's one and one-half inches of threads.

The annual pantry raid held last night attracted hundreds of freshmen to the Saint Mary's College campus. The freshman men pictured here seemed anxious to get their hands on a souvenir of the night. The women seemed eager to grant them their wish.

Flood in Flanner Hall caused by tampering

By CLIFF STEVENS

The urinal valve that came off and flooded the second floor of Flanner Hall was tampered with according to Don Dedrick, director of the physical plant.

Although the person responsible has been identified, Flanner Hall Rector Brother Michael Smith declined to name the individual, saying only that the person was not a student.

"We feel this mistake was made under our ability to do a good job," said Petersen.

But, he added, "We know the loss of our job is not the end of the world."

The individual touched the urinal because it had been malfunctioning for a couple of weeks, according to Smith.

Dedrick said the person responsible "probably did it in an innocence," unaware of the high pressure behind the valve. He said the person may have been attempting to repair the valve.

"It was probably someone trying to help the situation," he said.

Wrench marks on the displaced valve led Dedrick to determine tampering had caused the accident. He also said that "no amount" of pressure could force the valve back into place. He said the damage estimate was available yesterday.

Vice President for Business Affairs Thomas Mason said his office will determine how much students are compensated for their damaged property. Although Du Lac states that the University assumes no such responsibility, Mason said his office has never taken such a hard-line approach.

Mason said his office has not yet received any student damage reports or claims.

One student rug was considered ruined because the owner's allergies were affected and several students' books were destroyed, according to Richard Froh, Flanner Hall's second-floor section resident assistant.

Froh said the students planned to file a claim for the carpet and books in Mason's office.

"But it was mainly a big inconvenience, nothing major," he said.
In Brief

Shoves, shouts and flying fists interrupted a standing-room-only Council meeting at the University of Notre Dame on Tuesday as the Student Senate voted 4-3 to overturn a D.A.V. swap meet in Hesburgh to stay open until the end of the year. Last month, the council had voted to close the banner operation in November. -Associated Press

Nancy Reagan will receive an award next month from Catho- lic University of America for her efforts in fighting drug abuse. "We are pleased to have someone of Mrs. Reagan's stature and high profile with us here," said university spokeswoman Anne Smith. Mrs. Reagan is being honored for "service to the na- tion's families in helping to combat drug abuse." -Associated Press

The University of Florida's last free source of laboratory animals, will no longer provide impounded dogs and cats. About 800 animals had been transferred to the university annually. In June, Jacksonville approved a similar ban after being pressured by animal-rights groups. The city had been sending about 900 pounds of animals a year to the university. -Associated Press

Two air traffic controllers in Anchorage, Alaska have been cleared of all allegations they were using drugs off duty, the Federal Aviation Administration says. spokesman Paul Steurke said Tuesday. The so-called "Cojigay" in July when the Feds asked Protection Officer reported seeing one of the controllers using a cocaine-like substance while on a camping trip. The con- troller tested, as the co-pilot tested 4-3 times, and al so the whole thing was dropped," Steurke said. Beginning Jan. 2, the Department of Transportation said last week, VA aerodrome controllers will be tested for drug use once a year as part of their annual physicals. -Associated Press

Weather

Looks like lightning striking against a 30 percent chance of thunderstorms today with highs near 80. A 60 percent chance of thunderstorms tonight with lows in the low 60s. Mostly sunny to- morrow with highs in the mid to upper 70s. -AP

Take a bite out of OC crime

Think of the Notre Dame student who made every attempt to protect his newly bought stereo from being stolen from his off-campus residence.

He smuggled the sleek Japanese speakers through a back door at midnight, to nobody who would see them. He kept the volume of his stereo set at a reasonable level most of the time, so nobody outside could hear it. And he bought a huge padlock for his bedroom door so nobody could get to his stereo.

The secrecy, the attempts to stay inconspicuous and the padlock didn't help. The student placed the box which the stereo had come in at the end of his driveway with the rest of his trash. Some fellow student found the box which the stereo had come in at the end of his driveway with the rest of his trash. Some fellow student found the box, and three days later his new stereo system was gone.

It seems not even padlocks and window bars are 100 percent effective in deterring burglars from tearing into a house out. If a criminal knows there's a pearl inside, he's likely to try to crack the shell.

Having a stereo system taken from your room - speakers, amplifier, turntable and albums not happen very frequently on campus. Once every 30 years, possibly. But it can and often does occur off campus. Those of you who are dying to migrate to the Great Land of Freedom Beyond the Gates of the Golden Dome, know well that life there is more than keg parties and no parietals. Living off campus entails much more.

Right at the top of every off-campus student's list of realistic concerns is security. St. John McCullum of the South Bend Police Department said he looks to an old saw - "A-A-N-Y-O" written on the box, and three days later his new stereo system was gone.

Of course getting tough on burglars won't make them go away. But ignoring them won't either.

Cougar attacks child

Zoo keeper Mark Yelverton, left, and zoo director Jake Yelverton back Sheeba, an 18-month-old cougar, into a cage at the Louisiana Purchase Gardens and Zoo Tues­day after the animal attacked a seven-year-old boy. The cougar, kept as a pet by a neighbor, tore loose from its backyard chain and attacked the boy, tearing away most of his face.

Cougars discuss early release of detained journalist

WASHINGTON President Reagan said last night he received a reply from Soviet leader Mikhail Gorbachev to the U.S. request for the early release of journalist Nicholas Daniloff, who has been held in the U.S. on spy charges.

Reagan spoke briefly to reporters following a state dinner at the White House held in honor of Brazilian President Jose Sarney.

Reagan's remarks left the impression that an intense diplomatic effort was under way for securing Daniloff's release, but he said it's "not safe to comment" on the subject. He also declined to predict when the issue might be resolved.

Reagan had asked Gorbachev for Daniloff's release on grounds that the U.S. News & World Report correspondent was not a spy.

Earlier yesterday Daniloff said the idea of releasing him to the custody of the U.S. ambassador pending his trial on spying charges, a colleague said, "is not safe to consider" and rest on the shoulders of the events' organizer, he said.

Gorbachev's response, saying, "I don't want his case to thwart attempts to improve ties between Moscow and Washington," which would mean a "cooling-off period," Trimble quoted Daniloff as saying.

Daniloff's wife, Ruth, has alleged that Soviet authorities framed her husband in response to the Zakharov arrest.

Insurance difficulties to hurt student events

By JOE MARKEY Staff Reporter

Student-organized events may run into problems in obtaining University sanction because of insurance liability, according to Senior Class President Dave Miklos.

Miklos recently encountered reluctance on the part of the administration to sanction a senior class trip to Chicago's Rush Street.

"The nature of the Chicago trip was obvious. Of course, on a trip like that, students are likely to get rowdy," he said.

Although Vice President for Student Affairs, David Tyson, and Director of Student Activities, Joni Neal, were unable to be reached for comment, Vice President for Business Affairs, Tom Mason, said the usual procedure is for the University to take liability only for "University-sponsored activities of University-sanctioned groups."

Miklos said this policy leaves student organizers of unspon­sored events in a bind. Since the event would not be backed by the University, responsibility would rest on the shoulders of the event's organizer, he said.

Miklos, who is in the midst of contacting law firms on the problem, hopes to come to some agreement whereby students who wish to participate in an event not sponsored by the Uni­versity would sign a waiver release form. This is a pro­cedure already used for some class events.

By signing the release, the student would claim full responsi­bility for his or her actions and would agree in the case of an accident not to file suit against the University or the student or­ganizers of the event, he said.

Superpowers discuss early release of detained journalist

JOE MARKEY

WASHINGTON -- President Reagan said last week he received a reply from Soviet leader Mikhail Gorbachev to the U.S. request for the early release of journalist Nicholas Daniloff, who is being held by the Soviets on spy charges.

But Reagan gave no details of Gorbachev's response, saying, "I don't want his case to thwart attempts to improve ties between Moscow and Washington."
Chief of Lions Club for Lebanon kidnapped in Moslem west Beirut

By Katie Sullivan News Staff

Rebecca Hetland, a senior at Saint Mary's has been appointed the College's new student regent by the Sisters of the Holy Cross. Hetland is the active member of the Board of Regents at the College and will participate in student affairs issues and concerns in addition to academic and development of fiscal issues.

"I was pleasantly surprised," said Hetland, when informed of her appointment by Saint Mary's President, William LaFortune. "They're a lot of qualified women that could represent Saint Mary's. I am very honored and look forward to working with all the Regents," she said.

In March of last year all Saint Mary's juniors received a letter asking them to consider applying for the student regent position.

"We received eight very qualified applications," said Sister Karen Jakowski, Dean of Student Affairs. "There weren't any who applied just for the sake of padding their resumes, it was a quality group," she said.

Jakowski said the applicants went through a series of interviews, and then recommendations are passed on to Mickey who in turn passes on his recommendations to the Sisters of the Holy Cross, who make the final decision.

Jakowski was notified September 5, and the other seven applicants received hand delivered letters September 6.

According to Jakowski, the student regent must be a person who can represent Saint Mary's well. She must be one who has demonstrated thorough leadership, an understanding of and appreciation for the Catholic character of the College, as well as its women's and liberal arts dimension.

"Involvement is the key credential," said Jakowski. "The more involved an applicant is the more qualified she is." She said Hetland fits that category quite well.

In addition to being a member of The Board of Regents, Hetland is the Liturgical Assistant for Campus Ministry, the Campus Ministry Commissioner on Board of Governors, and a writing clinic worker and Editor of the Saint Mary's Literary Magazine.

As student regent, Hetland hopes to represent general student opinions on issues and be sympathetic to the needs and wants of the student body. "I have a lot of faith in this College and I want to see it continue to be a forerunner among private institutions and women's colleges as a whole," said Hetland.

TANKER SPELLS CRUDE OIL IN DELAWARE RIVER

By Katie Sullivan News Staff

The GIBBSTOWN, N.J. - A tanker spilled 150,000 gallons of crude oil into the Delaware River yesterday. The Coast Guard said it was a major spill.

"The total environmental impact will not be determined until morning," said Coast Guard Lt. Commander Maryanne Collucci.

"If it's a major oil spill the Coast Guard will be involved," she said.

Syrian troops, who have been deployed in Lebanon for a decade, pulled out of west Beirut during the 1982 Israeli siege and did not return in force until this summer.

"They're a lot of qualified women and a preoccupation with food."

Association Clubs in Office of Student Activities 3rd Hall, A-Fortune

ATTENTION

This is the Associated Press. Look forward to working with all her appointment by the College's new student regent, Victor Kenou at 9:35 a.m. near the French Embassy compound on Rue Clemenceau.

Two of the assailants forced Kenou out of his white Mercedes-Benz at gunpoint and hustled him into their car, police said.

Kenou, 50, heads the 39 International Lions Clubs in Lebanon and Jordan. A Syrian-born Christian, Kenou is a naturalized Lebanese citizen who runs a prosperous import-export business in both the Moslem and Christian sections of the Lebanese capital, according to police and family friends.

His wife, Rose, who lives in west Beirut, told The Associated Press by telephone, "Contacts are under way at the highest levels I can think of, my husband's release, I am hopeful." The Lions Clubs are among several social institutions still operating despite Lebanon's 11-year Civil War.

Kenou's abduction, like the kidnapping of American educator Frank Herbert Reed on Tues­days, is an apparent challenge to Syria, which sent troops into west Beirut in July in an effort to restore order and end the deadly fighting despite Lebanon's I.A. two-mile oil sheen existed from the river from Philadelphia.

It was not known how the spill started, Davenport said. "It's quite obvious there is a leak in the ship somewhere. There's the possibility the ship touched bottom," Davenport said.

Haircut-Perm-Color — Women needed for Redken and Paul Mitchell Professional Hair Seminar for demonstration of the latest hairstyles

This is your opportunity to receive a makeover by the winner of the 'Hairdresser of the Year' award.

Should be open to change

Call 256-2033 for details

Leaving about yourself, dealing with problems, and growing with the changes in your life are important parts of the Notre Dame experience.

The Professional Staff of the University Counseling Center (UCC) invites you to consider joining the following groups.

1. Everything You Wanted To Know About Relating To Other People But Were Afraid Out Alone — this weekly confidential therapy group is designed for students who feel that they are not very astute or outgoing in meeting and relating to people, and who feel themselves to be too shy or too much of an outsider to fit into social groups.

TUESDAYS: 3:00-5:00 p.m.; Co-Leaders: Lisa Donley & Tom Thompson

2. The Adult Children of Alcoholic Parents group is a confidential support group for those students whose lives have been affected by their parents' alcoholism or drug use. Some issues and topics that will be addressed include: education about the disease of alcoholism, problem drinking and how members are affected; common characteristics of alcoholic parents; and strategies relating to the process of losing attachment to the problems but not the person; methods of forming healthy attitudes and relationships, stress reduction, realistic goal setting and assertiveness training.

Red Meeting: Tuesday, September 16, 4-6 p.m.; Leader: Sally Coleman

Women's Support Group — This weekly, confidential therapy group is designed for women whose lives have been affected by their own parents' alcoholism or drug use. Some issues and topics that will be addressed include: education about the disease of alcoholism, problem drinking and how members are affected; common characteristics of alcoholic parents; and strategies relating to the process of losing attachment to the problems but not the person; methods of forming healthy attitudes and relationships, stress reduction, realistic goal setting and assertiveness training.

TUESDAYS: 3:00-5:00 p.m.; Co-Leaders: Christine Conway & Mary O'Sullivan

4. Eating Disorder Group — This weekly, confidential therapy group is designed for women with eating problems. Common aims include: depression, low self-esteem, fear of becoming obese, undue eating habits and compulsive exercise.

WEDNESDAYS: 3:30 p.m.; Co-Leaders: Mary Roaker & Linda Whelan

5. The Grief & Loss Group — This information and support group is designed for students who have experienced a significant loss such as death of a significant other, separation from a significant other, divorce, eating, or other family member.

Time: To Be Arranged; Leader Linda Minor, Laura Burke

For information and help in deciding about participating, call 397-3344 or stop by Monday-Friday, 9 a.m.-5 p.m. at UCC (3rd floor of the Student Health Center).
Jewish mourners pay last respects to 21 victims of terrorist massacre

Associated Press

ISTANBUL, Turkey - In the temple still stained with the blood of the dead, more than 1,000 mourners said final prayers yesterday for the 21 victims of a terrorist massacre at Istanbul's largest synagogue.

Women, their heads covered in black shawls, wailed as rabbis normally said during war. The Observer

"Those worshippers who lost their lives had not even the time to realize and understand why they were chosen as targets for such a brutal slaughter," said Jak Venisl, legal adviser to Istanbul's chief rabbi.

"No act of violence or aggression could have been so inhuman, so insane, so plain, wooden coffins were brought to the temple dome, streaks of blood on front of hundreds of wreaths. After a brief prayer reading, the caskets were lowered by rope into individual graves dug side by side in a semicircle."

Relatives of killed Jewish worshipers who died in the attack on the Neve Shalom Synagogue in Istanbul, Saturday, mourn beside a coffin during the burial ceremony at the Jewish cemetery of Istanbul.
Utah senator donates left kidney to long-suffering diabetic daughter

Associated Press

WASHINGTON - Sen. Jake Garn donned his left kidney yesterday to daughter Susan Garn Horne in what doctors called “an extremely successful” operation that left the senator “proud and happy.”

“The best of our expectations have been met and everyone is fine.” Garn said. Garn's doctors said the senator's back to his left rib in a nearly six-hour operation.

The New Universe

Three Notre Dame researchers are looking for a microscopic organism with a voracious appetite for coal tar.

The organism, when found, will be given the banquet of a lifetime on the site of a 19th century New York gas plant.

Dr. Robert Irvine, civil engineering department, began his search in October 1985, when he was contacted by Niagara Mohawk Power Corporation. Niagara Mohawk had decided to reclaim a 65 acre site in Utica, NY, that was once the location for a gas plant operated by the Utica Gas and Electric Company.

The manufacture of gas for cooking, heating and lighting left wastes.

The experiment is divided into three phases. Phase one involves testing organisms to eat the coal tar. The first step of this phase, where the researchers test basic organisms, should be completed by the end of this month, according to Irvine.

The second step of the phase, which will begin in November and continue for five months, will involve using the organisms in soil decontamination studies. The third step will be to design a full scale demonstration.

Phase two will be a limited demonstration of what they found in the lab on the site of the gas plant. The third phase will be a full scale, on-site demonstration. Irvine is pleased with the progress of the experiment so far. "Everything looks good. The bugs are happy and they're eating the waste."

In 1975, the University gave Irvine a grant of $1,500 to develop a proposal for the sequencing batch reactor technology to send to the National Science Foundation for funding. The next year, the Environmental Protection Agency provided $350,000 for a demonstration in Culver. In 1977, according to Irvine, those projects have lead to the establishment of 75 full-scale plants dealing with sequencing batch reactor technology and more than a million dollars in research grants for the University.

The manufacture of gas for cooking, heating and lighting left the site covered with a thin layer of coal tar residues.

Irvine was contacted by Niagara Mohawk, Power Corporation, that was once the location of a gas plant operated by the Utica Gas and Electric Company.

The third step of the phase, where the researchers test basic organisms, should be completed by the end of this month, according to Irvine.

"When Stan Lee revolutionized comic books in 1961 by creating the Fantastic Four, it was unthinkable that comic books could succeed with well-developed, multi-dimensional characters," explained Jim Shooter, Marvel vice president/editor-in-chief and primary architect of The New Universe. "But Stan's instincts were 100 percent on target, and millions of new readers, including older readers, found renewed pleasure in comic books.

Now, with the revolutionary advance that The New Universe represents, we are reaching even greater heights. What better way to honor our creative heritage? What better way to pay homage to Stan Lee and the many other remarkable writers and artists who have contributed to Marvel over the years? As much as our readers love The Marvel Universe - and I'm sure they will for decades to come, I know they'll agree that The New Universe is the new state of the art. You might say that The New Universe is our way of saying we're not getting older, just better and better."

The eight interrelated titles in the New Universe, each of which has thirty-two pages and a cover price of $0.75, have been created by many of the top talents in contemporary illustrated fiction. Leading the roster is Archie Goodwin, editorial director of Marvel's Epic Comics line and twice cited as best writer by the Academy of Comic Book Arts, who created "Psi-Force," "Nightmask," "Kickers, Inc.," "Merc, "D.P.I.," and "Justice." A 'Marvel'ous New Universe brings Comic books to a new level of sophistication by offering credible stories presented in the comic's medium with characters who exist in the real world, age in actual time, and affect the lives of others. The first eight titles under The New Universe banner - "Star Brand," "Splitfire and the Troubleshooters," "PsiForce," "Nightmask," "Kickers, Inc.," "Merc," "D.P.I.," and "Justice" - arrive on newsstands, in comic book specialty shops, and in select bookstores this summer as Marvel turns twenty-five.

"Go get 'em buddies."
I came back to Notre Dame after a summer of unmitigated bliss only to find that nothing had changed. I was greeted with open arms by the same old discrepancies in policy that plague this university since time began and will probably go on doing so until time comes to a grinding halt.

Student Activities unfair in Rasta decision

Lora Naughton

guest column

One of the years first The Observer's carried an article which revealed to me that God (or more precisely the Tet- Tyson duality) does not see fit to recognize homosexuality or any clubs being thereon because he does not consider it right to have clubs based on sexual ten- dency. This is a difficult doctrine to understand. I wonder. It is against church as well as university policy to be homosexual. Why, do you ask? The answer to that is probably that it has no procreating dimension. Surpris- ingly, according to church position, neither does rhythm-method heterosexuality. Even more amazing, though, is that fact that celibacy has exactly as much procreating power as homosexuality. Are priests recognized by Notre Dame and the church? In the priesthood, it is cer- tain, a particular sexual tendency is re- quired - namely none. I wonder if these two stances are consistent.

Why is the church so concerned with procreation and the general right to life of those unborn? You do not hear the church taking a stand on the issue of capital punishment in the context of the right to life. It's easy to say killing a child is wrong, but what about a blood-stained murderer? While Catholics tend to agree that abortion is wrong, they very fre- quently approve of capital punishment using the pathetic rationalization that murderers are no longer human. Very weak indeed! Regrettably, the pseudo intellectual community at ND fits right into the Trenta. Seminaries have a field day at ND. We just gobble it up. George Orwell called it "double-think."

Unfortunately, the contradictions don't end there. The by now famous war- memorial drove home to me a possibly more disturbing double deal. The entire right to life theme is coined by any other church position: the church permits "just" wars. There is, in fact, a rather strict def- inition of a "just" war. The church only invoked when the church is threatened. Now the church can maintain its adamancy that abortion is wrong, while war is not necessarily. Is something being done here? Is it probably not used to the church's liking? Just think for a second! It is wrong to kill a fetus, but it is right to kill a man if certain abstract conditions are met. Homosexuality is wrong because it is not reproductive, we are told. But, strictly speaking, homosexuality is not sex at all (Webster's Sex - the attrac- tion between the sexes as only one sex is involved). If it is not sex then why should the church forbid it? For example, you tell them do from reading or playing foot- ball? Another interesting twist in the Church's stand is that if sex (for argue- ment's sake) then an innocent kiss must be deemed immoral unless accompanied by full sexual intercourse. But sex is ille- gal on this campus.

Now how many people have every really thought about homosexuality's place in the church? Not many, I should think, and yet there are plenty willing to volun- teer the "fact" (?!) that being gay is both unnatural and forbidden in the gospels - right on! Show me where Jesus said being gay was unnatural. This task is not as easy as pointing to some spot where Jesus lauds marriage because homosexuality is not the opposite of marriage. One thing does come up frequently, though, if you look, and that is the com- mercial aspect, is unjust.

We are unsure of the future for Rally Against Starvation. Appeals are being made, and yet no one is expected to get the decision of the University, but our commit- ment still stands. Now we can only encourage you, too, to continue your in- dividual efforts in aiding African relief funds. Please remember Rally Against Starvation for the cause is a special one and it needs special attention. Lora Naughton was a member of the Rally Against Starvation

Catholic Church policies are often hypocrical

The decision to ban Rally Against Starvation was made jointly by the offices of Student Activities and of Student Af- fairs. The July 3, 1986 letter from John Neat explains the reason for the violation of the University's alcohol policy and of the State Drug laws at the July 3, 1986 Rally Against Starvation concert. Security reports to have found evidence of alcohol use and of drug paraphernalia. The letter states that officers and members of Rally Against Starvation were among the violators, though no individuals have been charged, accused, or even con- fronted by Security. Rally Against Starvation actions have been taken against the entire group.

The letter goes on to say that any uni- versity organization, according to Du Lac, must be consistent with the mission of the University as a whole, whether the mission be educational, religious, cultural, social, or recreational. Ms. Neal wrote, "RSTA certainly was not operating within these guidelines."

This bewilders us. The May 3 concert was considered an educational event, just as much music was of peace. The break which Rally Against Starvation members passed through the crowd symbolized our com- mon bond with each other and with indi- viduals throughout the world. Our years of efforts clearly show our dedication to the human mission.

Of Security's accusations, though the violations were out of our immediate control. But we are an ex- tremely worthwhile interest made of caring, moral people. If there was a prob- lem we were willing to face it and correct it. To abolish an entire group, a sympa- thetic cause, is unjust.

We are unsure of the future for Rally Against Starvation. Appeals are being made, and yet no one is expected to get the decision of the University, but our commit- ment still stands. Now we can only encourage you, too, to continue your in- dividual efforts in aiding African relief funds. Please remember Rally Against Starvation, for the cause is a special one and it needs special attention.

Lora Naughton was a member of the Rally Against Starvation

"RASTA is not a colorless land, it is a rather strict world..."
Star Wars undermines U.S./U.S.S.R. trust

The original "Star Wars" was a wonderful fantasy about a dancing young hero, a beautiful blond and a gang of rebels who through luck, determination and the power of the Force could vanquish the evil Empire. The new Star Wars is fast becoming a nightmare as a man well into his seventies, his gray-suited supporters and a fighting force of the highest tech money can buy have turned what was a purely fanciful creation into a real and frightening problem. It seems as if our citizens, barely 20, see as an all too real evil Empire.

Adam Milani  

a closer look

When Ronald Reagan unveiled his Strategic Defense Initiative, instantly dubbed "Star Wars," in March of 1983, it became the source of a great deal of discussion both in the West and in the Soviet Union. Would it work? Were the Soviets trying to do the same thing? Would it worsen the already strained relationship between the two superpowers? I believe that concrete answers to all these questions exist. However, I do not believe that they will be easily found if the United States continues its current policy of investing in Star Wars technology. Instead, we should seek a lasting peace by working in concert with the Soviet Union to develop a system that will finally make nuclear weapons, an Reagan expressed it, "impotent and obsolete." President Reagan's present stance toward the development of Star Wars technology is that the United States should perfect it first, and then present it to the Soviet Union in on what we have found. This view can only force the Soviets into a position of more than their ordinary justifiable insecurity and will probably lead to an escalation of the arms race both sides claim to be avoiding. All efforts must be unreserved to bar gain over the SDI program only enhances the possibility of this happening.

A further cost of this policy is that in our effort to adamantly refuse answers to any Soviet questions on Star Wars we are also cutting ourselves off from any possible contact with the Soviet Union. I believe that the most sensible approach is to remore that it should not serve as the basis for public expectations or national policy. This is understandable when one considers what Star Wars is trying to do: shoot down incoming enemy missiles from what will easily be hundreds, even thousands of miles away. There are many questions which need answers, because it is possible that we have complimasted. Most center around the firing of a laser or particle beam through space, whether we could launch a payload this large is obviously a formidable task, but even if this proves feasible there still remains the problem of making sure that these lasers hit their targets. Even the Soviet Union with the technological know-how cannot guarantee this, and seems to be far from doing so. What, then, can we do to make Star Wars a reality more quickly?

According to Time magazine "Experts say the Soviets are about abreast with the United States in producing T.H.-energy lasers and ahead in the power sources needed..." in them. The United States is believed to hold a substantial lead in computer technology and thus I believe it is true, if the Soviet Union can make the most sense in terms of money, power, time and most important the trust for the two countries' scientists to work jointly and openly for solution to technical problems of the present method of warfare in the hope that we will someday eliminate its very need for existence.

Trust is most important at the negoti­ating table, and that is precisely where Star Wars is at its weakest. It simply cannot be negotiated using the methods that the superpowers have utilized in coming to agreements. I believe that the Conventional type of negotiation on Star Wars is predestined to failure, and that the only feasible accord on the topic would be for the Soviets and the United States to agree to work together on perfecting Star Wars technology. In the past both the United States and Soviet Union have understood that this problem has been vexed at the bargaining table using the ponderous "wunger will. "We will give you a little if you give a little" style. With Star Wars this cannot be done. It is an all or nothing kind of system which the distinguished correspondent Strobe Talbott says, "No single component can be given away at the bargaining table and if the United States decides to continue working on this system with other arms reduction talks and wars, "The Soviets are the all the less likely to cut back on their offensive forces." This, of course means that the develop­ment of Star Wars will have even more complicated, possibly hopeless. It is thus not enough to be militarily as complicated for us ever to work to­gether, but with only the maddening of the present policy will ultimately we be destroyed. Destruction we must try something.

Trust is, of course, the key element in the search for peace. The United States and the Soviet Union must be able to trust each other. The present system is absolutely incapable of finding a technical solution to the peace process the mere fact that they are working together on such a complex technology is that the two superpowers will slowly learn to do something they have never done before and each other.

Decision by Goldbeck does not fit the crime

Dear Editor:

Two resident assistants, Kurt Petersen and Anne DeWald, were fired from their positions at an off-campus party Friday night. As a member of Anne's section in Lewis, I have had a very bad effect on several people here. Hearing Anne and Kurt for this is not a punishment fit­ting the offense.

Kurt and Anne have done so much for the Saint Mary's campus and the entire Notre Dame community in the past three years, and now it seems like it makes no difference. Their past behavior should have been considered in making the decision. How long would you give to them if you gave to Notre Dame when your long back in their faces?

Many of us here feel that some other form of punishment would have been much more just for what Kurt and Anne did. Their "terminations" are going to have a strong impact across campus and I hope students will react to this unjust treatment. Express your concerns. In writing to the Office of Student Affairs and the president on this issue.

Jenny Dubravc

Leatha Hall

Lack of Moral Justice in disciplinary action

Dear Editor:

Is there Moral Justice at Notre Dame? We think not due to the recent decision which was made by two responsible Resident Assistants.

On the 5th of September an off-campus party was attended by over 20 people, some of whom were ticketed and as a result lost their jobs. There were no outstanding leaders and exemplary students but also of the highest moral quality that this University has to offer. In our minds relieving these students of their duties is a gross injustice to not only the individuals but also to the University as well. The characters and past records of these two R.A.'s were never considered in rendering a decision. By taking these students away from their jobs both Kersten and Lewis suffer the loss of their individual leadership, understanding, friendship.

We understand the faculty feels the students should be disciplined but we also feel the excessive disciplinary action taken by the administration is sadly inappro­priate toward those who have died, and that we must now con­sciously conscious of how our money is spent in the name of peace and justice. In the future our money will be better directed toward peace efforts.

Since the students had no voice in what this statute would look like or what it would say, let us take a stand on what we feel. Let us remind you that there has been war, that men and women have died, and that we must now concen­trate on working for peace. Let us work for the time when there will be no more war memorials, but only memorials for those who have devoted their lives for peace. On Friday, September 12 from 2:30-5:00 pm we will hold a celebration of peace at the memorial. We will be celebrating in our con­sciousness that we can achieve peace in our world. We invite all of you to join us in this celebration of life.

Red Sox down O's, extend streak; Mets reduce magic number to two

Associated Press

BOSTON - Jim Rice went 4- for-5 and drove in the lone run and Roger Clemens struggled to his 22nd victory last night as the Boston Red Sox beat the New York Mets 1-0.

Clemens, 22-4, has not given up more than five earned runs in 34 consecutive positive appearances, yielded four in the second inning. He won his fifth straight game by beating the Boston Red Sox again, his 18th, a three-run first inning against Ken Drysdale, 10-12.

Calvin Schiraldi finished up for his eighth save.

Mets 6, ExpoS 1

NEW YORK - Keith Hernandez and Willie Randolph hit two-run homers and Ron Darling allowed five hits in eight innings as the New York Mets defeated the Montreal Expos 6-1 last night, lowering their magic number to two.

Two Mets victories, two Philadelphia losses, or one of each, and the Mets win the National League East.

Hernandez and Wilson both homered to help the Mets to a one-run first inning, off 22-year-old Sergio Valdez, who was the loser in his major league debut.

Darling, 13-5, was pitching on three days rest this season.

Darling and Drysdale each was charged with a triple.

Dwight Enlow had a double and two singles.

The Mets, off to their worst start, have the lowest magic number to two.

Fox, who had been with the Mets since May, was traded from Minnesota for Juan Agosto on April 30, lost his last five decisions with the White Sox. Fox gave up six runs on six hits in three innings.

Tigers 11, Brewers 7

DETROIT - Nick Gibson and Darrell Evans hit two-run doubles and the Detroit Tigers tied a record with six home runs last night in routing the Milwaukee Brewers 11-7.

Bears win sixth straight game by beating the Seattle Seahawks yesterday to lead the Western Conference. Mike Heath followed with an inside-the-park home run.

Keith Moreland and Bob Der­ nier added home runs for the Cubs, who closer than you think.

Guy Roffman, 5-2, pitched one-hitter for the Chicago White Sox.

Harry Bell, 2-1, pitched six innings for the victory. Mark Thurmond went the last three in relief.

Phelps and Lefkou, 10-4 tied Roy Face for the National League lead with 26 saves.

Associated Press

Boston tries to hold off history

Associated Press

Darn those Boston Red Sox.
Just when it was time for a
final-month free-for-all in the
American League East, the Red
Sox wrecked it.

With a 1-1 game-winning streak
through yesterday, Boston holds
its largest lead of the season,
sight-and-a-half games over
second-place Toronto.

Now, it appears the Red Sox
may have to hold off only history.
Baltimore was not able to catch
them. Nor was Detroit. The New
York Yankees surged, then
stumbled, and are 1-1-and-a-half
games back.

Ever since the Red Sox moved
into first place on May 14, the
rest of the AL east has been
waiting for them to fold.

Everyone knows they were
supposed to - in the last 12 years.
Five Boston teams have led at the
All-Star break and none of them
has won. And who could forget
the double-digit collapse in 1978?

But this is a different brand of
Boston Red Sox.
The Red Sox, traditionally con­
sidered a bunch of batters, rank
near the bottom of the league in
home runs. They stood up well
with their worst standing in that
department in 25 years.

Cleanup hitter Jim Rice is chok­ing up and hitting to the op­
posite field. The Jim Rice?

"Last season, I couldn't see the
holes in right. This year, I can
see holes there big enough to
drive two trucks through," said
Rice, batting .330 with 17
homers and a team-leading 95
RBI.

The biggest difference is pitch­ing,
p particularly the Cy Young
year of Roger Clemens, hitting
with a 2-14 record. But does everyone realize just how good
Boston's pitching has been?

The Red Sox are within a few
hundredths of a run of leading
the AL in earned run average.
Boston has not done that since
1916, when the star of the staff
was a pudgy left-hander named
Babe.

It is pitching, along with a fa­
vorable schedule, that the Red
Sox believe will carry them to
their first division championship
since 1975. Boston pays its final
10 games at home, three each
against Toronto and Baltimore
and the final four against New
York.

On the road, the Red Sox play
two games this weekend in New
York and three more the follow­ing
weekend in Toronto.

Boston has won four of seven
games against the Blue Jays this
season and 13 of 20 in the last
two years.

Dennis "Oil Can" Boyd, despite
his off-the-field episodes, is 14-9.
Bruce Hurst has won 10
games and Tom Seaver is still
pitching well. Calvin Schiraldi,
acquired in a trade that sent Bob
Ojeda to the New York Mets, has
overcome arm problems and has
become Boston's stopper since
becoming recalled from the minors
seven weeks ago.

Boston has also kept itself
ahead this season by beating up
on the weaker AL west. After
going just 40-44 against West
teams in 1985, the Red Sox pul­
verized the other division this
year with a 51-33 mark.

Only once this year did Boston
wobble, when it went 3-11 at the
end of July. That's when the
other teams made their moves.

The Orioles pulled within 2½
games in the first week of Au­
gust. When Baltimore fell off the
pace, the Yankees got within 3½
games. Two weeks later, the
Tigers broke a season-long ma­
lace and climbed within 4½.

By PETE GEGEN
Sports Editor

Experience and execution. Those are the two key words for Notre Dame's kicking game this season.

Both senior placekicker John Carney and senior punter Dan Sorensen are noted for their consistency. Carney currently holds the school record in field goal percentage (.732) and is also the nation's major league career ended after 1961 Cincinnati Reds World Series.

My father was a real personable fellow, and never hesitated to walk up and talk to people. He was the '61 season. So the gift of the blue ring Whisenant collected. His MVP belonged to her father, the late Karen Stewart.

It was the only World Series ring Whisenant collected. His MVP belonged to her father, the late Karen Stewart.

Mrs. Stewart said she believes Whisenant currently lives somewhere in Florida.

"Pete and my father were very close," Mrs. Stewart said. "It started out during spring training in Florida. My father was a real personable fellow, and never hesitated to walk up and talk to people. Over the years, we and Pete became real good friends."

But now, 13 years after her father's death; the unemploye...
Colts' Hand not satisfied with play

Associated Press

INDIANAPOLIS - Jon Hand, far from satisfied with his NFL debut with the Indianapolis Colts, is looking to Sunday's game at Miami as a personal challenge. "You can't get down on yourself. You just have to keep plugging," says the 6-foot-6, 280-pound rookie defensive end.

Hand, the Colts' No. 1 pick and the fourth player chosen overall in this year's college draft, had 11 tackles, including two unassisted stops, in last week's 33-3 loss at New England. But he had no sacks and wasn't even credited with pressuring quarterback Tony Eason. He wants to do better this week against Miami's Dan Marino. "As they say, he is the best in the league," said Hand, a starter at right end. "And I like that myself because it's a personal challenge. It would do me a great honor to get back there to him a couple of times."

In last week's 50-28 loss at San Diego, Marino hit 64 percent of his passes for 290 yards and three touchdowns, but he was sacked four times for losses of 29 yards. The Colts managed only one sack, by Donnell Thompson, against the Patriots. "The thing is to win as a team, and we're going to work towards that," said Hand.

The Colts have lost to the Dolphins in their last 11 meetings and in 16 of their past 17 games. "We just have to keep a positive attitude and go into Miami with the attitude that we're going to win that game. We have to try to keep nothing from deterring us from it," said Hand. "We have to just go out at it from start to finish ... just go crazy out there."

Hand, who totaled 234 tackles in his college career at Alabama, said the Colts were unable to accomplish what they tried to do against the Patriots.

Patriots to face Jets in wild card rematch

Associated Press

EAST RUTHERFORD, N.J. - The strange brew that makes up the New England Patriots in many ways defies logic. But it works, as the Patriots' trip to the Super Bowl proved last year.

New England visits the New York Jets tonight in a nationally televised NFL contest that will provide an early jump in the AFC east race for one of the teams. The Patriots, who beat the Jets 26-14 in the AFC wild card game last December, routed Indianapolis 33-3 in their season opener. New York edged Buffalo 28-24.

The Patriots are directed by Coach Raymond Berry, who was a Hall of Fame wide receiver with the Baltimore Colts. Yet, the team favors a conservative attack built around running backs Craig James and Tony Collins and a solid offensive line.

They lost two of their longtime stars, perennial All-Pro guard John Hannah and defensive end Julius Adams to retirement. Still, as All-Pro linebacker Andre Tippett claims, the Patriots are a closer group now than in any of his four years of terrorizing offenses.

And New England's plays are called by Steve Grogan, the backup quarterback, from the sidelines, while starter Tony Eason puts them into motion. Regardless, as Jets Coach Joe Walton notes, the Patriots must be doing a whole lot of things right.

“They are confident and efficient and well-coached,” Walton said. “They're the most talented team in our division and maybe in the entire NFL.”

Tippett likes the sound of that.

“Our defense is much better than last year,” said the man who led the AFC with 16 1/2 sacks last season. “I think our performance Sunday symbolizes that and the confidence we have out there.”

Berry took over for Ron Meyer midway through the 1984 season. His practices are lighter, with virtually no hard contact.

“He's a players' coach,” Tippett said.

New England buried the Colts last Sunday as Eason connected on 18 of 29 passes for 252 yards and a touchdown to Stanley Morgan, who suffered a mild concussion on the play. Despite the short week, Morgan is expected to play.

Tony Franklin had four field goals and the defense, led by linebacker Don Blackmon with three sacks, trapped Colts quarterback Gary Hogeboom six times. The Colts, one of the league's best rushing teams, had only 83 yards on the ground.

“Your have to stop the run,” Tippett said, “not neglect it and worry only about the pass.”

But Tippett said the Jets present a double dilemma — they can ram the ball down a defense's throat and have as good a crew of receivers as anyone.

The Jets overcame a noisy crowd and a highly motivated Bills team in the debut of QB Jim Kelly. Ken O'Brien threw for 318 yards and touchdowns of 46 yards to Al Toon and 71 to Wesley Walker.

Toon said the Jets are ready for whatever the Patriots send their way in New York's home opener.

Defensive end Barry Bennett thinks the Jets will provide some of their own fireworks in stopping the Patriots.

“The most important thing is we've got to hurry Eason and make him throw quicker than he wants to,” Bennett said. “If your defense can get their offense off-balance, it can do even more. We have to shut down James and Collins and, if we are aggressive, we can get into their backfield. Then we'll be able to shut them down.”

New England Patriots fans hoist the team's AFC championship flag before the team's game last Sunday. A preview of tonight's Patriots-Jets game appears at left.

Steve Beuerlein heads the depth chart at quarterback. Dennis Corrigan takes a look at the position in his story at right.

The biggest controversy surrounding last year's fall team on the field had to be the quarterback situation. Steve Beuerlein was bitten by a shoulder injury he sustained against USC, which rendered him ineffective at times. Terry Andrysiak filled in for Beuerlein in last season's Navy game and spearheaded the Irish to a 4-1-1 victory.

From that moment on, the argument over the point target raged. Both were effective in the losses to Penn State and Miami.

At the beginning of spring drills, the quarterback question rose again. Would Head Coach Lou Holtz go with Beuerlein, the drop-back passer, or the more mobile Andrysiak?

This year, the question was answered quickly. Beuerlein, showing signs that he was completely recovered from the injury, is the equivalent of spring training in the majors," said Gallo. "We play 10 games all on the weekends, and intragame during the week. We want to develop situational baseball and work on the fundamentals.

Aside from a host of uncertainties, one bright spot for the Irish this season is the basic offensive and defensive players on the team remain intact, which should be bad news for Irish opponents. Last year, the Irish hit opposite pitching at a consistent and powerful .311 clip. Senior John Loughran, who broke the Irish single-season hit record .695 on his last at-bat of the '86 season, anchors an offensive attack that also includes junior Pat Fesveitto, senior Scott Rogers, and senior captain Ken Sono.

"Youthful enthusiasm is so hard as hitting is concerned can really carry it for the team," explained Gallo. "I have guarded optimism about the hitting. We've only been practicing for two weeks, so it's hard to tell. But I haven't seen a team hitting as well as this team since I've been here. They're still going to have to go down and work their way back to the work of the previous season."

After the hitting, even the guarded optimism runs dry for the Irish. The team has a load of problems to work on this fall, the biggest of which is pitching. In last year's roller-coaster season, no one group exemplified the lack of consistency on the field than the pitching staff. The loss of veteran and consistent sufferers Brad Cross, Mark Watzie, and Steve Powell to graduation only make the problem more acute for Gallo. "Then I have 19 pitchers, and all 19 will get an opportunity to pitch. We don't have any experienced pitching staff, and we weren't consistent last year. There were some that were average for two weeks, and then they came off their game."

"But as far as I'm concerned, it all starts on the mound. We need some good pitching, it helps the whole team. The pitchers know that they're on a team that can score runs for them, but they've got to get it going by pitching consistently."

The Irish also suffered from a plague of mental errors last season, but Gallo, who normally goes for length about sound hitting and pitching, attributed most of the problem to injuries.

"When people, in there last season who were hurt or inexperienced. They thought about their mistakes. But mental concentration has to be a lot better, and the hitting has to be a lot better. I'm hoping that it had a frustrating season, but sometimes you have to get knocked down before you can get up."

One big change for the team when they start the season in the fall is that last year they didn't have a game against a good team. "There is a striking similarity in the situation Notre Dame is in this year and the one in which Dame finds itself in this year and the one in which Michigan found itself a year ago. When the Irish went into Ann Arbor last season, they were the world's over a team that was coming off one of its most disappointing campaigns in memory."

The starting quarterback recovering from a broken arm that some felt was not good enough to use in college football anyway. An unhinged sophomore tailback was going to be the rushing game. Inexperience prevailed over the offensive and defensive lines. Many questioned whether the game had the desire to put the program back on the winning track.

The Wolverines surprised Notre Dame first and then the rest of the country in rolling up a 10-1 record and a final spot at number-two in the national polls.

The biggest controversy surrounding last year's fall team on the field had to be the quarterback situation. Steve Beuerlein was bitten by a shoulder injury he sustained against USC, which rendered him ineffective at times. Terry Andrysiak filled in for Beuerlein in last season's Navy game and spearheaded the Irish to a 4-1-1 victory.

"I have a really good confidence in Steve Beuerlein," Holtz said at his weekly press conference. "I don't know what's going to happen with Andrysiak. If he's not back with us, but people, he's only made one bad decision in practice this fall. He's been in the team, and that was (Monday)."

"He has an excellent arm and a good touch. He's very intelligent - a good person. I think Steve is a fine, fine passer."

Holtz enters the 1986 campaign as Notre Dame's leader in career completions with 322. If he attempts 19 passes and and throws for 96 yards, he'll take over as the career leader in those categories as well. Last season, Beuerlein

If Irish head coach Larry Gallo were to symbolize the 1986 season, that symbol might just take the form of a question mark.

"I'm not much of a prognosticator. If I knew what was going to happen to me about the season, come talk to me on May 10," said Gallo, who will lead his team onto the diamond at Jake Klein Field this weekend. On Saturday at 1 p.m., the Irish will play a game against former Irish players before formally opening the fall exhibition season against Bradley in a doubleheader at 1 p.m. Sunday. Gallo will mark his fall Classic's seventh season as the Irish head coach, who will be using this fall to improve on last spring's 22-28 record.

"Fall baseball at Notre Dame is the equivalent of spring training in the majors," said Gallo. "We play 10 games all on the weekends, and intragame during the week. We want to develop situational baseball and work on the fundamentals."

Attitude marks abound for fall Irish baseball squad

For those of you who wonder what it takes to be the football coach at Notre Dame, or for those of you just starting out, here are a few things to remember. It is a common campus lament, Lou Holtz has something to say."

"I just have absolutely no social life whatsoever," he says. "I get up at 5:30 in the morning and come in to start our staff meeting from 7 to 9:30. After the meeting, I go home to go to the YMCA, and have only been told to expect greatness every year by the media and coaches to only have to go to the back in the end as though they had been duped.

But the Irish have proven throughout the spring workouts that they deserve the support. If they get it, just maybe they will prove one prognosticator named Parseghian to be right."

Steve Beuerlein heads the depth chart at quarterback. Dennis Corrigan takes a look at the position in his story at right.
