E. Germany replaces Honecker after 18 yr. rule

Honecker, reported ill after a gallbladder operation in August, said he was resigning for health reasons.

Two other ruling Politburo members also lost their jobs.

The state news agency ADN said Krenz will take over as Communist Party chief, head of state and military boss, replacing his 77-year-old mentor in all three roles.

Krenz, 52, a Honecker protégé, conceded in his first national address that discussion of changes was important, but declared, "Without the Communist Party there would be no German Democratic Republic (East)."

More than 53,000 East Germans fled to West Germany in the last two months, rejecting the rigid authoritarian system at home, and tens of thousands handed in their passports to demonstrate for more freedom.

Krenz said in an hourlong speech carried on state TV, "We all sense and recognize the great opportunity to determine in dialogue all the citizens of our country, a new socialist course."

But he added, "Our society strongly believes in democratic forums in which different interests will suit each other and the population can express themselves."

He used West German officials of meddling in East Germany's internal affairs and reaffirmed East Germany's sovereignty.

Krenz, referring to the continuing mass exodus, asked all his countrymen to stay and work for improvements at home.

"These wounds will smart for a long time," Krenz said, adding, "We must address ourselves to the calamity of the old that those who are considering leaving think again," he said.

Krenz said West Germany's refusal to recognize East German citizenship was an obstacle to any new travel law.

More than 250 feared dead in Oakland freeway collapse

The quake, which struck during the evening rush hour, registered 6.9 on the Richter scale and was centered on the San Andreas Fault south of San Francisco.

At least 200 people were crushed to death in their cars when a half-mile section of the upper level of interstate 880 collapsed onto the lower level.

Provost appoints a committee on ethics

In response to a growing concern about ethics on campus and in society, Provost Timothy O'Meara has appointed a committee to review the ethical dimension of education at Notre Dame.

"While Notre Dame has always taken pride in its focus on ethics and values, the new committee will review how effective we are today in this area and make recommendations for improvement," O'Meara said.

The committee will examine undergraduate and graduate education in each of Notre Dame's colleges as well as in the Law School. The new committee plans to help better prepare Notre Dame students for their future professional responsibilities, he said.

The Notre Dame faculty is also targeted for reform with hopes of deepening their discussion of ethics and values, according to a press release. In addition, the committee will review the University's current standards and increase the effectiveness of Notre Dame's existing ethical centers.

"We've always been concerned about ethics here at Notre Dame," said O'Meara.

The new committee, to be chaired by Father Oliver Williams, associate provost, will include Alan Howard, professor of mathematics; David Link, Joseph A. Maisonneau dean and professor of law; Aladsair

Luggage service makes trial run Friday

By NATASHA WILSON
Senior Staff Reporter

The Irish Express Luggage Service will transport student's bags Friday from the dorms to the main circle bus stop for the United Limo shuttle to O'Hare.

The new service, which is sponsored by the Student Government, will operate for the shuttles leaving Notre Dame at 3:20 p.m., 5:20 p.m. and 7:20 p.m. Friday.

"For this first attempt we're serving only three of the O'Hare shuttles. One shuttle leaves campus every two hours each day," said Junior Siggy Loya, who developed the service.

Luggage service workers will retrieve bags at designated areas outside the dorms and deliver them to Limo trucks to the main circle at no cost to students. Specific pick-up times and locations are listed on posters in the residence halls, Loya said.

"Students who miss the pick-up time for their dorms may take their luggage to a bag storage stop at any other residence hall," Loya said.

"Our Irish Express" banner will hang from each truck so students can easily identify the service from other trucks on campus, Loya said.

"There won't be any shuttles at the end of this trial run," Loya said, "but we're too difficult to estimate when students will be ready to order and how many students will order it."
Laundry Day in Siegfried is rough and tumbled

The guy who said, "War is hell" probably had just done his laundry in my dorm.

For most normal people, Laundry Day is just a tedious expense of energy and money. For the women of Siegfried Hall, however, Laundry Day is a cutthroat battle that pits roommate against roommate in a violent attempt to secure clean clothes for the week.

Laundry Day? A war? Why?

Well go, I don't know. After all, the 400-plus residents of Siegfried have been generously supplied with a whopping eight nifty new and useless washing machines and dryers. It is with my practically non-existent math ability 400 to eight seems like a bit of a loaded ratio.

Nonetheless, Siegfried women are an eaghying bunch and of tough stuff, so we grin and bear it.

Sometimes...

But usually, all hell breaks loose. The Laundry Battles begin because some people have the nasty habit of throwing their clothes in a dryer and then scampering off to brunch or class or India or somewhere, leaving their laundry in the lurch. Thus, valuable dryer space is stolen and they find their forgotten clothes.

This tends to annoy patient souls who are waiting to use the dryers. So after waiting a reasonable amount of time, one of the now-irritated women removes the clothes from a dryer and replaces them with her own. The other women then grab and soon the tops of the dryers are heaped with colorful piles of dried clothing.

This activity would be no problem by itself, but as the laundry room becomes more crowded, tempers grow short and laundromat rage get tense. The mild Laundry Battle escalates rapidly and becomes more cutthroat with every passing moment. The laundry room is like a time bomb, with the seconds ticking away. Soon it explodes and war breaks out.

The second a washer or dryer cycle ends, hordes of crazed women descend like Harpies, fighting violently for possession of the machine. Wet and dry clothes are heaped in haphazard piles around the room, or strewn carelessly across the floor.

One-civilized women guard their wash, growing with paranoid hostility and unwilling to leave the room for fear that the enemy will seize their washer or dryer. Destruction and suspicion reduce the once amicable group to a pack of brutal savages. All in the name of clean socks.

I, for one, have decided to become a conscientious objector and swear off the frenzy of this deadly battle. So if you want to find me on a Saturday morning, don't bother to check the laundry room. I'll be down on the banks of the St. Joe River — beating my clothes on a rock.

Northern Ireland Awareness Group will meet tonight at 7:30 pm in Room 217, O'Shaughnessy Hall. There will be a videotape entitled "Irish News, British Stories."

AIDS education on the ND campus will be discussed at a meeting tonight at 7 p.m. in Room 334 Nieuwland Science Hall.

Dr. Paul Blough, '46, formerly of Poriia, Illinois, who now resides and practices medicine in Haiti, will be at the Center for Social Concerns at 11 a.m. Friday.

The last chances for students to pick up 1989 yearbooks are Thursday and Friday afternoons in the Dome office, 3rd floor LaFortune.
The implementation of a student-alumnae association was discussed Wednesday at the Saint Mary's Board of Governance and Student Activities meeting.

Tricia Burke, head of Alumnae Relations and a 1981 Saint Mary's graduate, spoke to the boards about forming a club based on the students on campus. alumnae in various cities and Mary's graduate, spoke to the meeting.

The board decided to set up a club members would serve as ambassadors to the campus. They would work with representatives on campus to coordinate activities associated with the 65 alumnae clubs throughout the U.S., Burke said.

Members would also introduce freshmen to the campus and provide moral support for them, she added.

"We're open to ideas," said Burke. She emphasized that the association is only in the planning stage and any help would be welcomed.

ND ROTC places first in state competition

By JESSICA ZIEMBROSKI

The Notre Dame ROTC Ranger Challenge team placed first in competition in Indianapolis last weekend, earning its second consecutive state championship.

Team captain Kevin McKay said they owe the victory to "a lot of work and being physically stronger and more experienced than last year."

The competition against six other Indiana colleges was held Saturday and Sunday at Fort Benjamin Harrison.

Nine events make up the thirty hour competition.

The physical training test consists of push-ups, sit-ups, a two mile run, a ruck march, a grenade assault course, a M-16 marksmanship, and a M-16 and M-60 weapon assembly.

The committee would attempt to relieve tension between the two campuses.

Other events are orienteering or land navigation, a patrol mission and a 10K road march in full combat attire with gear.

In addition to placing first overall, the team placed first in two events: the physical training test and the ruck march which they set the record of 63 minutes, well ahead of any other team. McKay said that is the hardest event because of being in full gear and having no sleep.

Coach Captain John Potter, who handles physical conditioning for the team said, "It has to be a tremendous honor. These people sacrifice a lot to be on the team. They are in extraordinary physical condition."

The team consists of nine individuals competing and each member "winds" his position in competing in strength and skill.

The Ranger Challenge Team is called the varsity sport of ROTC and at other universities members of the team do not get varsity letters. There is a team from most major universities in the United States, Pottering said.

The team began practicing Sept. 4 and continued five mornings and afternoons per week for the next month. The team will resume training in January to build upper body and leg strength.

The state championship qualifying the Notre Dame team for regional competition was also in its study abroad program. The team also participated in joint study abroad programs.

For the first time since 1975, Notre Dame will host the regional meeting of the National Association for Foreign Student Affairs.

The annual event will be attended by university administrators who handle international relations and the teams technical training.

The committee hopes to get underway next semester, said Ted Stumpf, the SMC/ND relations co-commissioner.

Plans for the OXFAM charity show were also announced.

Residents of Santa Cruz mourn losses

Associated Press

SANTA CRUZ, Calif. — Residents mourned Wednesday over lost lives and ruined buildings in this handsome seaside city that was closest to the epicenter of the second-deadliest earthquake in U.S. history.

A downtown shopping center of renovated turn-of-the-century buildings, once thought to be walkways was badly damaged during Tuesday evening's 6.9-magnitude quake. Two people were killed.

"The downtown lost between 12 and 20 buildings — the heart of the community and its vitality," said Gary Paton, chairman of the Santa Cruz County Board of Supervisors.

Five people died in the county. Authorities initially said 40 buildings were damaged beyond repair, but revised that figure to 25. Water, gas and sewage lines burst. Crews restored power and water service throughout the county Wednesday.

Also hard-hit by the quake was Los Gatos, an affluent hillside city in Santa Clara County, 40 miles northeast of here, where Victorian homes were shaken off their foundations and major buildings crumpled or fell to the ground. "I've got to somehow figure out how to get a ton of chimney off my roof," said Peter Ciliffi, who lives near his wife and two daughters in their station wagon because they feared the chimney would plunge into their home.

Collapse

continued from page 1

"You could hear it crunching down — but you couldn't see anything. It was just a big white cloud," said witness Leroy Fitzgerald. "You could hear people screaming for help."

When the 18-block stretch of highway caved in, workers from businesses in the heavily industrial area ran to help, many bringing tall ladders and forklifts.

Rescuers were able to pull one man alive from a car that was crushed to a height of 18 inches, said passer-by Patrick Machintry.

Emergency workers pulled a girl from the wreckage of another automobile. The fate of her parents and brother was unknown.

A three-member surgical team had to amputate the right leg of a 7-year-old boy who was trapped in a car for seven hours. At 12:15 a.m., he finally was carried down a 20-foot ladder and taken to an ambulance.

There were many heroes. Darius Brewer, a 26-year-old cook, joined an impromptu rescue party. The group crawled as far as possible under the crushed road to help injured motorists.

Art Kanerviko, head of Student Life and Paul Loya organize the service for its inaugural run.

Loya and Kanerviko divided the residence halls into three regions to coordinate the routes of the three trucks.

Region One consists of Carroll, Morrissey, Lyons, Holy Cross, Lewis, Sorin, Walsh, Howard and Radin Halls. Region Two includes Pasquerilla West, St. Ignatius, St. Francis, and the Remsen, Karl, Allender, and Haverford Halls. Region Three consists of the residential complexes.

Bay Bridge and two spans near Santa Cruz, cracked roads, and several gas and power lines, sparking fires.

The trembler, the nation's second-deadliest, surpassed only by the San Francisco quake of 1906, measured 6.9 on the Richter scale and was felt 330 miles away.

San Francisco Mayor Art Agnos, appearing on television Wednesday night, estimated damages at $2 billion to public and private property in San Francisco-Oakland county alone.

Agnos said 60 buildings are being considered for demolition and 1,000 people are in shelters, adding, "We expect that number to rise."

He said it might take as much as 15 or 16 weeks for water and power to be restored in parts of the Marina District, which was hard-hit by fires following the quake.

More than 1 million people lost electricity. By Wednesday night, Pacific Gas & Electric had restored power to about one-half of the residential customers in San Francisco.

Survivors search for neighbors

Associated Press

SAN FRANCISCO — Neigh­bors who had feared for each other's lives embraced cheer­fully Wednesday as they sur­veyed their ruined homes, and tourists swapped stories about how they survived the killer earthquake.

Neil Hancock comforted Maryellen Sechser, his upstairs neighbor in what had been a 21-unit apartment building in the Marina District. The build­ing toppled and caught fire after Tuesday's quake, and three people were feared dead.

"She is the first one I've seen since last night," Hancock said. "The two stood among a crowd at Divisadero and Beach streets watching firefighters hose water over the blackened remains of the building."

"When I got here the whole building collapsed. I could see into my apartment," Sechser said, fighting back tears. She watched helplessly as the flames came up through the floor of her ruined living room.

The worst thing was not knowing if her neighbors, many of them elderly, were all right, she said:

"I thought people were still in the building. I couldn't save anyone, I couldn't save the ani­mals, I couldn't save any­thing," Sechser said. "I lost every­thing. What you see is all I've got."

Good things don't always come in small packages . . .

Britan calls sanctions ‘utterly irresponsible’

Associated Press

KUALA LUMPUR, Malaysia — Prime Minister Margaret Thatcher of Britain, waging a lone war on sanctions against South Africa, told the Commonwealth summit Wednesday it was the “summit of lies” and a “utterly irresponsible,” officials said.

Other nations in the 49-member grouping of Britain and its former colonies, including Canada and host Malaysia, pressed for continued or stronger embargoes. Proponents said sanctions forced President F.W. de Klerk to promise reforms and release black nationalist leaders.

The exchanges on the weeklong summit’s opening day heralded a new confrontation over South Africa, which quit the Commonwealth in 1961.

“We are much more likely to achieve our aim by giving encouragement than by trying to behave as if nothing significant has happened,” Mrs. Thatcher told a closed session of the summit. Her comments were reported by a British official who spoke on condition of anonymity.

He quoted her as saying de Klerk took a “major step forward” by releasing eight black leaders who had been detained.

Quake didn’t damage market

Associated Press

NEW YORK — Stock prices posted modest gains Wednesday as the market regained its composure after several jumpy sessions.

Contrary to initial fears, the Northern California earthquake didn’t do much damage to the market. Some companies’ stocks benefited as investors bought on the hunch that business might boom during the cleanup of the destruction in the San Francisco Bay area.

Blue chips overcame a late flurry of selling and the Dow Jones average of 30 industrials finished with a gain of 4.92 at 2,643.65. The key market measure now stands 74.39 points above the level reached in Friday’s 190-point plunge.

Activity on Wall Street was overdone compared to the wild trading that began Friday with the worst selloff since the crash of 1987, which occurred exactly two years ago Thursday.

Computer-guided maneuvers, which had lugged stock prices up and down during the three previous sessions, were not much of a factor in Wednesday’s trading.

Advancing issues outnumbered decliners on the New York Stock Exchange by less than 5 to 4 in nationwide trading of New York Stock Exchange-listed stocks, with 822 up, 668 down and 461 unchanged.

Despite some early selling on worries about the extent of liabilities, insurance group stocks generally rose amid speculation that heavy quake-related claims — on top of losses from Hurricane Hugo — could lead insurers to raise premium rates, enhancing the industry’s profitability.

There also was speculation that the big tremor Tuesday could boost demand for earthquake insurance coverage.

It was a cold and grey Thursday morning. Although my alarm clock had awakened me half an hour ago, I was still in bed. I was debating whether or not to go to class that day. Suddenly, a friend of mine from down the hall burst into my room.

"Still in bed?" Roach shouted.

"I'm not going to class today, Roach," I sighed. "I've decided that the American system of higher education as a whole is an academicism that just doesn't work. For example," he went on, "I knew you'd see it my way. It's all just a..."

"Quit Roach. I've decided that"

"You'll..."

"I'm not going to class today, Roach." I replied. "But Roach replied. "But Roach blushed slightly at the gesture and quickly continued. "For example," he went on, "there are several areas of learning and scholarship that American college students are more proficient in — but of course Notre Dame's..."

"Roach..."

"...will show you. This is question one, category of economics," he said. "A graduate student goes into a supermarket and asks if he can buy six cases of Meister Brau at $6.69 a case, or five and a half cases of Budweiser at $8.29 a case?"

"Neither," I answered. "I say he leaves the supermarket and goes and gets a keg."

"Absolutely correct!" yelled Roach.

"That was a trick question."

"What does that matter? You got it right, didn't you? Question two, category of geography. On which ocean is Daytona found?"

"Isn't Daytona a beach somewhere?" I replied.

"Right again! Daytona isn't on any ocean. Everyone knows you can't build a city on water," said Roach.

"That was a trick question, too!"

"So what, that just goes to show you that American college students are even smarter than you thought we is, doesn't it?"

"Gee, Roach, I guess I never thought of it that way."

"I know we will see it my way. Now c'mon, we don't want to be late for class, do we?"

Matt Jancher is a student in the Freshman Year of Studies.

Evidence refutes drug legalization

Dear Editor:

It is a shame that two representatives of the National Organization to Reform Marijuana Laws (NORML) chose to embarrass both themselves and Notre Dame outside the "Drug Enforcement in Indiana" hearings last week. Their argument, that the U.S. should legalize marijuana to provide an alternative to the use of hard drugs, is ludicrous at best. Statistics clearly show that people who use marijuana are more likely to experiment with harder drugs, such as crack, than those who do not use marijuana. Furthermore, the National Cocaine Information Services estimates that over 70 percent of current cocaine users have previously used marijuana.

When will groups such as NORML realize that legalization of any narcotic is against the best interest of our society? People are fed up with drugs in their communities, and the legalization of marijuana would only increase the demand for drugs.

Although the federal government could tax and place restrictions on the sale of marijuana, there would be more problems than there are today. With an increasing number of people using the drug, there would be an increasing number of users who require rehabilitation in our already backlogged system.

The drug problem has reached epidemic proportions in American society, and our only plan should be to get tough on drug users. Americans are sick of drugs and are begging for a remedy. It's time to support and enforce our country's drug policy, and not challenge it with preposterous alternative policies.

Christopher Coury

Parents share ND security concerns

Dear Editor:

As parents of a female Notre Dame student, we read with concern and alarm of the increased number of assault incidents on campus this year. Though we realize that no campus can be totally secure, it is apparent that Notre Dame needs to tighten its security and other efforts to protect the students.

The university is frequently spoken of as a family and, as such, it must do whatever necessary to protect its family members. We hope that adequate and bright lighting will immediately be installed, regardless of the cost. It is also our hope that the administration will begin a serious effort to contain the female students. It is certainly not realistic to expect present guards to provide this service, but, in

QUOTE OF THE DAY

"Laughter is a tranquilizer with no side effects."

Arnold H. Glasow
Racial concerns solved in caring manner; student actions not a modern 'witch hunt'

Dear Editor,

In the Friday, Oct. 13 issue of the Observer, Fr. Wiskirchen wrote an article entitled "An Open Letter to Black Students in the United States," which criticized the efforts of a group of black students who are members of the officers of the Black Cultural Arts Council, on our response to an incident concerning Fr. George Wiskirchen. In his letter, which would be better renamed "An Open Letter to Black Students in Campus," Fr. Wiskirchen accused black leaders of conducting a "witch hunt" on campus, with the sole intent of trying to ruin the family of an innocent man for our own selfish gain.

As "black leaders" on campus and especially as members of the Notre Dame community, we felt not only justifiably insulted but grossly injured by the particular incident of injustice which has sparked this debate and for which the article is apologetic.

As Notre Dame students and members of the Notre Dame family, we were hurt and insulted that a priest such as Fr. Wiskirchen was able to make such a slanderous charge.

The controversy concerning Fr. Wiskirchen and Fr. Griffin's insensitive statement goes far in demonstrating that black leaders in the United States are able to bring about a change in thinking while in reality this priest machinery and the need to protect our community.

I

in this vicious week of all-nighters and hectic schedules, there seems to be an uncontrollable urge to be a kid again-to just let loose, forget all that has to be done, and act as silly and crazy as kids so often do. As a new season show now attempts to provide that necessary outlet, College Mad House allows two teams representing rival universities to compete for a prize to be on a children's level that is rarely found on campus.

Airing Saturday mornings on TV 46, College Mad House is based on the children's show Fun House. A wide variety of stunts and games of skill force the students to "play" so the best of their ability. The show pits well-known college rivals, such as Notre Dame and Miami, against each other in a childlike atmosphere which dazes the participants to enter and to win the most outrageous contents imaginable.

With new features and different games, an episode might find teammates against slippery chocolate pudding as they attempt to win a "pillow fight" while straddling a pole four feet from the ground. Another stunt may involve the tossing of water balloons in some of the most unbelievable fashions. No matter what the stunt, the action eventually leads to one final round which consists of mind-boggling trivia questions. For every correct answer, the winners gain the honor of throwing pies at the opponents.

As this competition between college rivals begins to draw to a close, the winning team is left to face the "Mad House," which is a three story obstacle course challenging the students to find prizes hidden within it. Fighting the pie-throwing "Roommate from Hell" and the spaghetti-filled mechanical mouth dubbed "The Dean of Students" are among the zany experiences in the race to gather such prizess as personal computers, televisions, exotic trips, and money for the school's scholarship fund.

Four students traveled to Los Angeles this summer to repre
sent Notre Dame in a matchup with Miami. Three of the four, Don Gomez, Jilanne Klaus, and Curtis Hume, who originally expected to cheer the team on and instead found themselves as contestants. The fourth, Kelly Sweli, was chosen to participate after auditions which were held on campus last year. On the first weekend in July, 11.2 contestants were flown to Los Angeles to participate in the filming which took place in the Warner Bros. Studios. After watching several tapings, the Notre Dame representatives faced Miami in an outrageous battle that will air on Saturday, October 21.

Not only did the students have an opportunity to fun
do all the ridiculous stunts but they were also able to get to know students from schools across the country. According to Jilanne Klaus, "We met a lot of interesting, fun, outgoing people." An all-expense paid weekend to Los Angeles was an added bonus. As Don Gomez put it, "It was a blast. They treated us really well.

College Mad House immediately follows Saturday morning cartoons and brings out the child in all who participate. It is aired at the beginning of October and is slated to run at least until the first weekend of December. In addition to the Notre Dame-Miami matchup, other episodes feature Indiana, University against Purdue, Kansas against Missouri, and USC against UCLA.

Host Greg Kinneard leads the two teams through the series of stunts chosen for each episode. With the same producers as the children's version, Fun House, College Mad House is sure to provide much entertainment due to the efforts of Scott A. Stone and Bob Syms.

As TV 46 representative Edgar Cabello believes, "Anyone who knows the experience of college will find College Mad House a lot of fun to watch. It's a good way to start your Saturday." And what better way to be a kid again than to sit back and to laugh on a Saturday morning.

Students here in South Bend can watch College Mad House at 10:30 a.m. Saturdays.

Mr. C. survives by concentrating on his saxophone.

NEW YORK—The King of the World. The Master of Disaster. The Big Man. After more than 20 years in rock 'n' roll and as many as most nicknames, Clarence Clemons covers the simple tag, Mr. C.

"All those names, it's a heavy cross to bear," said Clemons, the mightiest supporting star of Bruce Springsteen's E Street Band. "I think about all that stuff, but it's what I have evolved into, and he's the guy who combines all these things.

"As Clemons says, it takes someone special to play the saxophone. 'You got to have an urban attitude, be a streetwise person,' said. 'I don't know whether the saxophone made me this kind of person or if I was just born to play a saxophone. It's an extension of yourself.'

"Nobody played instruments in my family. My father got that bug and said he wanted his son to play saxophone. I wanted an electric train for Christmas, but he got me a saxophone, I flipped out."

Clemons prides himself on being a survivor, staying around even when music involved far more than the simple joy of playing the sax. On tour now with E Street and a band that includes Joe Walsh, Leon Helms and Rick Danko, Clemons is getting those old feelings back.

"Every night when Leon Helm breaks into 'The Weight,' I catch myself," Clemons said of the band's drummer. "When Rick Danko goes into his bass, I have flashbacks to when I was young and wild and didn't understand a thing.

"You need to go back a little bit and remember how it was and how screwed up it got. It was a wonderful time. This whole tour is bringing back this stuff."

Clemons also reaches back on his third solo album, A Night With Mr. C, which recalls a few other nicknames-such as King, referring to King Curtis whose sweet saxophone was featured on hits by the Coasters, Sam Cooke, Aretha Franklin and many others. Clemons covers Cove's 'Soul Serenade' and 'Soul Serenade' are two songs that made me understand the kind of music I liked.

On stage, Springsteen loves to remember the time he and E Street guitarist Steve Van Zandt were on the boardwalk outside a New Jersey club at four in the morning. Through wind and pouring rain, a large man appeared, dressed in white, carrying a saxophone.

That, Clemons agrees, is how he and 'The Boss' first met, back in the early 70's-the short, skinny guitarist and his towering sideman.

The rest quickly became history. By 1973, critic Jon Landau had dubbed Springsteen the 'future of rock 'n' roll' which lead to simultaneous covers on Time and Newsweek. Born to Run, featuring Clemons' blistering solo, was an instant rock anthem that even gathered support as the official song of Springsteen's native New Jersey.

But business soon set in. Legal hassles delayed Spring-

career's Darkness on the Edge of Town album. Harsh words were exchanged all around. The simple joy of such earlier songs as 'Rosalita' and 'Thunder Road' was gone.

'That was the beginning of it, that was a sign," Clemons said. 'The handwriting was on the wall for a lot of people, not just Springsteen. You look at the record companies and see the turnover in personnel and wonder what is going on.'

World Series postponed in wake of quake’s destruction

Associated Press

SAN FRANCISCO — Baseball still hoped Wednesday to salvage a World Series shaken by the Bay area’s worst earthquake since 1906, though it was uncertain when or where games could resume as the mayor of Oakland asked the games not be played immediately.

Game 3 of the Bay Bridge Series between the Oakland Athletics and the San Francisco Giants was postponed for the second straight day, but Commissioner Fay Vincent said, “Our inclination is to stay the course.”

More than 200 people were killed and hundreds were injured when the earthquake struck at 5:04 p.m. PDT Tuesday, a half-hour before game time. Part of the Bay Bridge, the very symbol of the Series, collapsed.

There seemed to be little thought by baseball officials to entirely canceling the Series, in which Oakland leads San Francisco 2-0, but baseball was waiting from city officials to assess the damage, physical and mental.

Oakland mayor Lionel Wilson said late Wednesday he had met with Athletics’ representatives told them they should not resume play immediately.

“I did tell them that at this time, it would be inappropriate to play baseball in this city while there are still bodies underneath the concrete,” Wilson said at the Alameda Naval Air Station.

Wilson said the team officials were supportive of his request, then estimated it would take at least four to five days to recover the bodies from underneath double-decked Interstate 880, the freeway which collapsed and was responsible an estimated 250-plus deaths.

The possibility of playing as soon as Thursday night had not been ruled out, but that would only happen if the stadium were deemed safe and other logistics, such as transportation, could be worked out.

The Giants told their players Wednesday to be at Candlestick Park Thursday at 1 p.m. for a workout or, possibly, to play a game.

Vincent said baseball executives were told that damage at both Candlestick Park, home of the Giants, and Oakland Coliseum, home of the A’s, was “not significant.”

But he said “the proper people have not examined it yet” and added that even if it was possible to keep the Series in the Bay area, he was concerned whether it would be appropriate right now. One other possibility was to move the Series to a neutral site for the first time.

“We want to be very sensitive to the state of the community,” Vincent said. “Our modest little game is not a priority.”

Power, telephones and other services were limited during the cleanup. So was heat, water and food.

Debris littered the streets, windows from the best shops were shattered and hotel lobbies were strewn with sleepy tourists roamed with video cameras, focusing on cracks in the concrete and frozen clock faces.

Candlestick Park, where 60,000 fans were watching the Giants and Athletics, was on time to warm up when the stadium shone, and the Oakland Coliseum were inspected during the day.

The strongest possibility if neither ballpark was structurally sound was Dodger Stadium, although it might take a couple of days to prepare the field.

The Oakland A’s are two games ahead of the San Francisco Giants, but baseball is not a priority in the San Francisco Bay area in the aftermath of Tuesday’s devastating earthquake. The third day of play was postponed for the second straight day.

Oakland’s Welch gives ‘thumbs-down’ to condition of future home

Associated Press

SAN FRANCISCO — Bob Welch, the scheduled pitcher for the Oakland Athletics in Game 3 of the World Series, looked with dismay at his earthquake-damaged future home Wednesday, after a walk through the hard-hit Marina district.

Welch, with a pained expression on his face, turned to his wife Mary Ellen and gave her a “thumbs down” sign.

Mrs. Welch held the couple’s 10-week-old son Dylan in her arms and tried unsuccessfully to hold back tears, after a short walk from their current residence, an apartment. They had spent the night without water, electricity or heat. Natural gas service in the area was cut off because of the danger of more fires in the area, where a major blaze erupted following the quake.

The earthquake caused a postponement of Game 3 at Candlestick Park, home of the San Francisco Giants. Welch was in the trainer’s room, getting his arm rubbed, when the quake struck, shaking loose chunks of concrete throughout the stadium with about 60,000 people waiting to see the game.

The couple and friends who were at the stadium then went through an anxious drive to their Marina-area apartment where the Welch’s son was with a babysitter. The baby and sitter were OK, and the Beach Street apartment suffered no serious damage.

“It was an ugly ride, because we heard on the radio there was a big fire on Beach Street and we had left the baby (with a sitter) at the apartment,” Welch said. “The ride took about two hours.”

Normally, without traffic tieups, the Welch apartment is about 30 minutes from Candlestick Park.

“I don’t worry about the World Series. We’re not a family who caused widespread damage in a large area of Northern California,” Welch said of the disaster which caused widespread damage in a large area of Northern California. The couple recently bought the condominum unit in a two-story building.

Steve Red Wings beat North Stars; Thursday, October 19, 1989 The Observer page 13

Detroit - Steve Yzerman had two assists as the Detroit Red Wings beat Minnesota 4-3 Wednesday night and handed the North Stars their first loss of the NHL season.

The North Stars, the NHL's last unbeaten team, had tied a club record with a four-game winning streak. Last year Minnesota didn't notch its fifth win until Game 23.

Detroit's Glen Hanlon turned 20 of 23 shots to win his third straight start. He made a clutch save on a breakaway by Brian Bellows with 1:19 remaining.

North Stars goalie Kari Takko, who faced 27 shots, was pulled immediately after Larry Murphy was called for holding Yzerman.

Gerard Gallant, playing his last game before beginning a five-game suspension, gave Detroit a 1-0 lead at 4:18 of the first period after Yzerman won a faceoff in the right circle. Gallant drew his suspension for a foul against Vancouver's Garth Butcher in the Red Wings' second game.

Both of Barr's goals this season have come while the Red Wings beat the North Stars.

Rookie Johnnie Ojanen of Finland scored his second of the season just 32 seconds after Fetisov's goal, with the aid of a friendly carom off the boards. Jim Korn shot the puck into the Flyers' zone, and as Peeters left the net to play it, the puck bounced out in front to a wide-open Ojanen.

The victory snapped a two-game losing streak for the Whalers.

The Hartford Whalers downed the Buffalo Sabres 2-1 in NHL action Wednesday night. Hartford's Sylvain Cote found the net with 3:11 left in the third period to snap the Whalers' two-game losing streak. In other NHL action, Detroit handed Minnesota its first loss of the season by defeating the North Stars 4-3. The New Jersey Devils and the Philadelphia Flyers did battle in East Rutherford, N.J. as the Devils downed the struggling Flyers 5-3.

The New Jersey Devils and the Philadelphia Flyers did battle in East Rutherford, N.J. as the Devils downed the struggling Flyers 5-3.

The victory snapped a two-game losing streak for the Whalers. The loss was the second in a row for Buffalo.

Ed Olczyk's fluke goal early in the third period gave the Whalers a 1-0 lead which the Whalers held until the 15:15 mark of the third period when Mike Ramsey scored for the Sabres to tie the game 1-1.

field, accelerated through the middle of the field past two more sluggish defenders and blasted a shot underneath the crossbar for his tenth goal of the season.

One minute later, Brendan LaVigne rushed for 225 yards against 10th-ranked undefeated Alabama. The Tennessee team last week, meant to the Volunteer offense.

Steve LaVigne, if the ball would have bounced right he could have had a few more goals today.

Kevin Sax also provided spark for the Irish offensively. He struck early in the second half with his second goal of the game from in close on a feed from LaVigne to increase Notre Dame's lead to 4-0.

"As a freshman Kevin has taken a while to adjust," says Grace. "But right now our first concern is Loyola. We beat them 4-1 at their place earlier in the year, but their coach, Ray O'Conner, is a good friend of mine, and he told me after that game that Loyola would give us a better game this second round than that." The Irish will meet the Runnin' Ramblers Friday night at 7:30 at the Stadium and attempt to record their second victory in a row. A victory against Loyola would improve their MCC conference record to 2-1, a better record than in 1988.

Vols will know importance of Cobb in SEC clash with 'Bama

It won't take long to realize just how running back Reggie Cobb, kicked off the Tennessee team last week, meant to the Volunteer offense.

In its first game since a dismissall, sixth-ranked Tennessee puts its 10-game winning streak on the line against 10th-ranked undefeated Alabama. The winner of Saturday's game at Birmingham, Ala., will have the inside track to the Southeastern Conference championship.

Cobb, whose dismissal reportedly was drug-related, had averaged over 120 yards per game this season and rushed for 225 yards against Auburn before he led a 21-14 victory over the Tigers three weeks ago.

Chuck Webb, who teamed with Cobb to form the "Cobb-Wend" offense prior to the incident, replaces Cobb in the backfield.

Alabama coach Bill Curry claims that Cobb's departure will actually help the Vols.

LaVigne continued from page 16

"Tennessee" not only has great athletes, but they play with great enthusiasm and great coaching," Curry said. "When a major loss occurs to a team like that, what they do is they play longer and just get better as a unit." Tennessee overcome the loss of a major player in its last Sugar Bowl season. Darryl Dickey stepped in for the injured all-America midfielder Tony Robinson midway through the 1985 season, and the Vols were undefeated the rest of the year.

Alabama stumbled past Southwest Louisiana 24-17 last Saturday after a week in which Curry says the team was hit by the flu bug. The Tide is healthy and at the very least, they are a step in the right direction.

"We want to go into the MCCC tournament on a bit of a roll," says Grace. "But right now our first concern is Loyola. We beat them 4-1 at their place earlier in the year, but their coach, Ray O'Conner, is a good friend of mine, and he told me after that game that Loyola would give us a better game this second round than that."

The Irish will meet the Runnin' Ramblers Friday night at 7:30 at the Stadium and attempt to record their second victory in a row. A victory against Loyola would improve their MCC conference record to 2-1, a better record than in 1988.

CALVIN AND HOBBES

I've got an idea, Dad.

Maybe I'll get better grades if you offered me A for every 'D', B for every 'C', A+ for every 'B', and A++ for every 'A'.

I'm not going to blame you, Calvin. You should just be happy to have your own good.

Rats! I thought I could make an easy four books.

THE FAR SIDE

Gary Larson

I'm sure I'm by the way, your biochem prof called and left a messagebird

TEST TIME!

Which way is it?

Wrong answer. (I think)

I'm going to answer "no" to the question of the test.

Tell me this: what do I do, and you take the test?

It says here: 'A good mimic, this bird should not be exposed to foul or abusive sounds.'

Men’s soccer downs DePaul; women shutout Chicago 2-0

LaVigne leads Irish in shutout

BY KEN TYSIAC
Sports Writer

The Notre Dame men’s soccer team overcame the wind, the cold, and the DePaul Blue Demons Wednesday afternoon at Alumni Field with an impressive 2-0 victory. The Irish dominated the entire contest, which was played at or near as close as the score can get. Notre Dame outshouted DePaul 17-1 in the first half and 26-4 for the game as Danny Lyons and Peter Gull each made two saves in recording the Irish’s third shutout of the year.

Although they controlled the run of play, from the outset, the Irish did not build a comfortable lead on the Demons until late in the first half. Kevin Sax scored just 4:30 into the game for Notre Dame, but his team couldn’t add to that lead despite numerous opportunities, and coach Dennis Grace became frustrated. "I was not happy with the first 25 or 30 minutes of play this afternoon," growls Grace. "We didn’t have enough time to warm up today, it was cold day, and we simply weren’t ready to play."

Late in the first half, the Irish struck twice in the period and took a commanding lead and placate their angry coach. At the 43:09 mark for Frank Jacobs, Ron Fedderer knocked a Demon defender to the ground just past mid-field and added to that lead despite numerous ties, and coach Dennis Grace became frustrated. "I don’t want to say his team outhit us, outplayed us, we didn’t give them up could sell tickets for a cool hundred," Grace said. "You have to credit them for a good performance, but we were much more skilled.

Unfortunately for Notre Dame, every game has its share of questions, and this game was no exception. "We have to be more consistent in the first time since 1970."

Same is All-American centerfielder Dan Felder, as well as all-MCC secondstop Pat Persavento, rightfielder Jammie Sax, second baseman Mike Mosher, and starting pitchers Erik Madson and Mike Pasilla. This year’s ballclub is characterized by youth as 24 of the 30 players are freshmen or sophomores.

"We’re a long way from where we want to be," said Murphy. "When you’ve had the success we had last year, it’s hard to be objective. We just try to downplay that and think about performance."

Although the Irish are young, they’re a talented bunch. Senior captain Ed Lund leads the Irish from his catching position. He hit .328 last year with four home runs and 48 RBI and is even better known for his defensive skills. Matt Kroll has worked hard over the summer and fall to become Lund’s backup. At first base, the Irish return Joe Binkiewicz. The sophomore hit .337 with four homers and 44 RBI last season. The Irish will look to these two to provide the power.

At second base will be Cory Meo, a .277 hitter and outstanding fielder. Mike Goss will try and fill the big shoes of former star Jeff Cooper. Senior co-captain K. T. Sullivan, who, with Joy Sisolak, played the last game of the 1989 season, Notre Dame dominated. The first half saw the potent offense of the Irish frustrated by the superior pitching of their Chicago counterpart. Irish goalkeeper Jennifer Ast saved every shot the Irish could take.

However, 19-20 into the second half, the Irish were awarded a penalty kick in the Chicago penalty box, and senior co-captain K.T. Sullivan, who, with Joy Sisolak, played the last home game of her Notre Dame career, scored the Maroon goalie to put Notre Dame up 1-0. Sophomore Sonie Zivkiss finished the scoring for the Irish as 39.04 of the second half as she dribbled past two Maroon defenders and beat the Chicago goalkeeper for a 2-0 lead.

The speedy Notre Dame offense, which took 30 shots in the contest, was backed up by the relentless defense, who allowed 24 shots. The win over Chicago was not only the record-setting tenth in a row for Notre Dame, but also the sixth consecutive shutout. In those six

ND baseball ready to battle USC
Irish take on USC at Coveleski Stadium in Fall Classic

By MIKE KAMRADT
Sports Writer

The Notre Dame baseball team has lost the USC Trojans in the second annual South Bend Tribune Fall Classic tonight and Friday night at Stanley Coveleski Stadium.

Tonight’s game will begin at 7 p.m. and Friday night’s game will begin at 8:30 p.m.

The Trojans will be as great, if not greater for a test of the Irish than we had last year. USC has all of its position players returning and its three top pitchers as well. "They will be very strong," said Irish head coach Larry Leinonen. "They have the Big One, every team is out for blood, and we have to prove ourselves and stay focused and hungry here and there, trying to get the right combinations. We came to the conclusion a week ago that we just don’t have definite answers."

One of the changes saw flanker Flahgbi Ismail using his talents from the backfield spot against Air Force.

"On the practice field, he knew he was getting the ball, he didn’t even know who the blockers were," Holtz said of Ismail. "I found the hole anyway. We can’t keep him in that spot. You’ll see him there some, but not consistently. We just can’t afford to do that."

Irish tight end Frank Jacobs will be lost for the season after fracturing his left fibula and tearing his left ankle ligaments Saturday against Air Force.

"I don’t think anyone can run against Southern Cal," Holtz said. "They’re giving up one-point-six yards per run. I could even afford to buy that if I was in Manhattan. That’s not very much yardage."

Holtz is concerned with the team’s progress at tailback, in terms of depth, rather than talent.

"We’re still moving around of offense, moving this guy here and that guy there, trying to get get the right combinations. We came to the conclusion a week ago that we just don’t have definite answers." One of the changes saw flanker Flahgbi Ismail using his talents from the backfield spot against Air Force.

"On the practice field, he knew he was getting the ball, he didn’t even know who the blockers were," Holtz said of Ismail. "I found the hole anyway. We can’t keep him in that spot. You’ll see him there some, but not consistently. We just can’t afford to do that."

Irish tight end Frank Jacobs will be lost for the season after fracturing his left fibula and tearing his left ankle ligaments Saturday against Air Force.

The Irish of this year are a much different team than last year’s. The Irish control of the run of play, 11th in total offense, 13th in scoring, 11th in total defense, 10th in scoring defense and, bad news for the Irish, first in rushing defense. Lou Holtz said. "We’re going to have to throw the football, but I’ve got to be honest with you, throwing the football is not our strong suit."

Holtz’s worries continue, as he recalls the Irish in shutout the University of Chicago Maroons Stadium.

In the last home game of the 1989 season, Notre Dame dominated. The first half saw the potent offense of the Irish frustrated by the superior pitching of their Chicago counterpart. Irish goalkeeper Jennifer Ast saved every shot the Irish could take.

However, 19-20 into the second half, the Irish were awarded a penalty kick in the Chicago penalty box, and senior co-captain K.T. Sullivan, who, with Joy Sisolak, played the last home game of her Notre Dame career, scored the Maroon goalie to put Notre Dame up 1-0. Sophomore Sonie Zivkiss finished the scoring for the Irish as 39.04 of the second half as she dribbled past two Maroon defenders and beat the Chicago goalkeeper for a 2-0 lead.

The speedy Notre Dame offense, which took 30 shots in the contest, was backed up by the relentless defense, who allowed 24 shots. The win over Chicago was not only the record-setting tenth in a row for Notre Dame, but also the sixth consecutive shutout. In those six
