**Expert speaks on Gulf crisis**

**BY STEVEN KRAUSS**

**News Writer**

Fundamental differences in American and Middle Eastern foreign policy need to be overcome to reach a peaceful resolution of the Middle East crisis becomes a possibility, according to Dr. Amjad-Ali, a visiting authority on Islamic-American relations.

Amjad-Ali, director of the Christian Study Center in Rawalpindi, Afghanistan, pointed out several factors which could prevent a peaceful resolution in the Persian Gulf crisis.

Amjad-Ali spoke of the United States' constant need for a binary opposite, or foreign enemy, to make American foreign policy relevant. With the recent changes in the Soviet Union and the hope of a future Soviet-American alliance, a new binary opposite must be sought, he said.

"Islam is the new enemy," said Amjad-Ali.

This should not come as a big surprise, however, according to Amjad-Ali. Since the Iranian hostage crisis in 1979, the tensions in the Middle East are constantly created: Ayatollah Khomeini, as his government.

**FBI agent warns ND students about white-collar crime**

**BY MICHAEL SCHOLL**

**News Writer**

"Say no to greed." That was the message given to the Notre Dame community in a lecture by William Clancy, Assistant Special Agent in Charge of the Chicago FBI office.

Clancy, speaking to a packed crowd in LeGault auditorium Wednesday, said there is a crisis of ethics in American business, one in which the crime has created an upsurge in white-collar crimes, which Clancy believes will continue into the new future if the economy goes into a recession.

As a result, Clancy said, ND students will face many temptations to commit white-collar crime if they go on to deal with the business world.

In order to persuade students not to engage in criminal activity, Clancy read letter from a banker who was convicted of embezzlement. The banker wrote of how the anguish he felt because of his arrest drove government to consider committing suicide. The banker realized that impulse and accepted a mental institution.

According to Clancy, such harsh sentences are becoming increasingly common due to the increasing realization of the damage white-collar crime does to the economy.

To give an example of such damage, he recounted his investigation of a scandal in Detroit in which unscrupulous real-estate brokers, contractors, and government officials conspired to defraud the Department of Housing and Urban Development (HUD) by charging huge sums of money for housing repairs which were never made.

His actions, according to Clancy, have caused much of Detroit's housing stock to become uninhabitable while leaving HUD without the monetary resources to remedy the situation.

Clancy said that when one of those convicted in connection with the case said he had to commit fraud "to stay in business," Clancy told him that "he should not have gone out of business" rather than commit such crimes.

Clancy gave similar advice to ND students.

"Don't let your bank statements rule your lives," Clancy told the audience. "If you go into business, don't act out of greed but out of a desire to do good with the money you earn."

By not basing their business...

**House Democrats rebel against budget package, Medicare an issue**

**WASHINGTON (AP) — Liberal House Democrats rebuffed Wednesday against the $500 billion deficit-reduction package as President Bush and congressional leaders pushed hard for the plan on the eve of its first vote.

Leading House Democrats and Republican leaders conferred Monday to round up a majority of votes by Thursday to pass the full House plan to vote on an outline of the package of tax boosts and spending cuts.

That is my intuition, that what you're seeing there will be a majority of both parties," said House Speaker Thomas Foley, D-Wash.

But Bush, Foley and House Minority Leader Robert Michel, R-Ill., worked furiously behind the scenes, handing privately with rank-and-file members and dispatching top lieutenants to do the same. Democratic leadership aides, speaking privately, offered conflicting assessments of how worried they might be about the prospects.

Democrats and Republicans figured on Wednesday night they were each 40 votes short of what they need and that a considerable number of lawmakers remained uncommitted.

A number of liberal Democrats said they would oppose the proposal, complaining about its reliance on $60 billion in Medicare cuts over five years and about the $11 billion in tax breaks it contains for small businesses.

"To cut $60 billion from Medicare means a loss of low-income elderly are going to be faced with difficult out-of-pocket expenses," said Rep. Henry Waxman, D-Calif.

"These people didn't create the

After a day of White House lobbying, Rep. James Leach, spokesman Marlin Fitzwater said the needed votes still were not in hand, and declined to say how many votes the White House could muster.

Bush kept close tabs on the results of lobbying efforts, checking in with Fitzwater at the end of the day for a reading of what the Congress members were telling reporters. Fitzwater told him that "most say they are considering it, they're listening and they're sympathetic to the argument."

Twenty-seven more Republicans met with Bush at the White House, the third straight day on which GOP lawmakers were summoned by the president for his sales pitch. One White House official called the operation the Bush administration's biggest lobby effort.

**Malloy: ND ready to face the future**

**By NATASHA WILSON**

**News Writer**

Notre Dame is well prepared to handle the challenges of the future while remaining faithful to the school's traditions, said University President Edward Malloy in his upbeat annual address to the faculty on Wednesday afternoon.

The strides Notre Dame made in the areas of academics, finances and physical expansion during the last decade have better equipped the University to deal with the impending opportunities and threats of the 1990s, Malloy said.

In his speech, he recalled the University's achievements of the 1980s, presented his views on several current issues and opportunities at Notre Dame and analyzed the upcoming challenges facing the University.

"Hard work and cooperative interaction is the spirit that has characterized the last decade and this year [at Notre Dame]," Malloy said.

He contrasted that spirit with the atmosphere of retrenchment that has recently characterized colleges nationwide. Notre Dame has escaped many of the problems faced especially by large research universities, he said. "Notre Dame is small enough to be manageable and large enough to have sufficient resources."

Notre Dame has tried to ensure its financial stability through fund raising activities, Malloy said. The University has strengthened its financial position through the incremental growth in its endowment, which now totals $600 million. The current development campaign, which started with a goal of $300 million, will probably have raised $450 million by the time it ends in December, he said.

In response to the threats of an impending economic recession and a war in the Middle East, the University has started strategic planning for the future. The administration recently developed a five year budget building plan that would help the University respond to emergency situations.

For the future, Malloy described his priorities for Notre Dame. "I look forward to the 1990s with great confidence," he said.

"I look forward to the 1990s with great confidence," he added, "to future situations."
Alcohol Policy makes sense (Buurrrp!)

As a senior, one who has proudly tended every possible Senior Bar lunch, breakfast, dinner only to throw them up to the delight of my rector, I’ve noticed a surprising trend developing among the undergrads here.

There has been, lately, recent public complaint over the University’s Alcohol Policy, hoot! and I think we know why: we have had to see the immense wisdom of the Administration in such a policy. Bech!

I guess the whole point. Really. Could you pass the openers? The Alcohol Policy as it stands is a marvel of logic and good judgment. Want beer in public? In bidding to comply with the law, yet privately giving students the option to drink behind closed doors or in closets, the University truly encourages responsible drinking. Quick, point that beer before we leave.

Don’t you think so? Shot? I mean, with the way the University proaches responsible drinking and bars it up, there is no other response possible but respect for the policy and a desire to follow it. There’s beer in the fridge.

Especially admirable is the University’s absurd and moral stance on the Alcohol Policy. Fill me up? It’s good to know that rules are here, like a lifeguard or for the two great gods: Alumni and Football. See you at the tailgate. Can you imagine the scoffing, the disrespect, the questioning of the Alcohol Policy if rampant drinking were permitted during football weekends?

What if thousands of strangers came here every other weekend or so, bringing beer and wine and food, then consumed it in the fridge.

As East Germany disappeared on Wednesday, the Soviet Union moved to officially end its relations with the former nation and transfer bilateral agreements to the united Germany. The Supreme Soviet voted 303-23, with 35 abstentions, to adopt a resolution “taking under consideration” an East German proposal to annul a 1975 treaty governing relations with the Soviet Union. It was not clear whether the resolution actually ended the treaty or if further action would be needed. The official news agency Tass interpreted the vote as a cancellation of the treaty.

A workshop on Women in Music will be held today at 4:15 p.m. in the Multi-purpose room in the Center for Social Concerns. This event is sponsored by the Year of Women and Campus Ministry.

The Medieval Club is sponsoring a colloquium with Maureen Boulton, associate professor of the romance languages and literature, on ‘Why Medieval Studious’. All are welcome to attend in the Medieval Seminar Room, 7th Floor of the Hesburgh Library, tonight at 7 p.m.

The Feast of Saint Francis of Assisi will be observed at the University of Notre Dame Thursday by a Mass, a simple meal, a candlelight procession and a prayer vigil for peace. The Mass will take place at 8 p.m. in the St. Edward Keenan Hall chapel. It will be followed by a meal of soup and bread at 6 p.m. in the Center for Social Concerns. At 7:30 p.m. there will be a candlelight procession from the Memorial Student Center to the Grotto, where participants will hold a prayer vigil for peace.

St. Mary’s College is one of 10 colleges and universities which will receive a grant from the Knight Foundation, officials said Wednesday. The $2.3 million in grants, awarded under the foundation’s Excellence in Undergraduate Education Program, were the third in a series announced by the foundation, which has given nearly $7.5 million to 31 schools in two years. "Better education is what we need in today’s world," said Cardinal Bernardin, president.

In terms of his experiences abroad, Bellis focused on the cultural differences that result from culture shock.

He defined culture shock as what happens to the individual's psychology when one confronts a new culture, a new way of life. He shared many humorous anecdotes of the differences he experienced amidst a new culture.

Bellis said that culture shock is hard to define. Most things we know are subconscious. By the time Americans go to school at 6 years old, we are fluent in English. Children learn to speak logic, family, courtship, and love are all subconscious systems, Bellis says. He advises that when one goes abroad, he or she should be aware that "most of that culture you'll never even come face to face with in explicit ways."

"The challenge of living abroad," said Bellis, "is to attempt to control and come to terms with the continuing evolution of your learned way of life." Bellis said culture shock is also experienced when a person returns home. The traveler has experienced a "life changing" in culture.

"Cross-cultural living is the most extraordinary and peaked way to face your own life," said Bellis. Since Ghana there was a limited supply of merchandise in the store, Bellis said. After returning to the United States, he and his wife went shopping because, as Bellis said, "after two years we needed clean underwear." According to Bellis his wife spent a long time in the store. Finally she returned, empty-handed. When he questioned her she explained, "I couldn't make a choice." This is a brief notion of the "adaptive drift in our behavioral pattern, our values," said Bellis.

James Bellis, professor of anthropology, discusses the challenges of adjusting to a foreign culture, as he faced when he lived in Ghana, at a Freude Chat in the International Student Office Lounge Wednesday.

ND prof. describes his culture shock in Africa

By ALICIA REALE

While in the West African country of Ghana, anthropologist professor James Bellis, who is white, was required to transfer his driver's license and had to fill out a form which asked for his skin color. As an "educated liberal" he was uncertain of how to answer such a question.

Bellis peered over a black man's shoulder and saw that he had put "red" in response to the question. He looked at another black man's form and saw that he had put "black".

Confused, he finally asked the man in charge who replied, "I don't know." He then asked another official who asked to see his arm and then replied, "I'll put face."

Engaging this incident as a lecture Wednesday, Bellis said, "That category in that culture was not a classification system. It was not a social caste. It was just descriptive, as eye color is here."

The above anecdote was one of several cultural differences experienced by Bellis when he lived in Ghana with his family from 1967 to 1969, working on his Ph.D. in agricultural architecture. Bellis is presently associate professor and chairperson of the anthropology department.

Arms agreement reached in principle by U.S. and U.S.S.R.

NEW YORK (AP) — The United States and the Soviet Union announced an agreement in principle Wednesday to limit non-nuclear weapons in Europe. If signed, such a treaty would represent the first limits on nuclear weapons in Europe.

The agreement at the end of four days of talks between Secretary of State James Baker and Soviet Foreign Minister Eduard Shevardnadze reached in principle long-range nuclear weapons.

The agreement came at the end of an outcome of five hours of talks between Secretary of State James Baker and Soviet Foreign Minister Eduard Shevardnadze. It is setting a ceiling on weapons that may be deployed in Europe, but does not cover the number of soldiers that may be put in the field on a topic that the negotiators agreed to skip.

Both ministers cautioned that final approval must await consultation with their allies in NATO and the Warsaw Pact.

Shevardnadze said one sticking point remained concerning limits on helicopters, "but that is not very difficult" and could be resolved by NATO and Warsaw Pact negotiators in Vienna, from which talks on the treaty for 19 months.

The last remaining roadblocks include the setting of a deadline for the U.S. to withdraw its troops and tanks and the Soviet Union to remove its nuclear weapons from Europe.

Baker and Shevardnadze did not explain the deal they struck on these two points, although Shevardnadze said with a chuckle, "of course the Soviet Union made all the concessions."

At the White House, presidential spokeswoman Marlin Fitzwater reacted to the announcement with one word: "Great." and said there would be no further comment Wednesday.

The accord is the projected centerpiece for a 34-nation summit meeting to be held in Paris Nov. 19-21. Until the two superpowers hear from their allies, Baker reserved judgment on whether that deadline would be met.

The two superpowers agreed in 1989 to limits on their short-range nuclear weapons in Europe.

In 15 years of desultory talks before that on "Mutual and Balanced Force Reductions" they made no progress on conventional force reductions. The February 1989 nuclear agreement and the unilateral moves by Soviet President Mikhail Gorbachev to end the Cold War revived the conventional forces negotiations under the rubric "Conventional Forces in Europe."

The steady withdrawal of Soviet troops and tanks and U.S. cutbacks already are doing what the treaty seeks to accomplish. But a treaty represents a formal commitment by both sides.

The Versailles Treaty that ended World War I imposed limits on the German army and limited the victorious powers, though sharply cutting their forces, never agreed on similar limits for themselves, and the German dictator Adolf Hitler started renegotiating the Versailles arms limits in 1935. The new treaty on conventional arms would require the Warsaw Pact to withdraw 40,000 tanks, more than 51,000 artillery pieces and more than 40,000 armored personnel carriers from eastern and central Europe — four-sevenths to two-thirds of estimated current deployments.

The arms would have to be moved east of the Urals Mountain in the Soviet Union, about 200 miles east of the Soviet border with Poland. The restrictions on the smaller NATO forces would be minimal, requiring only the removal of some 2,000 tanks.
Malloy continued from page 1

He said that Notre Dame plans to expand the faculty, increase graduate fellowships, offer more financial aid, provide better resources for the library and the computer labs and give additional funds to the University’s institutes and centers.

Malloy predicted that the faculty would receive more national and international recognition for their publications and research. The salaries of the Notre Dame faculty rank in the top quintile of all research and teaching universities. Aggressive recruiting efforts have increased the size and improved the quality of the faculty, Malloy said.

The president also said that in the future the Notre Dame community will become increasingly sensitive to multicultural concerns. During the last five years the percentage of minority students has grown steadily.

Malloy also said that in the future the Notre Dame community will become increasingly sensitive to multicultural concerns. During the last five years the percentage of minority students has grown steadily.

There has also been an increased commitment of resources to financial aid and the preservation of high admission standards, Malloy said. On the graduate level, the construction of new graduate student housing will enhance student life, he said.

Issues such as Notre Dame’s Catholic character, the teaching of ethics, gender-related concerns and the needs of student athletes, deserve the attention of the entire Notre Dame community, Malloy said.

“Our Catholic identity is our greatest strength,” Malloy said. He also stressed the need for the community to address its obligations to society and to the “Church with openness and concern for the common good.”

On the topic of student athletes, Malloy said “It is possible for us to maintain a high quality competitive athletic program that is consistent with our heritage.”

In response to the recent nationwide concern about drug use among athletes, Notre Dame has implemented education programs and tried to create a climate of drug prevention in its athletic programs, he said. For example, the school’s athletic department has regular unannounced drug tests of students.

Malloy said Notre Dame can instill ethics in its students by introducing them to a theoretical framework of ethics of which they can apply to real life situations.

In light of the Year of Women, Malloy stated that during the last four years the number of females as increased from 32 percent to 37 percent of the undergraduate population.

Since 40 percent of the applicants are female, Malloy said that the University should either adopt gender-blind admissions policies or increase the ratio to reflect the applicant pool. He is recommending that the Board of Trustees consider that issue.

Addressing the issue of violence against women, Malloy said, “We need to cultivate a place where women are treated with dignity and respect.”

Some current efforts toward achieving that goal include improved lighting around campus, emergency phones in parking lots, increased security patrolling and the Safe Walk program.

Ordination of women policy attacked by panel

By PETER AMEND
News Writer

A panel of students and professors discussing the ordination of women Wednesday accused the Roman Catholic Church and the University of Notre Dame of not fulfilling the spirit of Jesus’ message by denying their female members the opportunity to become ordained priests.

The message of the panel discussion could be summed up in the applause heard over the panelists, said, "We believe."

The last member of the panel to speak was Rachel Tomay, an undergraduate student at Saint Mary’s College. Tomay shared her experience of living in a poor Mexican community that hungered for the Word of God, but were deprived of the Eucharist because of the lack of priests. Tomay also said that there were many capable and dedicated women who were usually overlooked to fill the role specific to us and there is a need for these kinds of programs to be extended to all.

After educating himself on the issue, Houck said he had to decide that "either God was mean and God did not love half of his creatures, and therefore they could not hold office in God’s church, or try to prove that God was not mean."

Mary Susan Twoby, a Notre Dame senior, spoke about the psychological ramifications of the Church’s decision on the ordination issue in the Roman Catholic community. Twoby said that many female members may feel "betrayed and regretful. The Church, which we have once seemed nurturing, now appears deceitfully oppressive."

The adoption of a mentor program establishing a direct faculty connection for individual students to take their concerns to was discussed as a way to clarify the procedure for reporting offenses. The mentor program was established last year by the Office of Minority Students Affairs was suggested as an example to follow.

The committee also agreed that a policy of inclusive language should be adopted by the campus and suggested to the administration. Inclusive language was illustrated in replacing the word "freshmen" with "first-year students."

The committee will continue meeting to discuss these issues, but needs to find a permanent facilitator because Houck will not continue after the Oct. 3 meeting. Weigert has also asked to be replaced at the end of this semester.

Anyone interested in joining this group is invited to join them at their next meeting in the Center for Social Concerns Multi-purpose room Oct. 17 at 12:15 p.m.
Mutiny in Philippines reaches major city

MANILA, Philippines (AP) — Mutilinous soldiers seized a major army base, throwing the southernmost Philippines island into turmoil Thursday in a new attempt to overthrow the government of President Corazon Aquino.

Manila radio stations said the mutineers, led by the former chief of Mrs. Aquino’s guard force, were also in control of a regional military headquarters in Cagayan de Oro.

The armed forces went off nationwide alert, and Mrs. Aquino hustled with her cabinet and senior military officers to meet with congressmen at the presidential palace.

“The callling again on the people to rally, against these troublemakers,” Mrs. Aquino said on the radio. “The constitution will be upheld with force when challenged with force.”

Steps were taken to isolate the rebels who seized the 402nd Brigade army base, located in the city of Butuan, on Mindanao island about 500 miles south of Manila. Flight to Mindanao were canceled and schools on the island were closed.

About 200 troops led by three medium-range officers seized the brigade at about 1 a.m. Thursday (noon Wednesday EDT), army chief Gen. Renato de Villa said. One report said the base commander had joined the mutiny.

The rebels later gained control of Butuan, a port city of about 200,000 people on Mindanao’s north coast. The rebels were under the command of Brig. Gen. Hercules Galon, a former chief of staff of Mrs. Aquino’s guard force.

Manila radio station DZXR interviewed Noble at Camp Galo, regional Philippine officials told reporters.

The mutinous troops, led by Maj. Adolfo Dela Cruz, second in command of Mrs. Aquino’s guard, are believed to be the 20th military group to defect to the rebels in the past three years.

The mutiny in Butuan is the third this year in the Philippines, and the second largest. There had been rumors that a coup attempt was brewing in the region for nearly six months.

Mrs. Aquino has survived six coup attempts since she took office in February 1986. In the most recent one Tuesday, rebels seized Manila’s financial district in bloody fight­
ing and nearly toppled the gov­ernment.

Also Thursday, a bomb exploded outside a Manila army base three hours after the Mindanao base was taken. There were no injuries.

It was the 18th explosion in the capital since August. Offi­cials said the bombings were the work of military officers hoping to destabilize the country.

The mutiny comes on the eve of the 53rd Infantry Battalion, one of the oldest in the Philippines, the 402nd Brigade, which took over the mutiny.

The base commander had joined the rebels.

The brigade’s commanding officer, Col. Hercules Galon, apparently escaped the rebel base and flew to Cagayan de Oro, said a military spokesman, Brig. Gen. Emiliano Temple. But later Temple said Galon may have joined the mutiny.

The Philippines, which has the second largest army in Southeast Asia, has been going through a wave of mutinies.

Malloy likes eligibility of freshman athletes

By KATE MANUEL
News Writer

University President Father Edward Malloy spoke in favor of freshman athletic eligibility in his address to a meeting of the Faculty Senate Wednesday.

Drawing on his own college experiences, Malloy spoke in favor of freshman eligibility, saying, "I found freshman ineligibility very frustrating and it didn't help me academically."

Freshman ineligibility does not decrease practice time, but does lead to an increase in red-shirting, according to Malloy. He said, "When most schools talk about freshman ineligibility, it is virtually giving allowance to five-year red-shirting."

According to Malloy, ninety-four percent of freshman athletes entering Notre Dame do graduate in four years, and this progress toward graduation in four years should be the most important factor in determining freshman eligibility.

Malloy also addressed the topics of the Hesburgh Library, the Faculty Senate's Committee on governance, and tenure policies.

In regard to improving the library's national ranking, Malloy said that accurately targeting a collection budget and enhancing what can be done in personnel are the major factors.

"We have made significant strides in purchasing materials, especially since we don't have a medical school or other professional schools to inflate the totals," he said. "Attracting benefactors has been a plus. Personnel is the most expensive part of our operating budget right now."

Malloy also mentioned that an external review of the library system had just been completed and that the reviewers had questioned the role and function of the branch libraries.

Dr. Donald M. Senning of the Faculty Senate Committee on University Governance does not represent any significant advance in faculty-administration communication, according to Malloy. "Many vehicles have been created already," he said, "and many have not been given sufficient weight by the faculty and the administration. One such is the Faculty Board on Athletics. Very seldom does a large institution like this function by ballot or referendum. The proposal, as I understood it, did not seem to represent any significant advance."

Malloy believes tenure decisions should rest with the departments and colleges, not the upper-level administration and he questions whether anything could make the tenure process less painful for those denied it.

"I am not aware that there is any situation where this is done in ease and comfort," said Malloy. "And I am not convinced that another level of review would help." Malloy's attendance at the Faculty Senate followed his address to the branch faculty earlier the same day. Paul Conway, associate professor of finance, presided at the meeting and welcomed Malloy.

"We are grateful to Society Bank for this gift, which is in recognition of the significant role that the local business community pays in support of higher education," said Saint Mary's President William Hickey. "The building is a landmark in the community and a lasting memorial to a great educator. Helping preserve and upgrade this campus landmark is a community responsibility we wholeheartedly support with Saint Mary's," he added.

When Loretta Miller Ruppe took over as director of the Peace Corps in 1981, she was dis­
blamed for the budget cut for the Peace Corps in 1967.

She found this troubling since, she said, many people applaud the Peace Corps as one of the best programs the U.S. has currently sponsoring.

Ruppe, who is completing her U.S. Ambassador to Norway, spoke at Theodore's Wednesday night about her experiences as director of the Peace Corps from 1981 through 1989, the longest tenure in the organization's history. Her connections to Notre Dame ran deep. She received an honorary doctorate degree from Notre Dame and she de­

King of the fast food towns detrothed, falls to 50th spot

OWENSBORO, Ky. (AP) — Owensboro has been detrothed as America's No. 1 fast-food city, but Mayor David Adkisson wasn't unhappy when the latest rankings were released by Restaurant Business magazine.

"I do not think there is a competition anywhere, so I'm not greatly disappointed," Adkisson said. "I won't go out and burn it down, I'm just not going to say much and I'm going to let the market determine what it wants to do."

So far, we look at our measures of prior down markets com­ pared with the present, there may be more to go," Lipper said in an interview. "There are a popular way for individuals to invest in stocks, and bond and money markets. By pooling the money of many investors, mutual funds can buy a wider variety of securities than could a single investor. It's a way to diversify the risk should any of the investments go bad. Lipper's figures were for funds that invest in stocks and taxable bonds. They did not in­ clude money market mutual funds, a popular investment al­ ternative to savings accounts, or funds that invest in tax-ex­ empt government bonds.

Among the funds in the rank­ ing, those that invest in stocks fared the worst during the third quarter, declining an av­ erage of 15.5 percent. That compares with a gain of 5.9 percent in the second quarter.

Last week, the Dow Jones average had a nega­ tive return of about 14 percent during the quarter, assuming dividends were reinvested, while Standard & Poor's 500 index, another popular gauge of the stock market, had a gain of 13.2 percent, Lipper said. A decline in stock funds also was not surprising given the unusually strong performance of the stock market in the first quarter, 1989, Lipper said. The top-ranked fund, Capital Growth, ended Sept. 30, Fidelity Investment's Magell­ an fund, grew 422.7 percent, which was about as unusually high. A decline in stock funds also was not surprising given the unusually strong performance of the stock market in the first quarter, 1989, Lipper said. The top-ranked fund, Capital Growth, ended Sept. 30, Fidelity Investment's Magell­ an fund, grew 422.7 percent, which was about as unusually high.

The magazine's Restaurant Business magazine gives the new top spot to Wilming­ ton, N.C.

"I don't think that (top rank­ ing) was any honor," said Ken Bosley, who represents the restaurant industry on the Owensboro-Daviess County Tourism Commission. "It's not something to be ashamed of, but it's nothing to be proud of either.

Two years ago, Restaurant Business gave Owensboro fourth in per capita fast-food sales with an average of Social Security being spent for every man, woman and child in Daviess County.

"We're going back into the 'food or fuel' problem of the early '70s for low-income and senior citizens," predicts Edwina Rothchild, an energy specialist at Citizen Action, a con­ consumer and environmental group.

Sharply higher prices could make the average season heating bill for $200, common in much of the Northeast, closer to $1,200 this winter, government and energy experts pre­ dict.

And federal budget negotia­ tors are adding to the cost spi­ ral. The new deficit-reduction plan being considered by Congress includes 2 percent across-the-board cuts for heating oil, beginning in Jan­ uary. The jump comes as high gasoline prices and a proposed tax on gasoline impose sharply higher prices for heating costs on most households.

Federal officials told heating industry representatives, voters and state energy officials this week that, barring a further flare up in the Persian Gulf, there will be more than enough supply of heating oil to meet demand.

But oil distributors say they can overbuild," he said.

Meanwhile, the Bush admin­ istration wants to phase out an­ nual heating oil aid for low-income and elderly people who are below or near the poverty level.

We think the states should be picking up more of the cost," said John Cross, director of the office in the Department of Health and Human Services that administers the fund.

He adds, "We think the states should be picking up more of the cost."

The proposed 10 percent luxury tax would be applied to amounts exceeding $100,000 for their respective categories. Consumers would pay the tax only on the portion of the item above the limit. Here are some examples:

Rape victim expresses her pain

Dear Editor:

My name is Dreama Whitaker, and I am a rape survivor. When I was twelve, a man came to me, destroying childhood faith and illusion as I watched in helpless horror. At fourteen, I was comfortable in my fear and he came again, extinguishing the spirit. We are, I believe, the same hatred. I was seven­ shadowed in human form, to endure it as your own. Instead, we must strive to end the abuse of women, to conquer the quiet hope and the help. We are not naive idealists. We un­raptured within the heart. Perhaps it lies within each of us, struggling, attempting to surface. Yet I must believe that the human soul will ever tri­umph over darkness. The flick­ering green flame must not die.

As a society, as individuals, we must strive to end the abuse of women, to conquer the quiet hope and the help. We are not naive idealists. We un­derstand fully that the immedi­ate removal of ROTC from Notre Dame is a practical im­ possibility. Our disagreement with the present situation, though, has led us to formulate an agenda which a majority of the students at Notre Dame, including many who do not share our beliefs, could respect and support. It is an agenda which we believe is practical and de­ serving of serious consideration. We urge the students, faculty and administration of Notre Dame to reflect upon this agenda and work for its im­plementations.

Our agenda consists of two goals:

1. The establishment of a professional University staff position as part of Campus Ministry for the counselling of students who become conscien­tious objectors. The services of this counselor on conscientious objection would be available to all students, not limited to, those in ROTC. The counselor would have a dedicated office and office hours, a phone number listed in the campus di­rectory, and would be well pub­lished. There is presently no one hired by Campus Ministry specifically for this purpose.

2. If a student in ROTC de­cides to leave the program, that student should not have to leave Notre Dame for financial reasons. There should be scholarship money available for such students. Notre Dame has already demonstrated its commitment to the military. By providing such a scholarship program, Notre Dame would be demonstrating an equal com­mitment to its ROTC students who decide that military service is not right for them.

We recognize that a call for the removal of ROTC at this time would fall upon deaf ears. If implemented, though, the goals we propose would make Notre Dame easier to enter for those who find the military inconsistent with their beliefs and values.

Feast of Saint Francis directs campus concerns toward peace

Dear Editor:

In honor of the Feast of St. Francis of Assisi, Campus Ministry, the Center for Social Concerns, Pax Christi, Women United for Justice and Peace, the Overseas Development Network, Saint Mary's Campus Ministry and stu­dent government are spon­soring a prayer vigil for peace tonight at 7:30 at the Peace Memorial.

With heightened tensions in the Middle East, our prayers for peace are needed now more than ever. I urge you to come and pray that we will not have to add another stone to "Stonehenge."

Hispanic organizations extend welcome

CRISTINA ORTIZ
GRETCHEN REIBOLD
accent writers

"Hello! How's everyone?" asks Jorge Vera, the president of the Hispanic American Organization (HAO). The club is politically oriented, it consists of students from a wide array of Hispanic backgrounds, including students of non-Hispanic backgrounds who enjoy discovering more about Hispanic traditions. The club focuses on three main aspects: culture, society, and service. Each year HAO members organize a number of cultural activities to promote awareness on campus. The Posadas is one such event which commemorates the pilgrimage Mary and Joseph took to Bethlehem. Another cultural event honors the Virgin of Guadalupe (December 12), the patron saint of many Spanish speaking countries. The Annual Hispanic Semi-formal and the Big Brother/Big Sister program round off the social activities of the HAO. Cultural music played at the semi-formal will include the polka, corrida, cumbia, salsa, and merengue.

The Big Brother/Big Sister program stepped off its first year with a cook-out at Carroll Hall. Generally, Hispanic cultures are renowned for their strong faith and unity. Members of the HAO share these virtues with others through various service projects. Each Sunday several HAO members attend a Spanish mass at St. Stephen's Catholic Church in South Bend. Following the mass these students stay to assist teachers with the children's catechism program. Service efforts are also shared at El Campito day care center in South Bend. Students are involved in coordinating activities for the young ones. In addition to HAO, ND/SMC Hispanic students may participate in the League for United Latin American Citizens (LULAC), a national organization with a branch founded at NO last spring. Although this club is politically oriented, it also sponsors a variety show called "Latin Expressions" at the end of the year. Finally, Ballet Folklórico de Azul y Oro is a dance group consisting of ten members. Each year this group performs various dances from different regions of Mexico. Performances for the Multicultural Week, International Students' Organization and the South Bend community are among the occasions.

If you are interested in any of these clubs, you may contact the following club presidents: HAO, Jorge Vera at 283-1494; LULAC, Manuel Sigüen at 289-0383; and Ballet Folklórico de Azul y Oro, Rachel Reyna at 283-4912.

NOTE: Tonight there is an HAO meeting open to everyone at 7 p.m. in the T.V. room of Farley Hall. In addition, Ballet Folklórico de Azul y Oro will open its season this Friday with a performance at the Field House Mall at 4:30.

Above: Jose Martinez, Jesus Ramos, dancers in the Ballet Folklórico and Estevan Herrera, secretary of the HAO share ideas in a social atmosphere. Right: Susie Ramirez, a Puerto Rican student and Rachel Reyna, president of the Ballet, make plans for the upcoming Ballet Folklórico in Siegfried Hall.

Ferris Bueller leaves audience unconscious

Marc Johnson
To be continued...

To set himself apart from his movie foil, the television Ferris Bueller (Charlie Schlatter) severed the head of a cardboard representation of the Ferris Bueller of movie fame (Matthew Broderick). What he failed to realize is that many viewers probably found the cardboard more interesting than television reality.

Ferris Bueller has returned, and his television program is called, surprisingly enough, "Ferris Bueller." The television program keeps the same main characters as the movie and basically just continues the theme that was started with Ferris' day of missed class.

Ferris is still the king of his home and school. Mr. and Mrs. Bueller see their son as perfect while his sister sees him as the wussle he really is. Obviously her parents view her as a problem child lacking all the social graces of their brilliant son.

Ferris still is loved by all his classmates in high school, and he is still despised by his principal Mr. Rooney (Richard Bieble). Ferris has basically replaced the need to see administration, counselors, or anyone with a title. Sick of cafeteria food? Talk to Ferris. Not happy with your schedule? Talk to Ferris. Get the picture?

Unfortunately viewers should change their picture or turn the television off completely. This program is definitely not the place to search for great lines.

As skipper of Wichita, Stephenson is winner

By SCOTT BRUTOCAO
Assistant Sports Editor

Wichita State baseball coach Gene Stephenson may as well have given the Shockers their team name.

Stephenson resurrected a program that had been dormant for seven years when he came over to Wichita State in 1977. Thirteen years later, Stephenson is 726 wins into his 13-year tenure. His teams have captured nine times in his 13-year tenure the winningest in the nation.

In 1989 National championship two years, Stephenson named an assistant coach David Slanes named an assistant coach. working on baseball national prominence.

For his third year coaching the Shockers, and three times (1982, 1985 and 1989) his team has been the winningest in the nation.

Quite a shocker. Stephenson's 726-235-3 record, a .755 winning percentage. Under Enos

The Shockers under Stephenson have won the Missouri Valley Conference five times in the last six years, and Stephenson has been named MVC Coach of the Year seven times since 1980.

A 1989 graduate of Missouri, Stephenson was named an assistant coach under Enos Semoore at Oklahoma in 1982. In the next six seasons, the Sooners captured four Big Eight Conference titles and made five College World Series appearances.

For his superb effort in coaching the Shockers to the national championship two years ago, Stephenson was named 1989 National championship two times. Two times.

Eric Simien gets ready to sack Purdue quarterback Eric Hunter in the Notre Dame win last week.

Incoming freshman, a member of the Football News Nifty 55 team, and rated the top outside linebacker in the nation by talent scout Max Effinger.

What would make a player of such talent choose to enroll at a college so far from home? Several things:

"I grew up in Los Angeles, and I grew up watching Southern Cal and UCLA. But by my senior year in high school, I was burnt out on all of that," said Simien. "When I was a senior, Notre Dame just looked like the place to be at the time. Notre Dame looked like it was on the way up, and I wanted to be a part of it."

"Coming to Notre Dame has been a real learning experience for me, too. I've grown more mature, and I've become more adult as a person. I'm really pleased with this team. It's pretty fun playing, but of course, I want to graduate in four years. If I could just realize my full potential, it would be unbelievable, but that is all I ask for."
Red Sox capture the AL East

BOSTON (AP) — The Boston Red Sox won the American League East championship for the third time in five years Wednesday night, defeating the Chicago White Sox 3-1 on the final night of the regular season behind the pitching of Mike Boddicker and Jeff Reardon.

With ace Roger Clemens sent ahead to Toronto to rest for a possible divisional playoff on Thursday, the Red Sox made it academic. Boston's victory eliminated the Blue Jays, who lost to Baltimore 3-2 five minutes later and finished two games out.

Boddicker (17-8) scattered five hits in seven innings and Reardon gave up two in two innings for his 21st save.

The White Sox did not go quietly in the ninth. Sammy Sosa singled with two out and Reardon hit Fletcher with a pitch. Guillen pulled a drive down the right-field line and Tom Brunansky made a sliding catch in the corner to end the game and the race.

"I know the way Ozzie likes to hit and thought he might try to turn on the pitch," Brunansky said. "It hit me right in the pocket. When I had the ball and hit the ground, I locked in on it. When you leave your feet, you never know. If you hit the ground hard, the ball might pop out."

Loser Alex Fernandez (5-5) pitched a six-hitter but Boston combined three of them and a throwing error by the rookie right-hander for all their runs in the second inning.

Greenwell started the inning with a double and scored on a single by Dwight Evans. Evans took second on the throw to the plate and scored on a triple by Brunansky.

One out later, Brunansky was trapped in a rundown as Fernandez pitched out and Luis Rivera was unable to bout on a suicide squeeze attempt. In the rundown, Fernandez threw wildly and Brunansky scored.

For the record, Wes Pistol, Rob Colcar and Michael Stonebreaker attended a party in 1987 where a fight broke out and the three linebackers called on a student named "Big Boo" to break things up. They seemed to think Williams returned to school the student and dubbed him "Boo."

Williams says his nickname does not carry over into his home life.

"I never saw ['Big Boo'] before in my life," he said. "My parents don't even have an idea who it is."

Irish women swimmers face an Olympic task

BY KEN TYSIAK
Associate Sports Editor

The last thing the Notre Dame women's swimming team expects to do is win Friday night's meet against Stanford.

"Winning the meet is nowhere on our list of realistic priorities," Irish coach Tim Welsh says. "We are swimming this weekend because we love the game. Stanford is swimming this weekend because they love the game. The fact that they are for us shows us actually excite us."

Welsh's attitude is probably a good one. The Irish really don't stand much of a chance against the Cardinal, who will feature world record holder Janet Evans and Summer Sanders, ranked third in the world in the 200-meter butterfly. The meet, which will be held at the Rolls Aquatic Center at 4 p.m. Friday, will most likely be dominated by the visiting team.

Welsh welcomes the challenge. He says that the meet will help his program and help establish Notre Dame as a national contender.

"We hope Stanford will set a lot of goals," Welsh says. "Pool records, a certain level of excellence for a program and we want that defined at the highest level of swimming. We want the Stanford swimming team to write their names all over our record book, and we want them to do it when they're swimming right next to us." Welsh says that this will give his squad some insight on how they will perform. We also want to get excited by how close we are to them.

Leading the way for the Irish will be sophomore Tanya Williams, who qualified for the NCAA tournament in the 200-yard and 400-yard individual medley 1989 and one year at Notre Dame Williams holds six school records. Welsh will not say which events Williams would participate in against Stanford.

"The rules of a dual meet don't prevent you to an¬ nounce that. We will run a general format race, though, and the fastest people will swim in the fastest events," Welsh says.

Other Irish swimmers to watch are Thalia Van Patten and Katelyn Andrew in the sprint free events.

The weekend will be an in¬ teresting learning experience for the swimmers from both schools. The members of the visiting team will actually stay with their Irish hosts.

Welsh says that this will give his squad some insight on what it is like to live as a college swimmer.

"This will help build our program because it will al¬ low us to race, train and live with arguably the best team in the United States. The ex¬ perience of living together for the weekend will help us see what it's like to be that caller of a team," Welsh says.

The coaches just might be a thing or two from the Stanford squad as well.

"We will have our eyes open on Stanford," Welsh says. "It is true great swimmers teach great coaches, although not vocally, of course. Coaches learn by watching. Coaches will learn a lot at a meet like this.

The Irish coach will also learn a bit about his own team. There will be a lot of situations for Welsh to evaluate against Stanford.

"We have never competed this early in the season. Since we're just coming back from the summer, we want to check and see where ev¬ erybody stands at this point. The second thing is that for those who haven't done a lot of swimming, we want to see how they will perform. We want to see how people maintain control of tech¬ nique and how they compete against a strong team." Welsh says.

With a superb Stanford squad coming on, the Irish will just enjoy the meet and not worry about winning.
Irish, Cardinal to meet in pool

By COQUISE WASHINGTON

South Windsor

Notre Dame Men's Swim Coach Tim Welch views his team's involvement in the Weekend of Champions as excellent study for the Irish swimmers. The Irish and Cardinal squads will eat, live, and train together, as well as compete in the annual Rolfs Aquatic Center on Saturday.

Continuing the tradition of academic excellence, the Notre Dame swimmers take a short lesson on what it takes to become, and remain, a collegiate powerhouse in the pool.

Irish women face Stanford at Ecks

By ROLANDO DE AGUIAR

With a vast amount of talent, but with only six monogram­

ists, the Irish women's tennis team is lacking only experience.

By Coach Welch. "Bringing in this year's fresh­

men will help us do that."

Indeed, it should. Stanford finished last season with an out­

standing third-place finish at the NCAA Championships, and this year's squad is backed by Jeffousse, a world record holder and NCAA champion in the breaststroke. The Stanford team also features the likes of distance freestyler Alec Kostich, a competitor in this season's good­

willed events, and sprinter Erik Maurer.

The Irish boast strong swimmers, in their own right. Senior captain Brian Rini, last year's MVP and university record holder in the 500- and 1000-yard freestyle, will lead a squad that features ten fresh­

man. Senior Jim Byrne and sophomore John Godfrey bol­

ster the Irish backstroke events. All in all, the squad re­

turns 13 letterwinners.

"This is a great a chance to see how much we have im­

proved since last year," said Coach Welch. "We also want to see each of our freshman race and try out which events suit them best. It's a good op­

portunity for our captains to show their leadership in a meet, and generally an advantageous opportunity for our program."

SPORTS BRIEFS

NVA Singles Racquetball tournaments will be held for gradfacs and IH men and women. One match will be played per week. Sign up for NVA by today. Call 239-6106.

NVA Co-Rec Intramural Waterpolo sign ups end this week. Rosters must have a minimum of 10 people, four female, but are not limited by hall. A $10 entry fee is due with rosters. Only the first 32 entries will be accepted.

Attention novice crew members — Mandatory meeting today in 127 Nieuwland at 7:30 p.m.

"Walk-Away"— Sally Derengowski, Assistant Director of Non-Varsity Athletics, will be the guest dinner leader today. The walk will commence at 12:10 p.m. at Washington Hall. Join Sally and discover what's new in NVA.

All Sailing Club members are invited for dinner at the Rib Shack and bowling today. Meet at the Main Circle at 7 p.m. Drivers are needed. If you can drive, call Julie at x2950.

ND/SMC Field Hockey has practice today from 4-6 p.m. on the Astroturf. There is a game this Sunday in the North Shore Tournament. Call Suzanne at x4174 for more information.

NVA IH Cross Country results — Grace won for the second week in a row and Bill Borgos of Keenan won the individual competition for the second straight week. Borgos winning time was 13:32.

Today is the last day for sign-ups for the NVA horseback-riding trip on Sunday, Oct. 7th. Call 239-6100 for more details or register at NVA in the JACC.

NEW YORK (AP) — Cecil Fielder, the 27th all-time American League home-run leader, was looking to become the 11th player to hit 50 homers in a season.

Fielder, who walked and lined out in his first two at-bats, sent a 2-1 pitch from New York Yankee teammates.

"It was a relief," he said.

"I was excited," he added.

The two-run homer put Darryl Strawberry 4-0.8.

"It was a lot of pressure," Fielder said.

"I was happy to see him hit a home run," said Mickey Mantle.

The historic homer was the 27th for the Yankees in a 24 inning.

Fielder is the 27th American League home-run leader. He spent his four-year career in the majors with the Chicago Cubs and the Cincinnati Reds. Fielder's first big hit came in 1977. The fast ball had been accomplished 18 times.

Belles tie when the dark comes

By TASHA TIGHT
Sports Writer

The Saint Mary's soccer team (7-1-1) tied St. Joseph College 0-0 yesterday at Saint Mary's Field in a hard-fought match against the tough Division II squad. The Belles made an impressive showing yesterday dominating both on offense and defense. Unfortunately the Belles were unable to score and thus were suspended due to darkness after ten minutes of the scoreless period.

Saint Mary's, which lost to St. Joseph last year, pulled together on defense and offense.

"The defensive attitude of the team was great," Van Meter said.

The Belles face Hope College Friday afternoon at home. This game, along with the next two home games, is critical for the Belles.

The next three games are all common opponents of the seventh ranked team in the nation, Kalamazoo College," said Coach Tom Van Meter. "The next three games will be good measuring sticks for Saint Mary's.

Champs

continued from page 20

Even though both teams have recently appeared more adopt at losing, go with the Bucs. While the Reds surely deserve their NL West crown, holding the lead from day one to day 162, any team that would let a Hershiser-less, bullpen-less Dodger squad chase them has got to be worried.

And it's evident that they are. After cruising through the spring and early summer, Cincinnati manager Lou Pinella suddenly looked around, realized his team was on top of the heap and gulped.

The team gulped with him. An 11 game lead July 23 fell to 3 1/2 numerous times in the year's closing heats, when really good teams usually find extraordinary ways to pull out wins. The Bucs just got worse.

The Pirates, on the other hand, had to fight off a strong surge by the New York Mets, but went on an 11-game winning streak to clinch the title. Even though they split their games with the Reds this year, Pittsburgh swept their Western Division counterparts in August just as the Mets challenges became apparent. This would be the Pirates' year if Oakland wasn't on top.

In addition, while Pittsburgh has two explosive MVP candidates in Barry Bonds and Bobby Bonilla, Pittsburgh's manager will struggle to produce anything resembling an offense unless just as the ailing Bill Duran (hospitalized), Chris Sabo (strong start, quick stop) and Eric Davis (sore shoulder, grumpy ego) recover in a hurry. But pitching, as usual, will ultimately decide who wins the National League. Here, soon-to-be Cy Young Award winner Doug Drabek, Zane Smith (1.30 ERA since being acquired Aug. 8), and rookie Randy Tomlin will outperform the collapsible Cincinnati corps that is depend- ing too heavily on its relievers while praying Danny Jackson and Tom Browning can recover from injuries and fill the void created by All-Starstruck Jack Armstrong.

Meanwhile, this Oakland team knows all too well how to lose ('88) and win ('89) World Series and they show no inclination of returning to their disastrous form of two years ago. Manager Tony LaRussa is confident and he should be; this team is the only one of the four on any kind of victory mission.

The A's will win it in five.

There must be some way to avoid doing the same thing for the next forty years.

Holtz would go for the victory

Auburn head coach Pat Dye heard the criticism before he even sent kickoff specialist Tom Westphal onto the field.

"With big Tigers trailing, Tennessee 26-25 and only 1:56 remaining in Saturday's Southeastern Conference football matchup, Dye chose to go for the extra point instead of the two-point conversion and preserved Auburn's undefeated record and national championship hopes."

"The situation then was that the only chance we had for the national championship was by winning the game," said Holtz. "A tie would have eliminated us as well. We weren't involved in conference races, so we felt we could keep you in the national championship race and you don't feel you have a good chance to make the two-point conversion, then you probably ought to kick it."

Quick tackle Gene McGuire hadarthroscopic surgery performed on his knee. He tore cartilage in the knee Sunday. He tore cartilage in the knee Saturday against Purdue and is expected to miss up to two or four weeks.

"Bondy based such a decision against Penn State in 1987 when the Irish scored with 31 seconds remaining to draw to within one point at 21-20. Quarterback Tony Rice kept the ball on the two-point conversion attempt but was dropped behind the line of scrimmage."

As it turned out, Holtz didn't have much choice in the matter. Notre Dame entered the game with an 8-1 record and anything short of a win would have eliminated the Irish from national championship contention.

"The situation then was that the only chance we had for the national championship was by winning the game," said Holtz. "A tie would have eliminated us as well. We weren't involved in conference races, so we felt we could keep you in the national championship race and you don't feel you have a good chance to make the two-point conversion, then you probably ought to kick it."

Irish baseball will kick off Weekend of Champions

By SCOTT BRUCTOCAO Assistant Sports Editor

When 1989 NCAA Baseball Champion Wichita State takes to the field at Stanley Coveleski Stadium tonight at 7 p.m., Irish head coach Pat Murphy can take all the credit.

Sure, it's the Weekend of Champions, and much planning and effort was spent in Notre Dame's attracting such a prominent baseball program.

But Pat Murphy isn't just responsible for convincing Wichita State coach Gene Stephenson to come here. He's responsible for the entire fall sport concept.

When we first played (in the fall), it was just to get Notre Dame football and baseball on the same billing," Murphy referring to the "Battle before the War" two years ago, in which the Notre Dame and Miami baseball teams played a two-game series during the Irish-Miami football weekend.

"The same type of talent attracts people to the games, and it's an obvious lead-in to the football games. We do whatever we can do to help the total picture of athletics here at Notre Dame, but that type of effort goes to the football team.

G.K., now to baseball: Tonight's game between the Irish and the Shockers is the first-ever between the two teams. Wichita State, in 14 years under Stephenson, has never played a game in the fall season before. The Shockers usually play junior colleges during their fall-season tournaments.

Wichita State, last year, a young pitching squad but still managed a 45-19 record and an appearance in the NCAA tournament. This year, the Shockers return their entire pitching staff and placed two of their top three batters in the lineup and nine other let­ ters.

The team's youth last year caused the squad to hit for a low average, one in which Stephenson has been handicapped by a calf problem, but I think that's an obvious lead-in to the football games. The squad to hit for a low average, one in which Stephenson has been handicapped by a calf problem, but I think that's an obvious lead-in to the football games. Stephenson has indicated that he will start sophomore Tom Steeves (9-2, 2.47 ERA last year, second-team All-American). When the two teams square off for another meeting tomorrow night at 8:30 p.m. junior Darrin Paxton (12-4, 2.35 ERA, SuperPrep All-American, one of The Sporting News top 10)

The Shockers are a strong contingent of sophomores to the plate as well, infelder Scott McCloughan, outfilder Carl Hall, infelder

"I'm going to go out on a real limb here: the Oakland A's will win the 1990 World Series."

I know, I know. It's not the most outrageous prediction, but sometimes you just can't argue with the facts. It's boring, I know, but repeats usually are.

Unfortunately none of this year's underdogs could muster the strength to overtake any of the division leaders and battle for what could have been wide open playoff berths.

The most exciting, or comical, as I prefer to call it, part of this season's finale surrounds surprise, surprise the Boston Red Sox and their infamous inability to nosebleed the masochistic fans who loyalty ride the team's annual rollercoaster ride.

Statistics have recently determined that Boston's quality of play in a game is inversely proportional to the importance of its outcome.

Of course, the Sox winning the AL East delays the inevitable. Meanwhile, those fans born after 1918 will try to replace visions of grounders rolling past haggard infielders with delusions of Roger Clemens pitching eight straight perfect games and winning it all for his team. "Trust me, my one eye glancing fearfully behind them."

"The most exciting, or comical, as I prefer to call it, part of this season's finale surrounds surprise, surprise the Boston Red Sox and their infamous inability to nosebleed the masochistic fans who loyalty ride the team's annual rollercoaster ride."

Who is the best linebacker in college football?

While the names of Michael Stonebreaker, Donn Grimm, Andre Jones, Devon McDonald, Alfred Williams (Colorado), Kanavis McKeith (Colorado), and Maurice Crum (Miami) may be given in response to that question, there is another name lurking close behind.

Eric Simlen

A sophomore outside linebacker from Los Angeles, California, Simlen has been named a starter, and he strives to live up to it. Last year, Simlen saw action in 12 games, started only the matchup with Michigan State. During the entire season, he made 69 appearances on special teams, and added 11 more special teams tackles against Colorado in the Orange Bowl.

Over the whole of 1989, he recorded nine tackles (two solo, seven assisted) and was also awarded a Notre Dame monogram. Last week against Purdue, he twice sacked the quarterback Tony Rice kept the ball on the two-point conversion attempt but was dropped behind the line of scrimmage."

As it turned out, Holtz didn't have much choice in the matter. Notre Dame entered the game with an 8-1 record and anything short of a win would have eliminated the Irish from national championship contention.

"The situation then was that the only chance we had for the national championship was by winning the game," said Holtz. "A tie would have eliminated us as well. "I'm going to go out on a real limb here: the Oakland A's will win the 1990 World Series."

I know, I know. It's not the most outrageous prediction, but sometimes you just can't argue with the facts. It's boring, I know, but repeats usually are.

Unfortunately none of this year's underdogs could muster the strength to overtake any of the division leaders and battle for what could have been wide open playoff berths.

The most exciting, or comical, as I prefer to call it, part of this season's finale surrounds surprise, surprise the Boston Red Sox and their infamous inability to nosebleed the masochistic fans who loyalty ride the team's annual rollercoaster ride."

Who is the best linebacker in college football?

While the names of Michael Stonebreaker, Donn Grimm, Andre Jones, Devon McDonald, Alfred Williams (Colorado), Kanavis McKeith (Colorado), and Maurice Crum (Miami) may be given in response to that question, there is another name lurking close behind.

Eric Simlen

A sophomore outside linebacker from Los Angeles, California, Simlen has been named a starter, and he strives to live up to it. Last year, Simlen saw action in 12 games, started only the matchup with Michigan State. During the entire season, he made 69 appearances on special teams, and added 11 more special teams tackles against Colorado in the Orange Bowl.

Over the whole of 1989, he recorded nine tackles (two solo, seven assisted) and was also awarded a Notre Dame monogram. Last week against Purdue, he twice sacked the quarterback Tony Rice kept the ball on the two-point conversion attempt but was dropped behind the line of scrimmage."

As it turned out, Holtz didn't have much choice in the matter. Notre Dame entered the game with an 8-1 record and anything short of a win would have eliminated the Irish from national championship contention.

"The situation then was that the only chance we had for the national championship was by winning the game," said Holtz. "A tie would have eliminated us as well. We weren't involved in conference races, so we felt we could keep you in the national championship race and you don't feel you have a good chance to make the two-point conversion, then you probably ought to kick it."
