Students injured in crowd for courses

By JIM RILEY
News Editor

At least two students were recovering Sunday from injuries they received as they attempted to register for checkmarked courses at Stepan Center Friday. Two students were transported to St. Joseph Medical Center at approximately 9:30 Friday morning by Security.

Sophomore Todd Hardiman said he was pushed into a glass door by the force of the crowd and suffered cuts which required two or three stitches to close.

It was not known whether more than two students were injured; however, one student said some students may have been injured when the crowd surged forward toward the doors.

At 9 a.m. when the doors opened, people started "running, pushing and screaming," according to one student. Students said a "mob" then formed around the philosophy table, though the other lines were orderly.

Hardiman said that after he was pushed into the door, he found himself running with the crowd, unable to stop.

"I was bleeding all over the place, but I couldn't get out of the crowd," Hardiman said. "I was bleeding all over people." He said two students noticed his condition and helped him exit the crowd and get his checkmarked course.

Assistant Director of Security Phil Johnson said Security responded to a disturbance call at 9:10 Friday morning.

"Officers arrived at the scene and found two foey doors broken," Johnson said. Security also assisted injured students, he said.

"We've been requested to staff registration in the future," by the registrar's office, Johnson said, adding that Security has staffed registration previously.

"There was absolutely no one in any authoritative position," said Steve Traubert, another student who was waiting to enter Stepan Center.

"There really isn't any one person in charge," said Daniel Winincu, dean of administration and registrar. Winincu said each department with a table in Stepan is in charge of handing out its own checkmarked cards. These departments used to hand out the cards in O'Connell Hall, but they asked to have a larger room a few years ago.

Program honors Hesburgh

By GREG LUCAS
Senior Staff Reporter

"Citizen training has fallen into a sad state of disrepair," said David Lege, professor of government and international studies at Notre Dame, adding, "It's our task to help people understand the functioning of a democracy."

Lege has been the first director of the Hesburgh Program in Public Service, according to Michael Loux, dean of the College of Arts and Letters.

The Hesburgh Program, named to honor the retiring University President Father Theodore Hesburgh, is a concentration designed to complement a variety of majors, Lege said.

"The program certainly represents a marriage of faculty interest and a beacon of someone who we all emulate for his contribution to public life in this country," he said.

Hesburgh, who has served on 14 presidential commissions, said he was honored to have the program named after him. "I think presidents of universities have to do things that many don't do. I think you have to be clear on the great moral issues of the time," said Hesburgh.

The new program will be funded by a $30,000,000 grant from the Exxon Education Foundation, said Lege. He said the proposal was constructed and submitted by Nathan Hatch, associate dean of the College of Arts and Letters.

Exxon has always been very good to us," Hesburgh said, adding that his college was especially grateful for the new program, since it is "very much like to hear something new." See STUDIES, page 5

Panel of Soviet and U.S. officials discuss arms control

By BUDDY LUEPKEN
Senior Staff Reporter

Three former high ranking Soviet military officers and three former ambassadors from the United States met Friday in the Center for Continuing Education to discuss arms control.

Both sides agreed that weapons reduction must begin with the Strategic Defense Initiative, commonly known as Star Wars.

"The ABM treaty was the best thing in arms control," said former ambassador L. G. Smith, who was the head U.S. negotiator for the ABM treaty.

Smith said the Reagan administration is amending the original interpretation of that treaty in favor of SDI. "I would very much like to hear someone in the Soviet Union say, 'Don't you remember the fall of 1972 when both sides agreed not to develop space-based weapons?'

Former Soviet Lt. Gen. M. I. Milshtein said the ABM treaty has broken down from mutual accusations of cheating. However, Milhstein said, "a defensive treaty must go ahead of an offensive agreement." Defensive weapons like SDI "undermine the stability" between the two countries, he said. Milshtein said SDI would increase the possibility for an accidental launch because of the limits of technology. "Consider accidents - Challenger and Chernobyl - it is dangerous for everyone," he said.

The meeting was the second of three panel discussions at the CCE. The Soviet officials arrived at the University Friday to meet with former U.S. military officers to discuss current military and diplomatic policies.

The discussions are part of Secretary General Mikhail Gorbachev's new policy of openness, and they come at a time when the two countries are closing in on a treaty to remove intermediate-range missiles in Europe.

An agreement from the present talks in Geneva "merits to be a timelimited decision," said see PANEL, page 3

Swartz appointed adviser of undergraduate academics

By DIANE SCHROEDER
Copy Editor

Undergraduates enrolled in the College of Arts and Letters at Notre Dame will have access to more specialized advising as a result of the recent appointment of Professor Thomas Swartz as College Fellow, according to the College's dean, Michael Loux.

Swartz, an economics professor, will be responsible for enhancing the quality of undergraduate academic advising in the University's largest college. According to Loux, the College Fellow's office will supplement the current advisory program of the assistant deans of the College.

"The assistant deans handle the formal advising of undergraduates very well," he said. "They do an excellent job with the routine advising such as helping students with registration. The College Fellow's office will supplement their work, to facilitate the flow of information to students so that they can find a good academic fit for their interests."

Swartz believes the College Fellow can also send a signal to faculty: excellent work with see ADVISER, page 6

students.
In Brief

Officials of Iuly, Luxembourg and Spain have expressed increasing support for Soviet leader Mikhail Gorbachev’s proposal to eliminate all of the superpowers’ ballistic nuclear missiles in Europe. Other members of NATO, Belgium, the Netherlands and Denmark, also are believed to support the plan. - Associated Press

Organizers of a protest at CIA headquarters say their non-violent demonstration is a sign of opposition to Reagan administration policies in Central America and South Africa. Several hundred people were expected to gather outside the Central Intelligence Agency offices in nearby Langley, Va., early today, and they planned to involve members of the CIA, according to a spokesman for the man for the National Mobilization for Justice and Peace in Central America and Southern Africa. - Associated Press

A collapsed apartment building in Bridgeport, Conn. led to an evacuation by a community of workers looking for missing friends in the wreckage, while officials and counselors tried to help the searchers cope with exhaustion, anger and despair. The death toll was listed at 15, with 14 bodies pulled from the rubble of the L’Ambiance Plaza and one other spotted and presumed dead. Thirteen other workers were still unaccounted for Sunday afternoon, and six were hospitalized in good or satisfactory condition. - Associated Press

Weather

One final event for An Tostal: It’s a wet T-shirt contest and everyone’s entered because there is a 50 percent chance of showers today with highs in the upper 50s. Cool day Tuesday with highs in the 50s.

Involvement with Druids reveals conformist attitude on campus

It was a dark and medium-stormy night. The fifteen mile-an-hour winds blew the matches out four times before we got the torches going. The sacrifice for the night’s ceremonies, the Spirit of Winter, was apparently trying to thwart us by kicking up some wind for our journey across the sea (Saint Mary’s Lake, actually). But we overcame. The journey across the sea was a nightmare beyond all proportion. As we made our way across the lake, a sea serpent (no, not a duck) reached up and snatched our magical fishing line, our only link to safety on the shore. “Druids adrift!” was the cry heard at Holy Cross and at Old College, our scheduled landing point. We were forced to douse the torches for fear of creating flaming Druids - not the kind of publicity An Tostal needs. But we overcame. We poor stranded Druids used the litter bearing the Spirit of Winter to make a sail, and we made our way towards Carroll Hall. Some­time during all the excitement, the wind snatched up the Spirit and carried it into oblivion. That wasn’t supposed to happen until we got to Stonehenge, but wind and Spirits made of the old escape hatches available were unspeakable at best. But we overcame.

We rejoined our brethren on Main Quad after an exhausting run across campus. They re­ported an aerial attack with water-bearing mis­siles in the vicinity of Dillon. They also were having problems with the torches, but the water we had brought along “just in case” helped to keep things under control. Sorin wasn’t overly thrilled. Neither was St. Ed’s. But we over­came.

And so we marched down North Quad, as we had last month, as we had voices loud and spirits high and a small crowd gathered to see what idiocy we would pull off this year. A nice crowd, considering the weather (cold and damp) and the anti-Druid sentiment voiced in certain quarters. Unfortunately, our sacrifice had been stolen by the wind, and with it most of our ceremony. We made up things as we went along. It worked out all right, I think. At least we told everyone all about An Tostal, which was the point all along.

What amazed me about the Druids this year was the negative feedback we got all along. That wasn’t so easy to overcome. Sure, some of it was from friends giving me a hard time. And some of it was probably deserved, espe­cially with the overkill in the Personals section. But come on, the point of all this is An Tostal awareness. What’s wrong with that? If the Office of Student Activities had censored it (which they didn’t, to their credit), then I doubt people find it morally objectionable.

Attention Juniors and Sophomores!

The Observer is always looking for talent. If you have any, come to our offices and start working on your newspaper.

Professional Manager

Mark Mclaughlin

Projects Manager

No, the reason that Druids get water balloons thrown at them and rather obscene threats shouted through windows is because they have broken the Eleventh Commandment at Notre Dame—Love thy neighbor...not “love thy neighbor only if he does the same things that thou dost, and ridicule him if he does not.”

The Druids are not out there to convert every­one else into burning torches and hanging around the Peace Memorial. Women on this campus don’t ask guys to start wearing makeup or quit their drinking. Homosexuals don’t ask heterosexuals to stop dating and getting married.

Give different people the same respect they give you.

continued from page 1

former Soviet Maj. Gen. E.P. Sirukov. But an agreement on intermediate-range missiles in Europe rests on an agreement on defensive weapons such as SDI, he said.

Sirukov said the development of defensive weapons in space would lead to offensive weapons in space. "Any weapon has the potential for improvement," he said. He said technology already exists for the development of space to space missiles. "That is why space-based weapons is closely connected to weapons in Europe," he said.

However, the U.S. must resolve political differences before progress can be made on weapons reduction. Ambassador David Aaron, who was a member of the SALTI negotiations, said the U.S. has problems with the Soviet occupation of Afghanistan, human rights violations in the Soviet Union and Soviet dealings in the Middle East. Aaron said Carter's SALTI failed largely because "opponents of arms control could read through a litany of political problems with the Soviet Union."

Milshtein said his country has political problems with the U.S. as well. He cited Grenada and Nicaragua as examples. Of President Reagan's decision to no longer abide by SALTI II limits, former Ambassador Ralph Earl, who negotiated that treaty, said, "I would have maintained SALTI limits." He said the reason for "doubling it" was that it was fatally flawed by limits which were too high.

But Earl said, "SALT II did establish a basis for reductions in SBLMs (submarine launched missiles) and ICBMs (intercontinental ballistic missiles)." Other agreements could be worked out from SALT II, he said.

Report: Poverty causes pollution

WASHINGTON - Warning that "poverty itself pollutes the environment," a group of prominent world citizens finds that only sustainable economic growth can stave off environmental disaster, says a report to be released Monday.

"Those who are poor and hungry will often destroy their immediate environment in order to survive: they will cut down forests; their livestock will overgraze grasslands; they will overuse marginal land and in growing numbers they will crowd into congested cities," the World Commission on Environment and Development said.

The commission was asked by the United Nations in 1984 to examine critical issues and propose strategies for dealing with its report was scheduled to be released Monday in London and Washington.

Correction

A story Friday incorrectly reported the deadline for entering the lottery for additional commencement tickets. The deadline is today at 4:30.

The panel, whose U.S. representative was former Environmental Protection Agency Administrator William Ruckelshaus, held hearings on five continents.

"Our report is not a prediction of ever-increasing environmental decay, poverty and hardship in an ever-more polluted world among ever-increasing resources. We see instead the possibility for a new era of economic growth... absolutely essential to relieve the great poverty that is deepening in much of the developing world."

Its hope "is conditioned on decisive political action now to begin managing environmental resources to ensure both sustainable human progress and human survival," the commission said.

"The commission believes that widespread poverty is no longer inevitable." The report advocates a strategy of "sustainable development" for all nations, rich and poor alike.

NAVFAC recruiting

NAVY HIRING PILOT TRAINEES

College graduates are needed to pilot, navigate, and maintain the most sophisticated aircraft in the world. No experience necessary. All majors considered as certified pilots. You will fly the most advanced aircraft ever developed. As a NAVY FLIGHT OFFICER, you will operate the electronics and software in the Navy's newest jets.

NAVY OFFICER REPRESENTATIVES will be on campus conducting an exclusive screening session. All interested students who are within three years of graduation are encouraged to take advantage of this opportunity. Testing takes approximately 30 hours and hours are limited.

Date: Friday, May 1, 1987
Time: 8:30 a.m.; 12:30/4:30 p.m.
Place: Career and Placement Services, Conference Room
Testing appointment may be obtained by calling 256-1455.

Sophomores & Juniors:

NAVAL AUXILIARY CIVILIAN - Sophomores from 4-year or Community Colleges that are undecided about continuing college may qualify for immediate pilot training. Requirements: 60 semester hours, 2.5 GPA. Pass the aptitude test. Single/dependents.

AVIATION RESERVE OFFICER CANDIDATE - Commissioned Pilot/Flight Officer Training at Pensacola, FL. During Sophomore or Junior year summer break, and/or upon completion of BS/BA degree.

RECRUIT OFFICER CANDIDATE - Commissioned Officer Training (2 years) starting Sophomore or Junior year summer break and/or upon completion of BS/BA degree. No drilling/meetings required.

Must be a U.S. citizen and in good health.

NAVY OFFICER.

LEAD THE ADVENTURE.
Protests at Chernobyl

Associated Press

Protesters gathered Sunday outside nuclear power plants to mark the first anniversary of the Soviet nuclear reactor disaster at Chernobyl that killed 31 people and contaminated wide areas. At least 27 people were arrested. "Chernobyl made crystal clear the threat to our lives coming from every nuclear power plant," said Wes Crobbon of the Clambell Alliance, an umbrella organization for anti-nuclear groups in New England.

About 300 demonstrators at the finished but still-closed Seabrook plant in New Hampshire observed 30 minutes of silence, a protest of Ohio's Perry nuclear plant east of Cleveland drew 300 people, about a dozen people demonstrated at Maine Yankee, and, near Monroe, Mich., about 15 people chanted, "Shut it down," outside the Fermi II plant, shut down since an April 13 steam leak.

In Richland, Wash., about 300 people demonstrated near the Hanford nuclear reservation, 12 steam leak.

Eleven protesters who tried to scale the fence around Washington's Hanford nuclear reservation also were arrested.

PLO reunites, but peace remote

Associated Press

ALGIERS, Algeria - The Palestinians' "parliament-in-exile" ended a stormy session Sunday with the PLO reunited under Yasser Arafat, but with a Middle East peace settlement looking more remote than ever.

For the first time since they split four years ago, Arafat, chairman of the Palestine Liberation Organization, and his leading Marxist rivals, Nayef Hawatme and George Habash, appeared hand-in-hand and smiling as the 18th meeting of the Palestine National Council came to a close amid prolonged applause.

But the bitter disension between hardliners and Arafat's moderates that was aired during the five-day session suggested the PLO's new-found unity is fragile and subject to constant upheaval.

Arafat once again survived concerted efforts by Syria's President Hafez Assad and Syrian-led radicals to oust him, but he paid a heavy price, bowing to demands that he abandon his relationship with Egyptian President Hosni Mubarak.

An earlier, informal agreement would have allowed Arafat to maintain his relationship with Mubarak in violation of an Arab boycott imposed after Egypt signed a 1979 peace agreement with Israel.

In exchange, Arafat had agreed to drop all attempts to negotiate a future peace settlement under a Jordanian umbrella.

Meese aides told not to get involved

Associated Press

WASHINGTON - Aides to Edwin Meese were advised in 1981, when the attorney general was White House counselor, not to get involved in problems between Wedtech Corp. and its former contractor.

The Washington Post, quoting informed sources, reported in Monday's editions that the advice was contained in memos from former White House counsel Fred Fielding and former Cabinet secretary Craig Fuller.

The pair told Meese's top aides that as an ethical and procedural ground, they should not be involved in the Wedtech case. However, one aide convened a White House meeting on the subject anyway.

Wedtech, a defense contractor in the Bronx, N.Y., is now at the center of three federal investigations into allegations that the firm paid off government officials in return for favors.

Washington Post

In 1982, Meese acknowledged that as White House counselor, he interceded on behalf of Wedtech and directed his staff to make sure that Wedtech received consideration from the Army in connection with a no-bid Army contract to supply engines to the government.

The Army had objected that the price was too high. Wedtech eventually got a $22.2 million contract. Meese has said there was nothing unusual about his intercession.

Recently, it was disclosed that Meese's financial adviser, who manages his blind trust, served on Wedtech's board and may have invested some of Meese's money in the company without Meese's knowledge.

Meese at his own request was interviewed last week by the FBI about Wedtech, and he is regarded only as a witness, not a suspect, in the probes.

The Post said that the memos from Fielding and Fuller have been turned over to independent counsel James McKay, who is investigating allegations that former White House political director Lyn Nofziger lobbied his former government colleagues on behalf of Wedtech within a year of leaving his post in violation of federal conflict-of-interest laws.
Thursday

12:38 p.m. - A motorcycle was witnessed by a security officer being driven on the sidewalk by the University Club. The driver was stopped and found to have a restricted driver's license and the motorcycle license plate was non-current. The driver was arrested for driving under the influence of alcohol.

12:38 p.m. - A Flanner resident reported that his wallet was taken from his unlocked room. Total value of wallet and contents is listed at $125.

3:04 p.m. - A number of students were witnessed by Security tailgating in the parking area at the Notre Dame parking lot. Security will give an additional warning before issuing a citation.

Friday

Friday An SMC student reported that her jean jacket and keys were taken by Ted Thiede's in LaFortune. Estimated loss is in $90.

3:00 p.m. - A Dillon Hall resident was questioned by Security after gaining illegal entry to campus via SMCC gate.

12:45 p.m. - A person was injured while unloading at the front of Columbia Hall. He was transported to St. Joseph Medical Center by ambulance.

3:15 p.m. - A second vehicle was obtained. The bike had been secured and the chain and lock were found lying near the bike rack.

11:36 p.m. - An uncooperative Zahn resident was stopped by Security after it was witnessed that he was taking alcohol into a concert at Stepan Center. Expired license. The driver is a male white, student age. At 2:00 a.m. this date, the bike was located by Security near the bookstore. The bike was returned to the owner. The case will be forwarded to Student Affairs.

Saturday

3:17 a.m. - An employee reported that her coat was taken from Walsh hall by a male student who was released from the police station.

2:36 a.m. - A Brown-Phillips resident reported that she was assaulted by two males while she was walking down South Bend Avenue. Victim was able to break away from the suspects and was not injured.

11:15 a.m. - At 10:41 p.m. Friday, an off-campus student was apprehended by Security for not having a valid driver's license. The vehicle was impounded.

ADVISER continued from page 1 students contributes to the excellence of a teacher-scholar. "The Notre Dame, we're serious about our undergraduates' educational development, and we can't afford to leave it to happenstance," said Swartz. "Our office will help show students the way to exploit the resources here fully." The new position of College Fellow is the result of a recommendation made last fall in a report of a committee on Undergraduate Advising, a panel of seven faculty members appointed by the Arts and Letters College Council. The program is supported in part by a grant from Lilly Endowment, Inc., of Indianapolis. Swartz will place special emphasis on improving the contact between students and faculty, to "extend the classroom to faculty offices and outside the University." This activity will include a seminar for new faculty members, a constructive criticism of lectures and encouraging social activity such as dinners or group visits to social and cultural activities, he said. Swartz has been a member of the Notre Dame faculty since 1960. He is the director of the Notre Dame Center for Economic Education, a position he has held since 1973, and is a research fellow for the National Center for Urban Ethnic Affairs. He will continue teaching during his tenure as College Fellow.

He received his doctorate in economics from Indiana University in 1960. He also holds degrees from Ohio University and LaSalle College.

"Best Little Store House in Michigan"
Homosexuals explain their discovery

Editor's Note: The following is the first article and several recent responses to comments, opinions on campus, through the guest column, "Inside Column," and the guest column, "The University of Notre Dame and the rest of my life, I would want more to do, but so I could have some intelligent guideposts." It's what he calls his "early phase." They decided that it was time to talk to somebody, he contacted the campus organization, Gays and Lesbians at Notre Dame and Saint Mary's. I was afraid to talk about it, but it was like, "It's not running. It's not letting you chase it." I wanted it out. "Yeah, you're a nice welcome person to live down to your expectations. If, however, you set your expectations high, you will continually be surprised at the many ways in which you strive for and achieve that which you once thought was only an impossible dream."

Anonymous Submitted by William Sullivan, '64

Quote of the day

"If you are willing to accept mediocrity from yourself or those around you, you part of the time, people will find it easy to live down to your expectations. If, however, you set your expectations high, you will continually be surprised at the many ways in which you strive for and achieve that which you once thought was only an impossible dream."
"Of wonder at what they're achieving."

McGrath explained the reading level. We've had dozens of them close to two years, is a special goal which he or she may volunteer tutors from around the city to help those who neglected by our society for so long, it's more than enthusiasm for the Center. The Sisters' efforts of a few concerned people first—to develop good self-concepts. We will never let a person fail. We always stress the good things, the right answers, never the failures. Instilling self-confidence in the students is a primary goal for all the tutors at the Center. According to McGrath and Stoffel, a good self-image is extremely important for people who have been conditioned by society to consider themselves inferior. Once they realize that they do have the capability to learn, the greatest obstacle has been overcome. According to the tutors at the Center for Basic Learning Skills, all of us who have been lucky enough to obtain a good education have a duty to help the illiterate members of our society. They admit that the public educational system has improved over the years, but, in some areas, it still leaves a lot to be desired. "I really believe we owe it to them," said Stoffel. "I think we owe it to them because they've been shortchanged for so long. It's a matter of justice."

too many penalties (19 for 93 yards between both squads). But other than the number of penalties, I think we played the type of game that won’t get you beat.

The Green relied on a solid ground attack based on Green, who gained 61 yards on 15 carries and scored twice, and fullback Anthony Johnson, who also had 61 yards on 12 carries. Their task was made easier by running behind the blocking of Chuck Lanza, Tom Freeman and Marty Lippincott - all of whom should be in the starting lineup come next fall.

The Green squad also got solid jobs at quarterback from Steve Belles and Pete Graham. Belles led the team on two touchdown drives, while Graham directed one drive for six and another which resulted in a Reggie Ho field goal from 42 yards out. Belles finished the day with four completions on 14 attempts for 51 yards. Graham, meanwhile, completed 7-of-15 passes for 107 yards and an interception.

On the other side of the ball, Terry Andrysiak found the day a bit rougher. While completing 13-of-29 attempts for 149 yards and one interception, Andrysiak was harassed most of the day and was sacked five times, three by Darrel’ Flash’ Gordon. He directed his squad on 56 yard, nine-play drive capped off by a Braxton Banks three-yard scoring run in the second quarter.

"It’s the first time we’ve ever had a football team where the starting quarterback’s team lacks by 17 points - which concerns me. (But) I think you get there and try to make things happen. Our pass rush lanes are much better than last year, and (Andrysiak) didn’t have an awful lot of time.

"Defensively, I thought we pressured the passer a little bit better, but it’s hard to tell when you go against one another. I thought the secondary played the ball very, very well.”

Indeed both secondaries did turn in standout performances. Green’s Brandy Wells came up with an interception and a fumble recovery, while Gold’s Marve Spence, who had the unenviable task of covering Tim Brown, broke up three passes. Gold’s Mike Talefiki came up with a diving interception after Corny Southall deflected a flea-flicker pass intended for Brown at the Gold six with Green up 14-7.

The Green broke to 14-0 lead in the first quarter, as Green followed his one-yard drive with a nine-yard bolt. In the second half, Green added to its 17-7 lead as Perrell Taylor, who gained 16 yards while playing the first half for the Gold, went off left tackle for a three-yard score. Taylor finished with 21 yards for the Green in the second half.

Earlier in the third quarter, Ho just missed a 48-yard field goal as it hit the upright.
Wilkins explodes for 43 as Hawks
Pacers fall behind in series, 2-0

Associated Press

ATLANTA - Dominique Wilkins scored 43 points and Kevin Willis connected on a short hook shot with 58 seconds remaining as the Atlanta Hawks held off the Indiana Pacers in the closing seconds Sunday night for a 94-93 NBA playoff victory.

The victory gave the Hawks a 2-0 lead in the best-of-5 series. Game 3 is Wednesday night in Indiana.

The Pacers' John Long, who scored 15 of his 21 points in the third period, missed a 15-foot jumper from the foul line with 2:29 left. Atlanta took advantage.

Chuck Person, who led the Pacers with 23 points, hit his last-minute hook shot, it was the first time he had scored since Game 3 is Wednesday night in Indiana.

The Pacers, behind Wayman Tisdale's 13 second-quarter points, had taken a 42-33 lead before the Hawks ran off a 17-4 string that put Atlanta ahead 50-46. But Indiana scored the last four points of the half.

Wilkins scored 12 of Indiana's next 21 third-period points as the Hoosiers were really shut down when we had our game winning Friday night.

Webb had 12 points and 14 assists.

When Willis, who finished with eight points, hit his last-minute hook shot, it was the first time he had scored since the second period.

The Pacers, behind Wayman Tisdale's 13 second-quarter points, had taken a 42-33 lead before the Hawks ran off a 17-4 string that put Atlanta ahead 50-46. But Indiana scored the last four points of the half.

Wilkins scored 16 of Atlanta's 21 third-period points as the Hawks held off the Indiana Pacers 94-93.

The Hawks then failed to get off a shot within the allotted 22 seconds and Indiana took over with 17 seconds remaining, setting up the shot by Long that hit the rim and bounced away.

Wilkins started in place of the injured Glenn Rivers, who hurt his left ankle in the Hawks' 106-96 opening game victory Friday night.

Yanks thump Cleveland
Associated Press
CLEVELAND - Tommy John pitched a one-hitter over seven innings and Dave Winfield had three hits and drove in four runs as the New York Yankees routed the Cleveland Indians 22-20, after trailing 11-8 at the half.

With the score 12-10 early in the second half, Shorter tallied his team's next three points on bombs from the outside to put Leone's height advantage under­neath in the early going, but left Shorter and Adams free to pop from the outside.

"We concentrated on shutting them down underneath," said AI Martin of the Stallions' game plan. "We didn't think the little guys would hit the jumpers like they did."

John, who pitched seven shutout innings against Kansas City last Sunday, struck out four and walked one. The left­hander retired 14 Indians on grounders and pop flys and gave their squad much-needed breathing room in the second half.

"We didn't think the little guys would hit the jumpers like they did," said Martin. "We didn't think the little guys would hit the jumpers like they did."

Shorter's fourth and fifth points came a brief, yet intense, alter­cation between the two teams. After pulling down a de­fensive rebound, Royal threw an elbow at Leone's Sullivan as Sullivan had his hands in Royal's face trying to prevent a fast break. No call was made, and as the two players headed upcourt, minor jostling progressed into a scuffle that eventually included most members of both teams.

The incident was quickly bro­ken up by the referees, but seemed to be an indication of the Stallions' frustration with the game's officiating. Not a single foul had been called on Leone's Manhood in the first half, while Leone's had been tagged with eleven.

"The referees were indi­cating that we were behind in the game," commented Mar­tin, Leone's intense playmaker. "The officiating was awful."

On offense, Leone's 5-0-7 from the field and denied the Stallions from putting up second and third shots by dominating their defensive boards. He ripped down 11 rebounds and slapped five assists on several short baskets. Sullivan had eight points for the Stallions, with the brunt of the scoring being done by Royal and Joel Williams. But Shorter never doubted that, given the chance, he and Adams could come through.

"There wasn't any set plan for Kim and I to shoot like we did," said Shorter after going 6-of-7 in the contest. "They didn't play us down low and they just couldn't get back when he kicked it back out. Fortunately, we were hitting from out there. I felt pretty good shooting the ball, and we were open a lot of the time."

In previous action over the weekend, Leone's knocked off defending champion Slamma Jamma's dreams for the title. In Saturday's semi­final, they ended 4 Slamma Jamma's year.

"Last year, it was a big thing to reach the finals," said the sharp-shooting Sullivan. "This year, we were confident that we could make it to the finals, and it's a little disappointing that we couldn't win it. Losing was a letdown, but we're happy that we reached the finals again."

Six of the Elite Eight bowed out on Friday and Saturday, in­cluding defending champion Slamma Jamma and top seed (and some reporters' pick to win it) Da' Brothers, Party at Chips When the Upper.

"We didn't play as well as we would have liked," said Shorter of the tournament. "We didn't play as well as we would have liked."
Lacrosse team splits in weekend blowouts

By CHRIS DALLAVO
Sports Writer

One thing is certain about this weekend's lacrosse action: the Brew Crew won again.

The following awards were chosen by the Bookstore Basketball XVI Committee:

Golden Hatchet Award
Mike Kowalewski of Port Shoes Chippewa Hawks for the most prolific fouling and fouling display.

Ironman Award
(playing with pain or injury, gutsy performance)
Mike Dethlefs of North Dakota State, who was injured at the 12th point of the team's score in the final 12 points in leading his team to a 2-11 victory.

Hoochier Award
(for grimacing and missing with extremes of emotion)
Mark "Bear" Williams of Team No. 14, who was 3-of-28 from the field, he set all scorers on his team.

All-Star Game MVP
Tony Rice of Cara Biondo, who scored six points in the classic.

Third Team All-Bookstore
Dick Prosen of Midamrz, 2nd in weekend blowouts.

The Minutte Bow Award
Joe Williams of Big Brothers of Manhood, for saving a blocked shot a country mile at Deer.

The Eagle Award
Tony Rice of Cara Biondo, for scoring all six of the second-round points on bulls.

The Must-Be-Crazy Award
Lou Wolters of Yankee Creamers, for taking a charge on Donald Royal.

The Most-Intelligent Award
Steve Nigoraikl, for winning all six of the second-round points on bulls.

The Manute Bot Award
The most intelligent Award
Steve Nigoraikl, for winning all six of the second-round points on bulls.

The Brot-Bees Award
Peter Skolet of Big Brothers of Manhood, for thinking. The You-Must-Be-Crazy Award
Lou Wolters of Yankee Creamers, for taking a charge on Donald Royal.

The Top-Friendly Award
Comissioner Steve West and Assistant Commissioner Todd Bechel, for driving six hours from Cleveland to play in a Bookstore game and getting a specking loaf on the way.

The Surprise, Surprise Award
SOMFAW and Verker's Construction, for giving larger in the journey than expected and taking 4-6 losses to Amazon and DI Brot- hers of Manhood, respectively, to within two points of an upset.

The 9-Second-Live-In-Easy-Enough-Job Award
Commissioner Steve West and Assistant Commissioners Todd Bechel, Mike Pull, John Lake, Rich Burt, Jerry Hallbeck, Pat Rypie and Warren Barry, for dedicating hours of time to this crazy little thing called Bookstore Basketball.

The Big-Sender Award
The invaluable contribution of the Big-Sender Award
The invaluable contribution of the Big-Sender Award

The Best-Goat-Friendly Award
Denise Baker of DePauw, for jumping on the back of a female participant in the tournament.

The Most-Intelligent Award
Steve Nigoraikl, for saving a blocked shot a country mile at Deer.

The Water Hazard Award
John Lake, Rich Burt, Jerry Hallbeck, Pat Rypie and Warren Barry, for dedicating hours of time to this crazy little thing called Bookstore Basketball.

Stallions run into too much Manhood in Final

Guards’ outside game key in Da’ Brothers’ 21-15 win

By PETE SKIKO

and BRIAN O’GARA

Sports Writers

For a tournament that had been bombarded with inclement weather over the past month, Bookstore Basketball XVI’s final weekend featured plenty of sunshine and some of the tournament’s finest performances as the Elite Eight battled for the title.

The newly-crowned champion of Bookstore Basketball XVI is Da’ Brothers of Manhood, and it took the title with some impressive shooting and consistent play over the final three rounds of the tournament this weekend.

Quint too tough for Cookie in Women’s Championship

By THERESE KELLY

Sports Writer

It wasn’t easy, but the Quixotic Quint won the Women’s Bookstore Tournament Championship yesterday at the Stepan courts. The Quint, behind the gutsy play and high scoring of Regie Richter, dehorned last year’s champs, Double Decker Oreo Cookie, 21-16.

“We really wanted it,” said winning team member Kara England. “We had to work hard to get it, and we did.”

Both teams started cold, playing defense and forcing turnovers, until Zanette Bennett opened the scoring for the Cookie. After the court was cleared of Oreos thrown by the rowdy Cookie crowd, both teams continued cold until a basket by Lavetta Willis put the Cookie up by two.

The Quixotic Quint was playing a tough, swarming defense, but it was slow on offense until Colleen Donnelly put her team on the board with a rebound goal, and followed it up with a quick fast break to tie the game at two.

The Quint began to get the ball inside, as lay-ups by Richter and Brommeland ran the Quint streak to four. Shelle Holder stopped the streak with a jumper to bring the Cookie within one at 4-3.

The tough defense continued and the teams traded baskets. The Cookie had a large edge in rebounding, but the Quint stayed tough with defense and aggressive play.

A four-point run by the Quixotic Quint ending with a long-range jumper by Donnelly wrapped up the first half with the Quint leading, 11-7. Both teams started the second half almost as slow as the first, but Marilo Almeida’s jumper extended the Quint lead to 12-7.

Soon after, the Quint picked up its tenth foul, but the aggressive play continued to pay off as the Cookie did not shoot well from the line.

Four straight hard-earned points by the Cookie closed the gap to one, 12-11, but the Quint took off on another streak, thanks to Cookie turnovers and scored five straight to go up, 17-11, including two tough rebounds by Kathy Brommeland.

The Cookie followed with two quick baskets, but a jumper by Richter kept the momentum on the side of the Quint. After more rough action, Almeida hit a free throw to bring the Quint within one of the victory, 20-15.

Quint coupled with two quick baskets, but a jumper by Richter kept the momentum on the side of the Quint. After more rough action, Almeida hit a free throw to bring the Quint within one of the victory, 20-15.

Green pounds White in 57th Blue-Gold Game

By DENNIS CORRIGAN

Sports Editor

Irish outside linebacker coach Barry Alvarez is a newcomer to Head Coach Lou Holtz’s staff, but Saturday he resorted to an old Notre Dame play, in coaching his Blue squad to a 24-7 win over the Gold squad in the 57th annual Blue-Gold Game.

Spring Football ‘87

Or was it the Green-Gold game? Showing he’s no stranger to Irish legend, Alvarez had his charges put on the Green jerseys before taking the field. The psych play seemed to have an effect, as the newly-named Green team took the opening kickoff and marched 75 yards to take a 7-0 lead on a Mark Green one-yard dive.

From there, the Green went on to control the game on both sides of the ball. The Green piled up 371 yards of total offense (213 on the ground) while limiting the Gold to 167 yards of total offense and only 27 yards rushing. While those numbers may seem overwhelming, Holtz downplayed the result.

“I don’t think there’s an awful lot you can tell from a spring game,” said Holtz, who watched the game from the press box. “I wasn’t down there, but I’m told the hitting was very good. There were far see GREEN, page 11
