ND student attacked Sat.
By KELLEY TUTHILL
Senior Staff Reporter

A female student was assaulted between Grace Hall and Pasquerilla East at 3 am Saturday. She reported that she was assaulted as she walked between Grace Hall and Pasquerilla East. The student said that she was assaulted, according to Phil Johnson, assistant director of Security.

The student reported that she had been assaulted as she walked between Grace Hall and Pasquerilla East. The student said that she was not injured, said Johnson.

The victim described her attacker as a black college age male, six feet, two inches tall with a solid build. She told security that the man approached her and grabbed her wrist, said Johnson.

The victim and suspect struggled and during the struggle the suspect struck the victim. The student struck her attacker causing him to release her, according to Johnson.

The victim fled to her residence hall and was not pursued by the suspect.

Johnson sent a letter to all residence halls and Saint Mary's Security on Saturday describing the incident.

"The incident is still under investigation and if anyone has any information related to the assault . . . even if it seems remote, please call Crime Stoppers," said Johnson.

Soviets: No danger from sub mishap

Associated Press

MOSCOW- The Soviet Union said Sunday that 42 sailors were killed when a nuclear-powered submarine caught fire and exploded in the Norwegian Sea, and it disclosed that two torpedoes on board were not injured, said Johnson.

Scientists were gathering deep-water samples Sunday, and they placed equipment near the sunken ship that would monitor radiation levels for years.

The Soviet officials officially informed Norway of the accident nearly nine hours after the vessel went down. The Norwegian news agency NTB claimed two Norwegian rescue helicopters could have reached the ship several hours before Soviet fishing vessels if the Soviets had promptly asked for help.

Soviet officials were criticized for not providing ac-

300,000 demonstrate for free choice on abortions

The Supreme Court will hear arguments April 26 in a Missouri case that pro-choice and anti-abortion forces agree could significantly alter the 1973 Roe v. Wade decision that gave women the right to an abortion.

"I'm thrilled to have my baby," said Kristin MeN a mara during the march to the Capitol. 

"We're scared," said Ellen Davidson, a Yale University junior from Hewlett, N.Y., who marched with a host of celebrities - men and women, Democrats and Republicans, mothers of members of Congress and a host of celebrities - assembled on the Mall at the Monument for the march to the Capitol.

Marchers traded taunts with about 200 to 300 anti-abortion protesters who stood along Constitution Avenue. Police,

Engineering chairs go to Chang, Costello

Special to the Observer

Hueh-Chia Chang, professor of chemical engineering at the University of Notre Dame, and Daniel Costello, Jr., professor of electrical and computer engineering, will be the new chairmen of their departments, according to Timothy O'Meara, University provost.

Their appointments are effective July 1. The acting chairmen, James Kohn in chemical engineering and William Berry in electrical and computer engineering, will return to full-time teaching.

Chang, a specialist in the behavior of nonlinear systems when they become unstable, received his bachelor's degree in chemical engineering from the California Institute of Technology and his doctorate from Princeton University. He was associate professor at the University of Houston for three years before coming to Notre Dame in 1987 as a full professor.

Chang also taught at the University of California, Santa Barbara, where he was awarded a Regent's Junior Faculty Award. He received the Presidential Young Investigator Award from the National Science Foundation (NSF) in 1985 and delivered the University of Delaware's Colburn Lecture in 1988.

In his research he has analyzed the free-surface wave formation that can
NATIONAL BRIEFS

Several hundred anti-abortion activists prayed silently in a symbolic cemetery on the Washington Mall on Sunday as a river of abortion rights activists swept past them to a rally on the Mall. "In all these people who think they are for abortion," said Judie Wilson, "we are here to pray and to ask God to visit his will. on all these people who think they are for abortion," said Judie Wilson, "we are here to pray and to ask God to visit his will.

INDIANA BRIEFS

Senator Dan Coats has been selected to serve on the National Commission on Drug-Free Schools. Coats' selection to the 26-member commission was announced Friday by Senate Minority Leader Robert Dole. The commission was established as part of the Anti-Drug Abuse Act of 1988 and is designed to coordinate community anti-drug efforts in the nation's schools.

"When you see statistics that show the national average age at first-time drug abuse has dropped below 13, you begin to realize the tragic situation we face. We owe it to our children and our future to do all we can to prevent drug abuse," Coats said. The commission, which also includes William Bennett, the nation's drug policy coordinator, and Secretary of Education LaFortune, will select 25 experts to create recommendations and proposals to President Bush and the Congress by November.

WEATHER

April 10

Partly cloudy today with occasional snow showers. High in the middle 30's, Mostly clear and continued cold tonight. Low to 20. Inland Highs and warmer tomorrow with the high to 45.

MARKET UPDATE

On April 10:

In 1949: Walter Hunt of New York patented the safety pin.

In 1945: American soldiers discovered the notorious Nazi concentration camp Buchenwald in what is now East Germany.

In 1953: The nucleic-powered submarine USS Thresher failed to surface after a collision with two boats carrying 12 men that claimed 129 lives.

In 1974: Valerie Mail announced her resignation as prime minister of South Africa.

Ten years ago: 42 people were killed, more than 1,700 injured when a tornado struck Wichita, Texas, destroying 3,000 homes and causing $90 million in damage.

Information compiled from Observer wire and Observer staff reports.
South Africa agrees to safe passage for guerrillas

Associated Press

WINDHOEK, Namibia—Monday, April 10, 1989 — South Africa agreed Sunday to allow black nationalist guerrillas of the SWAPO, which has been fighting for independence since 1966, to leave Namibia. Under the proposal, the SWAPO fighters would have two options.

They could assemble at one of 10 points inside Namibia and relinquish their weapons to U.N. forces, who would then fly them to bases in Angola.

They could travel to one of eight assembly points on the Namibian-Angolan border. They would be allowed to keep their arms and the Angolan government would take responsibility for returning them to bases in Angola.

Some U.N. officials have suggested that SWAPO field commanders might have bought their units could return to Namibia beginning April 1 and set up bases there. Several captured guerrillas have said they returned to Namibia in search of U.N. personnel and expected no confrontations with the security forces.

At least 250 SWAPO guerrillas, including 32 members of the South African-led security forces, were reportedly killed in the heaviest fighting of the territory's 23-year war, police said.

The withdrawal plan appeared similar to a proposal made earlier Sunday by guerrilla leader Sam Nujoma, who called on his fighters to stop firing, regroup and allow themselves to be escorted into Angola by U.N. personnel.

South African Foreign Minister P.K. Botha announced the plan following two days of talks between his government, Angola, Cuba, and U.S. and Soviet observers. The talks were held at Mount Etjo, a private safari lodge 120 miles north of Windhoek.

The withdrawal plan gives the guerrillas until April 15 to leave Namibia. Under the proposal, the SWAPO fighters would have two options:

- They could assemble at one of 10 points inside Namibia and relinquish their weapons to U.N. forces, who would then fly them to bases in Angola.
- They could travel to one of eight assembly points on the Namibian-Angolan border. They would be allowed to keep their arms and the Angolan government would take responsibility for returning them to bases.

Simplified nuclear fusion experiment is duplicated

Associated Press

HOUSTON: Texas A&M University researchers have duplicated a controversial University of Utah experiment that reportedly achieved nuclear fusion using a relatively simple process, a college spokesman said Sunday.

Officials at the school in College Station said they would hold a news conference Monday to announce that their researchers had achieved the same kind of cold fusion, one of the most sought-after scientific breakthroughs.

"Other labs around the country have tried to duplicate this, but nobody else has been able to get satisfactory results," said Ed Walraven, a spokesman for Texas A&M. "Our people are convinced that they've got it, so as a gesture to the researchers in Utah we wanted to announce it as soon as possible."

Scientists have long sought the secrets of nuclear fusion, considered a potential replacement for conventional energy sources because it would be clean, inexpensive and virtually inexhaustible.

Researchers in Utah announced March 23 that they had achieved nuclear fusion at room temperature. Their claim has been met with widespread skepticism among colleagues.

Other researchers have complained that they tried to replicate the experiment of Stanley Pons of the University of Utah and his British colleague, Martin Fleischmann of the University of Southampton, but without success.

Pons has said he wasn't surprised at his colleagues' difficulties because the experiment is more complicated than press reports have made it out to be. However, he has not had the technical details reached the scientific community.

Steven Jones of Brigham Young University in Utah said recently that he had achieved fusion in a similar experiment, but he didn't have more energy than Pons and Fleischmann claim.

Fusion, the energy source that powers the sun and hydrogen bombs, is achieved by joining atoms, usually through the application of millions of degrees of heat. Fusion, the energy source for nuclear power plants, comes from splitting atoms. Fusion generates far less waste than fission.

New genetic test provides rapid prenatal detection of birth defects

Associated Press

WASHINGTON - Allison Chin, 3, and her 2-month-old brother, Robert, would have been born except for a prenatal test called chorionic villus sampling.

Their mother, Karen Chin, decided against children after finishing a pregnancy with an abortion because an amniocentesis test showed the baby had a severely disabling genetic defect.

Chorionic villus sampling can determine the genetic health of a fetus as early as eight weeks after conception. This is seven to 10 weeks earlier than is possible with amniocentesis, a prenatal testing method in use for about 20 years.

Those extra weeks are critical to millions of older women who are most at risk for having children with birth defects, said Karen Chin, who are more likely to stop a pregnancy with abortion.

In both CVS and amniocentesis, the gender and genetic health of a fetus are determined through laboratory analysis of cells taken from the mother's uterus. But CVS develop much earlier than those for amniocentesis.

CVS uses cells taken from the placenta, part of the developing placenta. The chorion is covered with small projections called the villi. These contain cells genetically identical with the fetus. By gently suctioning samples of these villi, a doctor is harvesting the blueprint of the unborn child without actually touching the fetus.

Ultrasoundography, a way of viewing the fetus in the womb, makes CVS possible. It uses high-frequency sound waves to make a computer-enhanced image of the fetus and its location in the uterus. The machine also guides the doctor to the chorion.

"Gradually we're believing its a possibility" that the right to abort could be taken away, said Yale junior, Bryseye Romer.

Activists

continued from page 1

some on horseback, kept the opposing forces apart.

Some 90,000 people gathered for a March 1986 pro-abortion rally in Washington. The number participating Sunday was over triple that number.

Some 800 of Sunday's demonstrators wore white, the color of the suffragettes who fought for women's right to vote. Some brought their young children. They carried signs saying: "Motherhood Should Always Be A Choice," "Roe Roe Roe or Sink," and "Going Public for Privacy."

Wire coat hangers were hung from lamp posts in support of the demonstrators, who carried signs saying, "Never Again." It was a reference to the often deadly self-abortion technique used by women in the United States before the procedure was legalized.

"A majority of Americans do not want to see the clock turn back," said Sen. Alan Cranston, D-Calif. Goldberg said: "Abortion is a negative experience. ... It's not something you want to go through, but if you need one, you should have one that's safe. I don't want anyone to end up on the bathroom floor with a coat hanger.""}

Actor Leonard Nimoy, wearing a pin on his white sweatshirt saying "Honorary Sister," said: "Nobody likes the idea of an abortion. But if it has to happen, there should be freedom of choice."

Students came in bus loads from campuses across the country. Though most are too young to remember the days before Roe v. Wade, the Court legalized abortion in 1973, students said they recognize the threat of" "a major challenge to that ruling."

"Gradually we're believing its a possibility" that the right to abort could be taken away, said Yale junior, Bryseye Romer.

flaw the process of coating photographic films or coating electrical wires with plastic. It can also increase the cost of pumping oil out of the ground because it creates resistance.

In addition, he has studied ways to control the chaotic fluctuations that can occur in catalytic converters and other chemical reactors.

Chang's work is theoretical and basic. He solves the mathematical equations that explain a particular phenomenon and leaves it to experimentalists to apply his solutions to many different processes. He has more than 50 refereed publications in these areas, and his primary research support has been from NSF and the American Chemical Society.

Costello, who came to Notre Dame in 1985 as a full professor, helped design the communication system for the National Aeronautics and Space Administration's Tracking and Data Relay Satellite System that relays weather, communications, military and other satellites to earth. He also contributed to the design of the codes used by NASA for its Pioneer space series, including the Pioneer 10 Jupiter fly-by mission, the Pioneer 11 Saturn fly-by mission, and the Pioneer 12 Venus orbit.

His current research support from NASA includes work on a coding standard that would be used to transmit messages in any of the space agency's future missions. In addition to the support his research receives from NASA, Costello also has received funding from NSF as an Office of Naval Research.

He has more than 50 refereed publications in his field and is coauthor of a textbook, Error Control Coding: Fundamentals and Applications, published by Prentice-Hall in 1983.

Costello was elected fellow of the Institute for Electrical and Electronics Engineers (IEEE) in 1985, served as president of the IEEE Information Theory Society Board of Governors in 1986, and cochaired the IEEE International Symposium on Information Theory held in Kobe, Japan.

He has served as professor of the Western Electric, Illinois Institute of Technology, Motorola Communications, and Digital Transmission Systems.

Alaskan oil spill battle continues

Associated Press

VALDEZ, Alaska - Military jets flew skimmers, boom, and beach landing craft into Alaska on Sunday, and commandants issued a Pacific-wide call for more equipment to fight the nation's worst oil spill. Kodiak, the nation's richest fishing port, prepared for the onslaught of oil by putting out the oil spill on their own.

The Coast Guard said the leading edge of the spill, 60 miles away, retreated a bit and began breaking up into tar balls and sinking. "That's good news," said Bill Lamoreaux, the state's on-scene coordinator.

The tanker Exxon Valdez ran aground on a reef near here March 24, spilling 10.1 million gallons of crude into pristine Prince William Sound. The oil has spread into the Gulf of Alaska and fouled some of the many islands in the region.

On Friday, President Bush said he would send the military to help with the cleanup. Exxon Corp., which has been accused of moving too slowly to contain the spill, will continue to provide materials, manpower and money.

Also Sunday:

A 40-foot gray whale was found dead in an oil-fouled area. Wildlife experts said they hadn't determined whether it was the first whale to succumb to the spill that has already killed thousands of other animals.

Exxon said it was beginning to reimburse fishermen for losses from the cancellation of the herring season and had paid $250,000 to cover expenses for fishing boats attacking the oil spill on their own.

Coast Guard spokesman Rick Meidt said an Air Force general made a tour of the area and sent a call to bases around the Pacific to find out what was available and what the estimated time of arrival in Valdez would be.

The Coast Guard's Pacific commander, Vice Adm. Clyde Robbins, was joining the federal effort. Other experts dispatched by the Pentagon surveyed the cleanup, and with the help of the military, cleanup gear poured into Valdez.

"CS-A after CS-A is bringing in equipment," including skimmers, more boom and beach landing craft to move people to the oily shoreline, Meidt said.

The Navy sent barges outfitted as hotels so that when coastline cleanup gets under way, workers will be housed near where they are working.

The forecast called for continued northeast winds, which will keep the oil moving toward Kodiak, 300 miles from the accident site. Kodiak last year produced a fish catch worth $166 million.

But Meidt said, "When the helicopters go up, they're seeing streamers a couple of miles long and slicks that are breaking up at the edges."

The dance styles varied from ballet, to jazz, to modern dance. Dances were performed to music from a wide variety of artists, including Tina Turner, and Emmy Lou Harris. Notre Dame students Andrea Reilly and and Saint Mary's student Susan Schierer choreographed "Rain," a jazz dance set to music by Terence Trent D'Arby.

Indy Dieckgrafe, director of the production, said that the Repertory/Performance Dance Workshop does a show each year and every three years they perform in O'Laughlin Auditorium. The company also performed in December at Madigan Dinners in conjunction with the music department of Saint Mary's.

Although the company has performed only at Saint Mary's in the past, they have "high hopes" of performing at other locations, said Dieckgrafe. Dieckgrafe also said that students are required to audition and must be enrolled in a technique class in order to perform with the company.
Demonstration against USSR

TAKOMA Park, Md. - Take away Fido's bowl of gravy in a cloud of radiation into the atmosphere and Tabby is bothered by fleas, try using a collar soaked in eucalyptus oil or sprinkling garlic on her supper.

In Moscow, the Soviet military newspaper Red Star reported Sunday that the submarine was on its way home when a fire broke out in a compartment.

“The crew bravely fought the fire and tried to save the ship,” the newspaper reported, citing an interview with Capt. P. Ishchenko of the Northern Fleet.

“The fight for life continued for more than five hours, but with no results,” the paper said.

The Norwegians said an explosion occurred on the ship after the fire spread and that the vessel then sank, 4,500 feet.

“We believe that when a submarine is sunk (at that depth) there is no hope,” Capt. P. Ishchenko of the Northern Fleet. "There is absolutely no hope."
South Bend man guilty of murder
Associated Press

SOUTH BEND: A South Bend man convicted of assisting in the murder of a school principal is scheduled to be sentenced May 4.

A St. Joseph Superior Court jury deliberated about two hours Friday before finding Howell Atkins guilty in the July 29 death of Raymond Hinsey.

The jury also found that Atkins is a habitual criminal of­fender with three unrelated felony convictions.

Atkins made no comment and showed no emotion when the verdicts were read.

The habitual offender conviction means that Judge Sanford Brook may add 30 years to Atkins’ sentence if he sentenced Monday, April 19. The contest was sponsored by the local chapter of Literacy Volunteers of America. The word and spelling bee is available.

Israeli soldiers kill 12 and 60-year-old Palestinians
Associated Press

JERUSALEM: Soldiers fatally shot two Palestinians during clashes in the occupied territories Sunday, including a 60-year-old man who attacked a soldier with a pitchfork.

Also Sunday, Finance Mini­ster Shimon Peres said Israel was negotiating indirectly with the PLO through U.S. mediators, despite Prime Min­ister Yitzhak Shamir’s opposi­tion to dealing with the organiza­tion.

Arab reports said 11 Palest­inians were wounded in vio­lence that came on the second day of a general strike in the occupied West Bank and Gaza Strip. The strike was called to mark the 17th month of the uprising, which has killed 422 Palestinians and 19 Israelis.

Peres, head of the left­leaning Labor Party, made his comment about the PLO as he spoke on Israel radio about Shamir’s plan for elections in the occupied lands.

He said Israel had in effect conceded its longstanding refusal to talk to the Palestine Liberation Organization by having the Americans mediate on the election question.

“The United States is at this moment a mediator between us and the Palestinians, including the PLO, even though this isn’t to our liking,” he said.

Peres also said he accepted Shamir’s election idea but an­ticipated difficulties because Shamir, of the right­wing Likud bloc, refused the PLO’s ex­­demands for international su­ pervision of the balloting.

Shamir’s plan calls for Pales­tinians in the occupied lands to select representatives to negotiate a solution for the disputed territories.

In the West Bank city of Hebron, a curfew was imposed after troops shot to death a 60­year-old laborer. The army said the man attacked soldiers with a pitchfork.

Arab reports said the man, Ahmad Mohammed Sneineh, attacked after a soldier struck a woman who was trying to block Sneineh’s arrest.

British journalistic tradition fades as final Fleet Street edition is published
Associated Press

LONDON: The last national newspaper on Fleet Street, once London’s rambunctious newspaper row, made its final press run there Sunday as British journalism traded the typewriters’ clatter for the quiet of high technology.

Behind the gleaming, black­glass facade of the art deco Ex­press building, reporters, editors and technicians crated the contents of desks, packed up their memories, and sent off the final Fleet Street edition of the Sunday Express before moving to new headquarters.

When the last bundle of papers was tied up and dis­patched around the country, all was silent where for decades typewriters clicked, linotype machines rattled, and presses hummed.

Express Newspapers group is moving only a few hundred yards across the River Thames to a new, 10­story building.

The national newspapers have moved away one by one to computerized facilities since publisher Rupert Murdoch began the exodus in 1986. That year, his four newspapers -- the Times, The Sunday Times, The Sun and The News of The World -- moved to the developing Dock­lands, breaking the hold of uni­versity of high­technology encroachments on their jobs.

The Reuters and Press As­sociation news agencies will remain at their Fleet Street headquarters.

University isolates its community from AIDS

Dear Editor:

I was pleased to see that The Observer decided to print the "Doonesbury" comic strip, despite its offensiveness to the editors. I personally found nothing offensive in the strip. Rather, I would like to be blunt and upsetting, much like the actual AIDS epidemic. However, I think this Doones­bury controversy necessarily leads to a discussion of a broader problem: that of Notre Dame's apparent unwillingness to educate the students and faculty concerning AIDS and other sexual issues.

While other leading universities talk openly about AIDS and distribute information concerning it and other sexual issues, our University remains dormant. AIDS is not an issue that the University can continue to ignore. Odds are, sooner or later a member of the Notre Dame "family" will contract the AIDS virus. Will it be then that the University makes an effort to educate the students and faculty concerning AIDS, or must we continue to gather information from word of mouth and comic strips?

Students at Notre Dame do engage in sexual intercourse (even Catholic students!), despite what the administration and alumni would like to think. Until AIDS and other sexual issues are discussed in an educational, open atmosphere, the University should not be placed on academic probation. Clearly they are not making the grade in "preparing us for the real world" when they ignore an issue as widespread and deadly as AIDS.

Although the causes of AIDS and related issues may not be consistent with the Catholic nature of this school, the University has an obligation, as an institution of higher learning, to educate us concerning these issues. The administration may consider this their pink slip. Hopefully, Notre Dame will improve and make the grade, for our sake.

Bianco murder involves brutality, not insanity

Dear Editor:

If Alan Matheny is acquitted of beating his ex-wife, Lisa Bianco, to death on the grounds that he is insane, the decision will be more than a major setback to the crusade for tougher (and better enforced) domestic violence laws. It will be a travesty of justice and a gross abuse of a law intended to protect those who cannot be held responsible for their actions. Societies have long recognized that some people cannot be held accountable for their actions. Defense for the insane was included in ancient Jewish, Greek, and Roman laws. The first modern insanity law was the M'Naghten test, which was written into law in England in 1834. This law acquitted those who, because of mental disease, could not understand the nature of their crimes, or even that the acts were wrong.

Currently, the Brawner rule is used by most states, as well as the Court of Appeals. This rule protects those who, because of mental defect or illness, are unable to appreciate the wrongfulness of their conduct, or to make their conduct conform to legal standards.

Despite the usefulness of such rules, there is still a good deal of room for abuse of the insanity defense. Most often, the defense is abused in cases of shocking, heinous crimes, such as the Bianco murder. Psychiatrist Thomas Szasz said of such incidents, "We do not want to understand the thing; it is so horrible we say, 'It's crazy.'"

Defendants are able to take advantage of the people's disgust and unwillingness to accept the sanity of a person who seems like such a monster. In such instances, the insanity defense is used to circumvent justice, not enforce it.

While I am not a forensic psychiatrist, I can say that there are many adjectives to describe domestic violence, but insane is not one of them. The murder of Lisa Bianco was a premeditated act of brutality. It is normal and acceptable to be disgusted by such violent, sickening crimes. What is not acceptable is to automatically dismiss the crime and the criminal as insane.

ABC's 'Coach' has yet to reach its potential

Television programming is often like a football game. Clever plays, careful timing, and a good lineup will provide television executives with ratings success and a victory over other competing networks. This year, ABC has added a new twist to the old sport; the network has put their own 'Coach' into the game.

Joe Bucolo
To Be Continued...

ABC airs "Coach" on Wednesdays at 8 p.m. The show stars Craig T. Nelson as Hayden "Coach" Fox, a single parent and head coach of the Minnesota State football team. Other regulars include Christine Armstrong (Shelley Fabares), Coach's love interest, Kelly (Clare Carey), Coach's daughter, and Luther (Jerry Van Dyke) and Dawber (Bill Fagerbakke), Coach's assistants.

The show's premise, a middle-aged single parent coping with raising a daughter, having a relationship with Armstrong, and coaching his team, is an interesting one. It provides plenty of opportunity for new plotlines and shows great potential. "Coach" makes an attempt to capture the sassy, witty humor that has made "Night Court" and "Cheers" so popular. In one episode, the team loses a game because only ten players were present on the field. Throughout that episode, Coach, who is trying to forget the loss, bumps into sarcastic extra characters.

Craig T. Nelson (center) stars as a college athletic coach in "Coach," a new half-hour comedy series making its debut on ABC.

One guest at Armstrong's hotel says, "Ten men on the field, eh? That was a costly mistake. Cost me 906 bucks." Later, Coach bumps into another guest who quips, "Oh, Coach. Nice game. Hey, have you got 11 singles for a 10?" As a punishment, Coach leaves the team in the locker room overnight to count to 11 out loud. Luther and Dawber misunderstand Coach's orders and spend the night counting with the team. This crazy humor scores time and time again with the audience; however, the time in between these moments seems to drag. The regular humor between Coach and the others seems flat and formulaic compared to the zany comedy of which the show is obviously capable.

Coach explains the loss of the game to his daughter: "This is going to happen when you're working with 60 young men who are inexperienced, immature...and brain dead." One time when Coach is cooking dinner for her very slowly, she says, "I've got finals coming up, Dad...in four months.

In addition to this not up-to-par comedy, the show has another weak point. Kelly. She is annoying and unnecessary. The show does not need her aspect of the show's premise. Coach could be a single man with no children and no marital past, and the show would lose nothing. In fact, viewers may appreciate the absence of Kelly constantly whining the words, "Oh, Daddy." The chemistry between Coach and Armstrong is wonderful. The show could survive on their bickering alone. They are two characters who care deeply for one another but allow their trivial opinions to create some complications (and funny humor). This bickering combined with the naiveté of Luther and Dawber is well made and fulfilling. "Coach" is a show with tremendous potential. The writers are headed for a successful show except Kelly. She must develop and mature, or move away and off the show. (Perhaps an episode dealing with her death would be in order...)

Once producers cure the Kelly problem and fine tune the comedy, "Coach" will be the hilarious, intelligent masterpiece behind ABC's Wednesday night team.

Reflections on a Mexican rock concert at Rockotitlán

Mexico City, with a population of about twenty million, has to be one of the biggest cultural crossroads in the world. Besides boasting a wealth of domestic talent and tradition, the Distrito Federal attracts top-notch artists from throughout the world. I myself am witness to many examples of Mexico City's cultural exchanges.

I was a little apprehensive when my friend Martha offered to take me to a rock concert, because I had never been to one before. How does one dress for a concert here in Mexico? I decided to dress so as not to draw any attention to myself, opting for a beige sweater, faded jeans, and moccasins. We arrived early, so I had a chance to look around the place. Called Rockotitlán, the room had about the area of Badin Hall's first floor, maybe. Though dimly lit and smoky, I could make out sprays painted punk figures on the walls, echoed by their living counterparts dressed in black.

Overseas Column:
Melissa Simmermeyer

and leather, sitting at low tables, smoking cigarettes and drinking. Because I felt like Mary Poppins at a Hell's Angels' rally, I was particularly grateful that the band arrived quickly.

One of the first things I noticed about the tiny stage in the corner (besides the emergency exit) was the gigantic pair of speakers. I wondered if they really needed to be that big for so small a space. The next thing that attracted my attention was the lead singer, who introduced the group as Planeta Pop, recently arrived from Spain. Though famous here for her exquisite voice, I will never forget how she dressed; cropped black hair swooped back, jaunty aviator scarf, white silk blouse with pearls, jeans that must have been painfully tight, and black boots. She apologized for the faulty sound equipment, but I personally thought that an increase in volume could have had tragic consequences. Martha's date noted that the beauty of live music is that you can feel it, but I thought it was also nice that I could locate my lungs and sinuses due to sympathetic vibration.

I noticed that the clientele of Rockotitlan was too cool to actually dance but everyone seemed to be having a great time anyway. The band filled everyone's expectations, and I found to my great surprise that I even knew some of the songs. When Planeta Pop announced their departure, the crowd chanted unanimously "otra, otra" (encore, encore) and the band responded with three more songs. I was disappointed that the night had gone so quickly, but I chalked it up as one more highly successful cultural exchange and walked out with a smiling face and ringing ears.

Michael F. Muldoon

A University of Notre Dame NEED CASH!! Hardbound & paperbacks' Cash 233-2342

First, on the 17th hole of regulation, he missed a three-foot putt after he had missed a great recovery shot to the green. That dropped him into a tie for first, and eventually, led to the playoff.

Then, on the first playoff hole, he shot one of the memorable misses in golf history.

With daylight running out, Hoch and Faldo each made a two-foot putt away from a green jacket. He shot his best possible score, and Hoch missed his. "I didn't want to miss an angle," he said. "I was nervous, but I felt this must be my time.

Faldo put the ball lipped out. "I'm proud of myself. I have never had a moment of feeling played well this week," said Faldo, winner of three PGA tour titles in an 11-year career. The shot matched Faldo's earlier bogey and they went to the second playoff hole, where Faldo rolled in the long one.

Both drove the fairway in the driving rain. Faldo went for the pin, ignoring the pond on the left of the 18th green. He got it about six feet below the hole.

Faldo, a former British Open champion and eight times a four major test of golfing｢f If you need Grad. tlx. Call 233-2232.

There was Seve Ballesteros of Spain, the 1980 Masters champion, who had a share of the lead at the top on one at another. But he got a 6-shots on the green on the 18th and teed to be a factor.

There was Mike Reid, the soft-spoken guy "Radar" by his fellow pros. He had the lead there but then putted the 14th, hit it into the water and 15 and he, too, was out of it. There was Greg Norman, the flamboyant Australian who has played so well here so often.

And there was Ben Cren­shaw, "Gentle Ben," trying to gain that second green jacket.

All made their bids.

Faldo, with a closing 69, could match Faldo's 5-under par total for 72 holes over the rain-slicked hills of Augusta.

Lee Trevino, the 49-year-old who led or shared the lead through the first two rounds, struggled to an 81 in the delayed finish of the third round Sunday morning, then came back with a 68 in the after­noon and finished at 291.

**Padres turn triple play in 5-4 win over Houston**

Associated Press

HOUSTON— Tony Gwynn drove in two runs, including the game-winner, and Jack Clark added a two-run single as San Diego rallied to beat Houston 5-4 Sunday in a game which featured a triple play by the Padres.

The Padres accomplished the sixth triple play in club history and their first since July 31, 1989, in the eighth inning.

With Kevin Bass on second and Greg Olson on first, Ken Caminiti hit a ground ball to third baseman Luis Salazar who threw to Alomar at second, forcing Gosse.

Alomar threw to Clark at first to get Caminiti for the second out. Clark then threw to catcher Mark Parent who tagged out Bass, attempting to score from on second on the play.

**Indians 3, Yankees 2**

NEW YORK— Tom Candiotti allowed four hits in seven innings and Pete O'Brien hit his first homer of the season and the New York Yankees 4-3 Sunday to complete a three-game sweep.

For the Indians, it was their first three-game sweep over New York at Yankee Stadium since May 1966. The Yankees have now lost five straight after beating Minnesota on opening day and have scored a total of only 12 runs in their six games this season.

**Athletics 4, White Sox 2**

OAKLAND, Calif.— Dave Stewart struck out nine and increased his April record to 4-0, leading the Oakland Athletics past the Chicago White Sox 4-2 Sunday.

Stewart, 2-0, allowed eight hits, struck out nine and walked one. He has won his last three starts against the White Sox, allowing two earned runs in 15 2/3 innings of relief, as Boston avoided a 5-5 start that would have been its worst since 1966.

**Dodgers 4, Braves 2**

ATLANTA— Pinch hitter Mickey Hatcher and Willie Randolph each hit a sacrifice fly in the 12th inning Sunday to give the Los Angeles Dodgers a 4-2 victory over the Atlanta Braves.

Alejandro Pena, 1-0, picked up the victory with three innings of relief. Tim Crews got the Braves out in the 12th for his first save.

**Rangers 3, Blue Jays 2**

ARLINGTON, Tex.— Reuben Sierra doubled in a two-run homer off Tom Henke with one out in the ninth inning Sunday, giving the Texas Rangers a 3-2 victory over the Toronto Blue Jays.

**Orioles 8, Twins 1**

MINNEAPOLIS— Frank Viola lost his second straight start, allowing a three-run homer to Randy Milligan and a two-run homer to Cal Ripken Sunday as the Baltimore Orioles beat the Minnesota Twins 8-1.

**Mets 2, expo 1**

MONTREAL— Kevin Elister doubled home the tie-breaking run with one out in the ninth inning and Dwight Gooden allowed three hits over eight as the New York Mets beat the Montreal Expos 2-1 Sunday to avert a three-game sweep.

**Giants 9, Reds 1**

CINCINNATI— Matt Williams hit a grand slam for his first hit of the season, leading the San Francisco Giants past the Cincinnati Reds 9-1 Sunday.

**Angels 13, Mariners 5**

ANAHEIM, Calif.— Tony Armas and Dante Bichette each hit two-run homers in the first inning Sunday and the California Angels went out to rout the Seattle Mariners 13-5.

**Cardinals 15, Phillies 3**

PHILADELPHIA— Pedro Guerrero and Jose Oquendo drove in four runs each as Philadelphia attack Sunday as the St. Louis Cardinals scored their most runs in two years and beat the Philadelphia Phillies 15-3.

Sunday had not scored that many runs since a 15-3 victory over Montreal on June 27, 1967. It was the most runs against the Phillies since a 15-6 loss to Los Angeles on Aug. 21, 1983.

**APARTHEID AWARENESS WEEK April 10-13**

The South African government has designated ten geographical areas within its country as "homelands" to serve as reservations for Africans. In 1986, 13 million Africans, or 52% of the African population lived in these ten bantustans. All blacks, whether living in these bantustans or not, are considered by the apartheid regime not as South African citizens, but as "bantustan" citizens. Therefore, not one of South Africa's 25 million blacks is a citizen of that country.

**Find out about Apartheid from those who have lived under it**

**Abbott flops in major league debut**

Associated Press

ANAHEIM, Calif.— Jim Abbott lost because he had just one pitch, not one hand.

Abbott's professional debut lasted Saturday night, undone by a broken-bat single with the bases loaded. When it was over, he had allowed six runs on six hits in 4 2/3 innings, although three runs were unearned.

The Seattle Mariners, who began the night as the worst-hitting team in the major leagues, beat Abbott and the California Angels 7-0.

"I'm a little disappointed that things didn't go a little better," he said. "There were some things to build on. But overall, I didn't do as many things as I'd like to." Mainly, Abbott didn't get the ball over the plate.

He threw 88 pitches, just 47 for strikes. He walked three, one intentionally, and struck out no one. He also threw a wild pitch that set up two first-inning runs.

"Today, maybe my mind wasn't as clearly focused as I would've wanted," he said. "There was definitely some nervousness."

Abbott has always had control difficulty, but in college and the Olympics, a 90 mile-per-hour fastball and a hard slider are enough to win. But he is still learning the curve and changeup he needs to win in the majors.

And against Seattle, Abbott had difficulty throwing his slider for strikes. Abbott's 94 mph fastball with only a fastball that is good, but not great, and big-league hitters can hit anything if they know what is coming.

"We got him to early and got him to throw the kind of pitches we wanted," said Harold Reynolds, who took a called strike to open the game and then singled. "He throws hard and his slider's good, but he has to stay ahead in the count."

Abbott got two strikes on just five of the 34 batters he faced. The Mariners seemed onto him, swinging and missing on two pitches.

"I think he uncharacteristically was more nervous than he's ever been before," Angels manager Doug Rader said. "That's understandable. He got the ball up early and was overthrowing a bit."

Abbott became the 15th player, 10 of them pitchers, since 1960 to begin his pro career in the majors, although all except Dave Winfield, Bob Horner and Pepe Friervilla eventually were sent to the minors.

A crowd of 46,847 that included his parents from Flint, Mich., turned out to get Abbott's answers to how-does-he-do it and can he do it.
USA dumps France in Davis Cup tennis

Rematch with West Germany is next

Associated Press

Two years ago, West Germany handed the United States a humiliating defeat in the Davis Cup. This summer, the United States will have a chance to avenge the loss.

Boris Becker beat Milan Srejber 6-3, 6-4, 6-3 Sunday to give defending champion West Germany a 3-2 victory over Czechoslovakia in their Davis Cup quarterfinal at Prague.

The United States clinched a victory over France on Saturday night when Ken Flach and Robert Seguso beat Yannick Noah and Guy Forget in doubles at San Diego. Andre Agassi beat Noah 6-3, 7-6 (9-7) Sunday to give the United States a 3-0 lead, and John McEnroe tried to complete a sweep in the final match against Henri Leconte.

West Germany will meet the United States in the semifinals July 21-23. In 1987, West Germany beat the United States in a relegation match that forced the U.S. out of the main tournament for a year.

In the other semifinal, Sweden will meet Yugoslavia. Stefan Edberg beat Horst Skoff 6-3, 6-2, 6-1 to clinch Sweden's 3-2 victory over Austria, while teen-ager Goran Ivanisevic completed Yugoslavia's 4-1 win over Spain by downing Javier Sanchez 7-6, 6-1.

Czechoslovakia had taken a 3-0 lead over West Germany on Saturday after Srejber and Petr Korda beat Becker and Eric Jelen in doubles. But Cyril Stibb evenly the series by beating Karel Novacek 6-3, 6-4, 6-4 in Sunday's first match and Becker clinched the victory by overpowering Srejber.

"It's very difficult to win against Czechoslovakia in Prague before 12,000 of their supporters," West German captain Nikki Pilic said. "We didn't feel too well after losing the doubles and we knew we would have to show on Sunday how strong mentally we are."

After winning the opening set in 23 minutes, Becker double-faulted twice to give Srejber two break points in the second game of the second set. But the two-time Wimbledon champion came back to win the game and the set.

"After that (second) double-fault, I really had to concentrate," Becker said. "But I held my serve and that was probably the decisive moment in the match."

Srejber served 15 aces in the indoor match, six more than Becker. But he didn't capitalize on opportunities to break the West German.
AP: UM to select Fisher

Associated Press

ANN ARBOR, Mich. - Steve Fisher, who in 20 remarkable days guided Michigan to the NCAA basketball championship, will be named coach of the Wolverines at a news conference Monday, The Associated Press learned Sunday.

The move will come one week after the 44-year-old Fisher coached the Wolverines to the national title with a 80-79 overtime victory over Seton Hall.

Sources close to the team, who spoke on the condition of anonymity, said Sunday. Fisher was the only candidate interviewed by Bo Schembechler, the football coach who also is athletic director.

Fisher coached the Wolverines to the national title with a 80-79 overtime victory over Seton Hall.

Women’s golf 14th at IU Invite

The Observer

The Notre Dame women’s golf team placed 14th out of 15 teams in last weekend’s Indiana Invitational at the Indiana University Golf Course in Bloomington.

Host school Indiana won the tournament with a 36-hole total of 620. Northern Illinois placed second with a 656, and Iowa finished third with a 662. Notre Dame shot a 747.

The tournament originally had been scheduled to last 54 holes, but rain shortened it to 36 holes.

Notre Dame’s Debbie Lee, who shot a 36-hole total of 150.

Notre Dame next plays in the Lady Buckeye Classic at Ohio State University this weekend.

$99 Roundtrip Airfares On Northwest Airlines.

New York City $99 roundtrip
Seattle $99 roundtrip
Phoenix $99 roundtrip
Los Angeles $99 roundtrip

A special offer for students, only for American Express’ Cardmembers.

If you want to go places, it’s time for the American Express® Card.

Because now you can take advantage of new travel privileges on Northwest Airlines only for full-time students who carry the American Express Card.

Travel privileges that offer:

Two $99 roundtrip tickets—fly to many of the more than 180 cities served by Northwest in the contiguous 48 United States. Only one ticket may be used per six-month period.

Special Quarterly Northwest Destination Discounts throughout 1989—up to 25% off most available fares.

5,000 bonus miles in Northwest’s WORLDPERKS® free travel program—where only 20,000 miles gets you a free roundtrip ticket to anywhere Northwest flies in the contiguous 48 United States or Canada—upon enrollment through this special student offer.

And, of course, you’ll enjoy all the exceptional benefits and personal service you would expect from American Express.

The only requirements for privileged travel: you must be a Cardmember, you must be a full-time student, and you must charge your Northwest Airlines tickets with the Card.*

Getting the Card is easier than ever because now you can apply by phone. Just call 1-800-942-AMEX.

We’ll take your application and begin to process it right away. What’s more, with our Automatic Approval offers, you can qualify now while you’re still in school.

Apply Now. Fly later—for less.

Apply Now: 1-800-942-AMEX

*Fare is for roundtrip travel on Northwest Airlines. Tickets must be purchased within 24 hours after making reservations. Fares are non-refundable and no itinerary changes may be made after purchase. Seats at this fare are limited and may not be available when you call. Ticket must be completed by certificate expiration date and may not be available between cities to which Northwest does not have direct connections or routings. City tax surcharges not included in fare from Boston ($1.50), Chicago ($1.00) and Florida cities ($2.00). Certain blackout dates and other restrictions may apply for complete offer details. call 1-800-942-AMEX. Current student Cardmembers automatically receive two $99 vouchers in the mail © 1989 American Express Travel Related Services Company, Inc.
ND softball finishes 3rd at MCC tourney

Melissa Linn

ND softball finishes 3rd at MCC tourney

**Special to The Observer**

The Notre Dame softball team finished third in the Midwest Collegiate Conference tournament last weekend at Indianapolis.

Notre Dame (14-13) won three of five games at the tournament. The Irish defeated Butler 8-7, Loyola 4-3 in eight innings and Dayton 5-3, but lost to Detroit 1-0 in eight innings and 3-0 to Saint Louis.

It’s disappointing,” said Irish coach Brian Boulac. “We thought that we could win, and we didn’t compete against these teams.

“But if you look at it objectively, this is our first year, and we’ve come a long way since the beginning of the season.”

Detroit won the tournament, and Saint Louis placed second of the four teams. "However, " said Boulac, "I think Tom Duane played well against Ohio Wesleyan.

Freshman pitcher Melissa Linn got the decision in all of Notre Dame’s games. She pitched a four-hitter against Saint Mary’s.

Detroit, but the Irish only could manage two wins in their own right.

Megan Fay led the Irish over Butler with two hits and one run batted in. Rachel Carlson and Laurie Sommerland each had two hits against Loyola, and Carlson had two RBI.

Dawn Boulace’s sixth-inning single broke a scoreless tie in the win over Dayton.

Notre Dame next plays Tuesday against Saint Mary’s.

---

Kenyon

continued from page 16 of six man-down situations.

“I think Tom Duane played a big game for us, and that was a boost,” Corrigan said, “but it’s kind of a trade-off, with our defense playing as well as they are. Both Tom’s play and the defense enhanced each other.”

The Irish offense also came up with impressive statistics that showed the second highest goal output of the season. Notre Dame scored nearly 50 percent (41-of-92) of the shots and 7 of 20 Kenyon clearing attempts, leading to several scores.

Corrigan said that the team usually aims for a 35 percent shooting game. The Irish had shut close to only 20 percent entering the game before exploding with the potent attack.

“The guys have put a lot of work over the last few weeks working on their shooting,” he said. “That says a lot for the good shooting against Kenyon, and you also have to look at the quality of the shots we had. A lot of the goals came off unsettled situations.

Such “unsettled situations” are lacrosse’s equivalent to basketball’s fastbreak, and the Irish broke out for five key transition goals in the game. Particularly notable was the third goal of the game, scored by Brian McNich with 5:17 to play in the first quarter.

On that score, senior tri-captain Doug Spencer knocked the ball out of a Kenyon players stick as he attempted to clear midfield. Sophomore Chris Rowley then scooped up the loose ball and passed it decisively to classmate John Titterton. Titterton then passed to freshman Mike Sullivan, who was streaking towards the Kenyon goal. Sullivan beat his man for the score.

The Irish never looked back from there, scoring four consecutive goals to take the big first quarter lead.

Notre Dame travels to Lake Forest Wednesday before playing at Denison Saturday. They then return home April 22 against Ohio Wesleyan.

Bookstore Basketball XVII ready to begin second week of action

**The Observer**

Monday, April 10, 1989

Help your parents get through college.

Just thinking about college tuition is enough to make most parents break into a sweat.

But can you blame them? When you consider the cost of tuition, books, and room and board—not to mention pizza parties—you’re talking big bucks.

Which is why you should do some talking. Like telling your parents about the MHT Student Loan Program, run by Manufacturers Hanover Trust.

At MHT, not only do we provide financial support through our comprehensive student loan processing system.

Within 24 hours, the Bank will get a decision from the Guarantee Agency. It’s that simple. Better still, with MHT Student Loans, you don’t have to pay interest on your loans while you’re in school.

So if you need money for school, call 1-800-MHT-GRAD and get yourself an MHT Education Loan Application. Then when your folks ask you about tuition, at least you’ll have an answer.

Bookstore's first-ever great-grandfather played Thursday and Saturday games eliminated Friday as the first week of Bookstore Basketball XVIII drew to a close.

Trifon Lena, Jr., a local fireman and great-grandfather, played in his first organized game in 41 years Thursday when his Hosers of the Firehouse lost 21-9 to Whiskey Ray and Four Other Guys that Can't Score. Lena became the first great-grandfather ever to play in a Bookstore game.

"They were good, as much as I expected," said Lena. "We knew we couldn't run and gain against them. Our zone defense worked good, but it didn't work all the time."

Lena, who enthusiastically agreed to play when approached by his friends at the firehouse, scored one point in the contest.

"It was a real challenge for me," said Lena. "I've been on a 41-year sabbatical!"

---

Four teams took scoring inexperience to a new level Friday, losing by a tournament-high 19 points as the Bookstore field was cut to 312 teams.

Salman Rusohied and Four Other Guys Under the Gun fell 21-2 to We Double Pump Before We Shoot, who nevertheless shot an incredible 21-of-28 from the field. Steve Heddinger scored 10 baskets to lead We Double Pump.

"We relied a lot on our defensive rebounding and our fast break," said Heddinger, who admitted that most of his points were scored on layups.

Three Basketball Terms We Couldn't Print slipped past both the censors and the Laserjocks in another 21-2 drubbing. Laserjocks managed a mere four rebounds in the contest.

Four Men and a Baby shot 21-of-30 in disposing of Bud and the Four Tail Boys 21-2. Three of Bud's five players managed a combined three shots between them for the game.

Nag and the Winners lived up to their name by destroying We Love Elvis 21-2. We Love Elvis shot 2-of-22 in the game and looked like they would rather be in Graceland than on the stephen's court.

Steve Shaw of The Monsters... The Disciples of the Death Ball was high-point man on the day, hitting 12 baskets in the Monsters' 21-17 victory over Regis Philbin's Disciples of Love.

"It was a fast-paced game, tight for the most part until the last few minutes," said Shaw. "Our defense influenced started to kick in."

The Death Ball, according to Shaw, is an old basketball that is a beastlike figure. It is an "existing force" which The Monsters take on to control the action and intimidate their competition.

**NOTES:** In the first week of play, 74 games were decided by 10 or more points. 20 by three or less and 16 by forfeit. 4,669 points have been scored in the first 144 games... The average margin of victory in those 144 games has been 9.69 points per game (21.06 pg to 11.37 pg).

**Lacrosse team routs Kenyon 14-7 to extend its winning streak to five**

*By PETE LAFLEUR*

Sports Writer

The Notre Dame lacrosse team returned to the "basics" Saturday, dominating every aspect of a 14-7 victory over Kenyon College at Edward W. "Moose" Krause Field.

Notre Dame 13-13-1 stretched its winning streak to five games, while Kenyon lost only the second time in seven games. The Irish dominated in ground balls (59-35) and won 17 of 22 faceoffs on the way to securing many key transition situations.

"Kenyon was playing with a lot of confidence, and they are a good team," said Irish coach Kevin Corrigan, "but we played this week in practice with confidence that we haven't had before, and that showed in the game."

Senior tri-captain John Olmstead led the Irish with two goals and five assists, with junior Brian McGlynn and freshman Mike Sullivan each chipping in four goals. Freshman goalie Tom Duane recorded 16 saves in his second start.

The Irish started fast with sophomore John Capano's goal 20 seconds into the first quarter. They then scored two goals in the last 20 seconds of the first quarter to take a commanding 6-1 lead into the second period.

"It didn't mean much to us to get out on top of them early," said Corrigan.

The Notre Dame offense balanced seven first-half goals with seven second-half scores, several of which came under eight goals for the fourth straight game and has not allowed more than ten goals in a game all season.

"Our defensive midfielders did a great job shutting down their midfielders, and everything they tried to throw at us, we shut down pretty well."

"I think the communication between the midfielders and the defense was a lot better than it has been, and that helped us work more as a total unit," Barnard continued. "Everybody seemed to have his head in the game."

Duane, starting his second game, saved 16 of 20 Kenyon shots, including 10 stops in the second half. He also directed a unit that cleared the zone on 5 of 11 attempts and held on for a 7-6 overtime win.

*The Observer / John Swistak*

Irish defensesmen Kevin O'Connor and Dave Barnard virtually shackled Kenyon's leading attackmen, Terry Martin and Jeff Alpaugh. The Lords' attack duo combined for four goals and three assists in last year's 7-6 Irish overtime win.

Martin settled for three assists Saturday, and Alpaugh scored only one goal.

The Irish defense adjusted to everything Kenyon had to offer, according to Barnard. "They looked primarily to jam the ball down the middle and then they tried to do 'middie jabs.'
