The Best Buys in Higher Education

Researchers studied the relationship between undergraduate educational quality and tuition costs to come up with the best colleges for money.

Criteria for the rankings include: Student/faculty ratio, library resources, graduation rate, and graduate educational and business success.

Rice named top school by Money

NEW YORK (AP) — Rice University, which offers 3,900 students an Ivy League-caliber education at half the price, was named the nation's best college buy Tuesday by Money Magazine.

The magazine's second annual survey, appearing in a $3.95 "Money Guide" that will go on sale at newstands on Sept. 9, analyzed 1,011 colleges and universities and identified 100 best values based on quality of students, faculty and facilities and tuition.

The top-100 contained 56 private schools, including some of the nation's priciest campuses: Yale, Stanford and the University of Chicago, where tuition exceeds $16,000 but which nonetheless were judged excellent values. Others, such as Trenton State College in Trenton, N.J., and Texas A&M University in College Station, Texas, were rated with tuition of less than five thousand even for out-of-state students.

On the cost side, the survey rated schools based on tuition, and used out-of-state charges for public schools to make them more comparable to private institutions.

In measuring educational quality, the survey used such indicators as student-to-faculty ratio, average Scholastic Aptitude Test scores, library resources, graduation rates, percent of graduates who earn doctorate degrees, and the number of graduates who make Standard & Poor's Executive College Survey of 70,000 top corporate executives.

Rice, this year's winner, charges students $7,700 in tuition plus $4,900 in room and board, half the cost of most Ivy League colleges, the magazine said. It credits the school's growth and expansion, including a $74 million volume library, bested during the last year.

The Houston-based school was founded in 1912 by cotton baron William Marsh Rice whose dream was to establish a first-rate college open to all regardless of means. Rice's endowment.

The 12-nation EC called an urgent international peace conference on Yugoslavia in the Hague for Saturday. It named Lord Carrington, one of Britain's most widely respected statesmen, as its chief mediator.

Dozens of 200 cease-fire observers were leaving Tuesday for the area.

The conflict of Yugoslavia's civil federated presidency, Slope Mesic, ended peacefully Tuesday. "The country is facing great trials and risks," Mesic, a Croat, said on TV.

He said the presidency was asking the federal army to immediately apply to the UN mission to oversee the cease-fire jointly with Croatian officials and representatives of Serb insurgents.

A name makes all the difference

My freshman year of high school, I couldn’t wait for third period. I’d bolt out of gym class, grab a seat in the front row of my French class, and smile brightly at Madame, and know that, for the next 50 minutes, I wasn’t Paige anymore.

I was “Fill.”

Quite frankly, my given name is inadequate, its main drawbacks being:

a.) When singing the Name Game, it doesn’t form any obscene words (like “Chuck”), and
b.) The inevitable confusion between myself and Steve Sheppard’s character “Paige” on “Donny’s Landing” (the Donny Delivery told me once that he resembled me greatly. I tipped him $10).

The bad associations with my name go back to second grade. My teacher, Miss Allendorf, was in the unfortunate habit of saying, “Open your Phonics books and turn to page...” at which point I would jump up from my flash cards and shriek, “WHAT?”.

“Englebert” Poor Englebert will be de­effacement of the family name, which has never been named “Dewey”? How many porn stars have continued to bar the return of the body of former President Ferdinand Marcos. Marcos and his family fled to Hawaii shortly after a popular uprising toppled him from power in 1986.

According to figures I’ve recently fabricated, how many football captains have we had that were staying the past three days. The fight was described as a “Wonderful Life,” profoundly influenced Steven Spielberg and others in a new generation of filmmakers.

NATIONAL

Director Frank Capra is dead

Lately I’ve been thinking about dropping my last name altogether, and going solo with “Paige.” Maybe then I’ll be qualified to follow in the footsteps of Cher, or — do I dare make the comparison? — Tiffany.

It might take a while to make the name change legal, and to assume my Grandma Smoron’s. She’s indignantly forfeited the family name, which has apparently been around since the twelfth century, originally meaning “keeper of many yaks.”

Until then, you just can call me Fill.

WORLD

New charges against Imelda Marcos

MANILA, Philippines—The government filed new fraud charges against Imelda Marcos today alleging that she illegally withdrew $25 million from a government bank branch for personal expenses while her husband was president.

The action came a day after Mrs. Marcos said she was willing to return to the Philippines for trial on earlier fraud charges, but only if she received assurances that the body of her husband eventually would be allowed back. President Aquino announced in July that the 5-year-old ban on Mrs. Marcos entered the country was being lifted so she could return for trial. But she continued to bar the return of the body of former President Ferdinand Marcos. Marcos and his family fled to Hawaii shortly after a popular uprising toppled him from power in 1986.

INDIANA

Man stabbed in South Bend

A man arrested for the stabbing death of a former central Indiana resident was being held without bond yesterday pending a court ap­pearance and the filing of formal charges, police said. Patrick O’Banion, 26, of South Bend, was arrested Friday in the stabbing of Victor Stewart, 33, formerly of Windthorst, a Tipton County town about 10 miles southeast of Kokomo. Stewart was stabbed just before noon Friday on the front lawn of a westside home where he had been staying the past three days. The fight was described as a domestic disturbance but no other details were being made public.

OF INTEREST

Senior placement kickoff night will be held from 6 to 7 tonight in Carroll Auditorium in Madeleva Hall at Saint Mary’s. The time has been moved to accommodate those seniors going on the Chicago trip. Information will be distributed on Placement Services, Graduate School Night, Liberal Arts internship program and more. For more information contact Jeff Roberts at 284-4565.

Best buddies: There is a mandatory organizational meeting tonight at 7 at the Center for Social Concerns. If you have any questions call Julie at 283-1291.

Altar servers are needed for Sacred Heart Church.

The Juggler wants anyone interested in poetry, fiction, art or anything else creative. Come see us at our first meeting tonight at 7 p.m. in the Juggler Office, 3rd floor of LaFortune.

Shenanigans, the Notre Dame/Saint Mary’s singing and dancing ensemble will hold try outs for new members tonight and tomorrow. Sign up for audition times at 309 Fisher Hall.

Volunteer tutors are needed for elementary and high school Native American students on Tuesdays, from 6-7:15 p.m. Sept. 10 thru Dec. 10 in Madeleva Hall at Saint Mary’s. An orientation meeting will be held Sunday from 4 to 5 p.m. in room 328 Madeleva. If you are unable to make the meeting, call Michael Cox at 234-1048.

The Observer Wednesday, September 4, 1991
Low t-shirt sales dominates HPC's first meeting of year

By STEVEN KRAUSS
News Writer

The apparent lack of sales of 1991's The Shirt is causing a stir at the Student Union Board (SUB).

Matt Bomberger, chairman of the SUB AnTostal committee spoke to the Hall Presidents Council (HPC) Tuesday about the sluggish sales, urging the presidents to go door to door, if necessary, to move the shirts.

SUB, which currently has a surplus of 5,000 to 6,000 shirts, kicked off a massive advertising campaign yesterday to alleviate what Bomberger alluded to as poor support by the dorm presidents.

HPC remained relatively calm about the prospect of so many unsold shirts and the subsequent $46,000 debt this problem would cause. "I'm sure that there are many committees that have not been inspected by state inspectors to get to every plant." said Carroll Planten, assistant commissioner of the North Carolina Department of Crime Control and Public Safety, said 25 were confirmed dead by late afternoon.

Hospitals reported at least 40 injured. The door was locked and a man had to break the door open so those who could escape.

The dorm presidents remained positive as a whole, however, about the potential for the fund raiser now that section leaders have been elected and hall government can put forth a concerted effort. As such, neither Leahy nor Coury are worried about selling all their shirts. Said Leahy, "I expect this to be a big work for sales."

Coury added, "They'll be sold out before January 1st, that's all that really matters."

Former ND head men's basketball coach Digger Phelps was the main speaker Tuesday as HPC began its 1991 - 92 session. He was seeking support from HPC for Greenwood estates, a Wisconsin-based camp for the disabled.

The Logan Center sends many of its patients to the camp at a cost of $425 per patient each week.

Phelps talked about length of the virtues of the camp, and gave a slide show presenting images of campers engaged in such activities as hayrides, kickball, and sing-alongs. He then encouraged each dorm to sponsor a camper from the Logan Center for a week, referring to the estate as a "waste for them at the dorm's cost, but a lifetime for you or me, he said.

When Digger Phelps coached the Notre Dame men's basketball team from 1970 to 1991, his involvement with the Logan Center in South Bend was so strong that as a constant as the green carnation he wore on game days. Since then, he's had even more time to devote to charitable organizations, including those in the public relations area.

Pinochet jokes about discovered graves

SANITAGO, Chile (AP) - Former President Augusto Pinochet has angered the civil government with his flippancy remarks about the exhumation of hundreds of reported victims of his military regime.

Asked Monday about the fact that some victims were buried two to a grave, Pinocchet responded: "What a big savings."

Workers on Monday had begun digging up unmarked graves at Santiago's General Cemetery, where more than 120 bodies were buried shortly after the bloody 1973 coup that brought Pinochet to power. The exhumations were ordered by two judges at the request of the Roman Catholic Church.

When reporters asked Pinochet to comment on the discovery of the corpse of a missing leftist leader, he replied in a sarcastic tone, "My congratulations to the body searchers.

Pinochet joked about discovering graves asked whether he continues to maintain that his military regime did not kidnap and kill its opponents, he said "There was an irregular war that was well-planned by the KGB."

The elected government of President Patricio Aylwin, which took office from Pinochet last year after 17 years of military rule, responded angrily.

"The government is very shaken and astonished by the way in which Gen. Pinochet referred to the painful fact that two bodies were buried in the same tomb," said Enrique Correa, Aylwin's spokesman. "These cruel remarks offend the sensibilities of relatives and of the entire country."

In two days of digging, 18 sets of remains have been exhumed from the cemetery's Yard 19, a section where corpses were buried anonymously by the military regime, according to human rights groups. Some of the bodies reportedly were buried together.

None of the bodies have been officially identified, but relatives said one of the victims was Baubbia van Schwenen, a leader of the Leftist Revolutionary Movement who was arrested shortly after the coup.
Fire

continued from page 3

"They're beating all the odds."
The officer was trying to con­trol a growing crowd of worried
relatives, friends and curiosity­seekers.
Several witnesses said em­ployees couldn't escape because of
locked doors.
Brad Roe, operations man­ager and son of owner Emmett
Roe, said he did not know if
doors were locked.
"I can't tell you right now," he
said. "But there were plenty of
doors that were open."
He said he believed the build­ing has nine doors. "Certain
doors are locked at certain
times," he said. "I can't tell you
which doors were locked, if any
were locked."

The State Bureau of Investi­gation is investigating. Hamlet
Fire Chief David Fuller said au­thoritys are looking into the
depth-fat fryer as a possible
cause.

Asked if there had been pre­vious problems with the fryer,
Roe said: "Nothing more than
natural breakdowns and main­tance. Nothing that we be­lieve
would start a fire."

Fuller said the person who
reported the fire said an explo­sion had occurred, but that has
not been confirmed.
The fryer is 26 feet long and
situated in the middle of the
30,000-square-foot plant. It's
fueled by natural gas.
O'Neil Patrick said he was
walking near the plant and saw
another man trying to help
workers. He said only one door
was open and that was in the
front of the building.
He said he could hear people
screaming on the other side of a
locked door and inside the truck
that was backed up to a loading
dock door.
Gorbachev, Yeltsin press Soviet congress for change

MOSCOW (AP) — Mikhail Gorbachev and Boris Yeltsin urged lawmakers on Tuesday to approve sweeping changes in the Soviet government, and Gorbachev warned Congress that it might cease to exist if it failed to accept radical change.

Meanwhile, Yeltsin called for an end to underground nuclear tests and sought to reassure the world that Soviet nuclear weapons would all be moved inside the huge borders of his country to halt the significant progress that is possible for this university.

For decades the CIA has had ties to RIT, which specializes in information technology and the evolving field of imaging science, which combines photography and electronics.

RIT board Chairman Thomas Gosnell said the board would regrettably accept Rose's retirement, which is effective June 1, 1992.

"Ritch's leadership has significantly advanced RIT to a position among the world's finest universities," Gosnell said.

Jack Smith, a school spokesman, said later that Rose was resigning voluntarily.

The Soviet president, seeking to sweep away hard-line opponents of reform, seemed intent on getting rid of the Communist-dominated Congress as part of his plan to reshape the country and its governmental structures.

Gorbachev, Yeltsin and the leaders of nine other republics on Monday had put before the Congress a broad proposal to strip the Kremlin of most power in a State Council made up of the Soviet president and leaders of the republics.

Emerging from the second day of the three-day session, Gorbachev issued a stern warning, telling reporters that if lawmakers didn't approve his proposal, then "the people will reject this Congress.... The Congress will have exhausted its usefulness."

But Gorbachev also gave a sop to the lawmakers, withdrawing a proposal for a new, smaller legislature with 20 representatives from each republic — which would have given the six predominantly Muslim republics more representatives than Russia, Byelorussia and the Ukraine.

Instead, he suggested reforming the Supreme Soviet — the 542-member standing legislature elected by the Congress from its membership.

Gorbachev also put off a vote on independence for the Baltics, which he originally said might occur at the session.

More than 300 people have been killed in fighting in Croatia since it declared independence June 25. Many of Croatia's 600,000 Serbs, 12 percent of the republic's population, are unwilling to live in an independent Croatia.

AP photographer Franz Pannzer reported that Osijek, 140 miles east of Zagreb, was a road to Vukovar, 18 miles to the southeast, he said.

He saw two air force planes dropping bombs on neighboring Bijel village, a last Croat stronghold in the Baranja area stretching north of Osijek toward Hungary.

In the town of Beli Manastir, Serbs claimed to have taken Bijel and Mece, the last two Croat-held villages in Baranja.

Gornerapeut, continued from page 1

Stern said it was instructing its Defense Ministry to implement a cease-fire, ban the movement of its troops without prior notification and demobilize reserve units.

There will be a meeting of the Pre-Law Society on Thursday, September 5, at 7 p.m. in the Library Auditorium. Dean McLean of the Law School will be speaking about applying to Law School. Seniors are especially encouraged to attend.

Happy 21st Carrie

Love, Mom, Dad, Ali, Will & Your Mals!
LEWISTON, Maine (AP) — President Bush, delivering a shocking back-to-school message, said Tuesday that America's education system is failing and "we must blame ourselves for betraying our children."

"The ringing school bell sounds an alarm, a warning to all of us who care about the state of American education," Bush said. "Every day brings new evidence of crisis."

Bush pressed his crusade to improve schools during a brief stop here before returning to Washington at the end of his 29-day Maine vacation.

Bush's speech marked the beginning of a new emphasis on the education, environment and other issues most likely to be major themes of the upcoming election year.

Democrats, frustrated by polls showing Bush with high ratings on foreign policy matters, hope to exploit what they believe is the president's weakness on problems at home, such as the faltering economy and the lack of health insurance for many Americans.

Democratic Party Chairman Ronald Brown said the president's speech was intended to open Bush's 1992 re-election campaign and "redeem George Bush's embarrassing failure to live up to his lofty promise to be our education president."

"George Bush and his White House must match rhetoric with real action and substitute direct presidential responsibility for the same old photo opportunity," Brown said in a statement. "Campaign pledges don't cut the mustard when our economic future depends on smart kids and a skilled workforce."

Rep. Tom Andrews, D-Maine, said it was good that the president was drawing attention to the problem, but that his proposals don't go far enough. Bush, he said, should shift millions of dollars from the defense budget into education.

Bush told the audience that parents and students, in particular, must get involved in the campaign to improve education.

"He noted that the verbal scores of high school seniors declined to an all-time low on the Scholastic Aptitude Test. "These numbers tell us: Our schools are in trouble."

"But before we point fingers, assign blame, how many of us demand more of children, our schools?" Andrews asked.

"Our education system should worry them."

"Bush and the nation's governors have adopted a package of lofty education goals to be achieved by 2000. The strategy calls for American students to be first in the world in science and math, two subjects where they rank last among industrialized nations."

"To accomplish the goals, Bush has proposed creation of national standards in math, science, history and geography, and a system of national examinations to measure performance."

"Bush told parents they are expecting too much of teachers."

"But we point fingers, assign blame, how many of us demand more of children, our schools? Survey after survey suggests too many parents and students remain unconcerned, uninterested that the state of their own schools should worry them." Bush said.

Baltics apply for U.N. membership

UNITED NATIONS (AP) — The three Baltic republics, which were established as independence countries by the Soviet Union a half-century ago, on Tuesday applied for U.N. membership as free countries.

Estonia, Latvia and Lithuania, which were forcibly annexed in 1940, could be seated as early as this month to take part in the 46th General Assembly.

On Tuesday, the formal applications were submitted by Foreign Minister Javier Perez de Cuellar by French Ambassador Jean-Bernard Merimee and British Ambassador Sir David Hannay.

Representatives of the Baltic states were not present, but are expected to participate in membership consultations next week.

"This is a big and a historic step," Hannay told reporters after handing over the applications to the secretary-general. But Hannay and Merimee said that British and French support for the Baltics' applications did not necessarily mean that Britain would support possible U.N. applications by other former Soviet republics.

In order for a country to join the United Nations, the 15-member Security Council must approve an application and two-thirds of the General Assembly must endorse it.

France is president of the council this month and a formal application process is expected to be expedited.

The Soviet Union holds veto power in the body, but a spokesman for the Soviet mission to the United Nations, Aleksander Denisov, said Moscow would not block the Baltics' applications.

"On the contrary, we will support it," he said in a telephone interview.

The Soviet Union already has indicated it will oppose campaign pledges by the Baltics to go their own way, but Soviet lawmakers have not yet approved legislation recognizing their independence.

The former Soviet republics of Byelorussia and the Ukraine have declared their independence.
NICOSIA, Cyprus (AP) — After promising to end one-party rule in Iraq, Saddam Hussein has released a law that bars his main opponent — Shiites, Muslims and Kurds — from forming political parties.

The law, which technically ended the party of one-party rule in Iraq, was signed by Saddam as chairman of the ruling Revolutionary Command Council, but has not taken effect. It was released with much fanfare by the National Assembly on Monday, and is expected to be voted on in the near future.

Wanda Holloway, 37, of Charlotte, N.C., who is said to have left her job to protest the government, said she was afraid of what would happen if she went to work. She said she had been told by Saddam's government that she would be banned from going to work.

Holloway was convicted of trying to hire a hitman to kill the mother of her daughter, Amber, in 1991. She was said to have been approached by at least 15 people to kill her husband, Tony Harper, who is now married to Marla Harper.

Holloway burst into tears at her trial, but said she was not guilty. She said she had been approached by Tony Harper's brother, Terry Harper, about the scheme in a jail cell on May 13. Terry Harper was said to have been approached by at least 15 people to kill Tony Harper.

Preliminary directory incomplete

Have you been trying to call me or my roommates? Well, probably not. But even if you were, you wouldn’t be able to. That’s because we’re not in the preliminary phone book—although we should be. Even with all of the benefits of living off-campus, it is not perfect. Recent columnists have documented the good things about the land O-C, but it does have its drawbacks. The worst of these is that it’s hard for people to get in touch with you—and the Registrar’s office isn’t helping much.

My roommates and I have known our address since March and our phone number since May. In early August, I remembered what a hassle it used to be to call friends who lived off-campus because their numbers weren’t in the preliminary phone directory. Since I had our information, I figured I could call up the University and tell them, and magically it would appear in the preliminary phone book. Sounds easy, huh? It wasn’t.

First, I called the Telecommunications Office. They directed me to the Registrar. When I called the Registrar, they had no clue of what to do, or they directed me to Student Residences. Of course, I live off-campus, so Student Residences directed me back to the Registrar, but gave me the name of the woman who handles phone numbers. So I called her.

"Can I give you the phone number of me and my roommates?" I asked.

"No, you’ll have to wait until you enrol to do that," she replied.

"But I know the information now and I would like it in the preliminary directory," I said.

"What’s the preliminary directory?" she replied. At that point I should’ve given up. But I didn’t, and I explained the concept to her.

"Oh, if you fill out the forms when you enrol, it will be in there," she assured me. Finally I had gotten through, or at least I thought so.

When I opened up the directory last week, there was mine or any of my roommates’ information in there? Not. So, because the Registrar’s office, which doesn’t seem to even be aware that there is something called a preliminary phone directory, would not take my information this summer, that information won’t be known until the real phone book comes out—probably around May.

I am not alone. Everyone who lives off-campus is in the same boat. Not only don’t we get any of our mail (that’s another column in itself) but no one has our phone numbers. Of course, they could call 411, but then they have to guess who’s name the phone bill is under. It’s probably easier to send a letter.

So until the Registrar’s office decides to start taking the information from off-campus students when it is available, all of us off-campus residents will just have to sit around in our living rooms, drinking keg beer after parties, and wearing sweaters because the air-conditioning is set at 32 degrees. And I suppose the people who we really want to talk to will have our numbers, but for the most part the phone will be silent. And that might have its advantages. But, say, someone actually wants to call us or send us something (like football ticket applications), they’ll just have to wait until May. That’s probably about when the official directory will come out.

Readers found statements unfair, insulting, and elitist

Mr. Alpert’s suggestion that “just because the police are not sufficiently intelligent enough to be admitted to the University of Notre Dame…they vent their jealousies against those who are.” I find this statement unfair, insulting, and disturbingly elitist. Insults will not win sympathy from the police. If we expect them to respect our lifestyle, we should respect theirs.

Alumnus Matt Bannon feels the need for speed

By Paige Smoron
Assistant Accent Editor

Last year, most of us had our eyes glued to the evening news, eager to hear about the latest developments in Operation Desert Storm. Alumnus Matt Bannon had a much better view of Iraq.

Bannon, a member of Notre Dame’s class of 1986, reported for training as a U.S. Navy pilot soon after graduation.

Four weeks into his first assignment, he was flying F-14 combat missions over Iraq.

“Our men are doing this day and night, around the clock, always at danger to themselves. Just because you don’t read about it all the time doesn’t mean it’s not dangerous,” says Bannon.

Bannon is assigned to the Naval Air Station Oceana based Fighter Squadron 33, which was deployed on board USS America during Operation Desert Storm. He flew more than forty sorties from the America, which operated in both the Red Sea and the Arabian Gulf.

“Flying off a carrier is one of the hardest things I’ve ever done in my life, but I love it. I want to fly Navy fighters as long as they’ll let me,” said Bannon.

As far back as he can remember, Bannon wanted to be a pilot. “When I was a kid, I used to enjoy old World War II movies with the Hellcats and Bearcats, but the F-14 was my dream.”

He took steps toward realizing that dream when he entered Notre Dame on a ROTC scholarship. As a third generation Notre Dame student, he developed the values that have stayed with him through his years in the Navy.

“There’s nothing more important than values,” said Bannon. “Without values you can’t be a good leader of men, and the values I got from Notre Dame prepared me for my job in the Navy.”

Bannon spent his summer vacations as a midshipman learning about the various options available upon graduation: submarines, surface ships, naval air, and Marines.

But he says that the naval ROTC summer indoctrination is what reinforced his plans to become a pilot. “The pilots and the air crews were more laid back, so I knew that’s what I wanted,” said Bannon.

He feels that Navy pilots operate under conditions that are more difficult than those encountered by pilots in other services. Landing a plane on a carrier when the weather deteriorates, for instance, is “…a whole new situation. There’s only one place you can go back to—you carrier. It’s not like an Air Force pilot who can head for another airfield.”

Operating off a flattop is never dull, according to Bannon. “The catapult shots are always exciting. It knocks the wind out of you if you don’t prepare for it properly.”

Bannon concedes that he is putting his life on the line every day, in both war and peace. “Our men are doing this day and night, around the world, around the clock, always at danger to themselves. Just because you don’t read about it all the time doesn’t mean it’s not dangerous,” he says, but adds that because of the pilots’ professionalism and pride, it occurs without incident.

He is impressed with the training and discipline of Navy pilots, as well as with the advanced technology of the F-14 Tomcats. With these combined assets, Bannon felt that the fighter planes from the Navy’s carriers were up against a “paper tiger” in Iraq.

“….Everytime we went up against Iraqi planes, they turned and fled,” he reported. “….The unrelenting air strikes ensured the allied ground forces a swift victory in the liberation of Kuwait.”

Bannon’s line of work is dangerous and challenging. But he also admits that a lot of the allure of being a Navy pilot is due to the glamour. “Being cool is important, isn’t it?”

BRADLEY birdies way to LPGA title in Springfield

Springfield, Ill. (AP) - Danielle Ammaccapane carded a 72-hole total of 288 and birdied the par-5 sixth hole - which gave her a record-tying 28th win.

"I was a bit nervous this morning," the American Red Cross tournament, "but there's no reason for me to lose," she said.

Ammaccapane moved into second with a birdie on the par-4 10th hole Tuesday, finishing six strokes behind Bradley with a 13-under 203.

Laura Davis also played a lackluster final round, dropping from second to third with Bradley to seven strokes back. She finished with a 12-under 204.

Meg Mallon also finished seven strokes back, bogeying her final hole to finish at 5-under for the tournament.

Rain and lightning forced a two-hour delay Monday, giving Bradley plenty of time to visualize through the course. When play resumed, she knocked in three straight birdies to open a 4-stroke lead.

Then new flashes of lightning forced officials to postpone the finish until Tuesday, when she started with two more birdies and then played par the rest of the way. She missed going 20-under on the 18th hole when her birdie attempt 12 feet away did not fall from the cup.

"It was the first time that I can tell you I really let down

"Everybody offensively played a pretty good game," she said.

Defense was another matter. The Bills finished with 33 first downs and a team record 583 yards.

"We caved in defensively in the second half," she said.

A lot of teams figure to have trouble stopping the AFC champions, and the Dolphins won't have to deal with them again until Monday night, Nov. 18.

Miami's immediate concern is the home opener - a trip to Sunday night's game against Indianapolis. Then come games at home against Green Bay. The three upcoming opponents lost on opening day by a combined score of 81-10.

The Dolphins play five games before they meet another team that was over .500 last year - Kansas City, on Oct. 13. So there's still an outside chance of matching last year's 8-1 start, which propelled Miami to its first playoff berth since 1985.

Making Bradley easier to capitalize on the schedule will be the return of tackle Richmond Webb, tight end Ferrell Edmunds and cornerback J.B. Brown, all starters in 1990.

Edmunds and Brown joined the team late last week after each missed games with spasms, and they should not make the trip to Buffalo. Webb missed the game with a knee injury but likely will return to the Dolphins drills this week, Shula said.

Four veterans remain unsigned, but disputes over injuries continue to burden the Dolphins and Miami. Shula said there's been a silver lining, Shula said.

"The benefits were that some (injuries) we won't have to pay for and some came through for us," he said.

Most visible was running back Mark Hughes, who rushed for 146 yards in 30 carries as a fill-in for the injured Sammie Smith. The 5-foot-7, 195-pound Hughes had carried a total of 59 times in his three previous NFL seasons.

Steve Stevens, the American Red Cross player of the year this season, for player-of-the-year honors.

Davies led by five shots after the first round, thanks to a record-tying 10-under 62. But she was only 2-under for the final round.

In the final round, the hard-driving Briton squandered a chance for eagle with a birdie instead and then birdie with three-putting the third hole.

"We underestimated the 14th hole," she said. "I'm watching it and it's over my head."

"It's tough sometimes, coming back," she said.

The Observer

Irish punter Sexton arrested

North Dallas, IN (AP) -- Notre Dame punter James Sexton, 22, was cited Aug. 26 for allegedly shoplifting at Martin's Supermarket, 14081 Indiana 23, according to the St. Joseph County Police Department. The Morrises said they were confronted at 9:45 p.m. by off-duty county police officer Chief Frank Caranci after he noticed Sexton place five packs of Action Packed football cards in his short pants, the police report said.

Sexton told the officer he forgot to pay for the cards, but later said that he didn't want his girlfriend to know he was buying them. He was questioned and released. The case report has been forwarded to the St. Joseph County Prosecutor.

Braids end skid in Montreal
Rangers streak to 15 with victory over Blue Jays

MONTREAL (AP) — For the Braves, losing three in a row was a welcome sight.

"Every team has a flat period at some point in the year, it's normal and it's not something as long as you keep it to a couple of games," said Dave Justice, driving in 43 runs this regular season. "We beat the Expos on Tuesday night and led the game to drive in two more runs.

"We didn't have the intensity we should have the last couple of nights, but I don't agree that it's normal. It's not a race until the last week of September."

"The thing we have to worry about is getting back to doing the things we have to do," Justice said. "Tonight we did. We executed and got some timely hitting, defense and real good pitching."

The pitching came mainly from starter John Smoltz, who has turned his season around in the last two starts (11-13) pitched 6 2-3 innings of six-hit ball before needing relief help.

Two-out walks to Rafael Palmeiro and an error by shortstop Bret Saberhagen in the third inning were the only bases for the Braves in the third. Before Justice singled to drive in two runs. Justice singled home Belliard for Atlanta's final run in the fifth, before Dan DeShields singled to drive in Belliard and chase Smoltz in the seventh.

Rangers, 5; Yankees, 1

ARLINGTON, Texas — Texas won its 15th consecutive home game over the Yankees as Jose Guzman pitched a five-hitter. The Rangers beat the Yankees, 5-1, Wednesday night.

The Yankees have not won at Texas since May 4, 1989. The Rangers have won 16 of their 18 consecutive home victories over one team is 22, set by the Boston Red Sox against the Philadelphia Athletic in 1945 and 1946.

Guzman struck out six and walked three in his third complete game.

Jeff Johnson (5-9) gave up four runs and nine hits in 5 2-3 innings as the Yankees lost for the third time in four games.

Texas, which won its third straight, went ahead in the first on a run-scoring single by Dave Stanley. Jose Hernandez hit an RBI single in the fourth, but the Yankees pulled to 2-1 in the fifth when Guzman threw a run-scoring wild pitch with Matt Nokes on third.

Ruben Sierra hit his 20th home run in the fifth and Brian Downing made it 3-1 in the sixth with a run-scoring double.

Ivan Rodriguez hit his second career home run in the eighth.

Angels, 2; Red Sox, 0

BOSTON — Mark Langston beat Boston for the third time this season and Dave Parker drove in the go-ahead run with his 2,000th career hit as the Angels won their 2-0 Tuesday night. The loss ended a three-game winning streak for the White Sox.

Langston (16-7) allowed four hits in 7 1-3 innings, struck out three and walked two. Mark Eichhorn escaped an one-out jam with runners on second and third in the seventh and pitched a perfect eighth before Bryan Harvey finished for his 35th save in 38 chances.

Nick Gardner (6-7), who had his three previous starts, allowed six hits in 5 1-3 innings, struck out seven and walked two.

Orioles, 8; Blue Jays 4

TORONTO (AP) — Dwight Evans hit a three-run homer and had his first four-hit game this season, and Glenn Davis also homered and had three hits.

Ben McDonald (6-8), wild in starts against the Blue Jays, allowed three runs and five hits in six innings, struck out four and walked none. Mike Flanagan finished with one-run, two-hit relief for his third save.

Mike Wallis (13-10) gave up four runs and nine hits in 5 1-3 innings.

Toronto, 5; White Sox, 0

CHICAGO — Danny Tartabull hit a pair of two-run homers for the sixth multiple-home run game of his career and Kevin Appier (11-9) pitched a five-hitter and struck out nine.

Joey Johnson, in his second game of his comeback, went 0-0-for-4, making him hitless in seven at-bats. He struck out twice and grounded out twice.

The loss ended a three-game winning streak for the White Sox, who are 6-17 since Aug. 11.

Jack McDowell (15-9) allowed six runs and eight hits in 5 1-3 innings and struck out eight.

Royals, 8; White Sox, 0

MILWAUKEE — Robin Yount hit a three-run homer in the ninth, capping the Brewers' comeback from 3-0 to 5-1 victory.

Jim Gantner hit his first four-home run in four years in the ninth and B.J. Surhoff, who hit his fifth home run in the eighth, drove in two more runs.

Milwaukee then rallied in the ninth off Dennis Eckerson (13-3), who blew his seventh save opportunity in 43 chances. Bill Spiers walked, Willie Randolph singled and Darryl Hamilton hit into a fielder's choice. Yount followed with his first home run since May 26.

Edwin Nunez (2-1) pitched a perfect ninth inning, struck out three and walked two. Mark Eichhorn escaped a one-out jam with runners on second and third in the seventh and pitched a perfect eighth before Bryan Harvey finished for his 35th save in 38 chances.

Mike Gardner (6-7), who had won his three previous starts, allowed six hits in 5 1-3 innings, struck out seven and walked two.

Mets, 6; Astros, 1

NEW YORK (AP) — Howard Johnson, making his first out-of-town start since May 4, drove in two runs to help the Mets to a 6-1 victory over the Astros on Tuesday night.

Johnson doubled home a run in the Mets' three-run first and followed with his 35th save in 38 chances.

Yount (1-1) hit a three-run homer in the sixth inning, and Bill ¥手套, who was making his first major league start since 1986, drove in two runs to help the Mets to a 6-1 victory over the Astros on Tuesday night.

Yount had appeared seven times this year over the first seven innings, walking none and striking out six. Tim Burke pitched two-hit relief for his third save.

David Wells (13-10) gave up four runs and nine hits in 5 1-3 innings.

Texas, 5; Brewers, 4

PHILADELPHIA (AP) — Jose Rijo won his fourth straight start, and Chris Sabo hit a two-run homer as the Reds ended their four-game losing streak by defeating the Phillies 8-5.

Rijo allowed nine hits, struck out four and walked one. He struck out two, walked four and allowed two runs in seven innings to improve his record to 12-4. He has won 11 of his last 13 decisions covering 17 starts, and Gibb pitched two scoreless innings in relief for New York.

Johnson had appeared in 14 major league games as an outfielder and was shifted to right.

The loser was Mike Stanton (1-1) in his first big league start.

Houston starter Mark Portugal (16-7) was the loser.

Reds, 8; Phillies, 5

CINCINNATI (AP) — Cincinnati Reds Chris Sabo slams a two-run homer in the fifth inning on Tuesday night.

The losing pitcher was Cliff Brantley (0-1), who was making his major league debut for Philadelphia.

Irish secondary ready to surprise with old and new faces

By DAVE MAHON
Associate Sports Editor

For the Notre Dame secondary, the 1990 football season was anything but exceptional. With two-time All-America cornerback Todd Lyght now with the New England Patriots, few people believe the 1991 version of the defensive backfield will hardly be a force to be reckoned with. The return of sophomore Greg Davis and two seniors have different plans, however.

Under the direction of first-year coach Ron Cooper, the secondary looks to improve upon last season's spotty play, which included giving up an all-time Irish high of 267.1 yards per game. With at least two freshmen playing in the secondary at a given time last year, the experience gained should bolster Irish hopes of improving upon last year's effort.

"We're young in terms of putting guys out there who've played in a lot of games," said Cooper, who joined the Irish staff in mid-February. "But we had great success throughout the spring and feel really good about the talent we have.

Leading the corps will be fifth-year senior safety Greg Davis, a big, tough player who leads the squad in tackles (58) last season. Ranked 11th nationally among safeties in the preseason by The Sporting News, Davis is a better season ahead for the entire secondary.

"We were nervous as a unit at the beginning of last year," said Davis. "But we're more relaxed right now because all of us have been there."

Sees advances to semifinals in Open

NEW YORK (AP) - Monica Seles, still promising to set the tennis world ablaze with her new york new, put off her fashion show to concentrate on reaching the U.S. Open semifinals Tuesday for the first time in her career.

She wore the same old outfit and had the same old strokes.

The victim this time was Gigi Fernandez, only 27 but still a full decade older than Seles, who barely broke a sweat in winning 6-1, 6-2 in 53 minutes over fellow tennis pro Fernandez, who won the Australian Open this year and her second straight U.S. Open, is trying to add the U.S. Open to her Grand Slam achievements.

Fernandez didn't act much like a serious threat on the court as she sprayed 36 unforced errors in her first match against Seles, who made only 10 errors.

Seles started as if she were out to break the record for fastest match in Open history, winning the first four games in 12 minutes while not dropping a point on serve against a player appearing in her first Grand Slam quarterfinal.

"I don't think that I was so much nervous or impressed by the event as much as by her game," Fernandez said. "She came out really strong and she was jumping all over my serve and serving really well.

"She is always fighting and thinking. She is a very smart player, very tenacious, and keeps coming at you. If you look at her, you don't think she is a tennis player. She is not built like a tennis player, but her mind just keeps her in there."

"I think all the great players have that," Seles said. "I mean, Chris, Martina, also Jimmy Connors, Mac, everybody. I think you have to have that. I mean you can't be a dead person on the court."

A brief lapse in the fifth game, and a sudden spate of errors, caught the net cord and sent Seles, who won the first four games of the 1990 season, to play either corner slot, but will start at field corner.

Sophomore Tom Carter (5-11, 186), who moved from free safety during the spring, gets the nod over classmate Greg Lane at the other corner spot.

"Cornerback is more my natural position, so I was glad to get back there during the spring," said Carter, who at 11th nationally among safeties in the preseason by The Sporting News, Davis sees a better season ahead for the entire secondary.

"We were nervous as a unit at the beginning of last year," said Davis. "But we're more relaxed right now because all of us have been there."

"This was a pretty big win at third set because it hasn't been easy for her," Navratilova said.

"I was surprised that I got through that one so now I am one round further than I was last year. Now I am where I wanted to be, which was winning the next match and waiting for the next one."

Monica Seles moved into the semifinals with a 6-1, 6-2 win against Gigi Fernandez in U.S. Open play on Tuesday.
