Security apprehends suspected bike thief

By MONICA YANT
News Writer

Notre Dame Security apprehended a South Bend teen for suspicious behavior and possible bicycle theft Wednesday after a call from a University employee, said Chuck Hurley, assistant director of security/police.

Security learned of the suspect from a maid in Paugwilla East who noticed the boy inside the residence hall. When the suspect was asked who he was visiting, he fled. The maid called security at 2:20 p.m., Hurley said.

When Security found a boy matching the description near Grace Hall, he was on a bike. "The guy says that he bought the bike off someone in the street, but he can't prove ownership. We suspect that it is stolen," said Hurley.

Ex-Guam Governor puts gun to own head

AGANA, Guam (AP) — Hours before he was to leave the island to begin a prison term, a former two-term governor of Guam chained himself to a public statue, wrapped himself in Guam's flag and fatally shot himself in the head.

Found at the base of the statue were four handwritten placards, one of which said, "I regret I only have one life to give for my island," according to police Lt. Phil Dennis.

Former Gov. Ricardo "Ricky" Bordallo, 63, shot himself Wednesday less than four hours before he was to fly to Los Angeles, where he was to visit his daughter before prison term with massive brain damage, according to a spokesman at the federal prison, in Indiana, said Joe Russo, director of financial aid.

The event is directed especially toward low-income disadvantaged students. The number of minority college goers has decreased across the country, and even more so in Indiana, said Joe Russo, director of financial aid.

College Goal Sunday” is sponsored annually by the Lilly Endowment. The large part of financial aid for Notre Dame students is college work study, according to Student Employment Coordinator, Sue Brandt.

"All employment on campus has to be cleared through the financial aid office, with the exception of independent organizations," she said.

Preference for work at Notre Dame does go to those who have need, but that does not necessarily mean that students who don't show need may not get a job, Brandt said.

"There is a fifty-fifty split of those who need to work and those who want to work," she said.

Many students who do not show need often have jobs on campus that require special skills, or have only certain hours open. A few examples are grading, for which one must have taken the course, research assistants, lifeguarding or computing, said Brandt. The average amount of hours students work on campus is 10, although they may work anywhere from 1 to 20 hours per week. The starting salary is $4.70 and...
Academic freedom cuts both ways

Academic freedom. The liberty and autonomy requisite for scholarship and the critical examination of issues. It's often a fine line between academic freedom and the University's mission as a Catholic university to pass on the Church's teachings to its students.

This weekend Notre Dame will host a national conference of Catholic students. One of the topics of the event will be a discussion of academic freedom at Catholic institutions of higher education.

The Notre Dame campus has seen the issue of academic freedom come up several times this year. The biggest frenzy came over "The Last Temptation of Christ"; the most recent, over the lecture by Dr. Sol Goldenberg.

Why all the fuss? Not many would argue against academic autonomy. Freedom to say and think what you will is a right guaranteed by our Constitution, a right cherished at academic institutions everywhere.

Indeed, shouting "academic freedom" is enough to quiet most objections about a particular speaker, book, or film. It's fine if you don't like the speaker, but don't try to keep anyone from attending his lecture or her lecture.

Ask yourself what academic freedom means to you. Can you think of anyone who should never set foot on this campus? Who should never set foot on this campus?

It's you and me. It's all of us. It's every one of us who's tried to understand why anyone would be offended, who's tried to understand why anyone would be upset by something said or done.

"Who should never set foot on this campus?" asked one of the conference speakers. "The person who's never dreamed it would work so well. The person who's never dreamed it would work so well."

A lawyer in Tokyo with two Spanish-made concrete barriers

In Japan, a lawyer in Tokyo has constructed two Spanish-made concrete barriers in an attempt to keep his business from being found.

More than 50 concrete barriers installed in a residential area by the Terra Haute, Indiana, Housing Authority have been ordered removed. The housing authority reversed itself because people complained that the barriers running along two residential blocks on U.S. 41 were eyesores, authorities said. The 56 concrete blocks, which stand waist-high, were installed late last year to protect the occupants of public housing, housing authority Director Patrick Ballard said.

The executive director of Action Inc., a federally-funded agency in Muncie that aids the occupants of public housing, housing authority Director Patrick Ballard said.

Black American autobiographies traditionally encompass a social message about the life of all blacks rather than just the introspections of one individual, said Alice Deck, an English professor at the University of Illinois.

"The main thrust of black literature since the slave narrative is a social message of gaining basic human rights," Deck said in an African-African American literature class at Notre Dame Thursday. "The black autobiographers, therefore, speak in the communal voice."

Deck compared the autobiographies of French writer Jean Jacques Rousseau and American statesman Benjamin Franklin with the African-American autobiographical tradition.

The two writers "were eighteenth century men, very much under the influence of eighteenth century thought which emphasized man's intellectual capacities, man's individualism and man's uniqueness," Deck said.

"African-American autobiographers are doing the exact opposite of Rousseau and Franklin. Their emphasis is not so much on introspection and meditations of self as it is an examination of the outer dynamics of the self," Deck said.

Like Jacobs, Ida Wells endorsed a political cause in her autobiography. But the black writer asks "what links me to my black community and how much responsibility do I have to speak for or on behalf of the community from which I come?"

The dominant tradition in white personal narratives is the portrayal of family life or accomplishments, while black autobiographies tend to reflect the writer's political awareness, Deck said.

"African-American autobiographies traditionally encompass a social message about the life of all blacks rather than just the introspections of one individual," Deck said.

"I do honestly believe that the new figure will be a female slave by her owners."

"Incidents in the Life of a Slave Girl" is one of the few works she views which depicts the sexual harassment of female slaves by their owners.

"I have not written my experiences in order to attract attention to myself," Jacobs says in the preface. "I do honestly desire to arise the women of the North to realize the condition of two women of the South."

Like Jacobs, Ida Wells endorsed a political cause in her 1928 autobiography, Crusade for Justice. Wells, a journalist and organizer against lynchings in the South, focuses her
Troop reduction proposal signals change in Germany

FRANKFURT, West Germany (AP) — Drinking beer, paying rent, buying clothes and furnishing their apartments, U.S. soldiers account for about $2 billion in annual revenues alone in one West German state.

Nationwide, the more than 250,000 GIs, their family members and civilian U.S. military employees spend several times that amount each year.

For the tens of thousands of West Germans whose livelihoods depend on the presence of the U.S. military, President Bush's troop reduction proposal Wednesday signaled a possible major shift in their lives.

While the Yankees aren't going home just yet, the European nation that grew up with their sometimes controversial presence.

The occupation troops—turne—allies are still a daily presence.

goes up from there accordingly to skill level, she said.

Students receive paychecks; the money is not deposited in their accounts, Brandt noted.

College work study is also called self-help; it makes a student can borrow a loan.

Forty percent of the undergraduates on campus work, and thirty percent of the freshman work.

"As long as a student can handle it academically, it's great working as a freshman," Brandt said. "It gives you responsibility and helps finance your education."

Currently, research is being done about students working on campus, she said.

"Work is called self-help, it can sometimes help so that the student can borrow less," said Brandt. "We would never deny anyone the right to work, although we may force them to make a choice" between work and a loan.

Working on campus may also be advantageous when looking for a job after graduation.

Guam

continued from page 1

But he also said: "My own instincts make me believe that I will not be coming back from Boron alive. I'm not dwelling on how it will happen. I will be in the hands of people who are masters of intrigue."

Bordallo was found guilty in February 1987 of getting engi-neer Johnny Carpio to lie to federal officials about a $60,000 political contribution from a group of Japanese businessmen.

During his trial, Bordallo admitted accepting money from the businessmen, but continued the money was a campaign contribution.

Carpio was convicted of extortion and bribery and was placed on five years' probation. Bordallo, a Democrat, served as governor from 1976 to 1980, and again from 1982 to 1986, when he was defeated by Republican Joseph Ada.

Exxon captain on trial

Former Exxon Valdez captain Joseph Hazelwood, right, sits with his lawyer Michael Chalos in Anchorage Superior court as the third day of his trial gets underway. Hazelwood faces several charges surrounding the nearly 11 million gallon oil spill on March 24 in Alaska's Prince William sound.
De Klerk brings S.African future into question

CAPE TOWN, South Africa (AP) — President F.W. de Klerk is to outline his plans for reform Friday in a speech that many South Africans hope will finally signal the end of apartheid and set their country on the road to peace.

Expectation has ballooned around the world that de Klerk's speech will at least announce the release of Nelson Mandela, South Africa's most famous black leader, clearing the way for negotiations on solving the nation's problems.

De Klerk, who already has dented the edifice of apartheid, has pledged to create a new dispensation in South Africa. Whites and blacks must solve the race war that would last for 350 years that makes it impossible for them to share power with non-whites, they say.

Helen Suzman, who opposed the National Party throughout her 36 years in Parliament, said de Klerk was selected by the Afrikaners and his mandate is to protect the whites' interests above all other considerations.

"He would not interpret his mandate for reform as a mandate to jeopardize the political position of the white minority or to threaten its survival," she said in a recent lecture.

Suzman has said she believes de Klerk will end the worst aspects of the apartheid laws that deprive blacks of rights and impose a minimum level of emasculation on non-whites.

But the government has said it will not degenerate schools, hospitals and other public facilities and there are few signs that many white South Africans are ready to share power or amenities with non-whites.

Nonetheless, the government apparently hopes a moderate stance would raise political tension and encourage some black groups to take a softer line that could lead to a compromise in which white interests will be safeguarded.

The government also is eager to end or weaken the economic boycotts imposed by many Western nations to protest apartheid. The boycotts, along with domestic economic problems, have sent the economy into a tailspin and created hard times for many whites.

Bush continued from page 3

followed Thatcher's cautious line.

"There have to be talks on the withdrawal of troops, and I oppose a unilateral initiative," said Belgian Foreign Affairs Minister Mark Eyskens.

Dutch Foreign Minister Hans van den Broek said 195,000 U.S. troops would be the "minimum level" needed. Dutch TV reported.

Both Belgium and the Netherlands, however, have said they are studying the possibility of withdrawing their forces from West Germany because of the diminished Soviet threat.

"Some of the smaller NATO countries weren't all that firm in their commitment anyway," said Mark Fielder, an analyst at the Royal United Services Institute in London. "Now with the Bush proposal they'll have the best excuse in the world to say, 'Let's have a race to see who can get out first.'"

Manfred Woerner, secretary-general of the 16-nation North Atlantic Treaty Organization, said in Brussels the Bush plan was consistent with U.S. promises "to maintain significant military forces in Europe."
The event was instigated by McDonald’s in the land of Lenin for the first time.

The world’s largest version of the landmark American fast-food chain rang up 30,000 meals on 27 cash registers, breaking the opening-day record for McDonald’s worldwide, officials said.

The Soviets, bundled in fur coats and hats, seemed un­fazed, lining up before dawn Wednesday cheerfully to take it back for the girls at crush of customers was so in­tense the wide, officials said.

Fagged, lining up before dawn Wednesday, officials said.

The Soviets, bundled in fur coats and hats, seemed un­fazed, lining up before dawn Wednesday cheerfully to take it back for the girls at crush of customers was so in­tense the wide, officials said.

Fagged, lining up before dawn Wednesday, officials said.

The article discusses the opening of a McDonald’s restaurant in Moscow, where people lined up to purchase their sandwiches. The article mentions that the event was instigated by McDonald’s for the first time in the Soviet Union.

The story also highlights the excitement and enthusiasm of the crowd, who were eager to have their first experience with a McDonald’s hamburger. The opening day lasted longer than planned, with customers waiting until midnight, two hours later than expected.

The article also notes the unusual demand for McDonald’s products, with customers purchasing not only sandwiches but also food such as Mickey Mouse and Baba Yaga, a witch from Russian fairy tales. The crowd was described as ‘fagged’ and ‘unfazed’ as they lined up before dawn to get their early morning fix.

The article concludes by mentioning that the event was significant for the Soviet Union, as it marked the first time a McDonald’s restaurant had opened there. The opening of the restaurant was seen as a symbol of change and openness in Soviet society.

The article also notes that thousands of Soviets lined up to get their first taste of McDonald’s, with customers expressing excitement and enthusiasm at the opportunity to experience the American fast-food giant for the first time.

Yugoslavian protests leave at least 18 dead

PRISTINA, Yugoslavia (AP) — Tanks patrolled streets of Kosovo and helicopters watched from above Thursday, the ninth day of protests that have cost the lives of at least 18 ethnic Albanians in the impoverished province.

Demonstrators began gathering at midday in towns across neighboring Kosovo in which 90 percent of the 1.9 million people are ethnic Albanians.

Ethnic Albanians are ethnic Albanians with ethnic Albanians in order to avoid a full-scale uprising.

"Ethnic Albanians are not terrorists," the statement said.

"They are subjected to terror by the state."

Violence in Kosovo has caused a backlash in some federal authorities to negotiate with ethnic Albanians in order to avoid a full-scale uprising.

Thousand of Serbs held anti-Albanian demonstrations in their republic Thursday, including about 5,000 in Novi Sad, 30 miles north of Belgrade, capital of both Yugoslavia and Serbia.

As many as 100,000 Serbs, some firing guns into the air, rallied on Wednesday in Tivograd, capital of Montenegro.

Some demanded weapons and volunteered to fight ethnic "Albanian nationalists" in neighboring Kosovo.

One speaker said Montenegrin volunteers would go to Kosovo unless authorities "use all available methods, including repression," to end "the Albanian uprising."

Leaders of independent groups in Kosovo issued a statement Thursday urging federal authorities to negotiate with ethnic Albanians in order to avoid a full-scale uprising.

"Ethnic Albanians are not terrorists," the statement said.

"They are subjected to terror by the state."

Ethical traditions within Church need unification

Tony Lang

Ideas and issues

In his recent book, "Tensions in Moral Theology," Father Curran wrote, "From the perspective of the general public, contemporary Catholic teaching, with its criticism of the United States' love-consumerism system and of our nuclear war and deterrence policy, falls into what is often called the 'false camp.' However, Catholic teaching in sexual matters is definitely in the more 'conservative camp.'

In light of the current American political spectrum and the stance taken by the U.S. bishops, the American Catholic seems doomed to political schizophrenia, with the predicament raising questions about both the political parties of the U.S. and the about the teachings of the Catholic Church. Some, like Father Curran, would argue that this seeming inconsistency results from the lack of ethical debate within the Church, while others would argue that the Church professes a consistent ethic, but that the American political system is irrelevant.

I realize that in my attempt to articulate the views of Father Curran, I will be branded as heretical by some (including members of my own family). I would admit that I do not agree with many of the positions which Curran holds, nor do I think his intransigence in the face of Vatican disapproval is appropriate for a Catholic priest.

However, with little background in Catholic moral theology, I found Curran's book enlightening and I would recommend it to anyone interested in understanding the current ethical dialogue within the church. Also, I found Curran's views an interesting contrast to his Thomistic tradition in which I have been educated by Notre Dame's philosophy department.

Curran analyzes official Vatican documents and ecclesiastical teaching, with his criticism of the United States' love-consumerism system and of our nuclear war and deterrence policy, falls into what is often called the 'false camp.'

However, Catholic teaching in sexual matters is definitely in the more 'conservative camp.'

This is the beginning of second semester, it must be time for the annual Keenan Revue. It is the fourteenth year for the Keenanites and was a night full of guys in tu skates and oatmeal. The Revue lived up to the name it has made for itself in the past. "It is a much more technically proficient show: more sound, more lighting. It is a better show already," says Director Dave Vreeland, a senior.

Those who saw the show last year or the one the year before will be happy to see the return of some of those year's fun acts. The golf instructor who commands his recruits to "always protect their clubs," the Flying Zambini Brothers and the Physics Gods all made successful returns. The 27
AN REVUE

Annual show combines talent, technology, and Godzilla

other acts are by no means inferior, and this Revue altogether shines. Not one of the acts is less-than-funny, and the evening never lags.

Very few entities in the Notre Dame/Saint Mary's community escape the humor of the Keenanites, Goldrick, Tyson, Malloy, Breen-Phillips, Holtz, girls who won't say yes, the alcohol policy and virtually every other rule in du Lac fall victim.

The acts are not all satirical skits, though. Two original musical compositions nicely change the pace for a while, and three acts take popular songs and skillfully change the words to reflect on Notre Dame.

A few Keenanites also try their voices at impressions and do a first-rate job.

Without revealing anything, one of the best acts of the Revue is the interesting rendition of "Nobody Does It Better." Vreeland and Producer Brian Gerraghty, also a senior, put the Revue together in about 2 1/2 weeks. They and their staff screened over 150 acts—more than any other year—and kept 30. In accepting and cutting acts, they were looking for the best 92 minutes of talent and were not concerned with who was in the skits.

Contrary to what most people think, Keenan does not spend countless weeks preparing the Revue. Auditions were announced the first week after Christmas break, and the final audition was last Thursday. The first rehearsal was Saturday, the technical rehearsal was Tuesday, and the second and final dress rehearsal was Wednesday.

This year's Revue is one of the finest ever in the way of both talent and production, and it is unfortunate that not everyone will have the chance to see it. Those who are privileged enough to have those coveted tickets are in for one hilarious evening. The audience leaves laughing and wishing for more.
When I remember Al Sondej, this year’s winner of the Tom Dooley award, I think of Portia’s lines in the "Merchant of Venice": "How far that little candle throws his beams! So shines a good deed in a naughty world." Big Al was neither little nor flamboyant; if he had been, he wouldn’t be remembered as "Big Al. The world he lived in, as we all know, is more vicious than naughty.

Al was more of a lantern than he was a candle. We could say of him: "His word was a lantern unto our feet, and a light unto our path.

Al was not a campus heart was: a dullness. The only thing that never failed him. The practice of hunger. The famine-stricken countries. The street

I’m not telling you about AI to persuade you to keep his memory green. Al is already one of the immortals of the Notre Dame myth, and not only to his own generation. Part of Al’s greatness is that he was not a saint. I’m not even sure he attended Mass. He was not a brilliant student or a famous athlete. He wasn’t a campus politician with a roar that could be heard in Miami, when the Board of Trustees were having a meeting there. Yet, everyone knew Al Sondej on sight, and they knew what he stood for. You couldn’t miss seeing him at mealtimes, at the doors of the dining halls, collecting nickels and dimes to feed the starving people. He could have given Mother Teresa a lesson in street ministry. The only appeal he used was one Pope said that, he might have gone to the Vatican to ask for a donation for food for the hungry. After seeing Al and listening to him, the Pope might have contributed a chateau or two, or a vineyard, or some of the jewels of the Madonna that she no longer wore.

The point is, Al would not have been too shy to ask the Pope’s help. He called the Pope who hates the thought of children going to bed hungry is the kind of Pope that Al could hug to his heart. Only Al would have reminded the Vicar that working parents and senor citizens also go to bed hungry.

The world the world has to kill them to break them, so of course it kills them. The world breaks everyone and afterward many are strong at the broken places. But those that will not break it, kills. It kills the very good and the very gentle and the very brave impartially. If you are none of you can be sure it will kill you too but there will be no special hurry.

Hemingway counts Christ among the courageous and strong who die young. Hemingway’s Christ is a secular hero, who has the kind of courage that is called "grace under pressure." Al Sondej would never have wanted to be considered a Christ-figure. Would he be equally scornful of himself as a hero who exhibited grace under pressure? I don’t want to praise him in a phoney way that would make him seem phoney. I want to offer him as one who is like you in every way.

What made him larger than life was the depth of his conviction in favor of the poor. Does God call human beings to become secular Christs, or do they lift themselves onto that plateau of grace under pressure by their own bootstraps, or by their self-reliance which is such a highly-touted part of the American Dream? Grace, they say, is everywhere; but is grace under pressure everywhere? Knowing Big Al makes me believe there is. Knowing many of you makes me hope that there might be.

World festival comes to ND

PAUL PEARSON for the Observer

Mexico is coming to South Bend.

So are India, Colombia, Ireland and nearly 30 other countries. Mexico, of course, is the largest of the 30.

The show will include dances from Mexico, the Philippines, India, Colombia, and Ireland. It will also feature songs from countries such as France, Hawaii, Spain, and China.

According to Bualuan, "In the last few years, the International Festival has improved tremendously. And has, ever since 1988, truly reached the excellent level.

The show will feature 100 people from over 30 countries are expected to take part in this spectacle, which is the INO’s biggest event of the year.

More information is available at the International Student Office, which is located on the ground floor of the Student Union.

The Observer Friday, February 2, 1990
Shoemaker, the master, in style after 40,350 races

ARCADIA, Cal. (AP) — Bill Shoemaker once worked a horse while wearing a toupee. Several hours later he dozed. His employer won and got the Kentucky Derby.

Silks, boots and googles, not to forget the plastic patent leather shoes, go with any mind’s eye view of Shoemaker. But when it comes to racing, The Shoe is The Rit.

He earned a whip with a view of Fred Astair twirling a dance, The Rit. The main ingredient in his success, however, was not the whip but the hands. Through them he talked horses, asking them for their best, and often got it.

In a career that began in 1949, Shoemaker has won a world-record 8,383 races and earned $26,016,136 and 3,987 mounts. His mounts have earned $123,368,024. He has won 1,110 stakes with purses of at least $100,000.

He’ll ride one more time.

The fadeout in this sunburnt land with many names, the horse-today, gone-tomorrow city will come Saturday at Santa Anita in Shoemaker’s 40,350th race. He will ride as his mount rounding the 100,000 Legend Steeplechase at his alternates. A 12-horse field is entered and if all start, the race will be worth 10,000, with $63,850 to the winner.

If his 1990 campaign and his last hurrah smack of being one big variety show, his career is a dash-dash—dashdash—dashworthiness, the fighting back from serious injury, the great horses and great rides and, of course, the spice of controversy. Never scandal.

From the time Shoemaker won his first race in his third attempt to break in Transylvania, in 1949, at Golden Gate Fields until now, many men have returned in the United States, beginning with Harry S. Truman. The Berlin Wall went up in 1961, the year Shoemaker hit the 4,000-victory mark. It has come to 문자 bottom down as The Shoe prepares to step down from a horse, turn last time and launch a career as a trainer.

It’s his rendition of the second half of the century on many great horses of the time.

Top 5 Quotes from Chicago Adventure

1. We have time for Chees, don’t we?
2. Great, you have small feet!
3. Watch out for those thin things
4. It’s Hey’s fault.
5. Sara’s fault.

The Queen is The Rit, a one-time-only event, which will be about 2:43 P.M. PST and televised by ABC, does have a Hollywood stagnation about it.

Under the conditions, the master, in style after 40,350 races, choose two alternates. He picked Parysh as being as mount and Shining Steel and Ofanto as his alternates. A 12-horse field is entered and if all start, the race will be worth $10,000, with $63,850 to the winner.

If his 1990 campaign and his last hurrah smack of being one big variety show, his career is a dash-dash—dashdash—dashworthiness, the fighting back from serious injury, the great horses and great rides and, of course, the spice of controversy. Never scandal. From the time Shoemaker won his first race in his third attempt to break in Transylvania, in 1949, at Golden Gate Fields until now, many men have returned in the United States, beginning with Harry S. Truman. The Berlin Wall went up in 1961, the year Shoemaker hit the 4,000-victory mark. It has come to hang bottom down as The Shoe prepares to step down from a horse, turn last time and launch a career as a trainer.

It’s his rendition of the second half of the century on many great horses of the time.

Eck Doubles Classic first competition of year for women

By BARBARA MORAN
Sports Writer

The women's tennis team will face its first test of the new year at the grueling three-day Eck Doubles Classic this weekend at Eck Pavilion.

Beginning today at 8AM, the Irish women will pit eight of their doubles teams against some of the top pairs in the region, including those from Top-20 Indiana University and the University of Kentucky. Also contending for top honors in the 11-team field will be the University of Hawaii and Big Ten powers Illinois, Ohio State, and Purdue.

First-year coach Jay Louderback is cautiously hopeful concerning his team's chances in the upcoming Classic.

"For this weekend, [our chances] are hard to say," said the coach. "I'm hoping to get one of our teams into the finals, but it'll be tough. There will be 11 teams there with their number-one doubles teams all in the same bracket."

"We're just hoping to play well. The last couple of days have been rough in practice, and the girls are ready to start playing matches."

Notre Dame will place its hopes on top-seeded doubles team of sophomores Tracy Barton and Anne Bradshaw. Barton finished 13 - 2 last fall, and is currently ranked 29th in the nation. Louderback expects the Cincinnati native to be his top player for the spring season.

"Tracy can hit everything," said the coach. "She has a good serve and one of the top four forehands in the country."

Louderback will depend on Barton's forehand to guide the Irish past rival Northwestern in their matchup next Sunday. Northwestern holds the fourth spot in the regional preseason rankings, one slot above fifth-place Notre Dame.

"We've had some good practices and the girls have been working hard," said Louderback. "I think we'll have a good year."

Olajuwon leads Houston past Bulls

HOUSTON (AP) — Akeem Olajuwon had 23 points and seven blocked shots, and Ois Thorpe scored 30 points as Houston enjoyed its best offensive output this season.

All five starters scored in double figures as Houston never trailed in breaking a two-game losing streak to win the 17th time in 21 home games this season. Houston's best previous output was in a 132-94 victory over Miami on Nov. 19.

The Rockets, who led 41-21 after one period, also got 13 rebounds from Thorpe and 10 from Olajuwon. Sleepy Floyd added 20 points for Houston and Mitchell Wiggins 18.

Michael Jordan led the Bulls with 35 points, 25 in the first half. But Houston cruised after a 16-6 third-quarter spurt. Robertson led the charge when he scored on a rebound in the opening 4:32 left in the quarter.

The Bulls cruised after a 16-6 third-quarter spurt. Robertson led the charge when he scored on a rebound in the opening 4:32 left in the quarter.

The Knicks, who fell into a tie with Philadelphia by losing six of their previous seven games, improved their record at Madison Square Garden to 18-2 this season and dropped Sacramento's road mark to 2-18. But the Kings didn't go down without a fight, rallying from a 12-point deficit to lead in the second half.

Ewing put the Knicks ahead for good at 83-82 with 4:49 left and scored again 34 seconds later for an 85-82 edge, giving him 12 points in the period. The Kings, who scored only 17 points in the third quarter, got no closer than three points after that.

Wayman Tisdale led Sacramento with 22 points and Rodney McCray added 19 for the Kings. Johnny Newman scored 19 points and Charles Oakley had 16 points and 16 rebounds for New York.

Bucks 129, Magic 111

Alvin Robertson had 16 points, 14 rebounds and 10 assists as Milwaukee handed Orlando its 16th loss in its last 17 road games.

Michael Ansley led the Magic with 24 points. Ois Smith scored 19 points, including 16 in the first quarter for Orlando, which has lost 19 of 24 games against Central Division opponents.

Ricky Pierce and Paul Pressey added 15 points apiece for the Bucks.

Leading 68-53 at half, the Bucks cruised after a 16-6 third-quarter spurt. Robertson led the charge when he scored on a rebound in the opening 4:32 left in the quarter.
The Notre Dame men’s indoor track team returns to action this weekend when it hosts the Meyo Invitational meet at the Loftus Sports Center on Saturday. Field events begin at 11:00 a.m., with track trials at 1:00 p.m., track finals at 3:00 p.m., and the final events at 3:30 p.m.

The Irish, led by senior tenton Glenn Watson, Mike O’Connor, and Yan Searcy, are fresh off a season-opening weekend at the 1990 Midwestern College Conference meet, which took place last Friday at Notre Dame. The Irish won the meet, holding off second-place Missouri State in a very close finish: 8,057 to 8,053.

Yan Searcy

Wrestlers continued from page 20

and Chuck Weaver helped the Irish overcome a 5-6 Ohio State lead.

As good as Ohio State has wrestled this season, Indiana has had trouble with its in-state Hoosiers. The Hoosiers scored to the top 10 with impressive performances in recent tournaments like the Las Vegas Invitational, and they’ve yet to suffer a setback this season.

Indiana, which currently holds an 8-0 record in dual matches, consistently is a Top 10 team, and still, the Hoosiers have rarely had the amount of success the Irish have had on the mat this season.

“I think this is the best Indiana team I’ve seen,” said McCann. “Their kids all have been the top of the class, and this is their year. They’re starting eight seniors against us.”

Notre Dame traditionally has had a tough time against Indiana. The Irish have a 1-3 record against Indiana since McCann’s arrival, and are 2-8 overall versus their state rivals.

The probable lineup for Notre Dame this weekend includes 106-pound Timothy Denabarger, 174-pound sophomore Marcus Goezens (17-6, 134-pound freshman Stephen Fett, 142-pound freshman Pat Boyd (23-1), 150-pound junior Todd Tomazic (12-7, 167-pound freshman Mark Gerardi (26-4), 177-pound sophomore Curt Engler (18-9-1), 190-pound junior Steve King (13-12-1) and 285-pound junior Eric Anderson with six rebounds.

Bloomingtin, Ind. (AP) — Lyndon Jones went from near invisible to near-perfect.

After a stint on the bench during which he played only five minutes in Indiana’s previous three games, Jones, a junior and frequent starter, got a start Thursday night and scored a career high 21 points as the No. 22 Hoosiers beat Wisconsin 83-61, their 11th straight victory over the Badgers.

Coach Bob Knight said he started Jones “because of better play in practice, just like we expected him to play. He was very talkative and gave good leadership.”

After trailing 6-4, the Hoosiers (14-4, 4-4 Big Ten) took control with a 17-7 burst led by Jones with eight points and 118-pound senior Andy McCann with six.

Minnesota 79, MSU 74

Walker Bond 15 points led six Minnesota players in double figures and a key block by Kevin Lynch with 18 seconds left helped the 19th-ranked Gophers defeat Michigan State 79-74 Thursday night.

The “Meyo” Millie promises to be the highlight of the track meet. There should be lots of emotion for the Meyo Millie, commented Coach Piane, there is a very good chance for a sub­ minute mile, which is not something you see very often.”

This year’s edition of Notre Dame has an all-around solid team, boasting powerful middle-distance and distance runners, as well as talented sprinters, hurdlers, and field athletes. Stated coach Piane, “we are gong, well and we hope it continues to do so.”

SBAAC: VICTORY OR DEATH

Faubon

This is the season for Notre Dame athletes qualified for the ICAA (Intercollegiate Association of Amateur Athletes of America) meet as a result of their performances at the MCG meet. The ICAA is the oldest athletic conference in the country, and also one of the largest, with a membership of over 100 teams, most of which are from the east coast. These teams not only come from conferences such as the Atlantic Coast, Big Ten, and also from the ranks of the nation’s independent schools, notably Army, Navy, and Notre Dame.

MARK ANGULAR

Mark Anglarov scored 32 points as Marquette outlanced Butler for a 75-71 victory Thursday in the Midwestern Collegiate Conference.

After trailing 36-29 at half­ time, Marquette (5-2, 11-6) opened a 9-2 run to tie the game at 38-38 early in the pe­ riod. Butler (10-7, 3-6) quickly took the lead back, but Anglarov hit a 3-pointer with 12:57 left to play, tying the score at 42-42. The Warriors never trailed again.

The teams battled to 44-44 and 46-46 before Mar­ quette opened a six-point run, led by Trevor Powell’s four points.
Irish men’s tennis back in action at home after two-week hiatus

By BOB MITCHELL
Sports Writer

On the wall of Notre Dame tennis coach Bob Bayliss’ office, there is a quotation that seems particularly fitting for this weekend’s matches against Illinois and West Virginia. It reads, “Start by doing the necessary, then the possible, and soon you will be doing the impossible.” The source of these prophetic words is Assistant Coach, Brian Kalbas.

After a two-week break from match play, Notre Dame will have a chance to accomplish the “necessary” and the “possible.” The “necessary” will be to take to the road for the first time this year and come home the victors against the University of Illinois, which is ranked seventh in the Midwest region. And the “possible,” some may say the “impossible,” by returning home on Sunday to defeat the Top 25 Mountaineers of West Virginia in the Eck Pavilion at 3 p.m.

On Saturday, the Irish will take on the lesser of the two teams. How much lesser is the question at hand. Illinois is a veteran team comprised of four seniors who are not spectacular as a unit, yet they are a force to be reckoned with.

“Illinois is every solid, experienced team,” said Bayliss. “They will make us play to our ability in order to win. I think it is important to do three things: 1) Adjust to the environment, 2) We must be aggressive without making silly mistakes and 3) We need to keep our cool and not react to a hostile crowd.”

The Irish will have to quickly adapt to the playing conditions of Illinois’ home court. The Illini courts are much quicker than Notre Dame’s practice courts and are not lighted as well.

Our biggest concern is the place,” said Bayliss. “We have been practicing at one-third of full power and playing with new balls every day to help us adjust.”

On Sunday, Notre Dame will take on the impressive Mountaineers. This match will mark the home opener of the 1990 season for the Irish. West Virginia, who knocked off Notre Dame last year in Morgantown 6-3, returns every key player plus the addition of the No. 2 junior college transfer, Bob Westoo as well as freshman sensation Mark Boora.

“Perhaps the best ‘key’ player on the Mountaineer roster is Jody Foley, the No. 11 collegiate player. Foley possesses an excellent backhand and an aggressive approach to the game. Not far behind Foley is Paul Mancini, WVU’s No. 2 player.”

Both of these players have beaten Notre Dame’s No. 1 player, Dave DiLullo this year.

“Mancini, Foley and Brad Kelly (WVU’s No. 3 player) will play professional tennis,” said Bayliss. “Mancini is a crafty player with a big forehand as well as a tough competitor. Brad Kelly is a very aggressive player who hits the seams off the ball.”

“We have a chance to make a dent towards our goal of making the NCAA tournament,” said Bayliss. “West Virginia has been in the tournament for the past three years. And if you beat teams that have been in the tournament, it will definitely help us. We will accept our results as long as we play solid and within ourselves.”

ASSIGNMENT BELIZE:

TEACHING MATH MAY ALSO INVOLVE GROWING VEGETABLES TO IMPROVE STUDENTS’ NUTRITION.

Teaching math or science as a Peace Corps Volunteer will develop your professional skills in the classroom and beyond. You might teach basic math to rural students in Belize and also teach them how to garden to improve nutrition. Or be assigned as a physics teacher in Lesotho. In addition, help local women market handicrafts to earn school fees.

Peace Corps Volunteer, you will handle responsibilities and meet challenges far greater than those that might be offered in a starting position in the United States. When you return, your Peace Corps experience may open new doors to you. Educational institutions, international firms and government agencies may take note of some of the skills you’ve acquired.

25 years of PEACE CORPS

Teamwork makes this ND team one of best in the country

By CHRIS FILLIO
Sports Writer

Molly Sullivan was a four-time All-American while at Notre Dame. In addition, she earned the gold medal at the Pan American Games and was a 1988 US Olympic team member. She was the last captain to lead the women's fencing team to a national championship back in 1987. Many a story since her departure has begun. "Despite the loss of Molly Sullivan, the Irish women's team..."

But this year's team is no longer at a loss. The only ones with feeling of loss are the likes of North Carolina, Temple, and Columbia. They are at a loss to describe what they have just been hit by after the Notre Dame women's team stormed into town, tarnishing their pride and stealing their lime-light.

Fencers
continued from page 20

Travel to Detroit to face Tri-State, the University of Detroit, Eastern Michigan University, Cleveland State, and the University of Michigan. The teams will return home for Sunday afternoon's match-up against Midwest rival Wayne State. The Spartans have a contingency which may include several foreign competitors, including girls from West Germany and Italy.

"They'll be as good as last year," said DeCicco. "But I think this year we will be able to answer that with our consistancy on the fencing strip. Our girl's squad is really solid. I'm not particularly worried.

Senior captain Anne Barreda will lead a women's squad that boasts a wealth of experience and talent. Classmate Kristin Kralicek could be in the process of one of the best seasons so far, while sophomore Heidi Piper has already exceeded all expectations re­marked on past team's lack of depth. But this year, they're playing a different tune. "Over the past years, we've been the model of consistency, not necessarily depth," said DeCicco. "Nothing hurts a squad like the lack of depth.

The men's foil team is perhaps the most solid in recent year's. Seniors Joel Clark and Derek Holman are both three-time monogram winners, with combined records of 137-15 through last season. Freshmen Noel Young and Jeff Piper are the perfect complement, with fresh talent to add to the squad. And then there's Phil Leary, the outstanding Irish junior out of Elizabeth, NJ, who has quietly become the most consistent and dependable fencer on the squad.

Right now, if I had to pick four fencers to go to the NCAA tournament, I'd pick Piper. He's got a lot of what to do," stated DeCicco.

Sahre has been another pleasant surprise for DeCicco this year. Junior Lezsek Noszovitski returned to the Irish after a semester off, fol­lowing two superb undefeated seasons. Al­though not as impressive as classmate Dave Kirby's own-year record of 42-2, Senior Dan Yu is well on his way to his fourth straight letter, and brothers Chris and Jeff Hugue­re a powerful one-two punch for my team. In addition, addition to the constant efforts to place four teams in the NCAA tournament March 24-28. The home meet on Sunday will begin at 1:00 p.m. in the Fieldhouse gym, above Gates 4 of the JACC

By CHRISTINE FILLIO
Sports Writer

Teamwork makes this ND team one of best in the country

If you wanted to single out a dominating force for the women's season, you could probably sum it up in two simple words: Anne Barreda. No, make that Heidi Piper. No, maybe Kristin Kralicek. Wait, Lynn Kadri. How about one simple word instead?

"I think this team is ready for this weekend," said head coach Yves Auriol, in regards to the upcoming match-up against a strong Wayne State squad. "This team is very close, and Anne Barreda is an excellent leader."

After dismantling some of the best eastern teams, Wayne State could be the latest hurdle on the way to the title. Although WSU's success would be an adequate indicator of how we should fare over the win season yet.

"I'd agree that this is proba­bly her finest season," said Auriol. "And all of the girls are winning as a team. That's what's the idea of team competition is all about."

Sophomore Heidi Piper has already exceeded all expecta­tions, going above and beyond what the coaching staff ex­pected. She has seemingly grasped the reins of control in an effort to establish herself as one of the top women fencers in the coun­try.

"Heidi has already done more than we looked for," said Auriol. "Her consistency has certainly been a plus."

A perennial problem in years past has been depth, the num­ber three, four and fifth spots. Not this year.

Junior Lynn Kadri, freshman Mary Westrick, and sopho­more Tara Kelly, Rachel Haugh and Kelly Haugh have made clear their intentions to make a serious contribution to this year's team, much to the delight of Auriol and the rest of the coaching staff.

"I've always known that Anne Barreda would make a run for the individual gold medal," said Head Coach Mike DeCicco. "But right now, I'm not so sure that she won't have to beat a few of the other teams on the way. That's how solid the women's foil team is. If they can fence competitively with each other during practice, then there's no doubt in my mind that they can fence with the best in the coun­try. It's as simple as that."

Wayne State University will roll into town on Sunday in an attempt to spoil the party, bringing with them some of the most talented fencers from the world over. Past experience has proven this show-down to be a critical benchmark for both teams as the regular season winds down. A victory against the Spartans on Sunday after­noon will be one little bit des­tiny between the women and another NCAA title.

Women’s basketball, unbeaten in MCC, blasts Billikens

By STEVE MEGARGEE
Associate Sports Editor

It’s not too difficult to imagine what might have happened if Notre Dame had gone on a road trip in the Midwest Women’s Athletic Conference. The Irish travel teams nationally. N1~ews. Ioyce ACC.

The Duke Blue Devils play in Cameron Indoor Stadium. The Blue Devils are listed primarily as the top team in the Big Ten, and unranked on the court.

noted again.

The Irish, who had a 25-point lead on the Billikens at half-time, extended the lead to 36 on a couple of occasions in the second half. Notre Dame outscored Saint Louis 14-4 in the first few minutes of that half.

The first couple of times we had the ball in the second half, I really struggled to keep up the energy and momentum. We just have to figure out a way to get those timeouts and make sure we can get the ball at the right place. I think we’ve been able to get in over the long run.

The Irish are winning their conference contests so far by an average of just under 24 points per game.

If the Notre Dame men’s basketball team is to continue its three-game winning streak, it’s going to have to beat the fifth-ranked team in the conference. The Irish have dominated the Billikens, who beat the Irish in the Midwestern Athletic Conference.

Fencers on quest for national title

If at all possible, the Notre Dame fencing teams will attempt to give an encore performance to their mid-January championship-caliber performance against the Billikens. The Irish have dominated the Billikens, who beat the Irish in the Midwestern Athletic Conference.

After being swept by Army last weekend, the Notre Dame hockey team may not be looking forward to facing another service academy.

The Irish, however, are desperately in need of a win as they face the Air Force Falcons who will be visiting at the JACC Friday and Saturday. Both games will begin at 7:30.

Last weekend split with the Falcons earlier this season in Colorado Springs, winning 4-2 and losing 4-3 in overtime. In the latter game the Irish rallied from a 3-2 deficit to lose on a disputed call. A shot that hit the crossbar and then smothered by Lance Madsen was ruled to have crossed the goal line.

“Sanely,” the referee made a very bad call,” explained Head Coach Rob Schaefer. “I have a videotape that proves it. But, I haven’t shown that one yet.”

That aside, this weekend’s series should offer a closer game and exciting games. There are lots of similarities between our team and theirs,” said Schaefer. “They have some big players on their team.”

The 10-11-1 Falcons are not known for their goal-scoring prowess. In 22 games, they have only netted 31 goals. That’s not very good, but they have won 21. Said Schaefer, “We have to be a little more aggressive.”
