THE INDEPENDENT NEWSPAPER SERVING NOTRE DAME AND SAINT MARY'S

Recycling to begin at ND

By SANDRA WIEGAND  
News staff

As the recycling of paper, aluminum, and glass becomes a campus-wide campaign this year, students will have the opportunity to get involved in preserving the environment.

Receptacles for paper and aluminum cans will be placed in all dorms. Computer paper receptacles will be placed in LaFortune Student Center, among other places. Presently the only receptacle for glass is in the Alumni Senior Club.

Students will also have the chance to serve on the recycling committee. According to James Dailey, president of the Environmental Action Club (EAC), "We need a couple of representatives from every dorm. The main responsibilities of the student representatives will be to organize day to day publicity, maintain clean, neat receptacles, and give special attention to the weekend overflow of aluminum cans.

Anyone wishing to be a dorm representative should contact James Dailey or attend the next EAC meeting this Sunday at 7:30 p.m. at the Center for Social Concerns.

Two committees, one a division of Student Government, and the other comprised of the student representatives and members of the Business Affairs department of the administration, will direct the campaign.

There will be two or three representatives of Student Government, including Laura Manzi and Student Body President Matt Breasin. The administration will work out any problems between the involved parties.

Recycling is not completely new to Notre Dame. An aluminum can recycling program was started a few years ago by Lisa Albrit of the Community of International Lay Apostles.

James Dailey initiated its expansion when he proposed at the end of last year that the University sponsor a more widespread campaign. The administration then set up a task force which decided to implement the program this Fall. Last year the program was run entirely by the EAC.

This year Dailey said, "we're trying to make this as much a student-run campaign as we can."

Last year's program drew an estimated $300 per semester, reaching a high of about $800. Most of the money generated by the present program will be used for operating costs. Dailey predicts a one to two month period before the project begins to make a monetary profit. The decision as to where the money will go will be made after the project breaks even.

Superior Waste, a subdivision of Waste Management, will handle the recycling.

College enrollments on the rise in Indiana

Associated Press

INDIANAPOLIS — Record enrollment is expected at several Indiana colleges and universities this year.

Indiana University-Purdue University at Indianapolis has recorded the highest enrollment in its 20-year history. The unofficial total for the fall semester is 26,675 students. Last year school officials reported 24,800 students enrolled.

Registration just ended Thursday at Butler University, where the registrar's office estimated enrollment will be about 4,250 — the largest number of students since the years right after World War II. Enrollment last year was 3,902.

Indiana University officials anticipate another record enrollment.

Official numbers will be compiled in time for the board of trustees meeting Sept. 14, but indications are that Bloomington campus enrollment may be up nearly 3 percent over last year's 33,776.

Registrar Gerald Pugh said that registration for this fall's classes began last

137 thought dead in Cuban crash

Associated Press

MEXICO CITY — Cuban press reports said Monday that as many as 137 people may have died when a passenger jet bound for Italy crashed in a thunderstorm shortly after leaving Havana's airport.

Italian and Cuban officials worked together Monday to identify the victims of Sunday's crash.

But all but one of the 126 on the Soviet-made jetliner said to have been killed on the grounds at Radio Havana said another two people on the ground were missing.

At least 63 people were injured, and 15 of those were reported in critical condition.

The plane crashed during a heavy thunderstorm after takeoff from Jose Marti airport, sending flames one mile, or 1.6 kilometers, into the sky as it crashed into a neighborhood on the southern outskirts of the capital.

The chartered Cuban de Aviacion jetliner, on route to Milan, was carrying 113 Italians, two Cubans and a crew of 11, said Cuban ambassador to Rome, Javier Ardizones. He confirmed there was one survivor.

The cause of the crash was not known, but a Foreign Ministry employee in Rome said the weather appeared to be a factor.

"It was very bad, with rain and lightning," he said, speaking on condition of anonymity.

The lone survivor from the plane was not immediately identified, Presena Latina said. The Cuban government agency said it did not give the survivor's condition.

A Cuban film critic said that on the plane there were at least 63 people who may have been killed. Many of the 24 people being treated at the Calixto Garcia Hospital in Havana where the injured were taken, had burns on more than 70 percent of their bodies and had multiple fractures, it said.

Fifteen were still in a coma and the rest had minor injuries, the agency said.

The fact that most of the victims were foreigners and the bodies were burned made identification process, the agency said.

In this task, we are receiving valuable collaboration from the Italian Embassy and the Revolutionary National Police," it said.

Many of the 24 people being treated at the Calixto Garcia Hospital were in a coma where the injured were taken, had burns on more than 70 percent of their bodies and had multiple fractures, it said.

Fifteen were still in a coma and the rest had minor injuries, the agency said.

Many of the 24 people being treated at the Calixto Garcia Hospital in Havana were in critical condition, six serious injuries. Many had extensive burns and multiple fractures, Presena Latina said.

A taxi driver and three passen- gers he was driving down Boyeros Avenue in the Havana suburb of Boyeros were among the injured in the crash.

Presena Latina said the crash of the Ilyushin 62 was the worst in the history of Cuban de Aviacion.

The fact that most of the victims were foreigners and the bodies were burned made identification process, the agency said.

In this task, we are receiving valuable collaboration from the Italian Embassy and the Revolutionary National Police," it said.

Returning foreign studies students feel like foreigners

"Hey, how was your summer; I mean year," a passing friend shouts across the quad. Most others just do a double take and say my name tentatively. It was a long summer, but for some Notre Dame students last summer stretched into last year. For the many students who spent the summer abroad, it has been quite a while since they have seen their freshman friends and walked to the dining hall on an ivy-covered campus.

I returned to Notre Dame feeling somewhat like a freshman, but officially a junior. The last time I had seen most of my good friends they were wishing me good luck and goodbye as I set out to spend the year in Rome. I was a freshman then. I returned a good year later, a junior.

Things are a weird combination of the same, yet different for all those students who have studied abroad. Our freshman friends are still around, faithful as ever, but the social groups have changed. Everybody changes and readjusts around their sophomore year. For students returning from foreign study they often find changes shocking.

It was easy to think that time stood still while I was away. Often times I hopefully thought it would. Notre Dame is home and during the hard times in a far away land it was good to realize that some things stayed constant.

Coming back I realized that a whole year had gone by. My friend and I had a full set of experiences apart from each other. We had all grown.

I couldn't trade my experience in Rome for anything. I did miss some events on campus, but gladly my friends can brief me on all the details.

Bellhops beware: The 51 women arriving in Atlantic City on Tuesday for the Miss America Pageant will bring a lot of luggage. Preliminary competitions for the 69-year-old pageant begin Sept. 14 in Atlantic City. The clincher is that all pageant contestants are required to submit an essay on an issue of her choice; if she wins the crown, she will be able to promote that issue during her yearlong reign, said pageant director Leonard Horn. "It is not a beauty pageant, and it is not just a scholarship pageant," Horn said. "This program fosters personal growth and achievement, and scholarship is not an end in itself, it's a mean to an end."

WEATHER

Partly sunny and a little warmer today. High around 80. Partly cloudy tonight with lows at 60 to 65.

April, and an extra 500 students are expected through last retention.

Purdue University announced a record number of students on its West Lafayette campus for the third year in a row. But the number of freshmen has declined from 7,326 to 6,681.

Fall-semester enrollment at Purdue is 35,817 - an increase of 848 students over the 1988 number of 34,969.

Reaction to the 1988-89 enrollment at Purdue, according to the university registrar at the University of Notre Dame, is expecting enrollment of God-affiliated liberal arts college, is expecting enrollment to at least reach the mark of last year.

Enrollment at Notre Dame, Purdue University announced Tuesday, September 5, 1989, will probably be up over 9,980 in 1988 to 9,725 freshmen. The freshmen class that administrators had to nearly limit the size of the incoming class. Anderson University students are due back at classes Tuesday following orientation for freshmen and new students.

Enrollment at Notre Dame, South Bend, dropped slightly from 9,980 in 1988 to 9,725 this year, according to the Registrar's office.

FALL AUDITIONS:

Parents donate to ND

For the fourth consecutive year, Notre Dame has ranked first among the nation's private institutions of higher learning in contributions from parents.

Notre Dame parents contributed $4,009,108 in 1987-88, according to the annual report on voluntary contributions to American higher education by the Council for Aid to Education, a non-profit. Brown University, Duke and Vanderbilt Universities followed in order to make up the top five.

In overall giving, Notre Dame ranked 19th among the country's independent colleges and universities with a total of $44,738,284 during 1987-88. Stanford, Harvard, Cornell, Yale and Pennsylvania universities comprised the top five in overall giving, according to CFAE figures. Notre Dame's total was the third highest in University history. In 1986-87, it raised more money-$45.9 million— but was ranked one notch lower at 20th among private institutions.

In corporate matching gifts Notre Dame was 6th in both number of gifts matched (4971) and the amount contributed in matching funds ($1,450,239). The University was 13th in the percentage of solicited alumni who gave (38 percent) and 17th in total alumni contributions ($12,595,740). It ranked 16th among private institutions in awards from foundations ($13,257,723).

The CFAE report said that estimated 1987-88 private contributions of $8.2 billion to U.S. colleges and universities fell 3.5 percent from 1986-87, the first dip since 1974.
Democracy rallies continue, thousands flee E. Germany

Associated Press

LEIPZIG, East Germany — Several hundred East Germans rallied Monday with banners demanding more democracy and freedom and leaving behind thousands. Witnesses said several protesters were arrested during scuffles with police.

The demonstration began in front of St. Nicholas church after a traditional Monday "prayer for peace." The church has become a gathering place for human rights activists.

Witnesses reported that at the scene the predominantly young crowd carried banners calling for more freedom. "Freedom to Travel Instead of Mass Escapes," said one sign. Another said, "For an Open State with Free People."

A crush of East Germans have been fleeing their homeland this summer through other East bloc countries. Many have complained about the rigid Communist system of this country.

About 6,000 East Germans have escaped to the West since Hungary began removing fences from its border with Austria in May. Nearly 5,000 other East German refugees are waiting in camps in Hungary for the transfer to West Germany.

During Monday's protest, about 500 people stood outside the church, shouting "We want out!"

As the crowd tried to march toward the center of the city, security forces blocked the way. Scuffles broke out as plain-clothesmen tore down protest banners, and several demonstrators were dragged away and arrested, witnesses said.

Later Monday, about 200 protesters left the St. Nicholas church and marched to Leipzig's train station shouting, "Free Ride to Gelsen!"

One of the main refugee reception centers in West Germany is in Gelsen, near Frankfurt.

Witnesses said security troops watched the march from side streets but did not intervene and the crowd dispersed after reaching the railroad station.

Campus Ministry and You

"Catholic" or "catholic"?

Are you a catholic or a Catholic or both or neither?

The word "catholic" is a Greek word that means universal. So, at its best, a University referring to itself as Catholic would be one open to all people everywhere.

Have you experienced the Catholic Notre Dame as being a catholic Notre Dame? Has it been your experience that University Catholics are able and willing to reach out well beyond themselves to everyone everywhere? Or do you, rather, think of the University as a narrowly defined, select group of persons who exclude certain groups and populations from full membership?

At Notre Dame, the University administration is charged to make sure we remain a Catholic University. The office of campus ministry accepts as part of its mission a charge to make sure we stay catholic. That means campus ministry wants to be available to serve the spiritual growth of all members of the University community; those who call themselves "Catholic."

The purpose of this column is to let you know that we stand ready to do just that. Whomever you are and wherever you might be, we are available to you to assist with your exploration of spiritual issues. Such exploration is an important part of the University years - to ignore it is to miss out on personal and spiritual development.

Sometimes that exploration will be about ways to increase your life of faith. It can be done through involvement in programs of religious education events, the Notre Dame Encounter with Christ and/or a relationship with a pastoral counselor or a spiritual director. At other times your exploration might focus more on doubts or on current disagreement with what you had once unquestionably accepted. Or your focus might be on dealing with hurts and anguish perceived to have been caused by the Church or by church members.

As you might have heard, the University is taking a long, in depth look at the role of campus ministry at Notre Dame. The Task Force on Evangelization, Pastoral Ministry and Social Values has been created to explore various issues related to the religious life of the University community. The scope of the charge to that task force is very encompassing and it will be about a year before its work is complete.

But the office of campus ministry does not intend to remain dormant until the task force has completed its work. So if you have any ideas at all as to how we might better serve the University community or any segment of it - especially those segments that have been or consider themselves to have been underserved by the University - let us know.

Especially let us know if you're interested in helping shape the sort of programs we develop through the office of campus ministry. It is our intent to establish a number of groups to advise us on effective ways to serve the needs of a variety of population groups, including graduate students, off-campus students, racial, ethnic, religious and sexual minority students, etc. If you're interested in helping with that endeavor, let us know.

Give a call to the office, or tonight be a Student Activities night at the JCC. We'll be the ones wearing the ASME WHY buttons. Ask us why you should care about campus ministry. I trust we'll be able to tell you.
1989 CROP Walk being planned

Organizational meetings for the 6th annual CROP Walk will take place Wednesday (September 6) and Thursday (September 7) at 6:30 p.m. at the First Christian Church (1101 East Jefferson Blvd.). Karen McKibbin, La Salle High School Teacher, Indiana Teacher of the Year, Honorary Doctor of Laws of the Notre Dame and Honorary CROP Walk Chairperson, will be present at the Wednesday night meeting to try on a new pair of tennis shoes donated by the Big Sky Shoe Store. Such was McKibbin’s enthusiasm for the October 8 community fundraiser.

Lewis raises over $42 M in telethon

Associated Press

LAS VEGAS — The 24th annual Jerry Lewis Labor Day Telethon wrapped up Monday with the comic coaxing $42,099,727 in cash and pledges from about 100 million viewers.

Corporations contributed an additional $36,228,846 during the 2 1/2-hour event, which featured a parade of top name entertainers and poignant stories from muscular dystrophy victims and their families to push the total telethon donations since 1966 to $326,524,210.

Lewis opened the show Sunday night by saying that invocds had been made against 40 neuromuscular diseases that the Muscular Dystrophy Association is involved in fighting. Lewis called the advances “stunning to the heart, stunning to the mind.”

As in previous years, it was the victims and their families who provided the telethon’s most affecting moments.

United Airlines executive Bob Sampson drew a standing ovation from 2,000 people in the Jerry Lewis Theater at the Cashman Field Center when he said: “There’s been enough of this disease killing children and devastating families.”

JUST WHEN YOU NEED IT

The Navy has $50,000 or more to help you finish your last two years of college.

The Naval Reserve Officers Training Corps (NROTC) Two-Year Scholarship Program can pay your tuition, textbooks and instructional fees, plus give you a monthly $100 tax-free allowance during your last 20 months of college.

Upon graduation you’ll be commissioned a Navy officer and enjoy the benefits and opportunities offered, such as advanced education in any of the Navy’s high-tech fields. NROTC two-year scholarships are highly competitive. Applications must be turned in early in your sophomore year. For more information, see or call:

NAACP says police in Va. Beach 'overreacted'

Associated Press

VIRGINIA BEACH, Va. — An NAACP official Monday accused authorities of overreacting during two nights of clashes between black college students and police — an allegation this resort city's mayor denied.

Up to 23 people were injured and more than 100 stores looted in the bottle-throwing melees, which disrupted the Labor Day holiday in this resort of 250,000 and left miles of normally busy beaches nearly empty.

Police said up to 100,000 young people, many here for an annual fraternity festival of students from mostly black colleges, were on the streets when rioting broke out early Sunday. Violence resumed Sunday night and police, backed up by state troopers and National Guardsmen, imposed an overnight curfew.

Police reported arresting 160 people and issuing 395 citations through Sunday afternoon. Arrest figures overnight were not immediately released.

Jack Gravely, president of the state chapter of the National Association for the Advancement of Colored People, said police reaction would have been different if the students had been white.

"Their response was to confront the students from a position of power," Gravely said. "The Virginia NAACP strongly condemns the overzealous, overpowering and overreactive actions of the Virginia Beach police."

But, Gravely, added, "That is not to say that they did not have a right to protect property and persons."

NAACP officials and students have said they felt unwelcome in the city and had been harassed by police. Gravely said the trouble erupted as students "felt squeezed" by police and "felt a need to show discontent."

If you can find a Macintosh in this room, we might put one in yours. Free.

In what will surely be the easiest test of your intellect this term, Apple invites you to try winning a free Apple Macintosh Plus personal computer merely by finding it in this drawing.

We'll even give you a hint. It's not the table, the lamp, or the chair.

Now you're on your own.

To register, look for contest details where Macintosh computers are sold on your campus. Oh, all right, we'll give you a hint for that, too. Look at the bottom of this ad, but do it really, really fast. Because only one Macintosh is being given away on this campus, and it's going to happen soon.

Soon, as in right away. Pronto. Quick-like.

But hey, you can take a hint.

Somebody's going to win a free Macintosh.

Enter August 25th-September 15th
Notre Dame Computer Store, Office of University Computing
Math/Computing Bldg. Notre Dame, IN

One entry per person, please.

Only fulltime students, faculty, and staff are eligible to win.
Performative expressions: 'Don't want a lot of hype. Just want something I can count on.'

In the context of longer distance communication, AT&T's network ensures quality service. It prioritizes long distance connections, including international calls, and offers immediate assurance of a high-quality service experience. This commitment to excellence is illustrated through the notion of being able to count on AT&T for dependable service. The narrative underscores the value of AT&T's reliable service, highlighted by the names of cities like Johannesburg and Cape Town, where such connectivity is essential. The AT&T's intelligent network is highlighted, emphasizing the technical foundation of this service. The AT&T's Intelligence Network, driven by advanced technology, supports a seamless, high-quality communication experience for users across the globe. This foundation is further supported by the company's name, AT&T, signifying a trusted choice in telecommunications.
Coalition weaves seamless garment of rights

Rev. Michael S. Himes
On Human Rights

Life must be seen as an indivisible whole. Any violation of any one's right to life weakens ev¬eryone's claim to such a right. Thus opposition to abortion on demand is linked to opposition to the death penalty, support for the homeless entails work for the homeless, and...
In late spring, Public Image Limited released the ninth album in their eleven-year career. The album, entitled 9, is a perfect, fine effort and proved to be somewhat of a breakthrough for the band. 9 is basically a pop album with many catchy, 80s-type dance songs. The album offers a sharp contrast to the band's earlier, more organic albums. While the changes may not sit well with longtime PIL fans, it has helped the band gain more recognition in the States. The first two releases, "Happy" and "Disappointed", scored rather well on U.S. radio stations this summer.

A change in guitarists has caused the shift in sound from hard rock to softer pop songs. This is most apparent on side two of 9. "Like That" and "Armed" are good dance tracks, complete with catchy keyboards and female background singers. This change is not too surprising since PIL has been trying to refine their sound since they started in 1978. However, the band's new style may not be welcome because it appears that they have sacrificed some of their talent in favor of technology.

The best songs on 9 are "Warrior" and "U.S.L.S. I." These tracks, along with lead singer Johnny Lydon, formerly Johnny Rotten of the Sex Pistols, to showcase his obvious, yet powerful voice. On "Warrior," Lydon paints a self-portrait by singing about a man obsessed with integrity: "This is my land/I'm a warrior/I'll never surrender." Lydon, with haunting lyrics and vocals, sings about the evil of war on "U.S.L.S. I."

These veteran English rockers have put out a great album and anyone unfamiliar with PIL should give it a listen.

**MUSIC REVIEWS**

**LOVE AND ROCKETS**

**Love and Rockets**

The self-titled LP is the fourth from this English trio, fans will be happy to know that it is as good as their previous efforts. Love and Rockets contains ten songs spanning over forty minutes. Guitarist/vocalist Daniel Ash and bassist/vocalist David J write about such topics as motorcycles, devils, and heaven and hell. "Motorcycle" is a rockin' tune about the freedom Ash feels on his bike. "Bound For Hell", a blues-influenced track, describes J's dream of a train headed for hell. Love and Rockets also contains some great slow songs reminiscent of 1987's Earth, Sun, Moon. "The Teardrop Collector", featuring a melodic guitar solo, is a mellow track in which Ash asks "If you don't love someone, why fake it?" And if you love someone why chain them to you?" Other slow songs include "So Alive", an intoxicating track that hit big this summer, and "No Words, No More", with acoustic guitars and harmonica.

One drawback to Love and Rockets is the arrangements of songs. Side one starts off strongly then drops off. The first two songs, "Simple Act" and "No Big Deal" are great rock songs featuring bass, lead guitar, and slightly distorted vocals. "The Purest Blue", a dreamy slow song, follows. This sort of inanity is annoying because it keeps the listeners from getting into a groove while playing the album. Nevertheless, this album keeps up to the standards set by Love and Rockets' previous albums, and definitely deserves some attention.

**Shakespeare Fest celebrates director's last year**

CARLA JOHNSON  
accept writer

During the course of the last weekend in September, Notre Dame students and faculty will be treated to four noted Shakespearean plays - "A Midsummer Night's Dream," "The Shoemaker's Holiday," "Kiss Me Kate," and "Henry V." as well as a party with the cast of "Kiss Me Kate." Since the Stratford Shakespeare Festival opened in May 1952, it has been a mecca for lovers of fine theatre. But few who have visited Stratford as a respite from the hassle and expense of London and New York have realized that, when John Neville, the artistic director of the festival, came to the helm, the Festival was in financial trouble.

Stratford is not the only Canadian theatre Neville has saved. In Alberta and Halifax, Still, nothing in his background could have predicted his business acumen. In a recent interview Neville reveals his success when John Neville, the artistic director of the Festival, will replace Neville as artistic director in 1990.

The summer saw the release of a new album by Love and Rockets. The self-titled LP is the fourth from this English trio. Fans will be happy to know that it is as good as their previous efforts. Love and Rockets contains ten songs spanning over forty minutes. Guitarist/vocalist Daniel Ash and bassist/vocalist David J write about such topics as motorcycles, devils, and heaven and hell. "Motorcycle" is a rockin' tune about the freedom Ash feels on his bike. "Bound For Hell", a blues-influenced track, describes J's dream of a train headed for hell.

**Shakespeare Fest celebrates director's last year**

CARLA JOHNSON  
accept writer

During the course of the last weekend in September, Notre Dame students and faculty will be treated to four noted Shakespearean plays - "A Midsummer Night's Dream," "The Shoemaker's Holiday," "Kiss Me Kate," and "Henry V." as well as a party with the cast of "Kiss Me Kate." Since the Stratford Shakespeare Festival opened in May 1952, it has been a mecca for lovers of fine theatre. But few who have visited Stratford as a respite from the hassle and expense of London and New York have realized that, when John Neville, the artistic director of the festival, came to the helm, the Festival was in financial trouble.

Stratford is not the only Canadian theatre Neville has saved. In Alberta and Halifax, Still, nothing in his background could have predicted his business acumen. In a recent interview Neville reveals his success when John Neville, the artistic director of the Festival, will replace Neville as artistic director in 1990.

The summer saw the release of a new album by Love and Rockets. The self-titled LP is the fourth from this English trio. Fans will be happy to know that it is as good as their previous efforts. Love and Rockets contains ten songs spanning over forty minutes. Guitarist/vocalist Daniel Ash and bassist/vocalist David J write about such topics as motorcycles, devils, and heaven and hell. "Motorcycle" is a rockin' tune about the freedom Ash feels on his bike. "Bound For Hell", a blues-influenced track, describes J's dream of a train headed for hell.

Love and Rockets also contains some great slow songs reminiscent of 1987's Earth, Sun, Moon. "The Teardrop Collector", featuring a melodic guitar solo, is a mellow track in which Ash asks "If you don't love someone, why fake it?" And if you love someone why chain them to you?" Other slow songs include "So Alive", an intoxicating track that hit big this summer, and "No Words, No More", with acoustic guitars and harmonica.

One drawback to Love and Rockets is the arrangements of songs. Side one starts off strongly then drops off. The first two songs, "Simple Act" and "No Big Deal" are great rock songs featuring bass, lead guitar, and slightly distorted vocals. "The Purest Blue", a dreamy slow song, follows. This sort of inanity is annoying because it keeps the listeners from getting into a groove while playing the album. Nevertheless, this album keeps up to the standards set by Love and Rockets' previous albums, and definitely deserves some attention.

Female: "It is amazing to me how quickly these girls have formed themselves into a team," he said. "We have a lot of new faces but the sense of group identity is already very strong."

Those new faces, in the form of five starting freshmen, will prove important in today's opening game at St. Joseph's Rensselaer. Despite their inexperience, Grace has much faith in the new recruits.

"There will be some adjustments," he said. "But they're hard workers and they're really doing some nice things out there." Among the freshmen to keep an eye on are Denise Chabot, Marta Roemer, Margaret Jare and Karen Viewe, all of whom grace is quick to point out. "We're young and inexperienced, but I feel good about the past 10 days of training. As long as we play our hardest and our best we are satisfied." Nobody can argue with that, but it is more than likely that this team will win a few games along the way as well.

Women's soccer is looking to avoid a 'sophomore jinx'

BY COLLEEN HENNESSEY
Sports Writer

When the Notre Dame Women's soccer team moved up to varsity status last year head coach Dennis Grace insisted that the team would start out strong, instead of attempting to "woe" its way into the club scene. His confidence proved well-founded when they accomplished an incredible 13-5-1 record in that inaugural season and now, on the eve of their sophomore year, his enthusiasm is promising.

"I am amazed at how quickly these girls have formed themselves into a team," he said. "We have a lot of new faces, but the sense of group identity is already very strong."

Women's soccer is looking to avoid a 'sophomore jinx'
Illinois upsets No. 5 Trojans as George leads late rally

Associated Press

LOS ANGELES — Jeff George threw two touchdown passes in the final six minutes of the game, the last a 20-yarder to Steve Williams with 2:19 remaining, to give No. 22 Illinois a 14-13 victory over fifth-ranked Southern Cal on Monday night.

Doug Higgins provided the winning conversion as George rallied the Illini from a 13-0 deficit in the season-opening game for both teams.

After hooking up with Shawn Wax on a 25-yard tipped scoring pass with six minutes to play, George marched the Illini 80 yards in the winning score. The Trojans got the ball back twice after the second Illinois touchdown, but red-shirt-freshman quarterback Todd Marinovich, starting in place of the injured Pat O'Hara, was unable to move the team.

An interception off Marinovich by Illinois’ Henry Jones at the Southern Cal 44 with less than two minutes to play helped ice the victory for the Illini.

Marcus Hopkins had given Southern Cal a 13-0 lead in the third quarter when he blocked a punt, scooped up the ball and ran 37 yards for a touchdown. Southern Cal kicker Quin Rodriguez provided the rest of the scoring in the defense-dominated game.

Rodriguez kicked a field goal of 37 yards in the second quarter and another of 36 yards in the third period.

George, who threw for 2,257 yards last year, finished the game with 27 completions in 43 attempts for 248 yards, with one interception.

Marinovich, who got the starting job when O’Hara went out with a knee injury during the season-opener Aug. 29, completed 14 of 27 for 120 yards in his debut, with one interception.

Neither team was able to move the ball on the ground, and, until George struck for two touchdowns in the final quarter, neither quarterback was able to generate any consistency on offense.

The Illini, who finished last season with a 6-5-1 record, had lost nine of 10 previous meetings with Southern Cal, with the last Illini victory over the Trojans in 1985.

You can save literally days of work between now and graduation. Simply by using an HP calculator. To keep you from endlessly retracing your steps, ours have built-in shortcuts. Such as the unique HP Solve function for creating your own formulas. Menus, labels and prompts. Program libraries. Algebraic or RPN models. Better algorithms and chip design help you finish much faster and more accurately than their way. So, whether you’re in engineering, business, finance, life or social sciences, we’ve got the best calculator for you. For as little as $49.95. Check it out at your campus bookstore or HP retailer.
Cubs, Cards win N.L. East battles
Sandberg, Lancaster beat Mets; Worrell strains elbow

Associated Press

ST. LOUIS — Todd Worrell strained his right elbow in the ninth inning of the St. Louis Cardinals 4-1 victory over the Montreal Expos Monday night.

Worrell, who leads the Cardinals with 20 saves, said he felt a "popping sensation" just below his elbow after a fastball to pinch-hitter Jim Dwyer.

Worrell will be examined Tuesday by Dr. Stan London, the Cardinals team physician.

Cubs 7, Mets 3

Ryne Sandberg hit his career-high 27th home run and reliever Les Lancaster pitched four shutout innings, leading the first-place Chicago Cubs over the slumping New York Mets.

The Cubs won the opener of a two-game series before 46,049 fans and sent the Mets to their fourth straight defeat and seventh loss in 10 games. Chicago moved 4 1/2 games ahead of the fourth-place Mets, while runner-up St. Louis remained 1 1/2 behind.

Yankees 2, Angels 1

Don Mattingly's solo homer broke a tie in the sixth inning and the New York Yankees went on to their 80th straight victory, beating the slumping California Angels.

With emergency starter Clay Parker winning his first game since July 1, New York completed a four-game sweep of the Angels, who have lost five straight and dropped five games behind the division-leading Oakland Athletics in the American League West.

Rangers 8, Twins 5

Julio Franco went three-for-three and drove in the go-ahead run as the Texas Rangers beat the Minnesota Twins.

Brad Alesberg, 1-0, pitched four innings of four-hit shutout relief in 101 degree heat as the Rangers won their 70th game, equaling last year's victory total.

Tigers 5, Royals 1

Bret Saberhagen's winning streak was ended at eight games by the Detroit Tigers on Monday, and the Kansas City Royals pitcher knew why.

"I left my curveball in the hotel," Saberhagen said. "It's tough to get by on just my fastball and change up, especially in a small park." Saberhagen, who had won 14 of his last 15 decisions, allowed four runs and nine hits in seven innings.

Red Sox 8, Athletics 5

Dwight Evans homered and Mike Greenwell continued his hot hitting with three hits and an RBI to back John Dopson's strong pitching as the Boston Red Sox beat the Oakland Athletics 8-5 Monday night.

Dopson, who missed four weeks with a muscle strain in his right elbow, held Oakland to two runs and four hits until the ninth and won his first game since July 27.

Orioles 5, Indians 4

Tim Hulett, called up from the minors late last month, hit a solo home run with two out in the ninth inning to give the Baltimore Orioles a victory over the Cleveland Indians on Monday night.

Cleveland reliever Rod Nichols, 3-4, had retired 13 batters in a row before Hulett drove a 2-2 pitch into the Orioles' bullpen in left field.

Bears’ final cuts
Associated Press

LAKE FOREST, Ill. — As the Bears waived 12 players to reach the season-opening 47-man roster, Coach Mike Ditka expressed concern Monday about his team’s lackluster pre-season performance.

“We stunk in the pre-season, but we won’t stink once the season begins, hopefully,” said Ditka, speaking at his weekly news conference. The Bears had a 2-2 record in their pre-season exhibitions.

Five veterans won’t be around for Sunday’s regular season opener against the defending AFC Champion Cincinnati Bengals. Seven rookies were also cut in the final roster trim.

Ditka said it was an extremely difficult decision to cut Kurt Becker, an eight-year veteran out of Michigan. Becker has been a mainstay as one of the top three offensive guards for the past few seasons.

“I told our football team that I hate to get rid of players with character, and I respect the effort he has given us the past six or seven years,” Ditka said, referring to Becker. “He’ll do fine.

Ditka said he hated to lose players like Becker, but he had decided “we’re going to go with some of the young people.”

“T’ve been around too many teams that have given old,” Ditka said.

Eighteen of the 47 players on the final roster are in their first or second year.

The other veterans cut were defensive tackles Sean Smith and John Shannon, safety Todd Krumm and center John Adickes. Smith and Adickes were three-year players, while Shannon and Shannon had been in their second year.

The seven rookies cut were quarterback Brent Snyder, a seventh-round draft pick out of Utah State, wide receiver Tony Dykoff of Utah, running back Curtis Stewart of Akron and Brian Taylor of Oregon State, tight end and James Coley of Clemson, wide receiver Tom Waddle of Boston College and fullback. Bryan Bean of Utah.

Ditka said some of the rookies who were waived might be named Tuesday to the six-man developmental squad made up of first-year players.

The latest round of cuts leaves nine rookies on the Bears regular season roster, including first-round draft pick, defensive and Trace Armstrong of Florida and cornerback Donnell Woolford of Clemson.

Other rookies making the squad include linebacker John Roper, offensive lineman Dave Zawatski, Jerry Fontenot and Chris Dyko, safety Markus Paul, defensive lineman Tony Woods, and Notre Dame running back Mark Green, who will be assigned to running back punts and kickoff returns on the special teams.

Ditka said the Bears’ special teams must improve substantially if the team is to be a contender.

In Saturday’s 41-38 pre-season win over the Los Angeles Raiders, Ditka said the special teams twice let the opposition reach the Bears’ 5-yard line, putting added pressure on the defense.

“I’m not going to pull any punches,” Ditka said. “We have to be good on special teams because it will have too much of a bearing on what the pressure will be — on our defense and offense too.”

The Observer
Connors buries Edberg, while Lendl survives in five sets

Associated Press

MIAMI — The Miami Dolphins placed kicker Fund Reveiz on the injured reserve list Monday, meaning he can't play for the team this season, and released three players who started 184 games for Coach Don Shula.

Linbacker Bob Brudzinski, cornerback Don McNeal and safiy Bud Brown, all members of Miami's last Super Bowl team five seasons ago, were among 11 players waived as the Dolphins reduced their roster to the NFL's mandatory 47-man limit.

Shula also released veteran quarterback Cliff Stoudt, who had two interceptions returned for touchdowns in Saturday's final preseason game, a 20-10 loss to the Philadelphia Eagles. The departure of Stoudt, signed as a free agent last spring, means the Dolphins will carry only two quarterbacks — Dan Marino and second-year pro Scott Secules.

Five Plan B free agents survived the final cut, including high-priced outside linbacker E.J. Jenkins, who made the team were five rookies, including free agent receiver Andre Brown of the University of Miami; defensive back J.B. Brown of Maryland, a 12th-round draft choice; and kicker Feis Stoyanovich of Indiana, an eighth-round pick.

Stoyanovich made only two of six field goals in preseason games. But because Reveiz suffered a groin injury in the first week of training camp, Stoyanovich will be the Dolphins' kicker in their regular-season opener Sunday against Buffalo.

"I just don't want people to think the job was handed to me because they think I'm in the sun," Stoyanovich said. "It looks that way right now, but I don't feel like I've got anything going.

"As soon as I start banging a few through and earn a little more respect around here, I'll feel a lot better about myself.

"Brown has had 53 of 72 field goals in four seasons with Miami, estimated that he is six weeks away from being ready to kick.

Also released were former Notre Dame linbacker Wes Prichard, receiver DaVal Glover and nose tackle Bert Washington, all rookie draft choices; and defensive back Bobby Weinberg, defensive lineman Nate Hill, running back Gerald White and offensive tackle Barry Pettijohn, all former free agents.

Stop by our booth at the ACC tonight and see how you can get involved with social, cultural, intellectual, and service programming at Notre Dame. And, of course, make some new friends in the process.
Pangborn group first in ticket line

The beginning of a new season is always exciting for the Notre Dame women's tennis team. The senior Doug Pritchett found probably the first of many new players to classes this year he was not alone in his quest for the best seat in the house. Within twenty minutes, Phil Marzock and Mark Galasso, both Off-Campus residents, joined in the twenty-nine and half hour marathon that was awaiting them. "It's not worth sleeping out two nights but right o'clock is not so bad," said Marzack who was representing some thirty people. "I'm doing it for posterity sake. Forty years from now I will be glad I did this."

But in the meantime seniors are hugging radio, televisions, coolers full of and a few books for show over to the JACC to pass the time with their classmates. Televisions? Yes, in true senior ingenuity, a few renowned seniors attempted to rig the television with a ladder and extension cords from inside the house to the concrete of Gate 10 to supply themselves with electricity for the long night ahead. "Not many" was all that was heard by Notre Dame security who put an end to the project. Why would anybody want this long in line for tickets?

"Because senior tickets are worth it," said Bob Tomihiro, a VIP of the line, "with a chair, cooler and John Vukic, Wizard to pass the time and also expressed his prediction for this year's squad. "If we win against Michigan I am looking for another championship."

The Notre Dame women's soccer team got an early start on the season by hosting the Irish Invitational at Burke Memorial Golf Course last weekend. Freshman Kathy Phaneus led the Irish to a top ten finish in the 15-team field with a 165. Junior Roberta Bryer chipped in a 168.

The Observer / Joe Vitacca

The Hamburgers aren't quite ready to play their best teams in the nation despite losing 2-0 to thirteenth-ranked St. Louis University and 3-0 to top-ranked Virginia. Although the Irish didn't score a goal in either game, Grace says that "against St. Louis, we had several golden opportunities, the best moment was when one of our fullbacks cleared the ball right off the goal line. We had enough scoring chances to win the game."

The Hamburgers didn't score until 4:02 into the second half, when senior midfielder Johnny Johnson connected on a penalty kick. The Irish couldn't answer with a goal after that and when Dave Toural tallied for St. Louis with 5:10 left in the game, the Irish were doomed.

Kevin Pendergast

BY KEN TYSIAC

As often as not, the Beautiful Game is an unpredictable game. It's a game that can come at you in all sorts of ways. This weekend it came at the Hamburgers in the form of Virginia Cavaliers, the Irish were outshot 13-5, and Grace confesses that "we didn't have enough scoring opportunities to win." But the fact remains that the Irish held the powerful Cavaliers scoreless for almost the whole first half.

An Irish defensive miscue allowed Virginia to break the tie, however. "The Cavaliers knocked a rebound into the box and Irish goalkeeper Danny Lyons, who had made the initial save. "Virginia is a great team," gushes Grace, "But I was pleased with the way we played and I'm glad we played them. A freshman mistake cost us the first goal, and we had to press a little bit in the second half to try to get on the scoreboard."

Grace's team has caught some pressings, however, and Virginia took advantage of the chances taken by Notre Dame. While the final margin was two in the second half for the final margin was two in the second half by Virginia.

Bright spots for the Irish included junior stopper Paul LaVigne and freshman forward Kevin Pendergast, who were both named to the all-tournament team in a field that included second-ranked Indiana in addition to St. Louis and Virginia.

"It's frustrating to lose games like we did this weekend, because we played well against two of the best teams in the country but lost when the breaks went against us," says LaVigne.

Despite his disappointment, LaVigne said he was excited to come at the beginning of the season.

Pendergast has been a welcome addition to the Irish lineup. "Kevin decided to pass up the freshman year and started right out of the gate. He's a sophomore or junior," says Grace, "He contributed a lot to this team." Pendergast was named the most valuable player for the former high school All-American who hails from Connecticut.

The members of the Doshisha University football team, copped more than a week of American football training by watching Notre Dame practice Monday afternoon. They studied drills, saved autographs and took pictures with so many cameras that it was easy to see why Canton and Nixen are million-dollar companies.

"It's a very great," said defensive end Yasuo Hidaka, who sported a new "Batman" shirt. "This is not what it is like in Japan."

The Hamburgers spent last week at Faribault College in Richmond, Ind., living, eating and practicing with the players. They played an exhibition game Saturday against the Quakers and lost 27-0. Faribault, an NCAA Division III team, boasted a 1-8 record last season.

Akio Ichise, the coach of Doshisha, was a visiting professor at Earlham in the 1982-83 year. He organized the week-long trip and then copped it with the visit to the defending national champions. They toured the campus, spent their savings at the bookstore and visited weight machines bigger than themselves in Lofus.

The Observer / Joe Vitacca

BY BOB MITCHELL

The Observer / Joe Vitacca

The average Doshisha player weighs 158 pounds. I could play the line both ways for this team. They may know a lot, but not American football.

But the funny thing is that these people—who are so competitive and successful in the business world—don't care if they win on the field. Against the Quakers, the Hamburgers called a time out in the closing seconds of the game as Earlham approached the goal-line. They didn't care if Earlham scored, they just wanted to play longer.

In the United States, pro and college sports are big business. In Japan, sports are for fun and recreation. The Japanese don't live or die with a football or basketball game. A business deal to buy France, maybe, but not a game.

When talking about the seeming ineptitude of the Hamburgers, just remember the aftermath of the creation.

While the trip was a good learning experience, the Hamburgers aren't quite ready to play their regular season in America. The average Doshisha, player weighs 158 pounds. I could play the line both ways for this team. They may know a lot, but not American football.
