Hurricane Gilbert batters Yucatan

Associated Press

CANCUN, Mexico—Hurricane Gilbert, one of the most destructive storms ever, slammed into the Yucatan Peninsula Wednesday, battering windows, drencing the land and cutting off the Caribbean resort beaches, the Associated Press reported. Thousands fled the storm, which has killed at least 14 people elsewhere. The Jamaican Embassy in Washington said the storm left 300,000 people homeless in that island nation.

The hurricane's 160 mph winds ripped over Cozumel island earlier Wednesday. Ham radio operators in the area said Gilbert knocked down a radio tower, uprooted trees and blew the roofs off buildings.

The winds leveled slum areas in Cancun on the Mexican mainland, where many people live in cardboard shacks, the operators said. In Quintana Roo state, huge waves lashed at Caribbean resort beaches, and trees were downed by the punishing winds, Mexican officials said. "The sound of the wind outside is horrible," said receptionist Pablo Torres at the Hotel Carillo in Cancun in a telephone interview as the storm approached. "You couldn't leave even if you wanted to." There were no immediate reports of casualties in Mexico.

The National Hurricane Center in Coral Gables, Fla., said a hurricane watch was in effect along the Texas coast from Brownsville to Port Arthur and along the coast of northeast Mexico from Tampico north. Residents in these areas should be ready for quick action should warnings be required today, the center said in a statement.

At 6 p.m. EDT Gilbert was centered near latitude 21.3 north, longitude 88.8 west and approaching the north coast of Yucatan, about 60 miles east northeast of the provincial capital, Merida, the statement said. The storm was about 600 miles southeast of Brownsville. Gilbert's winds had decreased to 140 mph as it moved over land, but the center said wind speed was expected to rise once the storm moved back over the warm Gulf of Mexico waters. It said the hurricane was moving west-northwest at 15 mph.

Gilbert is a Category 5 storm, the strongest and deadliest type of hurricane. Such storms have maximum sustained winds greater than 155 mph and can cause catastrophic damage.

Only two Category 5 hurricanes have hit the United States—a 1935 storm that killed 408 people in Florida, and Hurricane Camille, which devastated the Mississippi coast in 1969 and killed 256 people.

Oil companies evacuated thousands of workers from rigs in the Gulf of Mexico, reported from New Orleans said residents along the gulf coast of Texas, 560 miles to the north, stockpiled food and supplies and prepared to evacuate. The government oil monopoly PEMEX said it evacuated 5,000 workers from platforms in the Campeche Sea.

ND prof in coma after heart attack

By REGIS COCCIA Senior Staff Reporter

A Notre Dame professor suffered a heart attack early yesterday morning while driving to the University and is in a coma at St. Joseph Medical Center.

James Danehy, 76, emeritus professor of chemistry, was driving north on Hill St. through the La Salle intersection at about 7:30 a.m. when his car went over a curb and stopped, said Lt. Richard Kilgore of the South Bend Police Department.

Danehy was removed from his car by Jim Phelps, an employee of Hi-Speed Auto Wash on La Salle. Transpo Super­visor Ron Singleton adminis­tered cardio-pulmonary resus­citation to Danehy, Kilgore said.

Cpt. Richard Redwine, the first police officer to arrive at the scene, assisted Singleton. Danehy was taken by ambulance to St. Joseph Medical Center.

A hospital spokesman said Danehy is in very serious condition in the coronary care unit. The hospital listed him in guarded condition Wednesday night.

Danehy, a 1932 Notre Dame graduate, has served as a chemistry consultant since receiving his master's degree and doctorate in chemistry from the University.

Alumnus bitten by dog while resisting arrest

By REGIS COCCIA Senior Staff Reporter

Two Notre Dame alumni were arrested for disorderly conduct at an off-campus party Friday night and one required medical treatment for head injuries inflicted by a South Bend police dog.

South Bend Police arrested Thomas J. Abood and Thomas A. Fink, both 24, after breaking up a party in the 500-block of W. Marion St. and ordered them to leave the scene, said Lt. Richard Kilgore of the South Bend Police Depart­ment.

Abood refused and was told he was under arrest and was later bitten by the police dog. Abood later received medical attention for the injuries. It was

ND alumna murdered

Observer Staff Report

A Notre Dame first-year alumna was killed early Wednesday morning near her home in Brooklyn, New York.

Judith Wrappe, who graduated from Notre Dame in May of 1988 with a bachelor of fine arts in art studio, was walking home from her job when she was accosted by a robber. Police reported that she was shot while resisting the robbery.

Wrappe was preparing to start graduate studies at the Pratt Institute in Brooklyn, ac­cording to Dennis Moore, assis­tant director of public relations at Notre Dame. Wrappe was active in art while at Notre Dame, winning the Beardsley Award for her work in oil paint­ing.

No one has yet been arrested in connection with the murder.

American drinking and driving views are warped

Sara Marley
Assistant News Editor

What is really screwed up in this country is the priorities. Driving is taught to be a taboo and then a sort of birthday gift from the government. Driving, on the other hand, is taken for granted and ridiculously easy to obtain a license for. Considered strictly separately, driving is more dangerous than drinking and should be treated as the responsibility and privilege that it is.

By the time Austrians and other Europeans earn their drivers' licenses, they already know how to drink. Their laws against drinking and driving are more strict than ours, but at least in this area we are moving in the right direction. Anyway, their driving rights are too hard earned and too precious to them for drivers to jeopardize them in any way.

Driving is something we take for granted. Driving is something Europeans take for granted, but so what? The very de-emphasis that Europeans put on drinking alcohol is what leads them to treat it so responsibly.

I told a small untruth at the beginning of this article—I am going to talk about drinking and driving in their lethal combination. To loosely paraphrase and translate Berthold Brecht, let us say it for the thousandth time, so that it won't be said one time too few. Just don't do it. Especially to all those road tripping to Michigan State, have fun, drive safely, and come back alive.

Pope in S. Africa minutes before shootout

Associated Press

MASERU, Lesotho—Pope John Paul II arrived in this tiny kingdom Wednesday just 20 minutes before a bloody shootout between police and gunmen holding a busload of nuns and children on a papal pilgrimage.

Four people reportedly died. John Paul was to fly from Botswana to Lesotho today but bad weather forced his chartered jet to make an unscheduled landing in South Africa, the target of his criticism during his southern Africa tour. The pope arrived in Lesotho eight hours behind schedule and just 20 minutes before the tense hostage drama was played out.

Police said gunmen hijacked the bus carrying with about 70 people Tuesday, drove it to the British High Commission, or embassy, compound and demanded to meet the pope.

Authorities said the hijackers began firing after they tried to drive the vehicle through the closed gates of the embassy compound.

Three hijackers and a hostage, a young woman, were killed in a gun battle with police, authorities said. Eleven other passengers were wounded, the rest of the hostages were rescued, and one hijacker was arrested, police said.

The hijackers held police at bay through Tuesday night while demanding to meet John Paul and Lesotho’s king, Moshoeshoe II, a government official said.

John Paul, meanwhile, had intended to bypass South Africa on his tour of five neighboring, black-ruled nations.

But his flight from Botswana to Lesotho was diverted because of bad weather, and he spent three hours at Johannesburg’s Jan Smuts Airport before heading overland in a police-escorted convoy to rain-soaked Lesotho, about 270 miles away.

Members of Lesotho’s military council greeted the pontiff at the border, but crowds along the route into Maseru were sparse because of the wet, chilly weather.

John Paul did not kiss the ground in Johannesburg, as he customarily does the first time he visits a country, and made no public statements there. He conferred privately with Foreign Minister Pik Botha.

South Africa said it sent special police units into Lesotho at the government’s request, to assist if necessary in dealing with the hijackers. Lesotho is surrounded by South Africa.

Robin Cartwright, pilot of the pope’s chartered Air Zimbabwe Boeing 707, earlier circled over Maseru, Lesotho’s capital, for 30 minutes before deciding to divert the flight because of low clouds and malfunctioning radio beacons at the airport.

Trade deficit down as Americans ‘buy American’
Associated Press
WASHINGTON—The U.S. merchandise trade deficit showed the biggest improvement in almost six years in July, a dramatic 36 percent narrowing that reflected a big decline in Americans’ appetite for foreign goods, the government reported Wednesday.

The Commerce Department said the deficit was $9.53 billion in July, down $3.6 billion from a June deficit of $13.13 billion.

The Reagan administration lost no time hailing the huge decline as proof that the country is winning the battle to make American products competitive once again on overseas markets.

SMC students encouraged to use security escort service

By MIMI TUOHY
Assistant Saint Mary’s Editor

Campus security, voting registration and freshman elections were the main issues discussed by the Saint Mary’s Board of Governance Wednesday night in Haggar College Center.

Richard Chlebek, director of security, attended the meeting and answered questions from board members regarding current student issues. Chlebek encouraged students to use the escort service offered by the security department. The service, which began last year, allows any student who is off campus and feels that she is in danger to notify security for a ride home.

"If a student calls for help getting back to campus, we will always cooperate," Chlebek said. "This is a very positive program, and the students really should take advantage of it."

Chlebek also warned that "cars of chronic traffic violators will soon be impounded by campus security in order to enforce campus policies on parking and ticketing."

"In addition, students who have not registered their cars will be automatically registered soon," he said. "A decal will be placed on the outside of the car window, and the student will be charged $100 for neglecting to register earlier."

Vice-President for Student Affairs Lisa Hill acknowledged the importance of Chlebek’s attendance. "He officially announced some important questions that needed to be asked," she said. "Hopefully, relations were improved between security and student government tonight."

In other business, Hill announced that next week student government is sponsoring an opportunity for students to register for the 1988 presidential election.

Anyone interested in helping at the registration should attend a meeting this Sunday at 9 p.m. in Regina North lounge, she said.

Elections Commissioner Michelle Agostino said that freshman elections are currently scheduled for Sept. 20.
Shuttle launch date delayed because of Gilbert

Associated Press

CAPE CANAVERAL, Fla. - NASA said Wednesday it was delaying setting a launch date for the first post-Challenger space shuttle flight because of the possibility that Hurricane Gilbert could disrupt operations at the flight control center in Houston.

Also cited was uncertainty about a small hydrogen leak detected in the shuttle's main engine propulsion system, a problem not considered serious. Rear Adm. Richard Truly, NASA's associate administrator for space flight, said the plan is still to launch in the last week in September, but a firm date would not be set before Friday.

The hurricane, which is churning in the Gulf of Mexico with winds up to 160 mph, is on a course that could possibly take it to the Texas coast near Houston. NASA's Johnson Space Center is located south of Houston, 30 miles inland from the gulf.

"We don't know where the hurricane is going, but we thought it best to wait a day or so, or whatever it takes to make a decision," Truly said.

"Even though Houston doesn't get hit, it is a threat to Houston, and we have people there who have to turn attention to their homes and families, just as other people along the Texas coast are doing," Truly said.

Once a shuttle is launched, the mission is controlled from the Johnson center. Earlier storms that have hit that area have caused some flooding there, disrupting communications.

The decision to delay was made after more than 150 shuttle managers and engineers and outside experts spent two days reviewing the shuttle's systems and the readiness of each and flight control teams.

Truly said he polled the 15 key NASA and contractor managers at the conclusion of the review, "and there wasn't a dissenting vote to launch. ... We're in a very positive situation."

"If the subject doesn't resist, the dogs are trained to clamp down on them," Kilgore said. "If the subject resists, the dogs may release their hold and bite them again."

A police officer was pulling the dog off Abood when Fink kicked the dog in the ribs. Both men, who graduated from the University in 1985, were then charged and taken into police custody, Kilgore said.

Abood was charged with resisting arrest and disorderly conduct, while Fink was charged with battery for assaulting a police dog, said Kilgore.

Police transported Aboud to the Memorial Hospital's emergency room, where he received treatment for bites on his head and back. He and Fink were then taken to the county jail, where they were released on a $500 bond, said Kilgore.

Both men are scheduled to appear in court on Oct. 3, said Kilgore.

Eyewitnesses said at least seven or eight police cars and a canine unit arrived at the scene to break up the party. The large group dispersed when police entered the premises.

The Mexican National Weather Service reported winds gusting as high as 218 mph Wednesday with sustained winds of 179 mph.

About 35,000 people were evacuated from hotels along Cancun's beaches into the center of the old city, about six miles away, said Mexican army spokesman Hector Aguilar in Mexico City.

Military and civilian teams evacuated an additional 16,000 people from coastal areas on the upper Yucatan coast between Puerto Progreso to Rio Lagartos, said Jose Perea, a spokesman for the Yucatan governor's office.

In Mexico City, the National Civil Defense System said it lost telephone contact with Cancun and other areas about 8 a.m. EDT as Gilbert began swirling ashore. Amateur radio operators in the capital also said they lost touch with most operators on the Caribbean coast Wednesday morning.

Schools, military installations, churches and public buildings in Cancun were being used as shelters.

Protestants began
Belfast violence

Dear Editor:

While Mr. Tom Varnum, in his Viewpoint
article of Sept. 13, "Belfast: a flicker of
hope," maintained an admira-
tion for the acts of patronage
of the British army in Northern
Ireland, I believe that his failure
to mention certain historical facts
led to an inadequate conclusion.

Varnum fails to mention the pres-
ence of the British army in Northern
Ireland was initiated in response
to acts of terrorism by Protestant
dominated paramilitary security
groups in the turbulent late 1960s.

It is the final decision of the IRA to
acknowledge certain historical facts
in order to end the sectarian policy
and a non-discriminatory
population. These hopes included such
assemblage of order in the statelet. In-
expediently bought through bloodshed.

This notion should be considered anat-
omy, particularly to Christians.

The Morrissey article is not an isolated
example, but rather a part of an
nation that the government has
bought for the governing of
the army then became the obvious hard
fraternity in every aspect of its defini-

I am writing in regards to the letter
by Liam M. Bruen, protesting the Ac-
cept article featuring Morrissey as the
first to be actually mentioned in the
word fraternity in the article, en-
titled "Like a fraternity, only better."

All nations are extremely sensitive about
capitalizing to terrorism. In this
instance, it is clear that a more respon-
sible attitude from the leaders of
Northern Ireland could have prevented
the poem from a situation in which some
level of capitulation is inevitable. If
the 1998 government of
Northern Ireland wanted to be thought
of as acting just toward their citizens,
they should have been acting so before
it became a necessary condition for
the cessation of violence.

Residents take pride in Walsh's uniqueness

**MARIA JUKIC**

**W**alsh Hall was established on a tradition of pride and spirit, and it continues to manifest those qualities today.

Reverend Thomas E. Walsh, after whom Walsh Hall was named, was the president of Notre Dame from 1881-1893. His accomplishments are worthy of the honor bestowed upon him. Walsh assumed the presidency at the remarkably young age of 26. He served the University until his untimely death in 1893 at the age of forty.

Under the leadership of Walsh, Notre Dame made its first appearances in national collegiate athletics. Many buildings were also erected, including St. Edward's Hall, Washington Hall, the science hall, the chemistry hall, and additions to the administration building.

Walsh Hall was erected in Walsh's honor in 1908. The construction of the hall was a unique approach. The building was the first Notre Dame dorm to have sinks in individual rooms and the only hall to have built-in closets. The hall was considered one of the most modern and elaborate college dormitories of its time.

Walsh Hall presently houses just under 200 women but was originally built to hold 190 freshmen men. During World War II, it housed men in the Naval Reserve Officer Training Corps as well as other midshipmen. Walsh Hall was also one of the first residence halls along with Badin, to become an all-female dormitory for undergraduate women in 1972.

One of the most requested halls on campus, Walsh is known for its beautiful exterior and comfortable rooms. The residents of Walsh take special pride in their hall. Said sophomore Eileen Collins, "Walsh is unique because it is not too big, each room is different, and it is close to a lot of historic places on campus."

Walsh also boasts several intramural sports teams including football, softball, and basketball. Although not an athletic powerhouse, involvement is great, and the hall spirit is unbreakable.

Co-presidents Mary Mulvany and Leslie McCluskey are planning many activities for this year. A blood drive is being planned, as well as various social events and activities to increase social awareness.

Besides all the tangible characteristics of Walsh Hall, one of its best qualities is the sense of friendship and camaraderie among the residents. According to Mulvany, "This is the best dorm on campus, not just because of its great location but because of the great sense of community."

Young talent in ‘Young Guns’

**CHRIS HASBROOK**

If you have been out to the movies lately, you’ll know that there are some good shows playing along with the ever-present psychotic-teenage-killer flicks. One of the better movies currently showing is ‘Young Guns,’ a drama set in New Mexico around 1870.

Emilio Estevez (of ‘Beverly Hills Cop’ fame) turns in an excellent performance as William H. Bonney, who is better known to you history fans as “Billy the Kid.” Estevez plays the young Bonney who is taken in by a kind, old Englishman and given a job as a cowhand. He falls in with the other five “Regulators” (as the cowhands are known) who are played by such notables as Kiefer Sutherland, Lou Diamond Phillips, Charlie Sheen, and two other little known actors, Dermot Mulroney and Casey Siemaszko.

Now if you are thinking that this is going to be another “Breakfast Club,” hold on to your Rambo belt because this film is loaded with action! The plot soon gets thicker than South Bend’s ethanol stench when the Regulators lose their English employer to a hail of gunfire from L. G. Murphy and his bad men.

It seems Murphy wants to hold the sole rights to the cattle business in New Mexico and does so by bribing every sheriff and lawmaker including the governor, only to find out that the six Regulars have been deputized by the only law-abiding justice around the six set out to apprehend Murphy’s men, but soon become Justice, Jury and Hangmen when they wipe out a good portion of the bad guys. Of course, in America this is a no-no, and before they can figure out what to do next, most of the Old West is looking for them.

The only weak point in the whole movie was the music. It seems someone switched the music of “Top Gun” with the score of “Young Guns” because I got the feeling that I was about to see Kenny Loggin’s singing “Danger Zone” in an F-14 while strafing the New Mexican Plains. Rock and roll is great, but not in an Old Western, and certainly not if it sounds like anything Loggins ever wrote. Beyond the music, this was a most worthwhile flick to see, especially if you don’t have the option of watching it on cable TV next spring.

**Calvin and Hobbes**

**Bill Watterson**

Irish volleyball heads for Colorado tournament

By GREG SCHECKENBACH

The Irish women's volleyball team will play in the Holiday Inn University Park Classic tournament Friday and Saturday night at Colorado State University in Ft. Collins, Colorado. The tournament participants are Colorado State, Cal-Poly San Luis Obispo, and Houston.

They recorded victories against Iowa, Southern Illinois, and tourney champion Arizona. The only drawback was an early match upset loss to Bowling Green. The team's overall record is 4-2, which is very respectable considering their schedule thus far.

The Irish are facing stiff competition in this early season tournament. They will face highly-ranked Colorado State on Friday night. Colorado State is coming off its best season ever with a 27-6 record and a sixth place finish in the National Polls. It was also their fifth straight appearance in the National Tournament.

The Rams, who are 5-2 and ranked 13th nationally, are led by All American setter Cindy Cox-Bellin, and outside hitters Jo Haas and Jill Johnson. Haas, who is 6-3, will be formidable challenge for the Irish hitters at the net. Because of her great agility, they will probably have to change their style of play. "Colorado State is definitely the favorite to win the tournament just because of the home court advantage," says Lambert.

Colorado State broke the NCAA attendance record last year by filling the stands with an average of 2,200 fans. This should not affect the Irish Friday night since they played for up to 10,000 people in China in August.

Cal-Poly San Luis Obispo is currently undefeated with eight wins and are ranked 15th in the AVCA National Poll. They return three starters from a team that finished with a record of 19-12.

"Cal-Poly is a perennial top-twenty team and I expect them to be just as tough this year," stated Lambert.

Houston has tradition on their side. They return only two starters from a team that went 23-14 last season. Notre Dame has yet to beat Houston in two previous matches. Lambert expects Houston to be tough competition for the Irish.

They have a great program in Houston and we will be tested," says Lambert.

This is the first tournament in Notre Dame history that involved teams of such caliber. With a couple of wins, the Irish could possibly make their first appearance in the top-twenty. Currently, they have received votes in the national poll, but have yet to crack the top twenty.

SPORTS BRIEFS

The ND crew team will hold a meeting today for the men's and women's varsity teams. The meeting will be at 7:30 p.m. at 117 O'Shaig. -The Observer

Stepan Courts will be reserved from 4:15 to 6:15 p.m. Tuesday, Wednesday and Thursday afternoons running through Wednesday, Sept. 28. The 5-10 and Under Basketball tourney will be held during these times and have priorities on the courts. -The Observer

Jazzercise has come to Notre Dame.Non-Varsity Athletics is offering a soccer, contact NVA at 239-6100 for more information. -The Observer

The ND-SMC Gymnastics Club wants those interested in joining the club to pick up insurance forms as soon as possible from Steve Harvey (Flanner 1022, x1204) or Janene Niedzwiecki (358 Holy Cross, 264-4387). Practice will begin on Sept. 19 at 4 p.m. at Angela Athletic Facility. -The Observer

Irish Outdoors is sponsoring a canoe trip to the Pine River in Michigan. The group will depart Friday afternoon and will return the following day. Deadline for registration is Wednesday, Sept. 14. For questions or registration, call Shawn Foley at 271-0758. -The Observer

The ND Sailing Club will begin lessons this week. Lessons will be offered Mondays, Tuesdays and Wednesdays this fall at 3:30 p.m. at the boathouse. Dues must be paid at or before your first lesson. For more information, call Mike Norman at x5520. -The Observer

The ND basketball teams will be holding their annual softball games on Sunday at 2 p.m. The doubleheader (including both the men's and women's programs) will be played at Moreau Field. -The Observer

SMC volleyball drops home opener

BY KRISTINE GREGORY
Sports Writer

The Saint Mary's volleyball team opened its home schedule Tuesday with a tough loss to Hope College. The Belles managed to win only one game with scores of 14-16, 15-10, 6-15 and 13-15.

Saint Mary's came out looking strong and jumped to a 13-8 lead in the first game, but Hope fought back. Through a tremendous effort, they edged the Belles, 14-16.

Saint Mary's bolted to a 5-0 lead in the second game. Teamwork and concentration led the Belles to a solid 15-10 win.

The first few points of the third game were intense and close, but Hope College proved to be too much for the Belles as they ran away with the win 15-6.

With one more chance to stay in the match, the Belles held their own as Hope and SMC exchanged the lead six times. Despite the strong Belle effort, Hope prevailed and took the game and the match 15-12.

"A lack of intensity and concentration were our downfall," commented sophomore Melissa Phillips, "We just weren't together as a team."

Saint Mary's will have a chance to pull themselves together Friday as they travel to St. Xavier.

Tony Rice (9) heads upfield as Anthony Johnson (22) trails last Saturday against Michigan. Head Coach Lou Holtz spreads the blame around for Rice's poor passing statistics in the 11-17 Irish loss. Greg Guffey has details in Football Notebook below.

The Observer / Mike Moran

By FRANK PASTOR
Sports Writer

The Notre Dame men's soccer team travels to East Lansing, Mich., Friday to take on Michigan State. The Irish return home Sunday to face Midwestern Collegiate Conference rival Dayton.

Notre Dame (4-0-1) is coming off a tough week of practices. Head Coach Dennis Grace thought necessary following last Sunday's lackluster performance in a 4-2 win against Xavier.

"It's really not fair to put the guys in a situation where every game is absolutely crucial," said Grace, who held an uncustomary Monday practice after Sunday's Xavier win, "but that is the situation we're in. The team understands that if we don't win in our region, we won't get the respect we haven't gotten - the respect that we deserve. I feel very positive in it. We've had a good week of practices."

One member of the Irish who will have to continue to play the key role that he has thus far this season is reserve midfielder Tom Connaghan.

The 6-4, 165-pound sophomore from Palos Verdes, Calif. has tallied two goals and one assist in the first five matches. His five points tied him for third on the team in scoring.

Connaghan attributes his early season success, which includes the game-winning goal against Maine, to the support of his teammates. The upperclassmen, in particular, have eased his transition into the Irish lineup.

"A big part of my success has been the juniors and seniors helping me and showing confidence in me," explained Connaghan.

"That has been a key factor in my development.

How does Connaghan get into the flow of the game? "He is called upon by Coach Grace," said Guffey. "I usually pick up the number of (opposing players) to see who they're playing and mark up right away," said Guffey. "I'm not really offensively and then when I get a feel for the game, I'll get into the action offensively."

Michigan State, 2-1 going into Saturday's game will be played on artificial turf, a switch from the natural grass of Notre Dame Stadium. The Irish have practiced on the turf all week in preparation for the change.

"I'd rather play on grass because it's softer, but it doesn't make any big difference," Irish co-captain Andy Heck said. "We just have to come out and play our game."

Saturday's game will be played on artificial turf, the game-winner. In that drive, Rice hit Tony Brooks for 18 yards and one interception.

Connaghan is usually the first or second player off the bench for the Irish. Due to the inordinate amount of injuries the team has battled this season, his versatility might just be his most valuable asset.

"Coach Grace uses me in more than one position," said Connaghan. "I can substitute for any of our four halfbacks, or go in for a forward if he gets tired. I have five or six different roles."

Connaghan attributes his early season success, which includes the game-winning goal against Maine, to the support of his teammates. The upperclassmen, in particular, have eased his transition into the Irish lineup.

IU guard Jay Edwards enters drug program

Associated Press

BLOOMINGTON, Ind. -- Jay Edwards, Indiana's leading scorer in Big Ten games last season and the conference's freshman of the year, has withdrawn from the university to enter a chemical dependency program, basketball coach Bob Knight announced Wednesday.

"Edwards' involvement came to light in the (IU) testing program," Knight said of the 6-foot-4 sophomore.

Neither the substance involved nor the location of the dependency program were identified.

"We wanted to get him help now and not see him dead in a year or two," Edwards' mother Rosemary told the Marian Chronicle Tribune on Wednesday.

She confirmed that her son had experimented with drugs. Edwards, who led Indiana in scoring in the three straight Indiana tournament championships and was co-Mr. Basketball with teammate Lyndon Jones in 1987, led the Hoosiers with a 13.2-point average in Big Ten games last season.

He was suspended earlier in the year because of grades.

"Since he has been here, he's been involved in a variety of problems, all of which I feel are related to this," Knight said. "Our concern obviously now is seeing what can be done in his best interests."

Mrs. Edwards said it was her son's decision to enter the drug program.

Rice not only scapegoat for Irish passing woes

In Notre Dame's dramatic 19-17 victory over Michigan last Saturday night, the Irish offense did not score a touchdown in the air or on the ground.

One score came when Ricky Watters returned a Wolverine punt for a touchdown in the first quarter.

The remaining 12 points were on Reggie Ho field goals, the gamewinner from 25 yards with 1:13 to play in the game.

Particularly disturbing to Irish Coach Lou Holtz was the passing game. Quarterback Tony Rice did not connect on a pass in the first half and finished the game 3-12 for 40 yards and one interception.

Holtz was quick to point out that all the blame did not fall on Rice's shoulders.

"One area that was disappointing on offense, where we were not very productive, was the passing game," Holtz said during his weekly press conference. "During the course of the game, I thought a lot of it was Tony Rice's fault. That if it on film, the receivers did not run the right depth, did not run the right patterns, dropped the ball. The one interception was a good throw."

Rice did bounce back from a shaky first half to engineer important drives in the second stanza.

Late in the third quarter, Rice led the Irish to a field goal and a 16-14 lead. The big play was a 23-yard run in the final minute.

Rice did the same with 5:34 to play in the game. Starting at the Notre Dame 20, he marched the team 71 yards to b-tb Michigan nine where Ho kicked...the game-winner. In that drive, Rice hit Tony Brooks for 18 yard and ran for 21 with a good block from Brooks.

"He performed well in the second half," Holtz said. "We only had the ball four times and we drove the length of the field two times for field goals. His leadership and the way he handled the team were excellent."

Last year, Brown returned punts of 66 and 71 yards for touchdowns in Notre Dame's 31-8 victory over the Spartans. Ricky Perles burned through a touchdown in last week's season opener against Michigan.

Spartan coach George Perles remembers last year's returns vividly.

"There are many times in your career when a guy returns two punts for touchdowns," Perles said. "They have another guy back there in Ricky Watters that can carry the mail. The Irish are in a must-win situation vs. M

Greg Guffey

Football Notebook

The Irish will go to the air much more often this week in East Lansing. The Spartans boasted the No. 1 defense against the rush last year and had the second best defensive overall. They return eight defensive starters.

"We know we're going to have to throw the ball against Michigan State," Holtz said. "Last year, Tim Brown made four unbelievable catches at critical times. One problem we had last week was that we don't have a big-play individual as far as someone that's going to make something happen, make the great catch, force double coverage, catch a pass and break a tackle."

Saturday's game will be played on artificial turf, the game-winner. In that drive, Rice hit Tony Brooks for 18 yards and ran for 21 with a good block from Brooks.

"He performed well in the second half," Holtz said. "We only had the ball four times and we drove the length of the field two times for field goals. His leadership and the way he handled the team were excellent."
