Foreign policy advisor suggests some criteria for national self-determination

By NANCY DUNN
News Writer

Self determination should be the exception and not the rule, said Gerard Powers, a foreign policy advisor in the United States Catholic Conference in his lecture, "Sarajevo and Self Determination: Building an Old New World Order?"

Powers said the former Yugoslavian system collapsed because none of the constituent groups were satisfied. The Serbs wanted to create a more powerful Yugoslavian state, while other ethnic groups wanted to decentralize the government to prevent Serb domination. When it became clear that the old order would crumble, the Serbs began their attempt to establish a larger, ethnically pure state, said Powers.

The violent nationalism is a result of, "a deep insecurity which grew out of a history of victimization," said Powers. In the Serbs' eyes, war is justified to protect themselves from being dominated by Croatian, Muslim, or Islamic rule.

The goal of the Carroll House-Residence Hall Association is to have virtually all offenses, and to pass on only the most serious offenses to the Office of Student Affairs, Sullivan said. The key factor in the success of J-Boards, Delevan agreed, is implicit trust. The CLC decided that by April 5th, the final decisions concerning Judicial Boards will be made.

In other business, Maureen Connelly and Ryan Bohr discussed a student government report they are preparing for the Board of Trustees on Gender Relations. They wanted feedback about things the University could do to improve gender relations, if students are taken, said Powers. "Yougsvakia could be the harbinger for more dreadful events."

INSIDE COLUMN

It's time to listen to the poets

I saw the funniest thing as I watched the recent inauguration Day ceremonies on TV in LaFortune.

As soon as President Clinton finished his speech and the national anthem ended, everyone sitting on the front couches rushed off—and a new mob suddenly appeared and filled the empty seats.

This was of people who looked suspiciously like several members of the English department who were, presumably, trying to hear poet Maya Angelou. Evidently the group of people who rushed off didn’t think a poet was worth listening to.

The group of people who left heard President Clinton say, “There is nothing wrong with America, that can’t be cured by what is right about America.”

They missed Angelou say, “Your armed struggles for profit / Have left collars of waste upon / My shore, currents of debris upon my breast.”

That’s what’s wrong with America.

What’s wrong in America is that there is always a war going on, and it isn’t always fought with weapons (although we do that often enough).

It’s a war over race, class, gender and sexual preference that’s tearing apart our country.

We see the debris of this war in Dantrell Davis, the 7-year-old L.A. who rushed off didn’t think a poet was worth listening to.

Angelou knows what’s right about America.

She told us throughout her poem, no less than before:

Reports from Washington say people cheered as they listened to Angelou’s poem because they heard themselves in it, one of the 36 nationalities, religions, races and genders America is comprised of.

Racism, sexism, and discrimination cannot be put to rest by passing or repealing a law—a lesson that American politicians long enough—without result.

In 1990: Nelson Mandela.

In 1943: The remainder of Nazi forces from the South African Base in Lagerstad surrendered in a major victory for the Soviets in World War II.

In 1971: Idi Amin assumed power in Uganda, following a coup that ousted President Milton Obote.

Hundreds of marines head home

MAGADISHU, Somalia — Nearly 500 Marines boarded planes for home today, the first of 2,700 U.S. troops being pulled out of Somalia this week in the biggest withdrawal since U.S. forces landed in December. The first 473 Americans to leave today were members of the 1st Combat Engineer Battalion of the 1st Marine Division of Camp Pendleton Calif., whose duties were being turned over to the Army. Nearly 1,000 combat Marines returned to Camp Pendleton last month in the first major withdrawal of American forces since they arrived Dec. 9 to secure relief food shipments from bandits and looters. There are still 24,361 U.S. troops in Somalia.

Clinton toughens trade with Europe

WASHINGTON — Clinton administration officials are tough bargaining stance in its first major trade dispute by announcing Monday that next month the federal government would stop purchasing a wide range of products made in Europe. The halt would take effect March 22 unless a compromise is reached before then. The United States is demanding that Europe abide by the agreement that favors American manufacturers at the expense of foreign companies in sales to government-run airlines. U.S. companies such as General Electric and the American Telephone & Telegraph Co. have complained the European rules cost them sales. The administration’s action comes at a time when a number of American industries from steel to automakers to semiconductors are petitioning the new administration for government help in coping with foreign competition.

People with eating disorders must change thought process, says expert

By PATRICE MILLER
News Writer

People with eating disorders must learn how to change their thought process towards food, said Valerie Staples, the program coordinator of the HOPE program who talked at Saint Mary’s Monday.

The HOPE (Healthy Options for Problem Eaters) program, located at South Bend Memorial Hospital, deals with people located at the eating disorders of anorexia and bulimia. The program has been in existence for eight years, with Staples the coordinator for six years.

Nancy Schoeneman, who is director of the Eating Problems Outreach program on both the Notre Dame and the Saint Mary’s campuses, helped to organize the program on Causes of and Recovery from Eating Disorders.”

“Eating disorders are an issue that we are all affected by,” said Schoeneman.

Awareness of an eating disorder is an important part in the recovery process, Staples said. People have eating disorders because they have trouble coping with their emotions and use food as escape, instead of dealing with their problem. Since their self esteem is low, no matter how thin they are they are still feel and view themselves as fat, she said.

According to Staples, “People who are bulimic enter treatment on their own because of the emotional pain. They are tired of making excuses.”

For the recovery process to be successful, the patient has to learn not just how to express sadness or anger, but actually use those emotions as, Staples said. Group therapy helps the people to learn about their feelings and is key to the long and emotional process of recovery, she said.

First round debates finished

By GERALDINE HAMILTON
News Writer

The first round of the Iceberg Debates was Monday, concentrating on the issue of whether the ban on homosexuals in the military should be lifted.

The debates were judged by faculty members and law students. Each team was given a score of 0, 1 or 2.

Saint Edward’s Hall hosted Breen Phillips and took an affirmative stance on the issue. St. Ed’s won with a score of 2.

Alumni Hall -A beat Fisher with a score of 2. For the recovery process to be successful, the patient has to learn not just how to express sadness or anger, but actually use those emotions as, Staples said. Group therapy helps the people to learn about their feelings and is key to the long and emotional process of recovery, she said.

Israel, to appease U.N., offers deportee return

JERUSALEM (AP) — Israel will allow 100 deported Palestinians to immediately return from Lebanon and repatriate the nearly 300 other exiles within a year, Prime Minister Yitzhak Rabin said Monday in a deal designed to avert possible U.N. punishment.

The United Nations had demanded the exiles' immediate return and Israel's refusal endangered the resumption of Middle East peace talks. But the Palestine Liberation Organization withered in neighboring Bosnia-Herzegovina.

Rabin said the arrangement was worked out in discussions with the cabinet. Lord Owen, pleased for a delay. He said U.N. pressure in the next days could still "pull the Serbs and the Muslims together" on a proposed map for dividing Bosnia into 10 semi-autonomous provinces.

"I just think we will have to railroad the map through," he said.

The Belgrade-based news agency Tanjug reported a "major offensive" along a 20-mile front by Croatian artillery, infantry and armored units.

Israel arrests Arab-Americans

JERUSALEM (AP) — Israel is attempting to circumvent the deportation of two Arab-Americans of being sent from abroad to rebuild the Hamas movement, the latest step in an apparent government campaign to tie the militant Islamic group to Palestinians in the United States.

Government statements on Israel television said Sunday that Hamas is now being run from the United States, where Hamas leaders were said to apparently directed at the Serb-held towns of Obrovac and Banovci in southwestern Croatia.

Croatian officials did not confirm the attacks. Last week, Croatia launched an offensive to take back the one-child of Croatian territory held by Serbs under a U.N.-brokered cease-fire that had lasted a year.

In Bosnia, hundreds of Muslim women and children were reported streaming out of the eastern town of Ceraka after Serbs guaranteed them safe passage. They were headed for Kalesija, a town that has been under frequent attack.

Mediator says division of Bosnia is still a possibility

ZAGREB, Croatia (AP) — Croatia's army and ethnic Serb militias exchanged heavy artillery fire Monday in southwestern Croatia, and fighting also flared in neighboring Bosnia-Herzegovina.

In Brussels, the 12 European Community foreign ministers held off slapping tougher sanctions against Serb-led Yugoslavia, which is accused of backing rebel Serbs in former Yugoslav republics.

The European Community's mediator at the talks, Lord Owen, pleaded for a delay. He said U.N. pressure in the next days could still "pull the Serbs and the Muslims together" on a proposed map for dividing Bosnia into 10 semi-autonomous provinces.

"I just think we will have to railroad the map through," he said.

The Belgrade-based news agency Tanjug reported a "major offensive" along a 20-mile front by Croatian artillery, infantry and armored units.

The Observer is now accepting applications for the following positions

Managing Editor

Applicants should have strong management and interpersonal skills, a solid base of Macintosh computer knowledge, basic journalistic and editorial skills and some newspaper production experience. Any full-time undergraduate at Notre Dame or Saint Mary's is encouraged to apply.

Business Manager

Any sophomore or junior Business major at Notre Dame or Saint Mary's interested in valuable work experience is encouraged to apply. Applicants should have strong interpersonal and organizational skills and a basic understanding of accounting principles.

Please submit a three-page statement of intent and a resume to David Kinney by Friday, February 5, 1993 at 5 p.m. For more information about these positions, call Managing Editor John Rock at 631-4541 or Business Manager Rich Riley at 631-5313.
Clinton games trade dispute

American Express tries to recover prestige

NEW YORK — The resignation of James Robinson III as chief executive of American Express Co. sent a compliant message to disgruntled investors — and reduced the company's vulnerability in high-stakes boardroom battles across corporate America.

Robinson just one week ago executed a stunning power play at American Express, ousting the chairman, effective Feb. 22, but Robinson as chairman, effective Feb. 22, on Saturday, Robinson told a University of Michigan professor who studies big organizations that management be able to put the public confusion over whether he or his chosen successor as chief executive of the company was running the company, a company's reputation with insurers and the public, "We stand ready to conclude an agreement with the United States that will not hesitate to enforce our right to be treated fairly," Kantor said in a statement.

"We do not accept this form of unilateral bullying," Bittman said in a statement issued in Brussels.

"We should bring the matter to Justice in Washington, D.C., and hoped the issue could be resolved when lower-level negotiators meet on the subject. Today's move as ill-advised and an attempt to raise the ante in a major trade dispute by an administration that seems determined to pursue an aggressive strategy on trade, Republican critics in Congress have questioned that the administration go into effect. The administration's latest action comes on the heels of an announcement last week that the United States would impose duties on steel imports from 19 nations, in addition to an agreement with China to lower barriers on the grounds that such moves would hurt American manufac­turers by allowing domestic producers to boost their prices while doing little to help American consumers. European officials called Monday's move as ill-advised and charged that the adminis­tration was ignoring the many Buy-American provisions in U.S. law, especially at the state and local level. "I cannot believe it is in any­thing but the government's interest to work together with Europe and America, to attempt to deal with trade issues in this way," said Leon Brittan, the European Community's top trade negotiator.

Dear Editor:

I would like to discuss some of the points made by Mr. Beeli’s article regarding abortion in the Observer of Jan 25.

I do not want to defend all politicians, but I think that Mr. Beeli should have a little more tolerance for all of the people that lay it easy to browbeat someone when you know exactly what you want to say, and you can put someone on the spot.

I believe that every politician should be able to give a complete philosophical discussion on any matter which concerns the public. This is akin to asking all doctors to be experts in every field of medicine, something which is impossible, of course.

Mr. Beeli credits several “false choices” to the pro-choice camp and misunderstands the nature of his letter. His complaint that taxpayers have no choice in whether or not to fund abortions is pointless, as it is obvious that our taxes will always go towards things like (for example) the military, the arts, or various programs that are not popular among all Americans. He also refutes abortion as an intrusion on natural biological process.

If one wants to get specific, most of modern medicine is an intrusion on the natural biological process. This medicine includes intensive care for premature babies, the Casavian section method for birthing, and using vacationing to protect newborns from disease. These methods, all of which pre-empt the natural process of childbirth, probably save as many (if not more) lives as those children who are aborted.

The main points of his letter lie in his belief that our government is hypocritical in what it gives rights to, and attempts to show this through several absurd analogies. He brings up the classic slavery analogy, saying that we cannot refuse to recognize the human rights of fetuses, in the same way that we cannot refuse to recognize the human rights of slaves. In the case of slavery, there is only one person who is truly affected by the decision of whether or not to afford human rights - the slave himself.

However, in the case of abortion, there are two conflicting interests: the mother and the unborn child. The fetus “right to life” is in conflict with the mother’s right to determine whether or not she wants to reproduce. In this scenario, a choice must be made as to who’s rights have priority.

I believe, as do many others, that the mother’s rights must be given the higher priority. Even the father can have no rights in this matter, as ultimately it is the woman who has to deal with all of the consequences of the decision. Laws requiring mandatory spousal consent infringe upon the woman’s right to have dominion over her body by allowing someone else to make the decision of childbearing for her (something I am sure many males would not agree with if they could imagine a world where the roles were reversed, and it was them who were being told to have children).

The analogy of disposing of the elderly after they reach a certain age (a la Logan’s Run) also misses the mark. Mr. Beeli argues that choosing an arbitrary age for the elderly to die is much the same as arbitrarily determining that a fetus becomes a baby with rights at birth. As Mr. Beeli is so fond of logic, I offer that it is not arbitrary, but only logical that a baby is accorded higher rights at birth. This is the first time in the child’s life that its vested interest in living no longer overlaps with the mother’s wishes to carry it to term.

At the point of birth, it seems obvious that the mother can no longer refuse to have the baby. Once it is established that we have been granted human rights, our government does not (and cannot) then conspire to take away the rights of certain groups in an arbitrary manner, as Mr. Beeli suggests is possible.

One may argue that a woman gives up any rights she may have when she makes the decision to have intercourse, and if she becomes pregnant she must “face the consequences.” Regardless of social and religious views to the contrary, for many years now the decision to have sex has not corresponded to the decision to have a child. The two have become separate acts, and must be treated accordingly.

Perhaps I should explain to Mr. Beeli what the “choice” in pro-choice stands for. It refers to the choice of whether or not to give special significance to the relationship between sex and childbearing, one that is guaranteed to us through the First Amendment of the Constitution. “Choice” means choosing to allow other people to make this important decision based on their own personal beliefs, and not pushing the morals of what is, in fact, a minority, upon anyone.

It also means that if women are free to choose when they want to have children before conception, they should be free to make the same choice after conception, prior to birth. Mr. Beeli speaks about the evils of oppression of the unborn at the end of his article. People seem to forget that removing the freedom of willful reproduction from women is a form of oppression as well.

Views on future bookstore needed

Dear Editor:

As you may know, Father Malloy recently asked several members of the Notre Dame community to serve as a committee to study the needs of the University regarding a campus bookstore for the future.

The members are James Lypoth, Associate Vice-President for Business Affairs and the Chair of the Committee; Kevin Christiano, Chairman of the Sociology Department; Christopher Fox, Chairman of the English Department; John Houghton, graduate student in Medieval Studies; Roger Schmitz, Vice-President and Associate Provost; and myself.

While we have been meeting with various students, we want to make sure that we have heard all viewpoints. Some of the issues that have been brought up by other students are: possible locations, the combination of merchandise and books (especially on busy weekends), and an enhanced trade book selection.

I am sure that there are many other things to be considered as well. If you would like to share your opinions concerning this matter, please send your comments to me at Student Government, 203 Lafortune Center. Thank you in advance for your contribution to this project.

Greg Butrus

The Chicago-based comedy troupe entertained last night with its signature brand of satire and improv.

*The Second City* by ROLANDO DE AGUJAR

The Second City comedy troupe performed last night at Washington Hall. Tickets for Chicago shows, which feature a different cast from the one that played here last night, can be ordered at (312) 664-4032.

In fact, three of the group’s former members—Chris Farley, Tim Meadows and “Wayne’s World” star Mike Myers—are currently featured on the NBC late-night mainstay, while Aykroyd, Belushi, Murray and Radner were all original Not-Ready-for-Prime-Time Players after their stints at the Second City Theater in Chicago.

A reference to a derisive characterization of the Windy City in the New Yorker magazine, the comedy group’s name became familiar to most of America in the late 1970s with the airing of SCTV, which featured such standout comics as John Candy and Rick Moranis. But the troupe originated from comatose patients to exotic “otherness” which liberates a family from their self-erected walls of impenetrable callousness. He is a symbol of the Old World which, ironically, enables an assorted lot of post-counterculture irony, as John Belushi, Bill Murray, Martin Short, Gilda Radner and Martin Short, Gilda Radner and Radner were all original Not-Ready-for-Prime-Time Players after their stints at the Second City Theater in Chicago.

He is a symbol of the Old World which, ironically, enables an assorted lot of post-counterculture irony, as John Belushi, Bill Murray, Martin Short, Gilda Radner and Martin Short, Gilda Radner and Radner were all original Not-Ready-for-Prime-Time Players after their stints at the Second City Theater in Chicago.

The Second City comedy troupe performed last night at Washington Hall. Tickets for Chicago shows, which feature a different cast from the one that played here last night, can be ordered at (312) 664-4032.

In fact, three of the group’s former members—Chris Farley, Tim Meadows and “Wayne’s World” star Mike Myers—are currently featured on the NBC late-night mainstay, while Aykroyd, Belushi, Murray and Radner were all original Not-Ready-for-Prime-Time Players after their stints at the Second City Theater in Chicago.

A reference to a derisive characterization of the Windy City in the New Yorker magazine, the comedy group’s name became familiar to most of America in the late 1970s with the airing of SCTV, which featured such standout comics as John Candy and Rick Moranis. But the troupe originated from comatose patients to exotic “otherness” which liberates a family from their self-erected walls of impenetrable callousness. Bucks 116, Warriors 110

Fred Roberts led a spurt to close the third and Todd Day scored eight of his 23 in the final period Monday night as the Milwaukee Bucks beat the Golden State Warriors 116-110.

Lee Mayberry added 17 for Milwaukee, including a pair of fourth-quarter points, Golden State, losing its sixth straight road game. The No. 1 point guards from downtown and 19 apiece from Chris Mullin and Chris Galing.

The cold-shooting Mullin, who missed two last-second free throws in a 106-105 loss to the Los Angeles Clippers on Fridays, made just 7 of 20 field goal attempts.

Nets 115, Mavericks 96

DALLAS (AP) — Derrick Coleman scored 27 points, including nine in the pivotal third quarter, as New Jersey handed Dallas its seventh straight loss.

The Nets strugled to a 57-51 halftime lead, pulled away in the third quarter by doubling their lead in the first three minutes.

The win was New Jersey's first in three games on a four-game road trip.

Rookie Sean Banks scored 21 points for 37 seconds, which lost for the 22nd time in 23 games. Terry Davis added 16.

Hoops

continued from page 12

Williams is the only Irish player in double digits with 17.4 points per game.

The balanced offensive attack of the Golden State defenders' tendency to push the ball up the floor should keep Notre Dame running. Markle would like to see his team maintain consist­ent scoring and avoid the large chunks of time without a basket which have plagued the team all season.

A win would mark the fifth time in six games the Saints have scored at least 80 points.

Janet Libbing and the Saint Mary's basketball team broke a two game losing streak by beating North Central over the weekend.

Bucks beat the Golden State Warriors.

Although coach Marv Wood didn’t travel with the team, assistant coach Don Cromer briefed the team on their record to 10-4. According to Wood, the starting line-up was going to be left unchanged. Cromer had a different plan.

Cromer kept the starting line-up of Kristen Crowley, Jennifer Taubenheim, Liz Vernasco, Julie Snyder and Kim Holmes. Justice Anne Walsh was replaced by the only substitute used throughout the game.

"It was nice because it allowed us to stay in the swing of the game," said co-captain Crowley. Crowley, Taubenheim and Vernasco played a full 40 minutes while Mulchly subbed for Snyder and Holmes during the first half.

North Central played zone de­fense and the Belles weren’t able to score a basket the whole night, but the Belles didn’t hurt themselves by not scoring the first half.

North Central played zone de­fense and the Belles weren’t able to score a basket the whole night, but the Belles didn’t hurt themselves by not scoring the first half.

"Defensively, our press gave them a hard time," said Crow­ley.

Snyder and Holmes closed down the fastbreak lane forcing North Central to shoot from the outside. With the defense pressing the ball, the Belles didn’t hurt themselves by not scoring the first half.

After their first dual meet road trip in over a year, the Notre Dame men’s swimming team returned to school Sunday night with two wins against Cleveland State College and St. Bonaventure University. The Irish increased their dual meet record thus far this season to 9-2, with a decisive 114-97 win over Cleveland State and a nine-point victory over St. Bonaventure, 126-117.

"We are thrilled with the results in every possible way," stated head coach Tim Welsh. "We haven’t been tested on the road in over a year. "The key to the season has been how well we have raced and competed side-by-side with the other team. This weekend was a good test of that, because both opponents are extremely talented racing teams," said Welsh.

The Irish faced a Cleveland State team strong in the medley relay, the breaststroke events, and the 100 freestyle, according to Welsh. "They used their strengths to our advantage," Welsh said. "But we had the advantage of a larger team than CSU which allowed us to keep sending in fresh, rested swimmers."

Freshman Tom Horenkamp won his first collegiate event Friday in the 1000 freestyle with a time of 10:01.04. Junior Jim Doran, returning this semester from a job in Washington, D.C., captured two first places, one in the 200 free with a time of 1:47.53 and one in the 500 free in 4:51.36. Notre Dame will return to the Cleveland State pool this spring for the Eastern Collegiate Swimming and Diving Championships.

"We tried to allow as many people as possible to swim at least one of their championship events in that pool in preparation for Easterns and the championship season," stated Welsh.

The meet against St. Bonaventure was a challenging one, but the Irish still emerged with a victory on Saturday afternoon. "It was a close meet," said senior co-captain Tom Whowell. "We knew it would be, so we just went into it with the attitude that we had to swim tough to win." "We were so pleased with the way that we responded to the challenge," said Welsh of the Saturday meet. "They have a smaller pool. It’s only six lanes, so the intensity goes up. It’s more exciting, side-by-side competition.

The winner of the meet was undecided until the last event had ended. Due to the diving talents of junior Sean Hyster, Notre Dame had a twelve-point lead going into the 400 free relay. St. Bonaventure needed to claim first and second place in the relay to win the meet, while Notre Dame needed a second place. The Irish secured their victory, taking both second and third places.

Senior Greg Cornick’s win in the 100 freestyle and Colin Cooley’s victories in both the 200 breast and the 200 I.M. also helped give Notre Dame the necessary margin over St. Bonaventure. In diving, Sean Hyster "really pulled through" for the Irish, according to Whowell. The nine points gained by his victory in the three-meter competition were crucial to Notre Dame’s 126-117 win. He also placed second in the one-meter competition.

This weekend, the Irish will again meet their last home meet of the season at 4:00 p.m. on Saturday.

Women win one in Cleveland but tie the next

BY HALEY SCOTT
Sports Writer

The Notre Dame women’s swim team returned home this weekend with a win over Cleveland State and a tie against St. Bonaventure University.

The Irish travelled to Cleveland State early Friday morning to race that afternoon. Notre Dame dominated from the beginning, and went on to win the meet 126-101.

"We are too strong and have too much depth to be challenged by a smaller team such as Cleveland State," said head coach Tim Welsh.

Notre Dame won eight of thirteen events, with their normal talents of junior Kristin Heath, sophomore Angie Roby, and senior Kay Broderick, respectively, were the individual winners in those events. The meet against Cleveland State was good practice for Notre Dame’s championship meet in March. At the close of their season, the swim team will return to Cleveland State to compete at the Eastern Collegiate championship meet.

Assistant coach Randy Julian commented, "(The meet against) Cleveland State was great. It is one of the finest pools in the country, and it really got the team ready for Easterns.

After the win in Cleveland, the Irish travelled to Oloon, New York, to swim St. Bonaventure on Saturday. The women’s team swam well enough to come back from a 26 point deficit and tie 149-149.

"It was nice to see the women challenged. It was the first time they were really pushed, and they responded well," Julian said.

Once again the Irish relied on strength in their stroke events to pull them through the meet. Senior co-captains Tanya Williams won both the 100- and the 200-yard backstroke events, setting new pool records in both. Another pool record was set by freshman Jesslyn Peterson in the 200-yard breaststroke.

In what Julian called the gut-wrenching event of the meet, the 500-yard freestyle, the Irish placed first, second, and third. "It allowed us to get back into the meet. It really fired the team up," Julian said.

Other individual winners over the weekend were senior Susan Bobdan and sophomore Jenni Dahl.

Volleyball suffers surprise loss

By KEVIN DOLAN
Sports Writer

The Irish men's volleyball team suffered a surprise loss at the hands of the Purdue Boilermakers last Wednesday night in West Lafayette. Favorored to win the match, the Irish dropped Game 1 by a 15-4 margin. They went on to lose Games 2 and 3 (15-4, 15-10, 13-15, 15-13), and according to Senior Pat Madden, "It was just one of those really lousy games."

"Our passing was very ineffective," Madden said. "We were aged 10 times. We were emotionally flat. We were just bad." The Irish suffered similar problems in their previous match against Michigan State, another road match.

To add to the Irish misery, Madden was out with an achilles tendon injury. Madden hopes to suit up for the match against Michigan at Illinois-Chicago, but is unsure of the extent of the injury. "No one has looked at it yet," he said.

For an Irish team that is already missing P.J. Stettin, another key player will be hard to replace. However, Madden feels that the loss was good for the Irish. "Some of our greatest matches have come after big losses like this." The Irish play Illinois-Chicago for the first time ever on Wednesday. According to Madden, "No one knows what to expect."

Fencers stand fast in the face of east coast competition

By KEVIN JANICKI

It was supposed to be the toughest meet of the year for both fencing squads, but the Irish fencers fared well on their east coast trip over the weekend, according to men's coach Mike De Cicco.

The Notre Dame men's fencing team improved its record to 14-1 while the women bettered their record to 9-2 in New York and Princeton, New Jersey.

The Irish men earned four victories on the weekend, most notably a 16-11 win over defending NCAA champions Columbia. Other wins came against Princeton, St. John's and NYU on Saturday.

On Sunday, the Irish fell to Princeton 7-2 over Columbia led by junior Gregorzewicz and seniors Geoff Pianell, Kevin Dierickx, and Per Johnson. The Irish fencers fell to 5-4.

"We had a letdown Sunday," said De Cicco, referring to the loss to Princeton, "but we still came away 4-1 against five tough teams from the east. This is a great team and we have a lot of positives to build on against the top teams around the country and will give our fencers some confidence in the future.

The Irish women were able to beat Princeton along with Rutgers, St. John's, and NYU. However, Columbia edged the Irish 5-7 in a close match. Freshman Barbara Santry turned in a strong performance on Saturday against some of the nation's best to lead Notre Dame.

Irish seek ninth against Bonnies

By JENNY MARTEN

The Notre Dame men's basketball team (8-9) is getting closer to where it wants to be. After almost upending the No. 10 UCLA Bruins on Sunday afternoon, the Irish are looking to maintain their intensity when they face St. Bonaventure (9-7) for the second time since the 1988-89 season tonight at the Joyce ACC.

"The UCLA game was, obviously, in our opinion a very wonderful game. We had opportunities. We couldn't finish the game. We didn't complete the task, but I think the game indicates to our players that we have shown improvement," said head coach John Beilein.

St. Bonaventure comes into the game with a two-game losing streak after dropping games to West Virginia and Massachusetts. Despite these two losses, they boast four players in double figures.

Forward Harry Moore leads the team with 19.7 points and 8.1 rebounds per game and has connected on 45 of 131 free throws. MacLeod feels the inside player should be a factor in the game.

"We don't have anyone close to that (attempted free throws) on our team which indicates he's taking the ball to the basket and we don't have anyone like that on our team," said MacLeod.

Rounding off the hot-shooting foursome are guard Nii DeCicco (13.6), forward Fouiza Nelson (12.4), guard Dan Stiles (12.3) and guard David Vanterpool (11.9) not far behind. Monty Hunter is the team's leading scorer with 19.7 points and 8.1 rebounds per game and has connected on 45 of 131 free throws. MacLeod feels the inside player should be a factor in the game.
