PTL trial suspended, Bakker committed

**Associated Press**

CHARLOTTE, N.C. — Jim Bakker was committed to a mental institution Thursday after a psychiatrist reported that he is incompetent to stand trial.

Bakker was brought into the federal courthouse in handcuffs and leg shackles Thursday after a psychiatrist reported that he is incompetent to stand trial. Bakker was brought into the federal courthouse in handcuffs and leg shackles Thursday after a psychiatrist reported that he is incompetent to stand trial.

“Mr. Bakker, I’m going to have to ask you to sit up, please,” a deputy marshal said. After the paperwork was completed, Bakker, bound hand and foot, was taken to the courthouse in handcuffs and leg shackles Thursday after a psychiatrist reported that he is incompetent to stand trial.

Bakker was brought into the federal courthouse in handcuffs and leg shackles Thursday after a psychiatrist reported that he is incompetent to stand trial.

He was sitting in the back seat of a marshal's car when he arrived.

David, graduated last May. A student housing complex

**University to build graduate student housing complex**

**By MICHAEL SCHOLL**

Notre Dame is now in the preliminary stages of developing a 200-apartment housing complex for graduate students.

The proposed development, to be located north of the O'Hara Grace Graduate housing complex, will be comprised of 33 two-story units, with each unit containing six two-bedroom apartments. A community center will be included in the complex, which is designed to house approximately 400 students.

According to a press release, the complex will be partially underwritten by Notre Dame alumnus Charles Fischer of Fort Worth, Texas. Fischer received his engineering degree from Notre Dame in 1949 and an M.B.A. from Stanford University in 1952.

He is currently president and chairman of the board of the Harbison Fischer Manufacturing Company, which is the world's leading manufacturer of subsoil surface oil well pumps.

Fischer also serves on the Advisory Council for the College of Engineering. His son, Ken, is a 1988 graduate of the University, and another son, David, graduated last May. A daughter, Teresa, is currently a senior at Notre Dame.

According to Thomas Mason, the University's vice president for business affairs, Fischer will donate $5 million to the estimated $12 million project. The balance of the money needed for construction is scheduled to be raised through loans that will be paid back with the rent money paid by the students who will live in the complex.

Mason said that rents for the complex "would be competitive with rents charged for other apartments in the local area.

Rooms for two bedroom apartments near the Notre Dame campus average approximately $450 a month.

**War II: 50 Years Later**

50 years later Germany reflects on the horrors of WW II

**Associated Press**

FRANKFURT, West Germany - World War II began 50 years ago today. One of many events marking the grim anniversary will be a concert in Warsaw, the first target of blitzkrieg, and a Polish newspaper's fearsome "lightning war."

The Soviet Union called the conflict the most horrible and destructive of all wars. "An ultra-conservative West German Cabinet minister" should not bear all the blame.

More than 50 million people were killed in the war touched off by the German invasion of Poland on Sept. 1, 1939. The Nazi extermination of 6 million Jews shocked the world like no other atrocity.

Major events are scheduled for Friday in West Germany, East Germany and Poland, including an internationally broadcast concert in Warsaw conducted by Leonard Bernstein.

Pope John Paul II used the occasion to declare: "We have a duty to learn from the past so that never again will there arise a set of factors capable of triggering a new catastrophe."

In the statement issued last evening, he called the Nazi slaughter of Jews something which will forever remain a shame for humanity.

John Paul is to address his Polish countrymen Friday evening by means of a huge television screen set up in Royal Castle Square in Warsaw's old city.

Tass, the official Soviet news agency, said Thursday: "The sad finale — 50 years since the beginning of the most horrible and destructive of all wars — requires that the world public not only learn the lessons of the past anew, but also determine guidelines for the future."

His commentary repeated Soviet calls for a reduction of armed forces and weapons in Europe.

Neues Deutschland, the official newspaper of East Germany's Communist Party, said: "The most important historical lesson of September 1, 1939, consists of never again letting fascism return."

In Hitler's native Austria, which he occupied and annexed in 1938 without firing a shot, the popular tabloid Kurier is running a daily series it calls "Hitler's War."

"It scarcely ever happened in history that the responsibility for a war was so clear," the newspaper said Monday. "It was, in the end, the work of one man. It was Hitler's war."

Austria has claimed to be the dictator's first victim. News media, politicians and intellectuals in West Germany have used the anniversary for a review of Nazi atrocities.

Special events included a concert Thursday night in Frankfurt featuring violinist Anne Sophie Mattie and Polish composer Krzysztof Penderecki conducting his "Polish Requiem."

As a gesture of reconciliation, the government said it was willing to return the Polish Embassy in Berlin, seized by the Nazis in 1941, to Polish ownership.

The far right in Germany has taken the opportunity to try to shift some of the blame. Tho Wikigel, the federal B...

Workers, punks and grandmas at the White Hen

The first week back to school. A period when you spend at least 70 percent of your waking hours trying to decipher what few brain cells are left in trying to put names with the faces, and the other 30 percent asking the age-old questions, "How was your summer? What did you do?"

The first summer I actually liked my job. I've had it for three years, and have tried to do my best in every role. But, since I too must make my annual contributions to the ND Bookstore, I had no choice but to go back to my job at White Hen.

No, it's not a farm, and has nothing to do with haying rice, except for the fact that we sell them.

Colleen Cronin

The Rolling Stones opened their first concert tour in eight years Wednesday night at the Chicago Stadium. According to Bick in an interview Wednesday, recalling years of dealing with parents reported to health officials.

Jerry Lewis says his son faces a Sept. 21 licensing hearing before the Indiana State Board of Nursing. Bick is Heinecke faces possible loss of his license. Heinecke, a registered nurse, is alleged to have been intimate with a patient admitted to the psychiatric unit of a Salt Lake Valley hospital in March. Heinecke had sex with the woman while she was in the hospital, took her to his home after she was discharged, then moved with her into the home she shared with her husband, according to the MD victim. The husband has been subsequently discovered his wife in bed with the nurse, the division said.

The bears are back. Just ask Betty Klasanya. I'm sitting on my patio in stage productions in the late 1940s and went on to such movies as "On The Waterfront" and "The Godfather." This is my last day," he said at the conclusion of lunchtime interviews as he was called back to the set. "Two more shots and I'm done with this madness ... You can't imagine how happy I am.

A male nurse accused of having sex with a patient with multiple personality disorder while she was in a child personality faces a 90-day suspension for 'gross unprofessional conduct.' He faces possible loss of his license. Heinecke, a registered nurse, is alleged to have been intimate with a patient admitted to the psychiatric unit of a Salt Lake Valley hospital in March. Heinecke had sex with the woman while she was in the hospital, took her to his home after she was discharged, then moved with her into the home she shared with her husband, according to the MD victim. The husband has been subsequently discovered his wife in bed with the nurse, the division said.

INDIANA BRIEFS

The Indiana State Board of Health has declared a measles emergency in Lake County and plans to inoculate at least 20,000 students against the illness, officials said Thursday. The declaration was made after county health officials acknowledged three cases of the viral disease and continued studies in several surrounding counties. Indian health officials, director of education services for the Indiana State Board of Health. McCoy said several factors were used to deciding where to inoculate including proximity to Chicago, where over the past two years there have been over 400 cases, the number of cases reported to health officials. McCoy said the state has 20,000 doses of measles vaccine available and more would be secured if necessary.

More than 50 million useless urinalyses are performed each year with simple chemical "dipticks" that cost more than $150. Several researchers studied published in Friday's Journal of the American Medical Association found that dipstick urinalysis — the most commonly used screening technique — is not useful. Although it may be useful for screening patients 60 years or older for unsuspected urinary problems.

ND develops heart attack risk kit

By BRADLEY GALKO
Staff Reporter

By the end of this year, a new method will have been developed to test an individual's susceptibility to heart attack or stroke that is quick, more precise, and more convenient than any present methods.

The new test kit has been developed by American Biogeneic Sciences, Inc. (ABS), a biotechnology company founded in 1983 in collaboration with Notre Dame.

"The things go as they should. We expect the kit to be finished around the end of this year," said ABS President Henry Nordhoff. He added, "We should have a test on the market in Europe and probably in the United States by the end of next year."

The potential worldwide market could reach $500 million, according to a statement by ABS.

The kit works by detecting the level of fibrinogen in a person's blood. According to a University news release, "Initial ABS research led to the development of a unique monoclonal antibody that targets fibrinogen in a patient's blood."

Fibrinogen is the precursor to fibrin, the main component of blood clots, which cause heart attacks and strokes by blocking the flow of blood to the heart and brain. An elevated fibrinogen level has been identified as one of the major risk factors to developing coronary artery disease. ("Fibrinogen level is a marker," said Nordhoff, "a more important indicator for coronary artery disease than smoking, obesity, second only to elevated blood pressure.

The finished kit will have two forms, Nordhoff, a five minute test to gauge if a patient has high levels of fibrinogen and a second quantifying test that would take about an hour to measure the levels of fibrinogen in the blood.

Nordhoff estimated that about half of ABS's 20 full and part-time scientists are dedicated to monoclonal antibody research. Research is performed at the Boyer's Genfree Life Building on the north end of campus.

This diagnostic test is the first of two antibodies ABS hopes to develop for the diagnosis and treatment of cardiovascular disease. In addition to the fibrinogen antibody, designated 451, ABS is working on the development of another antibody, MI-1, to detect blood clots on X-rays with a potential worldwide market of $600 million.

MI-1 could also be used to carry clot-dissolving drugs to the site of a clot. The worldwide market for this field is expected to reach $7.0 billion by 1990, according to ABS statements.

Catherine Walsh, a freshman at Saint Mary's College, is one of ten students from an applicant pool of 120 students to receive the 1989 Grace Foundation Scholarship. The scholarship is named after J. Peter Grace, chairman and chief executive officer of W. R. Grace & Co. This year's award was given as part of a new scholarship program set up by the Grace Foundation and made available to the children of employees. Recipients are chosen on the basis of their high school records and personal achievements.

Walshe, who is from Beaumont, Texas, plans to major in Liberal arts and eventually pursue a career in law. In his school career, he has involved in various activities such as the Latin club, drill team and the National Honor Society, in which he was in the top quarter of his class.

To some extent she attributes her tuition to her philosophy of life, "Always appear positive, even though you may feel negative, because in the long run it works out."

The Grace scholarship may be used for the three additional years of schooling.

160 killed in crashes this month in Istanbul, Turkey

ISTANBUL, Turkey — A leader of ethnic Turkish immigrants and guerrillas from Bulgaria claimed Thursday that 160 people have been killed in crashes in a month between Bulgarian security forces and the Moslem Pomak minority.

Mehmet Cuvus, head of the Association of Turkish Cultural Solidarity of Balkan Turks, told reporters Wednesday that a Bulgarian Moslem ethnic group numbering about 300,000 have been killed in fighting between sectional disputes announced Thursday it has sent a team to investigate a human rights group in Istanbul has registered more than 250,000 members of its Turkish minority in the past three months.

The team will visit Turkey and Bulgaria. In Istanbul, Cuvus said his reports on alleged killings came from sources in Bulgaria. He declined to identify them further, saying he did not want to endanger them.

Last week, Bulgaria denied a report of 30,000 killings in fighting between security forces and Pomaks — a Bulgarian Moslem ethnic group numbering about 300,000.

President Bush recalled the Polish Leo O'Laughlin, the head of the Office of Research and the Cold War, last week, "A bill that would go to the area to ascertain the facts and report back to him," she said.

She is an assistant secretary general who sometimes is called "the secretary-general's foreign ministry," it was formed in 1967 and collects information on situations that could threaten peace and security.

For five years, Bulgaria has been trying to assimilate its 1 million ethnic Turks by denying them identification as a minority. Diplomats put the number of deaths in May at 30 or more.

As the Pomaks, the ethnic Turks said they were victims of a forced assimilation campaign.

The sudden emigration has been fueled by ethnic Turks who have received passports and are leaving the empire to return to the homeland.

Early in August, 92 Pomaks from northern Bulgaria signed a statement charging that the Interior Ministry had refused to give them travel documents. They reportedly were told they are not included in refugees allowing all Bulgarians to travel abroad.

U.N. spokeswoman Nadia Younes said Secretary-General Javier Perez de Cuellar has been warned by Bulgaria and Turkey.

Thousands protest in streets of Moldavia

Associated Press

MOSCOW — Thousands of people in the republic of Moldavia surged into the streets of its capital Thursday night to protest a legislative compromise that would keep the Russian language a part of their everyday life, activists said.

Members of the southern republic’s legislature voted to substitute Moldovan — similar to Romanian — for Russian as the language of government and economic affairs. But they ruled that both Russian and Moldovan could be used in every day life.

“The people are scandalized. We need only one language,” said Vasily Nestase of the pro-Moldovan People’s Front, speaking by telephone from Kishinev, the capital.

Nestase estimated tens of thousands of people took to the streets outside the theater where the deputies had met, and he played a tape recording of the shouting masses. He said hundreds of police armed with clubs had formed a cordon around the building.

“If this decision is not reversed, we will start a general strike,” he said. The next step, he said, is secession from the Soviet Union.

“We are not a legal part of the Soviet Union,” he said, pointing to the Soviet annexation of Moldavia from neighboring Romania in 1940 under the terms of the Nazi-Soviet non-aggression pact, which also put the Baltic states under Soviet control.

The legislators had been seeking a compromise that would please both Moldovan nationalists and Russian immigrants. The Moldovans are trying to shed what they see as decades of infringement on their rights. The Russians feared they would be forced to learn Moldovan and went on strike at 200 enterprises in protest.

Representatives of both the Moldovan People’s Front and the pro-Russian group Yedinia said Wednesday they saw support for the compromise.

The choice of language is an important issue for Soviets because many believe they were forced to adopt Russian even though their native tongues are vastly different and represent their distinct cultural heritage.

The legislature, or People’s Front, gave the nationalists a clear-cut victory in two of its three decisions Thursday. It declared Moldovan the state language, to be used in government and cultural affairs, but Russian was typically used in government and commerce.

Pavarotti is banned from Chicago opera

Associated Press

CHICAGO — Tenor Luciano Pavarotti and his high C’s have been banned from the Lyric Opera, where officials say they tired of hearing the same old song after he once again canceled his appearances for the season.

"Lyric Opera is now unwilling to take the risk of one more cancellation by Mr. Pavarotti," said general director Ardis Krainik. "I’m very sad about this. But I didn’t have any choice. A lot of people have been very mad about his cancellations."

The last straw came when Pavarotti, 53, canceled six performances as Cavaradossi in Puccini’s "Tosca," Pavarotti, the season.

Krainik’s reaction ... But I didn’t have any relations."

"It is true that most of the cancellations in my career have happened with the Lyric Opera of Chicago, so I understand very well the disappointment that they have," Pavarotti said.

"I can say that if I am not good luck to the Lyric Opera of Chicago, then perhaps the Lyric Opera of Chicago is not good to me."

Breslin said he considered Krainik’s reaction "a little bit irrational."

Pavarotti has backed out of 26 of his 41 scheduled performances with the Lyric since 1981, she said.

Pavarotti’s New York-based manager, Herbert Breslin, said he spoke with the tenor Thursday at his home in Modena, Italy, and Pavarotti issued a statement saying that he agreed "there should be no future collaboration" with the Lyric.

"It is true that most of the cancellations in my career have happened with the Lyric Opera of Chicago, so I understand very well the disappointment that they have," Pavarotti said.

"I can say that if I am not good luck to the Lyric Opera of Chicago, then perhaps the Lyric Opera of Chicago is not good to me."

Breslin said he considered Krainik’s reaction "a little bit irrational."

the stand. The witness was re­

vived within seconds and said

he was laid low by illness.

"Mr. Bakker reported that

when he left the courthouse

Wednesday, suddenly people

outside took on the form of

frightening animals which he

felt were intent on destroying

him, attacking him and hurting

him," Jackson said.

Jackson said Bakker’s condi-

tion worsened overnight, even

after he was given Xanax, an

anti-depressant sedative. Bakker

was not in court for the hearing.

On Thursday morning, Bakker "was lying in the corner of his attorney’s office with his head under a couch, hiding," Jackson said. "He was express­

ing thoughts that someone was

going to hurt him."

"To put it in lay language, the

man is stressed out," Jackson

said later.

Prosecution and defense

lawyers are under court order

do not to discuss the trial outside

the courtroom. But during the

hearing, Assistant U.S.

Attorney Jerry Miller described

the psychiatrist as a "hired

gun."

Former Assistant U.S.

Attorney Mike Scofield said

most pretrial psychiatric evalu­

ations take about 45 days. But

the judge told jurors — who

were not told the reason for the

suspension in the trial — to re­

port back to court in a week.

Bakker and other PTL execu­

tives are accused of diverting

for their own use more than $4

million of $158 million raised

from followers who gave $1,000 for three nights’ free

lodging each year for life at the

ministry’s hotels.

If convicted on all 24 counts, Bakker could be sentenced to 120 years in prison and fined $5 million.

Bakker’s wife, Tammy, told reporters her husband was very distressed by the collapse in the courtroom. Wednesday of former PTL executive Steve

Nelson, a prosecution witness.

"I know when I talked to Jim

last night that he was in a ter­

rible emotional trauma and I

prayed with him and we agreed

that we would trust the Lord," she said outside her home in Orlando, Fla.

Waipel did not say who

should share the guilt, but

many on the far right claim So­

viet dictator Josef Stalin also

was responsible. The minister

resigned in the latest issue of the

Bayernkurier, party organ of

his ultraconservative Christian

E. Germans allowed to leave for the West

Associated Press

BONN, West Germany - Hungarian and West German officials have worked out a plan that will let up to 20,000 East Germans leave for the West over the next few days, government sources disclosed Thursday.

West German Karsten Voigt, foreign affairs expert for the opposition Social Democrats, told reporters in Budapest senior Hungarian officials confirmed to him they plan to let out all East Germans who want to leave for West Germany.

"I assume that in a very short time East German citizens (in Hungary) who want to go to West Germany will be able to," Voigt told the West German ZDF television network in an evening interview from Budapest.

About 10 percent of the 150,000 to 200,000 East Germans vacationing in Hungary are thought to be seeking passage to West Germany, and Bonn and Budapest have agreed to help them, the government sources said, speaking on condition of anonymity.

Both Hungary and East Germany are under communist governments and are in the Soviet camp, but Hungary has embraced Western-style reforms and is seeking closer ties to the West, while East Germany has shunned reform.

In Vienna, Austrian officials confirmed that Bonn asked them to arrange for special rail transportation for up to 20,000 East Germans to West Germany.

Voigt discussed the emigres situation in Budapest on Thursday with Hungary's Communist Party president, Rezso Nyers, and Foreign Ministry officials and later said he was told all would be allowed to leave.

"I was told this could only be a one-time thing. And it is certainly important for the East German leadership to tolerate such a solution if not support it," Voigt said.

Voigt said Hungary guaranteed that possessions left behind by the East Germans in Hungary could be returned to them.

The apparent plan to allow East Germans out of Hungary without the usual documents authorizing their departure may have been intentionally leaked by West German officials earlier Thursday to let potential emigres in East Germany know about the rare escape opportunity.

Most areas of East Germany receive Western radio or TV broadcasts.

Asked if Austria had agreed to allow the escapes during the next few days, one West German official told The Associated Press: "I cannot deny that."

QUOTE OF THE DAY

Cesare Pavese

LETTERS

Treasurer calls for more student involvement in spending funds

Dear Editor:

Once again this summer, we received a bill on our University statement for the student activity fee. This $55.00 charge to all undergraduates goes toward payment of many campus-wide events as well as for student run organizations and the school year. As Student Body Treasurer, I am accountable for where that money goes, and the manner in which it is spent.

It is the Treasurer's responsibility to see that the money students pay every year is distributed in the fairest way possible. Each transaction processed must pass three criteria: 1) it must be legal according to the student government constitution; 2) it must be for an organization that has been approved for funding by the Office of Student Activities; 3) the organization (the club or class government) must have money in the Student Union account. In short, if you plan to spend your fee, the organization must have funds in its account before they are approved for funding.

One integral part of this system, the budgeting process, was completed at the end of last year by members of the Student Senate Finance Committee. This group consists of members from student government, the Student Union Board, and the Office of Student Activities. Together, we allocated the 1989-1990 student activity fee. The student activity fee goes to over 120 student clubs and organizations, as well as to student government, the Student Union Board, all four classes, the Hall President's Council, and the student activity fund.

Have an opinion, an idea, or an exciting new thought? We want to hear from you. Write it down and send it off to Viewpoint, P.O. Box Q, Notre Dame, Indiana 46556, or drop it by the Observer, 3rd floor LaFortune Student Center.

Guy G. Weimantel
Student Body Treasurer
August 31, 1989
"What, after all, is a halo? It's only one thing more to keep clean. -- Christopher Fry

Lately, I've noticed that some of the starch has gone out of me, not so much physically as morally and spiritually. If

When you were a child at Christmas, which made you happier: a bundle of hand-knit socks, or a paper sack full of penny candy? From the look of it, I could tell that this value-oriented youth minister was wondering at which turn of the road in the lost childhood I had left innocence behind me like a bleached bone. The world is in rough shape - as you can tell from the newspapers -- and cynical, worldly priests may be part of the problem. Is the world less innocent now than it was 50 years ago? In early September, 1939, American newscasters, broadcasting from London and Berlin, were ending their programs on a portentous note: "The lights are going out all over Europe, and they may not be lighted again in this generation." If you put all the casualty lists and pomades together, over 50 million deaths took place, as a result of what is called the war. Earlier in the century, huge armies of lads described as "children ardent for some desperate glory," made the trip to the other side. Now, of Good and Evil. That time, only 9 million lives were lost, as the "rough beast, its hour come round at last," slouched toward Bethlehem to Works, longing more anxious upon the nations. "Know thyself" was the inscription on the temple of Apollo at Delphi. This impossi- ble precept, it's been suggested, needs to be translated into something more humanely pos- sible: "Know what you can work at." If you're a Christian, working to try to change the human condition, you should realize how little you are, and you should try to stay clear of the blood-curdling fight of moral su- periority. Religion can do a great deal for the human heart. It can offer it forgiveness, stroke it with grace, and help it to be born again. But religion doesn't have the right to be about the human condition, saying it was more or less innocent three or four decades ago than it is now; saying God is more displeased with it now, as the millennium is ending, than He was at the start of a world war; saying that in a war, We'll let human beings suffer the punishments they have brought on without any but that at the millennium, He'll take an active hand in the chan- tissement, and wipe out the hu- man race. Religion makes a big mistake when it turns simplistic and charges God with being like a cosmetic, to give the hor- ror stories a happy ending thereby virtually wiping out the problem of human suffering. This is the "Gallic Hell," a "hotbed of God and evil," the time, only 9 million lives were lost, as the "rough beast, its hour come round at last," slouched toward Bethlehem to Works, longing more anxious upon the nations. "Know thyself" was the inscription on the temple of Apollo at Delphi. This impossi- ble precept, it's been suggested, needs to be translated into something more humanely pos- sible: "Know what you can work at." If you're a Christian, working to try to change the human condition, you should realize how little you are, and you should try to stay clear of the blood-curdling fight of moral su- periority. Religion can do a great deal for the human heart. It can offer it forgiveness, stroke it with grace, and help it to be born again. But religion doesn't have the right to be about the human condition, saying it was more or less innocent three or four decades ago than it is now; saying God is more displeased with it now, as the millennium is ending, than He was at the start of a world war; saying that in a war, We'll let human beings suffer the punishments they have brought on without any but that at the millennium, He'll take an active hand in the chan- tissement, and wipe out the hu- man race. Religion makes a big mistake when it turns simplistic and charges God with being like a cosmetic, to give the hor- ror stories a happy ending thereby virtually wiping out the problem of human suffering. This is the "Gallic Hell," a "hotbed of God and evil," the time, only 9 million lives were lost, as the "rough beast, its hour come round at last," slouched toward Bethlehem to Works, longing more anxious upon the nations. This impossi- possible precept, it's been suggested, needs to be translated into something more humanely pos- sible: "Know what you can work at." If you're a Christian, working to try to change the human condition, you should realize how little you are, and you should try to stay clear of the blood-curdling fight of moral su- pediatric glory," made the trip to the other side. Now, of Good and Evil. That time, only 9 million lives were lost, as the "rough beast, its hour come round at last," slouched toward Bethlehem to Works, longing more anxious upon the nations. "Know thyself" was the inscription on the temple of Apollo at Delphi. This impossi- possible precept, it's been suggested, needs to be translated into something more humanely pos- sible: "Know what you can work at." If you're a Christian, working to try to change the human condition, you should realize how little you are, and you should try to stay clear of the blood-curdling fight of moral su-
CINCINNATI — Danny Jackson misses pitching. He misses baseball.

Most of all, the injured pitcher can’t wait to start throwing a baseball in the coming days.

The key to that will be determination.

"It’s been real frustrating," Jackson said.

Jackson is in the beginning phase of rehabilitation on his left shoulder, which he injured him much of the season and required surgery.

"I’m allowed to use a very light weight in exercises for the shoulder, gradually increasing the heaviness of the weight as his strength returns.

"They said I can’t start throwing until October some time," Jackson said. "It’s not going to do me any good to rush. I can’t prove anything.

He started the season hoping to prove last year wasn’t a fluke.

Jackson was 23-8 last season and finished second to Los Angeles’ Orel Hershiser in the Cy Young voting. His arm was even bigger this year. He had his left foot hurt at the end of the year, but doctors said rest would cure both problems.

It didn’t. The toe became infected during spring training, preventing Jackson from pushing off the rubber. That in turn put more stress on his arm and shoulder. He developed a sore wrist and shoulder as result.

"The toe helped cause some of the shoulder problems," he said. "Since I wasn’t able to move the shoulder the way I’m used to, the speed and the rotation of the ball had to come from somewhere else, which was weird.

He lost six of his first eight starts, went on the disabled list in mid-June, made four more starts and then returned to the disabled list with the sore shoulder.

"I think that’s why I had 23-8 last year," Jackson said.

Jackson has spent most of his time since the surgery at his home in Kansas City, where he follows the Reds through the newspapers. It’s been a quiet time.

"It’s been kind of boring, really. I haven’t been able to do anything," he said.

His rehabilitation schedule will have him toiling a ball in mid-October and gradually increasing his distance and velocity.

"By January, I’m going to start throwing off the mound," he said.

Jackson’s season statistics: a 2-1 record. 3.29 ERA, 140 strikeouts, and 122 hits allowed in 112-2-3 innings.

"It’s been easier mentally because there is nothing wrong that prevented me from throwing the way I know I can... but it doesn’t make it easier to live with," Jackson said.

Jackson is scheduled to return after the year I had last year..."

Golf team opens slate with 17-team tourney

By BARBARA MORAN

The Notre Dame women's golf team will face its first test of the season this weekend at the second annual Lady Irish Invitational Tournament. The Irish will host a field of 17 teams at Burke Memorial Golf Course, including the University of Michigan, Illinois State, Purdue, and last year's tournament winner, Western Kentucky.

Despite the team's loss of three seniors to graduation, Irish coach Tom Hanlon is expecting his team to place higher than its seventh place finish of last year. "We're definitely more competitive this year than last," said Hanlon. "We hope to finish in the top three, but it will take quite an effort."

Although he has not decided on a starting team yet, Hanlon said juniors Roberta Bryer and Pandora Fecko would definitely appear on the first team roster.

"Bryer and Fecko have turned in the best scores thus far," said Hanlon. "And Fecko is playing her best golf right now."

"We also have two freshmen, Cappy Mack and Kathy Phares, who are excellent players," he continued. "They've turned in a couple of scores and are competing for a position on the first team. (Sophomore) Liz Poden is also a strong player. It's hard to determine who are the best players when they've only been back at school for a few days. I still have to get some more scores."

"We should have a strong team this year, but we'll have to wait and see," Hanlon added. "But I'm always optimistic about my team."

Swedish Mats Wilander lost Wednesday night in the second round of the U.S. Open. He joined John McEnroe as the second former champion to exit the tourney in the second round.

Connors gets easy Open victory

Associated Press

NEW YORK — Jimmy Connors, the oldest player at the U.S. Open, showed Thursday he still has plenty of fight, while Andre Agassi and Michael Chang kept up the march of America's teen brigade.

Connors, who turns 37 on Saturday, avoided the upsets that had tripped two other former champions, disposing of hard-serving but erratic 23-year-old qualifier Bryan Shelton 6-7, 6-2, 6-2 in a second-round match.

Shelton, an All-America from Georgia Tech who lost to Boris Becker in the first round at Wimbledon in his first Grand Slam event, blasted 12 aces without being broken in the first set. He polished off an 8-6 win in the tie-breaker with his eighth service winner.

But Shelton's serve failed him as he double-faulted at game-point at the start of the second set, and the steady, wily Connors took his measure with blazing returns, deft lobs and passing shots.

Shelton managed only five aces in the last three sets and never threatened the 11th-seeded Connors in any of them.

Agassi, 19, Chang, 17, and Pete Sampras, 18, who took out defending champion Mats Wilander on Wednesday night, meanwhile, showed they are part of a new generation of U.S. players on the verge of taking over the game.

The sixth-seeded Agassi, with flowing locks and a throng of screaming female admirers, beat South African Neil Broad in winning 6-2, 6-3 to advance to the third round.

Chang, the seventh seed and French Open champion, handled the swirling breeze on the stadium court as easily as he did Sweden's Thomas Hogstedt in a 6-1, 6-3, 6-3 victory.

There were no big upsets, for a change, as top-seeded Ivan Lendl, third-seeded Stefan Edberg and ninth-seeded Tim Mayotte also advanced to the third round without dropping a set.

Lendl didn't strain himself much in a snappy, 78-minute, 6-2, 6-1, 6-1 victory against John Fitzgerald, a doubles specialist from Australia who charged the net furiously while Lendl stayed back and hammered forehands and backhands past him.

Lendl said he wasn't surprised at the second-round upset of Wilander by Sampras and four-time champion John McEnroe by newcomer Paul Haarhuis, or the near upset of Becker by Derrick Rostagno.

The game has gotten better," he said. "A new generation of players has come in and a lot of them are good. Some of them are good on a consistent basis, but not on the top level. Some of them are very up-and-down, and when they're up, they're very dangerous."

Chang said the young Americans are so good because they grow up playing together and pushing each other "to the limit."

"If you didn't work hard, you'd be at the bottom of the group, and nobody wanted to be down there," he said. "Everybody pushed everybody, and now that pushing is starting to pay off."

Norman takes one-shot advantage in Milwaukee Open

Associated Press

FRANKLIN, Wis. — Greg Norman shot an 8-under-par 64 Thursday in his first appearance of the year in the Milwaukee Open and took a one-stroke lead after the opening round of the $800,000 tournament.

Wayne Grady, Phil Blackmar, Curt Byrum and Steve Pate were one shot behind on a windy, overcast day at the 7,030-yard Tuckaway Country Club course.

Norman, playing the back nine first, started slowly with a bogey-5 on the 444-yard 10th hole.

But a birdie on the 525-yard 12th got Norman rolling. He finished the round with nine birdies, one on each of the course's four par-5s.

Grady, playing in the same threesome with Norman, kept pace. He made two 40-foot putts and another from 60 feet for three birdies, and holed a sand wedge on the 390-yard fourth hole for an eagle-2.

Blackmar, Byrum and Pate played the course in the afternoon when the wind picked up and a threat of rain lingered.

But all three managed seven birdies, on a course known for low scores.

Alone in third was Steve Lowery, who was six strokes from Davis Love III.

Three of the other 67 markers were on the 6-foot-2, 234-pound junior, who is a favorite to fill in in a big way this season.

Fireplug and played with Rock'em Sock'em Robots as a sophomore, who, according to the Notre Dame press guide is nicknamed "Donchak, Mihalko saw some opportunities from them that he's one of the best putters out there. You see a guy like him and he makes a couple of 40-footers and it's like 'Ho-hum, it's no big deal.'" Norman said.

"He's very loose and I admire him for what he's done," Grady said. "But I was hitting as solid as I could and it wasn't affecting my ball that much."

The 240-pound Blackmar said the low scores weren't surprising, despite the conditions.

"Tuckaway is a good course for the longer hitter, but you can put up some good scores. The greens are soft for the most part and the course is playing good. The scores are low and they will continue to be, particularly if it rains," he said.

Pate started with two birdies and stayed consistent throughout his round.

"I was just hoping to shot something under par. Usually when the wind is blowing, you can have two or three shots that will stray on you. I didn't let anything get away," he said.

Baltimore falls into tie with Toronto after 11-0 defeat

Associated Press

CLEVELAND — The Baltimore Orioles are no longer lonely at the top.

"Just because we have company for a day, it's no big deal," Manager Frank Robinson said after the Orioles lost 11-0 to Cleveland on Thursday night and fell into a first-place tie with Toronto.

The Orioles had led the American League East for 97 straight days since moving into first place May 26. They lost 107 games last year.

"We'll see how they [the Blue Jays] like it, and then we'll evict them," Robinson said.

Joe Carter hit two home runs and John Farrell pitched a five-hitter for his second career shutout.

Blue Jays 5, White Sox 1

TORONTO — George Bell drove in three runs, two with his 16th homer, leading Toronto past Chicago for the Blue Jays' ninth victory in 10 games.

Dave Stieb, 14-8, allowed four hits in six innings, struck out five and walking two in his second career shutout.

Red Sox 5, Angels 2

BOSTON — Roger Clemens struck out a season-high 13 batters to reach double figures for the 37th time in his career, and hot-swinging Jody Reed had four hits as Boston beat California.

Clemens, 14-9, fanned Lance Parrish and Jack Howell four times a piece in pitching his seventh complete game, striking out seven and allowing three hits.

Steve Rosenberg, 4-10, gave up five runs and nine hits in his second complete game of the season.

Bell's eighth-inning homer, his 16th of the season, extended his hitting streak to 22 games, a club record and the longest in the American League this season. He also drove in a first-inning run with a groundout.

Royals 3, Tigers 0

KANSAS CITY, Mo. — Bert Blyleven, who has not won in two months, allowed five hits, struck out seven and walked none. Jeff Montgomery worked the ninth for his 15th save.

Kevin Seitzer led the offense with three of Kansas City's six hits. The victory moved the Royals within 2 1/2 games of idle Oakland in the American League West.

Wilkins gives five-year extension with Atlanta

Associated Press

ATLANTA — Atlanta Hawks forward Dominique Wilkins, New York's Patrick Ewing tops the list at an average of $3.5 million a year.

Wilkins negotiated a contract that had two years remaining at $1.4 million each. He will be 34 years old when the new contract expires.

"I'm very happy, I can't tell you how happy," he said.

Wilkins, who has averaged 26 points a game over his seven NBA seasons, said that with financial concerns out of the way he can concentrate on basketball.

The Hawks have won 50 or more games in each of the past four seasons but have faltered in the playoffs.

Several ranked teams
open college season
Associated Press

With Thursday night's Kickoff Classic just a taste of things to come, college football really gets serious this weekend. No less than 11 ranked teams will be in action as the 1989 season gets off with a rush. Clemsons, Oklahoma and Brigham Young are among several overwhelming favorites in a long weekend capped by a key battle Monday night between No. 5 Southern Cal and No. 22 Illinois.

Clemson, ranked No. 12 in the country, is a prohibitive favorite over Furman. No. 15 Oklahoma figures to blow out New Mexico State, and No. 19 Brigham Young is favored by more than four touchdowns over New Mexico.

Elsewhere Saturday, sixth-ranked Florida State meets Southern Mississippi at Jacksonville, Fla.; No. 7 Louisiana State plays at Texas A&M; Stanford visits No. 18 Arizona State, No. 20 Pitt hosts Pacific, and Maryland travels to No. 24 North Carolina State.

Along with Illinois' game at Southern Cal, No. 14 Colorado also hosts Texas on Monday. Though Stanford finished ninth in the Pac-10 at 1-5-1 and was 3-6-2 overall last season, the Cardinal has four returning all-conference players, more than any team except Southern Cal. "They have a lot of talent, and they were real close last year," said Arizona Coach Dick Tomey, whose team tied for third in the conference with Washington State at 3-3 and ended the season 7-4.

"We know that legitimately, Arizona should be ranked in the Top 20 in the country," said Stanford's new coach, Dennis Green, on the Stanford staff for the third time after three years coaching the San Francisco 49ers' receivers.

"They were by far the best 7-4 team in the conference last year," and probably the best 7-4 team to not get to a bowl game in the last five to 10 years, Green added.

Rice continued from page 16
terbacks Major Harris, Rodney Peete and Steve Walsh. All three finished in the top five last year's Heisman balloting. This time Rice was receiving all the attention while Virginia's Shawn Moore, a quarterback coming off a strong year with a style similar to Rice's, was virtually ignored.

Everal diligent teacher, he took Moore to school. The Kickoff Classic's most valuable player nearly doubled Moore in passing yards (147 to 85) and had two and a half times more rushing yards (70 to 27). Rice's leadership, however, extends beyond the field. The day before the game, he got in some good-natured teasing to Ricky Watters, excited about his return to tailback.

"We were watching highlights of (Florida tailback) Emmitt Smith, and I kept saying, 'Emmitt's better than you.' He kept saying, 'No, no,' and I kept teasing him." Watters responded with 189 all-purpose yards (60 rushing, 67 returning, 42 receiving) in his first game as Notre Dame's starting tailback.

"He (Rice) does everything it takes to win," said Watters. "He's going to get it done. He's the glue to the team. Bottom line, he's a winner."

ND soccer opens season tonight

By KEN TYSIA
Sports Writer

"A good defense is the best offense." If this time-honored sports proverb is true, the 1989 Notre Dame men's soccer team is destined to right itself where last year's tremendously successful squad left off by challenging the top-ranked soccer powers in the nation.

"Defense will be the key for the entire season," says Coach Dennis Grace, "Building from the defense out has always been our philosophy. We're going to have to keep the ball out of our own net if we want to stay in some of these games early on in the season."

This weekend Virginia and St. Louis will be the first two opponents of Notre Dame soccer. According to Grace's philosophy at the Adidas National Soccer Classic in Bloomington, the Irish meet the top-ranked Cavaliers today and the U.L. Cardinals tomorrow.

This Irish have some voids to fill in the forward and midfield positions if they are going to rise to the occasion and knock off the Cavaliers or the Billikens this weekend. Last year's top five scorers were lost to graduation, so although the Irish return a respectable 12 starters from last year's 17-4-2-29 NCAA Tournament team, they have their work cut out for them.

Juniors Dan Stensland and Tony McCourt, and Tom Connaghan are expected to provide the scoring load. The departed stars, Tiger McKnight (111 career points), Jay Stokberg (96), and Randy Morris (96) left off.

In addition, Grace says Steve LaVigne and Mitch Kern are capable of adding punch to the offense. As completing freshmen Kevin Pendergast and John LaVigne, both from Pendergast High School, are considered to be the premier goalkeepers in the nation, anchoring the defense which gave many leadership responsibilities through the course of the season.

"Danny Lyons is one of the best goalkeepers in the country," praises Grace. "Danny will never have an average, subpar season."

Indeed, with a 1.01 goals-against-average last season, Lyons was superb in the net for the Irish, and he should be a bright spot again this season. Overall, this team may be slightly more talented than last year's squad. "What's wrong with the offense is that many of his players have improved tremendously over the winter and should be ready to step in and contribute in the goal-scoring department."

The Irish will need to click on all cylinders if they are going to beat Virginia today. The top-ranked Cavaliers boast two returning first team All-Americans and eight returning starters. Sophomore goalie Tony McKnight, a 10.31 goals-against-average last year, is considered to be the premier goalkeepers in the nation, anchoring the defense which gave

EAST RUTHERFORD, N.J. — Lou Holtz, who often uses boxing Analogies in team speeches, watched his team turn in a Mike Tyson-type performance Thursday night at Giants Stadium.

Scoring touchdowns on each of its first five possessions, Notre Dame opened its national championship game with a 36-13 Kickoff Classic win over Virginia.

"I don't know if we can play much better than we did in the first 25 minutes," said Holtz.

The Irish dealt their first knockdown when Todd Lyght intercepted Virginia quarterback Shawn Moore's pass on the third play from scrimmage. Six plays later, Rickett Watters skirted two yards into the end zone untouched. The ensuing extra point gave the Irish a 7-0 lead.

A tight Virginia team never recovered, looking like a Carl The Truth" Williams in the ring as a heavyweight champ in the second quarter. On one occasion, Anthony Johnson diving from in the one-yard zone untouched. The ensuing extra point gave the Irish a 7-0 lead.

"We came out tonight and said, let's make the first fast," said Holtz.

Notre Dame marched 54 yards in 11 plays, with Anthony Johnson diving from in the one-yard zone untouched. The ensuing extra point gave the Irish a 7-0 lead.

In none of those two drives did Notre Dame even throw a pass. Instead, the Irish used a powerful running game. Rice, the game's most valuable player, completed seven

by VICTOR MEYER

Anthony Johnson celebrates after scoring a touchdown during the first quarter in Thursday night's Kickoff Classic against Virginia. Johnson's touchdown gave Notre Dame a 13-0 advantage, and the Irish scored 16 more points before the game ended.

Rice shines in first game

by STEVE MEGARGEE
Associate Sports Editor

During Wednesday's pregame press conference for the Kickoff Classic, the captains of Notre Dame and Virginia each made brief remarks. Notre Dame quarterback Tony Rice stepped to the podium and said, "I'd like to thank West Virginia for coming here."

It was about the only mistake he made all week.

The senior from Woodruff, South Carolina, led the Irish for five series in the first half. All five times, the Irish reached the end zone.

"Tony's a gamer," said fullback and fellow tri-captain Anthony Johnson. "He plays well in practice, but he seems to turn it up a notch for the games for the games."

The Irish scored twice more in the second quarter, on one touchdown by Johnson and the other a three-yard scamper by Rice. In the meantime, the Notre Dame defense, which has three starters in the past month, held Virginia to 60 net yards in the first half. Shawn Moore, the Cav's promising quarterback, completed only 10 of 22 passes on the night for 85 yards. Lyght led the way with two interceptions and a blocked punt.

"Moore's an excellent quar­
terback, but he has a tendency to throw off his receivers, which makes it easier for the defensive backs," said Lyght.

Rice, with five tackles and two interceptions by replacing Rice with freshman Rick Mirer at quarterback.

"It's one of those games where you burn the film," said Virginia head coach George Welsh. "I think he (Holtz) was nice to us. It could have been much worse."

Rice, the game's most valuable player, completed seven

Notre Dame's replacements are a similar pack, thrust into the spotlight by circumstances beyond their controls. A bit inexperienced at times, they take to the stage, and while they don't necessarily wing it, they do all the things that the replacements of their predecessors.

But unlike The Replacements of the stage, you won't find Mike Tyson-type performances in their performances. Instead, they are well-versed performers of their predecessors.

Indeed, with a 1.01 goals-against-average last season, Lyons was superb in the net for the Irish, and he should be a bright spot again this season. Overall, this team may be slightly more talented than last year's squad. "What's wrong with the offense is that many of his players have improved tremendously over the winter and should be ready to step in and contribute in the goal-scoring department."

The Irish will need to click on all cylinders if they are going to beat Virginia today. The top-ranked Cavaliers boast two returning first team All-Americans and eight returning starters. Sophomore goalie Tony McKnight, a 10.31 goals-against-average last year, is considered to be the premier goalkeepers in the nation, anchoring the defense which gave
