Discovery lifts off as U.S. returns to space

Associated Press

CAPE CANAVERAL, Fla.-Space Shuttle Discovery carried the American flag back into space Thursday after a 32-month absence, its five astronauts stepping meticulously redesigned after the Challenger disaster.

"Everyone certainly stood tall today," said Kennedy Space Center Director Forrest McCartney as Discovery settled into orbit, 184 miles above earth. Mission Control said the ship was "performing nominally."

Six hours after liftoff the crew accomplished the main mission of its flight, release of a satellite that will give NASA nearly constant communication with future shuttle missions.

It was the first launch since the Challenger explosion with its toll of seven lives on a cold winter day shocked the nation and stopped the manned space program in its tracks.

"We sure appreciate your all getting us up in orbit the way we should be," Discovery's commander, Navy Capt. Frederick Hauck, told Mission Control. "We're looking forward to the next four days -we have a lot to do and we're going to have a lot of fun doing it."

Liftoff was the first and most important milestone, but more was at stake than simply getting into space. The 2-year grounding of the shuttle fleet set into motion a satellite that will give NASA nearly constant communication with future shuttle missions.

"From everything I see, everything looks great." Hauck's veteran flight crew consisted of Air Force Col. Richard Covey, Marine Lt. Col. David Hilmers; John Lounge; and George "pinky" Nelson. Landing was scheduled for Monday at Edwards Air Force Base in California.

The astronauts had said all along they were treating the mission as a test mission - a "shakedown flight," in the words of Covey - and they quickly ran into first-flight problems. A water evaporator that provides cooling to the ship during the climb to space and return to Earth was partly clogged with

U.S. and allies agree to build space station by 1998

Associated Press

WASHINGTON -The United States and 11 allied countries signed an agreement Thursday to build a $30 billion permanently manned space station designed to serve as a stepping stone for human exploration of the solar system.

The facility, known as Space Station Freedom, will be designed, developed, operated and used by all of the partners, which include nine European allies, Japan and Canada, in addition to the United States.

The United States is providing $16 billion to the program and the other partners are contributing more than $7 billion. The agreement was formalized as a State Department signing ceremony at which Secretary of State George Shultz presided.

Richard Smith, a State Department scientist, told reporters the project is "clearly the world's largest ever international venture and certainly one of the most complex."

Twenty-two shuttle flights over a period of three years will be required to place in Earth's orbit all the hardware for the station. Construction will be completed in the first quarter of 1998 although the facility will be permanently inhabited from late 1996 on, according to current plans.

The giant Tracking and Data Relay Satellite is a $100-million twin of the craft that was destroyed aboard Challenger.

In Washington, President Reagan praised the launch, saying the shuttle was "headed into orbit and America is back in space." He saluted the bravery of the crew and added, "We ask God to bless this important voyage."

Launch, at 11:37 a.m. EDT, came only after NASA waived weather guidelines to allow for flight through some lighter-than-usual Florida winds. The 96-minute delay simply heightened the tension as NASA unveiled a spaceship that underwent more than 400 modifications since the Challenger flight.

Just how well the Discovery's booster rockets performed in their new design awaited detailed analysis. Bit J.R. Thompson, who directed the work from the Marshall Space Flight Center in Alabama said, "From everything I see, everything looks great!"

Weekend Edition, September 30-October 2, 1988

Irish Extra
Notre Dame vs. Stanford

STANFORD WEEKEND EVENTS

Friday
3:30 p.m.: Band practice. Step off from Washington Hall.
4:45-5:30 p.m.: Open Glee Club rehearsal in Cowley Hall.
6:45 p.m.: Band step off from Washington Hall for Pep Rally.
7 p.m.: Pep Rally at Stepan Center.

Saturday
9 a.m.: A closed meeting of the Alcoholics Anonymous fellowship at the Center for Social Concerns.
10 a.m.: Band rehearsal. Step off Washington Hall to Cartier Field.
Noon-4 p.m.: Notre Dame and Saint Mary's alumni, family and friends are cordially invited to the Alumni Hospitality Center for films and information in the North Dome of the JACC.
3:30 p.m.: Band concert on the steps of the Administration Building.
4 p.m.: Glee Club performance in the JACC North Dome.
4:45 p.m.: Performance by Shenanigans in the JACC North Dome.
5:40 p.m.: Pre-game program in the Football Stadium.
6 p.m.: Football: Notre Dame Fighting Irish vs. Stanford Cardinal.
After the game: Alumni Hospitality Center in the JACC North Dome.

The space shuttle Discovery all ready to go at the Kennedy Space Center Wednesday after the service tower was rolled back.
IN BRIEF

I Can't Believe It's Yogurt is sponsoring a contest for students interested in new business ventures. The frozen yogurt chain will award $10,000 and personal consultation to the winner, with the best ideas for a new business. Entry information is available at the South Bend store. -The Observer

Notre Dame's world record in musical chairs may not stand past this weekend. The State University of New York at Albany is planning to break the record, said Tim Adams, a WYFI-AM disc jockey. Adams said an Albany radio station, WPYY-FM 106, called him last night to tell him about the attempt this weekend. The radio station said it would have more than 6,000 people in its musical chairs game. Notre Dame established the world record of 5,151 in 1985.-The Observer

INSIDE COLUMN

ND/SMC relations need improved atmosphere

It's time for another home game, the third of seven socially acceptable weekends for Notre Dame and Saint Mary's students.

How many times have we heard this? Probably more times than I care to remember over the past four years.

Students complaining about the social life, or lack thereof, is nothing new. Seniors and freshmen alike blame the social problem on University policy.

To the Notre Dame administration's credit, it has attempted to improve the social atmosphere on campus by increasing the percentage of women admitted to this year's freshman class. It has worked.

But, as the number of Notre Dame women increase, the discontent between some Notre Dame and Saint Mary's students seems to increase simultaneously. At times, this bitter relationship adds to an already limited social atmosphere.

The often-strained relationship between Notre Dame and Saint Mary's results from a variety of factors that have been hashed over time and time again in this column space. What needs to be brought out are some of the inequities in policy between the two schools.

One of the great arguments students hear when they are applying to either school is that the college life is improved by the other school. One will say "but Saint Mary's is just across the way," while another says "and the guys are just across the street." Granted the strengths and weaknesses of each school can work to the other's advantage in any environment.

That's what you hear before you arrive.

Then, when you get here, things change. Saint Mary's freshmen are forced to pay an extra $25 in order to get season tickets for Notre Dame football. As that's not bad enough in itself, Saint Mary's students blame Saint Mary's students, though the ticket office was at fault. The ticket office's mistake is surpassed only by those who blame Saint Mary's students for the ticket crisis.

A community, as Notre Dame and Saint Mary's are so often described, also should not discriminate among its facilities. Can anyone reasonably explain why Saint Mary's students pay an extra $5 to use the Eck Tennis Pavilion? The same goes for Rolfs Aquatic Center that, when it's open, does not allow Saint Mary's students' access to its facilities. Meanwhile, Notre Dame students have the right to use An­ gela Athletic facility.

So when it comes down to the dollars and cents of it, which is a good way to judge here, our community is divided. And these differences in the way Saint Mary's students are treated on Notre Dame's campus add to the separation of what should be "the Notre Dame and Saint Mary's community."

The fact of the matter is, as this writer sees it, that neither Notre Dame or Saint Mary's students should want to survive without the other in a social environment. Our social alterna­ tives are so limited that no one should restrict the atmosphere by some sort of prejudice because "they don't go to my school." The more, the merrier.

This problem can be solved. Not everyone emphasizes the differences between the schools. But when the rules discriminate against Saint Mary's students, it's eventually reflected in the feelings of one school's students versus another's. So the students share the blame.

As the social options become more limited, we should worry less about who goes to what school and more about how we can improve a lacking situation where all need to get involved.
Navistar’s Roberts stresses importance of education for achievement in business

BY ASHOK RODRIGUES

As part of the University’s Year of Cultural Diversity, Navistar International Corp. Vice President Roy Roberts spoke Thursday on the subject of minorities in the business world. Roberts stressed the importance of achievement in business.

Roberts noted that this nation’s black businessmen today, “can not ignore the blending of minorities” into American business. This is vitally important because the number of minorities who are consumers and workers is increasing dramatically, he observed.

Roberts also stressed the need for role models for minority success. He advocated an increase in the hiring of minority professors at Notre Dame and other universities throughout the nation as a means to accomplish such a goal.

Roberts speech was just one example of the benefits of this technology include the transmission of electricity through lines without any loss of power on the way. Computers will be able to work faster, and electromagnets will be stronger, which means that they are brittle. The challenge is processing these materials to optimize their properties,” McGinn said.

Research at the center has been under way since it opened in January 1988. Presently research includes processing thick film for microelectronic applications and the processing of bulk solids.

People from the department of material science and engineering and from the physics department are involved with superconductors under way, and the center combines them,” said Bearby, a 1988 graduate of Notre Dame temporarily working at the CST. Both universities are investigating complimentary topics so that advances can be made without duplicating research.

Superconductors are compounds that lose all resistance below a certain temperature. “The goal is to make the compounds have resistance at room temperature,” stated Paul McGinn, assistant professor of materials science and engineering at Notre Dame. “This will make the applications of superconductors more practical.”

A few examples of the benefits of this technology include the transmission of electricity through lines without any loss of power on the way. Computers will be able to work faster, and electromagnets will be stronger, which means that they are brittle. The challenge is processing these materials to optimize their properties,” McGinn said.

“Materials of the superconductors are ceramic, which means that they are brittle. The challenge is processing these materials to optimize their properties,” McGinn said.

Research at the center has been under way since it opened in January 1988. Presently research includes processing thick film for microelectronic applications and the processing of bulk solids.

People from the department of material science and engineering and from the physics department are involved with superconductors under way, and the center combines them,” said Bearby, a 1988 graduate of Notre Dame temporarily working at the CST. Both universities are investigating complimentary topics so that advances can be made without duplicating research.

Superconductors are compounds that lose all resistance below a certain temperature. “The goal is to make the compounds have resistance at room temperature,” stated Paul McGinn, assistant professor of materials science and engineering at Notre Dame. “This will make the applications of superconductors more practical.”

A few examples of the benefits of this technology include the transmission of electricity through lines without any loss of power on the way. Computers will be able to work faster, and electromagnets will be stronger, which means that they are brittle. The challenge is processing these materials to optimize their properties," McGinn said.

Research at the center has been under way since it opened in January 1988. Presently research includes processing thick film for microelectronic applications and the processing of bulk solids.

People from the department of material science and engineering and from the physics department are involved with the center. In the past, the Notre Dame physics department has played an important role in research concerning conventional, low temperature superconductors.

“We hope to play an important role in high temperature research as well,” commented McGinn. “The center’s primary goal is to provide a window for Indiana’s industry to get involved with superconductors. Research is aimed at expanding applications of superconductors for the industries in the state to market and sell.”

Another goal of the center is to educate students for the Year of Cultural Diversity.

**Nobel Peace Prize goes to U.N. peacekeeping troops**

Associated Press

OSLO, Norway-Soldiers on the front lines of the United Nations' 40-year quest for peace won the 1988 Nobel Peace Prize on Thursday for steadfast duty in the cross fire of the world's conflicts.

The Nobel Committee said the U.N. peacekeeping troops built greater faith in the United Nations, which "has come to play a more central part in world affairs."

The award could bolster new U.N. peacemaking efforts to oversee shaky truce agreements in the Persian Gulf and Afghanistan.

In Jerusalem, peacekeepers broke open bottles of champagne to celebrate the prestigious award as the word was passed by radio from outpost to outpost. Five of the seven peacekeeping forces are in the Middle East.

"We are here to keep the peace, but winning the Nobel prize makes you feel good," said Canadian trooper Tony Mayfield, 22, who guards a crossing point between Greek and Turkish sectors of Nicosia, the capital of Cyprus.

Nearly 10,000 peacekeepers from more than 30 countries serve under the U.N. flag. Peacekeepers most recently were dispatched to Iran and Iraq under a cease-fire negotiated in the countries' 8-year-long war.

"There is great joy," said Timor Goskiel, spokesman for the U.N. Interim Force in Lebanon. He spoke from UNIFIL headquarters in Naqoura, Lebanon.

The citation from the Nobel Committee, made up of five Norwegians, said the troops showed the world's determination to settle disputes peacefully. It said they "made a decisive contribution towards the initiation of actual peace negotiations."

Some peacekeepers carry light arms, but they can fire only in self-defense. The United Nations says 733 peacekeepers have lost their lives since 1948. Lt. Col. William Higgins, who headed the 76-member U.N. supervision group in south Lebanon, is among nine American hostages in Lebanon. Higgins, 43, was seized Feb. 17.

The prize was an indirect tribute to Secretary-General Javier Perez de Cuellar, who was not eligible because he was nominated after the Feb. 1 deadline.

Perez de Cuellar, speaking to applause at the U.N. General Assembly in New York, said the Nobel committee showed "that the quest for peace is a universal undertaking involving all the nations and peoples of the world."

The U.N. chief said he would accept the prize in Oslo on Dec. 10, the anniversary of benefactor Alfred Nobel's death in 1896. It carries a cash award of 2.5 million Swedish kronor, worth $390,000 dollars today. U.N. officials did not say how the money would be used.

consortium. On October 13, a
meeting at Notre Dame with
Argonne National Laboratory
and industrial representatives
from the northern third of the
state will introduce people
from Indiana to the center and
try to link this center to a na­
tional center.

The initial funding for the
center is $507,459 by the CST.
The center hopes to split fund­
ing for years two through five by
receiving half of the money
from the CST and half from in­
dustrial and Federal agencies.

Work begins on
LeMans chapel

By KERRY SCANLON
News Staff

The LeMans chapel at Saint
Mary's has been closed since
September 19, due to necessary
repairs and renovations.

The problem stems from the
pewers on the building which are
presenting a leaking prob­
lem to the interior according to
Ralph Szalewski and Mark
Miklos, employees of Saint
Mary's College who are respon­
sible for the renovation.

Plaster inside the chapel is
loose and splitting and water
marks from the leak are visible
on the walls.

A new roof was put on the
chapel two or three years ago,
and is still in good condition,
said Szalewski.

To correct this leaking prob­
lem, the gutters and downspouts
will be repaired. The entire
chapel is also sched­
uled to be replastered and
repainted in its familiar an­
tique white.

In order to place the scaffold­ing
in the chapel, most of the
pews will be moved—hopefully
within two weeks, said
Szalewski. Items that may
delay Szalewski and Miklos are
other repair jobs on campus
and the amount of cleaning af­
terwards.

"Repairing LeMans chapel is
an ongoing upkeep process.
Plaster was falling and suffici­
ent actions were taken to
promote health and safety," said
Elizabeth Smoyer, a mem­
ber of Campus Ministry at
Saint Mary's.

However, Smoyer said that
attendance for the LeMans
masses and the quality of par­
ticipation have improved
since LeMans chapel was
reopened.

Freshman LeMans resident
Susan Shullick said, "I really
missed going to mass at
LeMans last week, it was so
convenient for me and I loved
the feeling that I captured at
the (LeMans) chapel."

While the renovations are un­
der way, the LeMans 12:30 P.M.
daily liturgy and the Sunday
mass will be held at Regina
Chapel.

The Saint Mary's Chapel
Renovation Committee is ex­
ploring how all the mass spaces
and prayer environment.

Brazillian hijacking ends

Associated Press

RIO DE JANEIRO, Brazil—
Police shot and wounded an
armed hijacker as he tried
to board a getaway plane
with a hostage in central
Brazil Thursday, ending a
daylong ordeal that left one
dead and four in­
jured, officials said.

The rest of the passengers
and crew of VASP Flight 375
were released unharmed.

The co-pilot of the jet was
killed and three other crew
members injured, said aut­
torities. They described the
hijacker as mentally dis­
turbed.

Holding a .38-caliber
revolver and taking the jet's
pilot with him, the hijacker
descended from the Boeing
737 parked on the runway of
the Santa Genoveva airport in
Goiania, 80 miles north­
west of Rio de Janeiro.

A small Brazilian-made
Bandeirantes plane was to take
him and the pilot to Brasilia, the
capital, said air force spokesman Col.
Eduardo Veloso.

Quayle, Bentsen prepare for Wednesday VP debate

Associated Press

WASHINGTON — As Dan Quayle and Lloyd Bentsen turn their attention to debate briefing books, experts predict their showdown next week could be the most important ever between two men vying for the vice presidency.

The pressure is on both candidates next Wednesday in Omaha, largely because of the controversy surrounding Quayle’s National Guard stint at the height of the Vietnam War and his admission to law school.

“This debate could be decisive in the election. And never before could you say that about a vice presidential debate,” said Joel Swerdlow, who edited a volume on presidential debates and has written extensively on the subject.

“This is the first time in modern history that a vice presidential candidate may fail to pass the threshold of acceptability,” said Kathleen Jamieson of the University of Texas, an expert on presidential and the media.

Quayle spent Thursday in briefings here and planned aloud ahead to a weekend of tutelage from Roger Ailes, the Bush campaign’s media guru. Bentsen snatched time to study during a light campaign schedule before returning here late Friday for two days with top Democrat’s aides.

Although Mondale and Bush were considered victors in those contests, “Dole passed the threshold of acceptability and for most people so did Ferraro,” said Jamieson. Quayle, however, is a question mark to a large number of voters, she said.

“The stakes are very high for Quayle,” she said.

Both Jamieson and Swerdlow said Quayle’s performance is particularly important because his choice has been linked so closely to Bush’s judgement.

“He could cost Bush a close election,” Jamieson said. Much has been said and written about the low expectations for Quayle, and how that might be an advantage for him in the debate.

“If he can appear the equal of Lloyd Bentsen, he’ll score an overwhelming victory,” said Jamieson.

But low expectations can also hurt.

“People will be disposed to hear errors as errors,” unlike minor flubs forgiven in last Sunday’s debate between Bush and Michael Dukakis, Jamieson said. Debates tend to reinforce views of a candidate that people already have, and in Quayle’s case “a stumbling performance will not be forgiven,” she said.

Dan Quayle gives the Houston Cougar sign on the University of Houston campus Tuesday afternoon. He addressed student supporters during his stop.

FINALLY!
A Book That Makes the History of Our Times Intelligible!

BEHIND THE LODGE DOOR:
CHURCH, STATE AND FREEMASONRY IN AMERICA

by Paul A. Fisher
Former Bureau Chief for The Wanderer and Veteran Journalist of the Catholic Press

Behind The Lodge Door lifts the veil on the subterranean war waged against Church and State by the Masonic Fraternity for over 200 years — even influencing U.S. Supreme Court decisions. An amazing and well documented exposé of a mysterious international organization whose impact on history has been so studiously (and curiously) ignored by historians.

Fisher, a graduate of the University of Notre Dame, served with OSS in Washington, North Africa and Italy during World War II, and with Army Counter Intelligence in the U.S. and Korea. Prior to his journalistic career, which began in 1973, he was Legislative Assistant and Press Officer for the late Congrassman James J. Delaney (D., N.Y.).

“A brilliant exposé of the hidden power that Freemasonry has in the past and still is exerting so successfully to de-Christianize America. This is MUST reading...” (Fr. Vincent Miceli, Ph.D., Christnumus Collegium).

“Fisher knows how to do research and how to weigh facts, and those skills give his work a sense of balance and sobriety that make it persuasive as it is alarming...” (He) shows conclusively that [Justice Hugo L.] Black’s famous opinions are unhistorical, unconstitutional, and deliberately concocted out of Masonic dogmas...” (Michae1 Schwartz, The Wanderer).

READER REACTION:
’In the last 35 years I’ve read quite extensively about Masonry. Your Book is the best.’ IVB, California

’A wonderful book. I hope you sell a million.’ PEN, Florida

’Your book needs to be gotten out to as many Catholics as possible and to other Christian Americans willing to listen.’ EL, Florida

’I think that the Catholic Church should be grateful for your research.’ R.H., Indiana

Holy Cross Brothers
Faculty appointments announced

In the College of Engineering, Anthony Michel is the Matthew H. McCluskey dean. Other appointments include: Jerry Marley, associate dean; William Berry, acting chairman of the department of electrical and computer engineering; James Kohn, acting chairman of the department of chemical engineering, and Thomas Mueller, chairman of the department of aerospace and mechanical engineering.

Appointments in the College of Science include: Jeremiah Freeman, associate dean; Paul Helgaas, chairman of the chemistry department; Gerald Jones, chairman of the physics department; Andrew Sommese, chairman of the mathematics department; Alan Howard, associate chairman of mathematics; Marvin Miller, associate chairman of the chemistry department, and Barth Poliak, assistant chairman of the department of mathematics.

Law School appointments include: Fernand Dutile, associate dean for academic affairs; Roger Jacobs, associate dean for research and information services; Father William Lewers, director of the Center for Human Rights, and John Robinson, acting director of the Thomas J. White Center for Law and Government.

Appointments in University research centers include: Hafiz Atrash, co-director of the Center for Applied Mathematics; Sister Mary Ewens, associate director of the Cushwa Center for the Study of American Catholicism; Ronald Hellenkamp, acting director of the University of Notre Dame Environmental Research Center, and Robert Irvine, director of the Center for Bioengineering and Pollution Control.

Other appointments include: Dorine Blake, acting project director of the Division of Sponsored Programs in the Office of Advanced Studies; Patricia Livingston, associate director of the Center for Continuing Formation in Ministry; Sister Mary Aquin O'Neil, under-graduate coordinator of the Tantur Program, and Brian Pavlac, director of the Innsbruck Program.

In the president's office, Roland Smith, Jr. assumes the post of executive assistant to the president. Father Richard Warner is counselor to the president.

In the provost's office, Donald Spicer is assistant provost for University computing.

In the College of Arts and Letters, Nathan Hatch assumes the position of acting dean. Other appointments include: Karl Ameriks, acting chairman of the philosophy department; Thomas Kielman, acting chairman of the history department.

Nasmi Meara, chairman of the psychology department; Andrew Weigert, acting chairman of the sociology department, and Scott Maxwell, associate chairman of the psychology department.

Appointments in the Office of the Provost include: James Kohn, acting chairman of the department of chemistry; Robert Robinson, acting director of the Center for Bioengineering and Pollution Control; and Thomas J. White Center for Law and Government.

Roberts continued from page 3 of many presentations included in this Year of Cultural Diversity. While this speech concentrated on business, other parts of the program will deal with history, art, black studies, and philosophy. The University hopes to have several leaders in each field give presentations.

Assistant Accounting Professor Juan Rivera, who invited Roberts to speak, notes that "more and more companies are becoming aware that we are living in a very pluralistic society, and so there is always going to be the need for having good, qualified people that are minorities."

Notre Dame minority enrollment has been increasing over the past few years. According to Williams, this year's Junior class is eight percent minority. The Freshman class is 13 percent minority. Williams expects this figure to reach 15 percent by 1992.

Special to The Observer

New academic administrative appointments at Notre Dame have been announced by Provost Timothy O'Meara.

In the president's office, Roland Smith, Jr. assumes the post of executive assistant to the president. Father Richard Warner is counselor to the president.

In the provost's office, Donald Spicer is assistant provost for University computing.

In the College of Arts and Letters, Nathan Hatch assumes the position of acting dean. Other appointments include: Karl Ameriks, acting chairman of the philosophy department; Thomas Kielman, acting chairman of the history department.

Nasmi Meara, chairman of the psychology department; Andrew Weigert, acting chairman of the sociology department, and Scott Maxwell, associate chairman of the psychology department.

In the College of Engineering, Anthony Michel is the Matthew H. McCluskey dean. Other appointments include: Jerry Marley, associate dean; William Berry, acting chairman of the department of electrical and computer engineering; James Kohn, acting chairman of the department of chemical engineering, and Thomas Mueller, chairman of the department of aerospace and mechanical engineering.

Appointments in the College of Science include: Jeremiah Freeman, associate dean; Paul Helgaas, chairman of the chemistry department; Gerald Jones, chairman of the physics department; Andrew Sommese, chairman of the mathematics department; Alan Howard, associate chairman of mathematics; Marvin Miller, associate chairman of the chemistry department, and Barth Poliak, assistant chairman of the department of mathematics.

Law School appointments include: Fernand Dutile, associate dean for academic affairs; Roger Jacobs, associate dean for research and information services; Father William Lewers, director of the Center for Human Rights, and John Robinson, acting director of the Thomas J. White Center for Law and Government.

Appointments in University research centers include: Hafiz Atrash, co-director of the Center for Applied Mathematics; Sister Mary Ewens, associate director of the Cushwa Center for the Study of American Catholicism; Ronald Hellenkamp, acting director of the University of Notre Dame Environmental Research Center, and Robert Irvine, director of the Center for Bioengineering and Pollution Control.

Other appointments include: Dorine Blake, acting project director of the Division of Sponsored Programs in the Office of Advanced Studies; Patricia Livingston, associate director of the Center for Continuing Formation in Ministry; Sister Mary Aquin O'Neil, under-graduate coordinator of the Tantur Program, and Brian Pavlac, director of the Innsbruck Program.

Kremlin hierarchy faces shakeup at weekend meetings in Moscow

Associated Press

MOSCOW - The legislature and the Communist Party's policy-making body will shake up the Kremlin hierarchy in extraordinary meetings this week, a high-level source said Thursday.

The policy-setting Central Committee meets Friday and the Supreme Soviet on Saturday. The meetings brought officials rushing back to Moscow and sparked speculation that Soviet leader Mikhail Gorbachev and his opponents would face off over his ambitious economic and social reforms. Soviet sources said there was "no crisis" in the leadership, but the abrupt change in plans of several top Kremlin figures clearly indicated urgent or unexpected business.

Tass reported Foreign Minister Eduard Shevardnadze landed in Moscow Thursday afternoon after cutting short a U.N. visit. Defense Minister Dmitri Yazov ended a visit to India a day ahead of schedule.

The 1,500-member Supreme Soviet, the nation's parliament, usually convenes twice a year after meetings of the 300-member Central Committee. It last met May 14-16.

Soviet media reported Sun-
day that a regular session of the Supreme Soviet would begin Oct. 2, and the announcement Thursday of a special sitting at such short notice was highly unusual.

The Central Committee had been expected to meet by the end of October, but one Soviet source said plans for imple-
menting Gorbachev's political reforms were proceeding "faster than was expected."

The source, a member of the Central Committee staff, said the committee will approve changes in the party and the structure of government outlined at a party conference in June.

Women have right to control their lives

Dear Editor:

I am extremely angry with the many letters from "Right-to-Lifers" in the past weeks. Despite their claim that they take into account all sides of the issue, their letters are not putting the emphasis where it belongs—on the mother.

I want women to have complete control of their lives at all times. When an unwanted pregnancy occurs and the mother is denied the right to an abortion, she faces many hardships. For nine months the mother must change her lifestyle drastically; for several of those months she might have to take leave from work, possibly resulting in her dismissal. The pain of childbirth must also be considered as an undesirable experience. If the mother has other children and is in dire financial straits, then those other children will suffer as a result of time and money devoted to the newborn and hospital costs. Also, the loss of pay from the time taken off work to have the child may adversely affect the other children in the family along with the mother.

It sickens me when the predominantly upper- and middle-class students from Notre Dame and Saint Mary's join "Right-to-Life" because of the gross living letters on abortion. I wish these students would just empathize with the women carrying the unwanted fetuses and understand how the pregnancy infringes upon their freedom to be in control of their own lives. I believe that a fetus may have rights, but those rights end when they start to infringe upon the freedom of the mother to understand that the fetus might be a life, but it is completely dependent upon the mother. I feel it is a mother's right to rid herself of this dependent fetus in order to be in control of her own future.

The absence of adequate health and day care programs also make it more important that women be able to terminate their pregnancies. Instead of making a moral decision for her, I assume giving the woman the choice on how her life will develop.

Van Halen lottery system flops

Dear Editor:

T. Barone once said, "There's a sucker born every minute." Obviously Barnum was an optimist, and he never stood in line for tickets. In the past, we have attempted to purchase tickets for concerts, most recently for the upcoming Van Halen concert. In every instance a standard time was established to permit line formation. Each time, however, this "standard time" seems to have been broken. In order that we would not be duped again, we attempted to form a line before the "standard time." Our attempt was unsuccessful. To put it lightly, we were asked to leave. The words "Pack up your stuff, get out, and if you're still here in 10 minutes, I'll take your IDs and report you to Goldrick," seem to come to mind. That in itself didn't upset us too much. No, it did.

So we came back later well within the limits set by the nice, cooperative, police, caring officer at the ACC. What was to follow could only be compared to the time when students with tickets were turned away from President Reagan's speech in the ACC. We were still the first people in line, yet due to the miracle of lottery, our pick placed us well past the sellout number.

The lottery is supposed to promote a fair distribution of tickets among the student body. What is so fair about being allowed to arrive and not get the chance to purchase tickets? The last time we attended, first-come-first-serve seemed pretty fair. If you got there first, you got to buy your tickets. If you got there last, you didn't. This time, it all depended on how motivated you were to sleep outside in the cold, and how badly you wanted the tickets. All of you who slept out for football tickets surely understand. You wanted those 50 yard line tickets. And if you got there first, you got them.

Well students who wanted those front row tickets badly enough to sleep out for them didn't get them. Someone who may have just wanted to go to the concert and didn't really care where they sat wound up with them.

Unfortunately, some of the people who really wanted to go are going to have to pay an awful amount of money for tickets.

Perhaps we are overlooking the use of the lottery system. It seems we have to work on Monday for the Van Halen concert so why don't we use it more? In fact, why don't we use it for checkmark causes? It seems that if something is going to be fair, it must be fair all around. Fair for sports. Fair for concerts.

SMC students abuse parking privileges

Dear Editor:

St. Mary's parking policy... every one is talking about it, everyone is waiting for something to be done about it, and most of all, everyone's tired of hearing about it. Once and for all, we're addressing it, the complaints, the concerns, the questions, and the answers.

Last week Mr. Richard Chlebek, Saint Mary's Director of Security, attended our Board of Governors meeting, where an insightful and informative discussion took place. Yes, there were quite a few regulations regarding parking this year. Among the most popular are the elimination of 30 minute parking in front of the halls, time schedules for the issuance of tickets, and the increased fine for those tickets.

Contrary to popular belief each of these changes has a legitimate and valid reason for their creation. Many times the 30 minute parking law was put into effect to cause a little bit of a traffic jam especially in front of Holy Cross Hall, one of the two exits off-campus.

Due to the limited space of the LeMans parking lot, used for college employees during the day, cars are allowed to park in LeMans until 7 a.m. This is a change from last year when the time was 7:30 a.m. However, this change was expressly published in the Traffic Manual, given to all registered drivers.

A rise in parking fines has also occurred this year as a result of excessive tickets issued and subsequently, delinquent payments. Also, the bottom line with all of the hype about the parking policy is student abuse. It is not security's fault that some students choose to abuse the law and get away with it. However security is no longer taking the blame for all the parking violators.

Unfortunately, the entire student body must be punished for the abuse of the few. I think that it is important for us to take responsibility to drive our cars in a safe and responsible manner. As students we all have the privilege to use the campus parking facilities according to the law.

If you have any other comment about the parking policy, security, or a ticket, think again. Or better yet, think about the abuse causing the 5,700 tickets that were issued last year.

Ringers is eerie

AMY ECKERT  
accent writer

Dead Ringers," the latest from filmmaker David Cronenberg, is a fascinating relationship between identical twins. The twins, Beverly and Elliot Mantle, (both portrayed by Jeremy Irons) are gynecologists who operate a Toronto fertility clinic. Beverly is the shy introvert who devotes most of his time to his research and his books. Elliot, on the other hand, is the outgoing ladies' man. Despite this, the Drs. Mantle are not the one-dimensional characters that have been typical in previous twin movies.

The Mantles maintain a delicate and carefully balanced relationship until Claire Niveau (Genevieve Bujold), an actress with a drug habit and a strong desire to become a mother, enters their clinic and their lives. Niveau becomes involved first with Elliot and then with Beverly himself. Beverly's attachment to Niveau adds a new and stressful element to the brothers' lives. Beverly finds himself torn between fearing his closeness to Niveau and fearing the loss of his brother. He turns to drugs in an attempt to deal with the emotional strain of his inner conflict. His relationship with Niveau becomes shaky and he turns to Elliot for help, but only be succeeds in dragging him down into his self-destructive cycle. The brothers lose their practice, their identity, their sanity, and finally their lives. The film's pace is rather slow and it drags quite a bit in some places. In fact, it seems much longer than its actual length of two hours. The psychological aspects of the film, however, are both bizarre and gripping. The decline of the twins is at once repulsive and captivating and Irons is superb in his dual role as the calm, cool Elliot and the paranoid, tormented Beverly.

Although "Dead Ringers" lacks physical action, it presents an eerie vision of the fragile world of two twin brothers who share one soul.

Who are Oatmeal Man and the Nabisco children's story, was about cookies—everybody in it was a Kid. The whole story was "One story I wrote, a children's story, was about Oatmeal Man and the Nabisco Kid. The whole story was cooked—everybody in it was a cookie," Streeter explains. People liked that story.

But writing for kids, as well as drawing and designing, is not what you would expect of Streeter. "A lot of people I know wouldn't know that I can write, wouldn't know that I can design, wouldn't know that I like to do those things," he says. "I'm a bit of a jack of all trades."

Although his creative abilities have taken a back seat at Notre Dame because of the lack of free time, Streeter is a Marketing major, which he says is a way for him to use his creativity in the business world.

On the football field, though, Streeter is all business. In the three games this season, Streeter has been in on 15 tackles, and has intercepted two passes, both in the first half of Notre Dame's 52-7 drubbing of Purdue last week. The two interceptions tied both my season and career highs, at the time earned me the respect from the coaches of being able to play football.

The connection is Irish senior strong safety George Streeter. Although his creative abilities have taken a back seat at Notre Dame because of the lack of free time, Streeter is a Marketing major, which he says is a way for him to use his creativity in the business world.

In accordance with that theme, the LSJUMB's formations will include a giant eye to stand for the "Fighting Irish," a humpback whale for "the humpback of Notre Dame" and a "newt," or baby salamander, in honor of Knute Rockne. The band also hopes to form a fish in hopes of "winning one of the kippers.

The LSJUMB prefers doing something it calls the "scatter," in which the band changes formations by having everyone run around to the left or right, or forward or back, and sometimes mixing it up. Streeter has played in every Irish football game since he came to Notre Dame in 1985. Like all Notre Dame students, Streeter has his own formula for getting things done.

"From being a freshman to a senior, the only thing you change is emphasis. You have to know what you have to stay up late to study... you learn the cycle of the football season, do it, and we got it done."
By THERESA KELLY
Assistant Sports Editor

"You can not evaluate a football game on the basis of one week. I think that's always a problem; if everything goes your way then everyone thinks it's going to be that way each and every week. It's not."

So said Notre Dame head coach Lou Holtz after the Irish drubbed the Purdue Boilermakers 43-20. Holtz may even expect a letdown this week, as the Irish have a hard time winning game No.4. "We have not played very well in the fourth week of the season," Holtz said, "and that's something that always concerns you. We're going to have to see what happens.""We're going to have to see what happens.

Widely expected to repeat his Saturday's matchup against Head Coach Jack Elway's Stanford Cardinal (1-2), a team the Irish haven't played since 1994. Notre Dame and Stanford traditionally have sought some of the same players in the recruiting process. Holtz specifically mentioned Cardinal sophomore Walter Batson, a receiver from Miami. "I think they're an excellent football team," Holtz said of the Cardinal. "It's always difficult to evaluate somebody when you haven't played them, and we're going to have to see what happens.""It's always difficult to evaluate somebody when you haven't played them, and we're going to have to see what happens.

Leading the Stanford offense is junior fullback Jon Volpe, who leads the team in rushing (72 rushes for 324 yards and three TDs) and receiving (13 for 84). Junior quarterback Brian Johnson (56 completions in 89 attempts (.602), two TDs and three interceptions) has an extra receiver to work with. "Stanford is a well-conceived offense, one they execute very well," Holtz said, "and one that will give us a tremendous amount of problems."

"We're not going to let that extra receiver run around free like he has been," said Irish strong safety George Streeter. "We plan to have all of them covered."

Leading the Stanford offensive line will be All-America candidate Andy Sinclair, whom many call the finest center in the country. "Sinclair they think is an All-American," Holtz said. "I know that Coach Elway has made several comments that he's probably the best center in the country, so their offensive line is good."

Linebacker Mike Stonebreaker leads the Irish defense with 23 unassisted tackles, and 23 tackles, getting in on a total of 36. Sophomore Chris Zorich is second on the team with 23 total tackles. Stonebreaker and Streeter are tied for the team lead in interceptions with two. John Hopkins handles the kicking and most of the punting for the Cardinal, hitting 4 of 4 field goals with a punting average of 44 yards. His long punt is 59 yards.

Most of Holtz' concerns about the Cardinal stem from the Stanford performance against Southern Cal. "I knew from watching the film and from the type of personnel, the type of team Southern Cal has, to see how (Stanford) outplayed Southern Cal," Holtz said, "It wasn't a case where Stanford was lucky to make it close, it was a case when Southern Cal was unable to make some great throws and great catches under pressure in the ball game in order to pull that game out. Based on that, I know Stanford is good."

The Cardinal is averaging 234 total yards per game (122 rushing, 112 passing), while the Irish have given up an average of 344.7 yards per game. "They go with a run-and-shoot offense," Holtz said of Stanford. "They really don't have a tight end per se, they have two wide-outs, and then they have two flankers. They'll slot the flankers inside the split ends, and then they'll usually put one of them in motion."

The one running back in Stan­ford's scheme is junior fullback Jon Volpe, who leads the team in rushing (72 rushes for 324 yards and three TDs) and receiving (13 for 84). Junior quarterback Brian Johnson (56 completions in 89 attempts (.602), two TDs and three interceptions) has an extra receiver to work with. "Stanford is a well-conceived offense, one they execute very well," Holtz said, "and one that will give us a tremendous amount of problems."

"We're not going to let that extra receiver run around free like he has been," said Irish strong safety George Streeter. "We plan to have all of them covered."

Leading the Stanford offensive line will be All-America candidate Andy Sinclair, whom many call the finest center in the country. "Sinclair they think is an All-American," Holtz said. "I know that Coach Elway has made several comments that he's probably the best center in the country, so their offensive line is good."

Linebacker Mike Stonebreaker leads the Irish defense with 23 unassisted tackles, and 23 tackles, getting in on a total of 36. Sophomore Chris Zorich is second on the team with 23 total tackles. Based on that, I know Stanford is good."

The Irish Extra: The Game
Weekend Edition, September 30-October 2, 1988

Stanford senior nose guard Ray Hucklestein is considered by many to be one of the top defensive linemen in college football, and is in the hunt for All-America status this year.

Stanford's leading rusher is only 5-7, but has a knack for gaining the tough yardage and is tough to bring down. He averages 108 yards a game.

Jon Volpe (FB)

Stanford's leading rusher is only 5-7, but has a knack for gaining the tough yardage and is tough to bring down. He averages 108 yards a game.

Lester Archambeau (DT)

The senior All-America candidate has started 23 consecutive games at left tackle. He led the Cardinal with seven QB sacks in 1987.

Walter Batson (WR)

One of three true freshmen to play for Stanford last year. The 5-10 speedster caught 10 passes for 223 yards and two TDs--both on long bombs--in 1987.

Alan Grant (CB)

Grant was an Associated Press third-team All-American last year. The senior led the nation as a punt returner, averaging 16.52 yards per return.

The Observer / File Photo

Alan Grant is not only a top senior corner-back for the Cardinal, but also led the nation as a punt returner in 1987 by averaging 16.5 yards per return.

CARDINAL(S) TO WATCH

Jon Volpe (FB)

Stanford's leading rusher is only 5-7, but has a knack for gaining the tough yardage and is tough to bring down. He averages 108 yards a game.

Lester Archambeau (DT)

The senior All-America candidate has started 23 consecutive games at left tackle. He led the Cardinal with seven QB sacks in 1987.
Streeter continued from page 1

Streeter learned early how to deal with long days of school and football. As an athlete at Chicago Julian High School, he was on the move from 6 a.m. until 8 p.m.

"The school is on the far South Side," he said. "I lived further north, and I had to catch the bus every day. To get to my first class, I had to be out the house at six a.m. and I got home the same time I got home now, eight o'clock, with practice and all."

Four players who graduated with Streeter from Julian earned scholarships to play football. The tradition continued in the Streeter family and at Julian as Streeter's younger brother, Sean, is a linebacker at the University of Illinois.

"I think football gives me a personality that is not apparent on the football field in its involvement with the team's Fellowship of Christian Athletes organization. Streeter is the treasurer ("although we really don't have much money to worry about")."

"I'm a very religious person," Streeter says. "I think God is an important part of everyone's life, especially mine. The organization is headed by Coach (Jim) Strong, and I think the discussions are very helpful to a lot of players.

Streeter's first year at Notre Dame was the team's last year under Gerry Faust, and Streeter has noticed the changes the program has undergone under Lou Holtz.

"The attitude has changed since Coach Holtz has been here," Streeter says. "First year we found out we could win, the second year we found out that if we played well, we'd go to bowl games. Now we expect to win, and we'll be highly disappointed if we don't. It's all in the attitude.

"Our goal is to be playing for the national championship at the end of the year," Streeter says. "That's every team's goal, but for us, I think it's attainable."

Stanford quarterback Brian Johnson will have to watch out for Irish strong safety George Streeter and the Notre Dame defense. The Irish have picked off seven passes in three games this season, with Streeter and linebacker Mike Stonebreaker hauling in two apiece.

Streeter continued from page 1

Big Game, now called The Play, Cal was receiving a kickoff off while trailing 20-19. With members of the Stanford band, as well as some Stanford fans, on the field, Cal took the kickoff and made five laterals before a Cal player finally collided with a Stanford trombone player upon entering the endzone with the winning score.

"Black is quick to defend the band's role in The Play. "This had happened every year before, when Stanford was about to win, we came down from the stands toward the end of the game to play the post-game show." Black said. "They were excited, it was the last play of the game, and some band members were on the field along with other fans.

Sports Illustrated did a huge article and said Stanford would have lost if we'd been in another state entirely. And Stanford has none but itself to blame for the Tree, a mascot that takes its roots from the University seal. Stanford's athletic teams go by the singular "Cardinal" because they are named after the color, not the bird. For a mascot, it was either a tree or something looking like one of those huge cinnamon trees running up and down the field.

"On the Stanford seal, the tree's there." said Black. "Because it's hard to have a mascot that's a color, we decided to have a tree. It's our individual mascot, but there's no school mascot to rival it." Ditto with the Dallies, a jazz dance group that does routines for other teams and have majorettes twirl batons. They insist they are not cheerleaders but none of those either, despite an effort to establish such a group last year.

"There was an entirely separate organization in campus started by people who'd auditioned to be Dollies and didn't make the squad. They felt there was room for a different organization like that on campus. They didn't find much support, and to be honest, they weren't very good." And now perhaps the most radical collegiate marching band in the country is heading for the school built on tradition. Notre Dame Stadium may never be the same.

Roses for Irish in first championship
ND, Four Horsemen stop Stanford

By VIC LOMBARDI
Sports Writer

Layden, Crowley, Stuhldreher and Miller
In their final game together, the legendary "Four Horsemen" of Notre Dame were victorious. They galloped away with a 27-10 win over Stanford in the 1925 Tournament of Roses. Kneel Rockne's squad capped a perfect 10 season as the Irish won their first-ever national championship.

Time Capsule

One member of that fabled Notre Dame backfield, Elmer Layden, stole the show as he displayed his sensational versatility by contributing on both sides of the ball. Layden finished with three touchdowns, including two on interception returns. He also handled the punting responsibilities, booming kicks 46 yards.

The other Horsemen also contributed to the Rose Bowl victory. When running back Jim Crowley wasn't scampering for yardage, he was kicking field goals along with other fans.

I'm a very religious person," Streeter says. "I think God is an important part of everyone's life, especially mine. The organization is headed by Coach (Jim) Strong, and I think the discussions are very helpful to a lot of players.

Roses
continued from page 3
But the Indians struck back as halfback Ed Walker
connected with Ted Shipkey in the endzone to cut the Irish lead
to 30-10.
Then, in the fourth quarter, Stanford was threatening from
the 6-inch line. But a stingy Notre Dame defense managed a memorable goal-
line stand and prevented the Indians from scoring. The victory was
secured on the ensuing
Stanford series when Layden returned his second interception
for a touchdown.
That Notre Dame team was considered by many the most
alert squad ever to play the game. Much of its success was
due to the impeccable chemistry that the "Four Horsemen"
displayed when they were on the field together.
The Horsemen reminded everyone that football games
aren't won on talent alone. They're won on strategy, will
and, most of all, teamwork.

A Notre Dame defender (24) can't catch Stanford ballcarrier Ed Walker (left) in the 1925 Rose Bowl.

Celebrating 44th Year of Tradition...
**Music Review**

**The Feelies**

Lou Reed/REM genre, with elements of bands as diverse as The Talking Heads and the Beatles thrown in for confusion. They put me in mind of kicking leaves, wood smoke, the weather turning cold, trees changing colors. I don’t really know why.

Just in time for this fall, The Feelies have released a new album. It’s called Only Life and it is definitely one of the best albums of this year. As you know if you have their near-perfect second album, The Good Earth, The Feelies are an album band. Only Life doesn’t depart too much from the sound they built for themselves on that album, but that’s nothing to complain about. Rhythmically and texturally, they remain the same, but the big surprise here is the prominence of the lyrics.

“It’s Only Life” starts off the album by asking “What does it mean?/What can you do about it?” and the album closes with what may be seen as the answer to that question—“Just be good/Do what you should/You know it’ll be all right.” Throughout Only Life the lyrics are lucid and, by the end, it seems as though the band members have arrived someplace. Themes of transit are very evident all through the album, just as they were on The Good Earth. The Feelies titles themselves display this—“Higher Ground,” “Away” and “Too Far Gone” (which can also be found on the Married To The Mob soundtrack). Despite all the rootlessness evidenced in these songs, there is a real resolution in the firmness of the album’s last song “What Goes On.”

With Only Life being touted as The Feelies’ “breakthrough” album as bizarre a place as TIME Magazine, they’re certainly a band to keep an ear on. As with a lot of so-called “alternative” bands, The Feelies aren’t hardcore or weird or Crazy New Wave. They’re different from anything currently in the Top 40, but they’re also not as (and I think much more listenable than) anything you’re likely to hear on any Top 40 radio station.

My advice for this fall is to treat yourself to The Feelies. Take a risk. You won’t regret it.

**Big Audio Dynamite**

All things considered, this fall’s album Vol. 88 is a decent attempt. The variety of musical styles on the album demonstrate B.A.D.’s humor and drive. Their sound is a little more mellow than in previous albums but this fits the feel of the record. It is an interesting, diverse album that really grows on you. Although it may not be up for Album of the Year, it is well worth a listen.

**David Desalle**

**Kevin Walsh**

Some songs remind me of times in my life. There are some very definite high school songs. Some songs remind me of a certain summer. Others remind me of vacations.

In this same way, certain songs and certain bands remind me of seasons. Prefab Sprout is a winter band. The Smiths are a spring band. The Feelies, though, are a fall band. The Feelies’ sound is swirling and wispy and changing. They are somewhere in the realm of this.

The variety of styles found on Big Audio Dynamite’s new album, Tighten Up Vol. 88, definitely require more than one listening just to take them in. This record does not have an underlying theme like their previous albums, Big Audio Dynamite, and No. 10 Upping Street. Many different issues are dealt with such as racism, personal imperfection, relationships, fate, Imelda Marcos, and of course, Jamaica. The songs are catchy tight pieces filled with tongue-in-cheek humor. It begins: “A stranger is a friend/You just don’t know/With a shake of the hand/We could give it a go.” The Jones/Letts writing duo has packed a lot of power into easy words and a carefree melody.

One of the album’s most interesting pieces is called “Esquerra.” It is about an desirable character from Greenville, South Carolina who is either very ornery or just plain crazy. The sound is best described as a mix between Lou Reed and Ringo Star on speed.

**The Battle of All Saints Road** is a real treat because Don Letts sings some slightly silly reggae scat in between phrases of the old classic “Dueling Banjos.” “1,000 Shoes” is a danceable satire. Over a strong, fast beat, the lyrics scald Imelda Marcos. Jones sings: “Never had a conscience/Or any moral views/Even any kind of taste Just 2,000 shoes.”

**The Feelies**

Though the blues often bring up images of drunk singing in their beers, the bars in Chicago are not to go if all you want is drink. A night of og would get quite exe. Beer costs $2.3 a pot. Blues Etcetera, and $2 are $6-7 at Cotton o. don’t need to drink to the blues, however. The bars succeed in being a good time where we’ve emptied your pitchers or are halfway halfway your first coke. Just the realm of this forgetful and feel the joy, pain, and feel the

by the way, Blues Etcetera sells more than Old
Bill and Mary: groping toward the truth

I wish I were smart enough
to write a play about a
couple named Bill and Mary. They may have been Cat-
holics once and may be Cat-
holics again before they die.
At present, if you ask them
their religion, they'll answer
"Christian." If you ask them
how they would otherwise
label themselves, they'd tell
you "liberal." I'd like to show
you their struggles as liberal
Christians trying to be sensi-
tive to some of the tough
problems that come up in
a country that is increasingly
secular.

As a Catholic, I wouldn't
want you to think that the
play contains any original
thinking on my part. If our
country is having trouble, it's
trouble for everyone, Catholic
or not. I'd make it perfectly
clear that the themes are
based on entries I found in
"Harvard Diary," by Robert
Coles, a Harvard psychiatrist.
If I could trust you to read
"Harvard Diary," I wouldn't
pressure you to attend my
play. If I did borrow from Dr.
Coles' book to write the play,
I'd have to get permission
from the author, as well as
his approval of the text. I
have no such approval of the
scenes you find here. I've just
borrowed some ideas--out of
context and so, perhaps,
unfairly—that I'd like you to
look at.

Act I: In the town
where Bill and Mary live, some
of the residents are picking
up a bookstore that sells sex
magazines and films. These
residents demand to know
why this outrage is tolerated.

On television they begin
to hear the answers from
lawyers and libertarians:
freedom of speech and
tolerance for ideas.

"How are they to
protect the children from
an entire culture that
has become cooly or
blasphemously pornographic?"

is not whether women
deserve equal pay for equal
work, or deserve entry into
the professions, but whether
women should be allowed to
be children when they
finally become well-paid
executives and as competitive
as their male colleagues? Are
women liberated when they
cease to want children, or if
they fearlessly hand their
kids over to daycare centers
or their husbands? Are men
liberated when they lose in-
terest in their jobs, preferring
to stay home and care for
their children?

They finally figure out
that children need both their
parents; that mothers are not
fathers, and fathers are not
mothers, nor ought they be
blurred into one, as in the
dreary neuter word "parent-
ing."

Mary, working as a vol-
tuneer in a teenage pregnancy
center, finds that abortion is
not the answer for the 15-
year-old girl who wants to
keep the child she is bearing.
nor would sex education pro-
grams or contraceptives have
saved her from trouble.

The girl tells her doctor:
"All I want is a baby; then I
can forget the rest of the world
and try to be nice to her and
make up for what I missed."

Another 15-year-old says,
"This will be a gift of God
to me. There is no one in
the world who cares about
me, only God, and I feel Him
looking at me sometimes,
and He must have felt sorry
for me, so He sent this baby
to me."

The doctor who befriends
Bill and Mary diagnoses the
world's rampant wilderness
of demoralized young
child to have a baby as psy-
cho-pathology at work. He
defends himself for perform-
ing abortions: "What are we
to do, let these kids drown in
their own children? They are
children themselves. They
can't even take care of them-
seves, never mind one baby.

"Are women liberated
when they cease to want
children, or if they fearlessly
hand their kids over to
daycare centers or
their husbands?"

never mind four or five
more.

Another doctor tells them:
"We treat symptoms, not
causes, when we offer abor-
tions to young women who
are lost, bewildered,
desperately hungry for a
sense of purpose and meaning
in life, and something
someone to believe in."

Jesus offered great and humble
love to such women, the doctor
points out, and saw in their
pain and loneliness His own.

Act Three; Bill and Mary
move into a neighborhood
heavily populated by
homosexuals, and they work
hard to replace their
prejudices with tolerance,
compassion, and understand-
ing. When the fellow next
doors accuses Bill of being

Lacrosse holds alumni game

By PETE LaFLEUR
Sports Writer

While the majority of the Notre Dame's 19th annual alumni game will be scattered across Green Field in a tailgating frenzy tomorrow, the Irish lacrosse team will be "imbibed" in its own event--the 19th annual alumni game.

The traditional game, a clash between Irish stars of the past and present, begins at 1 p.m. on Cartier Field, located east of Green Field behind the Joyce ACC. "We have been working hard for a month," said tri-captain Kevin O'Connor. "(The game) should be a great time, not just for the students, but also for families from the Midwest who aren't that familiar with lacrosse.'

Although the official NCAA lacrosse season is in the spring, the Irish are practicing in the fall more intensely than ever under the leadership of new head coach Kevin Corrigan, son of former Notre Dame athletic director Gene Corrigan. The alumni game will serve as a warm-up for the biggest game in the program's history on Oct. 28, when the Irish will host Johns Hopkins University, perennially one of the nation's top teams.

The current Irish squad will be led by its three senior tri-captains, attackman John Olmstead and defensemen Doug Spencer and Wally Olmstead. Each was a starter last season, and Olmstead is Notre Dame's fifth all-time leading scorer.

The alumni team, meanwhile, will be a roll call of current lawyers, coaches and businessmen whose Irish roots range from the days of the team's inception as a club sport in 1964 to its eight years as a varsity team during the 1980's.

Some of the recent graduates expected to return include at least six former captains: Art Brady and John McNicholas ('86), Wally Stack ('87), Tom Grote ('86), Justin Shea ('85), and Dan Pace ('83).

continued from page 20

You might call the United States Olympic basketball team's trip to Seoul a success because the squad was coached by John Thompson somehow managed to resist provoking a brawl.

Compared to Thompson's Olympic experience, it was quite a feat. The U.S. suffered its second loss in 87 games in Olympic history, but they didn't get in a fight, so you've got to hand it to them--right along with that bronze medal.

But Thompson could not leave Seoul without throwing a few verbal fisticuffs at someone, so a few weeks ago he hurled some at the Portland Trail Blazers' NBA franchise.

Thompson got the team's success, because the Blazers for helping 7-foot, 3-inch Soviet center Arvidas Sabonis, who belongs to Portland if allowed to play in the NBA, with his rehabilitation of a torn Achilles tendon. You might want to forgive Thompson for the loss, or at least shift the blame to some of the players, although the author of this column wouldn't join you in your forgiveness. Nobody is unbeatable, and a group of America's top college and former college basketball players is no exception. In their defense, the opposition played well.

But Thompson dug enough graves for himself at these Olympics. He kept his team in virtual seclusion and limited their social activities, while even the Soviet lockerroom was more available to the press than that of the United States. Taking the Games seriously is essential, but taking the fun out of the Olympics is ridiculous.

And while past U.S. teams had fun running all over even the most highly-touted international opponents, Thompson's bunch had long faces and heavy feet from the moment they stepped on the floor against the Soviets. Something was missing--enthusiasm.

But Thompson not only managed to take the fun out of the Olympics for the American basketball team, he also did his best to take the gold will out of the Games. His criticism of Portland for helping Sabonis in his rehabilitation showed no trace of class.

Forget the promotion of international sport and good will between the United States and the Soviet Union. John Thompson's short-handed thesis have a chance to beat the best players in the Soviet Union.

Sabonis scored 13 points and grabbed 13 rebounds in the Soviet semifinal victory over the Americans.

Soviet coach Alexandre Gomelski said after hearing Thompson's comment that the American coach is "a great basketball coach, but he is not a foreign minister.

Thompson's performance at the Olympics proved the Irish coach at least half right.
It’s ND vs. SMC in soccer

Michiana supremacy is on the line today at Krause

By PETE GEGEN
Sports Writer

Two soccer teams square off at 5 p.m. this afternoon at Moose Krause Stadium for U.S. 11 bragging rights.

For the first time in recent years, varsity sports teams from Notre Dame and Saint Mary’s meet, this time in women’s soccer action. In the past few years, these teams have played home-and-home series, but while Notre Dame was at the club level, almost half the Irish players came from the club team, but they say that what happened in the past has no bearing on what will happen on this field today.

“It’s not a Notre Dame-Saint Mary’s social rivalry, it’s a soccer match,” emphasized Irish senior midfielder Kathleen Bir- mingham. “We’re a very dif- ferent team from the club team. The strategy we’ll use against them comes from other games we’ve played this season, not from past seasons.”

Two very different styles of play will clash on the field—the ball controlling game of Saint Mary’s and the long-ball, tight marking style of Notre Dame.

The Irish enter the game with a 7-2 record and a string of five consecutive shutout wins. Their last win came on the road Tuesday when they beat Chicago 5-0.

Lately, the Irish have had an easy time against weaker oppo- nents, outshooting Chicago, St. Joseph’s (Ind.) and Adrian by an amazing 23-3 total, but Saint Mary’s is a slightly different animal.

“Irish item”-Irish assistant coach Neil Schmidt celebrated his birthday Thursday.

New system planned for hoops ticket sales

By PETE GEGEN
Sports Writer

An appealing home schedule has led the Notre Dame ticket office to set a new procedure for obtaining season basketball tickets.

Beginning Monday, Oct. 3, and running for two weeks, students will be required to fill out an application to buy season tickets at Gate 10 of the Joyce ACC between 9 a.m. and 5 p.m. At this time a deposit of at least slightly more than half the ticket price will be due.

The 1988-89 season tickets, good for all 17 home basketball games, are priced $65 for lower arena seating and $66 for bleachers. A deposit of $45 for lower arena seats or $40 for bleachers is required during the application period. There was no in- crease in the ticket price per game.

The actual ticket distribution will not happen until Oct. 31, at which time the balance of the ticket price will be due. Otherwise, the distribution-by-class policy holds.

Ticket manager Bubba Cunningham said that the new application procedure is designed to prevent a shortage of student tickets, something which did occur for the 1985-86 basketball season.

“Unlike football, we are not required to provide a season basketball ticket to every student who wants one,” said Cunningham. “It would be unfair for us just to set a limit. But the home schedule is good this year that we feel there will be a greater demand for tickets.

We want to know what that demand is before we allocate the tick- ets.”

For the 1985-86 season nearly 200 freshmen were turned away and approximately 200 more were forced to buy tickets separate from the student section when 4,400 tickets were sold to stu- dents.

As in past years, Saint Mary’s students are limited to 200 season tickets. There is no limit on Notre Dame students now because of the application procedure.

Cunningham noted that the same procedure cannot be followed for selling foot- ball season tickets. The deadline for applications from alumni and the general public is June 20, so the allotment must be deter- mined well before the stu- dent ticket sale.

Red Sox clinch tie
Associated Press

CLEVELAND - The Boston Red Sox clinched a tie for the American League East championship Thursday night, routing the Cleveland Indians 9-2 on Roger Clemens' three-hit pitching and Ellis Burks' hitting.

The Red Sox, ending a three-game losing streak, can win their second division title in three seasons Friday night when Roger Clemens faces the Indians. Clemens is 9-0 lifetime against Cleveland.

Boston's victory eliminated Detroit from the race. New York and Milwaukee can tie only if they win all of their remaining games while the Red Sox lose their final three in Cleveland. Boston is 8-2 against the Indians this season.

Boddicker, 13-15 overall but 7-3 since joining the Red Sox on July 29, retired the first 16 batters.

Burks hit his fifth home run of the season, a three-run third inning. He had an RBI single during a seven-run seventh. The loser was Rod Nichols, 1-7.

BALTIMORE - Ken Phelps and Don Mattingly hit home runs as the New York Yankees kept alive their slim hopes in the American League East by beating the Baltimore Orioles 5-1 Thursday night.

Olympic roundup

JOYNER DOMINATES GAMES

SEOUl, South Korea - The high-flying U.S. men's volleyball team moved within one victory of another gold medal Friday at the Summer Olympics, where Flo Jo and Jackie Joyner are gold medalists-in-law again.

The undefeated U.S. men, led by the spiking and blocking of Bob Otavilia, scored an easy 15-3, 15-11, 15-victory over Brazil in a rematch of the gold-medal volleyball game four years ago in Los Angeles.

The U.S. men will meet either the Soviet Union or Argentina in the final Sunday afternoon.

On Thursday, Florence Griffith Joyner fulfilled predictions of "something unbelievable," breaking the 200-meter world record twice in two hours.

"Two world records, two gold medals and I'm not finished," Flo Jo said.

She and record-amazing sister-in-law Jackie Joyner-Kersee highlighted a day at the Games that belonged to the women: the U.S. team won the world's greatest medal that the men couldn't, and yet another tennis title was left to be decided.

Kersee highlighted a day at the Games that belonged to the women: the U.S. team won the world's greatest medal that the men couldn't, and yet another tennis title was left to be decided.

"Almost everybody said this team was not going to do well," Coach Ken Adams said. "We showed everyone up."

Especially Riddick Bowe, the New York super heavyweight. He took two standing 8-counts and nearly didn't make it through the first round, but he stormed back for a unanimous decision over the Soviet Union's heavyweight champion.

After 13 days of Games, the medal count looked like this: Soviet Union 95 total, 29 gold; East Germany 79 total, 31 gold, and the United States 61 total, 23 gold--and closing fast.

America added one to its gold count in freestyle wrestling when John Smith of Del City, Okla., a 126-pounder, defeated Stephan Sarkissian of the Soviet Union 4-0 in the 135-3-pound division.

By late morning, the United States had 31 medals: 15 gold, 10 silver and 6 bronze.

Kersee and Bowe are gold medalists-in-law again.

The undefeated U.S. women, led by Flo Jo and Jackie Joyner, beat the Soviet Union 4-0 in the 135-3-pound division.

The United States' can-do boxers, meanwhile, had Americans beating if this could be another Montreal.

This was called America's second-best Olympic boxing team--no names, no flash, no chance. But U.S. boxers already are assured of eight medals, one more than they won in '76, and they'll be going for six golds this weekend, one more than Montreal.

"Almost everybody said this team was not going to do well," Coach Ken Adams said. "We showed everyone up."

The loser was Rod Nichols, 1-7.

Next, Wisconsin will be playing on its friendly home

While Grace feels that this team is not hurt by the

foreign surroundings, there's no telling the aid the

Badgers could receive from a local
crowd and a good night's sleep.

The most important ingre­

dient in the equation, one

which should make for an ex­

tremely intense game, is

the motivation.

Ranked third and fourth respective­

ly in the Great Lakes Region, both Notre Dame and

Wisconsin realize that this
game could be the difference

between a post-season invit­

ation and an early rest.

“We're third,” said Grace,

peering at the newest Regional

rankings in his hands, “and

they're fourth. Only three

teams will be invited to the

NCAAs.” This is a bellw­

er opportunity for them to move up.

Badger's defense has three important ingre­

dients: talent, the home

field and an excellent

motive.

First, the Badgers have the

people to compete with the

Irish. At 7-1-1, Wisconsin is off
to its best start in eight years,

and now is set to face Evansville, the second-ranked

team in the Great Lakes

Region.

IH
continued from page 20

run out the clock and hold on

to the victory.

Walsh 14, Badin 0: Badin co­
ach Brian Miller credited

Walsh's defense with Wednes­
day's victory. Beside the de­
fensive captain Corine Glavin

was extremely pleased with the
defense's play, holding Badin
to one first down the entire

game. The offensive attack

once again was led by

quarterback Amy Farabaugh,

who connected for touchdowns

past 25 and 30 yards to

freshman tight end Elizabeth

Walsh, unsuccessful in three

conversion attempts in its last

game, coveted one of two at­
tempts Wednesday. Toohy

was again in on the scoring,

rushing in a pitch from the

left side. Both Glavin and Mil­

ler praised the efforts of their

respective defenses.

“We knocked down a couple

of drives; there could have

resulted in touchdowns,”

remarked Glavin.

While Miller was happy with

his defense, he was less than

enthused with the play of his

offense in their second straight

loser.

Women's interhall action

continues Sunday as 10 teams

take the field.

• 2-2 vs Farley (2-0): One of the

most important games of the
day. As the season ap­

proaches the midway point

each team is looking ahead to a

possible league championship.

ship and this game could have

a heavy bearing. Farley's

Karen Lynch is ready for what

is sure to be a “tough match­

up.”

Siegfried (1-1) vs Walsh (2-1):

Each team is looking to keep a

win in the series. Walsh's

Corine Glavin keeps every­

thing in perspective.

“We're hoping for a third vic­
tory, but most of all we want a

challenging game and to have

to have a lot of fun,” said

Glavin.

This looks to be a hard-fought

battle as the defenses of each

team are on top of their game.

Lewis vs Badin (6-11-1) is one of only three

undefeated teams. Lewis Lewis

is sure to be a hard-fought

battle as the defenses of each

team are on top of their game.

Lewis Lewis Lewis is sure to

be a hard-fought battle as the
defenses of each team are on

top of their game.

SPONSORED BY STUDENT UNION BOARD
ND to host Butler, W. Mich.  
Volleyball team attempts to continue winning streak  

By MOLLY MAHONEY  
Sports Writer  

This could be the weekend that the Notre Dame women's volleyball team turns the corner. The Irish, who host Butler tonight and Western Michigan Saturday afternoon, will try to maintain their momentum from two consecutive home victories and defeat these two long-standing rivals. Butler, which upset the DePaul Invitational and most recently, its own tournament, is riding a four-match winning streak and will try to end Notre Dame's string of wins at two.  

The Irish have a 5-4 series record against the Bulldogs, whose two losses have come at the hands of Michigan and Ball State, and have won the matchup in the past two years. Last year Notre Dame coasted by Butler in three games, beating them 15-4, 15-10 and 15-1. Notre Dame will have to contend with the net play of seniors Jill Taylor and Jill Spurgeon this year against Butler. Taylor, an outside hitter, led the team in kills and digs last season and Spurgeon, a middle blocker, led the Bulldogs in total blocks.  

"It's going to be a tough match," said Irish head coach Art Lambert. "They always get up for us. Notre Dame's one of the biggest games on their schedule and I think they're a better team than Bowling Green (who upset the Irish earlier this season)."  

Notre Dame will face another challenge Saturday afternoon when it takes on Western Michigan--a team they have yet to beat in their four-match series history.  

Western Michigan is led by junior middle blocker Gail Church, who led the team in blocks and hit .270 with a .300 average on 278 kills last year. The Broncos lost four starters from last season's 28-6 team, but Church and fellow middle blocker Mei Zhang, a native of Beijing, China who played on the Chinese Junior National team before coming to Western Michigan, will try to see IRISH, page 18

1st down, a season to go  
Keep informed about the Notre Dame football and basketball teams, students, faculty, and the changing campus. While you are away, let The Observer bring Notre Dame and Saint Mary's home to you. The Observer staff of more than 250 students will continue to cover all of the Notre Dame and Saint Mary's news every day.  

Subscribe now and you'll be sure to stay informed during Notre Dame's drive to the national championship and through Father Malloy's second year as president. To subscribe now, please send $35 for the entire school year or $20 for one semester to:

P.E. trips Knott in Interhall play  

By MARK SLOAN  
Sports Writer  

Knott's complacency with less than a minute remaining in the first half was the difference in its 12-8 loss to Pasquerilla East. The PE-Knott battle was one of two showdowns on the women's Interhall football circuit Wednesday. Walsh shut out Badin 14-0 in the only other contest.  

As the clock neared zero in the first half, PE's Rachel Crossin took a pass from Colleen O'Connor to the endzone for a 45-yard scoring play and a 6-6 halftime lead. O'Connor intercepted a Knott pass to set up the scoring drive.  

"Overall it was a good game," remarked Knott captain Jacqueline Cahoun. "We just never thought they could take the ball that far, so quickly. It wasn't for that we could have won."  

Knott, 0-3, responded to PE's score by gaining ahead early in the second half on a 40-yard pass to Ann Buff. Knott converted the two point conversion for an 8-6 lead. Neither offense was able to execute the remainder of the game.  

O'Connor intercepted another Knott pass and returned it for a touchdown. Knott's defense stopped PE's second conversion attempt, making the score 12-6. As Knott threatened in the last five minutes, PE's strong defensive secondary ended any hopes of a comeback. A Julie Baron interception allowed PE, 2-1, to see IH, page 18

Irish aim for sweep  

By TIM SULLIVAN  
Sports Writer  

Dennis Grace is taking nothing for granted. The Notre Dame men's soccer coach has his Irish squad, 9-0-1, playing some of its best soccer of the season heading into tonight's game against 1-6 Detroit, yet he refuses to look ahead to Sunday's away game against a tough Wisconsin team.  

"These are the ones that scare me," said Grace of the Detroit game, despite the fact that the Irish have just attained that their one has just attained their second national ranking in history (20th) in the ISAA coach's poll, 18th in Socsee IRISH, page 18

Thompson's actions very unbronze worthy  

You might call the United States Olympic basketball team's trip to Seoul a success because the squad that was coached by John Thompson somehow managed to resist provoking a brawl.  

Marty Strassen  
Sports Editor  

Compared to Thompson's Georgetown crew, that's quite a feat. The U.S. suffered its second loss in 87 games in Olympic history, but they didn't get in a fight, so you've got to hand it to them—right along with that bronze medal. But Thompson could not leave Seoul without throwing a few verbal fisticuffs at someone, so a few weeks ago he hurled some at the Portland Trail Blazers' NBA franchise.  

see THOMPSON, page 14

Florence Griffith-Joyner, here covering her face after receiving her gold medal for the 200-meter run, has teamed with sister-in-law Jackie Joyner-Kersee to produce a golden family reunion in Seoul. Griffith-Joyner has won golds in the 100 and 200, while Joyner-Kersee took gold medals in the heptathlon and long jump. See page 17 for a complete Olympic update.

Mary Kay Waller (6), Julie Brenner (3) and the rest of the Notre Dame volleyball team face two tests at home this weekend. The Irish have rebounded from a recent slump to win their last two matches.
